9. Please attach your curriculum vitae to your completed disclosure form.		

Signature

Date: 3-15-2013

Clair J. Moeller, P.E.

Executive Vice President of Transmission & Technology

As an executive leader of the office of the Chief Operating Officer, Mr. Moeller is responsible for MISO's transmission planning functions, transmission services and information technology. He is a well-respected industry expert with more than 25 years of experience in the operation of power systems in the Upper Midwest.

Mr. Moeller is skilled at identifying and implementing best practices in transmission planning and operations. His current focus is infrastructure planning in collaboration with the utilities that serve the 11 states and one Canadian province that comprise the MISO region. Under his guidance, transmission planners in the region have begun to explore transmission infrastructure value by utilizing techniques borrowed from generation and strategic planners in an effort to give policymakers context for the decisions they will face as the electric energy future unfolds.

Mr. Moeller completed the Executive Management program at the Carlson School of Business, University of Minnesota, and earned a Bachelor of Science degree in electrical engineering from Iowa State University.
