## **Scott D. Sheffield** **Chairman and Chief Executive Officer**

Scott Sheffield, a distinguished graduate of The University of Texas with a BS in Petroleum Engineering, is Chairman and Chief Executive Officer of Pioneer Natural Resources.

The son of an ARCO international executive, Scott Sheffield attended high school in Tehran, Iran. After graduating from the University of Texas in 1975, he began his career as a reservoir engineer with Amoco Production Company.

In 1979, Scott became the fifth employee of Parker & Parsley Petroleum Company in Midland, Texas, where he was the sole staff engineer. By 1985 he was CEO of Parker & Parsley and became Chairman in 1991.

Under Scott's leadership, Parker & Parsley merged with MESA, Inc. in 1997 to form Pioneer Natural Resources Company. Scott has held the position of Chief Executive Officer since the merger and assumed the position of Chairman of the Board in August 1999.

Today, Pioneer is a large independent E&P company with 845 million BOE proved reserves, an enterprise value of \$34 billion and approximately 4,000 employees. Pioneer is considered a leader in developing liquids-rich shale plays and was ranked as the third most active operator in the United States.

During his career, Scott has lead successful international ventures in Argentina, Australia, Canada, South Africa and Tunisia; and Pioneer has been a leading explorer in the Deepwater Gulf of Mexico. All of these ventures have been divested in order to focus the Company on domestic liquids-rich plays.

Under Scott's leadership, Pioneer has entered into two large joint ventures totaling approximately \$3 billion; one with Reliance Industries in the Eagle Ford Shale in South Texas and with Sinochem Petroleum in the Permian Basin in West Texas.

For the past five years Pioneer has been named as the leading energy company in the Top 100 Places to Work in the Dallas-Fort Worth area, and the Company is ranked in the Top 10 Places to Work in America.

Scott serves on various industry-related and education-oriented boards, including the National Petroleum Council, Santos Ltd., and the Maguire Energy Institute of the SMU Cox School of Business. The Permian Basin Petroleum Association recently honored Scott as the recipient of its prestigious Top Hand award which recognizes individuals who have demonstrated exceptional leadership within the oil and gas industry and the Permian Basin community. He is also a 2013 inductee into the Permian Basin Petroleum Museum Hall of Fame, memorializing those whose achievements and outstanding contributions to the industry helped build the Permian Basin. Scott has received the ADL's Henry Cohn Humanitarian Award in Dallas and the National Multiple Sclerosis Society's Hope Award in Midland.
