**Rona Newmark**  
**Vice President, Intelligent Energy Efficiency Strategy**  
**Office of Sustainability**  
**EMC Corporation**

Rona Newmark is Vice President, Intelligent Energy Efficiency Strategy, Office of Sustainability, at EMC Corporation. EMC, a leading Information Technology company, provides best-of-breed products and services to enable customers to move to cloud computing and gain value through analysis of Big Data within a trusted computing environment. The company employs 70,000 people worldwide, and supports a broad range of customers, including service providers, in every major industry, both public and private sectors, and of sizes ranging from the Fortune 500 to small business and individual consumers.

In her role, Newmark addresses two key areas: 1) EMC's products and strategies in the area of energy efficiency and energy efficiency standards, and 2) efforts within EMC and the industry to view efficiency at a system level to provide the best net energy saving to accomplish particular results. Newmark represents EMC at industry events and in industry organizations. She is on the Board of The Green Grid, where she serves as Vice Chair, as well as on multiple committees. Newmark is also active in the IT Industry, serving as the co-chair of the Information Technology Industry Council's Energy Efficiency Work Group.

Newmark joined EMC in 1999. During this time, she has led multiple product development organizations, and helped to establish one of EMC's Centers of Excellence. Prior to joining EMC, Newmark rose through the ranks at Data General Corporation where she progressed from an Engineer to Vice President. Earlier in her career, Newmark participated in a networking project that was one of the first efforts to build a wired campus in the U. S.

Newmark holds a BSCE from Case Western Reserve University.
