Professional Experience

- 2014 - *Director, Office of Energy Policy and Innovation, FERC Washington, D.C.*
- Supervise office comprised of 55 multi-disciplinary staff including economists, engineers, and policy analysts who provide technical and policy analysis of Commission policy initiatives and docketed cases.
 - Set strategic priorities for Office and Commission policy projects, provide supervisory support to ensure quality and timeliness of project deliverables, work to coordinate policy development with other Commission program offices.
 - Work with Chairman and Commissioners to determine and implement Commission priorities related to wholesale electric and natural gas market rules.
- 2009-2014 *Director, Division of Economic and Technical Analysis, FERC, Office of Energy Policy and Innovation, Washington, D.C.*
- Supervise multi-disciplinary staff of 25 economists, engineers, and policy analysts who provide economic and technical analysis of new Commission policy initiatives.
 - Supervise preparation of empirical and policy studies related to wholesale electricity market design, the integration of variable energy resources, demand response compensation, ancillary services markets, merchant transmission projects, and small generator interconnection.
- 2008-2009 *Director, Division of Energy Market Oversight, FERC, Office of Enforcement, Washington, D.C.*
- Supervised staff of 44 individuals who conduct daily oversight of FERC-jurisdictional electricity and natural gas market and provide technical support for investigations of market manipulation
 - Directed preparation of winter and summer electricity and natural gas market assessments as well as annual State of the Markets report
 - Directed monthly calls with state regulatory officials to review electricity and natural gas market outcomes
- 2006-2008 *Chief, Audits Branch 2, FERC, Office of Enforcement, Division of Audits, Washington, D.C.*
- Supervised the audits of compliance with Commission rules and regulations, including open access transmission rules, organized market tariff responsibilities and reliability standards enforcement obligations
 - Developed portions of the Division of Audits' annual plan for audits
- 2003-2006 *Economist, FERC, Office of Enforcement, Division of Audits, Washington, D.C.*
- Conducted operational audits of compliance with the Commission's regulations regarding open access to transmission service, Standards of Conduct and Codes of Conduct.
 - Served as a member of the team that drafted Order No. 890, a reform of the Commission's transmission open access policy.
- 2000-2003 *Associate, The Brattle Group, Washington, D.C.*
- Supervised or implemented analysis in support of potential or actual litigation or regulatory proceedings.
 - Representative projects include an evaluation of:
 - California suppliers' bidding strategies;
 - the spot electricity procurement program of a Western load serving entity;
 - the forward electricity procurement program of a Western load serving entity; and
 - the factors that contributed to the end of the Western power crisis.

- 1990-1993 *Research Assistant/Staff Economist*, Laurits R. Christensen Associates, Madison, WI.
- Provided research assistance in evaluating real-time pricing and interruptible/curtailable retail electricity rates.

Other Experience

- 2010-2012 *Adjunct Professor*, Georgetown University Public Policy Institute, Washington, D.C.
- Served as thesis advisor to six students competing empirical Master's theses focused on energy policy
