**Prepared by the Majority Staff of the Committee on Energy and Commerce. The list is based on public comments submitted by organizations and other stakeholders to the Environmental Protection Agency (EPA) in response to its proposal to lower the existing primary ozone standard of 75 parts per billion (ppb), established in 2008, to a level in the range of 65 ppb to 70 ppb. In addition, the list is also based on direct submissions to the Executive Branch from stakeholders. EPA's rulemaking docket is available at <http://www.regulations.gov/#!docketDetail;D=EPA-HQ-OAR-2008-0699>.*
