

Committee on Energy and Commerce
U.S. House of Representatives
Witness Disclosure Requirement - "Truth in Testimony"
Required by House Rule XI, Clause 2(g)(5)

1. Your Name: Kristine L. Svinicki		
2. Your Title: Commissioner		
3. The Entity(ies) You are Representing: U.S. Nuclear Regulatory Commission		
4. Are you testifying on behalf of the Federal, or a State or local government entity?	Yes X	No
5. Please list any Federal grants or contracts, or contracts or payments originating with a foreign government, that you or the entity(ies) you represent have received on or after January 1, 2013. Only grants, contracts, or payments related to the subject matter of the hearing must be listed. None.		
6. Please attach your curriculum vitae to your completed disclosure form.		

Signature: _____

Date: 04/14/16

Commissioner Kristine L. Svinicki

The Honorable Kristine L. Svinicki was sworn in for a second term as a Commissioner of the U.S. Nuclear Regulatory Commission (NRC) on June 29, 2012, to a term ending on June 30, 2017. Her first term was from March 28, 2008, to June 30, 2012.

Ms. Svinicki has a distinguished career as a nuclear engineer and policy advisor, working at the state and federal levels of government, and in both the legislative and executive branches. Before joining the NRC, Ms. Svinicki spent over a decade as a staff member in the United States Senate advancing a wide range of policies and initiatives related to national security, science and technology, and energy and the environment. She also served as a professional staff member on the Senate Armed Services Committee for the Committee's former Chairman, Sen. John Warner, R-Va., and, subsequently, for the Committee's ranking Republican member, Sen. John McCain, R-Ariz. There, Ms. Svinicki was responsible for the Committee's portfolio of defense science and technology programs and policies, and for the atomic energy defense activities of the U.S. Department of Energy, including nuclear weapons, nuclear security, and environmental programs.

Previously, Ms. Svinicki worked as a nuclear engineer in the U.S. Department of Energy's Washington, D.C. Offices of Nuclear Energy, Science and Technology, and of Civilian Radioactive Waste Management, as well as its Idaho Operations Office, in Idaho Falls, Idaho. Before that, she was an energy engineer with the State of Wisconsin at the Wisconsin Public Service Commission in Madison, Wisconsin.

Born and raised in Michigan, Ms. Svinicki earned a bachelor's degree in nuclear engineering from the University of Michigan in 1988. She is a longstanding member of the American Nuclear Society, where she served two terms on the ANS Special Committee on Nuclear non-Proliferation. In 2006, the Society honored her with its Presidential Citation in recognition of her contributions to the nuclear energy, science, and technology policies of the United States. In 2012, the Society honored her again with its Presidential Citation in recognition of her courageous leadership, dedication to public service, and unwavering commitment to a regulatory framework that enables and facilitates safe and secure use of nuclear technology. She has served as a member of the Center for Strategic and International Studies' Task Force on Global Nuclear Materials Management, and as an Expert Advisory Panel Member to the NRC on assessing the future of regulatory research needs. She was selected as a Stennis Congressional Fellow of the 108th Congress, as a Brookings Institution Legis Congressional Fellow in 1997, and as the University of Michigan College of Engineering Alumni Society Merit Award recipient for Nuclear Engineering and Radiological Sciences in 2009.
