

Committee on Energy and Commerce
U.S. House of Representatives
Witness Disclosure Requirement - "Truth in Testimony"
Required by House Rule XI, Clause 2(g)(5)

1. Your Name: Gordon van Welie		
2. Your Title: President & Chief Executive Officer		
3. The Entity(ies) You are Representing: ISO New England Inc.		
4. Are you testifying on behalf of the Federal, or a State or local government entity?	Yes	No √
5. Please list any Federal grants or contracts, or contracts or payments originating with a foreign government, that you or the entity(ies) you represent have received on or after January 1, 2015. Only grants, contracts, or payments related to the subject matter of the hearing must be listed.		
6. Please attach your curriculum vitae to your completed disclosure form.		

Signature: _____

Date: 7-21-2017

Gordon van Welie
President and CEO, ISO New England Inc.

Gordon van Welie is President and CEO of ISO New England Inc. He has been actively involved since 2000 in the establishment and growth of advanced wholesale electricity markets and a robust regional system planning process in the New England region.

New England's resources are undergoing a dramatic transformation from oil, coal, and nuclear generation to natural gas, renewable energy, and distributed resources. Gordon has led a strategic initiative to keep system reliability intact and wholesale markets competitive while the shift in fuels and technologies occur. These initiatives include addressing the interdependency between the gas and electric systems, ensuring efficient price formation, facilitating the integration of renewable, distributed, and 'smart grid' technologies, and making significant investments in the regional transmission infrastructure.

Before joining ISO New England, Gordon was the Vice President and General Manager of the Power System Control business for Siemens, which supplies energy and distribution management systems to electric utilities. Earlier in his career, he worked in various transmission and distribution control system engineering roles with the South African utility, Eskom.

Gordon is a member of ISO New England's Board of Directors, as well as a number of industry groups, including the Executive Committee of the U. S. National Committee of CIGRE, the Member Representatives Committee of the North American Electric Reliability Corporation (NERC), the ISO/RTO Council, and the IEEE Power & Engineering Society. In 2017, he was elected as a member of the National Academy of Engineering.

He is a recipient of 2017 Utility Variable-Generation Integration (UVIG) Achievement Award and, in 2016, was awarded the IEEE Power & Energy Society Leadership in Power Award.

He holds a Bachelor of Science degree in Electrical Engineering and a Masters degree in Business Administration from the University of Witwatersrand in Johannesburg, South Africa.
