Signature: 

Date: September 29, 2017

John Moore

**Senior Attorney and Director, Sustainable FERC Project
Natural Resources Defense Council**

John Moore is the Director of **The Sustainable FERC Project**, a coalition-based initiative housed within Natural Resources Defense Council. The Project promotes the transition to a cleaner, low-carbon, and sustainable energy future through reforms to FERC-jurisdictional markets, operations, and planning. Our priority is to integrate wind, solar, energy efficiency, demand response, energy storage, and similar low-carbon resources into the electric grid. (Visit www.sustainableFERC.org to learn more about the Project's work.)

Mr. Moore advocates on behalf of the Project and other clean energy and environmental groups at the Federal Energy Regulatory Commission and at PJM, MISO and other regional transmission organizations. Mr. Moore also represents the Environmental Sector on the Advisory Committee of the Midcontinent Independent System Operator. He is a regular speaker on topics such as market design, reliability issues, energy efficiency and demand response, and renewable energy development.

Mr. Moore previously was a Senior Attorney at the Environmental Law and Policy Center in Chicago, where he specialized in conceiving and developing clean energy policies at RTOs and on federal Farm Bill clean energy development policies. He started his career in Washington, DC as an environmental attorney at the firms Akin Gump and Squire Patton Boggs.
