

Committee on Energy and Commerce
U.S. House of Representatives
Witness Disclosure Requirement - "Truth in Testimony"
Required by House Rule XI, Clause 2(g)(5)

1. Your Name: Harold G. Hamm		
2. Your Title: Chairman and Chief Executive Officer		
3. The Entity(ies) You are Representing: Continental Resources and the Domestic Energy Producers Alliance (DEPA)		
4. Are you testifying on behalf of the Federal, or a State or local government entity?	Yes	No X
5. Please list any Federal grants or contracts, or contracts or payments originating with a foreign government, that you or the entity(ies) you represent have received on or after January 1, 2015. Only grants, contracts, or payments related to the subject matter of the hearing must be listed. None.		
6. Please attach your curriculum vitae to your completed disclosure form. Biography and photo is attached.		

Signature: 

Date: 6-21-18

Harold Hamm

Founder, Chairman and Chief Executive Officer
Continental Resources

Harold Hamm is the Founder, Chairman, and Chief Executive Officer of Continental Resources. Growing up in rural Oklahoma, he was the last of 13 children born to sharecroppers. He went to work in the oil fields as a teenager and established Continental Resources in 1967 at the age of 21. Today, Continental Resources is a top-10 oil producer in the United States and is publicly traded on the New York Stock Exchange.

Mr. Hamm serves as Chairman of the Domestic Energy Producers Alliance (DEPA), which aims to preserve the millions of jobs and billions of dollars in economic activity and tax revenues generated by onshore drilling and production activities within the U.S. Through DEPA, Mr. Hamm is widely recognized as the man who worked tirelessly to help lift America's 40-year-old ban on U.S. crude oil exports. As a voice for America's oil and natural gas industry, he's on a mission to change the world forever by moving our country from energy scarcity to abundance and achieving American energy independence.

Mr. Hamm also serves on the board of the National Fish & Wildlife Foundation and America First Policies. His industry leadership includes serving as past Chairman and present board member of the Oklahoma Independent Petroleum Association, as a founding board member of the Oklahoma Energy Resources Board, and as past president of the National Stripper Well Association. In addition, Mr. Hamm served as Founder and Chairman of Save Domestic Oil, which successfully brought a trade case against four countries trying to put American oil and gas producers out of business.

A national leader in promoting health, education and energy industry advocacy, Mr. Hamm has devoted much time and resources to championing a healthy and secure future for all Americans. With the goal of finding a cure for diabetes, he has donated more than \$30 million to establish the world-renowned Harold Hamm Diabetes Center at the University of Oklahoma Health Sciences Center. The Harold Hamm Diabetes Center is at the forefront of diabetes research – inspiring progress toward a cure, education of health care professionals and families, optimal care for those living with diabetes, and effective prevention strategies. To further spark the minds of the world's brightest scientists, he established the Harold Hamm International Prize for Biomedical Research in Diabetes, a \$250,000 biennial award celebrating the scientific achievements of an outstanding researcher, team of researchers, or research institution.

In addition to eradicating diabetes, Mr. Hamm is dedicated to preparing the next generation of energy industry leaders. He helped establish the Harold Hamm School of Geology and Geological Engineering at the University of North Dakota. He has also funded numerous education initiatives across the nation, including college scholarships, classroom technology, and school capital campaigns.

Platts Global Energy Awards honored Mr. Hamm with a Lifetime Achievement Award for his legacy of leadership, innovation and commitment to bringing America to energy independence. He has also been named one of *TIME Magazine's* "100 Most Influential People in the World" and was inducted into the Horatio Alger Association for his outstanding leadership and triumph over adversity to achieve success. Mr. Hamm joined Bill and Melinda Gates and Warren Buffet in signing The Giving Pledge, committing to give away the majority of his wealth during his lifetime.

Mr. Hamm's global perspective on the geopolitics of oil and gas, his commitment to U.S. energy independence and his legacy of U.S. job growth has led to numerous awards and recognitions, including the U.S. Steel Tubular Products "Chief Roughneck Award," *Oil and Gas Investor* magazine's "Executive of the Year" for Continental's leadership in the Bakken, SCOOP and STACK plays and his tireless efforts to lift the ban on U.S. crude oil exports, Western Energy Alliance's "Wildcatter of the Year" for his contributions to America's energy security and the betterment of society, and the Platts Global Energy Awards "CEO of the Year" (while Continental Resources was also named "Energy Company of the Year.") Mr. Hamm was also inducted into the Oklahoma Hall of Fame and has been named the International Energy Policy Conference "Energy Advocate of the Year" and the Ernst & Young "Entrepreneur of the Year."
