

Biography of Michael Goggin

Executive Vice President

Grid Strategies LLC

Michael Goggin has worked on electricity generation, transmission, and reliability issues for more than 20 years. He has testified in dozens of state regulatory and Federal Energy Regulatory Commission proceedings. At Grid Strategies he serves as a consultant to consumer advocate, state utility regulator, grid operator, and industry clients on those topics. For the preceding 10 years he held various positions at the American Wind Energy Association, now known as the American Clean Power Association. Michael currently serves on the NERC Standards Committee. He graduated with honors from Harvard University.
