

Updated: 05/29/2013

CHERYL L. DAMBERG

BUSINESS ADDRESS:

Business Address: RAND (Health)
1776 Main Street
Santa Monica, CA 90407-2138

Business Phone: (310) 393-0411, ext. 6191

Business Fax: (310) 451-7085

Email Address: [REDACTED]

EDUCATION:

B.S. 1980 Michigan State University (Zoology/Natural Science)
M.P.H. 1983 University of Michigan, School of Public Health (Health behavior and population planning)
Ph.D. 1995 Pardee RAND Graduate School of Policy Studies (Public policy, economics)
Dissertation: *Health Care Reform: Distributional Consequences of an Employer Mandate for Workers in Small Firms.* (analysis of the Clinton health care reform proposal)

PROFESSIONAL EXPERIENCE:

November, 2002 – Present	Senior Researcher, RAND
July 2011 – Present	Pardee RAND Graduate School Faculty
November 2002-- Present	Consultant, Pacific Business Group on Health
May 1995- October 2002	Director of Research, Pacific Business Group on Health
September 1989- May 1995	Health Policy Fellow, RAND
May 1992 -- May 1995	Policy Analyst, Blue Cross of California, Woodland Hills, CA
July 1988 – August 1989	Senior Consultant, MEDSTAT Systems, Inc., Cambridge
September 1987- June 1988	Director, Business Development, General Health, Inc., Washington, DC
June 1983 -- August 1987	Research Fellow, Office of Disease Prevention and Health Promotion, U.S. Department of Health and Human Services, Washington, DC

HONORS AND SPECIAL AWARDS:

RAND Gold Medal Award (2012)
Academy Health 2010 Best Theme Abstract (Pay-for-performance): *Assessing Unintended Consequences in Pay for Performance* (2010)
RAND Gold Medal Award (2009)
Health Services Research John M. Eisenberg Article-of-the-Year Award (2008)
RAND Gold Medal Award (2006)
Finalist, White House Fellowship program (1993)
Agency for Health Care Policy and Research Dissertation grant award (1992)
Pew Charitable Trusts three-year doctoral scholarship (1989-1992)
Secretarial Award for outstanding work, U.S. Department of Health and Human Services Task Force on Women's Health (1985)
Secretarial recognition award for service, U.S. Department of Health and Human

Services Minority Health Task Force (1986)
Cash award for outstanding performance, National Institutes of Health (1982)
Jessie Smith Noyes Foundation scholarship (1982)
University of Michigan School of Public Health scholarship (1982-1983)
Dean's honor list, Michigan State University (1976-1980)

COMMITTEES AND PROFESSIONAL ACTIVITIES

- Member, National Quality Forum Cost and Resource Use Steering Committee (2013-ongoing)
- Member, e-Quality Measures Work Group, an advisory committee to the Health IT Policy Committee convened by the U.S. Department of Health and Human Services, Office of the National Coordinator for Health Information Technology (2012-ongoing)
- Guest editor, *Medical Care Research and Review*, special supplement on “Public Reporting for Consumers” (ongoing)
- Co-Chair, Center for Medicare and Medicaid Services (CMS) Technical Expert Panel to Assess the Impact of CMS Quality Measures Reporting and Payment Programs (ongoing)
- Integrated Health Care Association’s Pay-for-Performance Technical Measurement Committee (2012)
- Academy Health Quality Interest Group (founding member and committee member) (2006-2012)
- Technical Advisory Committee, California CABG Outcomes Reporting Program (2007-2012)
- Alice S. Hersh New Investigator Award Committee, Academy Health (2009-2011)
- NCQA Technical Expert Panel Member, Patient Centered Medical Home patient experience survey development (2010-2011)
- California Healthcare Foundation Hospital Report Card Technical Committee (CHART) (2009-2011)
- Executive Committee Member for the California Perinatal Quality of Care Consortium (2006-2011)
- Academy Health 2009 Annual Research Meeting Planning Committee (2009)
- Reviewer, quality of care section abstracts, 2009 Academy Health meeting (2009)
- Chair, Invited session for 2009 Academy Health meeting (2009)
- Academy Health 2008 Annual Meeting Theme Leader (Pay for Performance)
- CMS Technical Expert Panel Member, Physician Value-based Purchasing Plan development (2009)
- Chair, 2008 Academy Health Pay for Performance abstract review committee (2008)
- Massachusetts Health Quality Partners and Harvard School of Public Health Advisory Panel, Use of patient experience surveys (2009)
- National Quality Forum Cardiac Measures Technical Committee (2004)
- Integrated Health Care Association’s Pay-for-Performance Technical Committee (2001-2003)
- Reviewer, Quality: Measuring and Improving Theme Section abstracts (2007)

CURRENT RESEARCH FUNDING

HHSM-500-2012-00146G (Damberg, Principal Investigators) 9/27/2012-9/15/2014
Centers for Medicare and Medicaid Services

Survey of PDP and MA-PDP Disenrollees (\$2.6 million)

The RAND team will field a national survey of disenrollees and conduct analyses of survey results for Medicare beneficiaries who voluntarily disenrolled from their Part D prescription drug coverage to ascertain the reasons for disenrollment, generate national estimates of reasons for disenrollment, and help CMS prepare for public reporting to Medicare beneficiaries of disenrollment rates and key reasons for leaving a prescription drug plan. We will develop and test methods for displaying information to consumers and prepare summary reports for plans to use for quality improvement.

R21AG044252 (Damberg, Principal Investigator) 9/26/2012-
National Institutes on Aging \$361,000 (R21 phase)
\$2.0 million (R33 phase)

Linking Provider Cost Curves and Care Delivery Practices

We will model cost profiles of 200 physician organizations (POs) to define clusters of cost trajectories and identify care delivery structures and processes associated with different PO cost profiles, controlling for market factors. The project examines whether and how PO cost profiles shift over time in response to the VBP and what factors are associated with the ability to bend the

cost curve, which has implications for changing provider practices and use of VBP as a reform policy.

Assistant Secretary for Planning and Evaluation, DHHS \$299,700

Value-based Purchasing: Measuring Success

We will assess how to measure the performance of value-based purchasing (VBP) programs in improving health care quality and health outcomes, and the degree to which those programs have achieved that goal. Under this project, RAND proposes to: assess methods for evaluating the performance of VBP programs; describe the results of the performance of VBP programs; and consider options to improve the performance of VBP programs.

Centers for Medicare and Medicaid Services (\$3.1 million)

Analysis Related to Medicare Advantage Plan Ratings for Quality Bonus Payments

Overseeing a large study team that is conducting analyses related to the structure of the Medicare Advantage (MA) plan STAR ratings that are used for quality bonus payments. Focus is on modeling the impact of including year-to-year measures of improvement, reliability and misclassification associated with measures and the rating scheme, composites and shrinkage applications for small enrollment contracts, MA versus FFS comparisons, case mix adjustment, and measuring special needs plans.

(Damberg, Principal Investigator) 10/1/2012-6/30/2014
Centers for Medicare and Medicaid Services (\$3.5 million)

Examining the Impact of CMS' Reporting Programs

Under a subcontract to Health Services Advisory Group, RAND will conduct analyses to assess the association between performance measures used and health outcomes. Additionally, RAND will develop three provider surveys that will examine provider responses to P4P programs and measures, assess whether unintended consequences are occurring, and to identify opportunities for improving these programs.

Assessing the Impact of CMS's Value-based Purchasing and Pay-for-Performance Programs

GS-10F0275P; (Damberg, Principal Investigator) 9/30/2010-9/30/2012
Office of the National Coordinator for Health IT (\$816,000)

Efficiency Measures Associated with the Use of Electronic Health Records

RAND is working to identify candidate efficiency measures and/or measure concepts that could be immediately deployed or, with additional development work, could be implemented in the near-term to assess efficiency gains from deployment of health IT. Work is designed to inform the type of efficiency measures that may be included as part of Stage 3 Meaningful Use requirements for eligible providers to receive incentive payments.

(Damberg, Principal Investigator) 11/01/2010-09/01/2012
Robert Wood Johnson Foundation (\$200,00)

Designing a Value-Based Purchasing Program to Improve Quality and Control Costs—Testing the Impact of Alternative Design Considerations

The project team is modeling the impact of alternative design features of a value-based purchasing P4P program that is being proposed for use by the Integrated Healthcare Association and its stakeholders (6 health plans and 200 physician organizations). Project involves examining concentration of awards and impact on groups serving disparate populations, combining cost and quality, and setting thresholds/targets.

Centers for Medicare and Medicaid Services

Survey of PDP and MA-PDP Disenrollees (\$2.5 million)

The RAND team designed a disenrollment survey, fielded a national survey of disenrollees, and is conducting analyses of survey results for Medicare beneficiaries who voluntarily disenrolled from their Part D prescription drug coverage to ascertain the reasons for disenrollment and to generate national estimates of reasons for disenrollment.

HHSP23337009T (Damberg, co-Investigator, RAND co-PI) 5/1/2010-03/30/2012
Office of the National Coordinator for Health IT

Advancing Clinical Decision Support (\$4.0 million)

Office of the National Coordinator for Health Information Technology (ONC-HIT) funded project to accelerate the successful implementation and effective use of computer-based clinical decision support (CDS) interventions to facilitate evidence-based clinical practice and meaningful use of health IT. Task leader to identify high priority specialty-specific CDS measures for meaningful use criteria; conducted four specialty Delphi panels to rate and prioritize high priority clinical targets for clinical decision support. This work is informing the ONC Health IT Policy Committee's work related to setting Meaningful Use requirements for providers.

Robert Wood Johnson Foundation (\$299,000)

Devising Episodes of Care for Application in New Payment and Performance Accountability Models

We developed detailed episode of care constructs for 6 clinical conditions/procedures, mapped existing performance measures against the constructs, and identified gaps in available measures; goal is to advance episode frameworks for use in value-based purchasing applications.

NQF2010-2: (Damberg, Principal Investigator) 12/1/2010-11/30/2011
National Quality Forum (\$163,000)

Evaluation of Performance Measure Use

A U.S. Department of Health and Human Services funded study to conduct an independent evaluation of how end users are integrating performance measures into their work and what can be done to advance the use of performance measures for accountability, quality improvement, and value-based purchasing.

**An Examination of the Distributional Consequences of P4P: Do Different Incentive Payment
 Structures Potentially Exacerbate Disparities?**
 An empirical analysis of disparities in care in the context of pay for performance, and modeled
 alternative incentive payment structures that could be used to help close the disparities gap.
 Project evaluated the impact of P4P and base payments related to the impact on patients who are
 low income, low education, and minority.

CDCR (Damberg, Co-Principal Investigator) 11/2008-10/2009
 California Department of Corrections and Rehabilitation (\$425,000)
Establishing a Sustainable Quality Measurement System for California Prisons
 Project identified a set of quality indicators that could be used to establish a sustainable quality
 measurement system for California prisons

Grant 04-1587 (Damberg, Principal Investigator) 07/01/06 – 12/31/2011
 California Healthcare Foundation (\$300,000)
California Integrated Healthcare Association (IHA) Evaluation
 A five-year longitudinal evaluation of the impact of the IHA pay-for-performance program.

 Center for Medicare and Medicaid Services (\$1.0 Million)
Hospital Pay for Performance: Assessment of Options and Plan for Development of Medicare
 RAND provided an environmental scan of hospital P4P programs nationally and conducted a
 literature review on the evidence of P4P programs in the hospital setting to provide a foundation
 to inform the design of a hospital value-based purchasing (VBP) program for Medicare. RAND also

worked directly with CMS to develop the VBP plan and prepared the Report for Congress (this plan has now become law through the Accountable Care Act).

Contract: 290-02-0010 AHRQ (Damberg, co-Principal Investigator) 9/16/02 - 9/15/08
Patient Safety Program Evaluation Center (\$7.0 million)

In this project, a research center will be established with the goal of evaluating the program of research on patient safety that has been funded by the Agency for Healthcare Research and Quality over the past decade. The specific aims of the center are to provide information to AHRQ that will help the agency determine whether its patient safety research program is (1) comprehensive enough to address the many aspects of achieving safe health care practices, (2) focused on effective identification and dissemination of the most successful techniques, and (3) documented to achieve the goal of improved patient safety in the U.S.
