Washington, D.C. 20515-1011

HR 1473: SUPPORT

Dear Dr. Gingrey:

The Doctors Company supports the Standard of Care Protection Act, HR 1473.

This important legislation will help to prevent an unintended expansion of physician liability based on federal payment or treatment guidelines.

The Doctors Company was founded by doctors and for doctors in 1976 and is committed to advancing, protecting and rewarding the practice of good medicine. TDC is the nation's largest physician-owned medical professional liability insurer with more than 73,000 members nationwide.

Thank you for your leadership on this issue.

Sincerely,

Richard Anderson, MD, FACP
