

ONE HUNDRED FOURTEENTH CONGRESS  
**Congress of the United States**  
**House of Representatives**  
COMMITTEE ON ENERGY AND COMMERCE  
2125 RAYBURN HOUSE OFFICE BUILDING  
WASHINGTON, DC 20515-6115  
Majority (202) 225-2927  
Minority (202) 225-3641

May 17, 2016

Dr. Mona Hanna-Attisha  
Program Director, Pediatric Residency  
Hurley Children's Hospital  
1 Hurley Plaza  
Flint, MI 48503

Dear Dr. Hanna-Attisha:

Thank you for appearing before the Subcommittee on Health and the Subcommittee on Environment and the Economy on April 13, 2016, to testify at the hearing entitled "Flint Water Crisis: Impacts and Lessons Learned."

Pursuant to the Rules of the Committee on Energy and Commerce, the hearing record remains open for ten business days to permit Members to submit additional questions for the record, which are attached. The format of your responses to these questions should be as follows: (1) the name of the Member whose question you are addressing, (2) the complete text of the question you are addressing in bold, and (3) your answer to that question in plain text.

To facilitate the printing of the hearing record, please respond to these questions with a transmittal letter by the close of business on May 27, 2016. Your responses should be mailed to Graham Pittman, Legislative Clerk, Committee on Energy and Commerce, 2125 Rayburn House Office Building, Washington, DC 20515 and e-mailed in Word format to [graham.pittman@mail.house.gov](mailto:graham.pittman@mail.house.gov).

Thank you again for your time and effort preparing and delivering testimony before the Subcommittees.

John Shimkus  
Chairman  
Subcommittee on Environment  
and the Economy

Sincerely,

Joseph R. Pitts  
Chairman  
Subcommittee on Health

cc: The Honorable Gene Green, Ranking Member, Subcommittee on Health  
The Honorable Paul Tonko, Ranking Member, Subcommittee on Environment and the Economy

Attachment

**Attachment — Additional Questions for the Record**

**The Honorable Lois Capps**

1. Can you describe the long term implications of the crisis, and how this will impact Flint's children over the course of their lives? In your experience as a physician on the front lines in Flint—what do you perceive to be the greatest barriers, particularly when accessing data on contamination, to coordinating a public health response to a crisis of this magnitude?
  
2. Flint has shown us that we must invest in our nation's future by supporting our infrastructure as well as our preparedness moving forward. What mechanisms and collaborative efforts can be put in place moving forward to ensure that we do not see a repeat of the crisis we experienced in Flint in another community?
