Representative Frank Pallone, Jr.
Ranking Member of the U.S. House of Representatives
Energy and Commerce Committee
237 Cannon House Office Building
Washington, DC 20515

RE: U.S. House of Representatives, Energy and Commerce – Subcommittee on Health: "Combating the Opioid Crisis: Prevention and Public Health Solutions;" Amendment in the Nature of a Substitute to H.R. 3545 - "Overdose Prevention and Patient Safety Act"

Dear Chairman Walden and Ranking Member Pallone:

We, the undersigned national, state, and local organizations *strongly support maintaining the core protections of the federal substance use disorder patient confidentiality law ("42 U.S.C. § 290dd-2") and its regulations "42 CFR Part 2,"* (referred to collectively as "Part 2,") to effectively protect the confidentiality of patients' records. The Substance Abuse and Mental Health Service Administration ("SAMHSA") recently twice amended the patient privacy regulations in order to facilitate the objective of providing integrative care between substance use disorder ("SUD") and other health care information.

We remain concerned that using a weaker HIPAA Privacy Rule standard of allowing disclosures of SUD information without patient consent for treatment, payment, health care operations, or other purposes other than those currently allowed by Part 2 – will contribute to the existing level of discrimination and harm to people living with substance use disorders. This will only result in more people who need substance use disorder treatment, being discouraged and afraid to seek the health care they need during the nation's worst opioid crisis.

We strongly support maintaining Part 2's core protections for SUD information, instead of those of a weaker HIPAA Privacy standard as described in the Amendment (in the Nature for a Substitute) for H.R. 3545 for the following reasons:

1. The heightened privacy protections in Part 2 are as critical today as they were when they were enacted more than 40 years ago and must be preserved.
2. In the midst of the worst opioid epidemic in our nation's history, we must do everything possible to increase – not decrease – the number of people who seek treatment.
3. SUD is unique among medical conditions because of its criminal and civil consequences and the rampant discrimination people face.
4. With so much at stake, patients in SUD treatment should retain the right to consent when and to whom their records are disclosed, as currently found in Part 2.
5. Effective integration of SUD treatment with the rest of the health care system is critically important, and information exchange in accordance with confidentiality law and current technology is now possible. To facilitate that process, SAMHSA recently amended the Part 2 regulations to further promote the integration of confidential SUD information into general health records.

We respectfully request that the House Energy and Commerce Committee maintain the current confidentiality protections of Part 2 to support individuals entering and staying in SUD treatment and recovery services.

Sincerely,

CAMPAIGN TO PROTECT PATIENT PRIVACY RIGHTS:
