

Jeanne Marrazzo, MD, MPH, FACP, FIDSA

Dr. Marrazzo is Professor of Medicine and Director of the Division of Infectious Diseases at the University of Alabama at Birmingham (UAB). She is internationally recognized for her research and education efforts in the field of sexually transmitted infections, especially as they affect women's health and in the setting of HIV. She is a Fellow of the American College of Physicians and of the Infectious Diseases Society of America (IDSA), and was elected Treasurer of the IDSA in 2021, having served on the board since 2018. She was Chair of the American Board of Internal Medicine Council from 2015-2018.

Dr. Marrazzo has a broad research portfolio that includes the relationships between the vaginal microbiome and female reproductive tract infections, hormonal contraception, and risk of STI/HIV acquisition. She leads UAB's participation in the RECOVER trial, funded by NIH to study post-acute sequelae of SARS-CoV-2 infection, and a large clinical trial of the meningococcal Group B vaccine rMenB+OMV NZ (Bexsero) to prevent gonococcal infection. She chairs the Biomedical Science Committee of the HIV Prevention Trial Network, the group tasked with integrating the biomedical science agenda across numerous clinical trials of antiretroviral prevention agents. She is also a Co-PI of the NIH-funded Infectious Disease Clinical Research Consortium that leads the Vaccine Treatment and Evaluation Units as well as NIH-funded STI clinical trials. She has been a leading voice in educating colleagues, the community, and the media during the COVID-19 pandemic, appearing regularly on media outlets including CNN, MSNBC, and NPR, and featured in the New York Times, Washington Post, and Wall Street Journal.
