

Benjamin Nguyen Biography

Dr. Benjamin Nguyen is a healthcare and AI product leader. At Transcarent, Dr. Nguyen currently leads the internal AI product team that is expanding the Transcarent Clinic's suite of virtual care AI tools while maintaining the highest standards for patient safety. Throughout his career he has led teams to build AI products ranging from hospital AI deployment platforms, radiology AI safety applications, and chatbots for patients. He is also a guest lecturer at the University of Southern California, where he teaches about AI fundamentals and safety in healthcare. Dr. Nguyen received his Doctor of Medicine degree at the Keck School of Medicine of USC, as well as graduate specialization certificates from the Marshall School of Business and the Viterbi School of Engineering for Technology Commercialization and Health Technology Engineering respectively.
