**Meredith Baker**

President and CEO

CTIA

Meredith Attwell Baker joined CTIA as its President and CEO in June 2014. She brings extensive experience on spectrum issues and wireless policy and a keen understanding of how government and business must work together to drive innovation.

Prior to joining CTIA, Mrs. Baker served as the Senior Vice President of Government Affairs at Comcast NBCUniversal where she was responsible for developing policy positions on legislative and regulatory issues and representing those positions before the U.S. Congress, the Administration and government agencies.

Appointed by President Barack Obama in 2009, Mrs. Baker served as a Commissioner to the Federal Communications Commission (FCC) until June 2011. During her tenure, she championed a forward-looking approach to spectrum management issues as well as a flexible regulatory environment to encourage continued innovation and competition in the technology and telecommunications industries.

Prior to joining the FCC, Mrs. Baker served in the Bush Administration as the Acting Assistant Secretary of Commerce for Communications and Information as well as the Acting Administrator of the National Telecommunications and Information Administration (NTIA). While at NTIA, she facilitated the nation's historic transition to digital television, which freed commercial spectrum for wireless companies, and promoted market-based policies that encouraged innovation; served on delegations representing the United States at major international telecommunications conferences; and engaged in bilateral discussions with senior level officials from countries around the world to encourage investment in the United States.

Mrs. Baker holds a B.A. from Washington & Lee University and a law degree from the University of Houston. She is a member of the Texas State Bar.

Mrs. Baker and her husband Jamie reside in McLean, Virginia. She has four stepdaughters.
