

ONE HUNDRED FIFTEENTH CONGRESS
Congress of the United States
House of Representatives
COMMITTEE ON ENERGY AND COMMERCE
2125 RAYBURN HOUSE OFFICE BUILDING
WASHINGTON, DC 20515-6115
Majority (202) 225-2927
Minority (202) 225-3641
December 13, 2017

Mr. David Broecker
CEO
Indiana Biosciences Research Institute
6827 West 96th Street
Zionsville, IN 46077

Dear Mr. Broecker:

Thank you for appearing before the Subcommittee on Communications and Technology on Thursday, November 16, 2017, to testify at the hearing entitled "The Race to 5G and its Potential to Revolutionize American Competitiveness."

Pursuant to the Rules of the Committee on Energy and Commerce, the hearing record remains open for ten business days to permit Members to submit additional questions for the record, which are attached. The format of your responses to these questions should be as follows: (1) the name of the Member whose question you are addressing, (2) the complete text of the question you are addressing in bold, and (3) your answer to that question in plain text.

To facilitate the printing of the hearing record, please respond to these questions with a transmittal letter by the close of business on Friday, January 5, 2018. Your responses should be mailed to Evan Viau, Legislative Clerk, Committee on Energy and Commerce, 2125 Rayburn House Office Building, Washington, DC 20515 and e-mailed to Evan.Viau@mail.house.gov.

Thank you again for your time and effort preparing and delivering testimony before the Subcommittee.

Sincerely,

Marsha Blackburn
Chairman
Subcommittee on Communications and Technology

cc: The Honorable Michael F. Doyle, Ranking Member, Subcommittee on Communications and Technology

Additional Questions for the Record

The Honorable Gus Bilirakis

1. Your testimony focuses on how 5G improves quality of care. Healthcare affordability continues to be a major concern for my constituents. A Deloitte study suggests that telehealth programs can have a 50% reduction in medical costs associated with chronic heart failure. A separate poll states that most healthcare executives believe 5G will reduce patient costs. Can you tease out how 5G will equate to better health outcomes at lower cost?
