

Harold Arnold
President, Fram Renewable Fuels L.L.C.

Harold has been involved in the forest industry his entire working life. He spent more than 23 years in the Forest Resources Division of Hercules Inc. and held the position of Western Region Superintendent prior to his leaving Hercules in 1995. Since then, he has exported chips and other forest products through port facilities at Savannah, handled a variety of consulting projects for forest products industries in the South, and completed several international forestry related assignments as a consultant for the United States Agency for International Development. Harold joined Fram Renewable Fuels, LLC in October 2005. His industry knowledge led to the development of Fram's first wood pellet facility in Baxley, Georgia. Appling County Pellets was constructed and began producing in late 2007. Since then he has played a pivotal role in the development of the business and customer relationships that are so vitally necessary in this business. As the industry continues to grow Harold enhances the profile of Fram to further develop the wood pellet industry in the Southeast United States.
