Answers to Nos. 5&8: I have not personally been the recipient of any Federal grants or subgrants. Microsoft does business with almost every federal agency. It has some direct contracts with government agencies. However, in the overwhelming majority of instances, Microsoft serves as a subcontractor to a prime contractor that directly contracts with the government or offers goods and services to the government via an existing contracting vehicle, such as the GSA schedules. Some of the contracts and subcontracts for federal government business may be classified.
