

Timothy J. Gay – Football Bio

Timothy Gay was born in Ashtabula, Ohio on 23 March, 1953. He was raised in Pleasant Hill, Ohio, a farming community of 1000 people in western Ohio. An only child, his parents are William Gay (deceased), a pastor in the United Church of Christ, and Annabeth McClelland Gay, a retired church musician. Gay attended Phillips Academy in Andover, Massachusetts, graduating in 1971. At Andover, he was the manager of the varsity football team his senior year. Players on that team included Bill Belichick, who has coached the New England Patriots to three Super Bowl victories, and Ernie Adams, an assistant coach and Director of Research with the New England Patriots.

Gay got a B.S. in physics from the California Institute of Technology, Pasadena, California in 1975. While at Caltech he played tackle for its football team, a squad so notoriously inept that it was profiled by the Wall Street Journal in the fall of 1974. (A typical Caltech season record was 1-7, against such football powerhouses as LaVerne College, Harvey Mudd College, and the University of California - Riverside (freshmen).)

Upon graduating from Caltech, Gay matriculated at the University of Chicago, where he earned his Ph.D. in Experimental Atomic Physics in 1980. He then worked as a Research Physicist and Lecturer at Yale University until 1983, when he joined the faculty at the Missouri University of Science and Technology. Since 1993, he has been a Professor of Physics at the University of Nebraska - Lincoln.

Gay's research interests center on the scattering of electrons by atomic and molecular targets and elementary particle physics. His research group has been funded continuously for 30 years by the National Science Foundation, the Department of Energy, and NASA. During his career, Gay has been the principle investigator on more than \$6 million of grants, and has published more than 90 articles in the refereed scientific literature. He is a Fellow of the American Physical Society, and served as the Chair of its Division of Atomic, Molecular, and Optical Physics in 2006.

Gay wrote the book *The Physics of Football* (Harcourt Brace 2005), and has been a consultant on football gear for a number of sports equipment companies.

He married Chris Nothstine of St. Charles, Missouri in 1975. She is a math teacher at Lincoln Southeast High School. They have two children, Frederick and Bertram. Besides being a rabid Cornhuskers fan, Gay's hobbies are Civil War history and rock & roll music.

PRESENT POSITION

Professor, Department of Physics and Astronomy, University of Nebraska (1993 –)

**PREVIOUS ACADEMIC
AND RESEARCH
POSITIONS**

Professor (1992–93), Associate Professor (1989–92), Assistant Professor (1984–89), Research Assistant Professor (1983–84), Physics Department, University of Missouri–Rolla

Research Associate and Lecturer (1982-1983), Research Staff Physicist and Lecturer (1980-1982), Physics Department, Yale University

Graduate Laboratory Fellow, Physics Division, Argonne National Laboratory (1978 – 1980)

Undergraduate Summer Student Fellow, Physics Division, Argonne National Laboratory (1974)

Undergraduate Teaching Assistant, Physics Department, California Institute of Technology (1974 – 1975)

Undergraduate Research Assistant, Geology and Geophysics Department, California Institute of Technology (1972 – 1975)

EDUCATION

University of Chicago — Ph.D., 1980 (Physics)
S.M., 1976 (Physics)

California Institute of Technology – B.S., 1975 (Physics)

Phillips Academy, Andover, Massachusetts

HONORS & AWARDS

Outstanding Referee Award, American Physical Society (2009)

Fellow, American Physical Society (elected 1994) *“For his studies of fundamental atomic collision processes, particularly with regard to spin-dependent effects, and for important contributions to the development of polarized electron technology.”*

Graduate Laboratory Fellowship, Argonne National Laboratory (1978 – 1980)

Outstanding Teacher Award, University of Missouri–Rolla, 1987, 1988, 1990, 1991

Faculty Excellence Award, University of Missouri-Rolla, 1987, 1988, 1989, 1990, 1991, 1992 (only Assistant Professor to receive this award in 1987, 1988)

Certificate of Recognition for Contributions to Students, University of Nebraska Parents Association, 1995, 1999, 2004, 2006, 2007, 2010, 2012

GRANT SUPPORT

National Science Foundation, “Polarized Electron Physics,” including Research Experiences for Undergraduate (REU), International Programs (INT), and Research Opportunity Award (ROA) supplements; \$5,344,289; 4/1/86 – 8/1/15 (principal investigator).

National Science Foundation Major Research Instrumentation (MRI) Award, “Development of a Rubidium Spin Filter” \$370,000 (including \$90,000 matching funds from UNL); 8/01/08 – 7/31/11 (principle investigator)..

National Science Foundation, “Determination of the Electron Neutrino Rest Mass via Tritium Decay;” \$51,242; 8/01/03 – 7/31/08 (principle investigator; subcontract to the University of Texas – Austin).

Department of Energy, “Experimental Investigations of Electron Capture from Atomic Hydrogen and Deuterium by Alpha Particles;” \$262,278; 9/15/84 – 9/14/93 (principal investigator).

GRANT SUPPORT

(continued)

National Science Foundation, “Stringent Tests of Theory for Fundamental Ion–Atom Collisions;” \$1,068,321; 6/1/84 – 1/01/91 (co-principal investigator).

NASA Nebraska Space Grant, “Collisions Between Polarized Electrons and Chiral Molecules;” Graduate Fellowship; \$7,000; 9/11 – 8/14 (co-principal investigator).

University of Missouri Weldon Spring Grant, “Polarized Electron–Atom Collisions;” \$27,364 (principal investigator).

University of Missouri Research Initiative Grant, “Laser-Polarized ^3He Neutron Spin Filter;” \$44,738; 2/93 – 2/94 (co-principal investigator).

Center for Materials Research and Analysis, University of Nebraska, “A Spin–Polarized Electron Source for Studies of Magnetism;” \$14,000; 1/1/94–12/31/94 (principal investigator).

National Science Foundation Instrumentation Grant, “Acquisition and Construction of a Spin-Polarized Inverse Photoemission Spectrometer;” \$80,727; 7/1/94 – 12/31/95 (co-principal investigator).

Center for Materials Research and Analysis, University of Nebraska, “The Electronic Structure of Molecular Cluster Films;” \$10,730; 6/1/94 – 12/31/94 (co-principal investigator).

National Science Foundation EPSCoR Grant; Subcontract to “Nanostructured Devices Group;” \$42,552; 7/1/95 – 6/30/96 (co-principal investigator).

Center for Materials Research and Analysis, University of Nebraska, “Construction of a Compact Mott Polarimeter;” \$10,000; 9/1/96 – 6/30/97 (principal investigator).

NATO Collaborative Research Grant, “Manifestations of Chirality in Molecular Physics;” \$11,000; 11/1/97 – 12/31/99 (with E. A. Seddon, Daresbury Laboratory, UK).

University of Nebraska Research Council, “Exotic Chiral Compounds;” \$2,985; 5/1/97 – 4/31/99 (principal investigator).

University of Nebraska Faculty Fellowship Program, “Collaborative Research, University of Texas;” \$2,500; 9/1/01 – 6/30/02 (principle investigator).

University of Nebraska; Undergraduate Research (Funded by the NSF and Pepsi Foundation); \$31,100; 2001-20013 (principle investigator).

INVITED TALKS

130 invited physics colloquia and seminars at universities and government laboratories in the United States, Canada, Great Britain, France, and Germany.

Conference on the Application of Accelerators in Research and Industry (Denton, Texas; 11/86).

International Symposium on Ion-Atom Collisions X (Frankfurt, FRG; 7/87).

Symposium on Atomic Spectroscopy and Highly-Ionized Atoms (Argonne National Laboratory; 8/87).

Conference on the Application of Accelerators in Research and Industry (Denton, Texas; 11/88).

Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (Monterey, California; 5/90).

Conference on the Application of Accelerators in Research and Industry (Denton, Texas; 11/90).

Sixth International Symposium on Correlations and Polarization in Electronic and Atomic Collisions and (e,2e) Reactions (Adelaide, South Australia; 7/91).

Forty-fifth Annual Gaseous Electronics Conference (Boston, Massachusetts; 10/92).

Eighteenth International Conference on the Physics of Electronic and Atomic Collisions (Aarhus, Denmark; 7/93).

Applications of He Optical Pumping: A Colloquium Dedicated to the Memory of Laird Schearer (Paris, France; 6/94).

Peter Farago Symposium on Electron Physics (Edinburgh, Scotland; 4/95).

Workshop on Polarized Electron Sources and Low-Energy Polarimeters (Amsterdam, Netherlands; 9/96).

Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (Washington, DC; 4/97).

Manfred Fink Honor Symposium, University of Texas (Austin, Texas; 9/97).

INVITED TALKS

(continued)

Wilhelm Raith Festspiel, University of Bielefeld (Bielefeld, Germany; (11/97).

Plenary Speaker, American Association of Physics Teachers Annual Summer Meeting (Lincoln, Nebraska; 8/98).

Tenth International Symposium on Correlations and Polarization in Electronic and Atomic Collisions (Beijing, China; 8/99).

Plenary Review Talk, DOE Workshop on Electron Driven Processes, Stevens Institute of Technology (Hoboken, New Jersey, 3/00).

Fifty-third Annual Gaseous Electronics Conference (Houston, Texas; 10/00).

American Physical Society General Meeting (Washington, DC; 4/01).

Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (London, Ontario, Canada; 5/01).

Twenty-second International Conference on Photonic, Electronic, and Atomic Collisions (Santa Fe; 7/01).

Workshop on Polarized Electron Sources and Polarimeters (PESP 2002) (Danvers, Massachusetts; 9/02).

Workshop on Electron Collisions with Biological Molecules, Institute for Theoretical Atomic and Molecular Physics, Harvard University (Cambridge, Massachusetts; 10/03)

Annual American Association for the Advancement of Science Meeting (Seattle, Washington; 02/04)

Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (Tucson, Arizona; 06/04).

Thirteenth International Symposium on Correlations and Polarization in Electronic and Atomic Collisions (Buenos Aires, Argentina; 8/05).

Workshop on the Forefront of AMO Science: Clusters, Ions, Dressed States (Lawrence Berkeley Laboratory Advanced Light Source User's Meeting, Berkeley, California 10/05)

Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (Knoxville, Tennessee, 05/06).

2006 User's Meeting of the SRC (Stoughton, Wisconsin, 10/06)

INVITED TALKS
(continued)

Gordon Research Conference on Atomic Physics (Tilton, New Hampshire, 7/07)

Workshop on Polarized Electron Sources and Polarimeters (PESP 2008) (Newport News, VA; 10/08).

Sixty Second Annual Gaseous Electronics Conference (Saratoga Springs, New York; 10/09).

Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (Atlanta, Georgia; 06/11).

Sixteenth International Symposium on Correlations and Polarization in Electronic and Atomic Collisions (Dublin, Ireland; 8/11).

Festspiel for Vincent McKoy, California State University – Fullerton (Fullerton, CA 6/12)

Chancellor's Distinguished Lecture, University of Nebraska (Lincoln, NE 4/13)

**PROFESSIONAL
SERVICE**

Referee for the *Physical Review* (A and B), *Physical Review Letters*, *American Journal of Physics*, *Review of Scientific Instruments*, *Journal of Physics A and B*, *Europhysics Letters*, *Measurement Science and Technology*, *Journal of Geophysical Research*, *Journal of Chemical Physics*, *Nuclear Instruments and Methods*, *Zeitschrift für Physik*, *Physica Scripta*, *Canadian Journal of Physics*, *Journale de Physique*, Journal of the IEEE, American Institute of Physics Press, NSF, NASA, Australian Research Council, Canadian Research Council, W.A. Benjamin, Inc., Worth Publishers, the National Academy of Sciences, and the Research Corporation.

External Tenure and Promotion Review Committees: University of Oklahoma, University of Toledo, University of North Texas, University of Missouri-Rolla, University of Manitoba, Denison University, University of Newcastle, Australian National University, and University of Saudi Arabia.

External Examiner on Ph.D. Thesis Committees: Australian National University (2), University of Western Australia, Flinders University.

Member of the Organizing Committee for the Eleventh International Symposium on Ion-Atom Collisions (Manhattan, Kansas; 8/89).

Organizer and Chairman of Symposium on "Spin-Polarized Atomic Physics," Annual Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (Reno, Nevada; 5/93).
Chairman of the Organizing Committee for the conference "Two-Center Effects in Ion-Atom Collisions: A Symposium Honoring M.E. Rudd on the Occasion of his Retirement" (Lincoln, Nebraska; 5/94).

Undergraduate Research Prize Selection Committee, Division of Atomic, Molecular, and Optical Physics, American Physical Society (1994).

Executive Committee, Division of Atomic, Molecular, and Optical Physics, American Physical Society (1996-99).

Exhibits Chairman, Division of Atomic, Molecular and Optical Physics/American Physical Society Centennial Meeting (1997-99).

Executive Committee, Gaseous Electronics Conference (1997-2000).

American Physical Society Centennial Speaker (1998-99).

University of Nebraska Speaker's Bureau (1998-99).

Organizer and Chairman of Symposium on "Recent Advances in Scattering of Electrons by Atoms and Molecules," American Physical

**PROFESSIONAL
SERVICE**

(continued)

Society Centennial Meeting (Atlanta, Georgia; 3/99).

Secretary/Treasurer, Division of Atomic, Molecular, and Optical Physics, American Physical Society (1999-2002).

Member of Review Panel; Experimental Atomic, Molecular and Optical Physics Program of the National Science Foundation Physics Division (1999-2000; 2002-2003; 2009-2010).

Member of Committee on Atomic, Molecular, and Optical Science (CAMOS); National Research Council (2000-2002; 2009-2011).

International Scientific Committee for the Eleventh International Symposium on Polarization and Correlation in Electronic and Atomic Collisions (2000-2001).

General Committee of the International Conference on the Physics of Electronic, Atomic, and Photonic Collisions (2001-2007).

International Scientific Committee for the Eleventh International Symposium on Polarization and Correlation in Electronic and Atomic Collisions (2001-2003).

Co-Chair, Local Organizing Committee, 2005 Meeting of the Division of Atomic, Molecular, and Optical Physics, American Physical Society (2002-2005)

Chemistry Division Review Panel, Argonne National Laboratory (2003)

International Advisory Committee for the 12th International Symposium on Polarization and Correlation in Electronic and Atomic Collisions (2004-2005)

Chair, Fellowship Committee of the Division of Atomic, Molecular, and Optical Physics of the American Physical Society (2004-2005)

Chair, Program Committee of the Division of Atomic, Molecular, and Optical Physics of the American Physical Society (2006-2007)

Vice-Chair, Chair-Elect, and Chair of the Division of Atomic, Molecular, and Optical Physics (DAMOP) of the American Physical Society (2004-2007)

Physics Policy Committee, American Physical Society (2005-2007)

Atomic, Molecular, and Optical Physics Program Review Panel, Lawrence Berkeley Laboratory (2005)

**PROFESSIONAL
SERVICE**

(continued)

National Science Foundation, Committee of Visitors, Directorate for Math and Physical Sciences (2006).

International Advisory Committee for the 13th International Symposium on Polarization and Correlation in Electronic and Atomic Collisions (2006-2007).

Chair, Nominating Committee of the Division of Atomic, Molecular, and Optical Physics of the American Physical Society (2008-2009).

Member, Meeting Improvement Committee of the Division of Atomic, Molecular, and Optical Physics of the American Physical Society (2008-2009)

Committee on Meetings, American Physical Society (2010 - 2012);
Chair (2012 – 2013)

Organizer and Chairman of Symposium on "Recent Advances in The Applications of Optical Pumping of Alkali Atoms," American Physical Society Annual DAMOP Meeting (Houston, Texas, 5/10).

International Advisory Committee for the 16th International Symposium on Polarization and Correlation in Electronic and Atomic Collisions (2010-2011).

Allis Prize Committee, American Physical Society (2011 – 2015)

Nominating Committee, Few-Body Physics Topical Group, American Physical Society (2011 – 2013)

Education Committee, Division of Atomic, Molecular, and Optical Physics (DAMOP), American Physical Society (2011 – 2014)

Chair, Task Force to Re-envision the April meeting of the American Physical Society (2013 – 2014)

PATENT

H.Batelaan, B.A.Hitt, B.G.Birdsey, and T.J.Gay. U.S. Patent 6590923, "A Rubidium Spin Filter" (1998).

STUDENTS

Ph.D.

Victor Irby (University of Missouri-Rolla, 1990),
Associate Professor of Physics, University of Southern Alabama.

Kanishka Wijayaratna (University of Missouri-Rolla, 1992),
Professor, Physics Department, University of Colombo, Sri Lanka.

Edward Stevens (University of Missouri-Rolla, 1993), Research
Assistant Professor of Physics, University of Missouri-Rolla
President, Metastable Technologies, Inc.

Kenneth Trantham (University of Nebraska, 1996), Professor
of Physics and Chair, University of Nebraska - Kearny.

Hasan Al-Khateeb (University of Nebraska, 2000), Instructor of
Physics, Jordan Institute of Science and Technology.

Benjamin Birdsey (University of Nebraska, 2003)
Lecturer, University of Western Australia

Adam Green (University of Nebraska, 2003)
Associate Professor of Physics, University of St. Thomas

Jack W. Maseberg (University of Nebraska, 2009)
Assistant Professor of Physics, Fort Hays State University

Munir H. Pirbhai (University of Nebraska, 2013)

M.S.

Steve Yallaly (University of Missouri-Rolla, 1988)
McDonnell-Douglas Corporation

William Meyer (University of Missouri-Rolla, 1991)
NASA Glenn Research Center

Kenneth Trantham (University of Missouri-Rolla, 1993)
Ph.D. University of Nebraska

Justin Zohner (University of Nebraska, 2004)
Northrup-Grumman Corporation

Jonathan Paxon Reyes (University of Nebraska, 2005)
University of Nebraska

Joshua R. Machacek (University of Nebraska, 2009)

STUDENTS (continued)

Undergraduates

80 Undergraduate Research Assistants from University of Missouri-Rolla, University of Nebraska, Western Michigan University, University of Michigan-Dearborn, Nebraska Wesleyan University, University of St. Thomas, Vassar College, Swarthmore College, Fort Hays State College, Harvey Mudd College, Evergreen College, and the University of Western Washington.

High School

Eight high school students supervised in laboratory projects.

**POSTDOCTORAL
RESEARCH
ASSOCIATES**

Murtadha A.M. Khakoo (now at California State University – Fullerton)

John Wm. Edwards (deceased)

Hans Geesmann (Daimler-Benz Corporation, Germany)

John Furst (University of Newcastle (Australia))

Martin Johnston (University of St. Thomas)

Herman Batelaan (University of Nebraska)

Mark Rosenberry (Sienna College)

Vola Andrianarijaona (Pacific Union College)
