Committee on Energy and Commerce U.S. House of Representatives

Witness Disclosure Requirement - "Truth in Testimony' Required by House Rule XI, Clause 2(g)(5)

1.	Your Name:		
	Thomas D. Bianculli		
2.	Your Title:		
	Chief Technology Officer		
3.	The Entity(ies) You are Representing: Zebra		
	Technologies Corporation		
4.	Are you testifying on behalf of the Federal, or a State or local	Yes	No
	government entity?		X

5. Please list any Federal grants or contracts, or contracts or payments originating with a foreign government, that you or the entity(ies) you represent have received on or after January 1, 2015. Only grants, contracts, or payments related to the subject matter of the hearing must be listed.

Zebra Technologies Corporation is a global leader in the fields of Enterprise Asset Intelligence (EAI) and Industrial Internet of Things (110T). To the best of my knowledge, Zebra Technologies Corporation has not received any federal grants, contracts or payments related to R&D or product development activities specifically related to the subject of the hearing.

Zebra has sold wearable technology products and barcode thermal printers and/or mobile computers to agencies purchasing under the U.S. Army AMIS AIT contracts. Approximately 15% of Zebra's sales are direct to customer and 85% of sales are made through channel (meaning Zebra is a supplier to a prime contractor which is providing the total solution to the government customer).

6. Please attach your curriculum vitae to your completed disclosure form.

Thomas D. Bianculli Chief Technology Officer Zebra Technologies Corporation

Tom Bianculli serves as the Chief Technology Officer (CTO) of Zebra Technologies Corporation.

In this role, Mr. Bianculli is responsible for the exploration of emerging opportunities and for coordinating with product teams on both advanced product development and Internet of Things (IOT) initiatives. He also leads Zebra's Chief Technology Office, which is comprised of the company's engineering, business, customer research, and design functions.

Mr. Bianculli started in the industry with Symbol Technologies, Inc., which was acquired by Motorola in 1994 and then by Zebra Technologies in 2014. Over the course of his career with the company, he has held positions of increased responsibility, including architectural and Director of Engineering roles.

Mr. Bianculli has been granted over 20 U.S. patents and is a Zebra Distinguished Innovator and Science Advisory Board Associate. He holds Bachelor of Science and Master of Science degrees in Electrical Engineering from Polytechnic University, NYU. Mr. Bianculli also serves on the Board of Directors for the School of Engineering for the New York Institute of Technology.
