Date: *April 14, 2018*

Ethan Matthew Garr

Chief Product Officer

TelTech Systems

Ethan is responsible for leading growth at TelTech Systems in South Amboy, New Jersey. TelTech is the creator of RoboKiller, the patented mobile app that won the FTC's Robocalls: Humanity Strikes Back competition.

The company also developed TrapCall, TapeACall, and SpoofCard; consumer-facing mobile apps and services that help people stop phone harassment, record calls, and maintain their privacy and security on their phones. Ethan leads the product-marketing team's focused effort to drive continuous growth. The team is comprised of growth hackers, product owners, designers, and data analysts leveraging a high-tempo testing approach to growth.

Ethan brings more than twenty years of experience developing, leading, and implementing technology, marketing, and business expansion projects for startup and growing companies.

Before joining TelTech, he led an expansion project for a jewelry and watch company that developed a consignment sales program for a large department store chain in the United States and Canada. In addition, he managed the development of a luxury apartment conversion program for a real estate development firm based in New York.

He has also led technology projects for large internet companies including Vivendi-Universal, Uproar.com, and Flipside.com. As a program manager for Vivendi's TrafficMarketplace.com, Ethan was responsible for the development, launch, and operation of TMPEXpress, a successful self-service web advertising product.

Ethan also founded and operated The Ultimate Workbench, a do-it-yourself public woodshop in Hamilton, NJ. His entrepreneurial spirit combined with growth hacking, public relations, online marketing, and business development experience has helped him develop a balanced and effective approach to growth.

A graduate of American University in Washington DC, Ethan holds a Bachelor's degree in Literature. He currently resides in New Jersey with his wife and daughter.
