

Kara Frederick is the Director of the Tech Policy Center at The Heritage Foundation. Her research focuses on “Big Tech” and emerging technology policy.

Prior to joining Heritage, she was a Fellow for the Technology & National Security Program at the Center for a New American Security (CNAS), where she concentrated on high-tech illiberalism, data privacy, and digital surveillance.

Before CNAS, Kara helped create and lead Facebook’s Global Security Counterterrorism Analysis Program. She was also the team lead for Facebook Headquarters’ Regional Intelligence Team in Menlo Park, California. Prior to Facebook, she was a Senior Intelligence Analyst for a U.S. Naval Special Warfare Command and spent six years as a counterterrorism analyst at the Department of Defense. While at the Department of Defense, she deployed three times to Afghanistan in support of special operations forces, served as a briefer to the Assistant Secretary of Defense for Special Operations/Low Intensity Conflict, and was a liaison to the National Security Agency.

Kara has testified on emerging technology issues before both chambers of Congress. She spent two years as a lecturer on technology and international affairs at the George Washington University’s Elliott School of International Affairs in Washington, D.C. and is a current Fellow with the National Security Institute’s Cyber and Tech Center at George Mason University’s Antonin Scalia Law School.

She received her MA in war studies from King’s College London and her BA in foreign affairs and history from the University of Virginia.
