1. Indiana does not have a manifest system. The state of Indiana does annual inspections of hazardous waste generators, treatment, storage, and disposal facilities during which the manifest records are checked. Under the E-manifest system, would the Indiana Department of Environmental Management be able to access the manifest documents of the participating generators, treatment, storage, and disposal facilities in the state? And, would they have to pay for access to the information?

1. If a state has not delegated enforcement of Subtitle C, what is the requirement on the manifest once it has been verified by the disposer?
