

## **John Galyen**

President – Danfoss North America

John Galyen is currently President of Danfoss North America, the largest market for an international manufacturer of high-efficiency air-conditioning, refrigeration, heating, and motion systems with annual sales of \$7 billion. He is a frequent thought leader inside and outside of Danfoss.

He has over 30 years of industry experience. Since joining Danfoss in 2001, John has held various management level positions prior to being named president in May 2011. Galyen is a commercially-focused, fiscally strong leader who is responsible for driving profitable growth across the Company's segments in North America as well as driving development in the Company's customer experience center. Galyen has been instrumental in leading the organizations growth and building a winning mindset with the 4,000 employees in the North American region.

John is active in leadership capacities of various industry associations. He is currently serving as Chairman of the Board of Director of the Air Conditioning, Heating and Refrigeration Institute (AHRI) and he holds a seat on the Board of Governors at the National Electrical Manufacturers Association (NEMA).

John has a Bachelor of Business Administration degree in Management from Northwood University. He has also completed a Strategic Leadership Programme at Ashridge Business School-Hertfordshire, UK. John resides in Baltimore, Maryland along
