

BRETT GUTHRIE, KENTUCKY
CHAIRMAN

FRANK PALLONE, JR., NEW JERSEY
RANKING MEMBER

ONE HUNDRED NINETEENTH CONGRESS

Congress of the United States

House of Representatives

COMMITTEE ON ENERGY AND COMMERCE

2125 RAYBURN HOUSE OFFICE BUILDING

WASHINGTON, DC 20515-6115

Majority (202) 225-3641

Minority (202) 225-2927

September 24, 2026

Mr. Erik D. Olson
Senior Strategic Director for Health & Food
Natural Resources Defense Council
1152 15th Street, NW
Suite 300
Washington, DC 20025

Dear Mr. Olson:

Thank you for appearing before the Subcommittee on Environment on Tuesday, February 24, 2026, to testify at the hearing entitled "From Source to Tap: A Hearing to Examine Challenges and Opportunities for Safe, Reliable, and Affordable Drinking Water."

Pursuant to the Rules of the Committee on Energy and Commerce, the hearing record remains open for ten business days to permit Members to submit additional questions for the record, which are attached. The format of your responses to these questions should be as follows: (1) the name of the Member whose question you are addressing, (2) the complete text of the question you are addressing in bold, and (3) your answer to that question in plain text.

To facilitate the printing of the hearing record, please respond to these questions with a transmittal letter by the close of business on Friday, October 23, 2026. Your responses should be mailed to Seth Ricketts Legislative Clerk, Committee on Energy and Commerce, 2125 Rayburn House Office Building, Washington, DC 20515 and e-mailed to Seth.Ricketts@mail.house.gov.

Thank you again for your time and effort preparing and delivering testimony before the Subcommittee.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gary Palmer", with a long horizontal flourish extending to the right.

Gary Palmer
Chairman
Subcommittee on Environment

cc: Paul Tonko, Ranking Member, Subcommittee on Environment

Additional Questions for the Record

The Honorable Frank Pallone, Jr. (D-NJ)

1. The Drinking Water State Revolving Fund (SRF) provides critical support to help states and water systems deliver safe, reliable drinking water to communities.
 - a. As we consider reauthorization of the SRF, what recommendations do you have for increasing access to funding and assisting communities as they address drinking water challenges?
 - b. What specific changes would be beneficial to support disadvantaged communities?
2. The Water Infrastructure Finance and Innovation Act (WIFIA) is a low-cost financial assistance program that helps communities pay for water infrastructure projects. As Congress considers ways to ensure communities can meet the water infrastructure needs, what changes should we consider to the WIFIA program?
3. In the hearing, you mentioned a “contaminant of the month” approach to addressing drinking water contaminants. How would a more wholistic approach to addressing drinking water contaminants help water systems more efficiently achieve public health goals?
4. Drinking water systems have expressed concern over polluters contaminating water supplies, and the stress this contamination can put on water systems and ratepayers. What recommendations do you have for ensuring drinking water (including source water) is protected, and that the burden of cleanup is not shifted to communities?
5. What recommendations do you have for preventing a two-tiered system in our nation, where well-resourced communities have access to safe, reliable water, while those without resources are left with the quality of water they can afford? How can a permanent, federal water affordability program help achieve this goal?
6. How can Congress ensure better transparency regarding drinking water for communities?
7. Are there any other issues related to drinking water that this Committee should consider?
