

# PREPA'S BOARD OF DIRECTORS 1953 VS 2018

## THE SAME...

- ✓ Lack of transparency
- ✓ Lack of accountability
- ✓ Lack of stakeholder representation
- ✓ Lack of vision and mission for PREPA in the 21<sup>st</sup> century

New internal-external governance representativeness model for PREPA should include:

- Properly designated representatives of low income and vulnerable communities
- Commerce and small businesses
- Health service organizations
- Industrial and communications sector
- Academia
- Democratically selected consumer representatives in a ratio that properly reflects the importance of our electrical systems to the different lifelines of Puerto Rican society
- A Vieques and Culebra resident due to their geographic location and current political isolation.
