

U.S. House of Representatives
Committee on Natural Resources
Washington, DC 20515

February 11, 2019

The Honorable David Bernhardt
Acting Secretary
U.S. Department of the Interior
1849 C Street, NW
Washington, D.C. 20240

Dear Acting Secretary Bernhardt:

In 2016, the Office of Surface Mining Reclamation and Enforcement (OSMRE) funded the National Academy of Sciences, Engineering, and Medicine (NAS) to conduct a study on, "Potential Human Health Effects of Surface Coal Mining Operations in Central Appalachia." The NAS committee had completed four meetings and was roughly halfway through its work when, in August 2017, OSMRE abruptly ordered the NAS to halt the study. We sent letters on August 25, 2017, and October 17, 2017, requesting additional information on the reasons behind the study cancellation, and received only a short response on May 1, 2018, which shed no additional light on the issues.

To assist the House Natural Resources Committee in carrying out its oversight responsibilities on this matter, please provide the following as soon as possible, but no later than March 15, 2019:

1. All documents and communications within and between employees and persons in the Immediate Office of the Secretary, the Deputy Secretary's office, the office of the Assistant Secretary for Land and Minerals Management, the Office of Surface Mining Reclamation and Enforcement, and the National Academies of Sciences, Engineering and Medicine regarding the decision to cancel the study.
2. All documents and communications within and between employees and persons in the Immediate Office of the Secretary, the Deputy Secretary's office, the Office of Surface Mining Reclamation and Enforcement, the office of the Assistant Secretary for Land and Minerals Management, and the National Academies of Sciences, Engineering and Medicine regarding the disposition of the remaining \$400,000 budgeted for this study, including a detailed account of where it was re-purposed or why it was allowed to expire rather than being re-obligated to this study.

3. All documents and communications within and between employees and persons in the Immediate Office of the Secretary, the Deputy Secretary's office, the office of the Assistant Secretary for Land and Minerals Management, and any coal company or coal industry group regarding the National Academy of Sciences study on the potential human health effects of surface coal mining in Appalachia.
4. All documents and communications between Downey Magallenes, former Deputy Chief of Staff for Policy, and Peabody Energy, the Heartland Institute, or any coal company or coal industry group regarding the National Academy of Sciences study on the potential human health effects of surface coal mining in Appalachia.
5. All documents and communications between Blake Deeley, former Advisor in the Office of Congressional and Legislative Affairs, and employees and persons in the Immediate Office of the Secretary, the Deputy Secretary's office, the Office of Surface Mining Reclamation and Enforcement, the office of the Assistant Secretary for Land and Minerals Management, or any coal company or coal industry group regarding the National Academy of Sciences study on the potential human health effects of surface coal mining in Appalachia.
6. All documents and communications between Landon "Tucker" Davis, Policy Advisor within the Office of Surface Mining Reclamation and Enforcement, and any coal company or coal industry group regarding the National Academy of Sciences study on the potential human health effects of surface coal mining in Appalachia.

Please refer to the attached instructions on how to respond to this document request. As specified therein, upon completion of the document production, please submit a written certification that a diligent search has been completed and all responsive documents have been produced to the Committee. If you have any questions about this request, please contact my staff at (202) 225-6065.

Sincerely,
