Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy & Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America *a more perfect Union*.

Sincerely,

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America a more perfect Union.

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy & Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America *a more perfect Union*.

Sincerely,

If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America a more perfect Union.

Sincerely,

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy & Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America a more perfect Union.

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy & Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America a more perfect Union.

Sincerely,

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America a more perfect Union.

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural  
Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural  
Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy &  
Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America *a more perfect Union*.

Sincerely,

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural  
Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural  
Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy &  
Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy & Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America a more perfect Union.

Sincerely,

The Honorable Raúl Grijalva  
Chairman, House Committee on Natural Resources

The Honorable Joe Manchin  
Chairman, Senate Committee on Energy & Natural Resources

The Honorable Bruce Westerman  
Ranking Member, House Committee on Natural Resources

The Honorable John Barrasso  
Ranking Member, Senate Committee on Energy & Natural Resources

Dear Chairman Grijalva, Ranking Member Westerman, Chairman Manchin, Ranking Member Barrasso:

As U.S. citizens from Puerto Rico, we are coming together to express our support for the Puerto Rico Statehood Admission Act, H.R. 1522 and S. 780, and to call on Congress to pass this legislation as quickly as possible.

Puerto Ricans have been part of the U.S. for over one hundred and twenty years and we have made countless contributions to the betterment of American society. During that time the population of Puerto Ricans stateside has grown to close to six million. Yet for the three million U.S. citizens that remain on the island, we remain disenfranchised in federal elections and subjected to unequal treatment in federal laws and programs. This reduces economic development, has robbed our poor and elderly of lifesaving healthcare, and every day breaks up our families and communities as people feel forced to move stateside to seek out better opportunities and quality of life for themselves and their children.

Congress must immediately end its inherently colonial territorial rule over Puerto Rico, because it violates America's values of democracy, equal justice under the law, and government by the consent of the governed. Beyond that, it doesn't serve either America or Puerto Rico to prolong an outdated, dysfunctional and morally corrupt form of government which its own citizens have now rejected on multiple occasions.

On November 3, 2020, an undisputable majority of 53% of Puerto Rico's voters demanded change in a locally sponsored referendum calling for full democracy and equality through statehood. While some bills in Congress, like H.R. 2070 & S. 865, seek to delay, confuse and distract from this electoral majority mandate in the name of "self-determination," only the Puerto Rico Statehood Admission Act acknowledges and responds to the freely expressed will of the people.

A majority of voters in Puerto Rico have requested statehood, now Congress must respond by officially offering it and allowing voters on the island to ratify their choice in a binding vote. To turn around and tell voters to go back to the drawing board and re-define multiple other options which the majority has rejected three times in the last eight years in favor of statehood, would not only be insulting to us, but effectively serve as a form of voter suppression. That is simply unacceptable and un-American.

We are natural born U.S. citizens and want an equal seat at the table in the federal government that writes and implements the laws that we live under. We want our full voting rights as American citizens, and would challenge any voting Member of Congress that would deny that to us to answer if their constituents would accept the second-class citizenship that we are subjected to under territory status.

We are proud to be Puerto Ricans, and also proud to be U.S. citizens, and know that there is no law that limits us from being both. So, don't let anyone tell you that statehood will somehow diminish our cultural pride and heritage. If anything, the economic progress that statehood would unleash will allow Puerto Rico to flourish in ways that will mutually benefit the Island and the States.

If you really believe in democracy, justice, government by the consent of the governed, you must not hesitate any further or give any more excuses. Congress must grant us the equal rights and equal responsibilities that we have earned with the blood of our veterans and the tears of their mothers, wives, children and families. Pass the Puerto Rico Statehood Admission Act as soon as possible and together we can help make America *a more perfect Union*.

Sincerely,
