

Graves #5

**Amendment to the Amendment in the Nature of a Substitute to H.R. 2794
Offered by Mr. Graves**

On page 2, following line 23, insert the following—

“Sec. 3. Enactment.

Any provision of this Act to withdraw areas that possess known quantities of minerals resources that are essential to renewable energy production or battery cell technology shall be repealed if the President of the United States, the Secretary of State, or officials operating under their direction are actively engaging with officials of adversarial foreign nations in an effort to encourage those nations to increase their energy production without fully leveraging domestic ability to produce those same energy resources.”
