Washington, DC 20515

December 3, 2025

Dear Chairman Westerman and Congressman Golden,

Vulcan Elements strongly supports the SPEED Act. As an American permanent magnet manufacturer that is fully decoupled from China, Vulcan Elements understands the urgency of rapidly scaling critical minerals production to meet the nation's growing demand.

The SPEED Act will accelerate critical growth in this sector by clarifying key points of understanding and streamlining the NEPA process for vital projects. This legislation will be an important enabler of American dominance in critical minerals mining, refining, and manufacturing.

Vulcan Elements applauds your work and is a proud proponent of this legislation and all efforts to unleash American critical minerals production.

Sincerely,

A handwritten signature in black ink that reads "John Maslin". The signature is written in a cursive, flowing style.

John Maslin

CEO, Vulcan Elements
