“Examining the Biden Administration’s Abandoned Mine Lands and Active Mining Programs.”

Questions from Rep. Ocasio-Cortez for Mr. Benjamin McCament, Chief, Division of Mineral Resources Management, Ohio Department of Natural Resources

1. Congress made its intention clear in the Infrastructure Investments and Jobs Act that the abandoned coal mine land reclamation funding should create good paying jobs for displaced coal workers and incentivize union labor. (30 USC 1231a (f): “priority may also be given to reclamation projects described in subsection b(1) that provide employment for current and former employees of the coal industry;” 30 USC 1231a(b)(3): “In applying for grants under paragraph (1), States and Indian Tribes may aggregate bids into larger statewide or regional contracts;” and 42 USC 18851: “all laborers and mechanics employed [...] on a project assisted in whole or in part by funding made available under this division [...] shall be paid wages at rates not less than those prevailing on similar projects in the locality”.) How are you implementing the employment priorities included in the law, and are you in touch with the United Mine Workers of America and the AFL-CIO on how best to do so?
