

Country Data

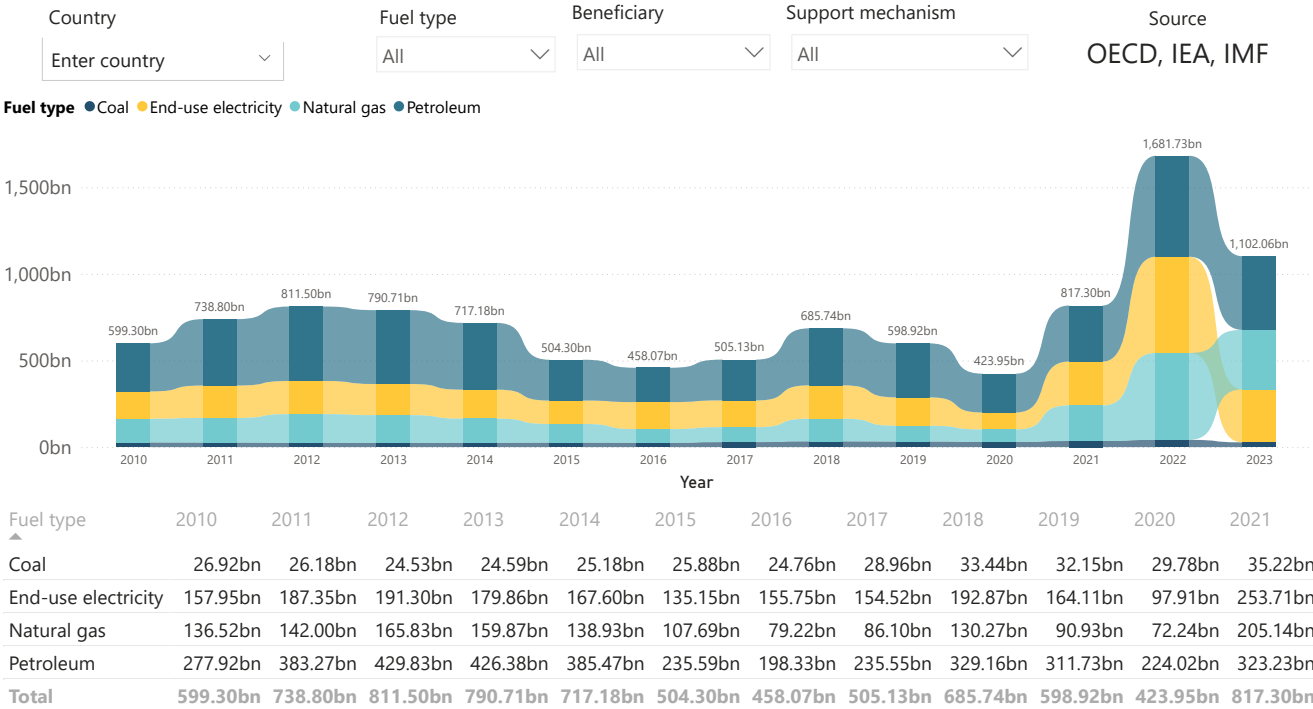

Country trends in fossil-fuel subsidies

Examine fossil-fuel subsidies by country in USD. Visualise trends by fuel type and filter by beneficiaries and support mechanism for more detailed insights. To know more about these categories, go to Methodology (<https://fossilfuelsubsidytracker.org/methodology/>). Global data in this visual might differ slightly from values displayed in the “Home” page. This is due to the methodology applied to disaggregate the data. For more information about this, visit the section “Data sources” in the Methodology (<https://fossilfuelsubsidytracker.org/methodology/>).
