

An aerial photograph showing a significant oil spill on a sandy beach. A large, dark, irregularly shaped area of spilled oil covers a significant portion of the sand in the foreground and middle ground. To the right, a narrow channel of dark oil runs along the edge of the beach. In the background, a large, calm pool of water is visible, reflecting the sky. The beach is bordered by a dune in the distance, where a few small figures of people can be seen. The overall scene is one of environmental damage.

HUNTINGTON BEACH OIL SPILL (2021)
