2 Section 2 of the Lake Tahoe Restoration Act (Public
3 Law 106–506; 114 Stat. 2351) is amended to read as fol-
4 lows:

5 **“SEC. 2. FINDINGS AND PURPOSES.**

6 “(a) FINDINGS.—Congress makes the following find-
7 ings:

8 “(1) Lake Tahoe—

9 “(A) is one of the largest, deepest, and
10 clearest fresh-water lakes in the world;

11 “(B) has a distinctive cobalt blue color, a
12 biologically diverse alpine setting, and remark-
13 able water clarity; and

14 “(C) is recognized as a natural resource of
15 special significance, so that even world-traveler
16 Mark Twain called Lake Tahoe the ‘fairest pic-
17 ture the whole earth affords’.

18 “(2) In addition to being a scenic and ecological
19 treasure, the Lake Tahoe Basin is one of the out-

1 standing recreational resources of the United States,
2 which—

3 “(A) offers skiing, water sports, biking,
4 camping, and hiking to millions of visitors each
5 year; and

6 “(B) contributes significantly to the econo-
7 mies of California, Nevada, and the United
8 States.

9 “(3) The economy in the Lake Tahoe Basin is
10 dependent on the natural beauty and recreation op-
11 portunities of Lake Tahoe and the surrounding area.

12 “(4) Forests in the Lake Tahoe Basin suffer
13 from over a century of fire damage, periodic
14 drought, and mismanagement, which have resulted
15 in—

16 “(A) high tree density and mortality;

17 “(B) the loss of biological diversity; and

18 “(C) a large quantity of combustible forest
19 fuels, which significantly increases the threat of
20 catastrophic fire and insect infestation.

21 “(5) The establishment of several aquatic and
22 terrestrial invasive species (including perennial
23 pepperweed, milfoil, and Asian clam) threatens the
24 ecosystem of the Lake Tahoe Basin, and the likeli-
25 hood exists for the introduction and establishment of

1 other invasive species (such as yellow starthistle,
2 New Zealand mud snail, Zebra mussel, and quagga
3 mussel).

4 “(6) 75 percent of the land in the Lake Tahoe
5 Basin is administered by the Federal Government,
6 which makes it a Federal responsibility to signifi-
7 cantly contribute to the restoration of the ecological
8 health of the Lake Tahoe Basin.

9 “(b) PURPOSES.—The purposes of this Act are as fol-
10 lows:

11 “(1) To identify ways and pursue options to ex-
12 pand the environmental threshold carrying capacity
13 of the Lake Tahoe Basin.

14 “(2) To enable the Chief of the Forest Service,
15 the Director of the United States Fish and Wildlife
16 Service, and the Administrator, in cooperation with
17 the Planning Agency and the States of California
18 and Nevada, to fund, plan, and implement signifi-
19 cant forest management and invasive species control
20 activities in the Lake Tahoe Basin.

21 “(3) To ensure that Federal, State, local, re-
22 gional, tribal, and private entities continue to work
23 together to manage lands and forests in the Lake
24 Tahoe Basin.

1 “(4) To support local governments in the Lake
2 Tahoe Basin in efforts related fire risk reduction
3 and forest management activities.

4 “(5) To prioritize public recreational access to
5 public lands in the Lake Tahoe Basin.

6 “(6) To ensure that management of Federal
7 land and forests in the Lake Tahoe Basin is con-
8 ducted with the understanding that—

9 “(A) public forests are renewable assets
10 that should be managed, rather than neglected,
11 and that excess timber should be harvested to
12 generate continuing revenue for care of the
13 public’s land, in accordance with a good neigh-
14 bor policy; and

15 “(B) the Federal Government will defer to
16 local communities whenever possible with re-
17 gard to land acquisition and land regulations or
18 restrictions.”.

19 **SEC. 3. DEFINITIONS.**
