

RESUME

DAVID DIAZ AVELAR, MPH, LCI

Mr. Diaz is a public health professional offering extensive and successful experience in planning, developing, and implementing community-based initiatives throughout Greater Los Angeles County. He's a dedicated public servant and advocate with project management, coalition building experience that has successfully worked with youth, schools, businesses, nonprofit organizations and cities to advance environmental justice, equity, and community development. As the Executive Director, Mr. Diaz is responsible for overall organization management, development, and execution of various transportation, urban greening, and energy related initiatives.

project goals are to improve public health, public safety, and capture stormwater.

RELEVANT EXPERIENCE

San Gabriel Valley Regional Active Transportation Master Plan Phase II

Project Role. The San Gabriel Valley Regional Active Transportation Plan is an effort to complete a five-city Active Transportation Plan in the San Gabriel Valley. Building upon the first five-city planning process, this effort includes encouragement and education activities in the target communities. Mr. Diaz helped coordinate education and encouragement efforts, which included bike safety classes and outreach across five cities.

Using Big Data to Holistically Assess Benefits from Building Energy System Transition Pathways in Disadvantaged Communities.

Project Role. This project is an effort to study the effect of natural gas on indoor and outdoor air quality within homes in 91732 and 91746. Mr. Diaz led the project management for this effort, including community engagement, planning, data analysis, and culturally competent communication of findings to the broader community.

Merced Ave Greenway

Project Role. The Merced Ave Greenway project is a 1.1 mile redesign into a multiple benefit greenway in the City of South El Monte. Mr. Diaz led the project identification, proposal development, and project implementation. The
