Subject: Support for H. R. 5001 - To authorize the Secretary of the Interior to continue to implement endangered fish recovery programs for the Upper Colorado and San Juan River Basins, and for other purposes.

Dear Representative Neguse:

As a participant in and supporter of the San Juan River Basin Recovery Implementation Program, I am writing to express my support for H. R. 5001. The bill provides some necessary amendments to the authorizing legislation for the recovery programs (P. L. 106-392) that are needed at this time to assure continuity in recovery program operations. This is important to our organization and water users throughout the San Juan River basin as the San Juan Recovery Program provides Endangered Species Act compliance for water projects while recovering endangered fish species.

Our thanks to you for introducing the legislation. We look forward to its passage by the House of Representatives. If you have any questions regarding our support, please contact me at your convenience.

Sincerely,

Aaron Chavez
Executive Director
