Re: FISHER Act

Dear Congressman Donalds:

Please accept my letter of support for the Fishery Improvement to Streamline untimely regulatory Hurdles post Emergency Situation Act [FISHER Act].

The intent of this Act – expediting the process of reviewing/awarding/rejecting federal funding requests related to natural disasters – will help ensure our fisheries and fishing industry are better prepared to recover from events that historically devastate both local fishing businesses (including commercial, charter, and recreationally based businesses), and the habitats that support the fisheries.

Regards,

Brett Fitzgerald
