The Honorable Paul Gosar
U.S. House of Representatives
Washington, D.C.
Email: macayle.fuchs@mail.house.gov

Dear Congressman Gosar:

On behalf of the New Mexico Stockman Magazine, the Livestock Market Digest and myself, I am writing in support of H.R. 4255 Enhancing Safety for Animals Act.

In various jobs I have been working on the Mexican wolf issue for nearly 35 years. The first work was participating in meetings on the introduction of the animal held by the US Fish & Wildlife Service (FWS). At one hearing I questioned how zoo raised animals would learn how to hunt.

You might imagine my shock when the response to my question was that wildlife would maimed for the wolves to easily chase down. While we seem to be working with a kinder, gentler federal agency, if this is where the program started, where did anyone expect it to go?

Readers of my publications have been howling for 16 years for relief.

Thank you for taking on this issue and speaking for all of New Mexico and Arizona who are directly impacted by this vicious predator.

Should we be of further service, please let us know.

Sincerely

Caren Cowan
