

Steven Place is the Senior Policy Advisor at AstroForge, an asteroid mining company headquartered in Seal Beach, California. In this role, he champions the feasibility of asteroid mining while advocating for America's leadership in deep space innovation. Before joining AstroForge, Steven spent six years developing hardware and software solutions for the intelligence community and contributing to various R&D projects for the Department of Defense. He is an alumnus of the Catholic University of America, where he earned a Bachelor of Arts in Politics.
