

## Mahesh Konduru Biography

*Momentum Technologies Chief Executive Officer*

Mahesh is a senior executive with over 25 years of experience in middle market technology growth companies and in private equity. Most recently he led a proprietary technology company from proof-of-concept to commercialization.

Under his leadership the company increased enterprise value, doubled (2x) sales in a four-year period, reached profitability, and generated two new decarbonization spinoff opportunities. His experience includes leading diverse energy investments as a Principal at Potomac Energy Fund, structuring financial transactions and leading engineering diligence for \$400 Million+ solar projects at the US DOE Loan Program, and engineering novel emission control technologies at Johnson Matthey.

He has an MBA from MIT Sloan School of Management and a Ph.D. in Chemical Engineering from the University of Akron.
