

## **Juan Saca**

### **President & Chief Executive Officer of LUMA**

Juan Saca is the President & Chief Executive Officer of LUMA, bringing over thirty years of extensive experience in essential services and critical infrastructure industries to his role. With prior CEO positions in Peru, the United States, and Puerto Rico, Juan has demonstrated leadership and expertise in navigating diverse markets and driving organizational success.

Throughout his career, Juan has held executive roles in three companies and worked in six countries, including Peru, Chile, Mexico, Israel, and the United States. Notably, he served as the CEO of Open Mobile and PR Wireless in Puerto Rico from 2012 to 2019, where he played a pivotal role in the telecom industry's recovery efforts following Hurricane Maria in 2017.

His work experience spans across various sectors, including his tenure at Digital Fortress in the United States and PR Wireless and Open Mobile in Puerto Rico. He possesses vast expertise in the telecommunications industry and has work in countries such as Perú, Israel, and Mexico, among others.

As the CEO of LUMA, Juan Saca is committed to the company's mission of transforming the electric transmission and distribution system to ensure that all Puerto Ricans have access to reliable, resilient, clean, and affordable electric service. Under his leadership, LUMA strives to be a customer-centric organization, with its nearly 4,500-strong workforce dedicated to delivering exceptional customer service to its 1.5 million customers. Juan's vision and dedication are instrumental in driving LUMA's efforts to improve the quality of life for Puerto Ricans through sustainable and efficient energy solutions.
