BEFORE ME, the undersigned authority, on this day appeared ARLEEN ELIAS, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? New York City - 1965, 1966 and 1984
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: The first two abortions were conducted by a woman in her apartment because it was illegal in New York. The third abortion was conducted by a doctor who predated certain documents. There was no counseling.
- 3) Were you adequately informed of the consequences of abortion? No. Never.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? The fathers of the children.
- 6) How has abortion affected you? I have been married four times and I believe that my inability to remain in a relationship is directly related with my abortions. I have carried a burden of guilt throughout my entire life since my first abortion was at the age of 14. I had nightmares. I was a pathological liar. I distanced myself from God and led a promiscuous lifestyle. I could not bond with children and avoided relationships with them at all costs. I dreaded the nine months that I carried my son. I suppressed an underlying anger but there were times when I simply did not have the strength. My son was oftentimes the target of this venomous anger. I felt deceived by society and abandoned by those in authority (both in my family and my government). I was raised with the belief that this country would protect me
- 7) How has your abortion affected others in your life? I am only aware of one person. Husband #2 has not been able to remain in a longterm relationship and suffers from chronic depression.
- 8) Based upon your experience, what would you tell a woman considering abortion? That there are other alternatives and that she should seek counseling first in order to learn about them. Give her options.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that they must be ignorant to the degree of harm this procedure has had on our society. They must not realize that it was a law like Roe v Wade that began the total breakdown of the family nucleus. That the generation that we are raising to be our future leaders lack character and moral values because of attitudes such as this.

- 1) When and where did your abortion occur? July 11, 1975 New England Women's Ct. Boston, Mass.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain:
The procedure was explained to me but not explained that it was a baby. It was very clinical & cold.
- 3) Were you adequately informed of the consequences of abortion? NO WAY
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who?
- 6) How has abortion affected you? I had nightmares for years and was emotionally bothered & troubled. I couldn't even talk about it for nineteen years. I was in bondage to it until I came to terms with what I did. God was my only rescuer and healer in the whole process of whatever. I lived in denial until I faced what I had done as a young woman.
- 7) How has your abortion affected others in your life? My husband was effected because I was troubled in my sleep and in all manner of ways.
- 8) Based upon your experience, what would you tell a woman considering abortion? Don't do it. It will bother you and you will regret it. It is totally unnatural to kill your own baby. Don't listen to lies.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that all babies are meant to be and never aborted. Life is from God and every life has a purpose & plan. Abortion affects so many people it isn't the answer at all.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida

County of Collier

BEFORE ME, the undersigned authority, on this day personally appeared Stacy Ender's (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

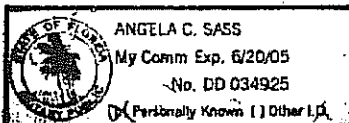

- 1) Tell approximately when and where your abortion occurred: February - 1988 - doctor McGree's office, Naples, Florida.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
I was so young at the time and extremely scared! If anything was said, I was still in shock about being pregnant and severely depressed so I probably wasn't paying attention.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes If so, who? my mother - that morning I was crying and didn't want to go through with it but she pushed me along. The nurses also kind of pushed me through.
- 5) How has your abortion affected you? It is a horrible memory. For start, it was extremely painful physically - I remember being severely sad - out of it yet very much there.... I was screaming and the nurse put her hand over my mouth - I asked for more pain medication and was told "No - he's almost done" - as I looked over and saw blood in a glass vacuum like thing I said "What's that" and I was distracted by another nurse and my head was redirected. When it was over, they all left me in the room alone - I was horrified, shaking - depressed and in excruciating pain. I was then escorted out the "back door" it quickly as well.
- 6) How has your abortion affected others in your life?
My mom feels terrible - regrets her advice - I couldn't talk for hours. My sister grieves with me - because she had one too.
- 7) Based on your own experiences, what would you tell a woman considering an abortion?
That an abortion is never the answer. There are so many reasons to give birth - to her baby and that there are other options like adoption. - Also that the trauma never goes away.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
That they need to leave life and death in God's hands? That a woman cannot think clearly when she's pregnant. The pregnancy itself causes a woman to go through extreme emotions and one simply cannot make a conscious, clear decision, that is in her best interest.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? - 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? For sixteen years I didn't even think about my abortion, but after it I had a very hard time bonding with my next child. BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] D.F. [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: April 1969 Mexico City, Mexico
2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no

3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
4) Did anyone pressure you into having an abortion? no If so, who?

5) How has your abortion affected you? Having an abortion changed my life. I should have decided to have an abortion when I was 19 years old. Because I wanted to finish school, have a big wedding, I wanted to have a career. Each of these reasons has shown me my SELFISHNESS, GREED and PRIDE. A human life is more valuable than any of these reasons. I have great sorrow and regret for our families loss.

6) How has your abortion affected others in your life? The family of the aborted child... the father, brothers and sisters, who've grieved over the fact that this loved one was not allowed in their lives.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would exhort her to examine the reasons why she is considering abortion. If they are self-centered reasons I would share her that she one day will have great sorrow + grief.

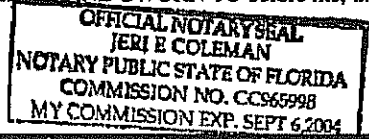

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is dangerous for women, the courts do not realize that women are not being told all the risks they are upon. Breast Cancer is now a risk. The physicians + clinics are in the business for financial gain.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: December 2, 1978. Women's Health Center - Dr., Jax., FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I knew (was told) it would hurt & be over in less than 3 minutes. I was counselled with 4 other girls, in a group setting, just before the abortion. A woman ran out of the exam room, crying that she didn't want to kill her baby. The nurse looked at me and said, "She's already
- 3) Were you adequately informed of the consequences of abortion? No. I don't know if I would've listened, though, as I had a hard heart. dilated; she's going to abort anyway. I went in next. The nurse held my hand the whole time, and I talked about my 11 siblings.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? I made the decision, with my boyfriend, because I was selfish. A couple of days before the appointment, he walked away. I've not seen him since.
- 6) How has your abortion affected you? Yes. I've never had a child and am very sad I took God's most precious gift and threw it away, due to my selfishness. I know God has forgiven me for this sin but I still struggle with this emotionally and psychologically. I've shared it with others (limited basis) in hopes they will make right choices. I also spent almost 7 years (afterwards) drinking/drugs to hide the pain.
- 7) How has your abortion affected others in your life? Yes. I have two sisters who knew I was going to have the abortion. Today, 25 yrs later, they both carry some guilt for "not trying to talk me out of it."
- 8) Based on your own experiences, what would you tell a woman considering abortion? Please don't do it! God has entrusted you with this miracle. Look to Him, instead of yourself, for answers. If you aren't prepared to raise a child, please put the baby up for adoption.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? It is wrong. God did not design us to kill our children. The mental, spiritual, physical and emotional repercussions are unbearable. Please reverse the laws and make it illegal. Please!

BEFORE ME, the undersigned authority, on this day appeared M. F., who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

1) When and where did your abortion occur? @ 22 yrs ago - Ocala, FL.
2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: _____

3) Were you adequately informed of the consequences of abortion? NO

4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

5) Did anyone pressure you into having an abortion? Yes No If yes, who? my spouse at the time.

6) How has abortion affected you? I felt pressured into the abortion, had 1 yr old, marriage near divorce, also had 14 yr old at time. I knew about abortion since I was 14, but at time I was single mom with already little one, adding another pregnancy seemed only way out to have abortion, although assigned. Went into back door at clinic, "oh, don't do that", no other options, "it's on table - inevitable", told my doctor, "maybe further along - uterus kept - I wanted to leave, crying, to stop this". Then told already loose in spots - was miscarriage anyway helped to relieve some degree of guilt - kept secret from others.

7) How has your abortion affected others in your life? Made me angry toward both spouse, kept secret from others, too ashamed to seek support classes for 18 yrs.

8) Based upon your experience, what would you tell a woman considering abortion? now can help others.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Think of all options! Guilt, shame, (wish you had called in for some support to help make right choice) follow you - will surface in life, full support to help make right choice.

It is a baby, not blob of tissue like told, not given options, told of emotional, physical, spiritual consequences. Have to follow. If someone kills mother/baby called murder at this age. + Abortion though legal. "I have read the above and foregoing statement and the same is true and correct."

My life since then has been very graciously healed. I am an M.S.W. and have devoted the last nine years to working with men and women accused of murder and/or sentenced to death. I also have three wonderful children.
- How has your abortion affected others in your life? Yes, though they don't know it yet, my living children lost their siblings.
- Based upon your experience, what would you tell a woman considering abortion? Choose life and we will help you. You are not alone. You can be a mother to a living child. You are already a mother. Don't kill your child. Everything is worse.
- Based on your own experience, what would you tell a court that believes abortion should be legal? following a abortion. Abortion ends the lives of real human beings and is therefore a murderous act. Abortion is an industry which, though lucrative for some, is devastating to women and their families.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, NOT AT ALL I WAS TOLD I WAS PREGNANT AND 3 DAYS LATER I HAD THE ABORTION. IT HAPPENED SO FAST I DIDN'T HAVE TIME TO THINK ABOUT WHAT I WAS DOING.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? _____ If so, who? My Mother did not tell me to have the abortion, but she did not try to talk me out of it, my oldest sister had just had a baby out of wedlock the year before
- 6) How has your abortion affected you? The moment my abortion was finished I knew I had just killed my unborn baby. I actually saw him or her in a glass jar. I was twenty years later after I was married I had a son. It was hard because I should have been feeling joy I felt more guilt. Now that I am forty it hurts knowing he or she would be 21. Sometimes I want to talk about the one I never knew, but there is no one to talk to.
- 7) How has your abortion affected others in your life? My Mother + Father probably still feel some guilt, I dont know because we dont discuss it.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would like to tell her of my experience, tell her to have a sonogram, she doesnt have to keep the baby there are plenty of couples who wish to adopt
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? A woman's right is to have sex or not have sex it is her body. But once she has conceived a new life inside her, the baby has a right to live. There is no difference between having a baby surgically removed in the womb or throwing it in a trash can an hour after it has been born - ~~that~~ Both acts are MURDER!

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Summer 1980 Orlando FL
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO I WAS NOT.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? MY HUSBAND AT THAT TIME. HE IS MY EX-HUSBAND NOW.

5) How has your abortion affected you? I'VE HAD PROBLEMS WITH DEPRESSION, ANGER TOWARDS MYSELF, MY EX-HUSBAND, AND THE PEOPLE AT THE CLINIC. I WAS AFRAID OF GOING TO HELL & DIDN'T FEEL THAT I WAS GOOD ENOUGH TO GO TO CHURCH. I DIDN'T THINK GOD WOULD FORGIVE ME & I COULDN'T FORGIVE MYSELF OR EVEN ACCEPT GOD'S FORGIVENESS. WHEN I FINALLY HEARD the good news of GOD'S FORGIVENESS through Jesus Christ on the television.

6) How has your abortion affected others in your life? I believe it broke-up my first marriage. I've had a problem with anger, bitterness, and depression and feelings of low self-worth + low self-esteem.

7) Based on your own experiences, what would you tell a woman considering an abortion? NOT TO DO IT. IT WOULD NOT ONLY KILL HER BABY (WHOM SHE'LL NEVER SEE, HOLD OR HEAR) BUT SHE WILL DESTROY A PIECE OF HER OWN SOUL THAT SHE'LL HAVE TO LIVE WITH AFTER THE ABORTION, (a sadness that won't go away this side of HEAVEN). THE REST OF HER LIFE.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? The laws are made to protect the people. - Abortion DOESN'T PROTECT ANYONE. Certainly IT DOES MORE to perpetuate mental illness than they realize! IT CAUSES RELATIONSHIPS (MARRIAGE INCLUDED) TO DISINTEGRATE. The fetus (LATIN FOR BABY) HAS THE DNA of a human being. JUST BECAUSE IT'S SMALL AND CAN'T DEFEND ITSELF DOESN'T GIVE ME THE RIGHT TO KILL HIM OR HER. ABORTION JUSTIFIES BEING A MURDERER & IT JUSTIFIES ABUSE IF IT'S ALLOWED TO REMAIN LEGAL. FURTHERMORE, THIS IS THE AGE OF DNA WHICH IS USED TO IDENTIFY VICTIMS IN THIS CASE. THESE NAMELESS BUT HUMAN UNBORN BABIES.

If not, explain: No. I was told it was a simple procedure - the word "abortion" was never mentioned - they said it was removing a blob of tissue. There was no explanation - only of what was to be expected of me - time to arrive, use an enema the night before, & paid extra for "hospital".
3. Were you adequately informed of the consequences of abortion? NO - I didn't know there were any consequences. Everyone acted like it was nothing - no big deal.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? No - but according to statistics, I am at risk.
5. Did anyone pressure you into having an abortion? Mother, father, sisters father of the babies, But I am responsible for the decision. Also the nurse dismised alternatives.

8. Based on your experiences, what would you tell a woman considering an abortion? Choose life. Abortion is a lie - it is not a blob of tissue - it is a baby with a soul. Abortion will affect you for the rest of your life. You can never forget it - that you have murdered God's creation.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? It shouldn't be legal. Information on risks needs to be provided. Counseling provided. Records maintained - Law mandates my dentist keep all my records (2) shredded my records - the killing of a life scraped from my womb. The Abortion Industry is full of liberal, money grabbing sick people who lie and hurt women and children.

- 1) Tell when and where your abortion occurred: June 7, 1985, Tallahassee Florida
I was only 17 yrs old, I did not have parental consent.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was informed about the procedure. I was also told I could have the "Baby Blues" for a few weeks following the procedure. I have experienced post abortion syndrome for 11 1/2 years. I wasn't informed of this.
- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. Boyfriend and friends
- 6) How has your abortion affected you? I have experienced severe symptoms of post abortion syndrome. Became addicted to sleeping pills because of sleep deprivation. Experienced horrible nightmares of mutilated babies.
- 7) How has your abortion affected others in your life? They feel that part of me died. They have watched me die slowly over the years. Time did not heal. My family worries constantly because of my self destructive nature.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would strongly advise against it. There are other options. It wrecked my mind and my personal relationships. It altered the way I thought and everything I believed in. The mother is the real victim. She becomes a human void.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion kills. Not only the child but the human spirit. The mother and father are victims as well. I tried to take my own life because of the guilt and remorse. I felt I was a walking tomb.

BEFORE ME, the undersigned authority, on this day personally appeared LINDA P. DANIELS (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: December
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I WAS ADEQUATELY INFORMED OF THE PHYSICAL NATURE & CONSEQUENCES BUT NONE OF THE EMOTIONAL CONSEQUENCES WERE ADDRESSED.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? I HAD NO PHYSICAL COMPLICATIONS BUT HAD TREMENDOUS EMOTIONAL AND SPIRITUAL IMPACT. MY "SILENT" DECISION TO ABORT CAUSED ME TO BURY AND CLOSE OFF PART OF MY HEART. I WOULD NOT ALLOW MYSELF TO EXPERIENCE GRIEF, REGRET, REMORSE OR CONCERN OVER MY DECISION AND ACTIONS. IN REPRESSING THESE EMOTIONS I BLOCKED OTHER EMOTIONS AND ALLOWED MYSELF TO BECOME MARGINAL. MY SELF-ESTEEM ALSO SUFFERED TREMENDOUSLY.

6) How has your abortion affected others in your life? MY HUSBAND HAD A DIFFICULT TIME WITH MY PAIN AND ULTIMATE HEALING BUT WE FORTUNATELY HAVE COME TO A BETTER PLACE.

7) Based on your own experiences, what would you tell a woman considering an abortion? TO BE OPEN AND HONEST WITH THOSE WHO LOVE AND CARE FOR HER. TO SEEK ALL INFORMATION AND ALLOW YOURSELF TO BE OPEN TO THE TRUTH OF THE INFORMATION. UNDERSTAND THAT IT IMPACTS PHYSICALLY, EMOTIONALLY & SPIRITUALLY.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? LOOK AT THE TRUTH ... LIFE BEGINS AT CONCEPTION AND TRYING TO IDENTIFY AN "OK" PLACE TO END LIFE IS POINTLESS. THE LAW SHOULD PROVIDE ALL WOMEN WITH TRUTHFUL INFORMATION, HAVING NOTHING AND ALLOWING AN UNDERSTANDING OF THE "TOTAL" IMPACT AN ABORTION WILL HAVE ON A WOMAN, THE FATHER AND THE BABY.

- 3) Were you adequately informed of the consequences of abortion? Absolutely not.

- 6) How has your abortion affected you? When I found out the truth in about 1985 I went into volunteer work at a crisis pregnancy center near me. I have been there ever since and have counseled hundreds of girls and young men not to make the same mistake I did.
- 7) How has your abortion affected others in your life? I regret very much not telling my father the truth when I was pregnant. I couldn't live with myself and when I finally did tell him, he just wept because he would have helped me.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Never to destroy the precious miracle of life that God has blessed her womb with. Someday in the future she will long to hold that child and love that child and would be too late if she killed him or her.

- 6) How has abortion affected you? I was in denial for more than 20 yrs, unable to read about, speak about abortion or that I had killed my baby. Dreadful guilt, believing myself to be a Christian, and hiding behind that false assumption - till my loving Lord confronted me, broke my heart and healed me.
- 7) How has your abortion affected others in your life? Great grief for the godly man to whom I was married, and whose child it was.
- 8) Based upon your experience, what would you tell a woman considering abortion? No greater joy will you ever bear, than that of killing your baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? To make legal a procedure that can so damage a woman's mind, life, often her body is unmeasurable.

"I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida

County of Marion

BEFORE ME, the undersigned authority, on this day personally appeared Karen D. Burdeshaw (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1973 / December 1985 Atlanta, Georgia
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? absolutely not - the only counseling I received was pertaining to birth control.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? I have an incompetent cervix because of my multiple abortions. Therefore every pregnancy I have is considered high-risk and I have to undergo a risky surgery (cerclage) to maintain the pregnancy. The emotional scars led me down a path of darkness into drinking and drug-use trying to escape the pain of shame, guilt unending grief and sorrow. I found healing through God's word at a post-abortion Bible study and now have the privilege of leading this class and watching God restore life.
- 6) How has your abortion affected others in your life? The pain and consequences of abortion oozes out onto all those who are in our life: my parents, my husband, my 3 living children, my sisters, my grandmother are all affected in some way.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? In an abortion, there are 2 deaths: the mother and the child. She may think an abortion is a quick fix to a temporary problem but it will only compound problems in her life. Every child is a gift from God - even if it means blessing someone else through adoption. Sacrifice 9 months
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? of your life to save it and the life of your child. You'll be glad you did.

For many years, I believed the lie that I had aborted a blob of tissue and not my child. When God revealed the truth to me I humbled myself and sought repentance. The truth has been revealed to our nation through ultrasound and testimonies such as mine. I pray our nation will be humbled and try to right their wrong.
"I have read the above and foregoing statement and the same is true and correct."

Since that day I have never been the same. I feel a big empty space. I cannot fill. I mourn for my baby every day. I cry when I see baby girls. I always wanted a baby girl, but have not had another since my abortion. I do have a son who I love so much. I feel I was given one baby girl and I killed her. When I see on the news how parents kill their children. I say I could never do that. But than the reminder of my abortion comes back to me and I start to cry again. It's been hard for anyone to get close to me. If I had it to do over again I would of kept my baby girl. I have been yearn for a baby girl since. Through prayer and God's forgiveness I can smile again. But the memory of my baby is always there to remind me of what I did.

AFFIDAVIT

(Questions For WOMEN Who Have Undergone Abortion)

The State of Florida

County of St. Lucie

BEFORE ME, the undersigned authority, on this day personally appeared JULIE R. WESLEY, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: On or about March 1980, College Park, Maryland
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. definitely not. I was lied to along with six to eight other young girls in the same room. We were taken into a small room and shown pictures of the outside of a fetal sack and told they would be removing a "small amount of tissue much like a tumor."
- 3) Were you adequately informed of the consequences of abortion? Not one word was said about any consequences besides cramping and bleeding.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. All my friends and my boyfriend who is my husband of 18 years and he is now deeply regretful of his part in our child's death.
- 6) How has your abortion affected you? Right after my abortion a deep feeling of hate and anger towards all who were involved including myself came over me. Then a feeling of separation from my body. One month later I had a nervous breakdown and I had a drug and alcohol abuse which I almost died from and to this day a deep feeling of loss and regret.
- 7) How has your abortion affected others in your life? My husband when asked how many children he has, counts our first child and tells them we have ten children. My children frequently ask about their oldest sibling. There is a void in all of our lives, even my mother.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell any woman considering abortion to please not do it. I would tell her my emotional torment. I would also tell her I know women who have never been able to have children because of the damage done because of abortion.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say abortionists know they are taking the life of a baby. In the middle of my abortion the doctor yelled at the nurses these exact words: "How far along is she? This baby is fighting me." I had an abortion because of peer pressure but the consequences for me, the pain and loss I feel, will never go away.

"I have read the above and foregoing statement and the same is true and correct."

To be filled out by women who have had an abortion.

The State of Florida

County of Duval

BEFORE ME, the undersigned authority, on this day personally appeared Karen Williams (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Planned Parenthood 1980¹⁹⁸⁸ Milwaukee, WI, Vermont (Albany, VT)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was 19 yrs old I was confused, I was in college, the person I was with stated there was no choice, but to take care of this situation this way. He'll pay, and it will be over. No, conference with anyone particular, just arrived, went in, it was over. I was devastated.
- 3) Were you adequately informed of the consequences of abortion? Never. I was doing the right thing, I was told. Never told me I would regret this someday, or I might have emotional problems, or abnormal pap smears etc. essentially having the top of my cervix scraped off.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No, thank God.
- 5) Did anyone pressure you into having an abortion? _____ If so, who? I can not answer that family - as it appeared at the time, it was the only answer at hand. - The second someone did try to discourage my decision, I was still confused, unsure, didn't know God!
- 6) How has your abortion affected you? Over time, I surprised it. Guilty, depression, lonely, I try to block it out, although the adversary had dominion over my mind as well as my body, in those days. I am free from its bondage and affliction. I have let go, and given it to our God, He has delivered me from Hell - the guilt, the murder, the wrong choices - all of it now is in the dead sea - PRAISE GOD -
- 7) How has your abortion affected others in your life? The first person (college) not all - Later my husband recently we have just dealt with it together giving the wrong choice to Father God. He was not happy about our choice, and carried some guilt for all those years - we are healed -
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do not murder your child - I feel the real truth - should be spoken - even tho it may hurt, the hurt of the abortion lasts so much longer - especially when you don't know God - and His LAWS! Not to mention the emotional trauma over the years - which effects ones everyday life
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That if they keep supporting it they will see Hell eternal. I am a sinner of the Father's heart - and that I stated is the spiritual truth. As far as - Man - earthly / fleshy. Speaking they are supporting murder, conspiracy, each woman that aborts their child, they might as well carry the knife themselves! - Amen

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes/No If so, who? the father of the baby but in the case of the second and fourth abortion I was not forced or talked into it
- 5) How has your abortion affected you? Yes! After the 1st abortion my relationship with the father was destroyed. My personal life was changed forever. I started to drink heavy and do drugs to try to forget what I had done. I became so numb to life that I found I was able to do it 3 more times. Now I wonder all the time what these children would have been and what difference they may have made. I've finally come to terms with it but I lost nearly 17 years of my life
- 6) How has your abortion affected others in your life? Yes. I have been unable to remain in a relationship. Unable to keep to commit to anyone fully. Unable to trust anyone.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would let her know of the pain that lasts for years after the abortion. The wondering of what if. To think that she will have to live with it for the rest of her life. Tell her of the danger to her health.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that they need to realize what it does to your life afterwards. That it's not just ending something, it's killing someone. That it destroys more lives not just the baby's life. I would say that it makes you feel worthless and undeserving of anything good.

To be filled out by women who have had an abortion.

The State of FLORIDA

County of DUVAL

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

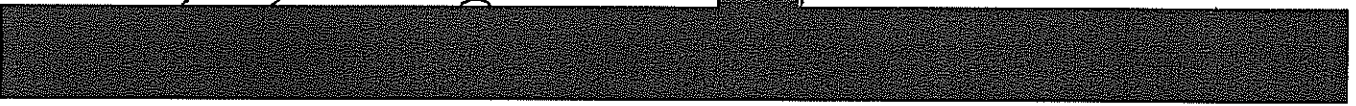

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April 1977, Pensacola, Florida
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was a teenager. I was told it was not a big deal. After it was over I was showed the glass jar with the remains & asked if that looked like a baby.
- 3) Were you adequately informed of the consequences of abortion? No, I was told at my age of 15, I was better off to have the abortion than a baby.
- 4) Were you informed of any link/between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My parents. My father told me either do it, or be put on the street. The doctor that did it really pressured me to sign even though I was protesting.
- 6) How has your abortion affected you? I really wanted & begged to have my baby & give it up for abortion. I have felt like a murderer for 25 yrs. I am bipolar & when I get depressed I remember & feel guilty. I feel like aphanic knowing my oldest child is not really my 1st like he thinks.
- 7) How has your abortion affected others in your life? When I get upset it affects my family. My parents have never mentioned it as if it never happened. I lost contact w/ the father but he was upset too.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please do not do it. You are carrying a child; a part of you. Psychologically you will be hurt. Physically you can damage your cervix, something could happen later & this might be your last chance for a child. This is permanent.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal. Killing a person for convenience is not or never will be okay. Going against nature always causes negative consequences. Abortionists abuse their knowledge & women can make very serious irreversible decisions under duress.

BEFORE ME, the undersigned authority, on this day appeared [Redacted] who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1977 Key West
- 2) Were you adequately informed, of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Through general information I knew it ended pregnancy, but no one - not my college advisor, not the doctor - ever addressed anything about the abortion. It was just another procedure.
- 3) Were you adequately informed of the consequences of abortion? No. no information was ever given to me.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? the baby's father
- 6) How has abortion affected you? I took nearly 30 years for me to come to terms with aborting my baby. Only God knows how grateful I am to Him for putting me in a place - emotional and geographically - where I could finally receive His forgiveness, and be able to forgive myself. For most of those many years, shame and sadness were my hidden companions. When my children got older, I was fearful they would somehow find out. As of this writing they still don't know but the Lord is directing me to tell them this year.
- 7) How has your abortion affected others in your life? They don't know, except my husband. At the time of the abortion, he wasn't saved, but a couple of yrs later came to faith in Christ.
- 8) Based upon your experience, what would you tell a woman considering abortion? Learn from other people's experiences! Listen to those who have aborted and believe them. There are viable options.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Believing themselves to be wise, they became fools. Pride comes before a fall. Be not deceived for God is not mocked - you'll reap what you sow. Be afraid - there is Someone bigger than you and He will require an accounting from you.

To be filled out by women who have had an abortion:

The State of Florida

AFFIDAVIT

County of Broward

BEFORE ME, the undersigned authority, on this day personally appeared M. R. S. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: Newark, New Jersey Spring 1975
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No - I asked about the baby and was told it was just a clump of blood vessels + that I should act quickly before there was any baby. They told me it was a simple procedure w/ a little cramping + tugging - It was excruciating + I screamed for them to stop - No one ever told me the little baby was already perfectly formed.
3. Were you adequately informed of the consequences of abortion? - NOT AT ALL - They said my life would go on as before. / Everything changed - I changed / No one warned me about the depression, regret, shame, anger, change in relationships + abandonment of goals that followed
4. Were you informed of any link between abortion and breast cancer? NO
Have you had breast cancer? No - but am having tests right now
5. Did anyone pressure you into having an abortion? The planned parenthood counselor reinforced all my fears - even added to them - she said pregnancy was riskier than abortion - No one else pressured
If so, who? me - I was afraid to tell my mom who probably would have opposed abortion - my boyfriend seemed neutral but years later let me know that he didn't want the abortion either
6. How has your abortion affected you? My life spiraled downward - I was very depressed - considered ~~suicide~~ suicide. Sharp drop in grades, lost sight of my goals, tried drugs + alcohol to forget later. Difficulty w/ relationships, trust in marriage, trouble handling w/ my children - Anger towards ~~at least 2 med drs ages~~ them for no reason
7. How has your abortion affected others in your life? The relationship w/ the father turned abusive and unhealthy - I am not the same person I was before the abortion so every relationship has suffered
8. Based on your experiences, what would you tell a woman considering an abortion? Don't do it. All of the reasons I chose abortion seem so insignificant now - But the sorrow and regret never diminish. Every woman (and man w/ her) should be shown a picture of their unborn baby - + encouraged to ~~long~~ consider all the available options -
9. Based on your own experience, what would you tell a court that believes abortion should be legal? I think abortion should be illegal, just like suicide is illegal. Our laws should protect us from self-destructive acts. The law should protect all people - especially the very young + unborn. No one should be allowed to profit by preying on the fears of others who are in vulnerable situations and need help. I needed encouragement + guidance. I did not need an abortion.

BEFORE ME, the undersigned authority, on this day personally appeared Paisley Pryor (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: N.F.L. Women's Health + Counseling 1990, 1992 + 1993.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was told it would take 20 minutes and we'd be done and it would be all over. They asked me if I wanted counseling - of course I refused because I didn't want anyone in "my business"
- 3) Were you informed of any link between abortion and breast cancer? don't know Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? somewhat If so, who? Boyfriend wanted it. More than being pressured into it, I was not discouraged by anyone. It was acceptable by everyone and easily available.
- 5) How has your abortion affected you? I regret the loss of my children. I wish I could have experienced the joy of my children when I was first blessed with them. I learned to value life when it became necessary to instill values in my growing children that I did not abort.
It is much like not knowing I could rise to the occasion until there was not another choice. A person cannot adequately grow in character without challenges to overcome.
- 6) How has your abortion affected others in your life? I do not know - as it is the secret I live with and it is not a topic that is ever brought up with others who do know.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? The regret of killing your unborn children will remain with you always, much like the challenges of rearing your living children will face you every day - only regret is empty and dark and challenges inspire to grow and change for better.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? If the desired outcome of ~~whether to keep abortion legal~~ is to increase the value of human life, to reduce child abuse, to support family unity and to educate (young) adults to practice abstinence for better physical, emotional AND spiritual health, abortion should not be legal + therefore an unavailable option.

Also my mental health has suffered also and I've had to have counseling. Also I was never informed of the link between abortion and breast cancer!

AFFIDAVIT

To be completed by women who have had abortions

The State of Florida
County of Marion

BEFORE ME, the undersigned authority, on this day appeared Tracy Olsus, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1974 - June - Winter Park, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No one explained fetal development.
- 3) Were you adequately informed of the consequences of abortion? No - I had no idea I could have been injured or may never be able to conceive or carry a child.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? It is the single greatest regret of my life. I married the father 5 years later and we had 3 more children. We have been married for 27 years and we should have had 4 children. Our child should not have paid with its life for the choice we made to have sex.
I think about my oldest child and what he/she might be like. I have had to live with the guilt that I chose to allow my own child to be killed while in my own womb! ~~It is believed~~ It is believed she lie that abortin would help me. It did not.
- 7) How has your abortion affected others in your life? My children know about it and think of it as a loss.
- 8) Based upon your experience, what would you tell a woman considering abortion? Abortion is not an answer to an unwanted pregnancy. If you can't parent, you should think of adoption as a parenting option. Your child should not die because of your poor choices.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? A child is not a part of a woman's body. It has a different blood type, may be a different sex. Abortion is death to a human being. It is illegal to bring death to a human being. We should not be allowed to kill a human being just because it is inside our body.

"I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida

County of Palm Beach

BEFORE ME, the undersigned authority, on this day personally appeared Claudia Palmer (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

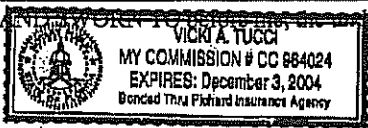

- 1) Tell approximately when and where your abortion occurred: 1994, Miami, Florida
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - not anything about any emotional harm; just minor cramps and I was given birth control pills when I left, so I let it rest and call it I had severe cramps or bleeding.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Parents, sister.
My father gave me an ultimatum.
- 5) How has your abortion affected you? I was in denial for about 6 years. In those 6 years I suffered a deep depression, had fits of rage for reasons that I thought were due to a crisis I had w/ my child. After that was dealt with, the pain, anger + depression continued. I had nightmares, and could not deal with any emotions. When I finally acknowledged that the abortion was wrong, the guilt came and it was horrible. For years I lived with the guilt, anger + sadness that I destroyed my baby's life.
- 6) How has your abortion affected others in your life? It affected my marriage, and my son because of all the emotion that I had misplaced + it lashed out at them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That it may seem to be the only way but listen to your own heart, if you feel like or think that it will be over after the procedure that is inaccurate. The pain (emotional) is going to be much worse than any other feeling you could even imagine and it will haunt you until you realize that you killed your baby and even after that.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? If the concern is of a woman's right then be informed a woman should be told of the horrible consequences of an abortion, and it shouldn't be a woman's right to kill her child, it is her child, right? Well, does that same woman have a right to kill her baby when it's not in the womb? It's her body? Well, the baby is a separate life, therefore it is not the woman's right. We need to stop lying to women/the world and tell of the after effects of abortion. A woman is hurting herself when having an abortion. Suicide is illegal and why? Doesn't the person have a "choose" with abortion? Your ending a life and destroying another. The woman's!

It has affected my trust in my parents, it limited my happiness with the 2 pregnancies that I chose to "keep." due to a forever sadness about my aborted pregnancies. It has caused me shame + embarrassment. I feel like I cannot trust people, counselors, the legal system that allows this. My heart has a hole that will always be there.
- 6) How has your abortion affected others in your life? It is a shame to my husband. It has affected my bonding w/ him, family, my kids. It has put a level of distrust between me + my parents. They have to deal w/ my emotional handicaps.

- 8) Based on your own experiences, what would you tell a woman considering an abortion? Resist the urge, no matter how strong, to make a hasty decision. Your life will NOT be "better" or "easier" after an abortion. Stop, think, and get informed. There are risks and definite consequences that will be lifelong.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Realize that the legality of abortion allows ~~the~~ life or death decisions to be made, by emotionally distraught women in very fragile state of minds. We have women everywhere in unstable, uninformed conditions taking the lives of their own children on a daily basis. How can we allow anyone to make such a decision? - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? not really, only that I would be put to sleep, because of being 16 weeks - and that it wouldn't feel anything but maybe cramps, like a period.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? yes If so, who? My parents made me - they were so mad about what people would think, they had said by Rosalind it was back (I am white), they said I could give it up for adoption, but couldn't stay
- 6) How has your abortion affected you? If it weren't for the blood of Christ pouring out what I have done... I would be insane with sorrow & regret. I feel "the world" "puts you to sleep" by saying the baby isn't real that "the life in you" is just tissue - THIS IS SUCH A LIE

- 7) How has your abortion affected others in your life? It made me almost hate my Mother. She was the one who was so adamant about me getting rid of the evidence. Saying... I was a whore & slut
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Life IS A GIFT, not everyone can get pregnant - THANK GOD, my Mary didn't think about aborting Jesus - or we would all be lost - I trust God Joseph believed in God through out to worry what people thought.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? We must have reverence for life. It is God breathed. I am reminded when King Herod deared all children under the age of 2 to be killed for he was in fear of "the King" who was to be born - Now... we are trying to destroy the prophets before they are born!!!

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida *was (removed)*
County of Lake Sumter

P.S. On a positive note, "what man intended for evil, God used for good." Since 1989, I've volunteered at the Pregnancy Care Center in Leesburg, FL. This past November, I became the Director. I also do post-abortion counseling.

BEFORE ME, the undersigned authority, on this day personally appeared Wanda Kahn (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Family Planning Clinic, Clearwater FL *(Not exact name)*
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? Not sure, not explain:
(1977) I was 17 then I'm 43 now, don't remember a whole lot. I don't think I had much explanation, except for the "suction" part & they explained about the shot it would get in my tissue.
- 3) Were you adequately informed of the consequences of abortion? No *-Not of my baby's development or of possible emotional problems or of physical risks (that I can remember)*
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? Promiscuity, low self esteem. I never did have any other children, not directly because of my abortion but indirectly (eventual marriage, etc). It "hardened" me.
- 7) How has your abortion affected others in your life? My husband (my marriage) because of the wrong I had done in my life it drove me away from my 1st husband (father of my aborted baby) so there was a wall between us soon (I present husband) - affected (adversely) our self life. *(first & second)*
- 8) Based on your own experiences, what would you tell a woman considering an abortion? it's not a "quick fix". It won't ever be "right" b/c it's totally against God's will. God can't forgive if you repent but there are still some severe consequences to pay. Even though it may seem harder, make a life giving decision for your baby, whether that be to pray for a release for abortion, or it will be a blessing.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Courts should not have legalized abortion (the taking of a life). It goes against all that a court should represent... protection for the innocent. They have become wise in their own eyes (proverbs) That is a very scary position for them to be in. We made the mistake once - & never. How could we make the same mistake a second time.

I went from an honor roll student in high school to a drug addict I suffered from depression, anger, guilt, regret, and denial just to name a few. It was not until I admitted that the abortion was murder that I was actually able to begin the healing process. I had to be able to grieve the loss of my unborn child in a society that had convinced me that he/she was just a piece of tissue.
- 7) How has your abortion affected others in your life? It brings sadness to those around me. Sadness for the pain I have suffered. Sadness for a grandchild, niece or nephew, that they will never know.
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell her that she will regret the decision to abort for the rest of her life. I would also tell her of the physical, emotional, spiritual, and mental anguish that would result of her abortion. I would also warn her of the physical complications she may encounter as a result: breast cancer, infertility, etc.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court that abortion is murder and that it hurts women. I would tell them that a woman's choice comes when she decides to be sexually active. The child is only the consequence of her choice. 7) How has your abortion affected others in your life? There are times when I withdraw from them and is hurtful to them, I robbed my parents of a grand child.

8) Based upon your experience, what would you tell a woman considering abortion? Don't do it. Don't take that child's right to a life away. It will effect you in ways you can never imagine.

9) Based on your own experience, what would you tell a court that believes abortion should be legal?
I don't understand how any court system that believes taking a gun & blowing someone's brains out is a crim could say that it's ok to murder babies are we saying that adults or children that have been born are more important than an unborn child?

"I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida

County of Brevard

BEFORE ME, the undersigned authority, on this day personally appeared Kimberly M. LaRue (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

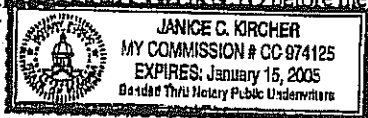

- 1) Tell approximately when and where your abortion occurred: January 1974 - Washington D.C.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely NOT. All they said was that I'd experience "discomfort & cramping". I was told that it was "not yet a baby" and that it would "be over" in just a few minutes.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO if so, who? _____
- 5) How has your abortion affected you? I have experienced extraordinary guilt, shame, emotional pain, low self esteem, depression, sudden crying outbursts when I was reminded of the abortion, have remembered minute details about abortion, followed my aborted child's birthdays (age), suffered from extreme sorrow and sadness, regret, low self esteem, caused me to choose abusive men to have relationships with - 2 failed marriages - both abusive. Sexually withdrawn from both husbands. In my mind; sex = trouble.
- 6) How has your abortion affected others in your life? My husbands didn't appreciate my pathway toward sex. Oldest daughter & her husband are very active in pro-life movement. She was devastated when I told her. I haven't worked up the nerve to tell my 10-year-old yet.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Do anything else, but DON'T HAVE AN ABORTION! Any life choice will be a better choice. You'll regret it all your life. You don't know if you'll have any other children. Abortion has killed women physically, emotionally, mentally, & spiritually!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder. Abortion should not be legal any more than slavery should be legal. The mother does not "own" the child she's carrying. They have different DNA. Unplanned pregnancy is not the child's fault. Parents need to take responsibility for their actions - their choices. Life begins the moment of conception & every mother knows it in her heart which is why abortion has such a devastating effect on women.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day appeared Leslie Lunak, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Miami Florida, 1980
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was given some papers to sign, but no one discussed with me the nature of the procedure, any attendant risks, or provided fetal development information
- 3) Were you adequately informed of the consequences of abortion? no - I was not told there were any potential consequences (may have been in the papers, but I was too rushed + distracted to read them)
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? In a myriad of far-reaching, unanticipated, + negative ways. My abortion led to substance abuse, depression, sexual promiscuity paradoxically accompanied by an inability to really enjoy sex or relate to others on an intimate level, unresolved anger, guilt, shame, regret, low self-esteem. I also had placenta previa in a subsequent pregnancy; the incidence of this is much higher among post-abortive women.

- 7) How has your abortion affected others in your life? my marriage in my inability to be intimate; my children by unresolved anger; my parents - their grandchild was aborted
 - 8) Based upon your experience, what would you tell a woman considering abortion? that abortion is never the only choice (which I thought it was), that there are many other viable (though not easy) options, and that in the long run abortion is never the best choice for mother or baby.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? An unborn child (or fetus if you prefer) is scientifically, undeniably, both human + alive. It is simply wrong to take that life, even in very difficult circumstances. Not only is abortion not good for unborn children, it has far-reaching negative consequences for women as well. Abortion is not good for women. Some choices are wrong.

BEFORE ME, the undersigned authority, on this day appeared Toni Marzella, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1985 - Ft. Myers, FL ; 1989 - Ft. Walton Beach, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I did not understand that the baby I was aborting already had a heartbeat.
- 3) Were you adequately informed of the consequences of abortion? No, I had no idea of the degree of psychological effects I would experience.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? My abortions affected me by making me live for years in self-condemnation which led to me caring so little about myself that I reeled out more sexually, I abused alcohol and other drugs. I didn't believe for a long time that I deserved anything good in life. I have had numerous failed relationships with men, I believed for so long that my two abortions were my best choice but I was never explained thoroughly any other options. I feared infertility and then the first time I tried to get pregnant with my husband, I had a miscarriage - thus continued the psychological damage of the abortions.
- 7) How has your abortion affected others in your life? I kept them a secret from my husband until after we were married. Depression and sexual issues in my marriage.
- 8) Based upon your experience, what would you tell a woman considering abortion? An abortion may terminate your pregnancy but you will deal with the consequences for the rest of your life. Your baby will have a heartbeat by the time you have an abortion, you are not aborting a blob of tissue.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Most women choose to have an abortion because they are afraid and confused, out of fear and confusion I took the easy way out - thinking I was just making it all go away. If abortion wasn't such an easy option, I might have gotten support for my pregnancy and answers to my fears that would have allowed me to see other options.

- 5) Did anyone pressure you into having an abortion? If so, who? Yes. Friends, co-workers & Dad.

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that I walked into a place with a child in my womb and came out empty & destroyed. - 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____

6) How has your abortion affected you? Mentally I was struggling with thoughts that I had killed my baby when I realized what I had done. Emotionally I struggled with depression for several years. Socially I struggled with personal relationships feeling that I wasn't worthy of healthy, happy friendships. For years I abused alcohol & drugs to dull the pain in my heart and mind. I finally found complete healing in a spiritually based bible study specifically for post-abortive women.

7) How has your abortion affected others in your life? My daughter has grown up without her siblings and so every member of my family feels the loss of these children in their lives. My decision affects generations.

8) Based on your own experiences, what would you tell a woman considering an abortion? Please know that it is a life growing inside you - with a heart beat and fingers and toes - not just a clump of tissue. Nothing can change the fact that if you are pregnant you are a mommy - right now.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? A child has rights from the moment of conception and we should not take those rights away. Life is so valuable and precious. How can we deny anyone life. Didn't your mother(s) choose life for you?

- 5) Did anyone pressure you into having an abortion? Yes If so, who? Director of school + peers.
- 6) How has your abortion affected you? For years afterward I suffered from unexplained guilt + shame. I could not except what I had done + I wished I could have the opportunity to change my decision. I would cry over the loss. And it is so difficult to heal because even though "Choice" is accepted, to have had an abortion is tabu. How can that be? Thankfully I finally found peace thru God's love + forgiveness.
- 7) How has your abortion affected others in your life? The father's also felt shame + guilt.

- 1) Tell when and where your abortion occurred: It occurred in June, 1982 in Charlotte, N.C.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: It was presented in terms of terminating the pregnancy as a form of birth control. I do not feel it was adequately presented as what it really was - ending a life. It was presented as a convenient, simple procedure - Nothing was presented about the effects of it.
- 3) Were you adequately informed of the consequences of abortion? No. There was no information given on the consequences of the abortion. No alternatives were discussed to the best of my memory.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? I believe that my abortion has affected me on a daily basis for 20 yrs. in many different ways. It is the root of much sorrow, regret and depression. It is hard to adequately describe the full impact that taking an innocent life has had on my life. If it were not for the forgiveness of the Lord, I would be down a destructive road but God's grace has carried me. It is a burden that has been the most difficult to bear.
- 7) How has your abortion affected others in your life? Needless to say, we affect those closest to us. My abortion was affecting me and consequently it also affected my husband. We had only one hope - to seek the Lord and the Lord was faithful.
- 8) Based on your own experiences, what would you tell a woman considering abortion? Abortion is not a simple form of birth control. Abortion is the taking of an innocent life. It is not a decision that affects one day of your life - The decision to have an abortion will affect every day of your life in one form or another. If I had to do it over again, I would choose Life!
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? Please, consider the truth about what abortion really is and the full impact that it has on women emotionally & physically. Also, it affects those close to women who have had abortions. For the sake of our country and future generations, please listen to the women who have experienced the pain of abortion to save greater sorrow. Abortion hurts women!

To Whom It My Concern,

My name is Cynthia A. Williamson and I Pray that you will take my Testimony and pause for a moment and consider a women in your life it may be your mother, wife, daughter, family member or friend. I had an abortion in the spring of 1988 at the Lakeland Women Clinic in Lakeland, Florida. I felt that I as women was misled and lied to as a 19 year old women. I was going thought a divorce and became pregnant and was told I would fix the problem with an abortion. I already had a 2-½ year old daughter and didn't know how I would be able to care for another child. My mother and friends reassured me along with the Lakeland Women Clinic told me my problem would be fixed with abortion. I don't feel my mother or friend misled me but I truly feel the abortion clinic knew how abortion affected other women lives. It did not know the truth about abortion. I went in and signed a release form and not sure what else at the abortion clinic and as I was signing papers I ask the lady behind the desk if the fetus was a baby and was told no it's not developed and wouldn't feel anything. I went back with her to room where I undressed from the waist down. The doctor came in ask how my day was and began the abortion. I felt some pain but I didn't hurt compared to the pain when I felt my baby soul leave my body not 1 person told me about that pain. I cried and wanted to stop but knew it was to late. I begged God to forgive me and prayed I would die. I got up and walked out trying to say everything was aright and would be back to normal. Not even one day went by and my self-destruction began. I went out and tried to drink myself to death. In weeks to come I lost what I was trying to keep the most and that was my daughter that was 2 ½ at the time to my ex-husband. I couldn't stop trying to party my hurt away. I couldn't keep a job due to depression. I was in a lot of relationships and one nightstand because I had no self-esteem after my abortion. It took me 2 year to get my daughter back from her father. But I truly have never got over taking my baby life. I feel abortion is not the answer for any women no matter how the child was conceived. It does far more harm then it could ever do good. Only by the grace of God I have came this far to sure with why I feel Abortion should not be Legal and the Row V Wade should be over turned and Abortions stopped.

Thank You, Cynthia A. Williamson

- 5) Did anyone pressure you into having an abortion? Yes If so, who? my boyfriend (now my husband)
- 6) How has your abortion affected you? I believe that it has affected every facet of my life. I suffer w/ chronic depression + OCD. I've lived w/ a constant void in my life. I have 5 children, yet I am always longing for just one more baby. I have been in therapy - ongoing - for almost 14 years and I foresee no end to that. I know that God has forgiven my sin, but I'm not certain I've forgiven myself.
- 7) How has your abortion affected others in your life? My abortion very much affects my husband + children. I have not forgiven my husband even though I've been through therapy + the Rachel Weekend. I am not loving, giving + affectionate w/ him. It is a strained + angry over
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion is a very short term solution and is a selfish choice lacking in courage + virtue. I would advise her to turn to God because the life within her belongs to Him, not to her. I would direct her to the ministry offering alternative solutions to abortion + ID over
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that abortion is slaughter + that only God can give life and take life. I'd explain that the focus on a woman's "choice" is irrelevant because in most cases the woman has no real concept of what she's in for emotionally, psychologically + spiritually. I'd beg them to save other women from the ongoing pain I've endured as a result of my abortion.

- ⑦ relationship. I pray for forgiveness but have been unable to come to that point. My children suffer because of my depression, OCD + the constant busyness I fill my life with. I am not there for them as I know I could / should be. I cannot have fun + be a child; I don't know how to be intimate.
- ⑧ recommend a sonogram so that she could see the life growing within her. I'd warn her of the lies of the abortion industry and I would warn her that choosing an abortion would haunt her for the rest of her life. Instead of "making the problem go away", the abortion creates a bigger problem than any woman could ever imagine. As I've written here, I'd share w/ her all of the complications, sadness + grief it has caused in my own life.

**The State of Florida

BEFORE ME, the undersigned authority, on this day personally appeared
Pamela Ann Staerker who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

January 1979, Jacksonville, Florida

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No. I was not informed of the emotional and spiritual consequences, or that I could possibly regret such an action.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No, I was not informed about a link between abortion and breast cancer. I have not had breast cancer, but it does run in my family.

4) Did anyone pressure you into having an abortion? If so, who?

There was emotional pressure from my boyfriend. I did not tell my parents (I was barely 17 years old). Abortion without parental consent was then and still is legal in Florida.

5) How has your abortion affected you?

I was initially distraught over the abortion. I immediately wanted my baby back. My arms physically ached to hold it. I cried for a while, then I went numb. I even became fiercely pro-choice. It took twenty-four years for the pain of the abortion come back and hit me with full force. I have been deep mourning for over a year now.

I look back and see a life filled with self-hatred, self-destruction and alienation from God. I think that I have wanted to die all of my adult life. Even now with some healing I suffer from depression, grief, anxiety and physical illness. And I still miss my baby!!

6) How has your abortion affected others in your life?

My emotional state has affected every aspect of my life, but the biggest impact has been to my daughter. She had to suffer neglect and instability during my years of drug addiction and abusive relationships. Even now (she is 20 years old) she has the pain of knowing that she has a full-blooded brother that is 'no more' in this life.

Also, my Catholic mother was crushed to learn, that her daughter killed her first grandchild. There has been much pain and grief for her also.

7) Based on your own experiences, what would you tell a woman considering an abortion?

Abortion is not an easy solution to a difficult problem, it is a lie from the pit of hell. You cannot kill your own baby without killing your soul.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

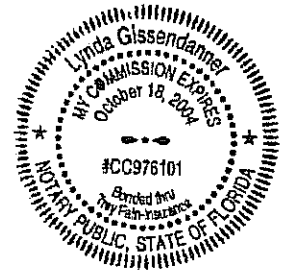

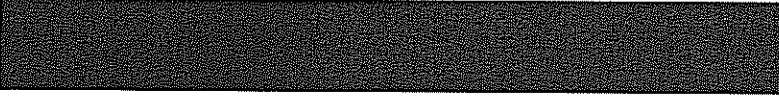

Because abortion is legal, accessible and socially acceptable it fools women into believing it's a sane or even a good solution to a crisis pregnancy. This hurts women. Women were made to love and nurture their children not kill them. If a woman kills her born child, you think something is wrong with her and you put her in a mental institution or in jail. There is no difference between born and unborn to a mother's heart. Please stop this insanity in our society.

- 1) When and where did your abortion occur? March 1982, Hollywood, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No medical assessment was done, with a high family incidence of cancer, I would have had a reason to justify to others not to abort.
- 3) Were you adequately informed of the consequences of abortion? NO, I was told that I was doing the responsible thing since I had harmed my baby from oral contraceptive
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? Clinic owner, fiance & peers
- 6) How has abortion affected you? It made my life go into a downward spiral from emotional & spiritual pain to absolute symptoms of ill health. Almost a decade later, I gave birth and the physical problems were better. However, the reality of the abortion was exasperated. I was forever changed in an unhealthy way from that legal choice I made, however misinformed that I was
- 7) How has your abortion affected others in your life? Yes, my ~~has~~ present husband & children and other post abortive friends
- 8) Based upon your experience, what would you tell a woman considering abortion? It is a choice that will adversely affect you the rest of your life. Every woman deserves the support to be blessed with the ~~best~~ unplanned joy of Motherhood
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The abortion industry is an intrinsically evil business that exploits women & robs men of their rights to fatherhood therefore breaking down the family unit. A strong family unit makes for a strong society.

* ANSWER TO QUESTION # 1.

① Tell when and where your abortion occurred:

ANSWER- October 11-12, 1999. TOP GYN Ladies Center and ALBA Medical Center. I went to TOP GYN Ladies Center first, on Oct. 11, 1999. According to what they told me, they couldn't see how the baby was positioned in my uterus so they sent me on the same day (Oct. 11, 1999) to ALBA Medical Center, a center affiliated with TOP GYN Medical Center. However the abortion procedure itself was not done until October 12, 1999. The procedure itself took place at ALBA Medical Center.

NOTE: I will ONLY allow my affidavit to be used if my address and phone number are NOT exposed to the general public. Otherwise please withdraw my affidavit. Thank You.

Surviving Abortion

"Thou shalt not kill" was the one thing standing in my way of having an abortion. I swiftly remedied that with "If we confess our sins, He is faithful and just to forgive us our sins and to cleanse us from all unrighteousness." I could kill my unborn child, and afterward ask forgiveness. In one day my life would be back to normal. I chose abortion. Immediately afterward I asked God's forgiveness, and said that I was sorry for what I'd done, but I was only fifteen and I couldn't have done it if my mother hadn't paid for it, and I would never do it again.

The prayer became a part of my daily life, through marriage and the birth of my children, a ritual I performed without question or reason. It was with me through the years that demanded perfection, an obsession that forced me to crawl on hands and knees searching for lint that the sweeper might have missed just moments earlier. It was there during the sleepless years, when a force within myself kept me up at night while everyone slept, to make certain my perfect house remained undisturbed. It was there during the day, when the voices warned I would kill, and again at night when nightmares forced me to commit what the voices had foretold. I shunned people and blamed my husband for the voices and the nightmares. I believed I was the only sane person in the world, and I wanted to die. Twelve years after my abortion, when I was six months pregnant with our third child, I was committed to a psychiatric ward in a nearby city. I was isolated from visitors, drugged with pills and interrogated during long talking sessions. One day, my doctor brought a small doll to our session. He shoved it across the table toward me, and introduced me to my aborted child. He ordered me to yank off its arms and legs and head, because that was what I'd ordered for my unborn child. I was instantly repulsed to nausea and self hate, sobbing at the very thought that I had allowed my baby to be ripped apart alive. The ugliness and self-disgust was too horrid for words, and I wanted to fade from life itself. It was there, sitting at that table, that I was forced to claim sole responsibility for the killing of my unborn child, without the excuse of youth or my mother's involvement. The sin was mine alone, without excuse. God demanded repentance, not justification for my sin.

When I was released, the prayer didn't come with me. The voices were gone, along with the nightmares. It took two years to unlearn my fanatic drive for perfection and be totally free of pills. Many years have passed and the sight of lint on my floor can still bring instant recall to a time when I couldn't pass by it.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: April 1976 at a "women's services" office in Ft. Lauderdale, Florida.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely NOT, I was told the baby was a "blob" of tissue, and at 15 years old - believed it.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO, NO

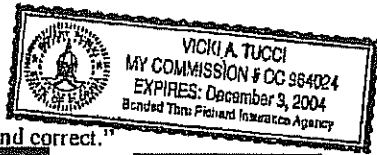

4) Did anyone pressure you into having an abortion? If so, who? yes, my mother

5) How has your abortion affected you?
It made me feel like a murderer so I acted out with very low self esteem. I became promiscuous and got heavily involved in drugs and alcohol.

6) How has your abortion affected others in your life? I had a very bad marriage for 4 years then divorced. My husband was the father of the baby and our relationship just blew up after the abortion - both blaming each other and hating each other for the loss.

7) Based on your own experiences, what would you tell a woman considering an abortion? Please, consider your options. God does not make mistakes. For every unwanted pregnancy there are dozens who would love to adopt your baby. Please don't make a permanent solution for just a temporary problem.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? They need to take off their blinders and see abortion as it really is - an end to a perfect life. A life that has no voice for itself and needs protection from harm - that the courts can produce.

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

1. How did you come to have the abortion(s) and who was involved?

I had a severe and debilitating pregnancy-related maternal illness that I thought I might just die from. Who wasn't involved?

2. Do you believe you were adequately informed about the nature of abortion, the risks, and alternatives?

yes and no. the "counselor" lied to me, and I didn't know at all about the development of my baby. but everybody knows abortion kills a baby. what I didn't know was how much pain my baby would feel. I knew how much pain and fear I was feeling. I didn't want to be sick anymore or die. it was, I thought, unbearable.

3. How would you describe your abortion(s).

I'm not really sure how to answer this question. how would I describe the loss of my child or the act of killing my child? these are two different questions.

it wasn't something I wanted to do. I tried everything my crummy ob suggested, but none of it worked and there were big complications due to medical malpractice and negligence. I killed my child at 15 weeks, so we were in the second trimester. it was surreal. what follows is an account of the actual abortion experience:

we arrived at the "clinic" at 4 pm on January 30, 1997. the protesters were there, still energized by the Roe v. Wade anniversary. I had to walk through them with my husband who didn't want me to do it but was afraid I was going to die too. they were shouting, "don't kill your baby," as if the resolve not to would make the illness go away. I was so sick it took a long time to walk to the door, so I had to endure their impassioned cries. they assumed incorrectly that our child was unwanted, that it was physically as easy for me to carry a child as the other 97% of women. we signed in and they said my husband had to take my purse back to the car. I realized they were afraid of incendiary devices or weapons or something. that made some sort of an impression on me. still, I didn't think I could do it, so I wasn't completely receiving any of it at that point. I just had to go through the motions... I think to prove to God that I would really kill my child if He wouldn't help me. at that point I really believed I was still bluffing. I relied on the highly trained counselor with the college degree in psychology to determine that I was an unfit candidate for abortion and I would waltz out the door with "oh well. at least I tried to stop the illness." but there is always the possibility that you will do the unthinkable when your arm is being twisted and you can hear it breaking into shards. this is what terrified me. as we sat there in the waiting room I noticed no one was crying but me. no one was talking at all except for one young girl who was there with her own mother. this girl chatted away on the phone with her friends citing what she was about to undertake as a minor inconvenience, already making plans for a party that weekend. a security guard of some sort decided very inappropriately to practice his stand-up act for all of us waiting to kill our children. I was horrified. I wanted to punch him in the mouth. mallock was playing on cable t.v. (which was one thing the ad in the yellow pages quoted as an asset of the abortion experience - yes, cable t.v. in the waiting room). it was an episode where a crying mother was on trial for murdering her own baby. by that time I was in a surreal dream from which I couldn't seem to wake. the irony was not lost on me. here we all were doing the very same thing but legally. again, my illness was my excuse. I was not "like" them. I wanted my baby, therefore no one could touch me.

they called my name for counseling. thank God. they would send me away and I would leave this horrible place. my heart fell to the bottom of my hollow soul when I opened the door and a girl of 17 or 18 identified herself as my counselor. all she wanted to know was what type of birth control I would be using after it was over. I was trapped. she had not saved me from myself. more importantly, she had not saved my child.

the nurse asked for a urine sample to test for pregnancy. sobbing, I believed this would be the last time the life of my child would have a chance to register. she attempted to comfort me with, "it's ok, sweetie. I got an abortion too, and I just want you to know you can always have another baby." I couldn't fathom what I was hearing. just another idiot assuming that I didn't want THIS baby, that pregnancy was physically bearable for me, that I deemed my child an inconvenience like the rest of the cruel and dim-witted women who awaited release from the responsibility that arose from their unevolved lack of sexual restraint. I wanted to tell the nurse, "but I want THIS one!" but I knew she would have no answer, so what was the point? I let her think what she wanted to think, that I was capable, that these babies she was helping to kill weren't babies. my illness was a towering throne that set me apart from everyone else.

she led me to the room, told me to get undressed, and closed the door behind her. the only thing I could see was a large absorbent pad on the table. it struck me like a baseball bat; my child's life would soon be spilled all over that pad. I could see our future soaking into the synthetic fibers. I wanted to run, but I was riveted to the spot. the pad was a magnet and I was iron filament. I couldn't move. I couldn't undress. I heard wheels squeaking outside of the room. the nurse entered with a cart that had a sonogram machine on it. when she closed the door I noticed the bell for the first time. "sweetie, you're still dressed. I'm going to go get your husband." I couldn't talk. I could only sob saying, "I don't want to do this, I don't want to do this!" they broke policy and sent my husband back. he didn't see anything but me. he said, "please just say the word and I will take you home RIGHT NOW. please just say it." I didn't say anything. I couldn't talk at all. I could only cry, and I knew the illness would be waiting for me at home. I couldn't say I didn't want to be sick anymore. I couldn't say, "take me back to the illness," I couldn't say anything at all. and when the abortionist entered the room my husband practically ran from him.

these people are scary. they kill babies all day long. how can you not be terrified of them? you can feel it when they enter a room. what they do trails behind them like a long, slithering tail. their legacy fills the space with a black and permeating mist that chills you to the bone. but you sit there like a possum in the lights offering up your child whom you have perverted into a twisted currency with which you will buy your freedom from whatever it is that ails you.

abortionist pendergraft performed a sonogram and jerked the screen away from me as i craned my neck to see the wonder of my baby, a sight that always instilled new found energy in me to fight the disease. he made sure the image was unavailable to me. "oh!" pendergraft said pleasantly, "it's bigger than i thought. i'm going to have to charge your credit card again." it was in the pocket of my jeans. he took it again, so i paid him not once but twice to kill my child. he left taking the cart and the jar, leaving myself and the baby and the illness alone together again.

as i tried to sort out the impossible trinity (myself, the baby, the illness), the reality finally sat on me. this was going to be it. i finally knew. no more delays. no more chances. the governor's stay would not ring through. if i didn't put my clothes on and leave now, it was curtains. i sat up on the edge of the table and willed myself to leave. i imagined sending my baby's picture to pendergraft 5 months later with a nasty little written comment like, "this is who you almost killed. thank God i didn't let your murdering hands butcher us," but the illness was whispering in my ear at the same time, and i was struggling against the "five minute freedom". getting an illness like THAT is a rebirth into a life you never knew existed and never imagine you can escape. they said that what the doctors hadn't been able to do in 4 horrible months, they could do in 5 minutes. i was crying uncle and i didn't know how not to. i wanted to be well, and i tried to keep my mind's eye on the picture frame i had gotten as a gift for the baby. i kept trying to imagine myself filling it up with the image of that beautiful child. i sat there trying to come out of the dense mist, trying to follow the picture frame out of there, but i was driven to distraction with the terrible and familiar squeak of an approaching wheel.

abortionist pendergraft entered the room with the cart and a bigger belljar. i blanched. went more numb than ever. he asked, "are you ready?" in a final attempt i confided, "i don't want to do this. i love my baby and want my baby so much, but i'm sick and the doctors haven't been able to help me. i'm getting sicker, losing a pound a day, having mild hallucinations now i've lost so much weight. i'm turning yellow and my skin is coming off and i don't see how i can go on. no one is telling me anything. i don't want to kill my baby, but i don't want to be sick anymore!" to his credit (or not), he said, "why don't you go home and think about it and come back on saturday?" i argued, "we drove 5 hours! if i leave i'm not getting well, and if i go i'm not coming back!" he asked me the final question as he fumbled with the syringe and the tubing that would deliver me the knock-out valium solution, "are you ready?" i was crying so hard i couldn't speak. all i could do was offer my arm and bid the illness and my child farewell.

and then i was completely out. there remains only a glimmer of my body shaking, of someone tugging on something somewhere so deep inside of me and tugging SO HARD that my whole body shook like a wet sturgeon hitting the bleeding deck of a fishing boat. just a glimmer of that like it happened or not, clouded by the permeating mist of drugs and malevolence. and then out of the pitch, a cry.

the wailing was terrible. it was enough to wake me from my deep sleep. where was the sound coming from? i opened my eyes to search it out, and only when the nurse yelled at me to "STOP IT!" did i realize the cry was coming from me. i was surprised at the autonomic nature of such a response not known for autonomy. like breathing, like the thoughtless beating of a heart, escapes the cry of a mother who has lost her child. i had never known this, and couldn't know before that anything could be like this.

the nurse was so offended by my reaction. my tears and crying disgusted and annoyed her. God forbid the people in the waiting room hear me, God doubly forbid she did. "stop crying, STOP CRYING!" she ordered roughly. she grabbed my arm and jerked me up from the table and the absorbent pad. i felt a tremendous puddle of blood and gore splash from deep inside of me onto the tile floor of that white room, and i lost consciousness in it. i woke up on the table again and pendergraft was running in to jab me with a needle full of methergine to stop the tremendous amount of bleeding. the nurse shoved a pad in my underwear and all but pushed me out the door and into the recovery room.

broken, i fell into a big white leather chair, the expensive kind that are usually so comforting. these huge puffy chairs engulf you like a mother's arms and nothing is supposed to matter there where they feed you cheese nips and hot herbal tea... and once you have graduated to one of those chairs, nothing *does* matter anymore.

another woman was moaning in one and i got mad and told the nurse she needed to get medication for this woman. i wondered how it was that i defended this woman but not my own child, and it hit me: i wasn't in pain anymore, i wasn't sick anymore. the illness left with the last shred of my child's body, just as my ob said it would. physically, i felt no pain whatsoever and never needed any pain medication at all. let me say it again, they literally ripped my 15 week old child from my womb and i felt no physical pain whatsoever. all i felt was better. the massive stone of physical illness had been lifted away from me. now i could be an advocate, a maternal caretaker once again... but oh! the person i was made to love and care for was a twisted ruined mess at the bottom of a belljar a hundred feet away.

all i had cared about in the final stages of that illness was my health. i just wanted to be well; i would deal with the rest later when i was capable of dealing with anything other than the constant torrent of extreme, respiteless physical symptoms. well that time came after "the five minute freedom" which was newly dubbed "the lifetime of sorrow". the terrible illness i suffered was as a walk in the park, a piece of cake with fluffy pink marshmallow bunnies on top compared to the lifetime of sorrow.

i walked out of the "clinic" and was acutely aware of the loud squishing sound of my blood-soaked socks. they told me not to leave town, because i was bleeding so much. i had to call them every hour from the hotel until it became apparent i was going to survive without emergency medical intervention.

on the way home the oranges hung heavy and ripe on the pregnant trees. the fields were full of a million orange teardrops i would cry for the rest of my life. they became the pregnant women who would constantly plague me with their equally ripe bellies, capable and natural like i never had the chance to be. i was the lucky 0.3%, the good girl who lived a clean life and would never ever abort her baby no matter how financially insecure or emotionally diminished, the girl with an achilles' heel that would cost someone their life.

when we arrived at the house after our bloody trip, i sat in the "hearse" for a long time. (4 years later i still despise that car and fantasize of totalling it and going along for the ride.) i was afraid that the illness was waiting for me inside of the house. i was afraid that it would reclaim me and drag me

back to the bed that i had been mired to for 9 weeks. 9 weeks of health is nothing. 9 weeks of going to work, going to the grocery store, eating, drinking, sleeping, waking and starting over each day is a mere blip on the map of time. 9 weeks being stretched on a rack is eternity. it's everlasting; there IS no light at the end of the tunnel. in 9 weeks of extreme, devastating illness, nations could rise and fall, worlds could come into creation, evolve, and pass away. when it is over, you are surprised to see familiar faces, that any of these people are still alive after so much chronic time has spun away. i was terrified of going back: the illness was such a real presence for so long that it had become a tangible entity.

finally i entered the house, and lo, the illness wasn't there at all. but i looked in all the closets (figuratively) and i wasn't there either. in fact, nothing was there in that house. everything was quiet. my insides were still. and even though i felt it immediately after the death, this was the first time i acknowledged the eerie stillness of my womb where nothing grew, my body where nothing hurt, my life where nothing lived, the Black Hole.

when a star dies it explodes into a supernova. the remains are condensed into a neutronstar which is an extremely dense object. if the neutronstar is just too heavy it evolves into collapse and becomes a black hole from which nothing, not even light, can escape. this is a perfect analogy for my personal experience. my shining star died, and death was so heavy as to carry with it the summation of all light in my life.

4. How did your abortion(s) affect you and others?

firstly, i had a complete nervous breakdown after it happened. this is pretty funny considering i never believed in nervous breakdowns, and thought they were for emotionally underdeveloped people who made it all up to get attention. like those swooning, collapsing nutjobs at southern baptist tent revivals on the roadside. but i had a breakdown, and it was real.

i lost my job because i couldn't function at all. i couldn't eat or sleep and i had to see a psychiatrist daily. it was on an emergency basis where i could see her more if i needed to. they medicated me with antidepressants, gave me sedatives, but they didn't even work. my grief was so vigilant that nothing could touch it. i was very close to being baker-acted (admitted into the funny farm against my will), but, comically, the hmo that kept me from getting good medical care during my pregnancy also kept me from being forcibly admitted. i couldn't pay for it, and they didn't press the issue.

4 years later i'm still not working. i think about my child daily. since then i endured two more pregnancies, because of course, i wanted my baby back and i thought maybe i would die trying anyway. the next year i miscarried on Christmas day, because i'm so lucky. "how do i live without you?" was playing on the interoffice intercom when my new ob told me the baby was dead. any little dramatic spice never fails to be added to develop the full-bodied flavor of these tragedies. there's a point where you just have to laugh. the next year i was delivered of a healthy baby boy after 7 months in bed on STRICTLY adhered to bedrest and several dashes of dramatic spice including the incompetent cervix i sustained in the second trimester abortion procedure and the distinct possibility that my son had down syndrome. (he didn't.)

i love him dearly, but i must admit that sometimes, in my darkest secret places, i do resent him for not being my first child. sometimes in those places, he seems odd to me because he was not fated, and evidently, i believe in fate. the worst thing i feel regarding our relationship is the contradiction of my extreme love for him and my emotional apathy. i.e., when he needs me the most i abandon him. i detach. when he is sick or hurt i shut off. i refuse to help him. i can't deal with him. i even become angry at him for being sick or for hurting. it is absolutely dreadful, because i know that it is senseless and cruel and i do not have the desire to be this way. i absolutely know better, but i continue to persist nonetheless. sometimes i can comfort him, but it's not a consistent thing. i think i could abuse him in a blind rage if i wasn't so mindfully aware of it. i think that's why i shut off. because i know that abuse is less acceptable than even shutting off. my anger at the injustice of what has happened has reached substantial proportions. and to live in a society that sanctifies and promotes it perpetuates my madness. a hairy woman waves a flag and another baby dies as i type this sentence. it doesn't help to heal me.

i'm nasty to my husband. i can't tolerate him. i actually hate him for his involvement or lack thereof. i hate him for not dragging me out of there before i could slaughter our child. i hate him for not threatening divorce if i went through with it. i know that he was scared i was going to die, i (underlined) was scared i was going to die, but it doesn't matter after the fact. i hate him, and if you knew me you would know that that will not go away because i want it to or because "Jesus can heal it." give me a break already.

i am not the weepy little girl who doesn't want to have a baby. i am the woman, the wife, who wants nothing more THAN a baby and who gets hit with a devastating illness that causes me to kill my own child to escape. though the weepy little girl and i have one thing in common, commissioning the deaths of our children, we are different animals. her process of grief is one thing. she is tied to her child by guilt. i am tied to my child by love. she wanted to lose her child and she wants to lose her guilt. she craves an end to that terrible relationship. she'll see them in heaven and that's consolation. i wanted my child and i want to keep my love. like any grieving mother who loses her child, i grieve on and on. a picture of heaven means nothing to me now. Jesus isn't going to heal it for me anymore than He is going to heal it for the mother down the street whose 16 year old son got shot and killed when someone was trying to break into his car. our children are dead and they died horrible deaths and it is all-consuming. that i commissioned the death is just a significant complication.

i could go on and on. yes, i've been seeing a counselor for a while now. i've got ptsd and we're supposedly working on that if there is such a thing (as being able to work on it). i'm emotionally crippled, and i could care less about my life. i have little motivation and my son is being cheated of the intelligent, happy, funny, healthy mommy that he deserves, that i could have been. i regret not dying in the puddle of blood that soaked my socks, and this is not good for any of my relationships or anyone involved in a relationship with me. abandoning my family is something i think about often but, like suicide, will never do because i know better.

i have become obsessed with educating myself and others on the topic of abortion in an effort to expose it and stop it. i'm a grassroots activist and i always have been. it's hard for me not to throw myself into an effort fully and passionately. this has caused a rift between friends and family who

believe that abortion is just a positive, feminist, personal right and of course have never lost a child in one. and by rift, I mean, i have cut them completely off for the most part. i do so and never look back. i can't stand their ignorance or cruelty or stupidity in refusing to hear my case objectively. i can't stand their contradictory convictions, i.e., they say they can't stand partial birth abortion and then go and vote for gore, for God's sake. it is not my job to inflict myself with friends like these, when this is such a delicate issue for me. so, they have received an injustice because they have no opportunity to learn from me. but as we've seen in the past, one of us will suffer either way, and it's not going to be me, now is it?

believe me, i'm not proud of any of this. ANY of it but you deserve to know because you cared to ask. will a popular, powerful group care about us ever? will our voices ever be louder than the pseudo-feminist pro-abortion groups full of inconceivable women... and men? or will we always remain the ashamed women who hide what we have done from a society who advocates "choice" but hates us when we've actually made one? or are we doomed to be the cliché of the woman who aborts her baby, regrets it and is ever after deemed a tragic nutbag if she deigns to speak out? that's the niche i seem to have fallen in. talk about being damned.

5. Please describe what you have done to deal with your abortion(s), and did it help?

i'm doing one thing now. also, i read literature, educate myself, others, i worked with the republican campaign to promote bush, left flyers on windshields, spoke to strangers/friends/family on the subject, put out road signs, etc., i have spoken at anti-abortion functions and have volunteered for the local crisis pregnancy center, i make donations to anti-abortion groups, i am helping to start a right to life chapter in my county, i have posted my story where i can on the net, have a website and am writing a book. i had my baby's sonogram interred with my parents in their mausoleum, i keep a diary to my child, did the project rachel thing and some other religiously based post-abortion healing effort endeavor, had memorial jewelry made that i could wear at all times, made a "grave site" in the woods where i buried my baby's belongings only to dig them up in the middle of a rainstorm 6 months later, made donations to charity in his/her name, sent a bootie to the tree of life effort, and i offer phone and research support to other women with the illness. also, i helped a woman cancel her abortion appointment and manage the illness with research and ob support which resulted in my being present for her daughter's birth 6 months later. these are the things i do. the only thing that has really helped is actively helping that woman (and her husband) avoid the unbelievable pain and sorrow that we suffered, and helping her child live and not die in an abortion like my child did. that accomplishment is tinged with sadness however, because the mother supports abortion and voted for partial birth abortion this past election with her child in her arms. of course, i withdrew from the relationship. but the sad, disgusting truth is, if my child had survived i would have probably advocated and voted for the same thing. if it doesn't happen to you, you don't know and you don't have to deal with it. you eat up the bill of goods they are selling because it sounds good and doesn't really concern you. you get to keep your wild misconceptions and promote them misguidedly. you get to help other people completely destroy their lives, and you never have to feel any of it yourself. they die and cry and you are at a department store picking out new drapes with your N.O.W. button pinned to your lapel. apparently, this is the human condition and why abortion is so insidious and seemingly unstoppable. if everyone has to kill their own baby to understand that killing any baby is a terrible, terrible poverty, then God help us all by steering a sizable comet this way.

6. How do you think your abortion(s) changed your life?

in every conceivable way, as i'm sure you've come to know. i am worse for wear quite obviously. not only did the abortion harm me physically (incompetent cervix), it annihilated me emotionally; maternally, i'm a greasy spot on the asphalt. spiritually, which i have purposefully neglected to really touch upon... God is a black hole. *i am paranoid, angry & distrustful.* After I received my "medical" records from Pendergraft I was shocked to learn he lied right there in paper, in black & white with his speedy signature attached. He said I didn't bleed more than a scant amount & that it lasted for less than 20 minutes (when in fact it lasted for MONTHS). He lied on my records, lied to my face (when he said my child wouldn't feel being ripped apart by D&E), his counselor lied to me when she said my baby weighed less than an ounce & so wasn't developed, & his nurse, India, lied to me about the "procedure" when she said a D&C is the same as a D&E at 15 weeks. The entire ordeal was a tapestry of lies. They're not the only liars in the abortion experience. Society lies when they portray abortion as an acceptable alternative & the government lies when they say killing innocent children is legal lawful. Our forefathers made provisions for unborn children when they stated all human beings have certain unalienable rights and that among those rights is Life. Abortion is a lie, & in the words of Abraham Lincoln "No one has the right to choose to do what is wrong." As I write, ~~as~~ a gestating child writhes in agony & a mother's heart is broken forever. My child & I were not the last. The legion of death & sorrow grows. Sheer madness.

I have read the above and foregoing statement and the same is true and correct.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? That there should be no discussion on if abortion should be legal or not. They should first look at what it is they are saying we should abort. We should be able to show them in a caring way that these are babies not yet grown up, that we are killing. Then of course I would share my painful experience of my abortion and tell of how I thought it was OK to abort, then tell the truth of how I took my own child's life and how I live w/ that all the rest of my days.

TESTIMONY OF VICKI HUDSON:

AFFIDAVIT

The State of Florida §
 §
County of Martin §

Before me, the undersigned authority on this day personally appeared VICKI HUDSON, who, being by me duly sworn, upon oath stated the following facts:

My name is VICKI HUDSON. [REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

It was the fall of 1971, I was sixteen and one-half and in my junior year of high school. I attended high school in Louisville, Kentucky. I was on the honor roll and in the National Beta Club. I was co-captain of our track team. I was and always have been an over-achiever, in school and in my career. My parents were hardworking, honest people. They strived to obtain all the material possessions the world had to offer.

I had been dating this guy for about a year. We had sex one or two times when I found that I was getting morning sickness. I was not really sure what was happening to me, but I suspected I might be pregnant because I missed my period. My mother caught me throwing up one morning and insisted that I go to the doctor. As the doctor was examining me, he asked if there was a possibility that I was pregnant. I lied at first, but he kept on pressing me and finally I admitted that it was a possibility. My mother was in the room and I remember her face to this day. It was a look of hurt and disappointment. I was devastated. All my life I had sought the approval of people, especially my parents. Now, I had disappointed the two people who meant the most to me in life.

Now at this time (1971), abortions were illegal in Kentucky, but not in New York. I really don't remember anyone talking about any other options. The doctor immediately started talking about abortions, as if this was the only option. The only thing I remember him telling us is that we needed to make a decision quick, because in two weeks another, more complicated procedure would need to be done. My understanding was that anything less than six weeks pregnant, they would use a suction procedure and would not have to scrape the uterus. The doctor provided my mother with a phone number to arrange an abortion in New York.

My mother told my father when he got home from work and his reaction was the same as my mother's – hurt and disappointed with an added dimension of anger. The guilt of not being the "perfect" daughter anymore was unbearable – little did I know at the time that this guilt was nothing compared to the guilt I would soon be feeling. I never told my boyfriend. I called him the night I got home from the doctor and told him I never wanted to see him again.

There never was a doubt what was to be done. At the time, this seemed an easy decision. But why would such a decision be so easy? I pondered this question many times after my abortion. After close self-exploration, I found that there were three main reasons that contributed to this "wrong" decision. The first reason revolves around the foundation of my family's morals and values. My family had no real religious foundation to speak of; at best we were agnostic. The only time we really attended church was at Easter and that was when I was very young. I don't really remember much about this experience except that it was a time I got new clothes and it meant a trip out to the country to attend my grandmother's church. So, although we were a "good" family, there were no real consequences for immoral or unethical decisions. If you make a bad decision, you just chalk it up to a learning experience and go on – little did I know at the time that this decision would not let go of my conscience and would haunt me for the next thirty years.

The second reason stems from our public educational system. I don't think we realize as a nation, the influence that educational system has on young minds and how it develops our views on life. We were taught sex education, but it was a "cold" course about the reproduction organs and never really talked about the human life that began at conception. I figured I was about four weeks pregnant and really didn't think of this organism inside of me as a human life. Little did I know at the time that at 18 days after conception my baby had a heart beat and at 5 ½ weeks my baby would have brain activity – what else would be needed to make this organism inside of me a living being? Also, we were taught evolution. Evolution was taught in science class as fact – I had no doubt that this was true because my science teacher taught it as if it were true. Teachers never mention that this is purely theory and not based on any scientific proof and no other option such as creationism is even mentioned. In my mind, if evolution was true, human life had no real purpose – we were just here to please others and ourselves. At this time in my life, I had a life to live and a baby would just get in the way – little did I know at the time that not having my baby would get in the way of living my life.

The third reason was purely selfish and self-centered. If I chose to have this baby it would have caused much shame and embarrassment to my family and me. Little did I know at the time that the decision to abort my baby was the cowardly way out of the situation I got myself in and that it would have a permanent effect on my emotional stability.

The next thing I remember was being on a plane to Manhattan, New York, with my mother. We were met by a limousine and driven to a tall office building. We went to the doctor's office. I remember thinking that this was not what I expected at all. I guess I was expecting a dumpy place in some back street alley. My mother completed the paperwork and I was taken back, asked to undress and put on a table with stirrups (the first time I had experienced this type of table) and put to sleep. No one ever talked about options or asked if I was comfortable with the decision I had made. I was scared to death and there was something telling me not to do this, but I wouldn't give in to this little voice and no one else seemed to care – everyone was so nonchalant about the whole thing. I don't remember how long it took, but as soon as the abortion was over, we got right back on the plane. I got home, went to bed and woke up the next day to go to school. Everything seemed so easy, but the guilt and shame started as soon as I got back on the plane.

My mother and father never talked to me about the decision I made, matter-of-fact, we never talked about the abortion at all, before or after. After the abortion, I went on with my life. Still trying to please my parents and everyone else I came into contact with. It wasn't that I was real promiscuous, I had steady boyfriends, but my behavior, such as drinking and partying didn't reflect what I wanted to be and I knew it was wrong – which added to my guilt. My baby was gone, but not forgotten.

Every year, in June, I would think about how old my baby would be, what he/she would have looked like, what he/she would be like. As the years rolled on, I found myself thinking about my baby more and more. The more I thought about my baby the more I got depressed. The feelings of guilt were overwhelming at times. Especially when life wasn't going well, I just wanted to go to bed and not wake up. This world would be much better without me in it.

Sometime after I graduated, I began to research evolution, I'm not exactly sure why, but after looking at the universe and all its wonder, I began doubting this theory – it just didn't seem logical. The more I researched, the more the scientific evidence pointed to creationism. Remember, at this time I still had no religious foundation and my research was purely an intellectual endeavor. Once I came to the conclusion that evolution was bogus and was just a bad theory that had absolutely no scientific basis, I began researching God, which ultimately lead me to Jesus Christ. I believe God's moral law is written on our hearts from the beginning and I think this is the reason my decision to have an abortion weighed heavy on my heart and soul from the moment I got back on that plane. C.S. Lewis says it best when he said "there is a higher being which is directing the universe, and which appears in me as a law urging me to do right and making me feel responsible and uncomfortable when I do wrong." God makes us aware of the sin in our lives and He gives us the choice of repenting or letting sin eat at us until we can no longer bear it.

I lived in torment. It was not something anyone could tell on the outside, but my sadness was contained within myself. Even though my career was going well, I had low self-esteem and tried hard to impress people. At age thirty-three, I confessed my sin and thought I had given my sin to God. This provided a lot of relief because I knew that He had forgiven me. But, what I didn't know is that I had not forgiven my parents or myself. I never told anyone about killing my baby, never was able to discuss it with anyone. I blamed my parents for not trying to convince me to keep my baby and for financing my baby's murder. I can't stand the word abortion, at the time, it was comforting because it hid what it really is – murder and now I know it stands in the way of making an informed and "right" decision.

Thirty years after killing my baby, I went to a Christian Women's Retreat. It was emotionally and physically exhausting, but I was finally able to say the words "I killed my baby" and tell people about my sin. Through this experience I was able to forgive my parents and myself. After the retreat, I went home and told my husband, who was wonderfully forgiving and compassionate. Unfortunately, both my parents died in 1998 and I did not have an opportunity to talk to them about the experience and the part they played in my horrible decision and if they ever regretted not helping me decide to have their grandchild.

The consequence of abortion is permanent – emotionally, physically, and spiritually. The pain of giving up my baby for adoption could never be as bad as the guilt of killing my baby. Yes, I would have had to go through the shame and embarrassment and so would my family, but at some point we all have to be accountable for our behaviors and actions.

Through my relationship with Christ, I have been able to accept forgiveness for murdering my child, and forgiven my parents as well as myself. What was a very poor decision can be used for good if it will keep some other young girl from making the same mistake. I went through "hell" for thirty years and if I could take it all back, I would. I never had children; I didn't feel like I deserved to have children. I still think about my baby, but now I picture him/her in the arms of God, just waiting for my arrival – I can hardly wait!

A F F I D A V I T

1. I have had 3 abortions. The dates are approximate as I truly cannot remember exact dates partly due to wanting so badly to forget and secondly the last one was nearly 20 years ago. The first one was in the Spring of 1981. The second one as hard as it may be to believe was the fall of the same year 1981. Both "D&C's for termination" were performed at Nathan Littauer Hospital 199 E. State St. Gloversville, N.y. 12078 paid for by the tax payers of N.Y. (medicaid) The third one was in April 1985 paid for by my private insurance. That one took place at the Saratoga Hospital in Saratoga Spgs, N.Y. 12866. All three were performed in an operating room in the hospital.
2. There were no conversations of any kind other than I told the physicians that I wanted an abortion and when, where it would take place.
4. NO. I am concerned at this very moment due to in the last 6 mos having excruciating breast pain before and during my menstrual cycle that I have never experienced before and now recently learning I would be a good candidate due to my past. I just recently got my medical insurance back and need to be seen. I have not been able to go to an OB GYN since April '99
5. The first 2 I had alot of pressure from my live in boyfriend whom I did not marry... The third one I did have some pressure from my fiance whom I did marry in 1987 and also from my manager at work because of the thoughts and plans they had for my career and if I had the child that dream would end abruptly because my freedom to travel would be done.
6. Before this whole nightmare was to end I would want to have a child and found myself to be infertile. I had a diagnosis of endometriosis attached to me. Three surgeries to try and help the physical pain I was going through and also 4 years of trying to concieve and did not. Then I had a beleiver and my mom lay hands on me praying in the holy ghost which at the time totally frieghtened me... The next month I was found to be with child. Glory to God he is still in the MIRACLE BUSINESS!!!!!!!!!!!!!!!!!!!!
7. The 4 years we were waiting on God for a miracle were hard on my mom, Gramma she never stopped praying for God to open my womb. In a 6 hour surgery to remove cysts and scar tissue and all of my left ovary and a 1/4 segment of my right things didnt look to promising not to mention all the lost time from work and needing physical help while my body tried to recover it was nearly a year before I started to feel back up to par.

7. I have a copy of the surgical report that also indicated the scar tissue was so bad they had to cut my intestines from my ovaries they were adhered. I would be happy to give you a copy of that report upon request.(its pretty gross)

8. I would simply share evverything I have been through and pray that her eyes would be opened to see it is not a quick fix to a temporary problem . Like everything in life there will be consequences for wrong choices. Physically and emotionally I agonized & trevailed for 4 years when I finally wanted to be a mother and could not . God was gracious enough to grant me this priviledge but still once in a while for no apparent reason a real heavy depression tries to come on me , a deep regret and remorse, shame and on and on and the only solitude I have is that God does forgive me but not only the visible physical scars that I have briefly mentioned the emotional ones are unreal. I still wonder what sex the children would have been I somtimes realize their approximate age if they would have been allowed to live... Its all too much to try and put in writting. I just praise God that he saved me and my husband and is still healing the wounds daily.

9.I am going to be bold here..... First of all I truly believe that there is a hidden agenda in our government as to why they not only allow abortion to be legal but also allow tax payers dollars to pay for these slaughters...Its called population control which ultimately comes down to money. Example: I have an acquaintance who works for Social Services and her opinion is well if we dont pay for the abortion 98% of the time we end up supporting the illegitimate child to age 18 . What a horrible way of looking at a precious life. We absolutely need to educate our young women about how life begins at conception. I later on in years saw a presentation at a county fair by a right to life group that showed those tiny little feet at just 6 weeks etc.. If I had only been given that kind of information before being allowed to have an abortion I honestly dont think I could have done it . Kind of like showing the drunk driver movies about fatalaties as a result of drunk driving after he had a crash and killed some one. For such an intèlligent nation we are very ignorant. I could never express everything in this short letter but I certainly hope I have been of some help. May God continue to Bless you and protect you and your families as you step out and do his will and set the captives free!!!!!!!!!!!!!!!!!!!!!!

In his service....for his glory

To whom it may concern:

This is my story. The year was 1986 and I was 15 years old. After practicing "safe" sex, I found myself pregnant and scared. My parents were both shocked and disappointed. They saw no other alternative at that time then to end the pregnancy so I could continue with my schooling. My junior year of high school began in three weeks, so there was no time to wait. When the family Doctor examined me and confirmed my pregnancy, he simply asked my mother what we wanted to do. He went on to recommend an abortion clinic that could "take care of the problem" very quickly.

The very next day, we sat at that abortion clinic across from a "counselor". She was asking if this was what we wanted to do. I told her I only had one question, "Is this a baby, are there any living parts inside of me?" She looked at my mother and I and said, "No, all that is inside of you is a mass of tissue that has not formed yet. There is nothing living, yet". The abortion was scheduled for the next morning.

After sitting in the holding room and listening to other women explain how this was their third and fourth abortion, that you get used to it after awhile, I was stunned. Up until this point I still thought there was an error, that I was not really pregnant and they would find that out. When the procedure began, I realized for the first time that I must be really pregnant and I screamed for them to stop. The nurse covered my mouth with her hand and told me to be quiet so that I would not scare other patients.

Following the abortion, I tried to commit suicide and when I was too chicken to go through with it, thank goodness, I drowned my depression in alcohol. Four years later I married. Two years following my marriage we were told by four Doctors that I was infertile. Instead of using fertility drugs and trying various procedures, we elected to leave our fate in the loving hands of God. My nightmares continued until I found myself in Post Abortion Counseling at the age of 24. Through the counseling I discovered that I had been suffering from Post Abortion Stress Syndrome. It was then that I was finally able to forgive my parents and myself. Up until that point, my parents and I did not have a very good relationship. Deep down I blamed them for the abortion, and they had a hard time justifying the death of their grandchild.

After a miraculous touch from God, I did conceive five times. Twice I miscarried and three times I gave birth to beautiful babies following very difficult pregnancies. The abortion had weakened my uterus and cervix, and I suffered with preterm labor with each child.

In October of 2002, I was diagnosed with cervical cancer and had to have a hysterectomy. Because of the type of cancer cell that was found in my cervix coupled with the abortion, I am now at a higher risk for breast cancer.

BEFORE ME, the undersigned authority, on this day personally appeared THERESA C. CHAPMAN, who, being duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. I have had two abortions. The first in New York City in approximately August 1978, the other in Wayne, NJ in approximately February 1979.
2. I was not adequately informed of the consequences of abortion. I was told "it is nothing more than a blob of tissue" at both places. I was not told the long term physical and psychological consequences. I was reassured that my "problem" would be over shortly.
3. I was never informed of any possible link between abortion and breast cancer. To date, I have not had breast cancer.
4. The father of my babies insisted that I have the abortions or raise them without any help from him. I was stupid, not thinking straight and did not realize there were laws against not supporting your child/children.
5. These abortions have affected me in the following ways:
 - a. I have had an underlying feeling of anger all these years. I was angry at the father but mostly, at that time, I was angry at myself for getting myself into that fix.
 - b. I grew angrier after I saw the pictures in *Life Magazine*, I saw for myself that these were babies, not merely "blobs of tissue." I had been lied to by the abortion "clinic's" personnel.
 - c. I have had long term psychological difficulties and undergone therapy.
 - d. I have had long term depression over the abortions.
 - e. I had difficulty becoming pregnant with my husband.
 - f. At the second "clinic," I went into shock with blood pressure 60/30 and pulse 35. I was sitting in a chair when they finally looked at me, then they had me walk to a recliner to sit with my feet up. They had not done a complete job and I was then passing large clumps of tissue and blood clots. I came close to dying and the clinic was not adequately prepared for such an emergency. Initially, they did a blood test and came up with the wrong blood type and they asked me "Are you *sure* of your blood type?"
6. The abortions have affected others in my life in the following ways:

- a. My daughter who was 10 years old saw the depression and was a target of some of my anger over the years she lived with me (until she was 19).
- b. My then husband and I split up for many reasons, part of which was the anger and depression from the abortions.
- c. My mother and siblings did not know how to help me with the depression, suicide attempts and anger. My mother was beside herself with worry.
- d. One of my younger sisters had two abortions also. She has never recovered from them, smokes marijuana daily since the first one. She is very self-destructive.

7. Based on my own experiences, I would tell someone who was considering having an abortion NOT TO DO IT. I would explain all of the above to her. I would take myself back to that time and relate what I was going through. I would show her the pictures from *Life* magazine which I have kept all these years. I would tell her it is murder and there are psychological consequences to murder. I would tell her about the years of depression and the hurt I felt for years and did not know where it was coming from until I underwent therapy.

8. Based on my own experiences, I would tell a court that I believe abortion should not be legal. We have killed over 35 million children in this country alone. How many presidents have we killed or doctors or scientists? Why have we killed them? Because *I* made mistakes and got *myself* into a social bind, I can use this as justification to kill a baby inside me? I think not. The baby has a different DNA than me! If it was merely "a blob of tissue" it would have *my* DNA but it doesn't! How can we tell people not to kill but *legally* make it *okay to kill a baby*, the most vulnerable humans there are?

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Abortion clinics in St. Petersburg, FL. 1978 and 1979.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No written or verbal information was given to me. I was only told the charge was \$200 cash (approx) and the times of my appointments. Nothing else was said to me about abortion.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? No Ovarian Cancer in 1985 with total hysterectomy.
- 4) Did anyone pressure you into having an abortion? yes If so, who? My boyfriend told me both times that he needed to complete his college program and he would give me money for the abortions; nothing else.
- 5) How has your abortion affected you? I kept it a secret because of shame and guilt. Sorrow and regret torment me and I keep telling myself to forget about what I did. I am uncomfortable around babies, children + pregnant women - I feel a vague sort of emptiness and deep sense of loss. The past, present, and future are painful because my children are not alive to develop and mature. This is because of my foolish misguided decision that was ignorant. Low self-esteem has resulted after both abortions. I never expected or was prepared to suffer for so many years.
- 6) How has your abortion affected others in your life? Lack of grandchildren for my parents. No nephew or niece for my siblings. No future generation. No step-siblings for my step-daughter. No step-children for my husband. No citizens USA.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not a solution to an unwanted pregnancy. There is help available for bringing your baby to full term. It is better to give life and not death to your unborn baby. There are other people that can help you + your baby to survive. Adoption is worth considering if you can't accept your baby.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I repeated harmful patterns + had a 2nd unwanted pregnancy + abortion because I didn't understand fully the truth about abortion and its consequences. I thought legal choices were good solutions. I trusted the USA Supreme Court to protect its citizens. Abortion should not have been a legal option. I incorrectly chose when I was pregnant and afraid and immature + poor.

BEFORE ME, the undersigned authority, on this day personally appeared [REDACTED] B [REDACTED] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

I went to a women's clinic in Gainesville, FL in April or May, 1987.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

I knew I wouldn't be pregnant anymore; I was told they would remove the "product of conception." I wasn't told about the risks involved or side effects, such as psychological problems. I wasn't presented with alternatives, such as adoption.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No, No, I have not.

4) Did anyone pressure you into having an abortion? If so, who?

No, I didn't feel pressure from anyone in particular. I just felt that it was a solution - the only solution - in light of my circumstances. I wish I had known about alternatives - especially maternity homes.

5) How has your abortion affected you?

I was initially relieved but over time my self-worth deteriorated. Years later I began to have terrible nightmares about dismembered babies. I deeply regret my decision. If I had it to do over, I would have chosen adoption.

6) How has your abortion affected others in your life?

My relationship with my boyfriend ended; my friends lost respect for me - those who I thought would be supportive. I deprived my mother of her first grand-child. My children wish they had an older brother or sister. My husband was grieved to know I had taken the life of one of his children, even though it was before I met him.

7) Based on your own experiences, what would you tell a woman considering an abortion?

It's not the simple solution that it appears to be. It opens the door to a whole new set of problems. There are loving alternatives - maternity homes where schooling is available; adoption allows a loving family to have a child they couldn't have had otherwise.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

A child in the womb is no different than a child outside of the womb. Life begins at conception. The child's DNA shows it to be a separate entity from the mother. It's not about the right she has over her own body. It's about the right to take the life of an innocent human being. Abortion is murder.

2. Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I WAS NOT GIVEN THE COMPLETE INFORMATION SO I COULD MAKE AN INFORMED DECISION. I WAS NOT INFORMED OF THE TRAUMA TO THE CHILD, I WAS NOT INFORMED OF THE LIFE LONG TRAUMA TO ME.

August 13, 2003

Dearest Sarah,

Twenty years ago on August 13, 2003, I made the worst decision of my life.

At twenty-eight years of age, I was divorced, had two beautiful daughters, was planning to marry your father - and discovered I was pregnant with his child. I didn't know what to do because the circumstances of my relationship with your father were already unusual - and I honestly didn't want another child.

Sarah, I ended your life twenty years ago on this date. I knew I had made the wrong decision from the moment I walked into the abortion clinic, but, God forgive me, I went through with the abortion.

I consented to having my baby, sucked from my womb tearing you into shreds during the process. Your precious, innocent, little body was attacked, torn apart, and sucked through a tube into a clear canister. I don't know what happened to the contents of the canister.

Precious Sarah, forgive me! Abortion is the most unnatural act of mankind! It separates the child from its mother in such a grotesque manner that is nothing less than the savage act of the devil himself. I fell into the devil's trap, but you, sweet Sarah, by the grace of God, showed me the way to the Light.

I believe in God's divine plan, Sarah. I don't understand all of the time, but I know everything happens according to God's will. He may allow bad things to happen but the ultimate outcome will be good. He gave you to me for a reason. I can now say I am so very grateful for my daughter, Sarah-Ann! I look forward to the moment our eyes meet in Heaven and, in the loving presence of Jesus, we embrace for the first time!

Until that time, keep on dancing and laughing with Jesus, Sarah. Your mother will be home soon to join you in celebrating the glory of the Lord. I love you with all my heart!

My daughter was born in February of 1998. One-week prior, my husband and I got married after two years of dating. The summer of 1998, I got pregnant again. I was definitely not ready for another baby and felt overwhelmed having just gone back to work with a three month old baby. My husband was very adamant about terminating the pregnancy and after much coaxing; I decided to go ahead with it.

In October, my husband and I went to the clinic to kill my 2nd child. I already had my mind made up, so when they offered counseling, I declined to accept. I was called back into the room and told by the nurse to undress from the waist down. Then I waited in silence. I knew then that it was not right and felt like I wanted to just run away.

When the doctor came in, he seemed very hurried. He told me to lie back. He gave me some terribly painful shots in my cervix to start dilation. He then inserted 3 metal rods into my cervix. Each rod felt like a knife slicing inside of me. Once the rods were in place he turned on the machine and began to rip my baby from me. I cried there on the table, in as much emotional pain as physical pain. I could literally feel this living spirit being pulled away from me. By that time there was nothing I could do about it.

When the doctor was done, I was put in a recovery room with several other women who had just killed their babies. There was complete silence. After I got home, the pain was excruciating and I soon fell into a deep depression. My husband left for college, and I was left with a baby, anti-depression medication, and a lot of deep emotional wounds.

Things went down hill from there. We went on with life, but the thought of my unborn child was forever haunting me. My husband did not understand, and every year on October 6th I would just sit and cry. I became addicted to drugs and alcohol in attempt to dull my pain, while still trying to raise my daughter, and hold a job. I became suicidal and attempted to kill myself twice. I was taking three types of psychotropic medications three times a day just to keep myself emotionally numb. My life was going nowhere.

About two years later, my husband completed his degree and moved back home. We were trying to make things work and then it happened. I became pregnant for a third time. I desperately wanted to keep this child. I knew it was the right thing to do and could not bear the thought of killing another child. My husband had not found a job yet and our relationship was very rocky. I was doing anything I could to try to make it work. Then my husband told me that if I did not have an abortion, he would leave me. The thought of raising two toddlers by myself weighed on my mind heavily. At the time, I was so depressed, insecure, and suicidal that I thought I could not possibly go on with life without my husband's help.

I had no idea as to how pregnant I was, so my husband and I went to the clinic. The doctor did a sonogram to see if it was still in the time range. It was not time yet, so I waited. All the time waiting made it even harder because I could feel this life growing inside of me, but could not be joyful. When I went to the clinic to kill my third child I was completely numb. I did not allow myself to feel any emotion. The physical pain was ten times worse than the first time. Again, I could do nothing but lie there and cry.

For the last few years I have actually thought of these babies and the decision that I made at least daily. I always feel as if something is missing. I have never felt "whole." I have always held a little resentment toward my husband for not "feeling" the same as me. I excuse it by thinking that maybe men just do not have the same "motherly instincts." I have also seen pictures of babies in the womb that are in the time range to

abort. This makes me feel awful every time, because I had no idea how developed the baby was. I was told that it was just a little piece of tissue. To make matters worse I feel guilt due to the fact that my older sister and her husband cannot conceive. I feel now that I had an option to adopt the child out to a couple that desperately want a child and cannot have one. How selfish of me.

Not until recently have I felt any better. About 6 months ago I began going to church, reading the bible, and reading several other books on forgiveness and self-esteem. I had been having a somewhat easy time forgiving others, but I still struggle to forgive myself. I keep telling myself that God forgives me, but I wonder how he could most of the time. I saw a show on T.V. about Operation Outcry and heard the end of one woman's story. How wonderful it was to know that I am not the only one with these feelings. I have been trying to find good out of something so terrible, so I truly hope that this story can help someone.

In conclusion, I had always been pro-choice. Now I definitely think that abortion should be illegal. While I had the choice to make, and it was not entirely my husband's fault, if abortion had been illegal I would not have gone through what I went through. We would not have had a choice. Either we would have worked things out as a family, or I could have looked into adoption. I was even more shocked to know that a minor does not have to have their parent's permission to have an abortion. One of the girls that was at my second abortion was only 14! She was there with her boyfriend and she made sure that they would not call her mom. This really is a sick and twisted way of dealing with an unwanted pregnancy.

BEFORE ME, the undersigned authority, on this day appeared Colleen Ortega, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1985, 1986, 1987, 1988, Miami, Planned Parenthood 1st
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No. If no, explain: It was not explained to me that there was a baby in there, not just a clump of cells, nor the emotional effects I would feel
- 3) Were you adequately informed of the consequences of abortion? no, especially not how long the emotional pain would last & how many breasts it would affect
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? 2nd time, my boyfriend
- 6) How has abortion affected you? At first I stuffed it in a box & vehemently denying they had ever happened. I became addicted to drugs, especially cocaine, and alcohol, and got myself in some very dangerous/sexual situations. I became extremely promiscuous and very self-destructive. I drove dangerously, as if daring myself to crash and sabotaging jobs and school. It took me 9 yrs. to earn a Bachelor's degree. Later, when I got married, I still struggled with alcoholism, rage and depression. After 2 miscarriages, I lived in fear for my daughter's pregnancy, and sank into crushing despair after viewing the Black & Howard.
- 7) How has your abortion affected others in your life? It affected my relationships w/ husband, stepchildren, daughter & parents. I still struggle with intergenerational.
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell her that it is not the "easy fix" that it appears to be, that she will always be that child's mother, and she will grieve that child for the rest of her life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that exercising this "woman's right" hurt me immeasurably. When I went on to have a child, the evidence was right in front of me on the ultrasound that this was a child, & the knowledge of that nearly broke me. I am angry that the other person involved, my child, was not protected by my government when I was too young & ignorant to know better.

"I have read the above and foregoing statement and the same is true and correct."
We have got butt laws to protect our kids yet our government condones this travesty.

BEFORE ME, the undersigned authority, on this day personally appeared Amy Marie Seltzer (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Saturday, June 24, 1995 at the Planned Parenthood clinic on Vine Street in Denver, CO.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Absolutely not. They told me it was a quick and painless procedure, which would end the pregnancy. I was never told how it is done, nor what was actually done to my baby.
- 3) Were you adequately informed of the consequences of abortion? No. I was told there were no side effects.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed. I have not had breast cancer although I am only 22 yrs. old.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. My boyfriend and his family.
- 6) How has your abortion affected you? It devastated me. I had nightmares, flashbacks, fits of rage, uncontrollable crying, trouble sleeping, I could not look at a pregnant woman or children and feeling hurt, anger, and guilt.
- 7) How has your abortion affected others in your life? I closed myself off from others after my abortion. I did not feel anyone would understand, or could like me anymore.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would promise her that absolutely no situation she is in is worse than how her life will be after an abortion. I would offer her any help possible to give her child life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is legal because people think it helps women. It doesn't. It deeply hurts women. Even in cases of rape and incest, it hurts women. And, it is a new life that is being destroyed. I challenge you to really learn the truth about what abortion really does to a woman and her child.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared BRENDA HILLIARD SPOCKDALE (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 10-31-68 - woman, to come to our apartment to perform an "illegal" abortion on me. This was in Decatur Ga.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: The only thing I was told was, "We are going to get rid of your problem". I was told of the procedure to make me about my baby as the woman was being there but not before.
- 3) Were you adequately informed of the consequences of abortion? NO - nothing was told to me at all.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO NO
- 5) Did anyone pressure you into having an abortion? If so, who? several family members encouraged me to do this because it had just turned 17 years old. I saw no other way out at the time.
- 6) How has your abortion affected you? When I realized that I had allowed my child to die, I had tremendous grief, guilt, despair, & sorrow. I was ever possessive of the child I had, allowed me to have after I got married. It changed my life forever.
- 7) How has your abortion affected others in your life? For me it has had one positive outcome my 4 grown children have been raised to know that abortion is the innocent babies. (The father of this child never had another child.)
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't do it - you will never be able to undo all the harm it causes. Abortion is a very real alternative. This child should be given the choice to live, & grow into what God wants them to be.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder - when an unborn child is killed, it stops its beating heart, not only is the baby killed but it also kills a part of the woman & others involved. It causes tremendous decay & destruction. Until abortion is stopped our nation lives under these deeds.

- 6) How has your abortion affected you? The first 4 or 5 years I tried to bury it, so it wouldn't seem real, but after that I was angry at myself and depressed over what I did. It was very difficult to look @ a new born and not see what I had did. I have asked God for forgiveness and have forgiven myself and went thro post abortive counseling. If not for Jesus I would not be able to handle it!
- 7) How has your abortion affected others in your life? I'm not really sure, but I know my children are missing out on their sibling. I've had to ask them for forgiveness.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That it is not natural for a woman to kill her own child and that it will haunt you after the fact. You cannot escape what you did. Only thro healing and forgiveness was I able to deal with what I did.

That it is not our place to determine whether someone lives or dies because we are not responsible enough and that these are human beings just smaller. We're "one" nation under God" so we can't play God with these children's lives. And a man cannot possibly know the agony

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Georgia

County of Jackson

BEFORE ME, the undersigned authority, on this day personally appeared Robbin Plows (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1st abortion Jan 81 in Pensacola, Fla clinic / 2nd in 06/86 in Glen Burnie, MD
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? First abortion I don't remember any counseling. Second abortion, it was explained there would be cramping similar to menstrual cycle, no mention of any emotional side affects.
- 3) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? If so, who? I felt pressured. The 1st abortion I was in the Navy & did not want to be discharged. The father denied any responsibility. The second was a result of an adulterous affair. I was in the process of a separation from husband (abusive husband).
- 5) How has your abortion affected you? I don't believe there is an area of my life that wasn't affected by these abortions. Mentally, emotionally, spiritually, physically, relationally my life was changed. I ceased to experience any emotion one way or the other - I flat-lined emotionally. I made bad life decisions while trying to numb the pain of the horror of what I did. I turned to sex, alcohol, drugs and even suicide ideation. I saw many counselors. I believe now, I had a hard time living with my choices "and set out on a road of self-destruction." After all, if the children's lives I aborted had no value, mine didn't either." I also had 2 subsequent miscarriages. Scar tissue is still visible on an ultrasound.
- 6) How has your abortion affected others in your life? It has affected (had) the manner in which I related to people. Relationally, I kept everyone at arms reach. I had a difficult time bonding with my son. I shared my story with him since I speak publicly about this - he regrets not having older siblings.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her it's not hopeless. She has more than 1 option. I would share Psalm 139 and explain God doesn't make mistakes. I would inform her of the consequences spiritually, emotionally, mentally, physically. I would refer her for help to a local Pregnancy Center. I would pray for her and ask her to give her decision some time.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? If asked, I would share how it affected me personally. I would share the heartbreak of the women I counsel in post-abortion studies. The sadness my son feels to be robbed of relationship with an older brother & sister. The desensitization that has taken place in our culture leading to infanticide, euthanasia and general disrespect for life. Abortion is not new, it began in the Old Testament when babies & children were sacrificed to Moloch and other gods. Today, our children are still being sacrificed to the gods of convenience, selfishness & narcissism. And God still weeps. "Have we come a long way, baby? I honestly can't say we have. Abortion is a slippery slope where & when will it end?" I have read the above and foregoing statement and the same is true and correct.

Why couldn't I have given them a chance at life like my mother gave me! NO ONE ever showed me the stages of pregnancy. If someone had I wouldn't have went through it. If I would have known the emotional effects that was years later, I would have reconsidered.

7) How has your abortion affected others in your life? yes! It's hard to get close to my husband & family with such a secret & guilt.

8) Based on your own experiences, what would you tell a woman considering an abortion? DO YOU / have you seen the different stages of pregnancy? - 1) Tell approximately when and where your abortion occurred: Feb. 1986 in Shreveport, LA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
I was not informed of alternatives, or of the risks to my mental & physical health. I was told the child was only a clump of tissue. No one told me of his actual development.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Kelly McGraw - whom I was working for @ the time & Julie - a co worker
- 6) How has your abortion affected you? At different points in my life it has affected me in different ways. - My immediate reaction was regret. Then, my self worth began slipping away. I killed my own child, how unworthy am I? It had terrible nightmares, blood, & hearing a baby's cry. I kept ending up in abusive relationships, I married into a controlling relationship that became verbally & physically abusive. I felt too unworthy to stand up for myself. After having 2 children I finally got out. Now I miss my unborn child.
- 7) How has your abortion affected others in your life? Yes - My children feel I am too overprotective, they are also missing a sibling. My mom is missing a grandchild.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? To not have one, give the child up for adoption if she doesn't want it. Any other option is better than living the rest of your life trying to cope with what you've done - KILLING YOUR CHILD.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? They should consider "the Rights" of the unborn individual. Courts recognize fingerprints as a type of ID that makes it possible to set apart a person as an individual. An unborn child should be recognized, he also has fingerprints (very early)

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

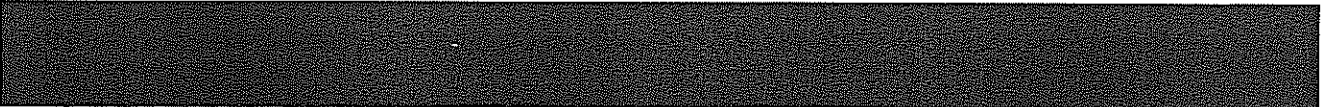

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1987, 1991 both in Denver Colorado.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? The first time I was given a very vague, sterile sheet to read. The second time nothing.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? My mother, who didn't make any indication there was any other option. My sister had had one, and said yes its painful, but its the right thing.
- 5) How has your abortion affected you? There is not enough room to explain all the ways my abortions have affected me. My heart became hardened. I was and still am to some extent numb to any emotional feelings. Relationships are very difficult. I suffer depression, denial, anger, guilt, shame and more. All from those 2 decisions.
- 6) How has your abortion affected others in your life? Nobody is allowed into my heart. My kids and my husband are kept at a distance. They are wondering what is wrong with them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That she has already become a mother, just because that baby is only a centimeter big doesn't mean she's not a mother. Despite her circumstances God has placed that baby there for a reason. Whatever she has heard about abortion
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Show me a woman who has had an abortion that is emotionally stable, that has a good relationship with those closest to her. You won't find it. Therefore that one decision a woman makes will affect generations to come. That is a lie.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: October 1980 + June 1981 in Broward County Florida
- 2) How has your abortion affected you? It has been hell having to deal with the abortions, of what I did. At the time I was 19, I stopped growing and have been suffering for 20 years with the shame + guilt.
- 3) How has your abortion affected others in your life? The only one who knew is my husband. He is in denial. This has been a big, dark, secret, I have been hiding from the entire world for the past 20 yrs. on his
- 4) Were you adequately informed of the consequences of abortion? NO. NO. + NO. I was not told anything. I was given no counseling + no information whatsoever. Poor, inadequate, radical care!
- 5) Were you adequately informed of the nature of abortion? What it is, what it does? If not, explain: No. The clinic did not give me any idea what to expect or what would be happening. There was no anesthesia. It was a nightmare. The pain was gruesome, physically + has been hell emotionally, spiritually and psychologically.
- 6) Based on your own experiences, what would you tell a woman thinking of having an abortion? I try to explain the hell it creates. I counsel at a pregnancy center now. We give the women all the information they need to make their decisions.
- 7) Based on your own experience, what would you tell a court that believes abortion should be legal? It is murder. It is wrong. It is absolute insanity for our nation. A woman who kills her own child, really suffers because we are created to nurture + protect her babies.
- 8) Did anyone pressure you into having an abortion? If so, who? Yes. My boyfriend said the only option was abortion. I listened to him. I did not consult anyone else. Deep down inside I knew it was wrong but felt it was the only option.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: 1981 Allegheny General Hospital Pittsburgh PA

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No.

3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? The abortions caused me to feel worthless, ashamed, angry, profound sadness. I was driven to per-ketamine to try and make myself feel worthy of the air I breathed and space I occupied. I turned to 11 years of alcohol and drug addiction to cope with the regret. In my need to punish myself I had a tubal ligation (sterilization). So I am childless. After killing my children I did not deserve to be a mother.

6) How has your abortion affected others in your life? Divorce from husband. Separation from family for years.

7) Based on your own experiences, what would you tell a woman considering an abortion? It is a huge loss, irreversible. You have other choices. There are people that will help you and your baby.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion hurts women. Abortion destroys life. Abortion opens the door to depression. You are stuck in grief, but you are told it is a choice - not a child & it is tragic.

1990 - Northside Women's Clinic, Chamblee, Ga.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: All I remember them telling me was to expect of the procedure (cramping) and offering me some Advil or something stronger. No info that I was killing my baby, or even that it was a baby.
- 3) Were you adequately informed of the consequences of abortion? no
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no
no
- 5) Did anyone pressure you into having an abortion? If so, who? no
- 6) How has your abortion affected you? much guilt, shame, grief, heartache, and regret, plus I have been diagnosed with anxiety/panic disorder
- 7) How has your abortion affected others in your life? my Mother regrets it and is saddened. My husband won't even talk about it.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her that she is pregnant with a baby, not "a product of conception or a blob of tissue". That it hurts physically. It hurts emotionally for the rest of her life. There are other alternatives than to kill her baby and deny it life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Legal does not mean it is right. A woman does not have the right to kill another human being and that is what it is, from the moment of conception, a "complete" human being, separate from the woman.

Every child. I had the right to
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? God's law is a higher law than man's laws. Our founding Fathers based our constitution & Preamble on God's laws which say in one of the Ten Commandments "Thou shalt not murder!" 2) Were you adequately informed of the nature of abortion: what it is, what it does? If not, explain: No. There was very little counseling. No information about fetal development or what was actually happening.

3) Were you adequately informed of the consequences of abortion? No. No one told me of the devastation that this would have on my life - the grief, the trauma, the emotional turmoil that I would recollect.

4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I was not informed. No I've not had breast cancer.

5) Did anyone pressure you into having an abortion? If so, who? No, I made the decision alone.

6) How has your abortion affected you? I've thought about my child nearly every day for the last 7 years. I've never had a child due to physical illness. We resolved spiritual anger resulting in a work-a-holic lifestyle and now physical disability due to auto immune disease.

7) How has your abortion affected others in your life? It affects all areas of your life - it is a secret you fear others know because you have this horrible secret that you can't discuss or share.

8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her that abortion is definitely NOT the answer to her dilemma. Abortion will only make her life worse and put her at risk of very serious physical & emotional problems.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is harmful to women - physically (possible infertility, breast cancer, complications from "the procedure") - & so harmful emotionally and it separates you from God. Abortion is a big lie. - 7) Based on your own experiences, what would you tell a woman considering an abortion? The it will profoundly alter your life. It is a decision you will always regret and be unable to challenge. It is the decision to murder your baby. You will suffer. It is an innumerable consequences following your abortion. It is not worth a mistake to avoid the feeling that you are trapped and have no choice.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That abortion hurts women. It robs them of their right to life, causing a deadness inside, liberty by robbing them of their freedom to live free from guilt, and robs them of happiness by limiting their emotional response to other's dangers, their future health (i.e. the breast cancer link) and most of all robs them of the experience of loving & raising that child.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: November 1990 - Augusta, GA
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: barely adequately - yes
- 3) Were you adequately informed of the consequences of abortion? No, I was informed of what, physically, would happen. The emotional consequences cannot be explained unless it is by someone who has been through it - even then it cannot be understood fully.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, No, but it does run on both sides of the family.
- 5) Did anyone pressure you into having an abortion? If so, who? No. The woman at the abortion clinic said it wasn't really a baby & it seemed like the best option for me.
- 6) How has your abortion affected you? I believe I have been forgiven & haven't really suffered emotional problems but then again, I haven't had children yet. I've worried it hits at that time. If I went through the procedure it really took an emotional toll on me. I saw the baby sucked into a jar through a tube.
- 7) How has your abortion affected others in your life? I've been able to help many young girls who have had an abortion or who have considered the procedure.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? It has physical & emotional effects (negative). It is murder.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? See above. I wouldn't want to stand before God & admit I okayed the killing of babies.

BEFORE ME, the undersigned authority, on this day personally appeared Amber Herzer (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

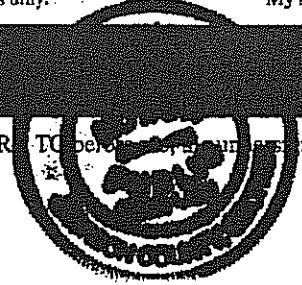

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 05/01 in Atlanta, GA
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I guess the nurses and doctors assumed I knew exactly what happens an abortion. I was never told that my baby was sucked out of me with a vacuum type substance, and that this vacuum literally tore my baby to shreds
- 3) Were you adequately informed of the consequences of abortion? no I was not told that it would emotionally destroy me, or that I could have complications with pregnancy in the future. All that I was told is that I would have bleeding and cramping after the procedure.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? my mother
- 6) How has your abortion affected you? I am pregnant now, and it scares me that I might miscarry or give birth to a dead baby all because I had an abortion. I still haven't forgiven myself. I wake up in the middle of the night because of horrible nightmares! I have a hard time watching shows on tv or movies that have a lot to do with babies. And I constantly tell myself that I'm a murderer and that I deserve to die for what I've done.
- 7) How has your abortion affected others in your life? I think people more or less feel bad for me, and just have sympathy for me.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her what they do to remove the baby, how it can cause complications with future pregnancies, and how it will emotionally destroy you for the rest of your life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? that even though the baby isn't born yet it still has a right to live. This law gives ~~you~~ a woman the right to kill a living creature. It's like telling someone it's okay to go up to the next person they see and kill them in cold blood and that it's okay. It doesn't matter if a person is unborn or not, if you kill them it is murder and it is a sin in the eyes of God.

The State of Georgia

BEFORE ME, the undersigned authority, on this day personally appeared Melissa Hodges (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Atlanta, GA July 27, 1976
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I was in a group for counseling and was briefly told that I would be put to sleep. No consequences were discussed.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? I can't really say "pressured"; however, I was given NO support or options by my mother or my boyfriend. Everyone supported having the abortion.
- 5) How has your abortion affected you? I was 16 at the time and thought it would end that day. It changed the way I felt about myself. My self esteem crumbled which affected the choices I subsequently made. My boyfriend went on his own way which compounded my self worth. I started drinking, did not choose college which I had always planned to do, and it affected my future choices in partners. It ultimately cost me my marriage many years later.
- 6) How has your abortion affected others in your life? My mother took her secret of my abortion to her grave 2 years ago. Underlying secrets always affect relationships. The abortion affected my relationship with husband and ultimately led to divorce.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Run the other way! Abortion destroys 2 lives - one is definitely the child, but the mother dies slowly from the inside out as she (me) struggles to deal with the pain of the loss, grief, despair, and intense sadness over the choice to abort.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Like Satan convinced Adam + Eve that eating the fruit was okay and they bought the lie, as a nation, so have we. My child had a beating heart and since I'm a human - the child was human; therefore my choice stopped that beating heart. Taking a life regardless of it's location is wrong - inherently wrong. The child's pain is over in a short time. Mothers continue to suffer for a lifetime, and like cancer, invades all areas of relationships with others - her own.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was asked what I wanted to do when I was told I was pregnant. When I said I wanted an abortion, I was told that they (the place in Atlanta) would arrange everything to get me to the clinic in New York.
- 3) Were you adequately informed of the consequences of abortion? Not that I remember. I have a hard time remembering a lot of details.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. Yes I had breast cancer in 1999
- 5) Did anyone pressure you into having an abortion? If so, who? No. A friend persuaded me.
- 6) How has your abortion affected you? I live everyday knowing that I killed a human being who would have been an adult now.
- 7) How has your abortion affected others in your life? My husband (the father of my baby) doesn't ever talk about it. It has made me overprotective of my children. I have trouble making close relationships.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Do whatever you can to carry the baby, even if it means putting it up for adoption. At least you will be giving life to the baby and you will be able to live with yourself.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Life begins at conception. We are now able to hear a baby's heartbeat after only a few weeks after conception. Aborted babies feel pain. Abortion affects the mother physically and emotionally as well as killing a baby.

knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

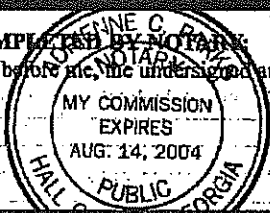

- 1) Tell approximately when and where your abortion occurred: June, 1976. Northside Women Center Atlanta, Ga
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was led to believe that my baby was just tissue - not a live yet.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My mom, who thought it would be best for me, wanted me to have one. The father wanted me to have an abortion also.
- 5) How has your abortion affected you? After my abortion, I started drinking and sleeping around. I had no self confidence or self worth. When my second child was born or rather when I carried him, I realized that this is a real person with a real heartbeat. After he was born, I started praying for forgiveness for my sin of killing my baby. When a show about abortions came on one night, all I could do is sit there & cry, begging for forgiveness. God gave me forgiveness the 1st time I asked, but it took 4 years for me to forgive myself.
- 6) How has your abortion affected others in your life? By using my experience, God is allowing me to help other women by volunteering in a CPC. My family has been very supportive and non judgemental toward me & I feel that I have helped others.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That you need to be in deep prayer about what you are about to do. The baby you are carrying has a heartbeat and has feelings, not a blob of tissue. I have never heard anyone say that they were glad they done it, in fact, they have a hard time dealing with the loss after it.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? In the Bible it says "Thou shalt not kill" We sometimes give murderers the death sentence and then say it's okay to kill an innocent baby. Where is the justice in that? God has a plan and a purpose for each person born. Who should put themselves above God by allowing women to choose whether their child should live or not. That decision should be made before you have sex.

- 6) How has your abortion affected you? now that Tam saved - (a sermon convicted me on the issue) I pray for others. I was terrified I may not be able to get pregnant. I never grieved until I was older and mature.
- 7) How has your abortion affected others in your life? My husband is the only one that knows, and my best friend that went w/ me.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? It's not God's will. That life made is so precious and deserves what it was created to have and give to others. The Lord can help you through the experience.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That would be a matter of prayer - but the truth would be told!

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was told only that the pregnancy would be ended with a D&C procedure. I knew I was losing a child.
- 3) Were you adequately informed of the consequences of abortion? No. I didn't know that the hurt would never go away. Any future physical problems were not discussed.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I don't think there was any knowledge of the link in 1971. I have had a benign tumor removed.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, the father and his friend - an older attorney who assured me that I would join everyone's life if I carried the baby & that my husband could take my kids - I would be an unfit mother like killing my baby would make me a fit mother?
- 6) How has your abortion affected you? It affected me in so many ways I can't list them all. I lost trust in people - in love - in God. I looked into reincarnation in hopes that my child would return in another pregnancy. I felt hopeless inside and used "cocktail hour" to get through my life.
- 7) How has your abortion affected others in your life? I withdrew from my kids (5 & 9 at the time) and resented the fact that my stepchildren were welcomed to this world and my child was not. I felt inferior, unlovable and lonely.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Get away from the person or persons pressuring you. Talk to everyone until you find help to have your child. Your circumstances will change - but if you have an abortion the death of the child is permanent.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? To carefully weigh the mental and physical problems that affect women and are caused by abortion. Also to look at the consequences suffered by our society as well. This American holocaust must be stopped. We are on a slippery slope, where will it end? Who will chose in the future if a life is worth living?

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Women are in emotional shock when faced with a "Surprise" pregnancy. Show the true picture of a 6-8 wk fetus - one that looks an inch long that is perfect - I now work in surgery and have seen a perfect 1-in-long BABY with a beating heart - it was a tubal pregnancy so we had to end its life to save the mother. 3) How has your abortion affected you? Depression, unexplained anger towards my family, unhappiness with myself, relationship problems with my husband, I have had difficulties opening up to those close to me about the experience, afraid of rejection. I had a hard time forgiving myself and accepting the forgiveness of the Lord, feeling of unworthiness

- 4) How has your abortion affected others in your life? yes - my husband made the choice to abort in 1994 and 1997 and for years we were unable to discuss the issue and how it made us feel

5) Based on your own experiences, what would you tell a woman considering an abortion? it is no the quick fix to unexpected pregnancies that the clinic lead you to think it is. I would explain past abortion stress and the link we are uncovering with breast cancer

- 6) Based on your own experience, what would you tell a court that believes abortion should be legal? God created life (based on Genesis chapter 1 and Psalms 139:13-16 and He has a plan for each life created (Jeremiah 1:5) and (Jeremiah 29:11)). It is murder and the decision to abort has lasting negative affects on women.

BEFORE ME, the undersigned authority, on this day personally appeared Janet S. Cavender (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April, 1983 @ Hillcrest Clinic of Atlanta
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was not told I would be vacuumed out and would be able to see what was left of my baby as it was ripped from my body in a glass jar.
- 3) Were you adequately informed of the consequences of abortion? NO, I was not told of the health risks or the emotional health risks.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? yes If so, who? Roger W. Stewart, the father of the baby and so-called friends who said they were older and wiser and knew what was best for me.
- 6) How has your abortion affected you? It totally changed the course of my life. I went from being a happy individual in nursing school to become a nurse to a person who felt extreme depression seeking self-destructive habits who wished she would have died along with my baby on that day in April. I was no longer worthy of life.
- 7) How has your abortion affected others in your life? the quality of relationships with family and friends was greatly reduced due to the extreme depression and self-destructive habits I had.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not an option unless the pregnancy would kill her! Carry the baby full term and place the child for adoption if she does not feel ready to be a mother. The child has a right to life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is one of the worst decisions the court system has ever allowed. They have no idea of the mental and emotional trauma a woman carries for her life after an abortion.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1990 & 1996
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - I was told it was just a blob of tissue. And it would be over in 10 min. It's been 13 years and it still isn't over.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes. If so, who? The man who lived across from my house. He was a high rank service man, who thought my life was over if I had a child. He paid for it, + arranged for a driver
- 5) How has your abortion affected you? There are no words to express the remorse I have felt over my abortions, or how deeply I have mourned. My abortions broke my heart. The guilt and shame that followed my abortions prevented me from sharing my hurt with anyone. I still find myself wondering what they would look like now they would act. How old they are. I will never forget. It will never be over. Abortion is not good for anyone.
- 6) How has your abortion affected others in your life? My mother didn't know till afterwards but she cried, + cried. she lost her grandchildren. My Dad knew but didn't say anything. I found out later he was hurt.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her about other options. I would tell her she would always fill a void in her heart. I would tell her that her baby is a real, living child, who deserves life. Killing our children is wrong
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? America gave us a choice, saying we should have the right to do what we want with our bodies, but this isn't our body. This is the body of a child. America gave us a choice, because they didn't know how much it would hurt us down the road. how hear our cry. Abortion has hurt us deeply.

BEFORE ME, the undersigned authority, on this day appeared MARY CATHERINE COBURN, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? October 13, 1999 Planned Parenthood Stamford, CT
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: They told me I was pregnant on Oct. 10, 1999. I did not know the age of my baby nor my due date. Oct 13 I had an abortion with zero information given.
- 3) Were you adequately informed of the consequences of abortion? They did not tell me anything about abortion. All they said was "we will remove the tissue for you."
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? Boyfriend
- 6) How has abortion affected you? I felt like I spent the next 2 years of my life in a hole. I felt so much shame and guilt that it physically made me sick, especially since my boyfriend was the only other person that knew. I am a daughter of a pastor, so I felt that I had to keep quiet. It took another year of my life to really begin to understand what I had done and grieve for my child's death. It was then that I really began to receive forgiveness from Jesus Christ. My abortion has changed my life. Not a day goes by that I do not think about my child.
- 7) How has your abortion affected others in your life? It has given them understanding of the truth concerning abortion as murder.
- 8) Based upon your experience, what would you tell a woman considering abortion? You are a mother!! Your child is a gift no matter what your circumstances may be. Give him or her a chance to bless your life. Jesus loves them! You are not alone.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The hearts and minds of women are being destroyed, because they are being deceived in believing they are not mothers even though inside they feel pain and grief. We grieve for 1 killed in a car accident, why do we not grieve over 50 million babies murdered? Abortion is murder!

- 1) Tell when and where your abortion occurred: Atlanta, Ga Downtown clinic
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: That fetal tissue would be washed out by a saline injection. Not that the baby would drink it, be in pain and die and then they would suck his dead body out of me.
- 3) Were you adequately informed of the consequences of abortion? No - chances that I might never conceive again, breast cancer risk not informed of severe depression and suicidal thoughts for the next 5 years.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not yet
- 5) Did anyone pressure you into having an abortion? Yes If so, who? The baby's father, my parents, the clinic phone counselor
- 6) How has your abortion affected you? That baby would have been 11 years old now, and it haunts me that I murdered him so easily, without much thought. I have lived through many traumatic events - incest, rape, divorce, neglect, drugs, near-death surgery of all my life it is the one day and I event that changed my life the most. I would most like to take back.
- 7) How has your abortion affected others in your life? My 8 year old frequently asks why I killed his brother before he was even born. My husband can't talk about it because of his guilt over 2 aborted babies.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do you realize that you would be taking the life of an innocent child that can not speak up for their rights. How many people are begging for children and the gift (priceless) you could give them. Do you want this decision to haunt you the rest of your life?
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? In the best circumstances, women are very emotional, scared and confused at what is happening to their bodies during the first trimester. If post-partum murders aren't legal and to be avoided, we also need to protect life from the start and avoid abortions as well. Every life is precious.

- 1) Tell when and where your abortion occurred: I had an abortion in Atlanta GA. in August of 1985.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was not told anything about abortion. I was not counseled in any way. I was not told that it was a form of surgery or anything to that effect. I was handed papers to sign, no one went over them with me. I was too emotionally unstable to be signing any papers. No one told me of the risks I was taking.
- 3) Were you adequately informed of the consequences of abortion? No, I was not told that having this abortion would affect me emotionally for the rest of my life, and I was not informed of all the physical affects it could have had on my body or that I could even lose my life. Or that I was taking the life of my baby.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I most definitely was not informed of a link between abortion + breast cancer. My mom had breast cancer, but I thank God I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? I don't believe I was pressured into having my abortion although family members took me there + no one advised against it. I only wish someone would have told me about a crisis pregnancy center or at least cared enough to counsel me about it.
- 6) How has your abortion affected you? After my abortion, my life was very emotionally unstable. I had severe episodes of depression + found myself crying uncontrollably for no reasons. Thank God a few years ago I accepted that God had forgiven me for killing my baby or allowing doctors to kill my baby, and God has healed me of my depression.
- 7) How has your abortion affected others in your life? No one wants to talk about it, because abortion is so horrible.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her everything that I was not told + I would tell her everything that I have learned about abortion. I would tell her that it is a living baby she is carrying + not just a blob of tissue, and that baby deserves life just as we live. I would explain her other options if she could not keep the baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them since murder is illegal + they know it is, then why are they allowing millions of babies to be murdered each year. ABORTION IS MURDER!!! I would also ask them do they care about all the emotionally + physically scarred women + men left over after an abortion.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
4) Did anyone pressure you into having an abortion? NO If so, who? _____

- 5) How has your abortion affected you? I have had an emotional rollercoaster in my life ever since it took place. I have experienced Depression, Panic Attacks, Grief, loss, Bouts of crying spells, anger, Regrets, no peace of mind, unforgiveness of self, mood swings, confusion and alot of mental torment. IF I could turn back time it would have never taken place. IF only I knew what was coming years ahead. This affidavit doesn't have enough room to explain the damage.

- 6) How has your abortion affected others in your life? Yes, my husband has heard me constantly talk about how much of a mistake I made. we would have made it.

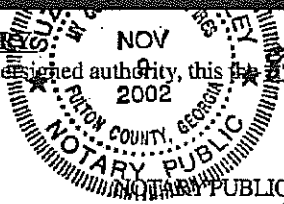

- 7) Based on your own experiences, what would you tell a woman considering an abortion? no matter how difficult it may seem ^{relationship} wise, financially, support & the fear of having an unplanned child, you will and can make it. It is not worth the years of confusion to come.

- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? It is wrong for many reasons. Not only do you destroy your own child but, yourself too. IF it was not legal we would not have so many emotionally unstable people along with a society on medications to numb the hurt. I would like to know if the court has experienced such a traumatic experience. IF so, why and how can they live with a peace of mind knowing it is wrong and painful. IF not legal many women would have lived a happy with the baby they now grieve for.

Ms. Susan Renne
Texas Justice Foundation

Dear Ms. Renne,

Thank you for the opportunity to submit my affidavit. Hearing Pastor Hagee's program came at an interesting time for me. It was a few days before going in for surgery. The surgery would be an additional time of rebuilding in the lower abdomen. This is the sixth time to be cut there. I now have a hip to hip smiley face, it took 33 staples to close. I am recovering and grateful for that.

Not every surgery is because of the abortion I had when I was in my late 20's. But several of them are a direct result of the abortion. Can I prove that? No. Does anything else make sense? No.

With rare exception, I have not ever shared with people outside of my immediate family, that I had an abortion. I felt shame right away even though I was not a Christian at the time. I have never gone for counseling about the abortion. I know God does not want me dwelling in the past. I do not know how to forgive myself even though I believe Christ died to do just that. I know that is filled with conditions.

On June 11th, I was operated on. Much of the surgery was to correct what was not done properly two and a half years ago. Two and a half years ago, I made jokes about needing the kind of doctor that builds men into women, because I wanted someone who knew how to rebuild what was left inside of me.

Here I am at the age of 60, finally believing and hoping that the urologist from Emory Hospital has rebuilt properly and for the final time. On the third day after the operation and while still pumping morphine in, I was complaining to God about the pain and discomfort of having to go through it all again. I wanted it over. As I lay there feeling very sorry for myself, I recalled that I was alive and frustrated by the mutilating surgeries. But the baby, the innocent one that I did not give life to 30 years ago, must have gone through such horrible excruciation pain. I presume the baby was sucked out of my body, it's tiny limbs ripped apart, no anesthetic for the baby, just the adult making the "choice".

I stopped feeling sorry for myself and began to weep quietly. How dare I cry for me when I had inflicted so much destruction on another human being. The tears never remove the shame or guilt. I do not want to remain quiet any longer.

I have spent a good part of my life as a public speaker. I am willing now to speak about the emotional pain that accompanies my heart anytime I think of this great injustice to the

unborn voiceless children we throw away in America. The outcry about September 11th was appropriate. It's interesting how that bothers more people than abortion.

If my story about female parts falling out of my own body will help one young woman choose against abortion, it would be a blessing to me.

Thank you for what you are doing. And God bless you.

Sincerely,

Toni

My name is Joanne Vargas (Print Name) My address is _____ I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

At the age of 16 I had my first abortion. I grew up a straight A student who lived a life for the sole purpose of pleasing my parents and making them proud of me. So when I found out I was pregnant, it was extremely difficult for me to tell my mom. She kind of figured it out on her own since she had noticed that I hadn't had a period for a few months. Of course she was devastated & angry but certain that we could hide this 'mistake' from the rest of the family if I had an abortion. And my boyfriend claimed he would stand by me no matter what I ended up doing. I got talked into going through with it with the all too common excuse that's fed to teenage girls about their futures and careers.

In the end it turned out that my boyfriend didn't agree with the decision and stalled several weeks as he "tried" to come up with the money for it. Finally, my mom got tired of waiting and took me to Midtown Hospital herself. Everything was happening so quickly that I felt numb to everything around

me. When we arrived that morning, I was very nervous but still very ignorant of what was about to happen. The hospital conditions were so poor that the women were lying up against the walls for lack of chairs. When we got on the floor, the staff made us get up. The line was so long that I remember looking around and thinking "wow, at least this is not the only one... it must not be such a bad thing."

It was finally our turn to go in. They took me into a small room to do an ultrasound & see how old the baby was. Although they would say things such as "looking to see how large the tissue was." They told me that I had to face the wall and I wasn't allowed to look at the monitor.

After the ultrasound, they took me in to speak to a doctor who told me that from the ultrasound, the tissue was too large to do a regular abortion. I was 16.5 weeks pregnant. He said I needed to have a different procedure done that would have to be a little bit more complicated and costly.

My mom said that it was fine, to do whatever it took. She left to get the rest of the money and I was told that they needed to insert something called a laminaria into my cervix to dilate me. The doctor said that once they inserted it, there was no turning back. They went ahead and inserted it. That was when the horror began as I realized at that moment what I was doing.

Vargas ⁽³⁾

I was sitting in a hallway waiting for my mom to return from getting the rest of the money. As close there I started getting really bad cramps. They stopped for a few minutes and I felt my baby move for the first time. As the cramps continued, she moved all the more and I knew she was in pain. I could feel it in my heart that my baby was suffering and it was all my fault and there was nothing I could do. I just sat there crying. They moved me to a different room where I sat waiting with a roomful of older women, all of us in hospital gowns waiting for our turn.

When it was my turn, the nurses put me on IV and took me to the operating room. At this point I had been there for almost 11 hours. The operating room was dirty, old, with holes in the walls & the paint cracking & peeling off. I remember tears streaming down as the doctor was saying, "Alright, ready to get cleared up?"

I woke up sitting on a chair in a pool of my own blood, dripping down my legs onto the floor. I remember feeling so ashamed that people walking by and looking at me as close there with all that blood. I felt so empty, so dead, so ashamed, so filthy, so naked. And still kind of numb and in shock.

I went home that evening as I entered into the

most severe depression I ever experienced in my life. I remember feeling so confused because I felt an obligation to be happy that my problems were over, yet, little did I know, they had just begun. I was sick for almost a month after that and I wouldn't stop bleeding. My boyfriend called me and told me that he was disgusted with me for murdering his baby. Then he tried to kill me. He kicked down our front door and tried to grab me by the neck to kill me.

At school, my grades went down from straight A's to straight C's in 6 weeks because I spent my days in the counselor's office crying. Algebra was the only class I was doing great in, because math kept my mind off my baby. I couldn't go to Biology because we were studying genetics & seeing the pictures of babies in my book would freak me out.

I started having suicidal thoughts until my mom encouraged me to get an after-school job so I can focus on other things. She also sent me to a psychiatrist who I went to see for about 3 months.

Just as things began to improve, my boyfriend who I had broken up with at this point, came over to my house. It was around 11pm & my family was asleep. He said he just

wanted to apologize for the lies he had been feeding me and wanted me to know that he loved me & wanted to be with me forever. At this point, we were outside talking. He pulled me by the arm around to the backyard and raped me. While he was raping me, he said that I was crazy if I thought I was going to get away with killing his baby. And then he said, "This is what you get for killing my baby, I hope you're pregnant again."

I didn't ever realize what had just happened because I was in such shock. He left me there crying, and a month later I found out I was pregnant again. This time, my mom didn't waste any time in telling my boyfriend's mother about the incident and the previous abortion (which she had no idea about). His mother gave my mother the money for the abortion and she took me to the Planned Parenthood Clinic. This clinic was much nicer than Middtown Hospital even though the nurses didn't even know how to draw blood.

I had the procedure done that August and started my Senior year of high school. At this point I had lost all self-respect, dignity and I just didn't care what I did anymore since I had already done the worst thing a human being could ever do, and twice. So I started sleeping

Largas ⑥
Or

around a lot. After high school I started doing drugs and smoking. Sleeping with whoever treated me nice. I didn't know how to make a relationship work and in a way I didn't want them to work, because I couldn't stand the thought of having to share my past, knowing that I couldn't hide it forever. And the fear of the possibility of not being able to have children freaked me out even more. For years I felt as if I could never put any decent man through the pain of not being able to have kids with his wife. So I would choose men that I knew I'd never marry. And although I longed to be loved and longed for intimacy, I didn't feel I deserved it. I didn't believe I deserved a good man, a good marriage, or even a good life. I was afraid of children for years and felt as if I couldn't even trust myself around them, since I killed my own children.

My life was basically a living hell and if it wasn't for Jesus, I'm convinced I wouldn't be here today. I know I would've taken my own life eventually. But He saved me from myself. From the lies that ran through my mind, day in and day out. I found forgiveness and freedom and life in Him. And I finally forgave myself.

Now I want to get my story out and encourage any woman that's considering abortion as an 'option' to choose life. Abortion is murder, not only of children, but it brings death to your own life. The consequences are real and they are horrible. Especially when you realize that every life has a purpose and a plan. You will forever wonder what your child would have looked like. You will keep track of birthdays. You'll wonder if your baby had your hands or your eyes. That life is real, it's fragile. God created it for a purpose. Your baby is different from everyone else on earth. It is a unique creation and gift. Your womb is a place of nurture and safety for this child to develop in. What honor that God would choose you to carry a life within you whose destiny could change the world. What incredible honor to have life in your womb. That you are chosen to be a mother, whether you planned it or not, if there's a baby living inside you, that life was created for a purpose!

It's your body, yes, but within your body lies a separate life that has a special purpose and destiny. Please, don't kill your own child. You will regret it forever. I know, although I'm healed, forgiven and whole, I will always regret taking

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Yes, No. The physical procedure was explained but no questions were encouraged. We were in a room of about 10 to 15 people. The emotional consequences were never mentioned.

- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, No.
- 5) Did anyone pressure you into having an abortion? If so, who? No

Question 8:

Abortion is not a quick-fix. You're probably thinking I just want this situation to be solved. But doing things that seem right in your own eyes will only make matters worse. Legally you do have the right to an abortion but do you morally? I believe the Bible in Gen:1:26 where God says "let us make man in our image." All life has meaning and purpose because we are made in the image of God. God created this life in you. You do not morally have the right to take it.

1.

I have regretted the decision I made 25 years ago. No one told me there were other alternatives. Adoption, single parenting and marriage are all options that bring life. There are people who will help you. Only by the power of Jesus Christ could I deal with the guilt and shame of what I have done. There are physical dangers to abortion including the inability to have children and death in some cases. There are emotional consequences. I have experienced extreme remorse, guilt, depression and suicidal thoughts.

The answer to your problem is not an abortion. It will only make matters worse. There is hope in the person of Jesus Christ. Do you know Jesus Christ? Have you fled to Him for forgiveness of your sins? If not please submit your life to Jesus Christ. Confess and repent of your sins. "For the wages of sin is death, but the gift of God is eternal life in Christ Jesus our LORD." (Romans 6:23)
Come to Jesus Christ and believe.

Question

2.

9. From my experience abortion hurts ~~the~~ women and adds nothing to society. It takes from society a productive member. I believe abortion has contributed to the rise of child abuse, suicide and youth euthanasia. When life is disregarded in the most helpless of stages, (a baby in the womb,) I believe it can be disregarded in any stage. All life has meaning and purpose because we are made in the image of God. God created life and we don't have the right to take it. Please: reconsider the current laws on abortion.

- 2) No I was not. I was told there would be counseling made available to me after I had the abortion, but there was no counseling offered prior to having the abortion. As far as explaining consequences i.e. what it is, or what it does to you especially emotionally – No.
- 3) See affidavit
- 4) Not really pressured, but certainly not discouraged.
I was so emotionally distraught during my abortion I can remember crying out, “God, please forgive me, please forgive me,” even before they began the abortion. No one, nurses, assistants or doctor stopped and said, “Are you sure you want to do this?”
- 5) I am not sure there are words enough to describe the depth and the degree in that the murder of my unborn child has affected my life. Right after the abortion, I had a horrible sense of loss and I can remember feeling my stomach and just crying realizing my loss and feeling the emptiness.
The thought of having my own children after I was married, was extremely traumatizing to me and I was very nervous around little ones and babies. I was extremely traumatized as time to begin conceiving, I was 29 by now, was in my face. I ended up having a nervous breakdown that was due to some additional precipitating factors. I, however, have no doubt that my abortion was a definite contributing factor. Another affect the abortion had on me, was a loathing and self-hate of myself. The abortion caused me to doubt myself and not have nay confidence regarding my opinions or judgments. I have become very indecisive, emotional and have allowed others to make decisions for my life that were I not so doubtful of my own decision-making ability that perhaps my life would be much different today. I grieve over my baby to *this* day. I didn't have to go to jail for murder. I put myself in jail emotionally. I ache knowing that one day my baby won't show up at my doorstep and say, “Are you my mother?” I destroyed that from ever happening. I want others to know the pain and grief I have suffered for 23 years. I sold my soul out to the devil the day I allowed others to take my baby. I was very vulnerable and alone. I was not in any kind of condition to make a decision that has molded and shaped my life far beyond what I'm sure I can even know or understand. All I know is I still ache over that decision and I think it hurts more rather than less today because with each passing year, I realize more and more the brevity of the decision I made. If I were given the ability to go back in time and change one decision in my life, it would be the choice I made to take the life of my unborn child with the help of others. They, however, weren't making their decision from an emotionally distraught position like I was. I could see myself being a much, much happier person today and much more confident regarding my decisions and choices.
- 6) My daughter who is 14 knows of my abortion, and I can tell at times she wonders and wishes she could have had her big sister. My marriage has suffered greatly due to my abortion. Because I have been at times indecisive and uncertain, it creates conflicts and problems between my husband and myself. He has also watched me grieve and hurt off and on during the 20 years of our marriage.

- 7) DON'T DO IT. There are so many places offering support and help now that weren't there when I became pregnant. Adoption is a much better option than abortion because you aren't causing the death of your unborn child, plus you can rest in knowing they are alive out there and living the life that God breathed into them while they were yet in your womb.
- 8) Abortion is another word for murder. It is a convenient out, but not one without consequence. The baby is a life that has every right to live just as much as you or I. I have grieved 23 years over what, certainly not a blob of tissue. It was a living, breathing baby.

The U.S. Supreme Court has given pregnant women, physicians, nurses and some organizations the right to make the decision that only God is suppose to make and that is who lives and who dies. Let's stop playing God and allowing legalized murder.

I was nineteen years old and eight weeks pregnant and very scared about my situation. I had a friend that convinced me to have an abortion so that I could have a life. on March 19, 1988, I entered Planned Parenthood in Augusta, Ga and sitting in a room full of women waited till it was my turn. My turn came up after listening to several women talk of an abortion for them being a form of birth control. I was laid on a table and the doctor injected a medicine to cause me to dilate 7cm. I was told once this occurred I could not change my mind. I was not given anything to help relax me and I was awake during this whole process of destruction. I remember telling the nurse I would never do this again. I have gone through a time of depression and longing for my child and forgiveness. I suffer from panic attacks and I still get very emotional, when someone talks about abortions. I am telling my story, so that the courts will reverse the ruling to illegal abortions and to help others to understand, they are destroying a human life. I long to have children now, but I feel that I am not worthy because of my past actions.

- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? yes
- 5) Did anyone pressure you into having an abortion? NO If so, who? NO
- 6) How has your abortion affected you? After 14 yrs I began to grieve over what really happened. I had suppressed my feelings so intensely that I was totally disconnected to the events. I was saved in 1978 & in 1986 moved to a very pro-life church that was always talking about "pre-life & babies" I would feel very uncomfortable & began to get angry at the pro-life speakers. After attending a large pro-life rally in Wash D.C. in 1991 the "defense" walls began to crumble & the Dam burst!
- 7) How has your abortion affected others in your life? I had problems "bonding" with the 2 children I gave birth to later. On a positive side, my children have a respect for life & would never consider abortion
- 8) Based on your own experiences, what would you tell a woman considering an abortion? due to my sharing with First, that she is disrupting a plan that God has for her life. If she is disobedient & takes the babies life, those same issues will keep surfacing. Also she will
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is a post-traumatic stress disorder, regard- less of how a woman may feel at the time, over the long run abortion causes much more stress, confusion & deeper issues than choosing to give the baby life.

Addendum to Operation Outcry Affidavit

Mary K. Jeffers

8-23-2002

I would like to add that if abortion is such an important thing to legalize and is basically for the "wellness" of the mother, then why does the American Psychiatric Association list it under the diagnosis as a 'Post Traumatic Stress Disorder.' Any time a person has been diagnosed for PTSD they have usually experienced something brutal and barbaric; something that the human psyche is not able to process well. We can compare a woman's right to choose with America's right to go to war, such as during the Viet Nam conflict, when so many men and women suffered from PTSD. (After World War II, they called it "shell shock)."
Regardless of whether those men and women chose to go to war or were forced, they were all capable of suffering PTSD because of the intense "trauma" inflicted on their five senses. This too happens to ALL women who have had abortions, regardless of whether they willingly chose abortion or had the abortion against their wills; the fact remains that during some time in their life they will experience the symptoms of PTSD. I am a living example of this scenario. I was very relieved and willing to abort my babies, applying "numbness" and "indifference" to the events. I completely blocked it out of my mind and chose to ignore it for 14 years. What I did not realize was that the "suppression" of what actually took place was manifesting in my life as "coldness" and the inability to have intimacy with anyone, including my children and my husband. When I began to hear about "abortion" and those who wanted to protect babies, I found myself becoming irritable and very uncomfortable. I now realize that what was happening was my defense mechanisms were being ram-rodged and I then had to decide what to do with the new input. The trip to the Washington DC rally in 1991 was a "set-up" by the Lord to totally destroy my defenses. I say this because I did not plan to go nor did I want to go to this rally. Circumstances were set into motion that basically I could not ignore. My husband even went with me to the rally and saw first hand how I had suppressed my losses.

Over the years, I have given my testimony and for a few years I had post abortion support groups in my home. I would place ads in the newspaper for women who needed a biblical support group and I received multiple calls. During these years, I watched many, many women of all ages pour their hearts out and grieve over their loss. All of these ladies said that they wished they had allowed God to finish the process in their lives and give birth to their babies, regardless of whether they placed the baby for adoption or parented the baby, it did not matter. Abortion was a "DEATH" that they had to face and that they were responsible for this death. I even had one young girl (very seizure prone) who for medical reasons was told that because of her frequent seizure activity she should not attempt to carry this baby. Even though she had a legitimate excuse and was not married she still grieved over the loss of this baby. It is a **DEATH and must be acknowledged so**. During the end of the 12-13 week support group, we would have a memorial service for all of the babies. Every woman who participated would name their

Addendum (cont)
page 2

child and said that this was the most healing for them because they finally gave their babies dignity and acknowledged their lives.

Myself and all of these women could have refused to let down the defense walls and instead become more angry and bitter, never realizing the pain inside caused by that traumatic time. Just like many of the post war soldiers who would come back home and never acknowledge the losses they experienced until one day their minds and emotions could no longer hold the burden and they would act out in some way inflicting pain and suffering with those closest to them. Many of them still never realize the source of their pain. So it is with thousands of women. They are "walking wounded" carrying on as if nothing has happened and all the time continuing to justify what they did. So many of these women, (unfortunately) are in places of influence.

Over the years I have also worked with women who have placed their babies for adoption. I have spoken to these women on various occasions years after the placement of their babies. Yes, many of them grieve over their loss and wished things could have been different, but the grieving and loss does not even touch or compare to what post abortion women go through. These special birth mothers who chose life for their babies at least get to see pictures of their beautiful children and do not need to have flashbacks of having life ripped away from their insides. They have the satisfaction of knowing they allowed the child to live compared to the agonizing grief of allowing their child to die!!! I don't believe there can be any more grief than the death of a child. Why would anyone want to legalize that? They simply do not understand.

 County of Hall

BEFORE ME, the undersigned authority, on this day personally appeared Lynn C. Hurley (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Augusta, GA - November 26 1977 - at a clinic located directly across the street from the Medical College of Georgia
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO - I remember being told my baby was a "clump of cells about the size of a small jelly bean". I remember being shown pictures of supposed fetal development & all the fetal drawings in all stages did, in fact, look like "clumps of tissue".
- 3) Were you adequately informed of the consequences of abortion? NOT the psychological effects. I did know there was a possibility of - depressive bleeding - infection and also that sterility was a side-effect.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO, but at that time I'm not sure anyone knew?? I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? NO, I was not pressured. I was terrified of my father finding out I was pregnant.
- 6) How has your abortion affected you? Emotionally & spiritually. 17 years I carried a heavy load of emotional pain, shame & guilt. I was so afraid someone might find out what I had done. I drank & smoked pot to mask emotions.
- 7) How has your abortion affected others in your life? My husband, who is very supportive, has had to live with the depression I experienced through the years. I couldn't attend Mother's Day, the Anniversary of my abortion, & what should have been my child's birthday.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The guilt, own shame, emotional numbing, etc. are much worse and last far longer than the embarrassment you may feel as an unwed mother pregnant for just 9 mos. Give your baby life and you can look back many years from now knowing you did the right thing.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is never OK for a mother to kill her child, no matter what age that child is. In an abortion, not only is a child killed, but a mother is walking around wounded, and will carry the scar for the rest of her life.

"I have read the above and foregoing statement and the same is true and correct."

 NOTARY PUBLIC.

I was born into a Christian home and raised in Sunday school and church. I can't remember a time in my life when I did not know about God and His Son, Jesus. But in my middle teen years, I began to feel an unexplainable void in my life, even though I couldn't put my finger on exactly what was missing. Then one Saturday night in February of 1972, at the age of 16, I attended a youth rally with some friends at a sister church in our community. I don't even remember what the message was about that night, but as the invitation was called, I was certain that the Holy Spirit was dealing with me. I answered the call to come forward. There at the altar I confessed to the Lord that I was a sinner. I asked forgiveness then, believing that Jesus Christ had died on the cross for me. I invited Him to take control of my life and to use me to fulfill the purpose for which He had created me. As I prayed with one of the counselors to commit my life to the Lord, the void I had felt was filled. I was not sure of exactly what God had planned for my life, but I had faith that He would reveal it to me. I had assurance that when my life ended, I would live with Him forever. I was then baptized in my church shortly thereafter.

Just a few months later, in September of that year, I began my junior year in high school. I began to date someone one year older than I was. Over the next several months, our physical relationship progressed very gradually—so gradually, in fact, that I could not see what was about to happen or the danger of it. I had never planned to have a sexual relationship before marriage, but then, I had never planned not to, and as I've heard it said many times, "To fail to plan is to plan to fail". By the end of that school year, I had stepped out of God's perfect will for my life. There was one area of my life that I had taken back from Him.

I was an honor student. I was responsible, dependable and well thought of by others. I was not a likely candidate for causing or getting into any kind of trouble. I was even president of the youth group at my church. I knew that what my boyfriend and I were doing wasn't right, but, after all, we really loved each other and planned to get married someday. God could have every other area of my life. I would control just this one. No one would ever have to know.

We became engaged the Christmas after I graduated from high school, but things did not work out as I had hoped or planned. At the end of my second year in college, after almost four years of being together, we broke up. I had no idea that I wouldn't be able to handle what I was left with. There are very strong emotions and feelings involved in a sexual relationship that were never meant to be experienced outside of marriage. We were both left severely wounded and permanently damaged. The emotional wreckage seemed irreparable. I became very depressed and had suicidal thoughts.

At the end of that summer, having finished my first two years of school at a small, private Christian college, I headed off to a large state university with my extremely low self-esteem and one thought on my mind, "I've had the worst, most miserable summer of my life. Now I'm going to have FUN, and plenty of it!" I made a lot of new friends during my first year at this new school and they all liked to party. I really didn't like the taste of beer, but I knew I could learn to like it. The alcohol made me much less inhibited and helped me forget painful memories. I wanted more than anything to once again find love and acceptance, but I was looking for them in places and

relationships where they could not be found. Everything I was looking to to boost my self-esteem only served to lower it even further. I just could not see it at the time. By the end of that school year my grades had taken a nosedive. I had even failed two classes! Academic failure was before unheard of for me. I had always taken pride in my ability to study hard and earn good grades.

During that past year at the university, I went to church a couple of times a month, maybe. I knew my lifestyle was not one to be proud of, but I figured if I'd just go and pay God a little lip-service I could then go out and do as I pleased until I made it back to church again. Control of my life was now pretty much in my own hands, and the self-destruction continued.

In the summer following that school year, I got a job in the small hospital in my hometown. I immediately began to date an assistant for one of the doctors at the hospital. I knew deep down inside that he was not someone I'd really like to spend the rest of my life with, but I tried so very hard to convince myself that he was. He made me feel attractive and wanted, and that's really all I was looking for.

At the end of that summer I went back to the university for a second year and he began his first year of medical school. We were separated by a two-hour drive, and I'd sneak off to spend weekends with him whenever I could. It was during one of those weekends in October of 1977 that the unexpected, unthinkable, "it'll never happen to me" event took place. I just knew it a couple of weeks later. Being in medical school, my boyfriend had access to a lab, so he immediately came to collect a blood sample, took it back to the

lab and ran the test. It was positive. I was pregnant. His exact words to me were, “We’ve got to get rid of this thing!” That stung. I don’t even know what I wanted him to say, but that was not it. I know I agreed with him silently. I just couldn’t bring myself to say it out loud.

I was so scared. I knew I could never tell my parents! I didn’t want to disappoint them and I was so afraid of the anger I was certain to face. My father had a serious heart condition, and I was so afraid this news would just push him over the edge. He actually did die just one year later.

I had to tell someone. I decided to confide in a secretary I worked with in an office on campus. I was so surprised when she told me she’d gotten pregnant two years before and had an abortion—there was “nothing to it”—it was like “nothing ever happened”. Could it really be so easy? I then told a male friend. He said whatever choice I made and felt was right for me would be okay. For a fleeting moment I thought of what it might be like to have the baby and keep it. But then I’d be forever connected to the baby’s father and at this point I was pretty sure I didn’t want that. Also, I may never be able to finish school and attain the career goals I had set for myself. What about adoption? The most selfish thought I have ever had came to mind: “I’d rather kill my baby than carry it for nine months and give it away, then have a child of mine walking around somewhere in the world that I would never know.”

Thinking only of myself, what I wanted and what I thought would make me happy at the moment, I decided abortion was my only way out. It seemed like a quick, easy cover-up for a mistake I’d made. I wasn’t talking to God

much these days, but I do remember telling Him that I knew that what I was about to do was wrong and that I'd just have to accept the consequences, whatever they might be.

I went to the clinic early on Tuesday morning, November 25th. I don't remember everything about that day. I do remember them telling me my baby was a clump of cells about the size of a small jellybean. They made sure they told me I was not a "bad person" for doing this. They told me it was my body and my choice. They assured me that no one would ever know unless I told them. They told me it would only take three minutes. They told me that when it was over I could go home and have a "Happy Thanksgiving" afterwards.

For all that they did tell me, there was so much they didn't tell me. They didn't tell me I would struggle with all my might to stifle feelings that would surface as a result of my decision to abort, telling myself over and over to "just forget it ever happened". They didn't say that I'd react physically when abortion would be mentioned in public, with knots in my stomach and tightening of the jaw. They didn't tell me that I'd be so uncomfortable around babies or pregnant women, or especially around women that wanted more than anything to bear a child but couldn't. Maybe they forgot to warn me that every year around Thanksgiving I'd get depressed, remembering only the blessing I'd thrown away, or that every year on July 24th I'd again find myself depressed, wondering what my child would've looked like this year on his birthday. They didn't mention that I'd be so afraid of not ever being able to conceive and bear a child, but then feel so guilty for actually having two healthy ones so undeserved, or that on Mother's Day I would

mourn secretly, disregarding myself as a fit mother deserving of her children's praise. They didn't tell me my harmful lifestyle would continue, only worsening. I wish someone could've told me that my abortion would cost so much more than the three hundred dollars I paid for it, for as Mother Teresa once said, "In an abortion there are two deaths—the death of the baby and the death of the spirit of the mother." I wish they would've told me the pain would go on and on, or that the scar would last a lifetime.

I signed the papers that day saying they would not be held accountable for any one of several things that could possibly go wrong. I paid my money and then had something called Imanaria inserted into my cervix. This would cause it to dilate so that it would be easier for the doctor to perform the suction abortion the next morning. I left the clinic and later that afternoon began to experience severe cramping pain, which I knew was to be expected. My cervix was dilating. I didn't sleep well that night.

I walked into the clinic the next morning to experience what would be the most selfish act of my life and the longest three minutes imaginable. I'll never forget the sound of the suction machine. I remember watching the second hand on the clock on the wall, waiting an eternity for three minutes to go by. I was not given anything at all for anesthesia and I remember incredible pain. I remember sobbing—it must have been fairly loudly, because the nurse told me I was going to have to be quiet—the other girls would hear. Finally it was over. I had destroyed the heart that had just begun to beat only days earlier. I was given an instruction sheet of warning signs to look for and a phone number to call in case something went wrong. I was given nine pills to be taken over the next three days and I was given

several packs of birth control pills. I was wished a “Happy Thanksgiving” and sent on my way. I felt a vague sense of relief mixed with sadness. That sense of relief would be short-lived, and Thanksgiving dinner would be hard to swallow that next day.

I now had a dark secret to carry around—a secret that would go to bed with me at night and get up with me again the next morning—a secret that no one could ever find out. The burden was heavy. Not a day went by that I didn’t think about what I had done, but I kept pushing the memories aside, telling myself I had no other option. My boyfriend and I broke up less than three months after the abortion. Meanwhile, my life continued on in a downward spiral. More relationships, more risk-taking behavior. I began to smoke marijuana. It provided just one more cover-up for even more painful memories. I came to rely on it frequently.

I couldn’t believe what I’d become. I still, even at this point, believed deep down inside that God was there. But I had him nailed to a cross somewhere way in the back of my broken heart. I did not want Him to see me like this. I was so lost, so broken, and so used up. Maybe some day, if I could get my life cleaned up, I could find my way back to Him and His family. Maybe, at best, I could somehow one day be able to at least get close enough to stand on the outside and look in.

At the end of my second year at the university, I met a really sweet guy. He was such a gentleman. I wasn’t used to that. We became very good friends. I knew we could never be more than that. He was too good for me, and I could never deserve him. I certainly didn’t think it would be possible for

any man to ever really love me now. But one night, this man did tell me he loved me. I just knew right then and there I had no other choice but to tell him about the me he didn't know. I pulled all the skeletons out of the closet. I told him if he just wanted to walk away right then, that would be okay—he didn't owe me anything. His mouth dropped wide open, but he didn't go anywhere. He chose to stay with me and has done so faithfully to this day. I'm still amazed by it all. I thank the Lord every day for this godly husband he so graciously provided me, even though I had done nothing to deserve this kind of man.

God is so good! He never turned away from me—I turned away from Him. And when I didn't seek Him, He sought me. He had been through everything with me. He had felt all my pain, only now I realize that He hurt even worse than I did.

I know Proverbs 22:6 to be true: "Train up a child in the way he should go, and even when he is old he will not depart from it." Tim and I both came from similar backgrounds and circumstances, and as we grew together we both had the desire to be on the same spiritual pathway. It was our desire to one day have a marriage pleasing to the Lord. I had stopped smoking marijuana the day I finished my last class at the university. I began attending church more often. The drinking became less and less frequent. My life was taking an upward turn. In Tim, I had finally found I Corinthians 13 love. It wasn't just physical or momentary or conditional. This love lifted me out of the black hole into which it seemed I had fallen and led me back to the arms of a Savior I had run away from.

As time went on, the one area that I couldn't seem to find peace with was the abortion I had had three years before Tim and I married. It seemed I had condemned myself to a lifetime of shame and guilt, even though no court of law in this nation would've convicted me of any wrongdoing. A tiny, fragile life had been so cruelly yet "easily" removed from my womb, but that child would forever live on in my heart and in my mind, despite my vain attempts to deny to myself that he had ever existed. Because of my past, I just could not get completely comfortable with all those "good people" at my church who, I was sure, had "never done anything wrong". I still had trouble believing I could ever actually be used by God. Satan had convinced me that what I had done was probably too big and too ugly to be forgiven by my God. No matter how hard I tried to get involved and believe I "fit in", the "fit" felt a little less than comfortable. My spiritual growth was stunted. At times I even doubted my salvation.

For years I would try to pray for forgiveness for that terrible act, but then I'd find myself once again trying to justify and rationalize it all. I couldn't honestly say I was sorry for what I'd done, even though I knew it was wrong. I would tell myself that if I hadn't done what I did, I wouldn't have this wonderful life I was now experiencing with Tim. Looking back, I now realize that what I was asking God to do was to forgive me not for killing my baby, but for having to kill my baby. I wasn't feeling forgiven. For so many years I suffered so much for one reason only—my inability to see my sin for what it really was, confess it, feel truly sorry for it and ask God's forgiveness.

Finally, after about seventeen years, the turning point arrived. It happened on one of those "Sanctity of Human Life" Sundays in January. I always had such a hard time going to church on that day every year. I would be so careful not to make eye contact with anyone during those sermons. I would keep my jaw tightened and fight to hold back tears. But on one of those Sundays I know the Lord was using my pastor to speak to me. He said that if anyone in our congregation had had an abortion, to just be comforted in knowing their baby was in heaven. Comforted? Hardly! This truth hit me with a powerful blow. Never before had I ever thought about that being a possibility. My baby must hate me! That small clump of cells had a soul! I saw a bigger picture now. Heaven suddenly seemed like a scary place to me. I had sacrificed my baby to the god of ease and convenience. I didn't want to go to heaven and have to face him. For the next few days I couldn't get all this out of my head. I was so uncomfortable. At last, I was being convicted by the Holy Spirit. I was able to say I was truly sorry for what I had done. I should've trusted the Lord with my pregnancy and let Him work out all the details. After all, that is what He does best. I was finally able to cry out to God to please forgive me for murdering my baby. At that moment the journey to true peace and healing began to take place. I was able to experience the fullness of God's grace and mercy. I would be free at last!

"Now I rejoice, not that you were made sorry, but that your sorrow led to repentance. For you were made sorry in a godly manner, that you might suffer loss from us in nothing. For godly sorrow produces repentance leading to salvation, not to be regretted; but the sorrow of the world produces death."(II Corinthians 6:9-10).

We cannot work to earn our forgiveness, but we can work for God because He has forgiven us. I began to feel God's calling to share my experience with girls finding themselves in a crisis pregnancy. I was being led to volunteer at our local crisis pregnancy center. God had done the most wonderful work in my life. There's no way I could go through what I did and hold back from sharing the truth about abortion and its fallout with others who needed so desperately to hear it. I contacted the director of the CPC and expressed my desire to do that. When I told her that I'd had an abortion, she was very encouraging and assured me that I could be greatly used by God. First, though, I needed to participate in a Post Abortion Bible Study. I never knew such a class existed. I remember thinking how awesome it must be to be able to lead one of these studies. As I went through this wonderful 12 week class, I began to pray that if it be His will, the Lord would open doors for me so that I might one day lead a class.

Shortly after completing the Bible study, I participated in the volunteer training classes. It's so amazing to me how much we now know and how much information we have available to share with ladies that come in to our CPC that will lead them to the truth and enable them to make an informed decision about their pregnancy, a decision they will feel good about when they look back twenty years from now. I kept thinking, "Where was my crisis pregnancy center twenty years ago?"

One day this past January, I was asked to pray about co-leading a Post Abortion Bible Study class. I was so excited! I had already prayed about it! Here was my open door. Then, about half way through the session I co-led, I was asked to pray about leading a group! Again, I felt so sure God was

leading me through yet another open door. He has a plan and a purpose for my life and He is revealing it to me daily.

For me, this ministry is so fulfilling. Galatians 6:2 says, "Bear one another's burdens, and so fulfill the law of Christ." I love the way a fellow volunteer said it, "Out of our misery and our mourning comes our ministry." And, as I heard youth minister Dave Edwards say one time, "It is through those things in our lives which we hide and cover up, that, when we bring them out in the open and deal with them, God makes Himself great." I want God to use me to make Himself great.

II Corinthians 1:3-4 says, "What a wonderful God we have—He is the Father of our Lord Jesus Christ, the source of every mercy, and the One Who so wonderfully comforts us and strengthens us in our hardships and trials. And why does He do this? So that when others are troubled, needing our sympathy and encouragement, we can pass on to them this same help and comfort God has given us."

Heaven is no longer a scary place for me. Not only have I been forgiven by my Heavenly Father, but, believing that there is no unforgiveness in heaven, I have also been forgiven by my baby, who I have for some reason always felt very strongly was a boy. I call him "Lee". He would have been twenty ^{-tw} years old this past July. I think the story of Joseph and his brothers is one of the most beautiful stories in the Old Testament. As the story closes, Joseph forgives his brothers and says to them, "You intended to harm me, but God intended it for good to accomplish what is now being done, the saving of many lives. So then, don't be afraid." I can just hear Lee saying something

like this to me: “I love you, Mom. You hurt me, but I’m alright now. I forgive you, and God’s forgiven you, and He’s using it for good to accomplish His purpose. Don’t be afraid.” Well, I’m no longer afraid, and I know I’ll hold him in heaven some day.

Just a few years ago, if you had asked me if any good could come from this abortion tragedy, or any joy from my mourning, I could’ve found none. But I have since learned that God doesn’t waste the events in our lives—good or bad, happy, sad or tragic, whether we bring them on ourselves or whether someone else causes them to happen to us, or whether they’re totally out of human control. And now, every time I walk into the crisis pregnancy center, I do it with a heart full of joy and thanksgiving. And as I counsel girls faced with crisis pregnancies, or help lead them through the Post Abortion Bible Study, I can assure you that I find so much joy every time the Lord uses my story for good to touch a hurting soul and the Holy Spirit flows through me as I share the gospel and change is brought about in that life. And yes, sometimes, a new little life is saved—pure, inexpressible joy!

I no longer view myself as worthless, because I now know my self-worth comes from who I am in Christ. I have now come to know that the mightiest of men and also the least among them hold the same personal worth in His eyes, and Christ valued each of them—and me, and you—enough to die on the cross for us. I no longer have to stand on the outside and look in on God’s family. I have been healed, forgiven and set free. The shame is gone, the heavy burden of guilt has been lifted. I will always regret what I did. The scar will be there for a lifetime. So much pain is gone, but I’ve asked God to let me always remember a little of the pain so that I may more

effectively minister to these precious girls whose paths I am privileged to cross.

Memories of my abortion still surface, but they no longer serve, as they once did, to heap great portions of shame and guilt upon me. Instead, they serve simply as a sweet, sweet reminder of God's amazing grace and unconditional love for this prodigal child of His. I refuse to let my past presume authority over me. God's plan for my future is much stronger than poor choices from my past. I am so humbled, so awed, so grateful and so completely overwhelmed when I consider how special a privilege it is that my Father in Heaven has chosen me, loved me, saved me, forgiven me, claimed me, restored me and trusted me enough to allow me to serve Him in this way.

I couldn't be more sure of my salvation, and for the first time, I know what it's like to truly enjoy the presence of God. No matter who you are or what you've done, no matter where you've been or how you hurt, no matter how many pieces your life has been shattered into, God wants to make you whole again. No matter what kind of pull your past has on you, He wants you to just lay it at the foot of the cross, reach out for His hand and keep your eyes on Him. You can be a part of His family. You can be used by Him. You can be sure that when you die you will go to heaven, and you can truly enjoy the presence of God. He's done all this for me, and he wants to do it for you, too.

"I remember my affliction and my wandering, the bitterness and the gall. I well remember them, and my soul is downcast within me. Yet this I call to

mind and therefore I have hope. Because of the Lord's great love we are not consumed, for His compassions never fail. They are new every morning; great is Your faithfulness. I say to myself. 'The Lord is my portion, therefore I will wait for Him.'”(Lamentations 3:19-24).

"Full Circle"

A mother's womb with babe inside
A secret place where he can hide
While God's own hand does knit and form
Her tiny son till he is born

She doesn't know, she cannot see
God's perfect plan for this baby
All hope is gone, she's lost, she falls
When selfish desperation calls

The truth untold, she clutches lies
No one can hear her anguished cries
A violent tearing deep within
Her child dies broken for her sin

She's ever mindful of the choice
That so denied her child a voice
Held captive, languishing within
Her prison built by secret sin

This load of guilt alone she'll bear
The consequence of worldly snare
She hides the tears, she masks the pain
Of overwhelming, endless shame

She longs to cleanse, to purify
Her life so wrecked with wrongs piled high
The wound is wide, the hurt is deep
Broken, she falls at Jesus' feet

She cries, "Lord, you know what I've done.
I took the life of my small son
And now I've come to understand
I drove the nails into your hands.

I come to you now on my knees.
Draw near—hear my unworthy pleas
To be made whole, forgiven, renewed.
Know love of such great magnitude!"

He said, "I died upon a tree
My broken body set you free
I rose again to offer these—
My mercy, grace, forgiveness, peace."

Perhaps she'll never understand
Why Jesus snatched her by His hand
From slimy pit as black as night
And filled her with His radiant light

But every time she hears the cries
Of those like her, who bought the lies
Whose tears of grief, of deepest loss
Reflect how much their "choices" cost,

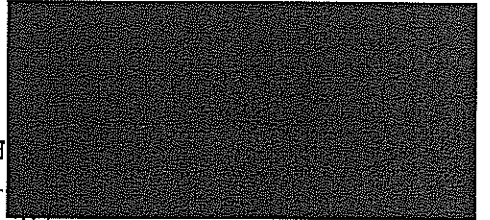

She with an ever thankful heart
To them the Savior's love imparts
And by His Spirit comforts them
And leads their broken hearts to Him.

Please feel free to use the enclosed information in any way you choose. I have shared my testimony many times since July 1998 when I finally realized I could be "silent no more". I would do anything I could to end abortion in this country. I am just one of many broken women who will be forever grateful for your efforts.

- 1) Tell when and where your abortion occurred: 3-19-75 The Women's Center, Atlanta Ga.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO, I was not informed of anything.
- 3) Were you adequately informed of the consequences of abortion? No.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed. No, I've never had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? Only myself
- 6) How has your abortion affected you? Severe guilt knowing I killed my baby. Depression, lack of self-respect, resentment all the anger, pain and not fully knowing and experienced my baby.
- 7) How has your abortion affected others in your life? The rest of my family was affected of knowing my baby. My attitude of anger and loss has affected my attitude towards others.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't do it. You cut off your own soul when you take the life of your child. You will regret, never not experiencing the life of your child. The mental and emotional damage is beyond description it's torture.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is never to take anyone's life. A fetus is a baby. When abortion is legalized you are allowing a mother to make a choice that apart from that will eventually destroy her. I don't allow our babies to continue to be killed. What if your mother had an abortion when she was pregnant with you?

AFFIDAVIT
(Questions for WOMEN who have undergone abortion)

The State of Georgia
County of Gwinnett

BEFORE ME, the undersigned authority, on this day personally appeared K [REDACTED] G [REDACTED] who being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. Tell when and where your abortion occurred: My abortions occurred in Atlanta. The following are approximate dates: October, 1987; July 1988; March 1991; June 1993 All of my abortions took place in the first trimester of pregnancy.
2. How has your abortion affected you? My abortions have affected me in so many ways that I cannot simply list them here. I can however, let you know the major points and problems I currently suffer from. I have a terrible fear of something happening to my children. I have an unusual fear of their death. I have had all of my children sleep next to me in my bed because of my fear of SIDS. Until they are about 2, I have them sleep with me. I still keep them with me during storms for fear of a tree falling through the roof and killing them. Please understand that I am not by nature an overly paranoid person. I carry on in society at a normal level, however, these things haunt me silently. Pregnancy has always been difficult for me because I lost my first baby at 5 months pregnant. This was a direct result of having abortions and now I have to have a cervical cerclage to avoid late term miscarriage due to an incompetent cervix. The pain of loosing a baby at that point in my pregnancy was unbelievable. I still feel as though I deserve more suffering. This is part of the reason I stay in an extremely difficult marriage. My husband is occasionally abusive to me. I choose to stay and pray to God that He will spare me the Hell I deserve if I can just suffer through this earthly unhappiness. My husband is not all bad and is continually striving to improve himself, however, I have suffered through extremely difficult times partly because I feel like I deserve it.
3. How has your abortion affected others in your life? My relationship with my mother is not as close as it could be due to the fact that in order to talk me into having an abortion she explained that she wished she had aborted me when

she had the chance. My mother advised me by explaining that when she was pregnant with me she worked for a doctor that knew a doctor who performed abortions in New York. She was going to have an abortion with me and regrets that she did not do so because of the unhappiness that her marriage to my father caused her. She was in college at the time and dropped out to raise me. She regretted not finishing college and doing something more meaningful with her life.

4. Were you adequately informed of the consequences of abortion? No. There is no way anyone can predict the impact it has on a life. Sure, they may tell me there is an increased risk of breast cancer, post traumatic stress, or anything else they may say. However, the way it weaves itself through every aspect of your life cannot be explained.
5. Were you adequately informed of the nature of abortion, what it is, what it does? If no, explain: All I knew was that I would no longer be pregnant after it was performed. I knew that suction was used to remove all the contents of my uterus.
6. Based on your own experiences, what would you tell a woman thinking of having an abortion? First I would say that realistically, there is probable nothing I can do to talk her out of it with the exception of telling her my story and hoping she can learn from it. Let me say most importantly that I am not going to lie. After each of my abortions I felt so relieved. It was like a giant weight being lifted from my shoulders. Especially the first two times. I never would have even imagined the pain to hit me years later. I encouraged so many other young women to take the same path I did. How guilty I feel. When I was 16 I had my first abortion. I went on to have 3 more abortions after that. I saw nothing wrong with it and did not think that I was using it as birth control because I never intentionally became pregnant. I always avoided it as best that I could. I was unable to take the pill due to so many side effects that affected me more strongly than most people. I figured I had gone through with one abortion already, why should I ruin my life now. I needed to finish college and do something important with my life. I had a miscarriage at 20 weeks pregnant as a direct result of my abortions. It was when I saw that precious child that I realized a fetus is something more than tissue. It caused me great pain to say goodbye to that tiny baby girl, but I thank God that the nurses insisted that I see the baby. I actually did not change my opinion of abortion at that point. I did become certain that abortions after 12 weeks were awful and should not be lawful. I realized when I saw that ½ pound baby that it was really a baby. It had every part a real baby has, eyes, ears, toenails, fingernails, even a belly button. What a heartbreak it was to realize that a baby really is a baby in the womb. Somehow I had just understood that it was tissue until the last trimester. Somehow, I thought before that if something in a woman's life came up and she decided having a baby was not going to work for her she should have the right to terminate the pregnancy. I now realized it was pure murder to do so. Life is lived in the present. We are simply concerned with now. When a woman or girl finds out she is pregnant the now is all she is thinking of. However, if she carries that baby to term, she will

also only think of the present when she holds the child. It is different then, all the dread is over, all the humiliation of telling people of the pregnancy, and it is pure love, whether she gives the child up for adoption or raises it herself. Abortion is just a cure for the now. It puts a bandage on the current situation of the inconveniences of pregnancy. What no woman realizes at the time of an abortion is the way it will affect her years down the road. For me it hurts me when I see my beautiful children and realize how much I love them and know that I would have loved any child just as much. If abortion had not been a legal option then I would have faced the choir and had the child. It was just such a simple choice to fix a problem. I was deceived though, because now the problem will forever haunt me. Not a day will go by that I don't feel regret for the awful choices that I made and the children that I aborted. The shame and guilt are so much more than simply facing responsibility at the time. We are responsible for what we do and abortion just makes it seem as though we can get out of a bad situation. Women don't know that often they are just getting themselves into a worse one. Society can make you feel like you have to be rich, or have a great career to be somebody. I know now that raising my children makes me somebody, and more of a 'somebody' than any money, job, or society can ever think of making me. A pregnancy is not the end of the world, it is the beginning, for the mother it is the beginning of a new world, and for the child it is the discovery of this world in such a delightful way that I feel sorry for people who don't get to have children to experience this new world with them.

7. Based on your own experience, what would you tell a court that believes abortion should be legal? If abortion is legal people just assume it is okay, especially young people. They know it is not the best choice and that they should have prevented this, but they will take the easy way out assuming it is best. It can never be best. There is no way the woman will ever forget what she did. Why should people be able to avoid the consequences of sex? If you have sex you are risking pregnancy, being able to do away with that risk only makes it okay to have sex with anyone any time. If we do away with abortion we will decrease sexual diseases, teenage pregnancy, and many more problems in our society. People say that abortion will never be overturned. That is what my mother said when I told her about this. Maybe it is a lost cause, but I cannot stand back and throw my hands up. Our nation and our young women depend on this, whether they realize it or not.
8. Did anyone pressure you into having an abortion? If so, who? When I had my third abortion my boyfriend at the time pressured me into an abortion. I really felt that it was the wrong choice and I had told myself I would never do it again, but he really begged me to do it. I figured I had already done it twice and I may as well make sure I don't screw up. I thought I needed to make something of myself or the first two would not have been worth it. The fourth abortion was the hardest. I was more mature and realized I should be making better choices. I still went through with it though.
9. Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed of any link and I have not had

breast cancer. I have had a lot of pain and difficulty associated with breastfeeding, especially in the first few months.

"I have read the above and foregoing statement and the same is true and correct."

I hope that my story can one day be heard, I hope it is something worth listening to. I am willing to suffer the pain, humiliation, and rejection that will go along with taking something like this on. If I could really make a difference I will do anything. I am open to telling some people that I have had one abortion, but four seems so outrageous and I am so ashamed and cannot even believe it was me that did it.

Because of this I prefer to use my initials, which are KG. I am only willing to use my name if it is necessary and if it will really make a difference.

My signature evidences my authorization to use this affidavit for all purposes.

Before me, the undersigned authority, on this day personally appeared Heather A. Gibbs, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Heather A. Gibbs (Print Name). My address is [REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

The Affects of Abortion and the Wounds it Leaves Behind

My name is Heather and I am currently 29 years old. In December of 1995 I had my first abortion in a clinic in Atlanta, Georgia. In February of 1996 I had my second abortion in the same clinic in Atlanta, Georgia. At the time, I was 21 years old and in college. I was on birth control pills and my partner was using condoms, both on a consistent and regular basis.

I was NOT adequately informed of the nature or consequences of abortion. I did not know what could and MAY have happened to my children or me. I was taken into an "office" for "counseling" and the nurse told me that I needed to sign on the line and then said that I should choose to be put to sleep instead of local anesthesia so that I would not remember the sounds of the machines. I was never once told how the procedure was to take place. I was not introduced to the doctor. I was not told the risks that were involved, that I would be at a higher risk for breast cancer, that I would be at a high risk for depression, that I may never be able to have children ever again, OR that I, should I choose to and if I could have children, would be catapulted into the 800th percentile of likelihood for birth defects! I was not told that I could bleed to death from internal bleeding. I was told nothing. When I found out I was pregnant, I was not told my options or that there was help

out there, financially or otherwise. I thought I was choosing the only choice there was for someone like me.

I cannot even scratch the surface of the horror, depression, and fear that has haunted me since my first abortion! Almost 9 years later and I am NOT completely healed from that "normal" surgery. Immediately after the first abortion I laid on my couch for 7 days, bleeding profusely and taking pain pills. I could not make it up my stairs to take a shower. I would crawl to the kitchen just for a glass of water and a couple of crackers. I had no idea of knowing if this was normal, all the blood. I could have bled to death and no one would have known. For six months after the first abortion I had the same nightmare every single night. Six months of screams and trying to run away but never knowing what or who was trying to get me or even why. After the first abortion I could not hold or be near a child of any age without breaking down and crying hysterically for hours. That lasted for about three years. I still remember the first baby I did hold. After the first abortion I became suicidal. I just wanted to die. I thought I was worthless, ugly, a monster. What kind of monster kills it's own child?!? I was that kind of monster.

My abortions have affected me in many aspects of my life. They affected my relationship with my immediate family. My dad is still somewhat estranged to this day. No one in my family talks about what I did, it's a taboo subject, one that is just not brought up. My parents got divorced a couple of years after I told them what I had done and I honestly believe that the strain and stress and heartache is a part of why they are not together today. I got into \$8000 worth of debt during my post-abortion days, trying to heal the wounds with clothes and fine dining that no college student could afford. My abortions and my premarital affairs have had a negative impact on my marriage. My husband has been beautiful and understanding and caring and wonderful and forgiving, he is not the problem. I, on the other hand, have been distant and disgusted with anything that has to do with physical intimacy. I would lie in bed staring at the ceiling hoping that he would hurry up and hoping I would not throw up when it was over! THAT IS NOT NORMAL or healthy! We have been married almost two years and only through the grace of God Almighty do I actually want to, and enjoy being with my wonderful husband intimately.

It looks as though my physical body has healed but my husband and I are trying to get pregnant and I still don't know if I can. If I do get pregnant will

our child be deformed because of my "operations?" Will I live with the fact that it is MY FAULT that our child cannot run and jump or do math equations because of an operation I had years ago that I knew nothing about?

If I could go back and change ONE thing in my life, I would have NEVER, NEVER, NEVER had the first abortion!! I would have chosen to put my child up for adoption because I was not in a position to raise or support that beautiful, innocent life. If I had chosen adoption over abortion then I could have slept at night knowing that a couple who could have no children of their own, were caring for, raising, and loving the child that I could not provide for. Maybe, just maybe, in 9 more years my child would have wanted to find his or her biological mother and I could tell that child how sorry I was for putting him/her up for adoption instead of raising him/her on my own. Unfortunately, since I chose abortion over adoption, I can never tell my child how sorry I am and how much I miss them and how much I love them.

I HATE myself for the decision I made. I will NEVER, ever, ever get over my abortions. Not even if I live for 500 more years. There is not enough counseling in the world to help me get over the destruction that the abortions

have caused me. Please stop the killing of unborn children! Please stop the **destruction** of the mothers who decide to have an abortion! I wish that it had never been made legal in the first place. I did not have the "right" to choose death.

1) Tell approximately when and where your abortion

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No - No

4) Did anyone pressure you into having an abortion? If so,

who? No - the only people who knew I was pregnant were my doctor + one co-worker, who took me to the clinic to have the abortion.

5) How has your abortion affected you?

For years I lived with the shame of having aborted my baby. My abortion was and largely still is a secret - I never grieved the loss of life. I lived in isolation, with much anger and inability to forgive myself. Only recently was I able to let go of ~~some~~ these feelings for the first time by sharing my experience with others who have had abortions.

6) How has your abortion affected others in your life?

It has not impacted them directly as to this day very few people know that I had an abortion + nobody in my family knows.

7) Based on your own experiences, what would you tell a woman considering an

abortion? Don't have an abortion. The feeling of relief will last a short time - days, maybe weeks. The regret will last a lifetime. Call a crisis pregnancy center if you have no place else to turn. Get the support you need to have the baby. If you cannot raise your child, make plans to give him/her up for

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at conception. Abortion kills an innocent

adoption.

BEFORE ME, the undersigned authority, on this day personally appeared Tara LK Musico (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: The middle of December, 1996.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? YES If not, explain: _____
- 3) Were you adequately informed of the consequences of abortion? No. I did not realize the emotional or physical affects.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? The Nurse Practitioner that I saw at Kaiser Permanente. She made many comments about needing to get rid of a problem I had, which at that time, I didn't think I had one.
- 6) How has your abortion affected you? It affected me in all aspects: Mentally, Emotionally, Socially & physically. Mentally, I had to deal with the fact I killed my child, yet think clearly, which was impossible to do for a while. Emotionally I became more angry, depressed and withdrawn. Socially, I did not want to be around others. Physically, I forced myself to lose weight which was unhealthy for me. I have dealt with these feelings through counseling & much prayer.
- 7) How has your abortion affected others in your life? I had a hard time bonding with my daughter. I was also angry at my husband, who was my boyfriend at the time of the abortion, and I would ~~hurt~~ hurt him very rudely. Forgiveness has made our relationship grow.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That abortion doesn't get rid of a problem, it causes more problems. Whether you deal with the issue right after the abortion or many years later, the grief and sorrow you need to deal with is so much more problematic than to choose life. I'd say CHOOSE LIFE!!!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Not only does abortion kill innocent babies, but it also kills part of every woman who chooses to do it. I'd also say to them that the people who are in the abortion business are in it for the money, not for the good of women. Give the choice of life, not death.

See enclosed sheet.

(three)

3 months after my abortion - I died - and was resuscitated. I lived only because someone found me after I was unconscious & called an ambulance. I wanted to take my own life (as I couldn't handle 1) the intense grief + 2) the fact that I'd taken a life) and nearly succeeded.

PL

The following is my abortion experience:

9-2-2003

While living in Philadelphia, I met a handsome (resident) doctor and we fell in love. A short time later I became sleepy & nauseated and the pregnancy test when done was positive. He told me he wanted no children and nothing more to do with me. I have 2 very abusive parents whom I could not tell for safety reasons, had no one to confide in, was a student, and feared being kicked out of school. I panicked and had an abortion at 2 1/2 months pregnant. My problems were "solved" – or so I thought. With my family background, I had a severe detachment disorder and felt nothing for this baby.

I was told nothing other than I was having a problem fixed.

Three months later, I put extra food out for my cat, took every pill in the apartment with a bottle of wine and woke up from the coma days later in the hospital. I had NO intention of living. The reaction to my abortion took away my desire to live and I had no idea that would happen to ME since I didn't have feelings for people and had run away from home after high school.

What followed was 21 years of grief, crying, and depression with suicidal periods. I'd see a lady walk by with a baby on the street and it'd start all over again. Time did NOT lessen the pain and had no healing affect. I named her Amy and I loved her.

Finally, 21 years later, at a church retreat, a miracle happened. I confessed my abortion to a priest. It was the first time I had talked about what happened so long ago. That night, I had a very real dream. In a huge bright white light were countless little children with bright white robes, hair, eyes and skin. One floated forward and said "I'm Amy. I forgive you and understand why you did this. I love you and I'll see you some day." I cried really hard for days and the healing began.

Today, I am married to a wonderful man, have 2 children and 3 grandchildren. I am in long-term psychotherapy and making good progress and still think about Amy.

To those who are considering abortion, I say please don't. Abortion kills not only the baby, but abortion destroys the life of the mother, and anyone close to the unborn child, including the father. Every life is precious and if you are like I was – young, frightened, alone with nowhere to go & unable to talk to family or anyone else – there are people who help with anything you need (a place to stay, clothing, food, non-judgmental love & support, counseling, medical care, and after birth help with adoption or keeping your baby). **Abortion is final** – no amount of crying will bring back your baby. And no amount of time or medicine will take the pain of the intense grief & guilt away. This is something I would not wish on anyone.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: The summer of 1993, Salt Lake City, Utah area.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no, I was told where to go and what time.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? yes
- 4) Did anyone pressure you into having an abortion? yes If so, who? from myself
- 5) How has your abortion affected you? I married the father of the baby I had aborted for I felt who would ever want someone who would kill her own baby. I didn't love him and after 16 really awful abusive years our marriage ended leaving me to raise our 2 children alone. Another regret, I didn't realize until years later that I never truly felt I had the right to truly enjoy my children, I murdered me remember, and I lived in fear of being found out. I had breast cancer over 10 years ago, which may have been a result. I won't ever forget but I finally know God forgave me when I sought His forgiveness and my baby waits for me.
- 6) How has your abortion affected others in your life? My children had a mother burdened with guilt and self anger and after their parents divorce had to watch their mother go through cancer at their young ages of 9 and 11.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? This is a baby not tissue! Place your trust in God and He will see you through this, but don't end your baby's life! If you can't raise your child there are so many wonderful couples who can and will. Save both your lives!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I remember when abortion was legalized and women no longer had to die in backalley abortion clinics. I was young, that must be a good thing, then I got pregnant, wow a way out! If it had not been legal, and so easy to get my baby would be alive, I may not be now living under the shadows of cancer returning. A baby should be more protected than the animals and our children should be taught morals, not do what feels good there's always an easy way out!

Affidavit

(Questions For Women Who Have Undergone Abortion)

2) continued:

It wasn't until 3 months later that I was looking at a small booklet that Carnation Milk put out regarding milk. It showed the stages of growth of a baby and I saw a picture of a whole baby in the womb at 12 weeks and I went berserk. I then found out that I had killed a real person not just a mass of tissue. I cried for hours and hours.

5) continued:

what you want to do because I've got a lot of people to see!" and left the room.

6) continued:

After that long year of sleepless nights, I found Yeshua and was cleansed of that horrible sin but it took me 10 years to forgive myself and be cleansed of the shame. I'm 53 now and was 27 at the time of the abortion and everyday I long for a child of my own. In my heart I have wished many times to murder that doctor for what he has done to me and so many other women who really didn't know what they were doing. It's not my place to murder him and I've had to deal with those emotions.

8) continued:

be haunted with what you've done.

It will bring instability to your life. You will live under a curse until you resolve to repent of taking the life of an innocent person that couldn't defend themselves.

You could possibly never have another child.

Shame doesn't go away easily and will effect you for the rest of your life.

Because I had a harsh, critical condemning mother, I thought if I just got rid of the evidence no one would ever know. Little did I know that every day the evidence was before my eyes in children that I saw and a conscience that I violated.

The torment abortion brings is beyond words.

9) continued:

our nation. Abortion is murder in the most cruel and harsh way. There are laws that supersede the laws men make and the Creator of the Universe says we don't have the right to kill others especially the innocent and those that can't defend themselves. One day there will be a Perfect Judge that will judge all lawmakers. He will judge righteously and give to all men what they deserved. On that day, all the manmade excuses will be reduced to rubble. Any person placed in the position of a lawmaker has been placed there by their Creator and will have a much higher degree of accountability for their influence in establishing this nation uprightly or corruptly.

Abortion is ruthless, humiliating, shameful and only done by those who are without a heart. Woe to us that say right is wrong and wrong is right. We are creating a people with no conscience and concern for others. If we will murder our babies we are capable of anything.

- How has abortion affected you? Physical - continuous abnormal pap smears, cervical abnormalities and damage where minor invasive surgery was needed. Increased risk of breast cancer. Emotional: psychological numbing, guilt and an inability to deal and handle grief. Challenges bonding with my current children. Mental: Difficulty in making decisions, rational in high-stress situations. Spiritual: Shame, anger, isolation - believing my sin was unforgivable in the eyes of God. Unable to move & grow in my spiritual walk. In a continuous cycle of feeling spiritually dead.
- How has your abortion affected others in your life? My children and my previous spouse had no choice in the death of another member of their family.
- Based upon your experience, what would you tell a woman considering abortion? There are first other options and resources available to offer life to the unborn child. I would also strongly advise her to be fully educated about all of the consequences of abortion.
- Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is not just a legalized medical procedure - it is legalized murder - from abortions done at 6 weeks to beyond 20 (partial birth), its consequences go into the realm of physical, emotional, spiritual, societal & governmental.

To be completed by women who have had abortions

The State of Illinois

BEFORE ME, the undersigned authority, on this day appeared Kathryn R. Aurand, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1982, Iowa City Iowa and 1991 Iowa City Iowa
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: There was some explanation when I got to the clinic, but it was vague. They focused on the physical aspects of the abortion.
- 3) Were you adequately informed of the consequences of abortion? I had no idea of the emotional pain I would suffer from, the grief and loss of relationships. They focused on the physical
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? Father of the child, friends, mother.
- 6) How has abortion affected you? Abortion hurt me mentally, physically and spiritually, I suffered a great sense of loss from losing the only two children I would have. I carried guilt and shame for years, I felt worthless as a human being, I had anxiety attacks and suffered from bouts of depression. My relationships with men suffered, also relationship with my mother. If it were not for God's Love and Forgiveness for my sins of abortions, I know I would have continued on my road to destruction, harming myself with cigarettees, and alcohol. But Christ has set me free through the Truth I found in God's Word, the Bible, He has healed me from the pain of abortion.
- 7) How has your abortion affected others in your life? My mother and I are not very close.
- 8) Based upon your experience, what would you tell a woman considering abortion? Do not have an abortion. Keep your child or give them to a loving family who desires to adopt.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? This fools women into thinki it's OK to have an abortion. It's the easy way out. It does not promote a sense of moral conduct by causing men and women to choose to abstain from sex until marriage. It seems like the answer but it only brings suffering.

BEFORE ME, the undersigned authority, on this day personally appeared Lynda S. Bartling (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Valparaiso, IN 46383

- 1) Tell approximately when and where your abortion occurred: November 7, 1980 - Porter Memorial Hospital
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Given a brief description of type of procedure, No information given on consequences or future mental or physical problems I might have.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? Both my mom and dad and the father. They were the only three that knew of my situation because I was told by parents to keep quiet and never tell anyone at any time, especially future husband.
- 5) How has your abortion affected you? First, I felt anger at myself for not trusting God for help and His outcome for my life. Then I felt and still feel anger at my parents for arranging my abortion and never speaking of it for 22 years. I now have low self-respect, low body image. I feel never "good enough". I exercise too much and had an eating disorder, which I feel I'm slowly overcoming. I also felt I let my siblings down for not speaking about it for 20 years. They were very supportive and understanding.
- 6) How has your abortion affected others in your life? You feel your life is a "big secret". It's hard to distinguish who you can trust in telling. My immediate family has been affected the most. They see the emotions and tears I've had around anniversary and due dates.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? God plans all life and has a hand in each creation, even in rape and incest. If you feel you cannot afford the baby, adoption is the best option. If you fear what family will think, go to God and ask for support and peace.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? All life is in God's plan. No pregnancy is a mistake. Adoption is the better option. The mother will suffer guilt and depression. Future pregnancies may not be possible due to complications. A choice for death for your baby is something the mother will think about every day of her life.

Chicago, Ill.

1) Tell approximately when and where your abortion occurred: March 1967, Hotel on Lake St.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no

3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? yes If so, who? sister

5) How has your abortion affected you? Disturbed my mind. Sometimes I have nightmares. They are re-occurring dreams. Bad dreams. Become angry w/ my sister. Didn't talk to her for 10 years. She died at age 46. I felt betrayed by my own family.

6) How has your abortion affected others in your life? It splits up families. I speak out and I try to help women contemplating an abortion.

7) Based on your own experiences, what would you tell a woman considering an abortion? God says abortion is wrong. It is another word for murder. Life begins at conception. Martin Luther said that even if a woman is violated or attacked, and she finds herself pregnant, she has a responsibility to carry a baby to full term.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? The Bible tells us it's wrong. It is a grave deception, and people have fallen into Satan's hands. God will put a judgement on this nation. We will become a third world nation because we sinned, and we followed our own selfish ways.

We live in a world where if a woman is pregnant & murdered, it's a double murder, yet it's okay if it's at her own hands. (Questions For WOMEN Who Have Undergone Abortion)

The State of TEXAS

BEFORE ME, the undersigned authority, on this day personally appeared Yvonne Florczak-Seeman, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

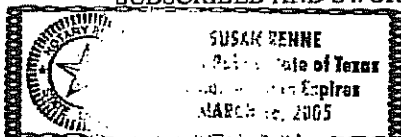

- 1) Tell when and where your abortion occurred: At the age of 19 years old in Albany Women's Clinic in Chicago, Ill.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No! And that is why I am filling this form out. If I had had all the information about the entire process, I would not have done what I did. I was 16 years old when I received my first abortion and at 16 making a decision like this was very frightening and I wasn't ever asked if I truly understood the process.
- 3) Were you adequately informed of the consequences of abortion? No! I was never given any information about counseling, scar tissue, guilt, shame, and how it would destroy my self-esteem and keep me from becoming more in life.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Never was this mentioned over the 4 years of my 5 abortions.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes! My boyfriend told me if I didn't have the abortion, he would leave me homeless.
- 6) How has your abortion affected you? I truly feel that because of the lack and negligence of the medical industry on informing the minor women about post-abortion trauma, I lived in a state of depression, guilt for 15 years not allowing me to further my education and better my lifestyle.
- 7) How has your abortion affected others in your life? Because I was never told about abortion leaves scar tissue, I was told that I could not have any children by two doctors. However, my faith in God told me different. I have two children now and the truth of the matter is that I have two failed marriages because of all the anger and unforgiveness that I've held over the abortions. I didn't realize until my life almost fell apart that I needed extensive counseling in my life regarding the abortions.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Be prepared to face a lifetime of guilt, shame, disappointment, anger and the possibility of never being able to have children again because of the scar tissue that an abortion leaves behind.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would like for them to explain to me how is it possible that the remains of a "fetus" look like human body limbs. And when they are thrown into a trash can that is located behind an abortion clinic we refer to them as an abortion. But when we see human body limbs of an adult and or child thrown in a trash can in an alley of New York city we call that murder! Other than their size, what is the difference? Then I would like to show them some pictures of these abortion procedures and educate them on what is really going on in this nation. Then, I would like to ask them if it would sit right with them to know that one of those "fetuses" that were behind the clinic came from their youngest daughter, and that that daughter could never had children again because no one was required by law to give her the truths about what an abortion truly does to your life.

- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No

- 5) How has your abortion affected you? I will regret to my dying day, having an abortion. First because of the cruel and inhumane destruction of a living child. The sense of loss was there even at the time when I thought abortion was an option. I was not expecting that. The guilt over destroying my own child for my own convenience became overwhelming as the years went by. I was finally released from the guilt 18 years later, but I will always remember that date and that experience as well as the lasting consequences.
- 6) How has your abortion affected others in your life? Only my husband knows about the abortion. He has seen the lasting effects on my emotional well-being and is also against abortion.

5) How has your abortion affected you? The abortion seemed at first to be the easy way out of a difficult situation (unwanted pregnancy). It was extremely physically, emotionally, mentally & especially spiritually. I became resentful in all these areas. I had no understanding of the abortion until I was at the abortion clinic. My life was filled with a great deal of pain & self-destruction.

6) How has your abortion affected others in your life? I'm sure it has but I'm not able at this time to articulate specifics.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would share with her how damaging & traumatic an abortion can be. I would share how I now live with the knowledge that you disposed of your child. I would also tell her about Church's stance on this.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I truly don't believe that abortion is ever the answer to an unwanted or unplanned pregnancy. It causes damage the like of that woman it reduced the preciousness & sanctity of life and gives both men & women license to be careless & irresponsible.

BEFRE ME, the undersigned authority, on this day personally appeared ELIZABETH VERCHIO who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Questions for Women Who have Undergone Abortion:

Tell when and where your abortion occurred: Preterm, [REDACTED] August 1976.
I was told my pregnancy was between 6 and 8 weeks along.

How has your abortion affected you? Negatively. When I saw my husband a few hours after the abortion I felt an intense hatred for him. I determined to make him pay for what he had done to me by taking me to have the abortion as well as supporting me to go through with it. He never once told me we should not end the pregnancy with abortion. He did not offer any options.

Within 6 months of the abortion I had been drinking heavily, whereas before I drank only socially. I began drinking Vodka at 10 o'clock in the morning and continued drinking all day. Feelings of guilt, shame and grief overwhelmed me, but, because I was told abortion was my best choice and it would eliminate all my problems, I never associated the drinking and feelings with the abortion.

Within 2 years of the abortion I was actively trying to destroy my marriage as well as myself. I hated myself and sought for ways to escape the feelings. For many years I was suicidal, I planned my death and waited for the exact moment to carry out the plans.

One thought frequently had was 'if only I could just get away from it all.' My husband and I moved 360 miles away from family and friends in an attempt to escape. The problems came with us. I just wanted to take the trash out but couldn't because the trash was me.

My health began to falter, but several physicians could not determine a cause. I sought psychiatric assistance when I told my gynecologist I was suicidal. The psychiatric was not helpful, she labeled me manic-depressive and insisted I take Prozak or another mood altering drug. I resisted her diagnosis and refused the drugs.

I continued to be suicidal, though never acting on the plans.

How has your abortion affected others in your life? My husband has suffered greatly because of our abortion. He was the one who had to deal with my anger and self-destructive actions. In 1979 I determined having an affair would hurt my husband bad enough to make him feel the same way I was feeling. I found several willing men and then came home and told my husband what I was doing. Needless to say he was deeply hurt. This caused a major trust issue in our marriage. I did not trust him to protect me; he did not trust me to be faithful to him and our marriage. I determined our marriage would end over that, but my husband did not want it to. I told my husband at one point, I don't love you as much as you love me so get used to it.

Even with the adultery, my anger and resentment did not abate. It only intensified. I sought comfort and relief through Yoga, Transcendental Meditation, drugs, (both legal and illegal). I took menial jobs just to get away from the house. I was a terrible employee, making problems for the supervisor and other employees. I could not hold a job due to my anger and unwillingness to follow directions. I trusted no one.

I insisted on controlling everything. If my husband made a decision without my input I became enraged and would not speak to him for days.

Were you adequately informed of the consequences of abortion? No. I was told, "now was not a good time for me to be pregnant but because I was so caring, I would make a good mother, some other time. One woman demanded her money be returned and left. The employees of the facility spoke very loud saying "she will be back tomorrow. She is not so stupid to not have an abortion."

At one point I was asked what my church thought of abortion, I replied I didn't really know, but thought they might say it was wrong. She did not give me a chance to find out. I told her my husband was to be in the room with me. She excused herself and came back a few minutes later saying we couldn't wait for him, the doctor was ready now.

I was told about the feelings of anger, guilt, shame and grief I would feel months and years later. Even as late as 1989 I experienced strong feelings of anger, guilt and shame. I found it difficult to work on a committee; I became more and more a loner and felt the need to be in control of every situation.

Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain:

No. During group counseling (10 to 12 women) we were shown a uterine model in the pretense to explain the abortion procedure. The uterine model was empty; it did not contain any "product of conception" which we were told 'would be gently removed with a spoon shaped instrument'. We were discouraged from asking any questions. We were told the fine print on the forms we must sign was not worth reading as none of the things listed ever happened. We were not given time to read the fine print. We were told to sign quickly so there would be no further delay. Someone asked a question, but the 'counselor' told her that was a stupid question because nothing would happen to her. I was not told of the increase risk of breast cancer from having my first pregnancy terminated by abortion.

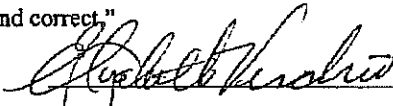

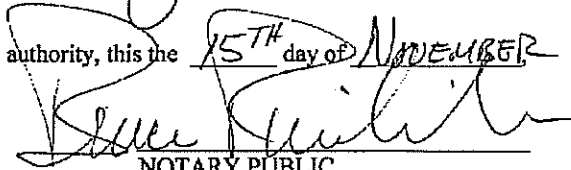

Based on your own experience, what would you tell a court that believes abortion should be a woman's choice? Pregnancy is short; Abortion is forever. A mother never 'gets over' participating in the death of her unborn child. Abortion does not fix anything; it creates a lot of problems that the pregnancy did not create. I was told I would be a good parent some day when the timing was better. I never became pregnant again. They lied to me! I will never experience the joys and sorrows of motherhood. I will never have the place among my peers as the mother of the bridegroom. I will never be a grandparent. I will never experience these things because abortion ended my one and only pregnancy, abortion took the life of my one and only child. Killing one's unborn child is never the answer to an unplanned or unwanted pregnancy. Why must an innocent child die so his or her parents can live their selfish lives?

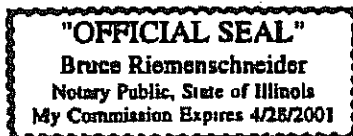

Did anyone pressure you into having an abortion? If so, why? I felt pressure from my husband. I did not feel he would support my baby and me and I could not see myself a single parent. I felt he wanted me to abort because he had already made it clear he did not want children. Though he did not take responsibility in avoiding pregnancy.

The counselors at the abortion facility put subtle pressure by saying things like, 'now is not a good time for you to be pregnant', 'you are so young it's too soon to be a mother', 'you can be a parent later when you are more ready.' I was never told any options or other resources that would aide me in single parenting or adoption options. I was lead to believe abortion was the only solution to my problem. No one ever suggested they bring my husband in for a conflict resolution session to determine if abortion really was best for us. I was not encourage to discuss any long term consequences to having an abortion. I was asked about my church background and when I answered that my church probably would say abortion was wrong, I was rushed into the procedure room where I was prepped for abortion. No one spoke to me after I was prepped, I was not introduced to the person who was performing the abortion. I never knew her name.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared C. R. T. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: CHICAGO, IL 1977
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I Remember little of this day - but I don't believe that I was adequately informed. It wasn't until several years later after seeing a film that I realized what took place during the procedure.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? YES If so, who? Baby's Father - Family

6) How has your abortion affected you? my own lack of knowledge & misconceptions - I regretted my decision and mourned my child immediately. I avoided small babies & children to the point that today I long to hold a child but I'm uncomfortable doing so. I put up barriers. I longed to become pregnant again & convinced myself that I was pregnant which I wasn't. In many ways I still feel like that 17 yr old as far as my emotions are concerned. When I married my husband he had 2 teens & didn't want any more children - I had many fears about my ability to be a "good mother" so I agreed - Month after month I secretly hoped to become pregnant & I couldn't take the emotional roller coaster so at age 29 had tubal tied - I didn't help.

7) How has your abortion affected others in your life? AFTER THE ABORTION I became a bitter & angry person - particularly towards baby's father arguing daily until break-up 3 1/2 yrs later. My husband has been by my side for the past 14 yrs. with my emotional up & downs.

8) Based on your own experiences, what would you tell a woman considering an abortion? Please, please don't! I don't want you to go through what I went through - continue to go through knowing what I know today - Adoption would have been a much better choice - is a better choice. IF I HAD THE KNOWLEDGE THAT I HAVE TODAY I would not have aborted. May be your only child.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? If we can't convince you of the devastation that abortion causes in a woman's life - if we can't convince you to reverse Roe vs Wade, I feel that at the very least that every girl wanting an abortion should have to have counseling with someone who will give them all of the information required to make an informed decision. IF I had this I wouldn't have aborted.

June 26, 2002

Dear Ladies and Gentlemen of the Court,

I'd like to address the court concerning a matter close to my heart. I'd like to share my abortion story with you. I'd like for you to know why I chose abortion and how that decision has affected my life.

I had just turned 17 years old when I discovered that I was pregnant. At first my boyfriend seemed happy, even excited about the thought of becoming a father. I'm still not sure what changed, fear maybe, he was suddenly pushing me to get an abortion. I didn't want the abortion but that's what I did in the end. I had options but none of them seemed good at the time. Let me explain. My father was the only one who told me to keep the baby because he didn't think that I could handle it emotionally. He said that he would help but he wasn't there for me, how could I expect him to be there for my baby and me. My boyfriend's parents said that they would adopt my baby but that I would have absolutely no say so in the upbringing of my child. How could I handle seeing my child and never being able to tell that child that I was his real mother. I had a friend who had been adopted and for as long as I can remember she had told me how unhappy she was. She felt that her real mother must not have loved her. I didn't want my child to go through that. Also, with adoption I didn't think that I could handle wondering if that little boy or girl might be mine.

Looking back I was so full of misconceptions. I didn't realize that not all adopted children are unhappy. I didn't know that there was a law or would be a law that would allow a child and parent to find one another. My father was right, I couldn't handle the abortion emotionally and I spent many years hiding my feelings so that he would think that I was OK.

Immediately after my abortion I started hoping to become pregnant again, I guess to replace what I had lost. I started eating for two just in case. It doesn't make sense now but at the time that is how my mind worked. Before the abortion my boyfriend and I got along fine but afterwards I became so bitter and angry that I became argumentative. He became emotionally abusive. I tried to break up but I had become dependent upon him. I went to a therapist to get help dealing with the abortion but walked out when she wanted me to role-play by pretending to talk to my baby. I couldn't do it but going to her did give me the courage to finally end my relationship 3 1/2 years after the abortion.

After my abortion I also avoided babies, becoming sad when I would see a mother pushing her baby in a stroller etc. I've isolated myself from children much of the last 25 years. I have been in situations when I have been around small children but I don't find that I'm comfortable around them. I don't know how to interact. I have step-grandchildren now and I struggle with them but I'm learning.

As far as not putting my baby up for adoption because I'd always wonder where he was, what he would look like etc. Well, I still had all those thoughts only now I would think, my child might have looked like that, or I wonder what my child would look like, or he would be about that old now.

After breaking up with my boyfriend I began searching for the love that I didn't feel that I got at home growing up. My boyfriend also had spent years telling me that no one else would want me. I continued to be sexually active still hoping that I would become pregnant. Worse than that is that there have been times that I convinced myself that I was pregnant even when there was little chance of the possibility.

When I was 28 years old I married a wonderful, supportive man who has been by my side. This man was divorced with two teenage boys. He made it clear that he didn't want any more children. He is eight years my senior and did not want to start raising another family when his kids were almost grown. I agreed with him at the time for the reasons that I stated before. I wasn't sure if I could be a good mother. I still had some anger, fears that I would have a less than perfect child and insecurity. I feel that these thoughts were directly and/or indirectly influenced by my abortion.

I continued to struggle with the thought of not feeling worthy to be mother and so desperately wanting to be called mom. Month after month I would continue to secretly hope to become pregnant and feelings of disappointment when I wasn't. At the age of 30 I made yet another regretful decision, I could not stand the emotional roller coaster any longer so I underwent a procedure to have my tubes tied. I thought that if there was no chance for pregnancy that this continued agony would cease. I was wrong; it didn't change a thing. The Dr. had planted a seed by telling me that sometimes tubule legations reverse themselves. I clung to this thought and so the roller coaster ride began once again.

It's 25 years later and I am approaching 42 years old now. I continue to struggle with these emotions. Over the years I've been to therapist, clergy and psychologist at different times in my life. Most recently I found post- supportive help through a Pregnancy resource Center/Crisis Pregnancy Center. When I chose to have an abortion I didn't know that I would be killing my only child but that is what I have done and I have to live with the decisions that I have made. God has forgiven me but I still struggle with forgiving myself. Even though forgiven, I will never be able to forget what I have done. I'll live with that regret for the rest of my life.

I've recently found out that there are studies that suggest that there is a link between abortions and breast cancer. So now I also need to pay more attention to my breast health.

The best decision that I could have made would have been to remain abstinent until marriage and believe me, I have wished that I would have so many times over the last 25 years.

I have suffered great emotional stress over the years but I have been able to talk about it or express my feelings in a letter such as this. Many women still live in secrecy, keeping their pain to themselves. Some try to bury the pain in destructive behaviors.

My one great hope in sharing my experience is to be able to save others from going through the pain that I have gone through.

In closing I'd like to say that abortion is not just a women's issue many men suffer emotionally as well from the lose of their child, whether or not they helped in making the decision.

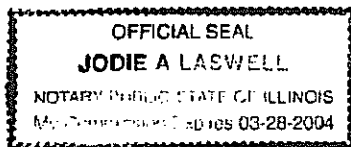

I hope that you get the opportunity to read this letter and that it helps you to understand the after effects of an abortion. I hope that sharing my story will help change the abortion laws as they now stand.

Thank you for your time and consideration in this matter.

Respectfully,

A. R. T.

BEFORE ME, the undersigned authority, on this day personally appeared

Mary T. Spencer (Print Name),

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion

occurred: November 8, 1973
Madison, Wisconsin

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No - absolutely not. I had no idea at the time. Not a day goes by since I found out exactly what it really is that I am not sickened by what I did.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No - I do not have breast cancer. I have never heard of a link until now.

4) Did anyone pressure you into having an abortion? If so, who?

NO. On the other hand no one tried to help me with an alternate decision either.

5) How has your abortion affected you?

Not one day has gone by that I haven't mourned over the decision I made. For years I was so afraid of God and I thought everything that happened to me was a punishment.

6) How has your abortion affected others in your life?

My family has been affected by my battle with panic, Anxiety, & Depression. It took me years of counselling and finally my faith not counseling saved me. Without God in the counseling it would never work or help.

7) Based on your own experiences, what would you tell a woman considering an abortion?

It is a decision that will be with you the rest of your life. There is so much help out there to make a final decision you can live with. Don't do it! This is a life - given and created by God, honor it.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

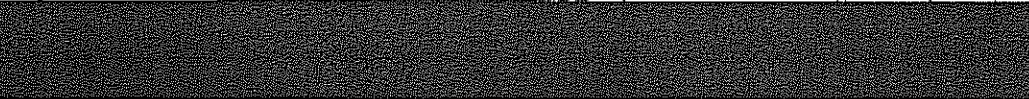

Stop bending to political correctness and go back to leading this country and individuals in a morally upstanding way. There is a right way and a wrong way. ABORTION is the wrong way. Protect the unborn. Give these girls another choice.

In September, 1973 when I found out I was pregnant, I was devastated. I was in the middle of a relationship with a young man who had a problem with drugs & alcohol. All I could think of was getting out of this as fast as possible. I thought an abortion was a quick fix and an easy way out. I thought I had no one to turn to. The bottom line is this - I had no thought about anyone but myself & I had no idea what I was truly doing. I had one 30 min. meeting with a counselor and was on my way to getting out of a problem. Or so I thought.

The next 15 years I was tormented with what I had done. That decision touched every area of my life. It wasn't until 1986 that everything I had done truly caught up with me. I cracked like "Humpty Dumpty."

ad

There is so much more to this story but I'm trying to keep it brief.

Thanks to my dear and loving Mom, I saw that my decision was the root of all of my problems. My quick fix decision was still with me + killing me mentally. Thanks to my Mom I turned to God and confessed my sin. There I found forgiveness, compassion and understanding. Only then did I truly start to heal and understand what I had done.

Put more effort into counseling + adoption. Truly help these women know they have another choice. Abortion is wrong and it is murder in the truest sense of the word. I wish I had thought of someone other than myself then. The decision you make today is with you the rest of your tomorrow. You can't see from it. I would be much happier knowing I had given my little angel a chance. This was truly the most selfish act of my life.

"I have read the above and foregoing statement and the same is true and correct."

To Whom It May Concern:

I am sending this affidavit so that you can add my name to the list of your pending cases. I am willing to testify to any one that will give me a listening ear. I am 37 years old and it has taken over 15 years for me to be able to except and truly understand the consequences of my 5 abortions. I was one of the lucky ones in life that was able to have children, however it was after two very painful miscarriages (one at 8 weeks and the other at 13 weeks) I am involved with the crisis pregnancy centers in Illinois as a counselor and I'm horrified at the lack of education that these young girls are given. By the time they get to us they have had at least one abortion and they are depressed, suicidal, no education and their will to live is gone, what are these clinics doing to our children!!! I have written out all my answers please note that some of my answers are more detailed on this letter than on the affidavit. I didn't have enough room to answer the questions completely.

1. Tell when and where your abortion occurred:

Between the ages of 16 and 20, and they were performed at Albany Women's Clinic in Chicago, Illinois.

2. Were you adequately informed of the nature of abortion, what it is what it does? If not, explain:

No! And that is why I'm filling out this form. If I had had all the information about the entire process, I would not have done what I did. I was 16 years old when I received my first abortion and at 16 making a decision like this was very frightening and I wasn't ever asked if I truly understood the process.

3. Were you adequately informed of the consequences of abortion?

No! I was never given any information about counseling, scar tissue, guilt, shame and how it would destroy my self-esteem and keep me from becoming more in life.

4. Were you informed if any link between abortion and breast cancer? Have you had breast cancer?

Never was this mentioned over the 4 years of my 5 abortions.

5. Did anyone pressure you into having an abortion? If so, who?

Yes! I ran away with my boyfriend and he would tell me if I didn't get them he would leave me homeless. My first abortion my mother made the decision for me. My opinion was never asked, I was told that I didn't have a chose. She was not going to support any babies.

6. How has your abortion affected you?

I truly feel that because of the lack and negligence of the medical industry on informing the women (minor) about post-abortion trauma, I lived in a state of depression, guilt for 15 years not allowing me to further my education and better my life style.

"If you have faith the size of a mustard seed, you can move a mountain." Matthew 17:20

7. How has your abortion affected others in your life?

Because I was never told about the abortions leaving scar tissue, I was told that I could not have any children by two doctors, However my faith in God told me different. I have two children now and the truth of the matter is that I have two failed marriages because of all the anger and unforgiveness that I've held over the abortions. I didn't realize until my life almost fell apart that I needed extensive counseling in my life regarding the abortions.

8. Based on your experiences, what would you tell women considering an abortion?

Be prepared to face a lifetime of guilt, shame, disappointment, anger and the possibility of never being able to have children again, because of the scar tissue that an abortion leaves behind.

9. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would like for them to explain to me, How is it possible that the remains of a "Fetus" look like human body limbs. And when they are thrown into a trash can that is located behind an abortion clinic we refer to them as an abortion, but when we see human body limbs of an adult and or child thrown in a trash can in an alley of New York city we call that murder! Other than there size, what is the difference? Then I would like to show them some pictures of these abortion procedures and educate them on what is really going on in this nation. Then, I would like to ask them if it would sit right with them to know that one of those "Fetuses" that were behind the clinic came from their youngest daughter, and that that daughter could never have children again, because no one was required by law to give her the truths about what an abortion truly does to your life.

Please contact me with any questions and/or opportunities to testify before any court!!!

I Regret My Abortion

My abortion happened 16 years ago. I was dating a guy that I loved very much. We were in an on again, off again relationship for 4 years. Just before my abortion, we had a fight and broke up – for good. A couple weeks later, I found out that I was pregnant. When I told him that I was pregnant, he said that he wanted me to have an abortion because he didn't think I would be a good mother. Also, he said I was a big baby and challenged me to finally be a woman. I really never thought he would want me to go through with it. I found out that he was dealing drugs and I wanted him out of my life, so I chose to follow through with his plan. He paid for my abortion with his drug money.

The night before my abortion, I couldn't sleep. I was lying alone in bed with my own thoughts, and I knew what I was about to do was very wrong. Two years earlier, I had gone through the same situation, but decided to carry that pregnancy to term. Abortion was never even a consideration to me. But now that I had a 2 year old son, I didn't want others to think I made the same mistake...again. The only people who knew I was pregnant were my mom and sister.

When I woke up that morning, I called my sister and told her that I thought I was "miscarrying". I told her I was bleeding and wanted to know if she would watch my son. After I dropped him off, I went to the abortion clinic. I noticed the picketers, and I wanted to make sure none of them knew me. I drove around the block. None of them looked familiar, so I pulled into the parking lot and went in. The picketers yelled stuff to me, but I felt they didn't know my situation so they didn't deserve my time.

Once inside, I gave the receptionist a fake name. I felt numb. I filled out paper work, talked to a counselor, talked to a nurse, and tried not to think about what I was doing. A nurse escorted me into the abortion room. She helped me get ready for the procedure and just asked me vague questions about the weather and if I was going to school. The abortionist came into the room and began my abortion. The nurse was leaning over me and staring into my eyes. After a little while, she asked the doctor "Is something wrong?" He said, "**It** is trying to get away – I've tried three times!"

I was shocked!! What he said hit me like a ton of bricks. **It** is trying to get away! I started to pray and ask God to stop all this from happening – to not let it work – to let it fail - to put His hand in the way of the vacuum. I couldn't believe what I was doing!! Seconds later, the abortionist said, "It's done". He put away his tools and left the room. From that moment on I **have REGRETTED MY ABORTION!!** I just wanted to run, to die...I was ANGRY! After the nurse left the room, I started to cry. A part of me died in that room. I knew what I did was wrong. The "**IT**" he was referring to was **MY BABY!**

As I walked down the steps to leave the place, I just balled. I remember looking in the sky, wondering what God thought of me. The rest of the day, I laid on the couch. I would look at my son and just cry. I wanted to go back to that place and pull my baby out of the dumpster. If only I could live that day over again. My decision to have an abortion was final. It was over. I can't go back.

My mom, who thought I miscarried, encouraged me to name my baby and to write my baby a letter. I named my baby, Baby Chris and I wrote her a letter. I still have things that make me grieve - like when I go to the dentist and hear the suction machine. My abortion happened two days before Valentines Day, so every Valentines Day is a reminder. Baby Chris would have been born in September. By now, she would be 15 years old. I wonder what she would look like. I wonder what her laugh would sound like. I wonder if she would have a boyfriend. On this earth, I will never be able to hold her or kiss her good night. To tell her I am sorry. I can't believe that I took the life of an innocent baby to make myself look better. I really wish I had had the courage to stand up for Baby Chris and to have said NO.

My grief drew me closer to God. I know that He forgives me for what I did. When I asked for His forgiveness, He gave me a clean slate. He remembers my sin no more. For that, I am eternally grateful!!! I know that, when I die, God will welcome me in to Heaven. Standing next to him will be Baby Chris. Only then, will I no longer Regret My Abortion.

If you or someone you know has questions about abortion, please e-mail me at purplelatte@hotmail.com. Abortion is not the only choice. You can parent your baby or release him/her for adoption. I may not have all the answers but I want to encourage you to make a decision you can live with.

These people don't care what happens to you afterward - just that they get their money.

5.) I might as well because, being that I was only 14 at the time, they (my boyfriend's parents) would probably end up getting custody and I would never see my baby again. 1) Tell approximately when and where your abortion

occurred: Westmont, IL 1992

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO - the room was filled with women - it was like an assembly line.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? not informed - do not have breast cancer

4) Did anyone pressure you into having an abortion? If so, who?

no one in particular. I would honestly say society's views on the subject makes it seem as natural and harmless as having a mole removed.

5) How has your abortion affected you?

The abortion and the clinic made the procedure seem so meaningless and day to day. I have a son now and realize how precious life is. I know I have been forgiven, but it is still hard to deal with choosing to destroy a life God created.

6) How has your abortion affected others in your life?

I was in a relationship with someone I loved and it ended. The only other person who knew was my mother and she would never talk about it unless I brought it up - which I have not.

7) Based on your own experiences, what would you tell a woman considering an abortion?

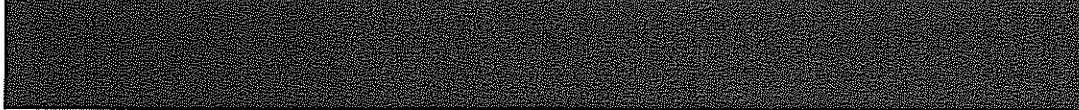

Don't do it - there are always ways to survive and provide for your child. There are many good people who would love your baby for you and are waiting on a list to 'get' a baby.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

Why are we wasting our money, time & efforts on abortion and not going to the cause? We need to teach our children about celibacy, birth control etc. Just as easy to get an abortion as it is to get birth control. How will our children ever believe life is precious and they are special when it can be destroyed so easily?

I added ^{K.F.} ~~these~~ ^{K.F.} pages to my affidavit, so I can tell more about my experience with abortion.

K.F.

In 1983, when I was almost 19 years old, I had an abortion, at Hope Clinic, in Granite City, IL. I was taught in health class during my freshman year of high school that abortion was a form of birth control. Although I had already had a child in 1981, all I knew was that the feminists on television had said that at this stage of development my child was just a blob of tissue. I really didn't have any reason to doubt that. I had never seen any information on the development of a child in the womb. I never felt my son move inside of me until between the fourth and fifth month. I mean it was on the news after all. Now that I'm older and wiser I know that in order to get on the news all you really need is to work at some university somewhere, or maybe, just have a nice title.

At the time I was dating this man who was 11 years older than I was. He was also married. He told me all the nice things married men tell younger girls, including that he was getting a divorce, before he ever touched me. One night, he was at my apartment and he had to go home. It was a holiday and I was tired of sneaking around and I wanted to go out. I was furious with him, and after he left I went out with some friends to a bar. I got very drunk and I met this guy. I went home with him and got pregnant. I knew it was his baby because my "boyfriend" had had a vasectomy since the early 70's. I knew I was ovulating when I went out but I was so drunk I didn't care.

I was 6 weeks pregnant, but the clinic told me on the phone that you had to be at least 2 months pregnant, to get an abortion. I lied and said I was. They would only take cash, which I didn't have, so I took out a small loan for \$200.

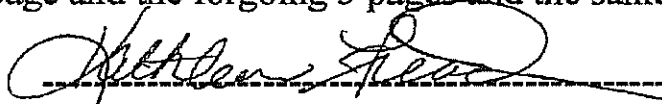

When I went to the clinic, they had me take a pregnancy test. Then I waited. Most of the girls in there were teenagers, but younger than me. A lady called my name. She said it was the law that I had to have counseling. I went into the counselor's office. She said, "Are you O.K. with this?" I gave a very weak, "I guess." She said, "O.K.", and that was the end of my counseling session.

Then another lady, I guess she was the nurse, gave me a pill. She said that the pill was to relax me. I asked her if it was going to hurt. She said it might be a little uncomfortable. Nobody explained anything about the procedure. (I wonder why.) Now that I'm older I would probably ask questions, but back then I was really painfully shy. There was this hallway, and I have been left with the impression that it was like being in an assembly line. The room where the abortions were performed was right at the end of the hall. When I went in I was asked to lay on a table with stirrups. The abortion really hurt. I could feel the vacuum ripping the baby and placenta off of the wall of my uterus. (After having the abortion I could not have sexual intercourse without pain for about 3 years. My gynecologist told me that I had scar tissue from the abortion. Some of his exact words were, "Every time we send anybody up there, they get torn up." After my abortion they took me into a room with a lot of other girls who had just had an abortion. I was given a tampon to wear for a certain amount of time, and then I was supposed to lay it on a paper towel in the bathroom. I was also given a pill to dry up the milk that would soon be in my breasts. I was wondering why I would have milk. I was also wondering about the empty spot I could feel inside of my womb. While all the rest of these girls and I, were in this room, somebody brought in this girl wearing a hospital gown. She had short blond hair and looked, maybe, 16. She was also only partially conscious, had an I.V. in her arm, and was covered with blood. She was plopped into a chair and left there. Nobody even bothered to cover her with a blanket. Obviously, she had to be moved out of the abortion room so the assembly line could move on.

I didn't think about the abortion much after that for several years. When I found out the truth about what I did I was devastated. I've done some things in my life, but this was the hardest to forgive myself for. I'm so thankful for Jesus and the peace that he has brought to my life. I can talk about what happened without shame now and I'm not afraid to face those who ask how anyone could ever do anything like have an abortion. The answer is always deception, self or otherwise.

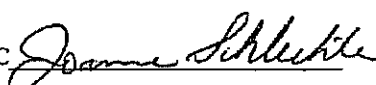

In 1992, I was in collage studying cosmetology. The teacher and the class started talking about abortion. Obviously, everybody was either pro- choice or not speaking up. I told my whole story. After class one girl came to me and said, "You know Kathy, before you said what you said, I would have had an abortion. Now, I would never have one." After that I asked the lord for a good example, to show that a baby is really a life. I immediately saw a tadpole lying on the bank of a lake. A tadpole is alive. Just because it can't survive outside of the water yet and isn't called a frog, doesn't mean it's not a life.

I have read the above page and the forgoing 3 pages and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared
E. [REDACTED] (Print Name),
who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: My abortion occurred in Chicago on the north side of the city at a planned parenthood facility on December 9, 2003.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes and no. When I was trying to make the decision while sitting in that room before I went through with it, I was so sick to my stomach, I didn't know what to think or do... let alone listen to what they had to say to me. I remember them describing that this is permanent and there is no way to reverse the process once it's been started and I remember laughing to myself saying isn't that the point. I had no idea how much I wanted to reverse it once I started the process.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No one told me this or if they did, I wasn't listening. At the point of decision, I was making my choice based on whether I could have the child or not... I wasn't worried about myself or my health at that point.

4) Did anyone pressure you into having an abortion? If so, who? Again, yes and no. The father of the baby actually tried to talk me out of it. He was a resident doctor at a Chicago Southside hospital. He told me he wanted to have the baby but give it up for adoption. With me being adopted, I couldn't do that. Here's the thing though... I wanted to have the baby more than anything. When I first told the father we were pregnant, he was so happy yet very nervous. After his family got wind of this, they wedged themselves between Steve and I in an effort to break us up. It worked in the end. Steve and I lived together at the time yet he still felt as if his parent's word was the final word. In the end, he asked me to break off our engagement, move out of our apartment, have the baby on my own and he would see me in the delivery room for support when it came time to sign the adoption papers. I couldn't do that... I wanted her more than anything but no one told me what my options were outside of abortion and adoption. Finally, my family's influence on the situation was just there... They weren't happy about the situation but for me (I was 21 and Steve was 25), they accepted it. They said having the child was fine but they pushed for Steve and I to get married. Steve wanted to marry me but not that quickly so under the pressure of my family to marry him... he put a ring on my finger. He went along for the ride. When his parents stepped in, he stepped away from marrying me. My family wouldn't have their daughter having a child and not being married. When I mentioned to my mother the thought of abortion, she said she wouldn't blame me if I did it. She said she would support my decision. (She said it almost in a way that made me feel like that was the only way out.)

5) How has your abortion affected you? I cry because I miss her, because I wish I could take back my actions, and most of all, because I made the decision so quickly. I felt it was my choice but with the situation I was in... I didn't see another way out. I had the abortion right before Christmas and then went home for the holidays to be with my mother and father. I moved away from Chicago, quit my job, dropped out of graduate school and started an entirely new life in Springfield, IL for myself... 3 hours southeast. I had graduated just the past May with my undergraduate degree so moving home to Arkansas wasn't a decision to face everyone back there. I started my new job in the beginning of January and put a face of happiness on. I am strong but I also have realized that I turned my feelings off for about a month after I had my abortion. I couldn't hate, love or feel anything. I don't think I even cried that much. One night I let it all go and felt as depressed as I have ever felt in my life. I thought of suicide... seriously. I wanted to hurt myself and suffer the way I made my child suffer. I felt like a hypocrite because I'm adopted. Why couldn't I have walked away from him and support myself, have my child, etc or even give her up for

adoption. I didn't want that though... I wanted to have her. In the end, I've spent hundreds of dollars on professional therapy and prozac/Zoloft to just get through the day. My doctor sat down to listen to me and told me I needed to see a professional therapist. She has been working with me since last spring. The hardest times have been July (when she was due) and now in late November and early December as this is when I had my abortion last year. It hurts badly. I think about it everyday. You can't help but think about it. I see a baby and shy away from them. When I am in a store, I avoid the baby section. My co-worker told me she was pregnant and I got jealous (though I never showed those feelings to her). If I hear how old a baby is, the first thing I think about is, "Oh, my daughter would have been 2 months older than your baby". I speak to my friends rarely about it and tell them how hurt I am... but they can't understand only because I'm too embarrassed to tell them about my abortion. I tell them all I had a miscarriage because of stress. My boyfriend I currently have is wonderful about it. He understands only because 5 years ago a woman he was dating had an abortion of his child... he's held me many nights crying. He seems to be over the fact of his abortion but I don't see how. Maybe he didn't want the child so I guess my situation is a little different.

Since the abortion last December (2003), I've thrown myself into my career. I bought myself a house at the age of 22, started graduate school again to get my master's degree, working for a great organization, adopted 2 dogs, started volunteering with Big Brother Big Sister (I have a 11 year old little girl I mentor), started volunteering with the teenage youth group at the church I attend, and finally joined a national society for PR professionals being appointed to their board of directors a few weeks ago. I've kept myself busy... the more busy I am, the less time I have to sit down to think about my lost daughter. The last way it's affected me is physically... I cringe when I have my period. I didn't have the normal abortion where they put you to sleep and suck the child out of you. I had the medical abortion where you take one pill on the first day and the next day you insert 4 pills inside you female area and wait for your body to expel everything. I had to sit on the toilet for 2 days straight (just about) in the dark because I didn't want to see what was happening. I felt her come out though. What a horrible feeling knowing when you flush that toilet that you are flushing your daughter down the drain... literally. At that point (3 days later when it was all over), I hated myself, I hated my family, the father of my child... everyone. I thought (maybe somehow) that Steve and I would be fine once this was all over. He could barely look at me and told me so. That just added to my pain. I moved out of our apartment a few days after the abortion... I wasn't suppose to lift anything heavy but he made me get my dresser and everything else out of the apartment. Can you believe that someone is as heartless to make someone lift heavy objects after gone through that only 3 days before. Long story short... Took the first pill on a Tuesday afternoon about noon, (missed my graduate class that night), had the other pills put in me on Wednesday morning, after Steve left for work that morning, I surfed the internet for a while between bathroom runs and found the job listing for my current position and sent my resume, they called that afternoon and asked if I could come in Friday for the interview. Thursday afternoon, I went downtown for my graduate class at DePaul University and bought a new suit for my interview the next day. Friday, I went downtown (nervous as hell and only 3 days after the abortion) for my interview. I was so sick during the interview because of the abortion, it wasn't funny! But I held myself together and got through it. Saturday morning came and Steve and I moved everything I owned out of our apartment into my grandmother's garage a few miles away. 3 loads of cars later, I was moved out, he hugged me and said goodbye. On Sunday, I went to church and prayed for my soul and prayed God would forgive me for what I had done. On Monday morning, when I was looking at storage areas to put my stuff into, I got a call from the President of the organization offering me the job (about 10 a.m). I was so happy and thankful to God! I had my last graduate class on that next Tuesday night and went to Springfield to find an apartment on Wednesday. About a week later... I was moving to Springfield, IL. I had movers move everything down state for me. I've been in Springfield ever since.

Just as a side note... since it's Christmas now, I have my tree up in my new house. I have 3 ornaments dedicated to my daughter. On one, I have made it myself and have her name (or the name I would have given to her... Sophia Elisabeth Fials) on it with the date of her conception to her aborted date and to her due date. I don't know how healthy it is for me to have that on my tree but I smile when I think about her. Another is an angel dancing with a little girl. When I saw that I thought about my daughter in heaven dancing with the angels. (A new hallmark ornament this year). Finally, there is another angel holding an infant. I bought it 2 years ago but per it holds a special meaning to me.

6) How has your abortion affected others in your life? For those who know what actually happened, they support me and love me, resent and hate my ex fiancée, but yet rarely talk to me about it. The feeling is it's over so let's put it behind us and forget it ever happened. The thing is, I can't do that. I live with that regret every day. I find I don't have anyone to talk to about this because no one wants to talk about what I've done. On occasion, I am embarrassed and don't want to talk about it when I should be. Bottling it up inside me won't help anything but yet no one will say... how are you doing? Are you coping alright? I cry myself to sleep because no one else will cry with me. I know the few times my parents have spoken to me about it... they get beyond angry with my ex and my mother starts to cry when she thinks about her first grandchild being dead. She has said she feels horrible about everything that happens but keeps telling me I'm better off now that it's done. I guess I am in a way but I still can't seem to forgive myself for what I have done.

7) Based on your own experiences, what would you tell a woman considering an abortion? Think, learn your options before you leap, what other choices do you have and please... think about it for a week before you actually follow through with your decision... This is a quick fix with a permanent result that you MAY regret for a long time... the effects WILL affect you if not physically, but emotionally. You will think about your child everyday. Little things will make you cry. When you are suppose to be happy for your cousin or sibling who is pregnant.. you resent them for their ability to have their child. Just stop and think about what you are about to do because you can't turn back and change your mind.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Look at the situation I have gone through. This has ruined my life. If I was dying and pregnant and having an abortion would save my life... maybe... just maybe that would be an extraordinary situation but there are women who do this and don't think it will hurt them. They use it as birth control! This is such a wrong thing. There is such little education on what the other choices are for abortion. Adoption is just one choice. Educating the public should be where money goes to rather than a quick fix such as abortion. Life is precious and treating it any less should not be acceptable. I get sick when I hear about adults who kill their children by strapping them to their car seat and driving it into the lake (such as here in Illinois last year) or the woman who went nuts and suffocated her infant one night because he was crying too much... we prosecute these men and women. What makes an abortion any different? I had one and I feel as if I killed my own child. I DID in the end!! I have a hard time justifying what I did. It was so self serving, it makes me sick because that's not who I am. I help others. There is no excuse for what I did and I would never do it again... but as my grandmother said when I was little... "if you can't listen, you have to feel." They have tried to over turn the roe vs. wade decision for years.. Sooooo many have suffered because they didn't listen and now have felt the pain of the affects.. it's time to stand up and let people know what happens after you make the decision to have an abortion... IT WILL HURT YOU FOR THE REST OF YOUR LIFE. Please, consider the pain of millions. Not just the lost children but the lost life for the women who now suffer in pain quietly. I refuse to suffer and not let other women know about the pain it has caused me. If I make enough noise, maybe I will save at least one person.

5. Did anyone pressure you into having an abortion? yes

If so, who? The woman at Blessed Parenthood and the nurse + doctor at the abortion clinic.

6. How has your abortion affected you? I will always grieve for the child who had God's plan for her life taken away in such a horrible way. I don't know what dredged lies make up "a woman's choice" I am now working at a problem pregnancy center and will do all I can to uncover the lies and bring hope and answers to women in crisis situations.
7. How has your abortion affected others in your life? My sister can't talk or think about it. My daughters say they understand because of their hatred for the man who raped me. No one else knew until I went through counseling two years ago. Two months ago I told my wonderful husband of five years - he was shocked but forgiving, loving, & supportive. This is all I have talked about it besides director of P.P.C.
8. Based on your experiences, what would you tell a woman considering an abortion? I would encourage her to talk about her feelings of fear, helplessness, anger, etc. I would tell her the truth about abortion and then I would help her think of her choices to make the right decision for herself and her unborn child.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion brutally kills an unborn child - a child who at the moment of conception is a genetically unique one-celled individual containing a complete genetic blueprint that includes the chromosomes and 30,000 genes. The question is - how will that baby leave the mother's body; birth or surgically; alive or dead??

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, My doctor told me it was a quick No Pain Procedure, it would take approx 25 minutes and then I could go home. There's not a day that goes by that I don't think of my child and wish I hadn't had an abortion and I would have had and every since that day to date other people's problems from aborting and the effect of it. There's been ever last time even when you have the Grace of God it still is a painful and heartfelt loss for me personally. The following day after my abortion, I ASKED MY DOCTOR for a tubal ligation to prevent MYSELF from the abortion and MY heart only wish and pray is that I could change that decision. - 1) When and where did your abortion occur? MAY 1995 - Hope Clinic Granite City, IL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No one told me how much I would suffer emotionally after my abortion.
- 3) Were you adequately informed of the consequences of abortion? No.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? My family doctor
- 6) How has abortion affected you?
In 1996, I was admitted to the locked ward of our local mental hospital, suffering from major depression. I spent three weeks there. In 2005, I spent another week on the locked ward. Both times, I was suicidal.
I know now there is no such thing as "therapeutic" abortions. My Down's syndrome son, whom I aborted at 4 1/2 months, was a gift from God.
- 7) How has your abortion affected others in your life? Before my healing work, I distanced myself from others, especially my husband, the father of my aborted son.
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell her an abortion would change her forever. She will never know innocence again.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Legal abortion makes it easy to do something immoral - evil. It is this knowledge that halts post-abortionive women.

- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO, NO
- 5) Did anyone pressure you into having an abortion? If so, who? NO, I was scared to tell my parents that's all. Looking back that would have been so easy. Especially compared to the pain of what I have done.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: February 1997, Indianapolis IN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Not by the facility but out of my own personal knowledge
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes If so, who? my family, unknowingly, out of fear of disappointing them, I had an abortion.
- 5) How has your abortion affected you? In countless ways, I suffered from depression, anxiety, nightmares, fear of never being able to be pregnant again, I distrusted people, I was very angry, I stayed in a co-dependant relationship that was emotionally debilitating. I eventually sought counseling and found relief but to this day I deeply regret my abortion, I deeply miss my child, they were that I view my life is pre + post abortion and I am not able to remember / events in my life as well since the abortion.
- 6) How has your abortion affected others in your life? Initially it made them very angry at me and my boyfriend, they also went through a grieving period.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? This is not an answer to the problem, that this abortion will only cause further problems in her life, she will battle depression, grief, anger, loss. she could also downward spiral into a life of drinking, STD's, more unwanted pregnancy, and abortions.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? This act is an offense to our women. It is morally wrong, a barbaric, torturous act that murders children and causes women to suffer needlessly for years. Feminists of today should realize this isn't a choice, they should fight for the mental, emotional, and physical health of women and the children they are carrying. Life is precious and should be preserved. If abortion was illegal, I never would have had one. There is no good reason, ever, to have an abortion.

BEFORE ME, the undersigned authority, on this day personally appeared Kimberly A. Smith (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: February 13, 1987 Columbus, Ohio
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was not informed of the procedure that would be used, that there were different procedures for the length of pregnancy; that the Dr. would have to check the body parts, etc.
3. Were you adequately informed of the consequences of abortion? No - not at all; No consequences were discussed, physical, emotional mental, etc. They told me "You know its just a bunch of cells, don't you?" I didn't believe it in my heart.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? Not to my knowledge - No
5. Did anyone pressure you into having an abortion? No, however no one said there were any other options for me. I didn't know how I could make it with a baby and thought I had left everybody in my life down.
6. How has your abortion affected you? Emotionally I could not resolve my feelings for more than 11 yrs. I've experienced grief, shame, fear, guilt. I feel sick when I saw pregnant women or babies and just somehow the babies would know I'd allowed my baby to be killed.
7. How has your abortion affected others in your life? Yes. Because of the emotional pain I chose to live a life without emotions - never really feeling any feelings. This contributed to the divorce of my first marriage. I will probably never have kids because of this experience.
8. Based on your experiences, what would you tell a woman considering an abortion? That it is a painful experience that will be with her forever no matter what people tell her. It is not something children can be hard to raise but there are ups and downs of joy - even in adoption - but there is no hope, nothing positive, nothing that can be changed once your child is gone.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Women are still not being adequately informed as what this decision means for their life. Yes, we do have evidence through technology that even the youngest unborn baby is a baby and the court should recognize that we know more today than 1973 could consider the facts. The majority that this is to the child is overwhelmingly apparent.

- 1) Tell approximately when and where your abortion occurred: July, 1987
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no. I didn't know the physical, spiritual, emotional, and relational consequences of abortion
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? father of the child
- 6) How has your abortion affected you? The abortion occurred in the midst of a physically abusive relationship. Due to abuse, I had a self-concept based on shame. The abortion solidified this concept - that I was unworthy of love and I didn't deserve happiness because I participated in the murder of my child. I was severely depressed and had erratic menstrual cycles.
- 7) How has your abortion affected others in your life? When I finally confessed, my family was mournful. My husband and I struggled to conceive.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? To consider all of the ramifications of having an abortion - physical (short-term and long-term), spiritual (mental), emotional and relational.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? To consider both persons (woman and child). The child has dignity, worth (and citizenship) - as an innocent he/she should be protected by our law. Moreover, the woman faces consequences not known or pronounced in pre-abortion "counseling"

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I want to tell my story if it will help I am willing to be contacted!

When I was in my early twenties, I lived in Jacksonville Beach, Florida. It was a Navy town and there was no absence of men to date or sleep with. I was a nurse, had a decent income, and plenty of time for fun. Unfortunately fun came in the form of dating. That often involved sexual relations with the men that were available. At that time, AIDS was in its early stages of discovery, and the "worst that could happen" for the most part besides a few treatable diseases seemed to be the possibility of getting pregnant. That did not seem to be a problem as I was on "the pill". So I went about life with a somewhat carefree attitude, experimenting sexually with the men I dated. In 1985, I noticed symptoms that would have made me think that I might be pregnant. Though a critical care nurse, I believe I was still relatively naive. I saw a sign for a place called the Crisis Pregnancy Center that offered free pregnancy testing. I called and all they required was an early morning urine specimen. No problem. The next day, I rose early, and took my specimen to the address in Jacksonville, near the hospital that I worked at, signed in under a false name which I can not even now remember, and waited for the result. To me, a Crisis Pregnancy Center, would have been a place to turn to where you would receive help with your pregnancy, and truly, that is where I thought I was going. I did not realize until they told me the results of my positive pregnancy test, and escorted me into a room for counseling, that I realized that this was an abortion clinic. As a younger child, I had been raised in the Catholic Church to believe that murder was wrong and was an unforgivable sin. Though, I no longer attended church, I still believed that God would not forgive murder.

As I sat in the counseling room at that clinic, I was told that this was not murder. That I was not far enough along for the tissue in me to become a true "fetus" yet. I was encouraged to write down all the reasons that an abortion would be the best alternative for me. She helped me think of things. I did that!

- I didn't know who the father was for sure
However, I thought he was probably the one on the drugs that I wanted nothing more to do with.
- If so, the child would probably be born deformed
- I wouldn't make a good mother—
- How would I afford a child, daycare
- How would I find care for a child with the hours I worked as a nurse
- The child didn't stand a chance of a happy life
- He or she would probably end up as unhappy as I was
- Surely his life wouldn't be any better than mine
- Why bring a child into a world where so much misery abounded.
- A child would be inconvenient—It might ruin my chances of getting the Rehab job I was seeking,
- A child would ruin my life
- What would people think of me being pregnant and unmarried.
- No one would ever have to know that I was ever pregnant, especially since I had signed in with an alias.

Then the lady took the paper from me, drew a line down the middle and wrote three things down:

- Possibility of bleeding
- Possibility of infection
- Possibility of missing a day or two of work

Never was anything mentioned to me about the possibility of a link between abortion and breast cancer. We didn't discuss the emotional trauma that might be experienced. I was hesitant. But on the sheet of paper the pro-abortion side was definitely more weighted down.

The lady that was with me asked me if I had eaten yet that morning, and when I said no, she said, well, then we can take care of this for you right now. We have room for you on the schedule. She pulled out a stack of papers from the drawer and handed them to me to sign. When I said I wasn't sure, she told me that I was probably 8 or 9 weeks along and really couldn't afford to wait to make a decision. Besides, there was an ATM right in the building and I could get the money out of the bank and pay cash or I could just write them a check. There would be no record of what I had done because I had signed in as an alias. No time like the present.

So, I agreed to the abortion.

I sat in her office for just a few minutes before they escorted me to what was referred to as the treatment room. I was the only one there. I must have come earlier than all the other scheduled cases.

I was placed in a hospital gown. My legs placed up in stirrups. The Doctor came in and said "OK, we are ready to start, I am going to just put this tube in you and clean that mess out. You might feel a little discomfort." I started to protest. I started to stop him. He said. "We have a full day today, and we are working you in ahead of everyone else. Make up your mind." So I shut up.

He inserted the tube, turned on the machine which did sound just like a vacuum cleaner, and I experienced the most intense pain in my abdomen. I remember screaming out for him to stop. Of course it was too late. He calmly said "It's almost over.". Within a few minutes he was done. My legs were helped out of the stirrups and I heard him tell the nurse that if I had no significant bleeding, I could leave in a couple of hours.

As I lay there, separated only by curtains, from other women that were being escorted in, I listened to their screams, and the sound of that vacuum over and over again that morning. I realize that there could not have been more than 5 or 6 beds in that clinic, but the sounds of those women and the sounds of that machine have haunted me ever since. I can hardly stand the sound of a vacuum cleaner or the whine of construction equipment to this day! That night, as I suffered excruciating cramping and moderate bleeding, I wondered if I would bleed to death. I realized that I had killed a baby at that point. I knew without a doubt what I had done was wrong, and that knowledge and guilt and the shame of what I had done followed me ever since.

I have spent the last 23 years of my life regretting that fateful day when I wanted to get a free confirmation of the pregnancy that I suspected. I realize that the decision was mine to make and I could have said no, but I do also think that had I been given more time to think about what I was doing, and not given time pressures, my decision may have been different.

I do know that the outcome of that day has affected the rest of my life.

For one, I quit dating for the next few years. I did not have sex again until I started dating the man that is now my husband, and I have never, ever received any pleasure from sex since then. I can not enjoy the act of sex.

I have nightmares about the abortion procedure, about the child that I aborted and about the father of that child coming after me.

I have two beautiful children now, and as I love them, yet I often mourn for the child that never was.

I fight depression and tears on a regular basis.

I have fought anger and bitterness, I have uncontrolled flare ups of anger that come without warning, and I lost my job last year due to that.

I have lived with guilt and shame.

Until recently, I never told anyone about the abortion. It was this deep, dark secret that I could not share with anyone. So, I never made an effort to get to know people, because I was always afraid that I would be found out.

I have felt unworthy to be befriended by anyone because of my shame.

The decision to marry my husband was very much based on the fact that I knew that he had paid for a previous girlfriend to have an abortion, and so, I felt he could never hold it against me.

And the worst thing of all is that I have spent the last 23 years fearing the wrath of God! Obviously, I could not have all these repercussions from that one fateful experience in my life without it affecting those around me. My children have had to walk on eggshells at times not knowing whether this would be the time Mom would flare up in anger, or cope with a simple situation. My husband has had to deal with my being emotionally removed from him, never really loving him, and honestly, faking the enjoyment of sex with him. He has had to deal with a marriage where sex is avoided. My co-workers, too, have had to deal with my episodes of anger.

Thus, based on my experiences as what I would call a victim of abortion, I would never recommend that any woman, anywhere have an abortion. The long term effects of abortion in my life are a testimony that not only is abortion an atrocity to the child, but it is a long term threat to the health and well-being of the mother.

I am living proof of the long term emotional ill-effects of abortion on women.

I have read the above and foregoing statement and the same is true and correct.

Before me, the undersigned authority, on this day personally appeared Holly J Maxwell, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Holly J Maxwell (Print Name). My address is [REDACTED]
My telephone number and e-mail address is [REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

July 1989, I was fourteen, I found out that I was pregnant. A few weeks later I went to an abortion clinic in Indianapolis, In. I was 13 weeks pregnant. Since Indiana, at that time, only did abortions up to 12 weeks, they referred me to an abortion clinic in Dayton Ohio. By the time I was able to get there I was 16 weeks pregnant. It was a 2 day procedure. The first day, they took blood, did an ultrasound, and told what they were going to do. Which was, they would go in that day and insert into my cervix something that looked like a small tampon. It would swell and ~~enlarge~~ open my cervix. They told me some women felt fine afterwards were good enough to go go-cart riding. I went into the procedure room and they inserted the sticks. I immediately started ^{cramping} cramping. My mother was at the clinic and sometime that first day she paid for the abortion. We then went to a hotel at which we were given a coupon for but was included in the abortion cost. I cramping all night and I throw up several times. I could

lyn

hardly eat that night.

The next day we went back. There were some people outside handing brochures to girls and saying abortion was murder and it was not to late to stop it. Fitz One of the women even said she had one (an abortion) and said that it destroyed her. We continued inside. I went into the procedure room. That is when they performed the abortion. They gave me laughing gas for pain. Somewhere in the abortion they gave me a shot in the leg. after it was all done they told me to get dressed and put on one of their pads. I was to go into a recovery room where several other women ~~was~~ were at. I remember one of them crying saying it hurt so bad. They made me change my pad every 15 mins. in front of them for half an hour. after I did that I could wait out with my mom. when I was out there I told her of the lady crying. Her mother over heard me and said the her daughter had to go through it twice because the first time the doctor did not get it all and she got an infection in her tubes. after 2 hours of waiting I was able to go home. The next day I went to school and I started coming near the end of the day so I went home. I thought that was the end of it.

The years following I turned to drugs to numb myself of all I had been through. Once when I was 16 years I thought about suicide, it was an easy out. I figured it would end my pain. I had the knife

(2) In

up to my wrist and started to cut. I thought what would my mom do without me. I stopped and called a friend.

When I ¹⁶almost ~~became~~ ¹⁷ I meet my present husband. I got off the drugs to be with him. He tried to take away the pain and he did the best he could. In 1997, four years of marriage, and after trying to have a child through artificial insemination with no luck I began to think God was punishing me for having an abortion. I cried myself to sleep every night for almost a year begging God to forgive me. We started going to church Jan 98. I talked with my pastor about what had happen. He referred me to PASC (post abortion class). It helped me to receive God's forgiveness but not to forgive myself. I still had a hard time talking about it. In the summer of 2001 (I do believe) I seeked more counseling. I went to a counselor on the Northside of Indpls IN. He helped me to forgive myself and others related in the abortion. I still grieve for my child today.

I have read the above and foregoing statement and the same is true and correct.

January 3, 2003

To All Interested Parties:

The following is submitted for use, in whole or part, as testimony for the express purpose of hoping to overturn Roe vs. Wade; and at the sole discretion of Texas Justice Foundation principals. To wit:

I considered myself far-removed from feminist lifestyle and attitude of the mid-70's: I was a working wife and mother of 2 beautiful, tow-headed children, a son aged 5 1/2, and a daughter aged 2. I was living the American Dream by all outward appearances: new home on a safe cul-de-sac, 2 cars and assorted toys in the garage, a poodle in the backyard. Everything and everyone color-coordinated. I couldn't imagine being happier, healthier, or more content, until...

I found out I was pregnant again. And quite simply, I viewed this as if some rude interruption in my ordered, perfect life. Little did I realize that I had indeed assimilated the I-Me-My mindset of the world when I chose to halt the pregnancy. All I know was that I'd rationalized I didn't want more responsibility; I didn't want my life to change; I didn't want... After a few weeks' alternate tearful and contentious discussions with my husband, he finally relented under objection to my request for a now-legal abortion at the most respected OB/GYN clinic in Fort Wayne, I never gave a moment's thought to the possibility that anything could go wrong, or that there might be (even a hint of) repercussion. In His infinite justice and mercy, God had other plans for me.

The procedure was performed in an ultra-modern, sterile environment. Darkly quiet, the only intermittent sounds were the somehow disconcerting-to-me hum of the motor powering the suction device, and the short, forced-light conversations between the nurse/technician and Dr. Ramaprakash. I don't remember either person looking at my face as they addressed me on the few occasions of giving me a directive, or to announce the next step(s) prior to their rapid progression. It was, of course, just an expensive, but run-of-the-mill and perfunctorily-performed D&C, right?

I left the Duemling Clinic as quietly as I'd arrived, with chin tilted toward my chest at just the right degree, not wanting to run the risk of having to acknowledge any known acquaintance. I'd told no one of my predicament or decision, supposing this, the media's much-heralded 'choice', afforded me quality care AND near-anonymity...even with God! (whose Name I'd spoken thousands of times, without conviction or heart as a youth).

There was no follow-up visit required or requested. I went home to go about life just as before. But I felt some trepidation after 3 weeks, about my continuing to pass blood, like a continuous light menstrual cycle unable to cease; and the near-daily presence of small white specks or slivers of... what? The nurse fielded my call, and after having conferred with Dr. Ram, gave my inquiry a wait-and-see dismissal.

Three weeks later, as I stood before the bathroom vanity brushing my teeth

as one of those things I always did before easing into the evening bubblebath I'd already drawn, I felt a sudden gush, an overall warmth as if bathwater was pouring down my legs(!) and an immediate light-headed dizziness. I quickly leaned forward, holding onto the sink counter's ledge to keep from swaying; and lowered my head to try to regain my equilibrium. But upon looking downward I saw the blood that covered my legs and feet and, oh my God, the entire floor. I screamed in terror, never having seen so much blood in all my life. And in that instant of recognition, I knew that no one could survive so much loss of blood.

I must have fainted because my next memory was is of lying on the floor in the blood, and 2 paramedics trying to lift me through the narrow bathroom door to position me onto a gurney in the hallway. As they started to wheel me out of the house, I saw my children seated on the family room sofa, wide-eyed and unspeaking; just staring at me. My father, obviously having been summoned by my husband after calling for E.M.S., stood near my children as if their silent protector, all the while gazing at me with what can only be perceived as that awful sadness-pity mix one can't help but wear at a loved one's deathbed watch.

As I was being wheeled through the kitchen and living room, I whispered to the paramedics and my husband that if I wasn't going to make it, I had to say goodbye to my children. Without answering me directly, one paramedic told my husband to let the children come and say goodbye to me. I construed those words as a confirmation of my imminent death; and silently thanked God that my children wouldn't have to witness it. Somehow I was able to summon the wherewithal to smile and tightly hug each child, telling them how much I loved them. The moment they were carried into another room, I started shaking uncontrollably; and remained in that state of shock for the duration of the transport to the hospital, and transferral to the emergency-room examining table.

Momentarily I was met with a smiling face and the soft voice of one of Dr. Ram's associates - I don't remember his identity, I'm sorry to say. He examined me slowly, gently; oh so carefully explaining that the bleeding had stopped, would not resume, and that most assuredly I was going to live. He instructed me and my husband who stood beside me holding my hand, that Dr. Ramaprakash would perform a regular D&C the following day. It was then that I came to the terrible realization that the little white specks amid the tiny flow of blood those 3 weeks had been my aborted child's bone and cartilage left behind by both the suction hose and the doctor's curette.

We were never billed for the latter procedure. Nor did I ever seek further medical care from Dr. Ram or anyone known formerly as Morey, Smith, Lampe Associates. And this is the first occasion I've shared all the details of that nightmare.

It was nearly 2 months later, when I thought I was healed, and been able to successfully push the memory of the abortion and its aftermath from my consciousness that I received a vision and an admonition from the Holy Spirit, convicting me of the unspeakable horror of what I'd committed in arranging the death of my own innocent child. I went through the motions of living for nearly a year, pulling a pushcart overflowing with guilt, remorse and worthlessness...until a woman of astute spiritual discernment befriended me and told me about the Jesus Christ I'd never really known; and the incomparable gifts of Grace and Forgiveness. With a compelling unlike any I'd

experienced before or have since, I became like a little girl again... I took a pencil and a piece of my son's school notebook paper from his desk; and wrote down every sin and shortcoming my memory bank would spill out. I then took my daughter's red crayon from among all the others in her precious carrying case, and drew a large red cross over the list. And when my family was all still occupied elsewhere I knelt beside my bed, placed the paper before me as if at a holy altar, and with tearful contrition, asked the Lord to lift all those unholy burdens from my life, forgive me, and to replace them with Him. He did. And my life was forever changed from that moment of incredible release. Hallelujah!

It has been nearly 30 years since that day, and circumstances have led me to live in 9 different states. Into every new town or city I've gone with a resolve not my own, to find the local abortion clinic to quietly picket. And to every local newspaper, to whom I have sent letters of protest like the one enclosed. Sometimes I will be met with hollered derision, obscene gestures and twice, near-misses with car bumpers as I re-trace steps on sidewalks. Sometimes (and I praise God for them) I exult in the honks and thumbs-up of other passersby. Whenever I write anything for the newspapers, I can always count on two things: Some respondents will give a measure of confirmation in encouraging or like-minded words; or *the other kind*, the ones who accuse me of wanting to turn back the hands of time and deliver womankind back into the hands of back-alley butchers. I can't number the times I've been asked if I would really force my own beloved daughter to carry to full-term a child that had been conceived by rape. We, all of us who call ourselves Pro-Life, know the myriad arguments and put-downs I've had to buffet myself from through prayer...and I won't be deterred, any more than all the others, as long as I have breath!

Thank you Lord and Savior of all, for counting me worthy of being lifted from that former futility, the falseness of self-worth without You. Amen and Amen.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. There was a lump found in

4) Did anyone pressure you into having an abortion? If so, who?

Yes, my boyfriend, he made me

5) How has your abortion affected you?

Depression, Suicide attempt, a second
abortion with no future (miscarriage).
Two more miscarriages and Counseling.

6) How has your abortion affected others in your life?

My kids do not know. My ex-boyfriend
is sorry. My husband wholly understands
my grief. My Mother is shocked.

7) Based on your own experiences, what would you tell a woman considering an abortion?

That there are real choices. Abortion
is murder. I would give a life sentence
to bring back my daughter and son.
I would give her the necessary information to
protect the life of her child.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I would encourage a court to realize
that abortion is legal, and because of
that I had no choice to protect my

I would not have had an abortion

Legalized abortion is not a choice.
It is a sentence to life imprisonment

Before me, the undersigned authority, on this day personally appeared Nicole L. Cornett, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Nicole L Cornett (Print Name). My address is

 I am over

the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was 14 years old when I suddenly found myself pregnant. I had not given much consideration to the risk of pregnancy. I had been involved with my boyfriend sexually for only a few months and we were living together. My mom told me I needed to have an abortion when I told her of my pregnancy I was going to ruin her life and mine too. My only knowledge of abortion was that a friend of mine had had one. She seemed to be OK. I really did not consider abortion at the time but it had been introduced as a way out. She said I did not have much time to make up my mind only up to 12 weeks. One night as I layed in bed alone while my boy friend played cards with our rent money and drank with his friends, I began to consider how this was going

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

to turn out and to realize I was all alone with no one to support me. I became angry with my boyfriend. he drank and had a terrible temper he beat me up and said horrible hurtful things to me. I decided I could not go through with the pregnancy. I really do not remember much after I made the decision. I do not remember what my boyfriend or parents said. I know his Mom was upset. My mom and Dad dropped me off at a hospital in Glendale, Calif for the procedure and paid for it. I was alone in the room and as the nurse was preparing me for the procedure I began to have fears, second thoughts, she said I would be ok. I had made the right choice, everything was being made ready and I could not change my mind now. I am not sure did I really remember anything of the

procedure itself. I think I remember a doctor, a room and a machine. I do not remember receiving any anesthesia but I do not remember any pain either. I do not remember leaving or who picked me up. I do know I went out to dinner with my boyfriend and his brother that night. His brother said he could not believe what I had done - I don't remember my response only that I heard a baby in the restaurant cry and I can still remember that. I never returned to school after my abortion. My life became drugs and alcohol. I do not remember grieving my baby, but I did get pregnant again a few months later and planned on keeping it but I miscarried. I also became promiscuous and when my boyfriend went away for several months I had

lots of boyfriends. When he came back I got pregnant again and even though no circumstances of our relationship had changed I carried the baby and had a daughter when I was 17. I finally ended my relationship with this man when he tried to kill me. He continued to stalk me and threaten me until I became a Christian and accepted Jesus as my Savior at 19 years of age and finally he was gone. And I was forgiven I could not believe Jesus could actually love someone like me. Unknowingly my abortion continued to haunt me and after I married and was unable to conceive it reappeared. I felt that God was punishing me by not allowing me to have children. I was so desperate to replace what I had destroyed as I became depressed - suicidal at times

I struggled spiritually and lost all desire to live. God spoke to me to choose life but I did not want to. Eventually we tried IVF which I thought was wrong and it too was unsuccessful.

After agreeing to give up on a baby I became pregnant with an ectopic pregnancy then a out of the uterus pregnancy and finally another tubal pregnancy. After rejecting the possibility that God loved me at all since he allowed this to happen to me and walking away from my faith for 3 years I came to the end of myself and asked Jesus to take me back. He restored me and began to rebuild me and in August of 2001 a Director from the Crisis Pregnancy Center came to our church and gave her testimony and the weight of my abortion suddenly came down on me as all the

walls I had built to hide my secret fell down. I attended the Counselor Training and publicly confessed my abortion for the first time, over 27 years after the fact. Scales fell from my eyes and I realized why I had been so desperate for a child. I also came to realize that even if I had been able to have children, it ^{they} would not have replaced my lost baby. Abortion is deceit, it is robbery, it is not a choice. In order to make a choice you need to know what you are choosing and what the consequences will be. I was only 14 years old with no concept of what I was doing but I can say I knew what I had done was horribly wrong as soon as I had done it. Abortion was not a solution.

to my unplanned pregnancy
it was the beginning of
misery. That only faith
in Jesus Christ and belief
in the forgiveness and
the grace of God can
redeem. As women we
are created to nurture and
love the lives we have within
us. This is in our heart and
soul our being when we violate
that we have gone against
everything we are and violated
something so vital apart from
God there is no healing for it.

I have read the above and foregoing statement and the same is true and correct.

AFFIDAVIT

The State of Indiana
County of Hamilton

BEFORE ME, the undersigned authority, on this day personally appeared K [REDACTED] L. B [REDACTED] who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

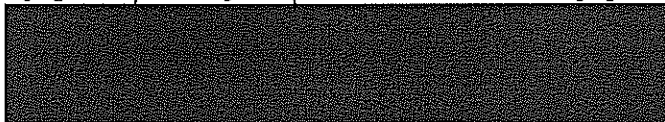

- 1) ~~Tell approximately when and where your abortion occurred:~~ My first abortion was in 1976, The abortion was performed by an OBGYN in the Bloomington, IN hospital. The second abortion was in 1977 and was performed at a Planned Parenthood Clinic in Indianapolis, IN.
- 2) ~~Were you adequately informed of the nature and consequences of abortion, what it is, what it does:~~ No, absolutely no information was offered to me that I recall on either abortion. I was young, naive and very scared, so didn't think it important to ask any questions.
- 3) ~~Were you informed of any link between abortion and breast cancer? Have you had breast cancer?~~ No I was not. And no, I have not had breast cancer.
- 4) ~~Did anyone pressure you into having an abortion? If so, who?~~ No, no one pressured me. It was my choice. I felt at the time that my difficult circumstances didn't offer me any other choice. I didn't want to live with the consequences of my decisions. Now, however, I see things very differently. I was too young and uninformed to be able to make a good lifelong decision.
- 5) ~~How has your abortion affected you?~~ Thankfully, to my knowledge, I have not had any physical consequences to my abortions. However, I suffered tremendously on an emotional and spiritual level for many years. I dealt with my abortion decisions by becoming emotionally numb, and eventually became incapable of attachment even in my relationships with my husband and my two daughters. I had violated my personal moral standards and therefore felt worthless, tainted, unworthy. I continued to make bad decisions that hurt not just myself, but my family, in an effort to escape the guilt and emptiness.
- 6) ~~How has your abortion affected others in your life?~~ For far too many years, I was emotionally unavailable to my young children and my husband. My feelings of unworthiness and inability to give and receive love cost my family a tremendous price. A price, had I known, I would not have been willing to ask them to pay. I continued to make bad choices in the years that followed that created a lack of trust, love and intimacy in our marriage. We were a fractured family for many years. Our marriage suffered and our family suffered because of our abortion decisions.
- 7) ~~Based on your own experiences, what would you tell a woman considering an abortion?~~ Abortion is not an "easy" way to erase poor choices or to avoid unwanted consequences. The unfortunate truth of abortion is that we don't get to determine how this decision will effect us, or if in fact it effects us at all. When you are facing an "unwanted" pregnancy, all the options are difficult, the truth is there is no "easy way out." So please don't make a decision for abortion believing that it's a quick, easy fix. There are better options that won't leave you regretting for a lifetime a decision that you cannot possibly take back. There is tremendous potential for serious physical, emotional and spiritual harm, consequences that can scar you for a lifetime. You do have other options and there are many people, churches and organizations that are willing to help and support you and your family in this decision.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? The information the courts used in order to create the law and uphold the law since its formation is based on lies and half-truths. The two women whose life situations these laws were based, now see the truth about the harmful effects of abortion and they themselves are fighting to reverse the law, that should speak louder than anything. There are numerous statements of "fact" that have been used to support abortion as a legal right. One of the points of persuasion for legalized abortion has been "women have the right to make their own choices regarding their health and future." I completely agree with this statement. But it is also my right within that context to be told the truth about abortion, all of the truth, and nothing but the truth. I should be able to confidently rely on the abortion provider to give me that truth, no matter how my ultimate decision affects the provider. Why, when a woman is given an ultrasound before her procedure, do they turn away the monitor so as to not allow the woman to view what in the context of a "wanted" pregnancy the woman sees as her baby; this "blob of tissue" has hands, legs, eyes, a functioning brain and heart? Why are the potential physical and emotional risks minimized if talked of at all? You have no idea the emotional pain and turmoil I experienced when I saw during my "wanted" pregnancy what that "blob of tissue" looked like at 6-8 weeks, when I terminated. I have the right to know and to make an informed decision that I can live with for a lifetime, this is my most basic human right. The law was supposedly created to protect women, their rights and health. Abortion in no way protected me physically, emotionally, or spiritually, in fact that one decision nearly destroyed my life. It is the court's obligation to hear all the facts, even those that are contrary to the "voices of power."

"I have read the above and foregoing statement and the same is true and correct."

- 1) Tell approximately when and where your abortion occurred: May 1985, Abortion Clinic in Grand Forks
 - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No It NO. Was very impersonal. The doctor asked for the money. Approx \$275.00 and then had me lie on a table and leave right after the procedure. I was only 16 years old.
 - 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? old.
 - 4) Did anyone pressure you into having an abortion? No If so, who? _____
 - 5) How has your abortion affected you? It has damaged my soul in a way that can never be healed. I was a young scared girl who got pregnant at 16 years old. I panicked and when I contacted a hospital in Canada I was told I needed parental consent. My parents were going through a separation and I didn't want to burden my Mom so I was given the name of an abortion clinic in Grand Forks, N.D. who would do the procedure, no questions asked. I just wanted it to be over and told myself it wasn't a baby. I just chose not to think.
 - 6) How has your abortion affected others in your life? My mother just cried when I told her what I had done. She said if only we could have talked about it. Maybe things would have been different.
 - 7) Based on your own experiences, what would you tell a woman considering an abortion? Having an abortion is not the easy way out. You can run but you can't hide. Maybe for awhile, but not forever. The pain and the reality of what you did will come. Find you maybe 10 or 20 years later but it will come and when it does, look out. Don't do it to yourself or your baby. You are worth more than that and you are loved.
 - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? It's easy to think that we are not really killing babies. I know. I felt the same way. But no one will ever convince me that the beating heartbeat of a 7 week old embryo is not a baby. I seen it I felt it and I watched it grow. Medical technology helps us sustain life all the time and we are given medicines to help us live. A embryo is given a mother's womb.

1) Tell approximately when and where your abortion occurred:

I live in Canada but was unable to have the procedure done here so I went to a clinic in Grand Forks, N.D. on Jan 19, 1987.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

The only thing I was aware of at the time was that I was terminating an unwanted pregnancy. I was a Christian, so I knew it was wrong but was never informed that I was actually ending the life of my baby.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No, I was not informed about the link between the two. No, I have not had breast cancer.

4) Did anyone pressure you into having an abortion? If so, who?

No. It was a mutual decision.

5) How has your abortion affected you?

For years I struggled with guilt, depression, feeling unloved, low self-esteem. Just seeing babies made me feel guilt and brought back the pain. I also had an ectopic pregnancy which almost killed me later on, due to scar tissue in my fallopian tube and ~~had to have~~ as a result of the abortion and had to have life-saving surgery in which one of my fallopian tubes was removed.

6) How has your abortion affected others in your life?

I have a hard time being a loving person to my family because I spent so many years purposely numbing myself to my feelings that I became uncaring to everyone around me.

7) Based on your own experiences, what would you tell a woman considering an abortion?

I would tell her that abortion kills an innocent life, that the consequences do not go away, it is not a quick fix, and she would have to live with the pain of those consequences for the rest of her life.

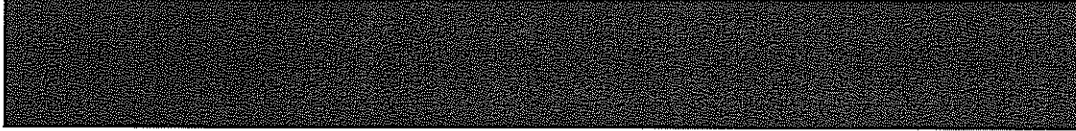

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is not legal; therefore abortion should not be legal. They are the same thing. I've had ultrasounds that show babies' heartbeat & movement at a very early age, that is a wonderfully created, living human being from the moment it is conceived. Dear Gueta:

It was so nice to speak with you. First, I thank God for you, Operation Outcry and the initiative you have made to encourage women like me to come out of the closet and share the pain and remorse abortion brings.

For over 15 years now I have been sharing my horrid abortion testimony publically in order to expose the damage, warn women of the dangers and save tiny babies created in the image of God. It sure has been a difficult and emotional road, for years I have been praying that God would raise up multitudes of other women to ALSO share their remorse and proclaim the truth that abortion always has at least two victims.

With more and more studies now confirming the fact that abortion causes depression, suicides, infertility, cervical and breast cancers and premature births in future pregnancies, we must be on the front-lines teaching and warning young women of all of the risks and declare the humanity of the pre-born.

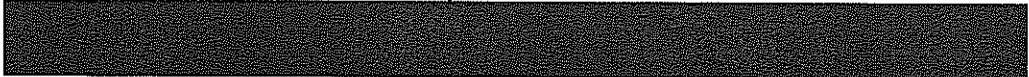

The two greatest lies promoted in this generation is one, that it is a "safe" procedure, and two, it is not a "baby"...together with one voice dispelling these lies we can stop this holocaust.

May God bless, strengthen and prosper you all, and may we be a voice shouting down the goliath of abortion on our continent as living stones in the mighty name of our Lord and Saviour, Jesus Christ of Nazareth.

As requested please find enclosed my Affidavit and some details regarding the events of my horrible abortion experiences. Please note that like thousands of other Canadian women I had one abortion in Buffalo, New York, and thereby feel a connection to your country.

Sincerely,

Denise Mountenay

Before me, the undersigned authority, on this day personally appeared Denise Mountenay, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

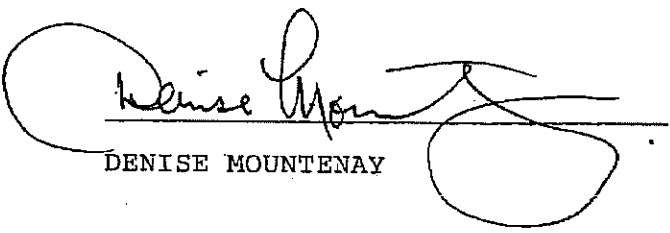

My name is Denise Mountenay (Print Name). My address is [REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

After being raped at the age of 13, I turned to alcohol + drugs + under the influence I became promiscuous. My first boyfriend got me pregnant when I was 16 years old + he tried to deny he was the father. My Mother encouraged me to have this "operation" + go on with my life. The gynecologist never explained anything and I was asleep during the abortion. About 10 years later I was again pregnant and feared losing my boyfriend - I even asked my doctor, DR. FRED FREDERICKS what was developed? He took a pen + piece of paper and put a dot on the page and told me it was "nothing" + just a clump of tissue. HE LIED, as I later discovered. This abortion was done with pressure from my Mom + girlfriends + so I thought well - if the government think its OKAY, + the doctors + my Mom + friends - it must be OKAY, This abortion was done in a "clinic" while WIDE AWAKE - it was the most horrible - excruciatingly painful experience - like being raped again. I got an infection from this abort in a Buffalo, NY clinic. Quickly I spiralled into depression + despair + drugs + alcohol. I barely remember my last abortion. Now I am speaking out to WARRIOR women of the breast cancer clinic + try to save perfect healthy tiny babies. God help us!

P.S. Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Fall '77 Iowa City, Ia. "Cherie for Women" (a house) (didn't drive myself) Spring '82 Omaha, Ne. PP
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO I thought it was an answer to a problem, instead it made everything much worse. I was afraid, had no one to turn to, had no faith in the future, had no self confidence and was a victim as much as my children.
3) Were you adequately informed of the consequences of abortion? NO Abortion is a sin against God against all mothers & fathers, family, humanity. It is a holocaust abuse of women and children. It is a perpetual weight of wrong.
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO I am at risk, had a benign tumor I could have, don't go to the doctor.
5) Did anyone pressure you into having an abortion? If so, who? YES, psychiatrists, social worker my mother, boyfriend, friends, even a minister at the first intake the money was borrowed. On the second it was "decided" for me.
6) How has your abortion affected you? I have lived daily with grief, shame, loneliness, anger, sadness. I've been hospitalized with emotional problems yet believe the psychiatrists have refused to document. I have a fear of doctors.
7) How has your abortion affected others in your life? My son will never know his siblings. My parents will never know some of their grandchildren. My brothers will never know niece(s) or nephew(s) They don't tell me their feelings.
8) Based on your own experiences, what would you tell a woman considering an abortion? God loves you and your baby. You will love your child and be able to do what's best for the child. Someone cares about you! This infant is a part of you. Death is not the answer. The only sane "choice" is life.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? Think of a mother's heart. It should not be legal to kill human babies. Do you wipe away the Iowa is experiencing a shortage of workers. The children are innocent and have the potential to contribute to society. Adoption would be better. Abortion destroys faith and family. It will make you feel dead.

- 1) Tell approximately when and where your abortion occurred: 1995 Iowa City, IA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? in the strictly medical sense yes however I was not informed of any consequences and I was not told that I was killing my child
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who? not directly but all the doors were held wide open for it while no other alternatives were even mentioned
- 5) How has your abortion affected you? it has caused me much emotional distress, grief, depression, regret, shame to realize the full implications of what I did and that it affects not only me but my marriage, my other children, my parents and in laws and my siblings. We have all lost someone who cannot be replaced. I have deep regret
- 6) How has your abortion affected others in your life? see above
- 7) Based on your own experiences, what would you tell a woman considering an abortion? it's not an eraser, you can't erase a person because they are going to be a burden to you. You will be immeasurably better off with the child alive than dead
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? right now it's way too easy to get an abortion, it is doing great harm not only to children, but to women and men as well. - 1) Tell approximately when and where your abortion occurred: 1985 - Warren, Michigan
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was given a pregnancy test, told I was pregnant, but that it was only a blob of tissue, they would use a vacuum type procedure to remove it.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? Never tested

- 5) How has your abortion affected you? Emotional pain, depression, angry at those responsible, lots of guilt, no body to talk to and understand all that happened. They give you the abortion, a drink & some rookies then send you home not telling you all the physical & emotional problems that will come. You're expected to just go home and act as if nothing happened.
- 6) How has your abortion affected others in your life? My family lost a member (granddaughter niece, aunt, sister.) They didn't even have a choice.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? It is very wrong. Don't do it. There are so many right choices, adoption, keep the child, get help from family. Taking a life is wrong.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is wrong, it hurts innocent children, never giving them a chance at life. It also hurts women, young too. It's something you will regret the rest of your life. Please reverse your decision to make abortion legal. It's not the right choice for anyone.

1. Tell when and where your abortion occurred: January 1990 in Colorado Springs, CO when I was 16 years old.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was not given any information specific to what abortion does to a fetus. I was only given information about the procedure itself.
3. Were you adequately informed of the consequences of abortion? I was given a form that stated normal complications that would be given to any biological patient.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? Not yet, but I fear for this to happen
5. Did anyone pressure you into having an abortion? No, but I was asked leading questions that led me to believe it was my only option.
If so, who? _____
6. How has your abortion affected you? It has made me fearful to have other children. It has caused emotional trauma that cannot be explained in this space. More over I feel a sense of guilt that cannot be explained or anything.
7. How has your abortion affected others in your life? It has caused a painful estrangement with my father (who knows of the abortion & was against it) & myself. It will take years to fully heal myself.
8. Based on your experiences, what would you tell a woman considering an abortion? I feel again I would not do your choice now that I've gone through this. I would unambiguously say - DON'T.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should be legal for as many women as when they were illegal. But if there are more babies being killed, it's an "easy" answer to what is 1st perceived as a problem. However if I would be causing the baby to full term, these women would be able to give birth to them. I know and I will never be able to know it.

Difficult to bond with my first-born daughter for many years.
Depression from guilt, grief and shame.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? It will not provide the relief you desperately seek. Soon that relief will become long term regret. Once you give birth to a full-term live baby the feelings of what you had done earlier will flood your mind.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Have psychological studies performed to prove there are definite long-term consequences of abortion. Women deserve better than abortion!

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Nov. 1976 Keokuk, IA.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
yes - but only the physical aspects of abortion.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? But the doctor who I saw when finding out about being pregnant + saw how surprised I was, was quick to give me the name of a dr. who performed abortions.
- 6) How has your abortion affected you?
I was 33 yrs old + unmarried at the time, you have no idea how it affected me emotionally! I went back to work the next day, but it wasn't until the anniversary date of abortion that it hit me. I was depressed, cried a lot, I had counselling several times. It took me 17 yrs + lots of counselling before I finally got over the emotional trauma. Incidentally, I never did become pregnant again.
- 7) How has your abortion affected others in your life? My younger sister went with me that day. She has never even mentioned it again. My ex-husband later told my father against my better judgement. My dad never even mentioned it either.
- 8) Based on your own experiences, what would you tell a woman considering an abortion?
Consider all your options being I heard before going thru with it. There are so many couples who want children, but can't. But above all - don't dump babies in the trash or abandon them either.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion may be legal, but no one ever tells you about the legal right to abuse, pain, headache and self destruction.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

- 1978 - Madison Wisconsin 1981 - Iowa City, IA
- Tell approximately when and where your abortion occurred: 1979 - Iowa City, IA
 - Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No I was not informed at all of the nature or of the consequences of the abortion. In fact I was told that it was a blob of tissue and it would be easier + safer for me to abort than carry to term. At my 2nd abortion in I.C. Iowa I was even shown a firm strip of blobs of tissue.
 - Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No.
 - Did anyone pressure you into having an abortion? yes If so, who? boyfriend, peers
 - How has your abortion affected you? It has caused me to be infertile. It damaged me physically that I have had to have a hysterectomy. It has caused emotional pain, depression, anger, drug use, alcohol use to numb the pain. It has caused pain + heart ache in my marriage and family life.
 - How has your abortion affected others in your life? My parents do not have 3 grandchildren, my brother and sisters don't have 3 nieces + nephews. My husband can't have his own biologically children. It has changed my family history
 - Based on your experiences, what would you tell a woman considering an abortion? I would tell her that abortion will not solve her situation it will only add to her pain and problems. An abortion is final. You will never see your child again with adoption you have that option. It will also cause pain + scars for the rest of your life. Abortion doesn't solve the problem it only makes you the mother of a dead child.
 - Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal. It is medically unsafe for women. It physically damages women not to mention the emotional, psychological, and social pain and devastation it causes. Please reverse this decision that has destroyed women for 30 years now.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was never told of the risk of the procedure or of damage it could cause. I was only told it was just a blob of tissue. That it would be quick, easy, + safe. That it would be safer than carrying to term.

- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? My boyfriend
- 6) How has abortion affected you? It devastated my life. It affected me physically, emotionally, + spiritually. After the abortions I abused alcohol and drugs. I became very promiscuous. I hated myself so I thought no man would love me unless I gave them something in return. I tried to commit suicide 3 times. When I finally got married I had extremely difficult and painful periods. After testing they found I was infertile because of the damage done to my tubes because of the suction from the abortion procedure. The only 3 children I carried + ever would carry I killed. I had to have a hysterectomy at the age of 41. Abortion changed and effected my entire life. It has changed my entire families life including my husband + parents
- 7) How has your abortion affected others in your life? - My husband will never have his own biological children. My parents are missing 3 grandchildren. My family tree has been changed.
- 8) Based upon your experience, what would you tell a woman considering abortion? DONT DO IT. You will never forget your abortion and it will negatively affect you for the rest of your life. It is final and you can't take it back. Please make a different choice. Choose adoption.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It should not be legal. Roe has been bad law for that last 34 yrs. It has negatively affected our society. Not only have we killed millions of our productive society but we have damaged millions of women. It bad law and it is bad health care. Abortion is damaging to women, children, men, and society.

4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO to both questions
5) Did anyone pressure you into having an abortion? If so, who? NO myself mostly of fear, NOT able to go through with that. I had one, chose Birth Control
6) How has your abortion affected you? I had guilt on mostly the 2nd one + sat up with tears + said I just committed murder, after receiving Christ + forgiveness of all sin I am healed
7) How has your abortion affected others in your life? Not any evidence of this + FINE + fully forgiven
8) Based on your own experiences, what would you tell a woman considering an abortion? that I think it is a type of murder. Because based on the Bible psalms 139 says I knew you being knit together in your mothers womb. There is always guilt + condemnation
9) Based on your own experience, what would you tell a court that believes abortion should be legal? that it is murder and will have only negative consequences on the mother no matter what. Partial birth abortion is a real joke with the lie to save the mother when at that stage of pregnancy cesarean can be performed anytime for health reasons.

- 5) Did anyone pressure you into having an abortion? If so, who? No one pressured me, but no one discouraged me
- 6) How has your abortion affected you? I developed an infection immediately and I believe it then led to painful menstrual cramps. I was also depressed for several years
- 7) How has your abortion affected others in your life? It affected my ability to be a good parent and wife because of my depression. I was always angry.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her the facts of the procedure and what it does physically then I would explain the emotional effects. And then I would say "it's just plain murder." Don't do it.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Life should be held as precious and sacred and should be protected by the courts. AFFIDAVIT

Summy page 1 of 2

The State of Iowa
County of Benton

BEFORE ME, the undersigned authority, on this day personally appeared
Mary Lee Summy (Print Name),
who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: April of 1966 in Dallas, Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No. All that the abortionist explained was that the procedure would be like a doctor's exam and that it might cause minor cramps. She instructed me to follow the procedure with a lot of walking. She told me that in a few hours I would expel the "tissue" in a manner no different from menstruation.
- 3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?
No. No.
- 4) Did anyone pressure you into having an abortion? If so, who? Yes. My rapist step-uncle simply announced that he was taking me to someone who would take care of my problem.
- 5) How has your abortion affected you? The procedure hurt. Expelling the "tissue" hurt. Immediately after the abortion I became physically ill, lost weight, and unknowingly remained pregnant with the twin until the horror of a surprise, solo, six-month miscarriage. Confidential medical treatment occurred. Throughout life, I endured problems with irregular periods and bleeding, but couldn't reveal my history. On an emotional level I was lied about to my father and subsequently rejected by my father. Sheltered by a low self-esteem, I then spent thirty-three years paralyzed by fear of anyone ever finding out my shame. I was told the rapings were my fault and to forget the abortion, to "forget your mistakes and go on with life." I experienced frequent insomnia, nightmares of "the embryo" swirling out of sight in the commode, rape nightmares, hiding nightmares which included the commode scene. I married a good man, and with marriage I experienced a strong desire to replace my twins. I loved my three boys, but I felt punished because I didn't have any girls to replace the twins. I was socially inept, unable to go past surface relationships, unable to effectively communicate with my husband - a lot of desperate lying in order to avoid making decisions that might conflict with what I thought my husband wanted. At church I was known as the quiet Mary with a unique sense of humor (the self-defense mask). I was apparently gifted to write, but unable because I couldn't write from my soul and survive the exposure. I over-reacted with lava hate toward abuse and abortion issues, and then I shuddered back into cloaked darkness in my mind, not aware of the whys of my behavior and reactions to life. All of this greatly hampered spiritual growth because I avoided allowing Jesus to reveal my unrighteous issues.
- 6) How has your abortion affected others in your life? Although aware of my past, my husband was frustrated with my communicative skills and over-defensiveness. He was unhappy with our marriage for a number of years until we approached God for healing. Trust was devastated when I confessed lying about intimate enjoyment—due to false teaching and fear of rejection. Our marriage healed awesomely because of God's Grace, forgiveness, and healing. By God's Grace I couldn't tolerate abuse, so my three sons grew up with a mother who grew up with them. However, if they mistreated one another, an angry mother surfaced who screamed at them but seldom hit because of my hate for abuse.
- 7) Based on your own experiences, what would you tell a woman considering an abortion?
I've been there. Even though I was raped, I actually took those steps into the room with the abortionist. Even though I was a terrified and shamed victim, I owned a certain responsibility to the act of allowing abortion. God's Holy Spirit touched me during a hopeless moment and saved me from suicide. Even though I was religiously ignorant, I now know that the Holy Spirit gave me a sense of wrong-doing, a sense to pull away from abortion, a sense that I could endure life with pregnancy. I chose to endure life but, I allowed abortion - thus a life ruled by terror. Abortion is like the worst kind of rape to a woman's soul,

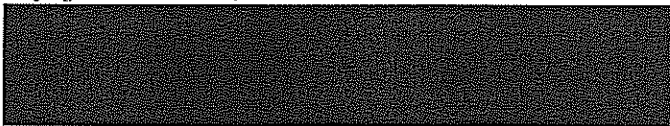

a soul darkened with ashes from the twin towers of emotional and spiritual collapse. Only Jesus could rescue me from that terrorist, but I had to seek God's intimacy to obtain forgiveness and healing. Alternatives Pregnancy Center in Waterloo, Iowa contributed to my healing process through a post-abortion Bible study. Before you decide, seek information from a local alternative pregnancy center to help you understand the technical aspects of abortion as well as potential physical, emotional, and spiritual effects of abortion. They will lovingly help you see through pressures to abort and help you understand your heart and what you want which may include a positive life through a pregnancy as an alternative to abortion. I fell to my knees when the ashes cleared and God revealed to me my twins as victims of my abuse (something I could not stand). You see, my aborted twins, Amber and Dawn, were created by God, the same as you and I.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? In addition to information above: Abortion hurts women's health contributing to and/or causing dysfunctional social and spiritual well being on physical, emotional, and psychological levels. Abortion is incompatible with our country's foundational concerns for value of human life, liberty for all, and the pursuit of happiness. Our country contains at least 34 million women misled into abortion since Roe vs Wade, not to mention unknown numbers who managed to find an illegal abortion prior to Roe vs Wade. Thirty-four million plus the silent unknowns add to our growing dysfunctional society. Informed women who wanted abortion before Roe vs Wade now affirm joy in not having abortion readily available—even rape cases who joyfully raised the resultant children or allowed adoption. Our country and this court were also founded on Trust in God. According to God's Bible, God knows each of us before we are even conceived. According to God's Bible, God formed our every detail in our mother's womb. According to God's Bible, God has plans for each of us. Therefore, our lives were known in God's time long before we existed, and a physical human life begins with conception. Is it any wonder that women and some men who experience the act of abortion unwittingly step into a life of spiritual confusion, a life of physical problems, and a life of some type of dysfunction? Does this court deny God? Is this court ruled by our founding father's God who is the only true God or by society's post-modern, spiritual dumbing-down? It's time to act now because every twenty-six seconds another woman adds more problems to her life through abortion. Every twenty-six seconds our country's social problems increase. It's time to seek God's healing for our country.

"I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion

occurred: June 10, 1981 in Santa City, CA

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No! I wasn't told of any consequences - just that an abortion was an opinion some

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No to both questions

4) Did anyone pressure you into having an abortion? If so,

who? I think I pressured myself & also, thank my dad and step mother did too.

5) How has your abortion affected you?

I became depressed, suicidal, & became cold toward to children. Also, because the abortion was incomplete, three days later I went to the ER (for excessive bleeding) and they basically repeated the abortion procedure (to save my life) and the anesthetic did not take.

6) How has your abortion affected others in your

life? I broke up with the father.

7) Based on your own experiences, what would you tell a woman considering an

abortion? That even though abortion looks like it will solve the problem of being pregnant (that it brings on a lot more problems that you can imagine. The emotional pain is greater than any good from a pregnancy.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

That because it is legal does not make it moral! That abortion causes a lot more problems for women.
