"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: '80, '88, '89, '90, '91, '92, '93, '96 Houston, TX

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was never adequately informed of the nature & consequences of abortion, what it is for, what it does.

3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? NO If so, who? it was not pressured but I was encouraged by family members.

5) How has your abortion affected you? Over the years up until 1997 I never would admit to ever having an abortion. I felt very ashamed and guilty for what I had done. I with drew into a state of depression, low self-esteem and alcoholism. I experienced an overwhelming sense of loss.

6) How has your abortion affected others in your life? My abortions did affect others in my life. They also experienced pain and loss.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would most definitely discourage her from having one. I would say that we are "peacefully and" wonderfully made, God has our substance, being yet "unborned", Psalm 139:14, 16 "And how a hope & a future" for you and your baby. Gen 29:11

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Your belief in the legality of abortion is the same as localizing that spare muscle. You're giving a doctor a license to (murder) destroy the life of an unborn baby. Are you as guilty of murder as the doctor who picks up the vacuum hose to insert it into the woman's womb to suck out the unborn by picking up your pen and agreeing to continue the legality of such destruction, such doctor?

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? yes/no If so, who? My boyfriend made it real clear that he did not want to have a baby. I also felt like I could not go home for help... I felt cornered.
- 5) How has your abortion affected you? It went with you later did I truly understand the magnitude of killing my child. I am the proud mother of 3 previous little girls ages 4, 3 and 1. I was not prepared or informed about the emotional trauma, the crying and the guilt and shame over having an abortion. Abortion is something you never quite get over.
- 6) How has your abortion affected others in your life? It has brought resentment at times with my relationship & my mother. Also the self loathing I feel for myself spills over into my relationships & my husband & girls.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is a tragic & traumatic exp. and you never quite get over it. When you chose abortion you think it's a quick fix... The reality is when you chose abortion and kill your baby, a part of you dies.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The abortion industry is a money making business. A lot of people would be out of work if women chose life for their babies. The Doctors & Nurses who willingly assisted me during my abortion process are nowhere to be found. They did not really care about ME... All they cared about was me choosing death.

BEFORE ME, the undersigned authority, on this day personally appeared MARIA BANKS (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1984 at a Phoenix, AZ Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
All I was told was that it was legal.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Planned Parenthood staff
- 5) How has your abortion affected you? There was an increase of self-destructive behavior regarding sexual activity, drugs and alcohol. I was irrational and full of fears. I would become overwhelmed and fall apart emotionally, but not knowing why. Ten years passed before I was able to admit to myself that I had killed my child and was able to grieve for him. After 13 years, I have given up hope of conceiving another child.
- 6) How has your abortion affected others in your life? My husband cried with me and said he would have my child. My stepson wanted to have a brother so much that he made imaginary ones. The hardest thing I had to do was tell him that I had killed the one that would have been his best friend.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Just because it's legal does not make it right. This child has a place in your life. That it will leave an emptiness in your life that no one else can ever fill.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? My choice was based on the wrong belief that if it was legal, it must be okay. I can honestly say that my baby would NOT have been killed by abortion, if abortion had not been legal. I do believe we all have a choice whether something is legal or not, right or wrong, but there must be consequences for wrong choices. The law that makes it okay to kill unborn children is deceitful because it is not okay.

AFFIDAVET

To be filled out by women who have had an abortion.

The State of Texas,
County of Tarrant

BEFORE ME, the undersigned authority, on this day personally appeared M A B who, being by me duly sworn upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make the affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: the year and place are correct - I'm unsure of the specific month - May, 1982 Austin, TX, February, 1985 Fort Worth, TX, April, 1987 Fort Worth, TX.
2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. The only information I remember being given in all 3 cases was strictly about the physical procedure, nothing about future emotional impact, health risks or alternative choices.
3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
4) Did anyone pressure you into having an abortion? No, it was totally my idea each time.
5) How has your abortion affected you? Having gone through the blessing of "Forgiven and set Free" by Linda Cochrane, I look back and realize that my most intense decade of self-destructive behaviors - bulimia, promiscuity, anger and use of marijuana were fueled by my suppressed inner guilt of having violated a most sacred and basic moral law. I chose that wicked legal procedure 3 times. I chose to sacrifice my children on the alter of convenience. I regret my choices.
6) How has your abortion affected others in your life? After I did them I told my parents and siblings. They are pro-choice so my decisions were acceptable. I never told my husband (now ex-husband) or in-laws. I remarried and my husband has been affected in that he and other friends were/are helping me deal with the guilt of my actions.
7) Based on your own experiences, what would you tell a woman considering an abortion? There's more going on here than the here and now. It doesn't end with the abortion. Now that I'm older, I regret my decisions to have an abortion. Life is dealing with consequences of what we get ourselves into. Our society would have you believe that abortion is no big deal and that abortion makes the problem go away. That's a lie. It's not "a problem", it's your baby. I know there would have been hard times had I kept my baby. Now I see I could have given him or her up for adoption. Looking back, when I killed my babies, I killed a part of myself and it is a void I am dealing with 20 years later.
8) Based on your own experience, what would you tell a court that believes abortion should be legal? I didn't think twice when I chose it 3 times because it was legal, I was selfish and ignorant. You say you're doing it to help women. Your law didn't help me. It hurt me deeply. If you want to help women, why don't you tell the truth about it - the whole truth. By your action, you're not even interested in the truth. May I remind you that you tell if a law is a good law by looking at how it turns out. Are you big enough to do that about this law? Research the data. Listen to us, "the ones who chose abortion" believing it was the solution. You speak much about freedom of choice. My "choice" was whether or not to have sex.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? As far as I can remember I know I must have been told something but I was counting on my mother to retain that then I answer any questions I might have had.

- 5) Did anyone pressure you into having an abortion? Yes If so, who? my parents, I guess they didn't want the embarrassment. There was a couple that had offered to take the child.
- 6) How has your abortion affected you? For many years I feel like I just blocked it out or never came to terms with what had happened. One day on a web site I saw pictures or graphs showing a partial abortion and I just went for so long. Even though I had not had this procedure I know at that moment I had lost something very precious. I gave my baby a name and prayed for forgiveness for my part in it all. The men just want what they want to be but if I would have to go back and change the ending of a I would not change the wonderful life I have now.
- 7) How has your abortion affected others in your life? Only my parents and that couple that wanted the baby.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? There are only regrets that come along with it, if the people at the clinics cared for you they would tell. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Fall of 1992 in New York
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I don't recall receiving any information about the risks or the complete details of the procedure. There was no mention or discussion of the fetus being a baby
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? my boyfriend did at the time. However, I fully agreed with him that this was the best solution
- 6) How has your abortion affected you? I have and still suffer tremendous grief and pain over the loss of my baby. It is often difficult to look at other children because I am reminded of the one I chose to have aborted. I am often angry and depressed. My choice so many years ago has burdened me and often feels like a deep dark secret that I am hiding from the world. The pain runs so deep and I struggle with the realization I can never change what I have done and bring back that precious life I so selfishly and wrongly took. I committed murder and I will have to live with this for the rest of my life.
- 7) How has your abortion affected others in your life? Not many people close to me know about it. My husband does and is often subjected unfairly to my anger. He doesn't understand. My mother is already
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please give serious thought to this before you make any decision. This is a life a human being created by God in his image. From the moment of conception all the DNA is present in this little life - determining who he or she will be.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? This is not an issue of a woman's right to choose what is best for her. This is an issue of whether or not a life will be killed or saved - an innocent life.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was informed of some of the physical consequences, but not what it was or what it did.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? YES
- 4) Did anyone pressure you into having an abortion? yes If so, who? Boyfriend/husband

5) How has your abortion affected you? I am very sorry for my choice. Now I realize it was wrong morally. I know I have been forgiven and I have forgiven myself. I do think about these babies and know I will be reunited with them in heaven. I am sorry I did not give them a chance at life. I wish I had been a Christian at the time or had a Christian to counsel me.

6) How has your abortion affected others in your life? I know it upset my parents and my present husband

7) Based on your own experiences, what would you tell a woman considering an abortion? God loves her and has plans for that baby. The baby is no surprise to Him. It is murder. He will cherish that choice.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? If we truly believe in the American Slogan 'In God We Trust', we should not be murdering babies. Scientific evidence proves the fetus is alive. There are other alternatives for an unwanted pregnancy that do not involve murder. There are many people wanting to adopt babies.

- 8) Based on your own experiences, what would you tell a woman considering an abortion?
 - 1) There is another way out there is an answer there is hope - JESUS
 - 2) It is a decision that will affect your life forever.
 - 3) What will you tell your other children about abortion if they ever ask?
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal?
Have you yourself ever had one? or seen & experienced the everlasting emotional pain that has? It is murder no matter what age of baby or fetus. We will all have to answer to God one day. Have we only condemned or have we offered a true lasting answer to all before later abortion.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Summer of 1977 / Fairmont Clinic, DALLAS TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not. I was told it was a mass of tissue and that it was a quick and easy procedure and there would probably not be any complications or side effects.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? I struggled for 13 years of mental hospitals, psychiatrist therapy, counseling. My abortion was one of the things I did that caused me so much guilt and condemnation. I hated myself and could not forgive myself for what I did. There will be a scar in my soul for the rest of my life. I don't think I will ever forget it. And I will always wonder what and who that little baby would have become. I will have to live with these thoughts the rest of my life. The only peace I have about this is that I have become a Christian since, and God has forgiven me and has healed me, but the scar will always be there.
- 7) How has your abortion affected others in your life? It hurt my mom and a few people that knew I did it. Abortion affects and hurts everyone.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? "NO! Please don't do it! It is murder! It will affect you the rest of your life. You will regret it later. What about the innocent child inside? Why make it pay with its life, a consequence that you brought on yourself."
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that one day they will have to answer for what they are doing. I would tell them it is murder. I would tell them most of the women getting an abortion don't really understand what they are doing.

I FELT THAT I WASN'T WORTHY TO STEP INTO A CHURCH OR BE IN THE PRESENCE OF GOD IN ANY WAY. WHEN I STARTED TO THINK OF MARRIAGE AND A FAMILY IN MY LIFE, MY HEART WAS NOT AT PEACE. - 1) Tell approximately when and where your abortion occurred: first abortion 1976; second in 1977 (Sacramento, CA)
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no; I filled out the appropriate paperwork (both times) and the abortion was performed; no counseling was offered before or after either abortion.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? The abortions affected every area of my life. I was a single mother of 2 children when I had my abortions. I remarried shortly after my second abortion and had another child. I didn't realize it at the time, but I withdrew emotionally and physically from my children - how could I truly love and want the children I had if I was willing to kill the ones I didn't want? The abortions affected my marriage in that I was unable to have any type of emotional commitments; it seems I carried around a lot of anger, mistrust, and no ability to care.
- 6) How has your abortion affected others in your life? My children were affected because I was unable to give them the love and emotional support they needed; my husband was affected in the same way; I withdrew from my mother and siblings.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? She is believing a lie that the abortion will "fix" her current situation because not only is the abortion not a "fix" she is setting herself up for a lifetime of problems that will affect not only herself but those around her, too.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? So much of the problems (i.e., divorce, suicide, drugs, drinking, crime) that plague a lot of young women (and older ones, too) today could probably be traced back to an abortion that took place in the woman's life.

To open their hearts and understand how abortion hurts all our emotions, physical, spiritual, mental. To understand that the hurt doesn't go away, that we live with it daily. To be filled out by women who have had an abortion.

The State of Texas

County of Comanche

BEFORE ME, the undersigned authority, on this day personally appeared Terrie Coleman (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: October 1978, Fort Worth, TX @ a Planned Parenthood Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was not. This baby was NEVER spoken of as a person of value - just a problem. They would help me get rid of for a price. The emotional trauma which followed was never warned about.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The man by whom I was pregnant pressured me & insisted I have an abortion.
- 5) How has your abortion affected you? My abortion so traumatized me that it was 10 years before I could even talk about it. Now - 23 years later - I cannot even think about what an awful thing I did to my own baby without crying. I have been severely depressed at times & often overwhelmed with guilt and fear. It has always been a struggle for me to ~~the~~ not think that God would "take" my other children as punishment for what I had done to that first baby.
- 6) How has your abortion affected others in your life? My daughter has probably suffered most out of my 4 children. I have been extremely overprotective of her for fear she would find herself in the same circumstances and ~~also~~ be pressured to choose abortion.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Planned Parenthood does not tell you exactly what you are doing to an unborn baby. They NEVER suggest to you the possible emotional scars this leaves. I can tell you from experience, this is not a painless way out of a "bad" situation.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Killing an innocent, unborn baby to hide the deeds of his/her parents should never be a choice, an option. To allow people to profit by the murder of innocent, unborn children for the sake of "convenience" is shameful and should be outlawed.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: December 1984 in Austin, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes as far as the procedure goes - but absolutely NO as far as the psychological implications that have lasted 20 years
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? It separated me, even further from God. It also distanced me from my family because I was ashamed of what I did. When I met my husband - it took me a long time to gain a level of emotional intimacy with him (I am not referring to anything physical). I felt terrible about myself without understanding why. It was not until a few years ago that God prompted me to pursue a relationship w/ Christ and seek forgiveness for the murder of my child. It was not until I could call it, I am sure, it has my parents + my husband.
- 6) How has your abortion affected others in your life? what it was - MURDER - that the healing could begin.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Do NOT Do IT. FOR ANY REASON. GOOD THINGS CAN AND DO OCCUR FROM BAD SITUATIONS.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? God Gives Life + God Takes life away. Who are we, as His creation, to try to do His job for Him. Do we tell Him, "You have made a mistake", "this child is not wanted or will be a drug baby, or will be abused". These are excuses for the convenience of abortion. All children are God's children. - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? What it is - yes, what it does to the child - yes, what it does to me - NO
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My new husband of 1 or 2 months.
- 5) How has your abortion affected you? Of all the horrible things I've done, this is the only one I can't seem to get over. I am a Christian, & know I'm forgiven, yet the mental anguish of knowing what I did & how quick & easy it was to do just haunts me. It was as if I was just going to have a convenient procedure done to simplify my life, at the time without ever once thinking about how it would affect me for the rest of my life!
- 6) How has your abortion affected others in your life? It hurts them to know I would do such a thing. I can only hope to help others by warning them before they end up like me.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? You will regret it! There are too many other options that are better for all involved. It's the most selfish thing I ever did. PLEASE DON'T KILL AN INNOCENT CHILD BECAUSE YOU SCREWED UP!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I've been through too many personal experiences with pregnancies that are "unwanted" or "unplanned" to believe such a thing is needed. What is needed is "thinking ahead" - before you even become intimate with someone. Be responsible for your own actions - without taking a life.

The sickening guilt is unbelievable.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? Now that we have the technology to see inside the womb, and we know beyond a doubt that we are indeed stopping a beating heart, how can we continue to allow this avenue of murder to be legal.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: at New Women's Clinic (San Pedro Rd) in San Antonio - I believe it was Wednesday the first week in July 1988.
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: They did have a brief meeting before the abortion (in a group) where they explained the process, but did not tell about the possible side effects. They also kept referring to the baby as a group of cells, and they stressed the notion that it was not a baby.
3) Were you adequately informed of the consequences of abortion? No. The only problem they mentioned was infection if you went swimming in a lake, or excessive bleeding under very rare circumstances, according to the clinic.
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no, they didn't discuss the link. Have not been diagnosed.
5) Did anyone pressure you into having an abortion? If so, who? Friends/ boyfriend. My father had always said that if any of his daughters ever got pregnant that he would divorce my mom, because they disagreed about abortion. So, I felt I had no choice.
6) How has your abortion affected you? depression, loss of self-esteem (which eventually led to an eating disorder), before redemption in Christ-constant (almost daily) about the tragic manner in which my baby was killed, and extreme guilt.
7) How has your abortion affected others in your life? I've made an attempt to use my own experience in warning others about abortion. In one instance, I helped convince a friend to have her baby. However, my mother is devastated that her grandchild is dead.
8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. It will be the worst mistake in your life. As difficult and painful as your situation may be, nothing compares to the agony of killing your child. Don't ignore the subtle voice from within that tells you it's wrong. That is the voice of God pleading with you to keep your child alive.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? This so-called choice should never even be an option. The law tells us that we MUST wear seat belts, yet we can murder our babies within our very womb? Something is tragically wrong with our society. If abortion was illegal in 1988, there would be another happy twelve year old living today!

- 5) Did anyone pressure you into having an abortion? YES If so, who? my father made all the arrangements, paid for, and took me to have the abortion to save the reputation of the family.
- 6) How has your abortion affected you? For 26 years I never talked about my abortion even when abortion was brought up in conversation. For most of my adult life and late teens I abused alcohol, and for 10 years I was addicted to drugs, and I believe I took those actions to try and kill the pain of my secret murder of my child by abortion. My choices in my social life were not very picky because I tried to fill my pain with what I thought was love and it turned out to be lust, and the men left or I left due to physical abuse. At the age of 23 I gave a son up for adoption because I was so messed up I couldn't raise him, and at 33 I have my son. None of these events could replace the pain of
- 7) How has your abortion affected others in your life? It has left a headache on my mother, and she has worried about me since my abortion because she knew it was wrong and for years (26 years), I never mentioned it. the loss of my child.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is murder. It is something you cannot ever undo. This could be your only child. If they were parents and they have children, and if they had to choose which child they would kill, what niece or nephew would they kill? It's a baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? God creates life in the womb, and abortion is an act against God. Educate by telling details of some techniques of abortion. Abortion is not just a physical operation with risks, even death, but it can affect a woman emotionally and psychologically for years and even for life.

BEFORE ME, the undersigned authority, on this day personally appeared Kelly Fairman (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: late Dec. 1994, FtWorth, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
yes, but not the emotional consequences
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? yes If so, who? the father
- 6) How has your abortion affected you? It has left a deep deep scar that will never leave. A emotional guilty scar. There is not one day that I do not think about, what I did to how I destroyed a life and ~~and~~ my life to, I will carry this with me forever. The entire thing effected me, my husband, my parents, sisters and could effect my future children. I feel like ~~am~~ not worthy of anything without I don't deserve to be happy. There is not one day that I do not think about this act. Every day I think about what I did. I am ashamed.
- 7) How has your abortion affected others in your life? My husband (not the father) deals w/this to. He listens to me cry, hears my nightmares about it, deals w/my low self esteem & depression.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do not even think about it. Do not be selfish, give your baby a chance, even if it means giving it up for adoption. You will be scared for life if you choose abortion.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That it should not & no one has the right to hurt a child or contribute to womens emotional problems. ~~Abortion~~ Abortion is dangerous for mother & child physically & mentally.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: no one said anything but lay on the table. They were very cold. I was in such a state that if anyone would have told me how bad or what to expect I would not have done it

- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no

I understand ~~emotional~~ went to the doctor he couldn't help me. I was too ~~stupid~~ stupid to go back so I started living the life of a heroin addict. It was like my body just started to purge out the pain and guilt

- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it! we think the "so called problem" is eliminated but the problems are just beginning. The information is awful. You'll take problems in your life you don't want to deal with happening so subtly and like me I became very depressed and suicidal. You'll understand what the reality truly is when you take a life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It's murder and a woman in such an emotional state at that time that she really doesn't know what she's doing. It's a decision they are making without knowing the consequences and the consequences aren't worth it. They may think the abortion is the end of it, but it's anything that will always be there eating at you even though they may not realize it yet. Later when something goes wrong with their body or they try to have a baby and don't know what to do, the pain and guilt is unbearable and harder to live with and it's starts exploding in my

- 8) Based on your own experiences, what would you tell a woman considering an abortion? Never take the life of your child, because you'll always wonder what is it's potential would have been if you'd always live w/ the guilt + sadness of it. At least w/ the option of adoption, you chose life for your child + opportunity
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That even at 8 weeks when I had my abortion I knew there was life in me. That making murder legal still does not make it right. Abortion is a legal convenience that is not worth the consequences, physically, emotionally, or mentally.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1985 Dr. Cavazos office at the time it was in OAK Hills Bldg. - Louis Pasteur - SAN ANTONIO, TEXAS
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Do not remember the details
- 3) Were you adequately informed of the consequences of abortion? Do not remember
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO
It was not told that
- 5) Did anyone pressure you into having an abortion? If so, who? NO
- 6) How has your abortion affected you? Physically - I later read that abortion can increase chances of cervical cancer - I underwent through two surgeries to remove pre-cancer cells from my cervix (cone biopsy) Emotionally - the guilt and shame of killing my baby has also affected my life.
- 7) How has your abortion affected others in your life? I am not sure. The father of the aborted baby is no longer part of my life since 1985. Very few people know I recently told my husband of almost 14 years it was a dark secret I kept from him
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would encourage her not to do it. The guilt of killing a child is not something you would want to have to live with, especially when adoption is an alternative. Abstinence should be #1 choice but if a woman gets pregnant (unplanned) then there is adoption.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? 1-22-01 the constitution states "The Declaration of Independence - states that all men are created equal" ... The creator has given all "certain unalienable Rights" ... Life, Liberty and the Pursuit of Happiness
These rights were not limited to only those men outside the womb - it states "I have read the above and foregoing statement and the same is true and correct." All !!

- 1) Tell approximately when and where your abortion occurred: In 1980 in San Antonio, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Not at all. There was no adequate knowledge of the viable life of my baby (at 11 weeks) or no mention of possible consequences of
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? not any
- 4) Did anyone pressure you into having an abortion? yes If so, who? my mother and my kind doctor
- 5) How has your abortion affected you? When I realized the level of development of my baby and how my baby suffered during the abortion I was horrified and had to come to grips with the fact that I had inflicted that horrible death on my own baby. I feel I have a void and the realization of what might have been. I feel betrayed and lied to in regards to my baby's viability & suffering.
- 6) How has your abortion affected others in your life? My 2 children have been with the fact that their own mother killed their brother or sister.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that her baby was alive & would explain to her how she would lose her baby was developmentally to a non-viability. I would tell her that no suffering should have to endure to have the baby dead.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would argue that as a para-medical practitioner, I would have learned that death is determined by cessation of either heart or brain waves, depending on the state. I know that based on that same criteria, abortion is almost always performed on a child with legal "life". The baby is usually not detected until both heart and brain waves have begun.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of TEXAS

County of BRAZORIA

BEFORE ME, the undersigned authority, on this day personally appeared DIANNE L. HENSLEY (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 10-31-72; PRESBYTERIAN HOSPITAL, ALBUQUERQUE, NM.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? _____ If not, explain: THIS TOOK PLACE BEFORE ULTRASOUND TECHNOLOGY EXISTED, SO I BELIEVE THE DOCTOR MAY HAVE TOLD ME ALL HE KNEW, BUT HE CERTAINLY NEVER DISCUSSED IT BEING A CHILD - IT WAS JUST TISSUE (LIVER 3mos).
- 3) Were you adequately informed of the consequences of abortion? NO, BUT TO BE FAIR, THIS WAS PRIOR TO ROE V. WADE AND THE STATISTICALLY SIGNIFICANT DATA WAS NOT YET AVAILABLE.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? YES If so, who? PARENTS; AND ALTHOUGH MY HUSBAND DIDN'T PUSH FOR IT, HE ADVISED IT WAS MY DECISION OF A CHILD WOULD BE MY RESPONSIBILITY - HE WAS TOO BUSY WITH SCHOOL.
- 6) How has your abortion affected you? FOR TEN YEARS I DIDN'T THINK IT HAD HAD ANY IMPACT. HOWEVER, W/ HINDSIGHT, I AM SURE IT CONTRIBUTED TO THE BREAKUP OF THE MARRIAGE & TO A VERY SELF-DESTRUCTIVE CYCLE OF BEHAVIOR FOR SEVERAL YEARS FOLLOWING.
- 7) How has your abortion affected others in your life? I'VE NEVER ASKED MY FIRST HUSBAND, BUT I BELIEVE SHARING MY EXPERIENCE MAY HAVE HELPED MY DAUGHTERS & THEIR FRIENDS, AS WELL AS OTHER WOMEN I HAVE TOLD.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? DON'T - YOUR LIFE HAS ALREADY BEEN CHANGED FOREVER, YOUR CHOICE IS HOW, NOT IF, YOU WILL BE CHANGED FOREVER. HAD I NOT FOUND FORGIVENESS IN CHRIST & A CONSTRUCTIVE USE FOR THE EXPERIENCE, I'M NOT SURE I COULD CARRY THE BURDEN
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I BELIEVE THE MELTDOWN OF OUR CULTURE - KIDS KILLING KIDS ETC. - IS DIRECTLY RELATED TO THE MESSAGE WE SEND BY LEGALIZING ABORTION ON DEMAND. OUR CIVILIZATION DEPENDS ON RE-ESTABLISHING A RESPECT FOR LIFE.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I WAS GIVEN A PAMPHLET AT PLANNED PARENTHOOD OFFICE. IT WAS STATED THAT I HAD "OPTIONS". THE OPTION OF KEEPING THE CHILD AND HOW I MIGHT TO DO WAS NEVER DISCUSSED.

- 4) Did anyone pressure you into having an abortion? NO If so, who? BUT I DO NOT FEEL I WAS GIVEN OR COUNSELED IN ALL OPTIONS AVAILABLE - ADOPTION, KEEPING, ETC.
- 5) How has your abortion affected you? FOR MANY YEARS I STRUGGLED WITH TREMENDOUS GUILT AND DEPRESSION OVER WHAT I HAD DONE. I HAD REALIZED THAT I HAD KILLED MY CHILD. AS I WENT THROUGH 5 YEARS OF INFERTILITY BEFORE HAVING MY DAUGHTER, I WONDERED IF PERHAPS SOMETHING HAD HAPPENED DURING MY ABORTION WHICH WOULD NOT ALLOW ME TO EVER HAVE CHILDREN. THE DAY OF THE ABORTION STANDS OUT AS THE LONELIEST, MOST GRIEF-FILLED DAY I HAD EVER KNOWN.
- 6) How has your abortion affected others in your life? ASIDE FROM THE CHILD I KILLED, MY HUSBAND IS THE ONLY OTHER PERSON THAT HAS BEEN AFFECTED. HE HELPED ME WORK THROUGH THE GRIEF AND DESPAIR. HE HAD TO WATCH HIS WIFE DEAL WITH THE PAIN AND REMORSE OF SOMETHING THAT HAPPENED YEARS PREVIOUSLY.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? WOMEN MUST KNOW THAT THE DECISION TO HAVE AN ABORTION IS ALSO A LIFELONG DECISION. IT IS NOT A QUICK FIX AND THEN DONE. THEY MUST KNOW THEY ARE ENDING A LIFE.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? THAT IF ABORTION - OR THE RIGHT TO CHOOSE - IS SUCH A POSITIVE ACT FOR WOMEN, THEN WHY ARE SO MANY WOMEN IN PAIN OVER SUCH A DECISION? WHY ARE WOMEN ASHAMED, REMORSEFUL AFTER HAVING AN ABORTION? - 7) Based on your own experiences, what would you tell a woman considering an abortion? God is watching we are held accountable to all involved! How would you feel if your mother aborted you? I never wanted to be a murderer. Sin can bring such pain & sadness the rest of your life. Thoughts never end if you can't stop me!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Life begins from the moment of conception. You have no right to take a life, you are just as bad as a criminal who commits a murder. There is no difference with protecting peoples lives if you are going to take a say in abortion. Kill us all then! I was selfish. I thought of myself!

2. Were you adequately informed of the nature of abortion, what it is, what it does? BEFORE ME, the undersigned authority, on this day personally appeared KRISTA JOHNSON (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April 1989 in Washington D.C. at a hospital at age 17
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was 16 weeks and was told the baby was "a bunch of cells" They would not let me see the ultrasound. They told me that giving birth was more painful than having an abortion. They insisted I take a sedative to relax or rather
- 3) Were you ^{keep me from leaving} adequately informed of the consequences of abortion? No. I was told that it was a simple procedure and very safe
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No and No
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. My parents
- 6) How has your abortion affected you? It destroyed my life. It was done to keep my life from getting worse & it did the opposite. Only Jesus was able to redeem me & bless me with the life I have now.
- 7) How has your abortion affected others in your life? I have no relationship with my parents, I divorced the man who was the father as he became abusive after the abortion. It hurt my marriage emotionally w/ my husband right now, but we have been healed of it.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I think all women need to sit through a post-abortion group counseling session and see just what abortion does to people. I would tell her that her baby deserves the right to live just as she does.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them why a baby girl with a heart beating has no "choice". Killing is cruel, ruthless and evil. In or out of the womb & women end up suffering with that guilt & shame the rest of their lives. Just because something is made legal doesn't make it legal in your heart.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1981; 1986; 1988 Coos Bay, Oregon Sacramento, California
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
Only that in the stage I was in that the baby was only a tissue and not formed, and that I would have some cramping.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? In 1981 my mother was against me having a baby and in 86 & 88 my then husband refused to have children and told me basically to hit the road or have an abortion.
- 6) How has your abortion affected you? There isn't a day that goes by that I don't think about it. I look at my children now (2) and wonder what the other 3 would of been like. Sometimes I have crying spells where I cannot be consoled and once it passes I feel better, but the ache in my heart still remains. I have asked God to forgive me and I know He has but I can't forgive myself - I am easily motivated by guilt because of the way I feel about what I have done. I have had trouble with my uterus and have painful and long periods - I don't know if the abortions contributed to this but I can't imagine that they helped.
- 7) How has your abortion affected others in your life? Yes, when I get sad about them I pull away from my family and they don't understand but I can't help the way I feel - I don't know how.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. Keep the baby and be blessed even if you allow the baby to be adopted. Giving a child life is a great blessing. Killing it isn't our choice to make!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Our Country was founded on the principles of God almighty, our heritage is full of people who lost their lives for this Country. Who are we to allow the slaughter of our nation's heritage - our children? This Country's currency states 'In God we trust' - then how are we trusting God when we Kill His creation? 'I have read the above and foregoing statement and the same is true and correct.' especially if the only reason we have abortions is because a child at that time in our life would be an inconvenience! I say - Keep your legs shut!

- 7) How has your abortion affected others in your life? Some of my family members have been shocked and angry. My friends were shocked but did not judge me.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would share with them that they do not have to know the torture and torment that I dealt with. That there are far more consequences in having an abortion than in having a child. It is a decision that they cannot erase. It will impact them for the rest of their lives. It is total destruction both physically and emotionally.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That they are making the decision to offer destruction to a woman. It is not only a physical pain but emotional. It is something that the government will never be able to fix. It is lack of knowledge that destroys the people regarding abortion.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Dec 1983 ; Denton, Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? It was the single most devastating event of my life - though, through my faith in Jesus and true repentance, I am finally healed and can return to living. For years I felt guilt and depression and cried for my lost baby, I have other children, but I know one is gone --- to Heaven. It is such a lie to promote abortion (death) as a solution to a crisis pregnancy - it is the most physically, emotionally, and spiritually destructive solution - causing so much grief.

6) How has your abortion affected others in your life? I know it affected my husband and other children - I was withdrawn and sad - I couldn't cope with life.

7) Based on your own experiences, what would you tell a woman considering an abortion? Go to a "crisis pregnancy center" where you will find hope & life-giving alternatives. God has a plan for you & your child. Give your child life!

8) Based on your own experience, what would you tell a court that believes abortion should be legal? That it is hurting women (horribly) and killing babies! It is so "crushing" to a woman's ability to recover - it is the event that brings death and destruction! Abortion = 1 Dead, 1 Wounded.

To serve and protect has turned to serve a mind too young and unprotected ahead of a lifetime

6) How has your abortion affected you? I was 18 years of age and knew I was not ready to care for a child. I did not tell my mother because I did not want any influence on my decision. It has been almost 20 years now and I still can't help but grieve about the decision I made. I had so little experience in life yet was permitted to make a decision to take a life given to me. ~~Now~~ I can't believe our laws have turned to unprotect us, yet serve a mind too young to make wise decisions.

How has your abortion affected others in your life? When my mother found out she was heart broken.

8) Based on your own experiences, what would you tell a woman considering an abortion? Why not consider adoption. By making that choice you won't have to go through the rest of your life blaming yourself for taking a life.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Who has given anyone the authority to take a life. The laws should stand by the serve and protect service. Our taxes should not be used to support issues outside of that calling. There would be far less deaths of women giving birth than babies dying. Protect the deaths in numbers.

BEFORE ME, the undersigned authority, on this day personally appeared Vanessa McDonald (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Feb 20, 1996 @ 9:30 am - Clinic in Dallas
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? yes If not, explain: _____
- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? No If so, who? _____

6) How has your abortion affected you? When I aborted my child 6 years ago, I wish I had known how much misery I would live in because of it. I killed my own baby - I should have been the one person in the whole world to protect and love her. I think about her everyday and wish I had chosen to have her and know this precious baby. I am now overprotective of my 1 year old little girl - I overcompensate because of my loss.

7) How has your abortion affected others in your life? I feel resentment towards my husband for agreeing with me to have the abortion - I wish he would have fought for her right to live. My father whom I have told, mourns the loss too - I took a grandchild from him.

8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that no matter how much she thinks that having an abortion will remedy her situation - whatever it may be - it won't. It will destroy her as surely as it did me! We are women - our nature is to nurture our children - even if we think we don't have any emotional connection to an unborn baby - the day will come that she will. Abortion is most surely murder.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe abortion is murder of a defenseless child - just as much so as it is murder to kill a 2 year old. A baby is a baby from the moment of conception - A woman needs to realize that killing her own flesh and blood is the worst choice she will ever make. Children are our gift from God, they are not a problem to dispose of.

- 1) Tell approximately when and where your abortion occurred: February, 1973 only days after it was legal in a hospital
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was under the impression that if done during the first month it was before it was truly a baby. I was only 15 & though the doctor talked to me, he only told me how easy & how much better it would be for me. He told me to lie to any nurse that asked questions.
- 4) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? My family & the doctor. No one gave me any alternative for help or mentioned adoption!
- 6) How has your abortion affected you? At first I had deep depression. I was very sorry right away & I knew I would never make that mistake again! I became a Christian a few weeks later & my life turned completely into a new direction. However, I carried a deep loss in my heart. After I married and had children, the loss became even greater because the reality that it had been a "real" baby set in. God has given me a wonderful family & brought healing to my heart, but what I did will always be a reality. I can't un-do or change that wrong decision! I did something very wrong. It was not rightfully my choice. One of my children is missing from my life.
- 7) How has your abortion affected others in your life? The father of the baby was never informed until after the abortion. I know now that that was wrong.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Life is valuable! It is a precious gift. Circumstances change. Children always bring joy & life to us. God has promised provision to those who trust him!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Making it easy, doesn't make it right. If we don't value the life of unborn babies then our society doesn't value life at all. Each one of us was once in our mother's womb. Some of our parents had it rough, they were inconvenienced, too, but they made right choices to be responsible to the gift of life they carried & gave birth!

- 8) Based on your own experiences, what would you tell a woman considering an abortion? That they will eventually have to face the truth about abortion in their lives. They will think it is OK and won't bother them, but in 20 yrs. it will come back and they will see in hindsight how much of their lives was affected by the abortion.

Science proves when life begins - just because humans are selfish and want to avoid the consequences of sexual activity outside of marriage does not make it right.

- 7) How has your abortion affected others in your life? I haven't told very many people including my husband & children.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. You'll be sorry. The cost is too high both emotionally & physically.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? God put babies in the safest place He could find, man in his wickedness found a way to remove them. Courts were designed to protect us. AFFIDAVIT

To be completed by women who have had abortions

The State of TEXAS

BEFORE ME, the undersigned authority, on this day appeared J. M. who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1994, The Woodlands, Texas (during college years)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: was not told what was involved with procedure, was not told of physical consequences except to be given a card w/ information should I get pregnant again. It was all unclear.
- 3) Were you adequately informed of the consequences of abortion? NO. I was in such an emotional state and scared, very little written information was given to me.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? but my friends encouraged me
- 6) How has abortion affected you? 11 years later I am obviously still affected. Initially, I suffered from depression, alcohol use increased, increased promiscuity due to my lowered self esteem, my grades suffered in college, relationships were difficult I had nightmares, flashbacks and guilt. Now, with a 6 year old son, I am overprotective to a fault. His relationship with his father is damaged because of my own fears of losing my son. I feel God could still punish me by taking this child away. It's ruined my motivation, and hindered my career (ironically, since my reasoning in part to have an abortion was so my career wouldn't be hindered.) It has cut at the soul of my entire life.
- 7) How has your abortion affected others in your life? I am presently overprotective of my 6 yr old son, also concerned out of wedlock. I'm scared of losing him too. It also affects his father.
- 8) Based upon your experience, what would you tell a woman considering abortion? absolutely don't do it. you will 100% regret it. there are alternatives. it never is how "problem" alone. It will affect everyone you know: other children in your future, husband, parents, etc.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Two wrongs don't make a right. You don't fix a problem with a problem, or treating the symptom or result of a bad decision. (sex outside marriage mainly) It isn't about a choice women should make at time of pregnancy, but their choice before pregnancy.

saying OK we'll plant more - duh! and yet look at the movement to save forests

mental, emotional and spiritual health and could result in physical consequences
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal?

- 1) Tell when and where your abortion occurred: Dallas, TX February 1989
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I had several questions that I know now were not answered honestly. Being a sales person, I have learned to overcome objections in order to make a sale. I was not "counseled," instead I was "sold" my abortion.
- 3) Were you adequately informed of the consequences of abortion? absolutely not. I was told I would bleed a bit and then be fine. There was no mention of any help available to me once I left that clinic.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? no If so, who? I had just found my freedom from an abusive relationship when I found out I was pregnant. My friends felt like it would be the best decision so I could get my life in order.
- 6) How has your abortion affected you? I completely shut down. I was angry at myself and I felt that there was no hope for me to ever be considered a respectable member of society. I became an alcoholic. I have struggled with eating disorders. I also built so many walls around myself no one could get close to me.
- 7) How has your abortion affected others in your life? My son and my later step children needed me to be able to love, but I didn't know how to be open. I felt like I was in survival mode most of my twenties.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I have since found freedom in Christ and I am active in sidewalk counseling. I tell them that no matter what their circumstance is today that circumstances change. Even though it may seem difficult now, choosing life for their child will save their own hearts from being destroyed.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? This nation was founded upon the principles of "life, liberty and the pursuit of happiness. Evil atrocities have occurred in history when people have decided it is okay to discard the "unwanted." We have an obligation as the greatest champion of liberty to mean "liberty for all." - born or unborn.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - I was not advised and things happened that scared me and when they told me it was bone remnants I was horrified at what I'd done. That was when I realized what I'd done.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? yes If so, who? society disapproved of unwed mothers and I would embarrass my family and I wasn't in a stable financial situation
- 6) How has your abortion affected you? I kept it a secret over 30 years with only a handful of people knowing, most of whom are now dead. I was and am embarrassed, remorseful, sad and forgiven for the murder I allowed and sought for my baby when they called my "fetus." No counseling was given about after effects physically, mentally, socially or spiritually. Everyone can talk about tonsils being removed, but it's a deep dark secret to have murdered your child. I felt I had been weak, I let down everyone including God, and felt there was no option.
- 7) How has your abortion affected others in your life? My sister knew of it & she had one afterwards. If I did it, she thought it was okay. Horrible role model. On the otherhand, never telling my daughter about my experience I was
- 8) Based on your own experiences, what would you tell a woman considering an abortion? first - God says it's wrong. Second - many options now exist. Third - I mess up doesn't make it okay for murder. Her unborn baby is responding to light, sound, has organs forming, and God knew ages ago! glad she didn't have!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Some of the ramifications are too deep and hurtful to describe. It was an uninformed decision. 6) How has your abortion affected you? It took me 16 years to forgive myself for killing one of God's children. I finally accepted Jesus into my life & let Him heal me. Prior to that, I would be depressed on the anniversary of my abortion every year. It changed my life - I felt empty & unlovable for 16 years. It was probably the worst thing God ever done in my 44 years of living. God is good & healed me finally!

7) How has your abortion affected others in your life? _____

8) Based on your own experiences, what would you tell a woman considering an abortion? The same thing I told my 16 year old daughter when she became pregnant. It will affect you every day of your life. Give your child up for adoption!

9) Based on your own experience, what would you tell a court that believes abortion should be legal? They need to consider the long-term after effects. It is emotionally devastating. It leaves one empty until one accepts Jesus (and some people never fill that void).

AFFIDAVIT

The State of Texas

County of Harris

BEFORE ME, the undersigned authority, on this day personally appeared Bethann Pritchard (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: December 19th, 1980; abortion clinic in Pasadena, Texas, behind Southmore Hospital. Dr. Swada (Schrade?) was the doctor.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was not informed, by the dr, nurses, or anyone at the clinic about the nature of abortion or what it is, or what it does, or the dangers involved. I only remember signing a paper that released the clinic from any responsibility.
- 3) Were you adequately informed of the consequences of abortion? No, I was not informed of any consequences regarding my abortion. If anything, I was pressured to hurry and make a decision - the clinic even called me at home.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, they did tell me. No breast cancer, but have had benign fibroid adenomas removed.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, the clinic pressured me. I was almost 4 months, and they called me every day asking me if I had decided. They sometimes called 2 to 3 times a day.
- 6) How has your abortion affected you? How has it not affected me!?!? Every area was affected - more drugs, alcoholism, promiscuousness, inability to have deep, sustained relationships. Inability to conceive since my abortion.
- 7) How has your abortion affected others in your life? Felt a lot of guilt and shame over my abortion, so felt unworthy of having "good" relationships; kept others, including my son, at a distance. Was unable to have healthy interaction.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her not to have one - it destroys your life and kills your baby. I would give anything to be able to go back and make a different choice - to choose life, for me and my baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? No, No, NO - abortion should NOT be legal. I wish it hadn't been legal when I had my abortion. There are other means to deal with an unwanted pregnancy - adoption, foster homes, carrying to term - there is only one way - LIFE!! abortion is murder.
 "I have read the above and foregoing statement and the same is true and correct" and murder is against the law!!

- 1) Tell approximately when and where your abortion occurred: RI Oct of 1995 I was 17
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Only that it would end my pregnancy. Nothing about consequences - physically or emotionally
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? indirectly If so, who? The Shame to myself and family if I were to be pregnant and have a baby at seventeen.
- 5) How has your abortion affected you? I just recently, looking back realized the affects. Spiritually & emotionally. ~~the affect~~ Thank God nothing physically. Before the abortion I believed in God after I ran my own life & God didn't exist. Myself esteem was nothing and I looked for acceptance in all the wrong places. Forgiving myself was the hardest thing. There was a huge wall between my parents and I. it just recently started coming down
- 6) How has your abortion affected others in your life? My family - its never been mentioned or talked about since it was done. Only my parents know about it. My husband was shocked to hear I had one, but understanding of where I was spiritually then.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? It seems like an easy fix, a way out. You need to look ahead. Its a selfish choice. You are not aware of the affects until later on in life. Its a slow painful healing. At the time it may look like a horrible ->
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Birth Control is to prevent pregnancy. A fetus is already alive and growing. Abortion kills a life. It is not a birth control method and should not be used as such. Abortion is murder and murder is against the law.

Private physician's office
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, in the early 70's the procedure was still pretty rare. You did not ask and the Doctor did not offer information
- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? If so, who? No
- 6) How has your abortion affected you? EARLY ON IT CAUSED DEPRESSION AND MARITAL PROBLEMS. LATER IT GOT ME TO BEGIN COUNSELING AT A CRISIS PREGNANCY CENTER IN HOUSTON, TX.
- 7) How has your abortion affected others in your life? My depression caused my husband pain AND kept me from realizing what I had done.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The solution of ending the life of your own child is the worse violence you can do to yourself. By removing, by force, a human life you demean yourself as a woman totally.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The legal killing of your own child is an act of desperation AND CONFUSION. IF FULL KNOWLEDGE OF ALL THE AFTERMATH OF ABORTION WAS MADE PUBLIC IT'S SOCIAL ACCEPTABILITY WOULD BECOME LESS AND LESS. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1980 Houston Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO
I was at Planned Parenthood in a room with other women and was not told about any side effects or complications possible with an abortion, only that I was having a procedure to terminate pregnancy.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____

6) How has your abortion affected you? I now realize that this was sin and have gone to the Lord to ask for forgiveness. Unfortunately 20 years has passed and I have not had another child. That one pregnancy was my only chance to bare children. This has caused me much agony and personal pain. I have had to deal with anger and relationship problems and was divorced after the abortion. I have not remarried and feel this is also due to my abortion. I have had to deal with issues regarding my worth as a woman since I am not married and have no children. If I would have known the risks and complications from abortion both physical, emotional, and spiritual, I would not have had an abortion.

7) How has your abortion affected others in your life?
My family has had to emotionally support me through the loss I have endured since my abortion 20 years ago.

8) Based on your own experiences, what would you tell a woman considering an abortion?
I would make sure that the woman was informed regarding all the possible risks to her health and emotional wellbeing and also to the affect oh her relationship with God and her future without this child in her life.

9) Based on your own experience, what would you tell a court that believes abortion should be legal?
I would tell the courts that abortion is a crime against humanity. A woman was not created to kill her own children. This is contrary to her nature and legalized abortion encourages the woman to take this option that will affect her for life. The child will never leave her emotionally, but will always exist. - 1) Tell approximately when and where your abortion occurred: New Women's Clinic, San Antonio, TX 1991
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Before the procedure a group of waiting patients were taken into a conference room. The nurse showed us the instruments used and briefly explained the actual procedure
- 3) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 4) Did anyone pressure you into having an abortion? No. If so, who? _____

5) How has your abortion affected you? I have to suppress the memory every day. The moment the procedure was over I felt like my soul had been sucked out of my body along with my baby. I'm haunted by the memory - horrified at my actions that no matter how hard I pray, can never be undone. The pain NEVER lessens, which is why I have to fight to suppress it. I let it out every now and then - in private. I certainly don't talk to anyone about it - I don't think anyone could possibly empathize. It is my burden alone - to carry for the rest of my life.

6) How has your abortion affected others in your life? Of course my mother & grandmother were extremely heart broken and disappointed. And my boyfriend - now my husband - though he doesn't talk about it, I think it forever changed how he thinks of me. I have to struggle to make him believe I am a woman.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would have to offer her a comparison of the pain - something she had already experienced so she would understand the consequences - ex. to think back on the loss of a loved one. Someone she'd been very close to... now multiply that pain x 1000. + guilt, remorse, regret, responsibility!

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion absolutely causes irrevocable harm - the death of a baby and severe emotional distress, long-term distress, to the mother.

(2) Wake-up call to my understanding of God: He would not ask me to kill my own child to save my marriage.

- 8) Based upon your experience, what would you tell a woman considering abortion? No matter what's happened in your life in the past, this is a kairos moment to change it all and do something right. Abortion is not just about the baby but the broken promises that have preceded it + the shallow relationships that hurt you.

The State of Texas

BEFORE ME, the undersigned authority, on this day personally appeared K [redacted] R [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1972 New York
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes but I was led to believe that a fetus wasn't a real baby yet.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? no If so, who? _____
- 6) How has your abortion affected you? When I had my abortion I was 15 years old. To me at the time a fetus wasn't considered a child yet, at least that was the impression I was given. a few years later when I became a christian, I was old enough to realize that it was a real child that I had killed. It upset me very much I cried a lot over it. I had a 2 yr old son at the time so I knew what it meant to have and love a child. I know God forgave me but it took a little while to forgive myself.
- 7) How has your abortion affected others in your life? They realize that although no one had to deal with a teen pregnancy at the time, that my life would not have turned out much different-just one more child to love.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. You may think you are solving a problem but it doesn't pay in the long run, to have the guilt and be sorry later. Children are a blessing, not a curse. I have 3 now and I wish I had 4.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder. A lot of women realize this too late, after they've had an abortion. Abortion should be made illegal again. It won't stop it from happening, but most women would think twice.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I knew it was killing my babies, but I did not know the procedure or risks of it was emotional.
- 3) Were you adequately informed of the consequences of abortion? None were explained to me. I was asked if I felt I could live with myself after abortion - no information was given to me so how could I honestly answer the question, so I lied & said "yes".
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No to both questions.
- 5) Did anyone pressure you into having an abortion? If so, who? #1 abortion! I was not forced however, both my parents and the babies' other parents & the father felt it was best and I was not strong enough emotionally to fight all stand up to them.
- 6) How has your abortion affected you? The father & I both felt like we had lost a part of ourselves. I was emotionally devastated. I was suicidal in thought only, depressed for a while. I suppressed memory of abortion until 1995. I took PACE classes. Physically, I'm having difficulty getting pregnant. I'm 3rd time - Endometriosis & alcohol use until 1996. No longer drink.
- 7) How has your abortion affected others in your life? My parents felt guilty & shameful as I did. We did not talk about the abortion (they only knew of it) until I entered PACE counseling. Dad had the hardest time forgiving himself. All 3 of us are very regretful.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The Truth - it's wrong to kill your baby. Emotionally devastating & could be physically devastating (complications). Abortion does not fix anything - it only makes your life worse - it destroys. I would suggest they seek help at a Crisis Pregnancy Center where people care & help you in almost every way.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? They are hurting women. There are better ways to help women as we do in the Crisis Pregnancy Centers. There should be minimal notification and informed consent at minimum, but I believe Roe v Wade should be overturned. Abortion is legalized murder & murder is wrong.

- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No to both questions
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, parents, husband, family Dr., and friends.
- 6) How has your abortion affected you? I live with the knowledge that my 2 aborted children might have been bone marrow matches for my 27 year old son who died of cancer 3 1/2 yrs. ago.
- 7) How has your abortion affected others in your life? My 2 living sons suffered through divorce and my many years of unresolved grief, anger, and shame.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? There will be long term emotional, mental, and spiritual side-effects that will need to be dealt with.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I had no real choice in the matter. There are many outside pressures to abort and no education on the matter of consequences. It is NOT our choice many times... it is lambs to slaughter.

- 1) Tell when and where your abortion occurred: JUNE 1977, San Antonio, Tx
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Yes, I was 11-12 weeks along and was told my baby was a blob of tissue, interesting it had no form or shape, I feel this was misleading and deceptive on the part of my counselor & abortionist
- 3) Were you adequately informed of the consequences of abortion? No, no abortion changed my menstrual cycle permanently. My periods stopped completely for 3 yrs, and no mention was made of the possibility/probability of the side effects that were mentioned
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, No
- 5) Did anyone pressure you into having an abortion? If so, who? It was the only option presented to me by the nurse I talked to even when I told her I didn't know what to do. My girlfriend ~~she~~ said a baby would ruin my life.
- 6) How has your abortion affected you? For years I feared I was sterile, when my second baby was born I realized what a horrible thing I had done to my first baby and have carried ~~the~~ guilt, shame, remorse & anger as a result.
- 7) How has your abortion affected others in your life? I don't know.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Your emotions, fears, & increased hormones have made you vulnerable and the quick "easy out" of abortion looks like the only solution, it is not, it is a trap that once sprung will leave you with a lifetime of regret. You will never stop counting the birthdays that should have been.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? A woman is never more vulnerable than when she experiences a "crisis pregnancy". At present women are preyed upon by an industry who want only her money & not her baby's tissues. Big business is victimizing women who's lives are in turmoil and then blame her to deal with the devastation.

BEFORE ME, the undersigned authority, on this day personally appeared Davilee Turner Stevens (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: March 1975
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. Over the phone I was told to hurry & have the abortion, that I was 10-12 wks. along. I had absolutely no anesthetic, I was told by an assistant what the "Dr" was doing as he kept putting larger & larger dilators in. The "Dr" said absolutely nothing.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? The guilt was overwhelming. I'd relive the abortion experience, wishing I could go back and stop it. I hated myself when I realized it wasn't just a "blob of tissue", rather a tiny baby that actually felt the pain as he was cut into pieces. The thought that I'd PAID someone to kill my baby was unbearable. Even after I knew God forgave me, it was impossible to forgive myself. Six years after my abortion I began the healing process with the help of my pastor, as well as other Christians God put in my path. I will grieve always.
- 7) How has your abortion affected others in your life? My 5 children have felt sadness for a sibling they'll never know this side of heaven.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It's a quick fix, but the grief is unbearable later. Single & pregnant two times, I chose abortion the first time & chose to have the baby the second time. The former I'll always regret; the latter I'll NEVER regret!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It was ONLY because the court legalized it that I thought it was OK & safe to have the abortion. I NEVER would have had a "backalley" abortion.

"I have read the above and foregoing statement and the same is true and correct."

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, I went in for a new OB apt + had a apt with my boyfriend. I was afraid and asked about abortion. They did it that apt.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? Friends at the time said they had one + it would be easier. I didn't feel support from my boyfriend to have the baby or abort. I just wasn't sure of his involvement. My baby wasn't supported at the time.
- 5) How has your abortion affected you? I was very depressed for several years. I ended up missing + then driving my boyfriend at the time because I could not forgive myself for the abortion. We had a baby a year later - born exactly on the due date of the 1st baby I had aborted. I also discovered the actual baby after the abortion, but was told it was only blood clots - I am a labor/delivery nurse + it was not a blood clot. This procedure was done in a doctor's office + I was given an anesthetic. I wanted it - they maintained my privacy + I was never forced directly into my self. At that point, I ended up in an abusive relationship - felt badly about myself + felt I felt that I was unable to forgive + left a message that I believe was no turning back.

- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them women aren't adequately informed of physical, mental, emotional risks. It is a devastating experience. It would also tell the court to try to provide services + support systems (or referrals to those) so that she feels she has other options.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Feb. 1975 San Angela, Texas
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: yes
- 3) Were you adequately informed of the consequences of abortion? physically yes. But, in fairness to the doctor's clinic, I don't think the emotional ramifications of abortion were fully known since abortion had only just been legalized.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? If so, who? no. I wanted the easy and quick solution to my "problem."
- 6) How has your abortion affected you? For the next 5 years my self esteem plummeted. I became sexually promiscuous because I believed I was a "bad" person & proved it over and over through these activities. I carried enormous GUILT BEYOND THAT AND WAS FINALLY DELIVERED FROM IT IN MAY OF 1998.
- 7) How has your abortion affected others in your life?
It was a "dark secret" that I only shared with a few people. But I had one courageous friend who challenged my belief that what I'd done was okay. She SAID, "Just because you had an abortion doesn't make it right."
- 8) Based on your own experiences, what would you tell a woman considering an abortion?
Don't do it!! As hard as you will try to believe that it is only "tissue," you will know that it is a life and you have sentenced it to death. The fact that decision will haunt you for a VERY LONG time!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That by permitting it to continue they are guilty of murder. It is not "tissue." It is a life. It is not a "fetus," it is a baby. We may try to anesthetize our consciences with words but that does not change the truth.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I knew it destroyed the unborn fetus by having it sucked out, but no other things were explained
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? my OB doctor who had followed my medical condition from the time I was a teenager
- 5) How has your abortion affected you? It has been a shameful secret that I have to reveal to new doctors, but otherwise it is not discussed
- 6) How has your abortion affected others in your life? Only my family knew and we never mentioned it again
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Even though mine was medically recommended I urge them to carry the child to full term and allow adoption. If there were a medical concern I would pray about it and place it in God's hands
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? There is emotional suffering which is long term. There is too much pressure to have an abortion when adoption is a better choice, even though emotional, you would not choose to kill your baby and carry that guilt and shame all your life.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 2/74-Jacksonville, FL -- 4/82- Houston, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was told "tissue" would be removed from my body. I was only instructed in what to expect from the procedure.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? I was encouraged by my doctor (ob/gyn) and the men involved.
- 6) How has your abortion affected you? Shortly after the first abortion I began to experience high levels of anxiety and depression which resulted in hospitalization. I numbed my negative emotions with lots of "partying" for many years after the hospitalization which led to another abortion. When I tried to give up the "party" lifestyle the anxiety and depression were worse than ever. Years of struggle with negative emotions followed: guilt, shame, low-self-esteem, anger/rage, anxiety, and depression to name a few. The ministry of a local church program called "Healing the Hurts of Abortion" helped me to work through the pain and grief of losing my children.
- 7) How has your abortion affected others in your life? I believe everyone I came into contact with was affected because of the negative emotions produced in me, but my family especially suffered. My marriage ended in divorce and my 1st born child endured a period of anger in my life directed at her.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please trust those who have gone before you, a decision for abortion is a decision to begin a destructive process that will impact you and others you will love for years to come.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Please bring the deception to an end. On the exterior abortion looks like a simple fix to an annoying/embarrassing problem, when actually it is just the beginning of a process that shuts down the potential of human life. I know that untold numbers suffer silently and many never even get to know what the source of their suffering is.

(Abortion was legal in AK then).

- 1) Tell when and where your abortion occurred: Anchorage, AK, March 10, 1972 at age 16.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was given no details as to the procedure, fetal development, or any info on risks. I was told that the baby was not alive, yet, & there was no reason to feel badly.
- 3) Were you adequately informed of the consequences of abortion? No. I was told abortion was 10 times safer than carrying a child to term when I asked about risks. No possible complications were explained.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My boyfriend & the adults we told (his older brother, age 21 and brother's girlfriend, age 26). My parents did not know.
- 6) How has your abortion affected you? Factor in several years of drug and alcohol abuse, development of bulimia. Experienced major clinical depression during & after birth of oldest living child after I learned how abortions were performed and more about fetal development. Years of nightmares, guilt.
- 7) How has your abortion affected others in your life? My mother was devastated when she learned the reason for my depression. My husband had to deal with months of my illness during a time that should have been joyful. Difficult for my children to process.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that she can not even imagine the anguish an abortion can cause for a lifetime, that you never forget, that there is help available for her and her baby. I would give her any assistance I could.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion harms, not helps women. Because it is legal, girls & women are led to think it is "O.K.". It can also abuse others to put more pressure on a pregnant girl to abort. Abortion has become an industry, at the expense of girls and women.

AFFIDAVIT

The State of TEXAS

County of BEXAR

BEFORE ME, the undersigned authority, on this day personally appeared CARMEN VRZAL (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell when and where your abortion occurred: 8/74 MICHIGAN, 1989 CHICAGO, IL.

2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: YES NO. I REMEMBER GOING FROM CLINIC TO CLINIC REQUESTING ONE & BEING DENIED IN ILLINOIS BECAUSE I WAS IN MY 2ND TRIMESTER. SOMEONE REFERRED ME TO MICH. & THERE IT WAS PERFORMED WITHOUT EDUCATING ME ABOUT ANYTHING. IN 1979 I WAS 8 WKS. A DATASHEET WAS HANDED TO ME.

3) Were you adequately informed of the consequences of abortion? NO

4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO NO

5) Did anyone pressure you into having an abortion? If so, who? NO

6) How has your abortion affected you? EMOTIONALLY. THERE DOESN'T COME A WEEK THAT PASSES THAT I DON'T THINK OF MY CHILDREN. MY HOPE IS THAT I WILL SEE THEM AGAIN IN HEAVEN & PEACE

7) How has your abortion affected others in your life? IT HASN'T.

8) Based on your own experiences, what would you tell a woman considering an abortion? THAT IT IS WRONG TO KILL A BABY REGARDLESS OF THE REASON; RAPE, INCEST, LIFE OF THE MOTHER. GOD CONSIDERS ALL LIFE PRECIOUS TO HIM.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? THAT TAKING AN INNOCENT LIFE IS WRONG, MORALLY WRONG. PHYSICIANS/SURGEONS ARE PERFORMING SURGERIES ON BABIES IN UTERO WITH SUCCESS TO PRESERVE THAT LIFE. HOW CAN THE COURT JUSTIFY TAKING THAT LIFE JUST BECAUSE "A WOMAN HAS A RIGHT TO HER OWN BODY"? THE BABY IS SEPERATE FROM HER. IT IS AN INDIVIDUAL. GROWING INSIDE OF HER

BEFORE ME, the undersigned authority, on this day personally appeared Mitzi Wadsworth (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Summer 1978, Austin, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes, I think so.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? As I have now had other children, I've realized how precious each individual life is & how the child I gave up could have been such a wonderful gift to the world. I'm deprived that child of being that special gift. I have also realized that God made that child; it was a sin against Him & the child that it terminated its life. It has taken me awhile to realize God's forgiveness of my sin.
- 6) How has your abortion affected others in your life? It was very difficult for my children to hear that their mother had terminated the life of a child that could have been their sibling.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That it is an act that once done can never be undone. And that she may not realize yet how much she may regret it for the rest of her life.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I don't know that I could tell a court abortion should be legal. I can tell a woman I think it's a moral/ethical decision that should not be made, that it is a sin against God & the baby. I don't know that I could say it should be against the law.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I WAS SHOWN THE STAGE OF THE FETUS, AND TOLD IT WAS A TOAD POLE, NOT FULLY DEVELOPED.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? BOYFRIEND
- 5) How has your abortion affected you? EMOTIONALLY, PHYSICALLY, MEDICALLY. MANY RELIVED MOMENTS, MANY SERIOUS INFECTIONS, DEVELOPED UTERINE TUMORS, ABNORMAL PAP SMEARS, SEVERE ENDOMETRIOSIS, TWO HYSTERECTOMIES BACK TO BACK, ALMOST DIED DUE TO HEMORRAGING AFTER THE ABORTION, DIDN'T GET MEDICAL HELP, THE FEAR OF MY PARENTS FINDING OUT, FRIENDS JUST PLACE TOWELS AROUND ME, AND BY GRACE OF GOD, HE SPARED ME. SEVERE TEARING AND SCARRED TISSUE OF THE UTERUS, PAINFUL, PAINFUL PELVIC PAIN ALL MY LIFE. (SCARRED FOR LIFE, UNTIL JESUS CAME IN)...
- 6) How has your abortion affected others in your life? TO CHOOSE LIFE, AND THAT LIFE CREATED BY GOD IS PRECIOUS. BECAUSE I STILL TODAY A PRO-LIFE ADVOCATE. (OUT OF IT A MIRACLE BABY BOY, BORN OUT OF ECTOPIC PREGNANCY, CARRIED HIM TO TERM, TODAY HE IS 19 YEARS OLD).
- 7) Based on your own experiences, what would you tell a woman considering an abortion? DO NOT DO IT. THE FETUS IS A BABY. IT FEELS, IT'S DEVELOPED, IT REACTS TO PAIN. THE GOING THROUGH IS JUST AS DRAMATIC, THE AFTERMATH IS DEVASTATING. EVENTUALLY THE REALITY WILL SURFACE, MAYBE NOT RIGHT AWAY, BUT YEARS LATER YOU WILL HAVE TO RELIVE YOUR ACTIONS AGAIN, IN REMEMBRANCE.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I WOULD VOTE NO (AGAINST IT). UNLESS YOU'VE LIVED IT, DONE IT, EXPERIENCED, RE-LIVED IT YOU WILL NEVER UNDERSTAND THE INTRUSION AND BARBARIC ACT THIS IS AGAINST A WOMENS BABY BUT TO A LIVING CREATED, BEING IN A MOTHERS WOMB. IT'S RIGHT OUT MURDER, AGAINST THE INNOCENT.

- 1) Tell approximately when and where your abortion occurred: 1985 & 1988 in San Antonio, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Don't really remember all the details
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? My abortions haunted me for many years. I experienced guilt, shame, depression and an ever more self-destructive lifestyle after my abortions. I have felt a huge void in my life for the loss of my babies and have been haunted by who and what they might have been and how my life would be so different because of them.
- 6) How has your abortion affected others in your life? The father of one of my babies wasn't told about the abortion till after it was done - He was very angry & upset at what I had done. No telling how this has affected him over the years!
- 7) Based on your own experiences, what would you tell a woman considering an abortion? To please consider the alternative! Abortion is not a quick fix to the "problem". Abortion hurts women emotionally and sometimes physically. Is she willing to suffer the possibility of infertility and all the shame and grief that goes along with ending her child's life?
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion hurts women, fathers, grandparents & siblings. Post abortive women suffer from physical pain, infertility, scarring, emotional trauma, depression, suicidal thoughts, etc.

BEFORE ME, the undersigned authority, on this day personally appeared Darla Weaver (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Feb, 1983, Austin, TX.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was told it was just tissue. I was never told exactly how far along I was, only that I was still in the first trimester.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? my parents and family
- 6) How has your abortion affected you? From 1983 until this year, 2002, I have suffered from Post Abortion Stress. I originally became out of control with alcohol, drugs and immoral relationships. Twice I tried to commit suicide, but I withdrew and had trouble in all relationships, being controlling and overly emotional. I have grieved silently, its ashamed to say I chose to kill my first child and to anger to love my own father any more. I can drive down the street and flashback to the abortion table. I have Care-Net and their PACE Bible Study I now have healing and hope. Although there is no proof of a connection I did have to have a hysterectomy at age 34.
- 7) How has your abortion affected others in your life? My husband has tried to comfort me thru many depressed years. My children have had to forgive me and my mom has apologized for her part. The daddy still cries for his son.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It will affect you in ways you can never imagine, for the rest of your life. The devastation of the loss of a child is hard enough without the knowledge of 'you did it.'
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Women were created to nurture an care for their children, not kill them. It absolutely creates a woman who is warped in her judgement and unable to grieve, live normally or forgive herself without help. Society doesn't stop when it turns on itself.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1981, San Antonio, Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, I was not adequately informed.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? —
- 5) How has your abortion affected you? The memory of my baby and blood in a jar haunted me for over 25 years; I never attained the goals I had set for my life; I lost my self-worth and self-confidence which caused me to continue a path of making risky decisions for my life; and because shame and guilt overcame me immediately after my abortion, I turned away from my spiritual background that I had known and never told anyone I had an abortion for over 25 years.
- 6) How has your abortion affected others in your life? My subsequent children were affected. As infants/toddlers I had trouble bonding with them, but as they grew up and wanted their freedom, I had trouble letting them go for fear of losing them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is NOT the taking of a hlop of tissue or a quick fix or something you can do and go on and forget about. Abortion IS the taking of a life - a person - a human being - created in the image of God. Abortion causes an inner turmoil →
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? My abortion kept me in an emotional bondage for years. My abortion hurt me and took the life of my unborn baby. Abortion is a devastating act upon women and their babies with long term emotional and physical affects. Abortion should not be legal.

Cont. #7. that never ceases - it causes a hole in your soul that can never be replaced. If you choose abortion, you will never be the same. If she is far enough along, I would encourage her to have a sonogram so that she can see her baby formed in her womb.

The State of Texas

BEFORE ME, the undersigned authority on this day personally appeared SHARON BLAKENEY, who, after being by me duly sworn, upon oath stated the following facts:

"My name is SHARON BLAKENEY. I am over the age of eighteen years and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm that the following facts are true:"

"It was the fall of 1988, I was seventeen years old and in my senior year of high school. My parents that had raised me in a strict Southern Baptist home were having marital problems and before the school year ended, they were divorced. I was an honor student and an officer for the school dance team. I had already been accepted to the University of Texas in Austin for college and looked forward to joining my boyfriend that I had been dating for a year and a half in Austin. He was on a golf scholarship to a private college there. Then I found out I was pregnant. I told my boyfriend first. He really didn't say anything. He was very concerned, but I don't think he knew what to say. He just held me while I cried."

"Then I told my mom. She was already under a considerable emotional strain with the problems she and dad were having, and I knew that my pregnancy would not be good news. She asked me what I was going to do."

"This threw me for a loop. I was not expecting her to ask me what I was going to do, I expected her to make the decision for me, or at least offer help if I wanted to have the baby. I believe in my heart I wanted to keep my child, but I was very afraid of the embarrassment of being pregnant while still in high school. If I kept my baby it would have meant being kicked off the drill team, probably having to drop out of high school, not graduating with my friends (or with honors), and definitely no college at UT. I was also terrified of how upset my dad would be if he found out. Looking back though, if someone had told me they would help me – anyone, my boyfriend, my mom, a counselor, anyone – I would have had my baby. Unfortunately, my boyfriend and mom never said they would help if I decided to have my baby, they just asked what I wanted to do, and there weren't any counselors to talk to at the clinic. Too embarrassed to talk to anyone else about it, and feeling like I had made a terrible mistake by getting pregnant, I decided in hopeless desperation to have an abortion. I felt it was the only way my

boyfriend could continue his college on his golf scholarship, my mom clearly didn't need any more stress in her life, and I felt terribly inadequate to bring a child into the world."

"I looked in the Yellow Pages under "abortion clinics". There were hundreds of listings. I called one on the 59 South Freeway and scheduled an appointment for the next day. The next morning my mother took me to the clinic. It was in a tall office building. I remember thinking how strange it was that there was an abortion clinic in the same building as travel agencies and law offices. I was also surprised there weren't any protestors outside. I think I wish there had been."

"We went upstairs to the clinic office. We got there before the clinic opened and there were several young girls waiting in the hall for the clinic to open. Some of them were crying. It all seemed like a very bad, very strange dream. When the clinic opened I went to the counter and signed in. They gave me a urine pregnancy test that came back positive. The receptionist asked me for two hundred dollars. I paid the money for the abortion and waited until they called my name. A lady took me in back and had me change into a gown. I then waited a while more and she came back in with the doctor. I kept waiting for someone to talk to me about other options, like adoption, or a crisis pregnancy program, or something. No one ever even said "Are you sure you want to do this?"

"The nurse told me to lie down and the doctor began the abortion. There was no physical exam done at all prior to the procedure to make sure it was safe to perform the abortion, they just did it."

"First, there were several very painful injections. Then, very painful cutting, scraping and poking deep inside me. Then a horrible, loud sucking machine was used. I felt my entire insides were being sucked out, like my very heart was being ripped from my body. I was crying and I tried to sit up. I think I wanted him to stop, but I don't know what I was trying to do, I just kept trying to sit up. The nurse pushed me down and put a gas mask on me. Then I couldn't move but I was still conscious of what was going on. There was more painful cutting and scraping, and more horrible vacuuming of my insides. It was the most awful thing I've ever experienced in my whole life."

"Then the nurse made me get up and get dressed right away, which was very difficult to do because of all the gas they gave me and the operation I had just gone through. She took me down the hall to a disgusting, crowded room full of cots with young girls laying down holding their stomachs, bleeding, and crying. It was terrible. I'm not sure how long they made me lay there but it seemed like an eternity. They would take the girls that were bleeding too much to change their sanitary napkins and then bring in another girl in the same awful state. The room stayed full. For every girl that left another was brought in. I couldn't believe how many girls were having abortions. I wondered if anyone had asked them if they were sure that was what they wanted, or if anyone offered help or another option."

"One month after the abortion when I went for my follow-up to my mother's OB/GYN, I found out that I had a cyst on my right ovary the size of a grapefruit. They scheduled an operation right away to remove it because the slightest movement of the cyst could cause it to twist my ovary and create a potentially life-threatening situation. If the doctor that performed my abortion had done a simple physical exam prior to beginning the procedure he would have discovered the cyst. Instead, he simply went ahead with the abortion and unnecessarily put my life in danger."

"After the abortion what I found out was that everything I was trying to protect by having the abortion was either severely damaged or completely destroyed. I went into a deep depression, and so did my mother. My mom, who had never even tasted alcohol before began to drink heavily. My parents divorced. My boyfriend and I both began to drink heavily as well. Some time later he began dealing illegal drugs and dropped out of college. I also began experimenting with drugs and quit the high school dance team. I missed almost thirty days of school my senior year after the abortion. I just didn't want to go. I didn't want to do anything but try to forget the horrible experience of losing my child."

"After many terrible fights, my boyfriend and I broke up. I had almost no control of my emotions and would turn what should have been happy occasions like my senior prom and graduation) into tragic fiascoes. I did graduate from high school, and went on to college, but did very poorly in school for the first few years. I had difficulties in every relationship with a man after my abortion, and my overall health and happiness drastically declined. I married the first man that loved me enough to ask me to marry him, just so that I could replace the child I lost and have a child I could keep. It was a terribly selfish thing to do. I was married 3 days after I turned 20, and was pregnant again one month after our wedding."

"I do have the most wonderful child in the world. His name is Cody, and he's eight years old. He is truly a blessing from God and I love him very much. While I was pregnant with Cody, I entered into a personal relationship with Jesus Christ and my whole life changed. Being a Christian doesn't give you a perfect life, but it does give you the perfect assurance that the Lord will never leave you or forsake you. Unfortunately, Cody's father and I were divorced two years after we were married. Although I had become a Christian, there were significant problems that existed in that relationship because it had not been founded in love from the beginning. It took a few years I received Christ as my savior before I fully realized that the depression I was suffering from, the unexplained feelings of guilt, the mood swings, the chemical abuse, all were symptoms of post-abortion syndrome. Once I realized that, and accepted the forgiveness and healing that Jesus Christ offered, I was a changed person."

"Now, because I'm allowing Him to, God is taking the biggest mistake I ever made and is using it for His glory, because He makes all things beautiful in His time. I pray that anyone who reads this affidavit will see that abortion was truly a harmful event in my life. The emotional and health consequences are real, and women should be told of

those consequences before making a decision that will affect them for the rest of their lives.”

“I have read the above and foregoing statement and the same is true and correct.”

1) Tell approximately when and where your abortion occurred: March 1994 in Dallas Texas

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? If so, who? NO

5) How has your abortion affected you?
I have since struggled with depression. I was after my abortion I attempted suicide. I was self destructive, sought out abusive relationships.

6) How has your abortion affected others in your life?
Because of my abortion I was shut down emotionally and was not emotionally available for my children. I sent my oldest daughter to live with her father. Our relationship suffered for years.

7) Based on your own experiences, what would you tell a woman considering an abortion?
To slow down and look ahead a few years down the road. I would tell her the truth about fetal development and that by the time she knows she is pregnant, her baby has a heartbeat.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?
I would tell the court that the choice should be made before conception takes place. Abortion takes a human life. I wish that I did not have the choice to kill my unborn baby. My choice killed me emotionally, spiritually, and almost physically.

They never tell you the truth about any of it. I got home and within ^{less} two days I was hemorrhaging. Did not know why. So I had to go through the whole procedure again. Abortion kills. Not only does it kill an innocent child, but it kills a woman emotionally, spiritually and sometimes physically. Abortion kills hopes, dreams, relationships and a woman's sense of self-worth. At least that is what it did to me. Not only did abortion kill 3 of my children but it killed a piece of me too.

At the age of 15 I became pregnant. My parents gave me a choice, abort the child I was carrying or lose my family. I chose my baby in the beginning. I was kicked out of my house and had absolutely no support from my family. The father of my unborn child was unable to financially support me. With nothing to eat, no money, still attending high school and my mother telling me to starve to death or dig in a dumpster to eat I felt abortion was my only option. She wouldn't give me a dollar for a loaf of bread but she took me to Houston and exchanged \$450.00 for the life of my child. I had no information or education about any other options available to me at that time, nor did anyone bother to tell me that abortion WAS NOT a quick fix with life long consequences.

The right for me to chose was taken from me as I sat in that doctor's office and said that I didn't think that I could go through with it and I was told that I was doing the right thing and that this was what was best. The person I trusted most told me, "it is going to be o.k." and in the same breath said that she couldn't get her money back anyway. Little did she know that her daughter's hopes, dreams, self-worth and chance at a normal life would be killed along with that unborn child. Nothing would be "ok" for a LONG time.

After my abortion experience I tried to find relief through drugs, alcohol and sex. Those were my ways of masking the guilt, shame and depression. I hated everything. I hated life, my mom, God and myself. Nothing mattered anymore and to die a physical death seemed my only way out. Many times I attempted suicide and the cycle of destruction continued.

I eventually married and we had a child together. My ability to bond with my son was killed by the guilt and shame of my first abortion. It took many years for our bonding to take place, and until it did, guilt, shame, embarrassment and depression tormented me. After 2 years of marriage, we divorced.

I went on to have 2 more abortions which only escalated my cycle of destruction. I was bitter, angry, hurt, ashamed and looking for a way out. In 2001 I found myself again wanting to end my life. I cried out to God and He answered me. He carefully laid a plan for my healing. 2 years later, in 2003, I went thru the FACE program at my local crisis pregnancy center. It was there that I found hope again. The healing process has been painful, but it is SO worth it.

Abortion is NOT a quick fix to a problem, it IS a problem, as well as a crime. Abortion kills and no longer can I stand by and remain silent. Tho I am but one voice, I know I speak for many women who have had children, hopes and dreams killed by this act of violence. It is time for the killing to stop!

1) Tell approximately when and where your abortion occurred: Spring 1979 - The Fairmont Center 2921 Fairmont Dallas, Texas I was 18 years old.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Never, The only conversation that transpired before the abortion was about what contraceptive I would use afterwards.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No It is only within the last few years that I've been made aware of the link between the two. Even now, there seems to be a massive effort to cover the truth about abortion & breast cancer. Thank God, I've never had breast cancer.

4) Did anyone pressure you into having an abortion? If so, who? No

5) How has your abortion affected you?
There's not enough space to tell you how I've been affected. It is only through the grace of God that I've survived the ordeal both physically and emotionally. I lived for 16 years carrying the burden, guilt and shame of what I had done. If God had not set me free in 1995, I would probably be dead by now.

6) How has your abortion affected others in your life? My abortion caused me to put up a wall of self protection, never allowing others close enough to see the real me, for fear that they would see the horror of what I had done to my own son through abortion. I cut myself off emotionally from others, including my own husband. It was the only way to survive.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion not only destroys your child, but it destroys you as well. It may seem like a quick fix to your problem, but you are left with a broken heart and a lifetime of regrets and emotional/physical problems.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? To me, courts were created to make/interpret laws that

are in the best interest of those it represents. How is the killing of a child in the best interest of that child, its mother, or the society that would someday benefit from his/her existence? It's not, and no one can convince me it is, I've lived that lie & now know the truth!

6) How has your abortion affected others in your life?

I've told my daughter (18) + she hugged me. I lead others to do this horrible sin. My sister + my friends - ~~my~~ my sister is regretful.

Do not do it - It will haunt you forever. The baby is innocent + is a child. Give it up for adoption if you do not want to raise a child.

THE STATE OF TEXAS

COUNTY OF BEXAR

BEFORE ME, the undersigned authority, on this day personally appeared, ELIDA CRUZ who, after being by me duly sworn, upon oath states as follows:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Some time in October 1966, when I had my abortion in Reynosa, Mexico. I was about 22 years old and I was about 4 months pregnant. The abortion was performed at a doctor's office in Reynosa. The doctor explained that he was going to inject a solution in me and that it would cause me to lose the baby. The doctor said I was too far along to do another method. He said the baby would not come out immediately. It would probably take a day or two. It was two or three months later when I went to the bathroom that the baby came out. I was devastated. It was too emotional for me to see what I had done.

The doctor didn't really communicate with me, but with the father of my baby. He did not explain anything other than I would lose the baby and that it was painless. I was not informed of the consequences of abortion. When the doctor had injected the solution, I had nausea, I was throwing up, and I was doubled over in pain. I never saw anything come out at that time.

I was never told about the risks of breast cancer. The doctor never told me that there would be any emotional problems or any physical problems by having this abortion.

The father of the baby pressured me into having this abortion. He was married at the time. I did not want to have the abortion but I was too ashamed and afraid of what people would say and I was afraid of my mother. The father said there was no other way.

I went through guilt, depression, I drank a lot, had a lot of dark moments of extreme anxiety. I married the father of the baby. I didn't feel I deserved to be happy. I was always afraid something bad was going to happen to me or my family because of what I had done. I was angry at the father, angry at myself. We were divorced eight years later. I have never been able to have any other children. I had endometriosis and the doctors told me I had a lot of scar tissue.

I never told anyone about the abortion other than the father. I guess it effected him somehow, but he never let it show.

I went through the PACE healing program and the only one I have been able to talk to was one of my younger sisters. She just felt so sorry for me that I was never able to have any other children and was very supportive.

I would tell a woman considering abortion do not do it under any circumstances. There is no shame or fear of how to raise the baby that is worth it. You will always think of that baby that you could have had and you will regret it for the rest of your life. I know several ladies that have been through abortion and they believed they could do this, that it was a woman's right to choose. Now they are going through the depression and all the baggage that goes with an abortion. Some don't even know why they have these problems, but it is because of the abortion.

A baby is a living person even if he is still in the womb and no man and no court has the right to decide whether that child should live or die. That baby is a gift from God, he has a right to live just like the judges on the court. They are giving women, physicians and nurses a license to murder innocent children."

Questions for Women Who have Undergone Abortion:

- 1) Tell when and where your abortion occurred: At age 17, in the year of 1973 at John Hopkins Hospital
- 2) How has your abortion affected you? Since I am now 44 and unable to have my own children for over 15 years I will always regret that choice I made when I was young.
- 3) How has your abortion affected others in your life? Having two tubel pregnancies with my first marriage really hurt us both. Now I hope in my life for a child with adoption - cost?
- 4) Were you adequately informed of the consequences of abortion? I was told what would happen medically - and left to imagine what happened to my child. Not told of the emotional side.
- 5) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was told that a salt solution would be put in the womb - I was not told what happened to my child.
- 6) Based on your own experiences, what would you tell a woman thinking of having an abortion? Think about all the women & men (couples) wishing they could adopt & raise a family together. And do you really want to live with the fact of killing someone?
- 7) Based on your own experience, what would you tell a court that believes abortion should be a woman's choice? Yes it is her choice. I believe to keep her child or to find a home for this little gift. No
- 8) Did anyone pressure you into having an abortion? If so, who? My family growing up was filled with words like "Don't do what I did" and "I'm sorry I every had you". Both negative.

Questions for Others Who Participated in Abortion:

- 1) Describe your role in assisting, coercing, or pressuring someone else into having an abortion. _____
- 2) Answer Questions 2-7 above from your own experience. _____

BEFORE ME, the undersigned authority, on this day personally appeared PATRICIA LOUISE CURTIS, who, being by me duly sworn, upon oath stated the following facts:

My name is Patricia Louise Curtis. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

When I was seventeen years of age, I became pregnant. At that time I was in 11th grade and I went to the school nurse. The school nurse informed me that I had three options and those were to keep the baby, give it up for adoption or have an abortion. She recommended that I give the child up for adoption explaining that there were many couples that would want my baby. I had been involved with drugs at that time and was sure it was not a good choice to have my child.

When I informed my parents, my mother asked me what I wanted to do and I told her I wanted the abortion. They sent me to my grandparents who arranged for the abortion. I was taken to John Hopkins Hospital where I had an abortion using saline solution. At that point, I still did not realize what I was doing. I was already four months pregnant. When they injected the saline solution I felt the baby kick and at that point I realized that it was all terribly wrong. I realized that I should not have done it but it was too late. I do remember that the hospital required me to sign a release form even though I was seventeen only.

I used money from my college fund to pay for the abortion. I had family supporting my decision and my father even called me the day of the abortion congratulating me that I had made the right decision. I think my parents were supporting me in this because they had began our family at age 16 or 17 due to their own unexpected pregnancy. They were going through marriage problems at that time. They had five children and I am sure they did not want me to go through what they were going through. They ended up divorcing and that devastated us.

I never fully realized what all was involved with abortion nor of its after effects. For two years after the abortion I went through a lot of feelings and guilt. Now I know I made a bad choice and live with it everyday. I am unable to carry children due to two tubal pregnancies in my life. I wonder if the saline solution or the IUD after my abortion damaged my organs. I will always wonder why I gave up my only child to an abortion.

In summary, if I had been fully informed of all the negative effects of abortion, I would have never gone through it. I believe that had I had the family support of choosing adoption instead of abortion, I would be able to have children today. Family support and support from society plays a very influential role in the life of a young woman that can not decide to keep the child knowing that she cannot provide for the child. But she needs to be aware that there is an alternative to give the child up for adoption. There are so many couples wanting to have a family. I know because we are one of them.

HOW TO COMPLETE AFFIDAVIT AND AUTHORIZATION FORM

An affidavit is a legal document that *must* be sworn to and notarized. We realize that this may be a very painful process, and we thank you for coming forward to tell the truth about abortion. With your help, and that of many other women, we hope and trust that the health of women in relation to abortion will be better protected in this country. We envision that, with your help, *Roe v. Wade* and *Doe v. Bolton*, the two cases that legalized abortion in this country, will be overturned.

Please fill out the post-abortion question and answer affidavit form or, if you prefer, write your own affidavit on the form provided. Please type, or print clearly, your information. If you need more room, insert extra pages between the first page and the signature page. Initial each inserted page at the bottom and be certain that the signature page is the last page. A sample affidavit has been provided as an example. **IT IS VERY IMPORTANT THAT THE AFFIDAVIT BE PROPERLY NOTARIZED.** Notaries are available in many locations including banks, offices, etc.

Please complete the authorization form with your contact information. If your contact information at any time changes, please inform us immediately of said changes. **PLEASE NOTE:** The fully completed authorization form must be included with the affidavit and returned to our office.

Thank you again for your willingness to relive a sensitive experience. We realize that this may be painful for you; however, only when people with actual knowledge of the problem speak out can anything be done to make a difference. We believe that your courage will not be wasted.

1) Tell approximately when and where your abortion

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Procedurally - yes. Scientifically no.

I was led to believe + deceived myself into thinking. It wasn't what I thought it was. It was only tissue mass not the life that it really was.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no

4) Did anyone pressure you into having an abortion? If so, who? no

5) How has your abortion affected you?

I am healed + God has blessed me with children - but I'll never forget + really with time + experience the joy my children bring me. The enormity of what I did by having abortions continues to grow. I know I am forgiven but I can not forget.

6) How has your abortion affected others in your life?

7) Based on your own experiences, what would you tell a woman considering an abortion?

Please, don't do this to yourself + the life within you.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion is legal, then so is any other form of murder. Is it OK then to shoot someone because they are a helpless + happen to be an inconvenience for me? I don't think anyone would think.

BEFORE ME, the undersigned authority, on this day personally appeared **ELENA DE JESUS DAVIS**, who, after being by me duly sworn, upon oath, stated the following:

"My name is ELENA DE JESUS DAVIS. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

When I was around the age of sixteen or seventeen, I got pregnant with my first child. I was still living at home with my parents, but I was spending a lot of time with my boyfriend. I lived in Mountain Home, Idaho, and traveled to Boise to see a doctor that a friend at school had recommended. (They had been cold and rude to me at Planned Parenthood and I did not want to go back and see them.) The doctor that I went to see in Boise was an older, grandfather type man. He confirmed that I was pregnant and I told him that I wanted an abortion. He asked me if I was sure and I said that I was because my dad had been having heart problems and I just did not know how all of this would affect him. I also feared what my mother would say. He showed me an article from the newspaper about people picketing an abortion clinic. I think that the article told about the pro-life point of view. He wanted to show me both sides of the issues so I could make an informed decision but he never tried to talk me out of it. I told him I was sure that I wanted to do this and he gave me an appointment to come back to get me prepared for the procedure. The day after that I was supposed to come back and have the abortion. During all of this, I never felt pregnant and I never thought about having a baby inside. I just wanted to have all of this over with so that my parents would not find out that I was sleeping my boyfriend. My boyfriend took me to Boise the next day during school so my parents didn't find out. After the procedure, all I remember was waking up in a room and I felt fine because of whatever it was they had given me to knock me out. I picked myself up on my elbows to try to see what was going on. The nurse was at the sink with a clear hose and she was washing all the bloody stuff in the hose down the sink. I said something and she turned around and dropped what she was doing and pushed me back down so that I couldn't see what was going on. She was clearly trying to hide from me what she was doing. They let me go with a prescription for Valium. My boyfriend took me to his house and I slept the rest of the afternoon until it was time for me to come home as if I had been coming from school. I must have slept the rest of the evening because I don't remember the rest of the day. One thing that my boyfriend told me still haunts me to this day. When I came out of the room of the doctor's office after having the abortion, he asked me if I had been screaming. I told him no and he said that he had heard me or someone else screaming: "My baby! My baby!". I still wonder if it was me."

"Within the next two years my dad died of a heart attack and my mom wanted to move us to Mexico but my sister and I talked her into San Antonio, Texas. I was still in contact with my boyfriend and after a few months, he came down to marry me. We were married here in San Antonio and he took me back with him to Idaho. The marriage lasted one year and I came back to Texas to live with my mom and sister. I got a job at a temp agency, and then at Long John Silver's and eventually ended up at an insurance company downtown."

"One night I went out dancing at a local club with my sister's best friend and met a guy from Boise. I was determined to try a one-night stand so I took him home with me to the apartment I shared with my mom. My mom was visiting her family in Mexico. I did a home pregnancy test soon after and find out I was pregnant. And then somehow found Dr. Bahtia. They did a pregnancy test and without asking my opinion or my situation told me that she did abortions at an abortion clinic. It was almost like Dr. Bahtia was trying to push me into making this decision. Something about her manner made me uncomfortable but I knew I couldn't afford another doctor's appointment with another doctor. I was soon calling my one stand from Boise. He knew why I was calling and he told me he wanted me to have an abortion. This time I was feeling pregnant so it was easier to lie to the people at work about being sick and having to go for tests. One day I was at work and Dr. Bahtia called me to see if I was going to come in and have the abortion. She said that my time was getting short. A later term abortion was more difficult. I made the appointment and my one night stand took me down to the back entrance of the abortion. When I got there they asked me to sign all the forms and gave me a very cursory overview in general terms of the abortion process. They took me into a large room with which seemed a bunch of beds. I can kind of remember that there were other women prepped and laying in some of the beds, but I didn't see their faces. They laid me down and put a mask over my nose and mouth and told me to breathe. What we didn't realize was that the mask didn't fit properly on my face and that I was only getting a small amount of the gas that was supposed to be my painkiller. When the abortion started it hurt so I instinctively started to move away from the pain and moan. Dr. Bahtia started getting angry with me and was telling me to hold still. Soon there were nurses holding me down and I was still feeling the pain and trying to move away. That's when I figured out that the mask was not on properly and I grabbed it and pushed it on my face and started breathing deeply to get as much gas as I could. I felt the pain diminish and the abortion was soon over. When they took me to the recovery room I didn't feel very good and wanted to lie down. My lower abdomen hurt but they wouldn't let me lie down. They gave me an over the counter pain reliever and told me that it was all they could do for me. They told me I had to go and they had someone walk me down to the door. My one night stand was outside waiting for me and drove me to his house where he kind of tried to treat me like his girlfriend but just watched TV. I cried a little and then went home. That night I had terrible abdominal pain. I had to lay very still and try to relax my abdominal muscles to make the pain go away because the over the counter pain relievers were not working. Later that night, I woke up in a pool of blood. I called my sister and had her go with me to the hospital emergency room. We waited for a long while and never got seen and finally left. When I woke up in the morning there was no

blood but the next night the same thing happened – I woke up in a pool of blood. During the day I was going through a lot of sanitary pads. I ended up calling my work from a medical clinic by my house – the doctor said I had gotten a partial abortion but that everything looked fine and that there wasn't anything really they could do.”

“I believe that these experiences led me to have terrible anger, shame, grief, depression, and an inability to bond with my first living child. It was not until I came to the saving knowledge of Jesus Christ and went through the PACE Group at my church that I received the emotional healing and forgiveness. I thank God for the volunteers that work through PACE Group and for His grace and His mercy.”

“I have read the above and foregoing statement and the same is true and correct.”

My name is Gina DeLaGarza (Print Name). I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was eighteen yrs old, when I realized I had become pregnant. ~~At~~ At first I could not believe that I had become pregnant, I told myself that it could not happen to me. I remember, I told my boyfriend at the time and he was surprised himself I was not taking any birth control, but we were being careful, but to my amazement I was pregnant.

I remember taking a pregnancy test at the clinic I went to, the clinic was on San Pedro St. and the clinic was called Reproductive Drs. I went in, they gave me a cup to urinate in, and told me ~~to~~ when I finished giving the sample, to go and wait in the waiting room. Well I did, then a few minutes later it was confirmed, I remember my heart wanted to jump out of my chest, I didn't know what to think, but I do remember the words, my mother used

to tell me, and that was, "if you ever get pregnant, you will be in the streets, because you will not be in my house! Those words stuck with me for along time". So I panicked! I told my boyfriend. And ~~he~~ ^{he} was very quiet. He really didn't say much. Anyway, the receptionist made another appointment for me to get checked, so when I went back, the doctor examined me and told me I was 1 1/2 wks along, so when I got dressed they had counselors who had spoke to me, and they went over all the options! They also told me that the abortion is a procedure that is fast and that my period would start right after it was done. They told me that the baby ^(embryo) was not yet formed and that it would not hurt me or that the baby ^(embryo) would not feel anything. They gave me the cost, and also told me that I had to make a quick decision, because if I waited another week, I would have to go to the hospital to get it down, because they won't be able to do it in the clinic. Well I was scared, and feeling very anxious, I kept saying "what do I do"! I didn't want to tell my parents, I didn't even tell my best friend (for a while) I did tell my boyfriend and we talked about we were planning a wedding before any of this began! and he had decided that I

Should go with the procedure, and asked how much it would cost, I told him \$150.00, he said he would give me the money and for me to make the appointment, but I didn't want to go thru with it, I was scared to death! But then he told me that if I didn't go thru with it, that we would not get married, so then I panicked again and made the appointment. I remember after making the appointment, I cried! I was ~~was~~ under control by the decision I did not know any better being 18 yrs old, being told by my mother that I better not come out pregnant and then my boyfriend telling me that we would not get married and then thinking of the baby! Well a couple of days later we were back at the clinic and they got me into a room with a lot of other girls who were there to have the same procedure. I remember this one girl who was about 13 yrs old and she was there with her mother and that little girl was there for her 3rd or 4th abortion. I myself did not know what I was in for, I did not know anybody who had done, so I did not know what they were going to do to me! Well when it came my turn, they had me put on a paper gown, and they examined me again then they started to get me ready, they put my feet in stirrups and pulled a table with instruments on it. It was covered so I could not see any of the surgical instruments they were going to use, and in the ~~back~~ corner I saw this jar hooked up to a machine and they told me that it was a suction machine, well, ~~it~~ was already nervous and shaking and crying.

Then the doctor comes in and stuck his fingers in me, I guess to feel the uterus I didn't know then he says in a chair in front of me and I am with my legs open and he tells me that he is going to give me a shot to numb my uterus so he did, he stuck this needle in me and told me not to move, I felt the pinch and then he told me, ~~that~~ he was going to start the procedure what happens next is disturbing to me!

I remember he started ~~that~~ ~~to~~ ~~stick~~ ~~in~~ ~~some~~ ~~instruments~~ and I could feel the whole thing, I told me it hurt but he told me it would not take long, well then he took it out and put in another one and I started to cramp, I asked them what was he doing and he told me he was dilating my cervix, and must have done this about 5 times and each time hurt worse than the first then he started scraping me and I could feel this as well and I was telling me to "Stop cause it's hurt so bad, and I was crying and grabbed the table with my hands and was holding on ~~and~~ because he had told me not to move then I remember he turned ~~on~~ on that suction machine and the noise filled the room, it was loud, and I could hear the suction and the spizzling. Then before I knew it, it was over. It didn't take 5 minutes. After it was done they put this huge Kotex on me and kept checking me for heavy bleeding after about 2 hrs they sent me home!

I remember feeling so lonely and depressed and empty. That even my boyfriend could

Comfort me. Well I got home and slept for hours and everytime I woke up, I thought it was all a dream. Well I tried to put behind me by trying to plan the wedding! We ended up getting married and that lasted 1yr and 6mths and when we divorced he had the nerve to tell me that he felt obligated to marry me, because of what I went thru for him.

Had I known then what I know now things would be a whole lot different. I went on for yrs not forgetting that experience, every now and then I would think about the baby I had aborted. Well for like 6yrs I began to party heavy and got mixed up with drugs, my life was a mess. but I did tell my self if that happened again I would never, never get another abortion again.

Well I ended up getting married again and ended up pregnant again. I was so happy, the Dr had confirmed the pregnancy and my husband and I went and told the whole family. Then tragedy happened I ended up having a miscarriage the very next day! And I kept thinking, had something gone wrong because of the abortion, I fell into depression again and into a crying spell! But all the time I kept thinking about that awful experience and I was condemning my self and believing that I was being punished for that sin. I kept trying to get pregnant, it took 4yrs

for me to get pregnant, and even when I
kept thinking that I would lose the
baby, for what I had done, well
Thank God, I had a full term pregnancy

and had a beautiful baby girl! and,
then 3 yrs later had another beautiful
baby girl, then ended up divorced
again, then I still felt at a loss
till I gave myself to the Lord!
now I know my sin is forgiven
and that one day I will be
reunited with my baby, I thank
God every day for my Salvation!

I did learn 1 thing! no matter what
the staff at the clinics or Dr's or
even Counselors say about abortion!
The bottom line is that it is
murder & ~~murder~~ defilement
conception and that abortion should
not be an option! It does affect
your mind and it will stay with
you! If you don't seek forgiveness and
thank the Lord guide you, I thank
God for the 2 Blessings He has given
me,

I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared MARIBEL DEVOUT (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: The year 1987 in February
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not aware of the cancer risk or the nature of the procedure.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The father of the baby, who was not interested in the baby; his name is Thomas Giles.
- 5) How has your abortion affected you? For twenty years I have experienced unresolved bouts of depression, anxiety and sadness, which I have attributed to unresolved grief from the nature of the cause. It has been difficult to seek help and resolve the pain, but through a group situation offered by a crisis pregnancy center, I've been able to achieve resolution of grief and healing. The greatest effect has been a dysfunctional sex interaction with my husband.
- 6) How has your abortion affected others in your life? My husband, my children by way of over protection perhaps from feelings of endangering and distrust.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? What seems like an easy, quick and legal way out of a complicated situation, really isn't in the long run. The consequences of abortion are grave and physically, emotionally and relationally. The price is too high to pay.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? What seems right in the eyes of men can only be so relative, to the nature of men which is to be self serving and immediately grabbing what seems at hand at the moment may not be right in the eyes of others whose standards for moral behavior are higher than themselves. Abortion is ending a life and a failure to protect those unable to protect themselves. Life should be protected and provided for.

I was 19 years old when I became pregnant. I felt very alone and scared. The one person who I thought would help me through this, my boyfriend, was not there to support me. He did not want to keep the baby and insisted that I have an abortion. I had never thought about having an abortion and I was heartbroken at the thought. As a matter of fact, I had always been against abortion. Even as a young girl I spoke out against abortion and why it was wrong.

I was ashamed and confused and I did not know how to communicate with my parents about being pregnant. I knew they would be disappointed. So, I kept my pregnancy a secret and kept it all bottled up inside. I remember crying myself to sleep every night at the thought of going through an abortion and losing my baby. The people that were a part of my life at that time, my so-called friends, all suggested that I have an abortion. So, that was the direction I went. I believed all the lies that I was told: how I was too young to have a child, that I needed to finish college, and that it would be better for everyone if I had the abortion. The bottom-line was that it was my "choice".

Having an abortion is something I will never forget. I was twelve weeks pregnant and should not have even been allowed to go through the procedure that day. My boyfriend was with me and was allowed to be in the room with me during the procedure. I'll never forget the look on his face as they started the machine they used for the abortion. We were not sure that we wanted to go through with it. I even asked if it was too late to change my mind. They said that it was "too late" and that they had already started the procedure. Whether this is true or not, I'll never know for sure. My instinct tells me otherwise. We cried through the whole procedure. And when it was done, we sat outside on the steps together in disbelief and in sadness, knowing that what we had done was wrong. We were numb. This was the beginning of a series of destructive behavior that continued for the next couple of years.

My parents, grandparents and siblings all found out about the abortion within days. It was heartbreaking to have to tell them what I/we did.

I went into a serious depression after the abortion. Of course, the clinics don't tell you about the depression. You've just lost a baby, and again you are going through hormonal changes. All of which I had never experienced!

I ended up going back to college the following semester, telling myself that I went through an abortion so I could continue my education. But, the depression followed me to school, and I ended up getting pregnant again. I wanted to be pregnant to fill the hole that I felt in my heart. I wanted a baby to replace the one that I had given up!

This pregnancy ended in a miscarriage. This time the baby could not survive in my already damaged uterus. I ended up having to be hospitalized because I was not having a natural miscarriage. I went through my first of two surgeries and was told later that I may never be able to have children because of the condition of my uterus.

The depression continued as I thought about how I aborted the only baby I may have ever had. I brought my depression and distress into my career and ended up losing my job because of it. I was a mess!

It wasn't until I was 21 years old that I gave my life to Christ, and found forgiveness from my savior. Through His forgiveness, and forgiving myself I was able to overcome the depression and start trying to function normally again.

I can look back and see how influenced I was at that point in my life. Why wouldn't I be? I was pregnant, scared and very hormonally influenced in everything I did. It is hard enough to

be pregnant and married, let alone, being pregnant, single, feeling alone and vulnerable. All women are at a very vulnerable time in their life when they become pregnant. I believe that abortion clinics and doctors know that we are vulnerable and they prey on our weakness. During this time in our life we make decisions we normally would not make.

I believe that if abortion were no longer legal, it would take away a lot of distress that a woman goes through when she finds that she is pregnant. I believe that a woman's natural instinct is to care for and love her child. When you throw the abortion option into the picture it makes things confusing and stressful. If abortion were not legal, a woman would be able to accept the idea of being pregnant easier and begin to plan for having a child in her life. I also believe if abortion were not a legal option, it would lead our country back to being more sexually responsible. Of course, this reshaping of our thoughts would take a little time. But in the long run, I am convinced it would make for a healthier country!

I tell you this story and share my intimate life in the hopes that you see abortion has brought only pain to me and many other women. Pain physically to the baby as they are being ripped apart and killed inside their mother's womb. And pain to the woman physically, mentally and emotionally as they realize what they have done to their baby.

Please protect women who are unable to protect themselves at this vulnerable stage in their life, and protect the unborn babies, who are unable to speak for themselves.

Thank you,
Laura Doyal

Before me, the undersigned authority, on this day personally appeared Lisa Dudley, who, being by me duly sworn, upon oath, stated the following facts:

My name is Lisa Dudley. [REDACTED]

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

At 24-years-old, I learned I was pregnant. My boyfriend immediately asked me not to have "it." He said that he would pay his half for an abortion. All of my friends said I shouldn't have "it." I was afraid to tell my family because I knew they would be disappointed that I had gotten pregnant under these circumstances. Because I was already a single parent of a son with no support from his father, I truly believed I had no options. I felt so much pressure and felt I had no way out. I had taken others to have abortions in the past, so it really didn't seem that big of a deal. Especially, if I did it right away. So at eight weeks pregnant, my friend, who I had taken for her abortion years before, was now taking me.

We quickly went into the abortion facility to avoid protestors on the sidewalk. I signed in, gave a urine sample, and waited. Along with five other women, a lady talked about how we should learn to use birth control and asked why we were there. The lady asked each of us one-by-one if this is what we wanted to do. Then we were shuffled into another waiting area. A Hispanic woman was there for her sixth abortion. I remember thinking, "How could she keep doing this?"

I was then called in for the procedure, changed into a gown, and had a sonogram. I asked if I could see the picture and was told that it wasn't a good idea. I told her it was OK, I just wanted to see. The assistant ran the probe across my stomach quickly, pressed a few buttons, turned the monitor towards me, and showed me a white dot on the screen. I remember thinking that "it" was really nothing, and it would be okay not realizing she wasn't even showing me my baby.

I was then taken into the next room and positioned on the table. The abortionist came into the room. I looked up and realized that the abortionist was one of the clients of the law office where I worked. I wanted to die right there. The shame that came over me was just unbearable; however, he never looked at me. He never examined me, he never looked at any paperwork on me, he never asked me any questions. The assistant gave me a mask with medication to relax me. She whispered to me that I needed to stay completely still. The abortionist said I was going to feel a little discomfort as he administered the local anesthetic. There was much more pain than a little discomfort.

Then came the vacuum machine. This was the longest time of my entire life. I felt like I was being violently shaken off of the table. The nurse yelled at me to be still. I had no control over what was happening to my body. Then came the tears. I knew right then I was making the biggest mistake of my life. But it was too late. The only compassion I received was from the assistant who patted my head and said for me to go ahead and cry, that it was good to cry. It seemed like an eternity. When was the machine going to stop? I really thought I was going to die. I prayed right then and asked God to forgive me.

When they finally shut down the machine, I heard the snap of the metal instruments and the abortionist's gloves as he removed them. He slapped me on the thigh and said, "Good luck to you," leaving the room without ever looking at me. At the time I was relieved because I was ashamed I was there, but now I realize how cold and disrespectful he was and how I wish he had had the guts to look me in the eye. I realize now he was not my doctor and there was no doctor-patient relationship.

The assistant helped me up, and the nurse told me to put a pad between my legs and not get blood everywhere. I was weak and shaking uncontrollably. As I stood the pad dropped and blood poured out all over the floor. The nurse yelled at me that I was making a mess on her floor and to hold onto the pad. I was escorted to a bathroom where I was allowed to clean up and put on my clothes.

I then was taken to another room where I was told to wait. There were recliners lined up with small tables next to them with juice and cookies. Girls were curled up in fetal positions crying and in pain. I remember thinking that I was going to be fine and that I just wanted to get out of there. I wasn't cramping yet so it was easy for me to show I was okay. I asked to leave and was told I had to stay for at least 20 minutes. I was desperate to get out. When I was released, I was given a prescription for antibiotics and told I had to return for a follow-up. I remember thinking right then, "I will never come here again."

My friend looked at me stunned and said that I must not have gone through with it. I told her that I did and just wanted to leave. She was shocked, I appeared to be okay. We sped away, past protestors and went to a restaurant. I made it through half of my meal when the cramping set in, and I told her that I had to go home.

My boyfriend came by my home to make sure I was okay. I was curled up on the couch in pain and couldn't even look at him. He consoled me, and left. Our relationship soon ended after that.

My mother called me that afternoon. I told her I wasn't feeling well because I had started my period. This is where I began wearing the mask to hide my shame that lasted years. The shame was so bad I wouldn't even fill the prescription for antibiotics following the abortion because I didn't want anyone to know where I had been. The pain I suffered was the worse physical and psychological pain I have ever experienced. I felt deceived and violated. I had no idea what abortion would do to me. If someone had only warned me.

Unfortunately, my abortion began a long walk into a dark destruction lifestyle. I drank before the abortion, but drank heavier after the abortion, experimented with more drugs and spent most of my spare time in night clubs to numb the pain. I had become a "pro" at hiding things. I was a good mother when I had to be, and then I had "me" time where I could be as bad as I thought I was. I had no self-worth. All the things I said I would never do as a child, I had now done. There were few sins I hadn't committed. No one in my family was aware there was ever a problem. After the abortion, I had bouts of uncontrollable crying, sleeping too much, pain in my chest and trouble breathing. My doctor diagnosed me with depression and panic attacks for which I was prescribed medication. I never realized that this was because of my abortion.

If abortion had not been legal, I would have never been in that abortion facility that day. My child would be alive and starting high school. I would not have had the years of pain and anguish over taking the life of my own child. I would not have had the years of substance abuse and depression.

I believe that there is nothing that brings more shame and pain to women than abortion. A woman carries it the rest of her life. The government regulates and disallows procedures, medications and treatments that are not "safe" and bring harm to people. Abortion should be at the top of the list of procedures not allowed. Abortion brings only pain, sorrow and regret. Because of the scientific evidence we now have, because of the testimony of woman upon woman of how abortion hurt them, because we now know it is not good for women and it really isn't a choice, abortion should no longer be legal.

Affidavit to the Supreme Court of these United States of America.

I Margaret Gamy Ehardt offer the court my testimony in support to overturn Roe vs Wade & Doe vs Bolton, in support of Operation Outcry, Silent No More.

My first attempted abortion was 1960, I went to a midwife in San Antonio, Tx. An old dirty house close to downtown off of IH35. She placed a black pill of some type to induce abortion, at the opening of my uterus. This caused me to hemorrhage. I was taken to Baptist Memorial Hospital by my mother, she was not aware, even, that I was trying to abort this child. I told no-one. I stopped bleeding, and the pregnancy proceeded normally, my son Ronald Gary Gonzalez was born 12/9/60, healthy except for a weak eye. He is now a father of 4 boys & a minister of the gospel.

To this day my mother knows nothing of these abortions, but my five adult children do.

Let me add this important fact, my first 2 children, both boys, Michael & Ron, were born out of wedlock. The father of all my children is Jesse R. Gonzalez. He & I married in April 1962 in Bexar County, San Antonio, Texas.

1st abortion 1961. Same midwife, she used a catheter (sp) & inserted it into the uterus.

Again I started hemorrhaging, since my mother was not aware, I called a friend Janice Brunko and she took me to the midwife who cleared me out. I remember her saying I was alot further along than she had thought. I recovered.

2nd abortion about 1964. Jess & I were married & had moved to Stockton, Ca.. Finding myself pregnant again, I had my daughter Dawn Christine Gonzales by then; I had saved the catheter the midwife had used, & with a straight wire coat hanger, Jess inserted the catheter into my uterus. I will never forget when I passed the fetus/baby in the toilet, I can still see, in my minds eye, the embryo, and then I flushed my baby into the sewer lines. Not even a proper funeral. I was so ignorant.

But I still did not learn. 3rd abortion, about 1965. Again Jess with catheter & wire hanger inserted into uterus. But nothing happened & I removed it. Then during this same period of time. A day or two, I was at a stop sign, in the little english ford station wagon we owned, & was rear ended by another vehicle. I received a serious whiplash and did seek Doctors treatment. At this same time I started having a cream colored

discharge & serious pain for 2 or 3 days, until it got so bad one night I had my husband take me to the hospital. The pain was so bad I could not walk, so a wheelchair was brought to the car. I was wheeled into the ER room and when I stood up to get on the table I gushed out blood, flooding the floor, the rest is like a blur. I remember being in a hospital room, delirious (sp), fever, etc. Some time in the night, I remember the nurse coming in to check me, she rolled me over and said this is what we were waiting for, or words to that effect. The next morning I went in for a D+C. I do remember having, what some may call, an out of body experience. I remember I was floating above the operating table looking down, I remember nothing else. Then I believe later on the next day, the doctor came in and took my hand & with his other hand he held his thumb & index finger close together & said, honey, we came this close to losing you. I think I was in the hospital close to a week. I received iron shots, very painful in both hips, no blood transfusion, because I was so anemic.

Of course before long I was pregnant again, but this time I told my husband "no more

abortion) and convinced him to get a
 hysterectomy. The result of this pregnancy
 was twins girls. Conceived 2 ~~wt~~ weeks apart.
 Perfect and healthy, born July 24, 1966 in
 Stockton, Ca. Antoninette Jude 4'10" &
 Leticia Margarita 4'2" both of 9 lbs exactly.

Jess & I divorced in April 1972, Bexar
 Cty., San Antonio, Tx.

I remained with (wks) to John Wheeler,
 no thought went into this marriage, I didn't
 even know this man. John & I divorced
 in April 1984, Travis Cty., Austin, Tx.,

Well on May 4, 1984 I met Robert Ehardt,
 he moved in within a few days & we finally
 married March 16, 1985. Today after 18 yrs
 together we are divorcing. Hopefully this should
 be final by or before July 15, 2002.

What is the result of these abortions, well
 in 1970, at the tender age of 28, I had a
 partial hysterectomy, the uterus, in a pre-
 cancerous state & half of the right ovary, plus
 cysts. Three marriages, each worse than the
 last, I have been my own worst enemy.

Lacking self worth, looking for love in all the
 wrong places. Shamed, abused, used, spit
 on, choked, thrown around, hit with a closed
 fist, cursed, verbally & emotionally abused.

I brought punishment on myself by very poor and wrong choices. Choices I made without conscience, but I do believe in my sub-conscience I have been punishing myself. Feeling rejected all my life, just as I rejected those precious babies I aborted.

I know now I am forgiven and renewed by the Blood of our Lord and Saviour Jesus the Christ.

I also realize that the moment that little embryos attached to my womb, life began, just as I live that embryos lived with every breath of mine so it was for that child.

I can never undo the past, but will never forget although forgiven.

Reproduction, pregnancy, is a God given gift, we have no right to kill what our Creator intends to create. Only Our Father can give life, and we are to live it until He calls us home.

Anything else is murder by choice.

So I am Pro-life but I also know it is a God given right to choose. Choose life!

But we must not be ignorant any longer, and our Father does give us the knowledge to learn what is the right choice.

I feel I must also give you a brief history of my own young life before the abortions.

My own father, Oscar Somy was at war in military service when I was born in London, Texas, Webb Co. on October 17, 1942. I think I was about 4 yrs. old when I met him. But he was never a big part of my life. My father divorced my mother when I was about 6 yrs old. About this time I got shingled on my face & was a very sick little girl. I was treated with ultra-violet rays to dry the blisters because they were about to go into my left eye. I do not have any lashes on the lower left side of my left eye, due to these treatments. At any rate, I was left with a scar or burn on my face and was ~~teased~~ teased un-mercifully by other children. Later, ~~at~~ around 7 or so I was molested by a close family member. And at age 14 I was raped. I do believe that all of these things that happened, left me feeling rejected & a sense of abandonment. Most certainly, lack of self value. Maybe this is the only way to explain the lack of value I had for the babies I aborted. But no excuses will do. And yes I did look to abortion even with my first son. Thank God, I did not find anyone to perform the abortion. He has always been my best friend and a great son. Very sensitive & loving.

I pray you will hear my plea, along with the other women honorable ~~enough~~ enough to come forward.

Please, I pray you will be given the wisdom of God and make the right decision, you will be saving our future and honoring our Creator, Father of all. After all He did send us His own Beloved and only Son to save us all.

May He Bless and Keep you and give you His wisdom.

With All Due Respect,
In His Service,
Margaret Gandy Eckhardt

Before me, the undersigned authority, on this day personally appeared ESTHER MARIE FLORES, who, being by me duly sworn, upon oath, stated the following facts:

My name is ESTHER MARIE FLORES. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"On October 31st, 1991, I had an abortion at a clinic called "A Woman's Choice" on San Pedro in San Antonio, Texas. Prior to this I had gone to Planned Parenthood. I was very shocked when they told me I was pregnant because I did not expect to be pregnant. I kept asking are you sure and she said yes. She said, "Don't worry, I'll give you a couple of numbers and they can help you." She said I could have a quick and easy procedure and it would be very simple. I remember her saying you'll be home in a couple of hours. Because of this statement, I drove myself to the clinic on the date of the abortion and had a hard time driving back home."

"I remember calling the Woman's Choice Clinic and they told me to go the next day. I kind of wanted to think about it and they kept insisting that I needed to come in right away because the longer I waited the more expensive it would be. They said they had an opening for the next morning. I remember feeling a lot of pressure to go in."

"I was told to be there at 10:00 a.m. and I was shocked how many women were there. I signed in and they took my money immediately. I paid \$350.00. When I paid they ushered me into a big room with all these women. I remember sitting there just shocked. I remember seeing women in the room crying. They were calling groups of 7-10 women at one time."

"When my turn came, our group was taken in. We were given some paper gowns and were told to undress and put the gowns on. Each one of us were taken to a small room with a table that had paper on it. The rooms looked dirty and dusty. It was not like anything you would expect in a clinic. They told me to get on the table and lie down. I had to wait maybe thirty minutes dressed like that. It was very cold in the room. When the nurse finally came in she told me to place my feet on the stirrups and told me the doctor would be coming soon. I started having second thoughts because they were so cold towards me. I felt that they were nice up until the time I paid my money and then they started treating me indifferently."

"The doctor came and he never acknowledged me. He just talked to the nurse and asked the nurse, "Is she ready?" He just started doing the abortion. I remember the pain and I told him to stop. The nurse then told me sarcastically honey, you can't stop now. I started wiggling and the doctor then angrily spoke and said the more you wiggle the more pain you'll feel. He never told me his name or said anything else but this. I have had a baby since then and the pain that I felt in the abortion was more painful than the delivery pains. I can't remember if they gave me any anesthetics but I do remember a lot of pain."

"After he finished, the nurse told me to get up and get dressed and go to a room across the hallway and there were about 10 other girls there. They all looked very weak. They gave us an orange drink because we had lost a lot of blood. A lot of the girls were crying. I remember feeling emotionally numb and angry that the women were crying. I remember thinking the only way I can deal with this is pretend it didn't happen. I had never been treated like an animal. I felt I was used. I still did not realize that I had killed the baby. I felt ashamed of the way I had been treated. I associated this shame with the shame that I had felt when I was in sixth grade and had been discriminated against because of my race."

"I did not know it was a baby. I had never been pregnant before. I did not talk to anyone about my pregnancy. I just pretended like it never happened. The only terminology I had heard was "fetus" and I thought it meant a blob. When I finally found out that the word "fetus" is latin for unborn baby I really realized what I had done.

"I still did not tell anyone but I started overeating, drinking alcohol, experimenting with drugs, struggling with depression, and avoiding any kind of intimate relationships. I could not admit the possibility that it could have been a baby but somewhere deep down inside I knew that it was a baby. It was almost like I wanted to be blind and think it was only tissue. I was in denial of what had happened."

"I started going to church and I remember at church women would go up and say that there was a support group for women that had gone through abortion. I remember feeling sorry for them without realizing I had done the same thing, but I was in denial. I was unable to turn this over to the Lord."

"I married the father of the baby I aborted. I never told him I had been pregnant nor that I had had an abortion. When I got pregnant with my son and I felt him kicking inside I could no longer deny what I had done. When I was six months pregnant, I told my best friend about the abortion I had had. She told me I needed to tell my husband but I told her no because I felt for sure the baby would be deformed or either would die and I also would die because that's what I deserved. I didn't feel that I deserved to have a healthy baby. I was also having a very hard time with my pregnancy. I did not want him to feel guilty at all."

"I was nine months pregnant when I felt it necessary to tell my husband what had happened. He shared with me that before me when he was in the Navy he had impregnated a woman and paid for her abortion and he was dealing with a lot of feelings also. He said he would look at children that were approximately his baby's age and thought that could be his son or daughter. He told me that now he understood my weird behavior after the abortion. We had broken up for a short period of time and when he came back he noticed that I was different. We got back together after the abortion. I thought I was hiding it very well but I was the queen of denial."

"I never knew that there were possible complications that could occur from having an abortion. I would tell a woman that is considering having an abortion that this is something that is irreversible. There will always be something missing in your life. There will always be sorrow associated with it. I would tell her that she needs to realize that the abortion doctors are just out to make money off of them. I have a friend that had three abortions and now as result of this she cannot go through a pregnancy full term because her uterus was forced opened and is very weak."

"I would tell the courts that abortion is only hurting women. The women are not being informed and are living with the consequences of this action. I can see my life totally destroyed had I not gotten help. I could have been a drug addict just to have been able to deal with the emotional pain that accompanies abortion. I did experiment with some drugs just to be able to numb the pain. I was going off the edge but I started going to church and that's when I was able to stop the self-destruction."

"There are no unwanted children. I have many friends that would love to adopt a child and have told me that they are willing to pay \$10,000.00 but they can't find any babies because they are being aborted so quickly. The babies are innocent. The babies are wanted. It is a lie that aborted babies are unwanted - there are many people that want these babies. We say that how could Hitler have killed all the Jews when we are doing worse here. Who knows what kind of illnesses develop because of abortion. Women are not being informed and they must be informed of the deadly consequences of abortion."

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1983 or 1984 I had my first abortion at Southmore Abortion Clinic in Pasadena, Tx. Again in 1985 at Pasadena Bayshore Hospital in Pasadena, Tx
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: All I knew is I wouldn't have a baby. The seriousness of taking an unborn life, that I was murdering what God Almighty blessed me to have never occurred to me at such a young age and as immature as I was then.
- 3) Were you adequately informed of the consequences of abortion? No, or I'd certainly not done it had I'd known I'd have to learn how to live with this guilt and to forgive myself. To have to live with the knowledge of what I've done is unbearable.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed of any link between abortion and breast cancer that I recall. No I don't have it.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, my mother, my ex-husband.
- 6) How has your abortion affected you? I don't like to remember what I've done. To remember is to grieve the loss of my children. To have to accept the fact I had no right to play God and take a human life.
- 7) How has your abortion affected others in your life? My 2nd abortion I'm sure affected the father as it would have been a child out of wedlock and I gave him no choice, I simply acted on my mother's insistence of having an abortion.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please reconsider, there are so many couples unable to have children. That adoption is a much better option. Give life, don't take it. That whatever the circumstance it's not so horrible that an unborn child should suffer the consequences of our carelessness or from the hand of others.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is a very traumatic experience that I feel no human being in their right mind is prepared to handle. Only the unknown leaves such dramatic after effects that one must live with 'til they die unknowingly 'til they've had this horrid experience.

"In the summer of 1972, I was very sick with, what I thought, was a chronic stomach virus. I never imagined after running several tests the doctor would tell me I was pregnant at 14 years, a freshman in high school."

"My parents were devastated. My dad gave me two choices: one, to get out of the house or get an abortion. After giving me an ultimatum, he made my decision and took me to the hospital to have an abortion. I was too far along so they had to induce labor. I remember being very afraid. The nurses were so mean and cruel to me. They induced labor which caused me to have a lot of pain. They didn't explain anything to me. They just hooked me up to an I.V. and waited until I passed the baby."

"I remember one of the nurses saying it was twins. I started crying and the nurse kept saying, "You should have thought about that before you got pregnant." To my surprise, I was very depressed afterwards. The babies would have been born in January of 1973. I got depressed all over again knowing they would have been born. I fought feelings of guilt for years after the abortion. In the latter part of my senior year, the depression and guilt I was experiencing led me to one day attempt to commit suicide. I praise God I wasn't successful."

"I would not advise anyone to go through an abortion. It wasn't until I gave my life over to the Lord totally that I was able to completely heal from that experience."

"My name is Amy E. Garrison and I am over the age of eighteen years and of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"I have had two abortions. In the fall of 1987 I had been dating a boy for about a year and a half and believed that he was the man that I was going to marry. I was eighteen years old at the time taking birth control pills. Even though I was taking the birth control pills I still became pregnant. My boyfriend was enraged and basically beat me the day that I told him. I also told my mother and seeing the hurt that it caused her, because of my closeness and deep love for my mother I decided that lying to her to protect her from the hurt was better than the truth and told her that I was only kidding and that I wasn't pregnant. My boyfriend and I decided that I would go to a women's clinic that was referred to me by my family doctor. My parents had medical coverage for me and I was able to get the abortion covered by the insurance without my parents' knowledge."

"The woman at the clinic confirmed my pregnancy. She told me that they would be able to schedule an abortion. There was never any discussion of any other options and there wasn't much description of what the procedure would be. In fact, they told me because I was taking birth control pills and with the abuse from my boyfriend, I probably wouldn't carry the baby. Just that they would do it and that would be it. They did tell me that I would have some spotting and cramping for the next couple of days but then I would be back to normal. A couple of days later, my boyfriend dropped me off at the clinic and he went back to work."

"They took me into a room and they gave me medication to relax and I laid down on the table. They began the procedure. I remember the sounds – a huge vacuum. They were very scary. I remember it hurting. I felt tugging and scraping. When the procedure was over I went into a recovery type room. I rested for a while. My boyfriend came and picked me up and took me to his home which was far out in the country and left me there for three days with no food and no transportation. That was the worst time for me. I was alone and hurting. I thought about what if I would have complications, what would I do?"

"After approximately one month, I moved to California. In California, I got mixed up with the wrong crowd and almost one year to the date I was pregnant again. I went to a California clinic and once again was given my only option of abortion. This time it was

in a California teaching hospital. This abortion was paid for by Medi-Cal which is state aid. This procedure was different in that I was put to sleep by an anesthesiologist so the procedure was done while I was asleep. In ways this was much worse for me because I went to sleep pregnant and woke up not pregnant. The feeling inside me was overwhelmingly empty. The recovery was about the same as the previous with cramping and spotting."

"A year after this abortion I recommitted my life to the Lord and met my future husband. Once again I ended up pregnant but it was during our engagement period. Because of our closeness with the Lord and our families abortion was not an option this time. We kept our wedding date and were married when I was four and a half months pregnant. This child has been one of the most incredible blessings in our lives. About a year after she was born we decided to expand our family. After several years of trying with no success we discovered that we were suffering from secondary infertility. It was at this point that I felt the long-term effects of abortion. I felt like I was being punished and was only able to get pregnant when I "sinned". This was probably the most painful time in my life. So after five years of this struggle and many methods of infertility treatments we were given an incredible gift from the Lord through adoption. Our second child was given the gift of life from her birth mother and has blessed our lives in immeasurable ways. The birth mother shared with me that her option of adopting out her child hurt much less than her own choice of abortion."

"I really feel that if someone would have informed me of other options and made it easy for me to do that I have chosen to give my children up for adoption and bless a family in the way that I have been blessed by adopting a child."

"Based on my experience I believe that abortion is physically and mentally harmful to women and that it should not be a legal option."

"I have read the above and foregoing statement and the same is true and correct."

in response to question how I would council for an informed decision on abortion. I had an abortion as a senior in high school in 1971/1972 My mother took me to Washington DC.. (was legal in DC before Roe Vs Wade) I do not remember the date or the hospital. I wanted to forget (common reaction to traumatic experience). I had no guilt over procedure at the time as I believed what I was told, that the fetus was only tissue. I was embarrassed and ashamed but not quilty. My mind ,intellect did not know the truth as my heart did. Society, even my own mother, did not council me correctly. Ignorance does not change fact. Disbelief does not change fact. The fact is that my first child was not allowed to develop, was rejected by his or her own mother, was killed in a gruesome, painful manner. I was responsible for this and will never be able to change this fact. I will live with this knowledge every day of my life.

I was lucky in that I was able to conceive again at a time when it was more "convenient". However, both my children were born prematurely (one 3 weeks , the other 4 weeks) and had to spent their first days in neonatal intensive care. Both are prone to allergies and upper respiratory problems, possibly due to compromised lung capacity at birth. Research has now found an added risk for breast cancer to young women who abort early thus interrupting the natural process of milk production.

Women must be told all the risks, physical as well as mental, spiritual before they can possibly make any decisions and a young woman in a crisis situation does not think clearly. A teen is not mature enough to make this decision on her own. In reality, abortion is never a right decision. Abortion is the taking of another's life. It is murder. I cannot "do away" with my born children, no matter how inconvenient I may see their care or if I feel they cause a hazard to my life. The same is true of the child in the womb. Society has made a huge mistake and is responsible for great deception and the lives of millions.

How I wish I had been told the truth, someone had said no, it is wrong, don't do it.

I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In the October of 1997, I had an abortion at the Women's Choice Clinic on San Pedro Avenue in San Antonio, Texas. At that time, I was fifteen years old.

I was popular at the high school I was attending. The school counselor and I were close friends. I confided in her that I was pregnant, and she advised me the best thing to do would be to have an abortion. She told me if I continued with my pregnancy I would probably be kicked out of the dance team and my life would be complicated with a child. We talked about this almost every day and she finally made an appointment for me with an abortion clinic. I did not go to the appointment. She then continued to talk to me about how hard it would be and scheduled another appointment for me. I went to the appointment and had the abortion done. I realize now that the school counselor pressured me into having the abortion because I was happy with the news that I was pregnant. My boyfriend was happy, too. Of course, at the age of fifteen and not having confided in anyone else for advise except her, I definitely feel that she coerced me into having the abortion. I was too vulnerable at that time.

I felt very bad after the abortion and my life went downhill. I have battled with depression since then. I have been hospitalized twice for it and have not been able to overcome it. It hurts me to see children of the age that my child would be. Yearly in October I get very depressed thinking it's my baby's birthday.

If I had the opportunity to advise a woman considering abortion I would tell her not to do it. She will have to carry scars and emotional pain for the rest of her life. I would tell her to consider adoption. I believe giving a child up for adoption is the most unselfish act a mother could do.

Abortion is very painful, physically and emotionally. I don't think anyone should be able to have abortion.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: MARCH 20, 1981 - Dallas, Texas - unnamed Clinic (address) (astar)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: The procedure was explained as 1) painless (I paid extra for drugs); 2) quick & easy recuperation. Number 1, not painless, I felt the pain & pulling of the "extraction." Number 2, physical recuperation okay, but mental recuperation - years, decades. The memory is vivid.
- 3) Were you adequately informed of the consequences of abortion? No, they said the consequences were 1) immediate solution and 2) quick absolution of an unplanned pregnancy.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Planned Parenthood and the clinic they sent me to. My parents were told of our plan... their silence was our consent.
- 6) How has your abortion affected you? For many years I never spoke of the incident, embarrassed, ashamed. In fact, for awhile I successfully blocked it out. Once I started having children, I kept wanting to be pregnant again & again to somehow make up for it. Spring 1993 I went to the hospital close to a nervous breakdown, started medications. In 1994 I joined grief-abortion-survival-recovery group, eventually finding healing.
- 7) How has your abortion affected others in your life? My husband of 20 years was the father cont. of our lost, aborted child. His grief is private and deep - almost never discussed. My parents still have regret. And even close friends don't know how to respond.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? "You have time." There is time to make a good decision. There is time to ask for advice and counsel. There is time to check out all the options. "You have time."
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Our nation has addressed the effects of slavery for over 100 years. Look at the effects of abortion under a similar scrutiny. This "medical solution" has caused a revolution of brokenness in generations of my family. I am only one - it has affected our nation - no doubt.

6) After 13 years I could forgive myself. In 1998, I finally talked to my Mom about the abortion. We found forgiveness after 17 years of silence. In May of 1999, there was finally a day when I could say, "I am personally, mentally and spiritually healed." I am able to talk about it, only if asked to; however, even now, 21 years later, I still flinch with an aching heart at abortion comments.

7) * My husband did help me through the healing time. In 1997 we planted a tree in memory of our son.

AFFIDAVIT

THE STATE OF Texas

COUNTY OF Chambers

Before me, the undersigned authority, on this day personally appeared Robin Houghton, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

[REDACTED]

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

My name is Robin Houghton and I am 39 years old. When I was in Middle school my parents divorced. That was a very hard time in my life and I guess that is where I started with my depression. All though at the time it wasn't something that I thought of as something wrong with me, just something wrong with everyone else. When I was nine years old I was molested by a distant family member, but I had put that out of my mind for a very long time and always just thought that it had been something that I had just imagined. After some counseling I realized that it had happened and was able to finally work through it.

During the time of the divorce my sister and Father and I all lived with my Grandmother and Grandfather for awhile. It was ok until I began to realize that both of my parents were dating other people. I did not enjoy them at all. As time went on they both remarried. I was not happy but I had not been happy for along time and there probably wouldn't have been anything that either of them could have done to change that. We moved in with my Father's new wife and family. I had always had alot of attention when I was younger and all that was gone now. I craved that attention again and since I was so depressed all the time I did what ever I could to gain that attention back again. I acted out as much as I could. I looked for ways of getting someone to love me. By the time I got into High School I had started dating anyone I could find. I finally found someone whom I thought loved me for me. We dated for a long time. There was a major problem, he was african american and I was white. In my community at the time that was unheard of in the early 80's. I dealt with family, friends and even the KKK. I had been followed by the klan and told to go home on a few occasions, tires slashed, etc. I tried at times to break away but just couldn't, I even ran away with him at one time.

I graduated High School and went to Houston to a business school, hoping that that would make me get some attention again. It was just an easy way to do what I wanted. I came back home at Christmas that year and met up with that old guy. He and I spent some time together and I returned to school. After a month or so I realized I was pregnant. I got kicked out of school and had to move home. I knew that abortion was wrong or that is what I had always been taught, not knowing the whole truth behind abortion. I at the time didn't plan on having one. I had so much conflicting advise I didn't know what to do. I finally talked to the guy and he demanded that I get rid of it. I was very hurt. My family wanted me to go to San Antonio to a home for unwed mothers. We talked and for a few short days that seemed like a good idea. Then it started, I had to do this or I had to do that. Then it was just think of what you are putting your sisters and brothers through. Also think of what we are all having to deal with, in a small community. I began to think that if I left that I would never be aloud to come back home. I thought of that idea as a plan to get rid of me for good. That was the scarriest thought of my life to be sent away. It was like a choice that I hadn't made anymore but a choice that the whole community had made for me. I began to panic and my depression really took over. I had to stop this now before I was gone for good. The only other choice that I could see was an abortion. I felt like there was no other way out.

I thought it would just be an easy procecedure and it would all be over and I could move on and be happy to start over again. The appointment was made and I went in early one cold morning. The clinic was just a plain brick building nothing special but somewhat secretive. There was a very large waiting room as you walked in. I checked in and they did a pregnancy test while I waited. After awhile I was called back with about five other women into a smaller waiting room. A lady came in and gave all of us the results of the tests. After that we were all taken into a very small room to have the procecedure explained to us. That was a little hard but we were told that it would all be over soon and it wouldn't hurt very much at all. No counselling at all. We then all went into a large waiting area with lamps and a tv. It was quiet and a little dark. I was then called back into an exam room. A nurse gave me a shot to make me a little drozzy so it wouldn't hurt as much. That made me very sick. The room was like most Doctor's exam room except a canister vacuum looking device in the corner of the room covered with a very nice had knit doelly on top. The Doctor came in and told me to relax and the nurse held my hand as he turned on that vacuum and went to work. It was loud and very scarry, I began to cry. It hurt very bad, I felt like my insides were being ripped out. The pain was as if I was being torchured. It was over in a matter of minutes but it was as if time stood still. The Doctor finished and moved on to the next lady. The nurse told me to dress and go across the hall to the next room where I was to lye down on a cot to rest before I could leave.

- 1) Tell approximately when and where your abortion occurred: June 1974 Lubbock Tx
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - I had no counselling what so ever. NO one told me anything. I wasn't told what to expect, now I would feel - nothing! (over)
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? If so, who? I don't think so - I know my boyfriend wanted me to do it, but I don't remember him forcing me.
- 5) How has your abortion affected you? I have been affected in so many ways, some of which continue to surface. I have had bouts of depression, guilt & shame. I lost the relationship I was in because of this abortion. I later became infertile. With blood clots & scarring, endometriosis. Had a hysterectomy @ the age of 30. It affected my relationship with my mother; she had trouble making decisions (over)
- 6) How has your abortion affected others in your life? Probably everyone in my life has been affected because I have been affected. My husband, my son, my Mom.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would show her a picture of her imperfection on fetal development. Tell her that if she has an abortion it will hurt her forever. I would tell her NOT to do it. She will exchange one crisis for another.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that I don't believe abortion should be legal, any circumstances. It is a traumatic event and is never in the best interest of a woman. If her health is at risk then deliver the baby and try to save the child. Killing the baby on purpose is never in the best interest to the mother. (over)

2. I wasn't even scheduled for a follow-up appointment.
5. Struggled with low self esteem and feelings of worthlessness.
7. I would also tell her of the health risks involved.
8. In the case of rape or incest, abortion will just inflict more harm and trauma to the girl or woman. And if she simply doesn't want to be a mother yet there are so many couples out there who would love that baby.

Life is precious and we should always view it as such. And if the child is less than healthy with health problems who are we to say that child shouldn't live.

My testimony:

I was a sophomore at a university in Mississippi when I became pregnant. My boyfriend was the first person with whom I had been sexually intimate. This was probably in 1984. I say "probably" because so much of it is a blur to me. I remember going to a facility in a neighboring city to have a pregnancy test done. Looking back, it may have been a Planned Parenthood clinic. The test came back a strong positive. I remember the lady saying that sometimes the results were weak and inconclusive, but that mine were definitely showing pregnancy. I remember I was gripped by fear. My biggest fear was facing my parents and disappointing them. I knew I would do anything to prevent them from finding out that I was pregnant and that their daughter wasn't so perfect after all.

I told my boyfriend that we were pregnant and we made a decision to terminate the pregnancy. We drove to Mobile, Alabama to a facility. I think I found it in the Yellow Pages. I don't remember hardly anything about the place, but I do remember signing in under a false name. I remember the sense that what I was doing was wrong, very wrong. On the table with my feet spread in stirrups, I remember that when I cried out from the pain of the procedure, the doctor barked at me that I was being a baby. I was crying. I had made a decision to prevent having to face my parents, to prevent me from having to feel shame before them, and yet, I didn't realize I had made a decision that would end up bringing me *decades* of shame and pain. I had bought into a lie. I had bought into a convenient solution and thought I'd simply be able to forget and put it behind me, but I never did, and in many ways, I never will. I remember being curled up in a fetal position on the drive home. There was no going back. It was done. It was over (or so I thought).

For twenty years, I kept the abortion a secret. I came to Christ about five years later, at 24, and knew I was forgiven of the sin and was so grateful for the unmerited grace extended to me by Jesus. I vowed I would never repeat such an act and I never have. I mourned the baby and believe it was a boy. I prayed for him and released him to the Lord. I know this innocent, precious one is with his maker and that I'll meet him someday.

In the fall of 2002, my husband and I miscarried, and I revealed to him about the abortion that had occurred when I was in my late teens. I was so humiliated to have to reveal such a thing to him. It took all the courage I could muster to tell him. I have come to realize this past year that satan has used shame and my prideful desire to want to be viewed in a certain light, to keep me in bondage. I am breaking his power over me, no matter what it ends up meaning to my reputation. I contacted my college boyfriend after all these years and we openly talked about the abortion. It was very healing for me, as we both confessed it had been a wrong decision. Slowly, I have begun to share my story with my closest friends and have been received with amazing grace and love.

I now know that through my silence, I have stood by and endorsed the shedding of innocent blood in our nation and around the world. I wear a red "LIFE" bracelet as an outward demonstration that I stand against abortion. By submitting this affidavit testimony, I am making myself available to the Lord, to be used however He sees fit, no matter what that entails. I can be silent no more.

Answers to other questions:

No, I do not remember being adequately informed about the abortion, its consequences, how it terminates a pregnancy, nor do I remember being recommended options -- only the "easy" way out.

No, I was not informed about the link between abortion and breast cancer. No, I have never had breast cancer.

No, I was not pressured into having the abortion. While my boyfriend made the decision with me, I do not hold him responsible. I could have chosen LIFE and did not.

I would tell a woman considering an abortion that the after-effects of killing your child are with you long after the procedure. I would share my testimony with her and tell her it's simply not worth the regret she'll feel the rest of her life.

I would tell the judicial system that abortion violates human rights -- those of the baby who cannot speak for itself. I would tell the court that abortion tears away at the sanctity of life and that its effects bleed over onto our society across all levels. I don't know how much they would understand it, but I would tell them that there will be a day of reckoning! Father will avenge the blood that has been shed. We can stand with Him or against Him. As for me, I stand for LIFE.

Before me, the undersigned authority, on this day personally appeared CELIA G. MORROW, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Kathie Lynn Jones (Print Name). I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

My story begins May 5, 1978. It is 3 days before my 19th birthday. I'm in my freshman year of college, recently engaged to be married & 2 months pregnant. Instead of going to class, I'm on my way to an abortion clinic. The nurse at the college health clinic suggested it, my fiance demanded it & I was too scared to question it. Roe vs. Wade was a fairly new law. There was nobody protesting or handing out literature about the alternatives or consequences as we entered the clinic. I wouldn't fully realize the consequences of my decision until many years later.

At the clinic, they asked my age & my name, but didn't ask for any I.D. to confirm either. They introduced me to a counselor who asked if I was sure about my decision. She briefly explained about the procedure & what to expect afterwards. She spoke of the physical effects, the discomfort I might feel. She ~~spoke~~ never spoke of the emotional effects I might experience. She never mentioned that the life growing inside of me had its own heartbeat.

I went back out front to wait my turn with the others. Only a few of us were over 18. Several had been there before, abortion was their form of birth control.

Pg. 2

After a long & scary wait, I was taken back to begin the "procedure". I was given a very painful shot & told to relax as the doctor turned on a machine. After several minutes, he told me he was sorry but he was unable to perform the abortion. He said it would be better for me to come back in a couple of weeks, when I was further along. As the nurse took me to a room to rest, she told me the next time I came a "better" doctor would probably be there.

I never went back. A week later my mom had to take me to the emergency room, I was having a miscarriage. Up until then, my parents didn't know I was pregnant.

They say abortion stops a beating heart, it also breaks countless others. I remember the pain in my father's eyes when I woke up in my hospital room. I remember feeling so sad & so ashamed. I felt that way for a long time. I never discussed my experience with anybody, I just wanted to forget all about it.

My fiancée & I got married that summer, but we were later divorced. I remarried & began attending church with my husband. I enjoyed the pastor's sermons, all except the one's he gave on Sanctity of Life Sunday. Sometimes I sat in my pew, silently crying. Other times I couldn't stand the pain I felt in my heart, so I would just leave. After many years of bearing the shame & depression of what I'd done, I went to speak with my pastor. I was so afraid of what he or others would think of me - I had committed such a horrible sin. He asked me one simple question; "Hattie, have you asked God to forgive you?" I told him yes. He said "Then forgive yourself."

The world says that abortion is a simple, safe procedure, with no lasting side effects. That's a lie. In every 100

abortion a child dies & the life of the mother is changed forever.

Jesus tells us in John 10:10 -

"The thief comes only to steal & kill & destroy, I have come that they may have life & have it to the full."

Before me, the undersigned authority, on this day personally appeared VERONICA ANGELA JUST, who, being by me duly sworn, upon oath, stated the following facts:

My name is VERONICA ANGELA JUST. [REDACTED]

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

“When I was 18 years old I find out I was pregnant. I was not raped but I was coerced into having sex with a man older than I. This happened around Thanksgiving 1987. I did not have any kind of relationship with this man. One month later I found out I was pregnant. My family were prominent church members and I did not want my family to be embarrassed so I figured the best thing to do is to have the abortion. For the whole month of December I kept thinking about this and having doubts. Finally in January 1988, I started calling clinics that were listed in the Yellow Pages and asked for prices. I found the least expensive, A Woman’s Choice, on San Pedro. I called and they informed me that no appointment was needed but to get there early because by 9:00 a.m. there would be a long wait and they stopped doing abortions at 1:00 p.m. They also told me I would need someone to drive me because I probably would be very tired. I asked the person that answered the phone if it would hurt and she said no but that was a lie. By this point, I was in tears and I told her that I felt like I didn’t have any choices and she said you probably don’t.”

“So I made plans for a friend to pick me up and told my mom I was going to a choir function. I did not go to anyone for help. I was too embarrassed. We made plans for Saturday morning. She picked me up around 6:30 a.m. or it might have been 7:00 a.m. My friend stayed with me. By the time we got there at 7:30 a.m. there were already twenty to forty people in line. They drew blood and for the most I remember just crying and being very upset. The lady at the clinic kept saying, “Don’t worry, it won’t hurt. It’ll be a part of your life that will soon be over with so don’t worry.” I remember waiting in the reception area and seeing there was another woman there that already had three children but did not want anymore. There was a couple that looked a lot younger than I and there were a lot of different people there.”

“They called my name and took me to a back room and showed me on a chart what they were going to do. The chart had a picture of a uterus. With a pointer she showed me and she spoke, “We’re going to up through here, we will scrape, and suction. Then we’ll be done – it’ll take less than five minutes.” She told me that there would be no pain maybe some menstrual cramping. I was then told to go back to the waiting room. I remember telling the front desk clerk, I don’t think I can do this. The clerk said well you already paid for it as if to say there were no refunds. I said OK and just sat back down waiting for my turn. They had charged me \$100.00 and I was able to get the \$100.00 because my father always gave all of us \$100.00 cash for Christmas so I saved my money for the abortion.”

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

They called me and I went back. They told me to undress from the waist down and told me to get on the table. There were two nurses with the doctor. One nurse with at my head soothing me and the other nurse was assisting the doctor. I could hear the machine. The nurse instructed me to face the wall. I can't remember if the doctor said anything to me. I remember the procedure being very, very, very painful. I remember crying and I kept saying I'm sorry, I'm sorry. The doctor finished and they told me to get dressed. The nurse helped me clean up. I went into another room with cots and laid down. They gave me orange juice and crackers. They told me to go home and rest. They told me I would have bleeding and that I would need a certain amount of Kotex. They told me not to take a bath, not to have sex, and don't go swimming. I then went home. At home I was doing a lot of sleeping. I told my mom I had a really bad period and wasn't feeling well. I was cramping real bad that day and the next day. I felt very ashamed. I couldn't look at my dad or anyone else for that matter the feeling of shame was overwhelming. I kept wondering for a long time if God was going to punish me and I expected him to do so. I was not informed that I could get scarring in my uterus but I later found out that this could happen and I expected not to be able to have any children but I have two beautiful children."

"If I had to do it all over – I would hope I wouldn't do the same thing but it was too easy. No one asked my age, no one asked me for identification, no one asked if I had thought about adoption. I believe that if an adult would have sat me down and counseled me with the truth or offered their help and told me that there is an alternative, I would have chosen the alternative. It has only been through Christ's love that I have been able to forgive myself."

BEFORE ME, the undersigned authority, on this day personally appeared BOBBI KLOSS, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"I had two abortions; my first when I was fifteen in 1975 and my second when I was eighteen in 1977. My unborn children are in heaven and with my Lord. Peter is the son from my first abortion and Imane is the daughter from my second abortion."

"Abortion is a silent killer and it kills more than just the children. The children don't cry, you can't talk to anyone about it, and no one tells you that your life will ever be the same."

"I didn't know until recently how much abortion affected me. I knew the immediate loss of Peter, I cried and prayed to God to forgive me. I then became anesthetized. If I could kill my child, how much value was my own life? I became promiscuous, rebellious and suicidal. Only God knows how often He saved me from self-destruction because most of my teen life was spent in an alcoholic and drug daze. There is an untold trail of lives that I hurt beside my own, my parents, my friends, my brothers and sister and others I can't even remember. But then I took another life, Imane. If Peter didn't matter than why should I have Imane? Oh, but they both mattered then and do matter now."

"No one ever told me how the procedures worked. No one told me that when they stuck the needle in my stomach that they were going into my child's body and that he would feel pain – such great pain. No one told me what labor was and that I would actually deliver a child. No one told me with Imane that they would be breaking her up and sucking her out in pieces."

"If abortion should be a woman's choice, why don't they give us the information to make informed decisions? Why is everything hidden? Why don't they tell you how the procedure actually occurs? Why aren't records kept on how many children are killed? Why aren't records kept on how many women die on the abortion table? Why aren't records kept on how many women can no longer bear children? Why don't pro-abortionists tell us how we have to hide our head in shame? Why isn't there counseling

to assist women after they kill an innocent child. No one talks – if abortion is all right, approved by government – why does no one talk?”

“I now want to talk on behalf of Peter and Imane. Abortion is not the answer - loving our children is the answer. As parents, loving our children is to teach them right from wrong in a society where “safe alternatives” are provided. Instead of teaching the use of condoms, we should teach abstinence. Counseling and adoption alternatives should be provided for women in traumatic pregnancy situations. Please TALK!”

BEFORE ME, the undersigned authority, on this day personally appeared Carole LaFreniere, who being by me duly sworn, upon oath, stated the following facts:
"I am over the age eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In 1973, I was 15, pregnant and scared. I was terrified of my friends and family finding out so I ran away from home to California where I had an abortion. Nobody at the clinic offered suggestions or offered any options. I didn't know that there were people who would have helped me. I felt trapped and scared and just wanted a way out of my problems. I made the decision to have an abortion without any real knowledge of what I was doing.

After the abortion, I felt so alone, ashamed and evil. I cried and cried for the baby I killed. I hated myself and wanted to die. I turned to drugs to kill the pain, and kept myself numb so I wouldn't have to think. I had terrible nightmares and took wild risks with my life.

I became addicted to heroin, and got involved in the lifestyle that goes with it. I tried to kill myself twice. I put myself in dangerous situations because I didn't care what happen to me. I believed that I deserved to suffer. My life became a nightmare. I grew to hate men, I was bitter and angry. I became pregnant again 8 months later and had another abortion. Shortly after the 2nd abortion I was arrested as a run-away and sent home. The courts placed me in a drug treatment center. I never was able to bring myself to admit to my abortions and seek counseling for the guilt and anger. But I did manage to turn my life around and finish high school and start college.

I became a supporter of the right to choose. I supported abortion on demand, recommended it to friends, voted for it, but never mentioned mine. In my heart, every time somebody choose abortion or backed it, I felt vindicated. If everyone was doing it, then I wasn't a monster. I never could bring myself tell anyone what I did. I kept my silence for over 22 years. I married, had two children, yet I couldn't tell anyone. My past crippled my ability to be a good mother. I was emotionally distant from my daughters. I suffered from depression and had big time trust issues with my husband.

Abortion cost me more than I ever dreamed was possible to pay. Abortion hurt me, my living children and my husband. It drove a wedge in my relationship with my parents. It kept me from God and forgiveness

After 30 years, I still cry for the children I killed, I still struggle with issues of forgiveness and guilt. I don't want anyone else to feel the way I have. I was too young to make such a decision without knowing the cost or all the facts. I needed someone who cared about me, not about making a profit. With all the things I have done in my life, I am the most ashamed and sorry for my abortions. The other things I did to myself, but the abortions I did to my children. Abortion destroys women.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

April 1996, Ft. Lauderdale Florida

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No. I hear some vague details. I heard there was a movie, but was not shown it.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No. No

4) Did anyone pressure you into having an abortion? If so, who?

No

5) How has your abortion affected you?

I feel like a murderer. It affects me daily. I look at the children I have now and AM sad that they will never know their older sibling. I cry about the loss of my child at least once a month, usually more. It's the most horrible thing I've ever done and I often hate myself. I do

6) How has your abortion affected others in your life?

My husband who was the father of our unborn baby, before we married, also grieves. I know it has had a great impact on him too because we have cried together about our baby.

7) Based on your own experiences, what would you tell a woman considering an abortion?

You will hate yourself for the rest of your life. It's murder. I feel like a murderer and you will too. That precious soul will linger around you forever and you will know who it is. It is one thing that you will never forget and always regret. That tiny fetus is a life!

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I AM a baby that could have been an abortion. My mother was too young to care for me and gave me up for adoption. She was strong and did the noble thing. I was weak and afraid. I AM now a murderer running around free. My baby's soul follows me everywhere and I hate that I can't hold her and watch her grow up.

My Story:

My story is short, I am sure there are far worse cases than mine but the outcome is the same... an unborn baby due to legal murder.

I was eighteen years old and in a relationship I should have not been in. My boyfriend suggested that I take a pregnancy test because he noticed that my period was late. I thought he was silly. I took one secretly and it came up negative so I agreed to take one with him but the results differed. I could not believe it! I took three more, all positive. He was so excited, his mom practically bronzed the test stick and the family began to rejoice. I pretended to be happy and excited, talking about shopping for baby clothes and nursery items but the whole time I knew desperately that this could not come to pass. I tried every natural remedy to "accidentally" lose the baby, I jump roped -my-legs-out hoping that would do something but it didn't. I remember sitting on my bed crying out, all alone, "there is nothing I can do but the unthinkable". I had been pro-life for as long as I can remember. I declared at a very young age I would never get an abortion, never, no matter what. But here I was, turning in the yellow pages to the front where the abortion pages were in abundance. I came from a very loving family, high-class, with a good background, and if I had decided to carry the baby they would have loved me anyway but *I never told them*. I was a good girl; I never wanted to disappoint my family. In addition to all of that I was a prominent social representative. I had given many motivational speeches all over the United States. If I was found pregnant I would have to step down. I could not bare the shame for myself or the shame for my family so I choose instead the shame that I could hide on the inside. I had an abortion and entangled myself in lies to my family, boyfriend and his family. But nobody found out, unfortunately. I say unfortunately because if someone had found out, especially from my family, even just one person then I may have not done it the second time. My boyfriend thought I was mourning over a miscarriage. I think he somehow thought that if he secretly got me pregnant again then it would make me feel better. I was trying to act normal with him even though I wanted to leave; I wanted to stop having sex. I was secretly taking birth control the second time I got pregnant and I was on my period the first time so we can carefully say that the two common methods of safe sex were not working for me, that must make me like ½ percent of women. But either way, the second time my friends (the 2 I had) abandoned me in my desperate state and I had to go in the clinic by myself and drive myself home. I used alias names the whole time to try to protect any identity I have had.

After that I was the only one that knew. I saw my friends on campus and I told them I miscarried. I told a couple of people later because when you have taken desperate measures like that you want to talk to someone but nothing helped. I had nightmares night after night, I would wake up screaming and my mom and dad would rush in to hold me but they didn't know how to comfort me because they didn't know the severity of my heart. I just pretended to be better, a lie. When a person has cornered themselves into a house of lies then you live alone. Alone. Alone.

Thank God, for grace! One year later (after the 2nd one) I dedicated my life to Jesus. Praise the Lord for the woman who prayed with me first in the alters. She laid her hand gently on my stomach and embraced me. My healing began there and continued. Now I am healed, free of guilt, free of shame but I have a voice. I did not want to write this story but God said it was the least I could do for all the other women that He has called to stand in public. I will stand with you in testimony and prayer. May the sanctity of life prevail and may we, as a nation, turn from the lie that was sent forth years ago that abortion is not murder, it is.

To the courts: Please hear our plea and stand for something refreshingly new. Life!

Thank You. A.L.

Before me, the undersigned authority, on this day personally appeared Marie Moner Lowry, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Marie Moner Lowry (Print Name).

_____. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

On September 28, 1985, I had an abortion. I terminated my pregnancy in the eighth week. Writing this is difficult because the pain of it is still so raw, it is an ache in my heart that will not ever be healed. I did not want to have an abortion. I wanted my boyfriend to accompany me while I told my parents, but he refused. He wanted me to have an abortion. Being a coward, and a very frightened eighteen-year-old, I complied. I will never forget the experience, all the little post-its thanking the staff for making the procedure as "smooth as butter." I was never told it was a baby, I was told it was a choice. During my counseling session, the counselor told me how the government was trying to take my choice about what happens to my body away from me. She elicited funds to keep abortion legal. The counseling session was more about politics than about what was going on with me. I gave my choice away when I had premarital sex. My baby was not a choice, he or she was a person. I remember while I was in the waiting room, a Mexican woman who was in this country illegally and who was visibly showing told me she had to get an abortion or her boss would fire her. When my "turn" finally came, I just remember freezing up, I went on automatic and afterwards I just felt so alone and sick and crazy. I don't think I even cried, in fact, it was years before I could cry again. My boyfriend and I got married. I sometimes hated him and I really hated myself for being such a coward. I could not even fully face what I had done. In order to cope, I became disconnected from my emotions when I murdered my baby. It was not a good marriage and I truly believe that if I had proceeded with the pregnancy, I would have never married him. My first daughter was born when we had been married a year. I thought having another baby would make it better, but the emptiness remained. After giving birth to my second daughter, I got pregnant while I was nursing her. My husband wanted me to abort the coming child because he could not handle another baby. I refused and he made it very difficult for me during that pregnancy. I have often wondered how many women are pressured into abortions? I believe there are many who are coerced. Abortion is a tool for those who seek to escape responsibility from their actions at any cost, even murder. Many men do not care about their babies or about the women who will never stop grieving for their murdered babies. The second time I was pressured to have an abortion, I refused. I knew the cost was too high, I knew that a baby was growing inside of me, not a choice. I was blessed to give birth to a precious baby boy. My marriage ended, my ex-husband never forgave me for "forcing" him to have a child he did not want. I have never regretted my choice to refuse to be coerced and thereby bringing my son into this world. They are my blessings. My daughter Jill is 17, Kaitlyn is 14, and Alex is 12. I thank my Lord for them every day. They are all incredibly good kids who love the Lord and care deeply for others. Through Jesus Christ, I have been able to forgive myself. However, I will always miss the precious little one I never got to meet. How I wish that abortion had never been an option! With three kids to support, I went on to finish college. What nonsense that a baby destroys anyone's future. How I wish I had chosen to give my baby up for adoption, pressure from my then boyfriend, my shame and fear of my parents reaction kept me from making that choice. I believe that if there had been no easy way out, I would have so gladly chosen life for my baby. Abortion is an evil thing that never goes away, there is nothing buttery about it. It is a painful, soul-tearing, life-altering decision that haunts you forever. I have remarried and my husband loves my children deeply and has adopted them. I have learned there is no situation that a Lord cannot turn to good. I would love to adopt any baby, ethnicity nor race would not be

an issue. There are many couples desperately seeking to adopt and there are not enough babies up for adoption. Please choose life, not only for the millions of babies who are murdered each year, but for their mothers.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority, on this day personally appeared Cathy L. Martinez, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) **Tell when and where your abortion occurred:** October, 1984; at a clinic on Broadway in San Antonio, Texas.

- 2) **Were you adequately informed of the nature of abortion, what it is, what it does? No. If not, explain.** I was not fully informed as to the reality of the human life within me, that it was truly a baby and what it looked like at that present time. The explanation of the procedure was very simplified and very toned down to what you actually experience. It sounded as if it was a very casual, effortless procedure that would be quickly completed and you would not have a thing to worry about. I was not told that it would be a two-day procedure until they had already began the procedure. Once the procedure was started the first day, I was never told that I could change my mind and stop it before the remainder of the procedure on the second day. There was a lot of physical pain and discomfort the first day. They didn't tell me that I would go through that. I was full of fear of the unknown and the lack of information and understanding of what I was physically experiencing. There was no phone numbers given to me in case I had questions or problems during that 24 hour period before the completion of the procedure. Until the second day, when I was on the table and the remaining part of the operation was underway, did I know that I was 15 weeks pregnant. The sex, male, and age of my baby was verbalized by the doctor to the documenting nurse as if I wasn't even in the room. I believe at that moment reality slammed me like a ton of bricks and it was too late. I began to cry and be very upset and the nurse only quieted me down and said to be still, that it was almost over. No compassion or inclination to stop what was happening. In most instances when you are being treated by a doctor, especially when you are undergoing a serious medical procedure, your comfort, your healing, your peace during the procedure, your full understanding of what you are undergoing is the concern of the doctor and nurses. That is quite the opposite when I underwent the abortion. It was aloof, detached and insensitive. I felt like I wasn't even acknowledged as a human being but just as part of a medical experiment. No one asked how I felt or if I was okay.

- 3) **Were you adequately informed of the consequences of abortion?** They did not prepare me at all for the emotional and spiritual shock that the abortion would cause me. They did not advise me that there would be any physical, spiritual, or emotional after effects to the procedure. There was no counseling offered prior to the procedure or after. They did not offer me any options or hope for any choice other than the abortion. They told me there would only be a little discomfort like menstrual cramps. That was a big lie. Emotional distress was not even discussed whatsoever. They definitely did not inform me of any future physical complications, like painful monthly cycles, hormonal roller-coasters, or giving premature birth to future children, all of which I have experienced.
- 4) **Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.**
- 5) **Did anyone pressure you into having an abortion? Not directly. If so, who?** The man who I thought was the father would not take responsibility and, as a matter of fact, his parents sent him to work out of town and closed the door on me. The fear of my parents rejecting me and not loving me anymore was the biggest force of all. I had no desire to shame them or hurt them. As a child, I had been raised in the Baptist denomination. Unfortunately, issues like abortion were a taboo subject. I did not trust the pastor of my parents church nor was there an adult in the church that I felt that I could go to. I had already dealt with a lot of judgment and hypocrisy from those in the church as a teenager.
- 6) **How has your abortion affected you?** Once the doctor had verbalized the age and sex of my baby, and reality had rammed me in the gut, I was physically and emotionally cold, helpless, ashamed, dirty, and violated. I wanted nothing more than to jump off that table, hide myself, and run. I always wanted to bathe myself thinking that somehow I could get clean. At that time, I did not have an intimate relationship with Jesus. Initially, I thought God would punish me by never allowing me to have other children. I dreaded the possibility that I would go to hell as the reality that I had committed murder set in. I praise God that I do have four wonderful living sons but I had difficulties carrying the first three. My first son was born when I was only 6-1/2 months pregnant. He was only 2 lbs., 4 oz. when he was born. My twins were born a month early. Although multiple births are known to be difficult, I had contractions from six months till birth. I went through a lot of grief and sorrow during the pregnancies of my living children because again more reality of the loss I had caused by my own ignorant decision. Most mistakes/sins we tend to be able to repent and find forgiveness for quite easily, but with abortion it's so hard to accept God's forgiveness. It's not that you are not sorry for what you have done, you just can't believe that there's anything that God or you can do to change the awful mistake that you have made. Nothing will bring the life of your child back. Until you have truly received the love of Christ, and know that your child is in heaven, and you can see him again, you go through life thinking that you will never see

his face, or count his fingers and toes, or hold him in your arms. When you should be finding joy in the birth of your child, as in the case of my living children, the occasion of a new baby was bittersweet because you experience the tremendous robbery of all the experiences you did not get to have with the child you aborted. In my case, I was already living in a very immoral lifestyle and because I thought so little of myself after the abortion, and I felt so unloved, I had multiple relationships and two broken marriages, trying to find someone who could fill the void in my heart and make the pain go away from what I had done. I don't know that I really understood at that time why I felt so empty and unfulfilled and why I couldn't peace and the love I needed in a relationship. I became very separated from my parents, blaming them that they were the cause of decision. Thinking that if they had loved me more and been the kind of parents I could talk about anything to, that I wouldn't have done what I had done. I never shared with them what I had done so I never gave them the chance to defend themselves. I was very untrusting in relationships. I trusted no man, assuming they would all eventually negate their responsibilities. I always tended to be the one that would take on the financial responsibilities, thinking that I would be abandoned again. I was very hurt by the "friend" who had advised me to get the abortion, who referred me to the clinic she had been to, and even drove me there. She was hesitant to take me herself but gave in when I had no one else to do it. She never told me what I would be getting into and the consequences. Our friendship soon fell away after I realized no true friend would have allowed me to go through what I had. I went "addictive" in some areas which I now realize were just useless ways to try and fill a void. I drank a lot. I had many illicit relationships. I got into money/credit problems. I was always trying to seek approval/affirmation beyond the normal desires in relationships and on jobs, becoming a workaholic. I don't know how anyone could recover from abortion in any way without God. The thought that I was never good enough and always a failure always seemed to reign in my life. I always felt feelings of insecurity and abandonment. A life in Christ has changed all that for me but many women don't have not looked to God for forgiveness and healing for one reason or another. Many, like I did initially, can not believe that God would forgive them for such a horrible act, especially when a person had been raised in a church and religious home.

- 7) **How has your abortion affected others in your life?** As I mentioned above, my living sons had a difficult time coming into the world. The first three were born premature. I had a problem with anger in my early relationships so my partners took the brunt of my emotional upheavals. I believe that I used to be very overprotective of my children because I just couldn't bear the thought of anything happening to the ones I was blessed to have. I had a fear that because of what I had done, there was no protection for these, that they would be taken from me somehow. This was at times hard on my children because of the limitations I set on them.

- 8) **Based on your own experiences, what would you tell a woman considering an abortion?** Without a doubt, I would tell her absolutely do NOT have an abortion. It's a choice that you will always regret and never be able to make up for. It will affect you for the rest of your life. She could harm herself physically to the point of not being able to ever bear children, to have permanent physical problems the rest of her life. There are horror stories now of people who are very careless doctors or some who don't even have medical licenses or training performing abortions and causing great physical damage and sometimes death. I would tell her that what is inside her is a living, breathing human being purposed to be born by God and if she did not want or felt she could not raise this baby as her own, then I know someone would be willing to make it their own. I have even offered to take babies as my own if the women would go through with their pregnancies. There are so many foundations and caring people that help pregnant women with the resources they need for their babies. There's no reason a woman should have to submit herself to a human butcher and allow her child to be murdered. That may be harsh but the reality of life must be gotten across to the women. Something which abortionists fail to do, because they are in the death market, not the life market. I try to tell the women that the baby has a God-given right to life. It's mode of conception was not the baby's choice/fault. He didn't choose how he would be conceived or enter this world. We shouldn't take our mistakes out on an innocent child. We should not buy the lies of the world and the abortionists who think they are doing us a favor when they are ultimately destroying our lives and the lives of our children through deception, malpractice, and greed.
- 9) **Based on your own experience, what would you tell a court that believes abortion should be legal?** Very simply, murder is not legal, whether it be of an adult or a child. What's inside of a pregnant woman is a child, no matter the term of gestation. We put people in jail and even pronounce the death sentence on those who take the lives of others. Why is there an exception for killing a child? There are laws against suicide. Abortion is a living death for those women who have experienced it. They walk with the curse of death on them. Most people are put in asylums or psychiatric wards if they do physical harm to themselves yet a woman is allowed to let someone perform an abortion upon her and then expect her to continue a normal life when she has, in fact, undergone great harm, physically and mentally. There are laws against physical/mental abuse and victimization, yet that is what abortion is, and it is legally okay to do so. Abortion causes only anguish and grief. It is an assault of a woman. When a woman is not fully informed of all the details of an abortion prior to being involved and is not given the options to choose from, it is fraud. Abortionists have truly made the dirtied the medical profession. There is no integrity in the field of abortion. Doctors are expected to have malpractice insurance and be responsible for their actions when a person puts their physical welfare into their hands. So many women have been permanently impaired and continue to go through life in pain and torment, physically and emotionally because of the incompetence of abortionists. The present laws make murdering your child easier and cheaper than giving them life. To

hire someone to kill an adult takes thousands of dollars and great secretive planning, yet for a few hundred you can murder your child on the spot with no appointment necessary. You can take the life of a human being for less than it takes to by a house appliance. We are not God. We have no right to decide who shall live and who shall die. Our creator did not give us that authority. The lies that abortion is a help to anyone is a serious, incredible, horrible deception. Abortion helps no one. It robs the life of all involved in one form or another. It only pads the financial pockets of the abortionists. Abortionists are only legalized assassins. We have the audacity to look in horror at what happened to people in the Holocaust or across the nations where women are treated like chattel or so-called "evil" people sacrifice their children, yet in America we have abortion and it's looked at as an everyday, common occurrence. It's okay for the abortion industry to crush women and the unborn under their feet for the sake of a dollar. It's even okay to allow a woman to take the life of her child and the father, an equal participant in the baby's conception, can do nothing to stop her. How can America continue in self-extinguishing its' people?

The State of
County of

BEFORE ME, the undersigned authority, on this day personally appeared
Mrs. Sydney McKinney, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:
In Spring 1982

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No, they (the clinic) told me that it was no big deal, since it was legal. They said that it would do no harm, and that it (my child who is lost to me) was nothing and meant nothing.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?
Yes I have heard of the link now, we did not know it then. No I haven't had breast cancer, but a friend of mine who has had multiple abortions many years ago has struggled with it twice.

4) Did anyone pressure you into having an abortion? If so, who?
Yes, my fiancé demanded that I have it, or he would leave me. He was very frightend to have a baby because or marriage was quite a few months away, and finances. I was scared, because I didn't want him to leave me. However, I did say no because I couldn't stop passing out and getting sick in the clinic before I went in to have it. The nurses (?) got very put out with me and took me out into the waiting room where my now husband was and told him they weren't going to do it if I didn't stop getting sick passing out and he got furious me in the waiting room, so I went back in and did it.

5) How has your abortion affected you?
My abortion was the beginning of a downhill spiral of horrible emotional illness. It has been over 21 years of recovery, and though I have gotten some healing, this is a grief and a pain I will never totaling recover from. Immediately, after the abortion came a deep depression, and nightmares too horrible to repeat that tormented me to near insanity for many years to come. It lead to thoughts and suicidal acts. It sadly took me to a place inside my mind that I wasn't even a capable and good mother for my two living children until they were 11 and 14 years old. So I missed out on the childhoods on all my children. There is more, too much pain from abortion. I know, I KNOW, as a young girl of 18, we would have never considered it had it not been legal. We look to our legal system to be moral, even maybe when we can not, or when we fail. When you don't know better, there has to be a legal system that will be correct and won't allow murder to be an option.

6) How has your abortion affected others in your life? The sadness about this is that this horrible crime is that not only did it kill a beautiful precious innocent child. It murdered the innocence of young girl who didn't know the ugly truth about the horrors of abortion and the ramifications of the aftermath. It started off a marriage with an ugly secret of murder between them. One that thought it was "ok" the other who had the life ripped from her. One who could go on and one who had the seed of hate and bitterness taking root. I could not be the wife I was meant to be. I could not be a great mother consistently to my two wonderful children, due to the fact that without warning, I could go into deep and long periods of grief. I would be more protective of them then is healthy and many other very ill things. Thankfully, we are a very open family and have always talked and they know it is me and not them. Nonetheless, it has been hard on them. I can not get close to people, and my family sees me as someone who hides in my house and won't leave. I will go to work and come home, however, I am trying to take a class or two in college now. But everyone "worries" about me constantly. It is hard for them.

7) Based on your own experiences, what would you tell a woman considering an abortion? Ohh, I would say, precious child, your life and the one you are carrying are worth a great price. The heart that beats within you beats to live. Protect it with everything that is within you. For it is life and it is life through you and only you. Only you can bring this treasure here, to

give it the opportunity you have...life. It doesn't even matter if you feel like you have made mistakes. You have the opportunity now to do the most wonderful thing in the world, and that is make a choice for life, for someone that can't do it for itself. For someone whose next breath depends on you. Give it to them. You will never regret it. But you will always, always and forever regret it if you make the other choice, for this child, who is a child, is full of love and who can ever live with killing love. You can't.

8) Based your own experience, what would you tell a court that believes abortion should be legal? I would say ladies and gentlemen of the court: Abortion should never ever be and should have never have been made a legal act. It is a horrible act made only legal for a safety net of convenience for those who want to use it to make selfish people's life more convenient. There is no reason other then the life of the mother that it should ever be done. The pro life outfit has some believing that even teens should be able to have this done without parental consent. The physical dangers of this alone make this preposterous. But, the emotional dangers of this procedure make this a tragedy. Please do not underestimate the emotional damage it does to one when you are laying on a table with a hopeful and precious life safely within you and a doctor (?) come in and rip it out of your body, maybe not in one try, not even in two, but through three tries. Don't underestimate the emotional damage it does to a young vulnerable girl who has not told her parents and is alone in her thoughts, and knows that life, that she has been taught to protect at all cost, she is being told is ok to destroy, that it is nothing. Don't underestimate the emotional damage it does to one, when you know that that life really is something later, when it is too late because you have already believed them when you were most vulnerable that it was nothing. Don't underestimate the damage it does to a family when they see a mother/wife living her life out in her room for grief has so overcome her that she can't go out and do the most ordinary things. Don't underestimate the damage it does when you murder one child you say is nothing. It destroyed more in its death then it would have ever done in its life had it been able to live and in its' life it would have been able to give us so much more then it ever did in its death. I benefited nothing from its death.

BEFORE ME, the undersigned authority, on this day personally appeared CHRISTINA MCLAUGHLIN, who, after being by me duly sworn, upon oath stated as follows:

"My name is CHRISTINA MCLAUGHLIN and I was raised in a family where if it felt good, then do it. My dad was always running around with other women and flaunting it in front of my mother. It should come as no surprise that I thought that I had to have sex with boys to gain social approval. What is a surprise, however, is that I never got pregnant from all this until I was 17. I don't think I have ever been so scared in my whole life.

My mother counseled me to have an abortion saying all the while that she also had had one and it was no big deal. Then she paid the \$350.00 to "fix" the problem. So I was about nine weeks gestation and going in for this abortion and was so scared they had to sedate me during the procedure with laughing gas.

While I was drugged, I had this vision of little demons, green and rotting, dancing around a campfire. They were happy and dancing and singing. The stench of sulfur was emanating from these creatures and was unbearable and everywhere. But at this point, there was nothing I could do to stop anything. I woke up and everything had been "fixed." I went home that night and went to bed. I woke up after about an hour and was petrified. I could feel a presence unlike anything I'd ever felt before. I looked around my room and my walls were actually moving. I knew there were demons in my bedroom hovering over me that night and I was terrified. I loosed something in the spiritual realm with that abortion and I don't know what it was.

Surprisingly enough that wasn't enough to teach me a lesson. A year later, I got pregnant again. And I wanted to keep that baby so badly. Again, my mother counseled me to have another abortion. She said if I'd keep the baby, it would ruin my future, not to mention that she would kick me out and offer no support at all. I felt cornered, so I had another abortion. I was so scared and did not know where to turn. I had nobody. My mom gave me \$450.00 this time so I could be completely knocked out and not have to experience any of it.

I went through a grieving period after my friend, now my husband, witnessed to me. I had no idea what I had done. I know there were baby girls inside of me I'd killed. I am OK now by the grace of God. Right after my 19th birthday, I got saved. God has given me three beautiful daughters. I have a wonderful husband who is a godly man and is the priest of our household.

No matter what has ever happened to any of us. We all have the ability to overcome and to use all of our experiences to God's glory. God had told me that I am to help young women in "crisis" pregnancies understand why they should keep these babies and help them to know who they are in Christ. And then to go on and help them deliver healthy babies and become a godly parent.

As a post-abortive woman, I have to keep my eyes on the Healer and make sure that the devil feels every lie and deceit all the more terribly as I assume my position in the body of Christ and accept my role as warrior.

I am 200% everything the Texas Justice Foundation is doing and am praying for them. I am happy that they are publicly exposing *Roe v. Wade* as the torturous lie that it is. I am committed to helping post-abortive women understand that God does still love them and that He never stopped loving them. There is healing in forgiving those who have hurt you.

I have read the above and foregoing affidavit and the same is true and correct."

occurred: I had an abortion in 1977 in Austin, Texas.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I wasn't told much of anything, and I felt all of the

pain + knew exactly what was going on when it happened. I heard
the baby being sucked out quite and until I gave that child to the Lord
in my 30's, the memory + hurt of the experience haunted me for years.

3) Were you informed of any link between abortion and breast cancer? Have you had breast

cancer? No I have not had breast cancer, but it does run in
my family.

4) Did anyone pressure you into having an abortion? If so,

who? The only one that knew I was pregnant was my
boyfriend. He didn't want to be a father and he talked me
into having the abortion.

5) How has your abortion affected you?

It did not affect me until I was in my 30's, I was 19
at the time. But I never realized until that time how much
hurt + guilt I was carrying around. I became a drug addict
and alcoholic, so I didn't really think about it much until
I got sober. I have forgiven myself + God has forgiven me, but I still

6) How has your abortion affected others in your

abortions.

7) Based on your own experiences, what would you tell a woman considering an

abortion? I would tell her not to have an abortion. That since
the child was conceived, it is living, breathing, human being.
A Gift from God! That it is wrong to take an innocent persons
life, and she will regret it for the rest of her life.

8) Based on your own experience, what would you tell a court that believes abortion should be

legal? That they all need to sit + watch a film on abortion
+ see what they do to the poor baby's. That it is murder
in God's eyes, it is wrong in every way, and has long term
effects mentally on EVERY woman that chooses to do it, no
matter what they say.

Extra: My son's ex-girlfriend chose to abort his child recently, against
his wishes, so he is suffering with the pain of losing his 1st born
also. It broke my heart, like it broke my mother's, but God has both
children in his arms, and we will both see our children again in
Heaven.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it

does? No I was not informed about the nature of this process. The only thing that was stressed was to take it easy for a couple of days. This is a quick and simple process. It will be over, done and forgotten about.

3) Were you informed of any link between abortion and breast cancer? Have you had breast

5) How has your abortion affected you?

It has made me very angry toward the people who influence me to do it and also paid for it. I did not realize how much hurt, pain and self hate that I had until I came to Jesus. Mentally I almost lost my mind. I know physically I am suffering from this procedure. Abortion affects you the most

7) Based on your own experiences, what would you tell a woman considering an

abortion? I would tell her to please think about what is going to take place, I would inform her about the absolute truth. I want to love her and tell her that she is beautiful and she has so much love to give. Not do it, it is harsh and cruel to mankind. I would tell her that it would emotionally damage her later in life.

8) Based on your own experience, what would you tell a court that believes abortion should be

legal? I would tell the courts that they are doing more harm than helping. They are destroying a woman's life as well as killing another life.

So many of us have never thought twice about what we did until we are older and wiser. It is so hard for us now to come to terms with this misleading information. Abortions are wrong. Abortions can and will damage your physical body, attack your emotions later on in life and make you feel self hate. An abortion is cold and cruel to babies. How can we justify this? Whoever says yes to abortion being legal is held responsible for every life murdered.

Dear Friends,

As you can see on the enclosed affidavit, between 1972 and 1981, I had four abortions, decisions I have regretted more than anything else in my life. I give thanks that God, in His infinite mercy, has healed me of the guilt, self hatred, anger, and shame of those terrible sins. I have experienced His forgiveness; the forgiveness of my children; and, at last, forgiveness of myself.

I got the affidavit at the Project Rachel retreat in San Antonio on August 18, 2001. It was an awesome healing experience for me. It was there that I was finally able to give up all self condemnation and to receive the forgiveness of my children.

I would be very happy and grateful to help your efforts in any way possible. Please send me another copy of your affidavit, and I will copy it and distribute it to some other people who may be interested in helping you. Can you use the help of people outside of Texas? I have lived here ~~for~~ less than 2 years. I have friends and acquaintances in Mississippi and Louisiana who may be interested in helping you.

I know that God is blessing your efforts, as you are seeking to bless His unborn children and their parents.

Bless Mary,

Camelia Murphy

P.S.: As I indicated on the back of the form, I do want to tell my story—in court or any other setting where I may be of help. Cammie

When I went to general confession, when I returned to the Catholic Church in 1992, Fr. Pete told me to name my children. It was a frightening task to undertake. Before Fr. Pete gave me that "penance," I had never thought of myself as ~~carrying~~ ^{having carried} these children - children whose lives were stolen from them. I never thought of them as persons at all.

When I sat down and prayed for God to enable me to choose those names, I chose ~~the~~ names ^{to honor my} 4 favorite spiritual people: Christopher (For Christ), Mary, Francis (of Assisi), and Catherine (laboure). Immediately God told me 4 totally different names, and I knew that God had given my children their names at their conception. It was, maybe, the most emotionally powerful experience of my life. It made me realize the "personhood" of my children more than ever, and I felt terribly guilty and afraid of God's justice. However, it also, on the other hand made me realize that God must love me very much to "give me" those names. I felt like - in a very paradigmatic^(?) sense - He had given my children back to me. It was the beginning (the "seed") of building a spiritual relationship with them. I wrote the poem

on the opposite side of this page in 1994.

After the Project Rachel retreat, I decided I should share it with others who are seeking healing of the wounds of abortion.

May God bless you
and your efforts,
Cammie Murphy

BEFORE ME, the undersigned authority, on this day personally appeared Marya J. Myers who, being by me duly sworn, upon oath, stated the following facts: "I am over the age of eighteen, and I am of sound mind and competent to make this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- (1) **Tell approximately when and where your abortion occurred:** In 1973, I was living in Neptune, New Jersey. The end of January, I went to a local planned parenthood clinic. The clerk set up an abortion appointment in New York for the following Saturday, an hour away, as locally they were not yet set up for abortions.
- (2) **Were you adequately informed of the nature and consequences of abortion, what it is, what it does?** The word abortion was not even spoken, by me nor the clerk at Planned Parenthood. The clerk merely asked, "What can we do for you?" My only reply was, "We have 4 children and don't want any more." "We can make an appointment for you in New York as we are not set up yet. If you have a problem with it afterwards, we have counseling available", was her only information. I was not provided with any information on fetal child development. There was no discussion of the nature and procedure of abortion or any consequences. In my thoughts I wondered, "Why, should I have any problem with it?"
- (3) **Were you informed of any link between abortion and breast cancer?** No. Have you had breast cancer? No. Following the last mammogram, I did have a sonogram to double check thickened tissue.
- (4) **Did anyone pressure you into having an abortion? Yes. If so, who?** My husband. In Jan. '73, when I informed him I was probably pregnant, he said, "There is only one thing to do". The word abortion was never spoken but I knew what he meant; abortion had been legalized the week before. Between 1965 and 1973, I conceived 6 children. In 1965 when I was a single college student and pregnant, I never considered abortion nor did the father. We married and had a girl in 1966 and a boy in 1967. Even in 1968 when we were expecting a 3rd child and thought it was too soon, we never considered abortion. The idea of aborting was never conceived in our minds. When this child was born 2 mos. premature, we wanted him to live. Though he was close to 4 lbs., his lung was weak and he died of a stroke the 2nd morning. We had two more children. Then came January, 1973, when my husband was assuming that I would be more anemic following the birth of another child than I had been after the previous. And I was assuming our marriage was not strong enough to raise another child based on what he said. Our choice to abort was made out of fear based on lies.
- (5) **How has the abortion affected you?** The Truth- was that 2 mos. following the abortion I would loose my womb causing a gradual reduction in my estrogen production, leading to estrogen deprivation resulting in delayed depression during an early and hard menopause. **An abortion, not a pregnancy, caused serious consequences.** The Truth - was that the night before my abortion appointment I asked aloud, God, "Is there anything wrong in what I am going to do? Man says it isn't even life. What do You say?" I didn't hear an audible response and assumed it was ok. However, in the morning, a clerk from the clinic called to let me know that the Dr. had to cancel his appointments for that morning and asked me what I wanted to do? I did not remember the night before; I did not make the connection. I was not listening. I informed my

husband and he asked about the next Saturday. So, I made another appointment and I became responsible for my child's death. Guilty of murder. "God is LOVE". "I have loved you with an Everlasting LOVE; therefore, with Loving Kindness have I drawn you unto Myself". He demonstrated it immediately following the abortion as we pulled into our drive way. There was a couple waiting for us who had met my husband's mother at his childhood church during a recent lay-witness meeting. Another time when my 3 yr-old fell off her chair, reaching for a vitamin that had dropped from my hand and rolled across the table past her. As I saw her land on her neck, I felt as though I would deserve it if she broke her neck but thankfully only her collarbone was broken. Later on my husband came home one night from work under much frustration saying, "I think I would be better off dead; at least that would give me some kind of peace". I did not think that would be true but said nothing. The next day looking out the kitchen window as I washed dishes, I spoke, "God, You know I believe in You and in Your Son Who died for me; I hope when my time comes, I find out what You say is true". Shortly afterwards, we visited my husband's younger brother and went to church with him. There were several boys being baptized. For the first time, I became aware that there was something wrong between God and me, but I had no idea what it was. I heard a voice say, "Stand up and acknowledge Me". I knew it was Jesus. I turned and looked at the room of strangers and said, "No, I can't, not now". I left that day without a right relationship with God. I wouldn't listen. I am so glad He persevered in Loving me and drawing me unto Himself. We moved from N.J. to New Hampshire in 1974. On Oct. 13th, 1974, my husband's youngest brother called from the west coast to talk to him about God. My husband was out of town on a business trip. But I told him I would talk with him. He said, "I have found God to be reality; it is man that has messed up this world". I replied, "I know; I am ready to let God be the center of our lives". He suggested I take the 4 children and go to a church that had an evening service. It was Sunday afternoon and I did. I heard the man who stood up say, "Tonight, I am going to talk about doing God's Will. To do God's will you must want God's will to be your will instead of trying to make your will His". I felt the Presence of God and began to talk with Him. "Oh God, what a miserable wretch I am; I have been trying to run my own life and I am going in circles. You know I believe in You and in Your Son, that He died for me and rose from the dead"...I felt a heavy weight on my shoulder ... "Oh God, I've murdered"! The weight was gone, replaced by the Peace that passes all understanding. I knew that God was no longer far away; I belonged to Him and that rightly I had 6 children - 2 were with Him. The 1 that had died 2 mos. premature 6 years earlier and the 1 I had aborted in early Feb. 1973. "As many as receive Him, Jesus gives the Power to become the children of God. There is therefore, no more condemnation to those who are in Christ Jesus". I have Victory over sin, guilt, and shame in Jesus!

- (6) **How has the abortion affected others? The Truth- Abortion destroys relationships:** Parent-Child, Marriages, Families due to the grief, guilt, shame, and blaming. Today my husband and I agree that our choice to abort was the worst decision we ever made. Only the Mercy and Grace of God brought us forgiveness and healing and saved our marriage. **God loves us so much that He gave His Son, Jesus, to pay our sin debt.**
- (7) **What would you say to a woman considering abortion? Based on my experience:** I know that your life is precious, a gift from God. He cares; He is for you. He knows everything about you and your situation. God has a purpose and plan for your life. He will provide in His way for you—trust Him: turn to Him and ask Him to take control of your life. God loves you so much that He gave His Son, Jesus, to pay your sin debt. As many as receive Jesus, He gives the power to become the daughters of God. There is no more condemnation when you are in Christ Jesus. Your child is a gift from God to Be a Blessing. 6 times I conceived and became a mother. I only delivered 5 and raised 4. 1 child was 2 mos. premature and died; there was loss and grief. 1 child I aborted: there is grief over the loss but in addition there is the weight of guilt which is crushing when a mother is responsible for taking the life of her child. Give yourself and your child to Jesus; He is the Lord God Creator and Lover of your souls. He is able and all who put their trust

in Him are your family. Before I aborted I asked God if there was anything wrong in what I was going to do. In the morning, the clerk from the clinic called and said the doctor had to cancel my appointment. But I made another appointment and became guilty of murder. I didn't listen. Please Listen, Jesus.

- (8) **What would you say to the court concerning women and abortion?** In 1965, I was a 20 yr. old college student and pregnant. I never considered an abortion; neither did the father. So we married. In 1968, we were expecting our 3rd child. Too soon we felt but we never considered abortion; the idea was never conceived in our minds. We had 2 more children. Then came Jan. 1973. I realized I was pregnant but I did not realize I had become a mother at conception for the 6th time. I had never had an ultrasound nor read information concerning fetal child development. When I told my husband I was pregnant, he said there was only one thing to do. Abortion had been legalized the week before. My husband was assuming that I would be even more anemic after another birth than I had been after the last. I was assuming that our marriage was not strong enough for another child. **The Choice to abort was made out of fear based on lies.** The **Truth-** was that 2 months following the abortion I would lose my womb causing a gradual reduction in my estrogen production, leading to estrogen deprivation resulting in delayed depression during an early and hard menopause. An abortion not a pregnancy brought serious consequences. The **Truth-** The night before my abortion appointment I asked aloud, "God, is there anything wrong in what I am going to do? Man says it isn't even life". In the morning, a clerk from the clinic called to say, "The doctor has to cancel his appointments this morning. What do you want to do?" I did not remember the night before. I did not make the connection. I was not listening. I made another appointment and became responsible for my child's death; guilty of murder. The **Truth-** Abortion destroys relationships: parent-child, marriages, families due to the grief, guilt, shame, and blaming. Today, my husband and I agree that our Choice to abort was the worst decision we ever made. Only the Mercy and Grace of God brought us forgiveness and healing. God Loves us so much that He gave His Son, Jesus, to pay our debt of sin.

"I have read the above and foregoing statement and the same is true and correct."

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority, on this day personally appeared TIFFANY ANN KRUSE PIERCE, who, after being by me duly sworn, upon oath, stated the following facts:

"My name is TIFFANY ANN KRUSE PIERCE. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was seventeen in January of 1989 and three weeks away from my eighteenth birthday at the time of my first abortion. I can say without a shadow of a doubt that if parental consent had been mandated by law back then, I would have been unable to abort my child. I went to a clinic on San Pedro Avenue in San Antonio, Texas. My doctor's name was Santoscoy. I got his name from another girl my age that had also had an abortion.

When I first realized that I was pregnant, I was very afraid. I first confided this information with my boyfriend. We made a pact at that time that we would not share this knowledge with anyone, especially our parents, until we had made a decision about what we were going to do -- together. I kept my end of the bargain but he ran home and told his parents. Not wanting themselves or their child to be responsible for my child or me, they counseled him on how to persuade me to have an abortion. He did so very convincingly. I was asked to think about all that was before me in my life, graduation, college, career and all that I had to lose by having a child. And of course, there were my parents to think about. How would they deal with a single pregnant daughter? I would be letting them down dashing all the dreams and aspirations that they held for my life. What about him, what did I expect from him and out of him? Did I really believe we were ready to be parents? Did I really want to give up all the experiences and fun that lied ahead? I guessed not.

I made an appointment on a weekday, Friday, I remember. I had a friend's mother write me an excuse note. I told her that I had another friend that needed to have an abortion and that she needed someone to go with her. She wrote me the note. My boyfriend was also going to skip school and take me to my appointment. We were going through this together after all, just he and I. He never showed, so I drove myself to the clinic. I parked my car, went inside, filled out the paperwork and waited to take my pregnancy test.

I recall thinking about not going through with it at this point. I was alone. I was scared. But, I didn't want to let anyone down. They called my name and handed me a cup into which I was to urinate. I had already taken a home pregnancy test, so I was certain of what the results would be. I went into the bathroom, past many other girls, and did as I was told. I remembering thinking to myself in the bathroom that there were no "women" in the clinic beyond the nurses and the receptionist, just girls. Soon, the nurse was telling me that my test was indeed positive (no big surprise) and that I needed to follow her back to the counselor.

I was sat in front of a table that was already laid out with the materials they were about to present to me. The counselor asked if I understood that I was pregnant. Yes, I said. Then she asked if I understood that I was here seeking an abortion. Yes, I said. Then she began to explain to me that

U/kep

although I was approximately 12 weeks pregnant that what was inside of me was nothing more than a small glob of flesh no larger in diameter than a half dollar coin. It was not alive yet, had no heartbeat or extremities. It was just a glob of flesh. She went on to describe the procedure as not much more than a DNC. She told me that I might feel some discomfort, but not much pain. I would be given a local anesthetic and that should more than ease any pain I might feel. She then showed me to the dressing room and handed me a hospital gown, explaining that the nurse would be back for me in a moment.

The rooms in the clinic were so cold. I remember shivering while I sat there waiting for the nurse. Before long, she came and got me and took me to the room where the doctor would perform the procedure. She put my legs up in stirrups and we both waited another minute or so for the doctor. When he arrived, he said nothing to me as he prepared. Finally, he broke the silence to say that I might feel a pinch and a slight sting as he administered the local. I was given the local and then he began the process. Not long into it, he turned on the pump. I did not know what it was at the time. He inserted a hose, I suppose, inside of me and began the pumping action. As I laid there, half-naked, feet in stirrups, with no one to hold my hand or ease my mind, I remember thinking that I was going to die. I had never felt such pain, nor have I since. I thought my entire insides were being sucked out. The counselor had left this information out of her description of the procedure. I just knew I was going to die. God was going to kill me as I lied there. That was my punishment for being this stupid. When is it going to be over? When is he going to stop? I'm dying here and he doesn't even care. These were the things running through my mind as I turned my head and to my horror saw the pumping device, filled with the blood and parts of my baby. What had I done? I guess the nurse saw the pain in my face. She was kind enough to take my hand and tell me that it was almost over. There was sadness in her eyes, too.

Afterwards, they took me to an area filled with cots and I was able to "rest" until I was able to leave. They gave me juice and a cookie, I guess to level off my blood sugar and left me there, saying nothing to me from that point on. I was cramping and bleeding profusely, something else the counselor had left out about the procedure. I was given no pain medication of any sort. I stayed maybe fifteen minutes and then got up and drove myself to a friend's house. School was out for the day, so she was home. Knowing what I had been through that day, she took me to another friend's house where for the second time in my life I got stoned (on marijuana). It temporarily relieved the physical pain. Soon, my boyfriend came and picked me up.

I stayed at my boyfriend's house that night. His parents were out of town for the weekend, so I should have been able to get some rest and sleep. It was just supposed to be the two of us. Instead, he threw a party while I lay bleeding to death (I thought) on his parent's bed. It was a rough night. I was in a house full of people, but I spent the night alone.

Saturday morning, I got up, cleaned up and went home. From that point on, I went on as if nothing had happened to me. I held everything inside. No one important in my life could know what I had done. It was to be a secret forever, to death. The walls began to build up inside. It was the only way to keep my abortion a secret, to build walls. This was the first serious lie I had ever told to my parents. We drifted apart inside my heart but the facade never changed. They never suspected a thing. I would never let them. The more emotion I felt inside the more walls that went up to deal with them. Soon I wasn't feeling much of anything; the walls were now not just emotional. I began to party quite a bit. I did some drugs, and tried many others. I drank every weekend and the lies about my lifestyle began to build walls upon walls upon walls, until I couldn't see over them anymore. I had lost myself.

Later that year, my sister came to me. She believed she was pregnant and said she needed an abortion. I thought it was her boyfriend's but she had been gang raped. She didn't tell me that until many years later. I told her where to go but she wanted me to go with her. I did. While at the clinic, a mother of another sister's friend saw me. She told her daughter, who in turn told my sister. It did not take long

Yup

for her to confront me. Not wanting to divulge the true nature of my visit, I let her think she was right. For quite awhile, she used that information against me every time she wanted to borrow my clothes or my car or my money.

Time went by and I was off to college. Not wanting to go through another abortion, I had gotten on the pill with the knowledge of my parents. The winters in Lubbock are cold and like most everyone else there I got sick with what I thought was just a normal cold. It turned out to be strep throat. I went to the college clinic and they put me on antibiotics. No one explained to me that antibiotics lessen the effectiveness of the pill. I got pregnant again. It was the same time of year as the last. I went to the same place, not knowing where else to go. This time I told no one until the deed was done. I took care of my "problem" over the Christmas/New Year break. The second abortion did not emotionally traumatize me like the first. The walls I had built were certainly doing their job.

Both of my pregnancies were from the same man, my boyfriend. After the first pregnancy, our relationship changed quite a bit. He had lost respect for me. He began cheating on me and treating me badly. He also began drinking heavily on a more regular basis. Looking back, I believe it was the beginning of his spiral downwards toward alcoholism. He has been sober now for about six years.

Well, it is 1991 now. I moved to Colorado to get away from the destructive relationship I was in with my boyfriend. He followed me there. It was very easy to fall back into old patterns with him. They were familiar and my self-esteem and self-worth issues wouldn't allow me much better. In April of that year I moved home to get away from him. Yet again, he came back to visit once. We slept together and bingo, I was pregnant once again. This time I made a different decision. I was going to have the baby. Out of respect for his role in the conception, I called to let my boyfriend know that I was pregnant, again and this time I was having he or she and "NO!" he did not have a say in what I was about to do with my body. He accepted the news rather well, I thought and said he was going to come home to be with me, soon. He did not come soon.

I told my mother I that I thought I was pregnant in the food court of our local mall. She took me in her arms and loved me as only a mother could with forgiveness already in her eyes. We went to the closest pharmacy to get a test, so that we could make sure. Once we were home, I felt the need to purge as we waited for the results. I told her everything, each and every bit. I broke those walls that had been building inside of me for so long down, one by one that afternoon, until there was nothing left. We cried together and she held me tight as I revealed to her a side of her daughter that she had never known existed. When I was finished confessing, we went into the bathroom to check the results. I knew before I even took one step into that room that the test was positive. Having been pregnant twice before, I knew the feeling of being pregnant quite well.

We decided to make me a doctor's appointment to confirm our findings. The appointment was three days away. We would wait to tell my father and sisters until after the appointment. I made it one day. Without all those walls built up inside my emotions were no longer in check. The guilt of not sharing this possibility with my father was overwhelming. I called him at his office and asked if I could come in with my little sister and my mother. We drove to the office, sat down around his conference table and I looked at him with tears in my eyes and said, "Daddy, I'm pregnant". He just smiled at me and exclaimed, "Thank God, we get to go to Disneyland!" He got our pastor on the phone and we all prayed together. My pastor told me every birth, every single one, was a miracle of God and worthy of thankfulness and love. My love for those two men grew abundantly that day.

During the beginning of my prenatal care, I found out that I had type A negative blood. The abortion clinic never tested me and I could have very well bled to death without being given a shot after each of my abortions. It was only by the grace of God that nothing ever happened to me. It was during

Yup

this time period that I saw what a fetus actually looks like at twelve weeks. The picture was quite different of the one shown to me at the clinic. In fact, a baby at the gestational age of twelve weeks has a brain complete with brainwaves, a heartbeat, appendages, fingers, toes and light/dark sensitive functioning eyes. To say the least, this information was quit shocking to me since I had been told that this lump of flesh in no way was qualified to be called human life.

It wasn't long until the news of my pregnancy met my boyfriend's parents. Once again they took what was in their opinion a proactive role on behalf of their son. In a hotel room in South Bend, Indiana, my boyfriend's (who was an ex by this time) father tracked my father and I down. He and my father were having a heated telephone discussion when suddenly my father handed me the phone telling me that he wanted to speak with me now. When I said hello, he began to explain to me that if I did not agree to, at the very least, give this baby up for adoption or preferably have another abortion that he was going to tell my father everything about my life. I had already told my dad about my old lifestyle but my Mother and I had decided against telling him about the abortions. I put the phone down and covered the mouthpiece with my hand and told my father the rest of my story. He began to weep and blame himself for my bad decisions. He took the phone out my hands and told my ex-boyfriend's father that under no circumstances were we going to abort or give this baby away. So, he told on me. At which time my father said to him, "I already know all the facts and that doesn't affect our decision in the least". My father went on to say that we wanted nothing from anyone in their family and that I, with my family's help, would raise this baby on my own. The ex-boyfriend's father then began to insist on marriage. This, too, my father denied him. I was very blessed to have such a forgiving and loving and merciful father.

When, I was about seven months along, the ex-boyfriend came back. I was already a different person by then. I lost most of my "friends" when I decided to have my baby. I was also quite reckoned with the fact that I was about to become a single mother. And most importantly, I had given my life to Jesus Christ, my Lord and Savior. I was no longer the weak-minded, drug-induced, no self-esteem girl that I had once been. I was confident and strong. This did not abide well with him since he was still knee deep in the party life style.

From the beginning, things were rough and by the time our child was eighteen months, he had enough and so had I. He left and went back to Boston, Massachusetts (which is where he was originally from) to live with his mother. His parents are divorced. His father and stepmother lived in San Antonio at the time and his mother in a suburb of Boston. He was now a raging alcoholic in the very essence of the meaning of the word. More than once, he tried to drink himself to death.

About this time, I began to feel very depressed. I had a lot of guilt concerning my abortions, as well as shame. I became suicidal. The only reason I did not kill myself was my child. As God always does, He got me through. Time went by quickly, as it tends to when you become a parent. My child was soon turning three. One day while driving home from work and preschool, she turned to me and said with authority and wisdom, "Mommy do you remember those first two times you didn't have me? Jesus and I cried for you in Heaven and we just want you to know how happy we are that we are a family. We love you and forgive you." Watching her say this to me with my mouth gaping open, I then asked her, "What did you say"? She then replied, "You know what I said and what I mean. We forgive you and we love you." God spoke through my child to me to not only tell me that I was forgiven and that He loved me but also that this child was truly intended for me.

Not long before this, my ex-boyfriend had hit rock bottom and joined AA. Through AA, he, too, found Jesus. He called my father and they said the sinner's prayer together. From that point forward, he began to call our child at least once a week. He also began to badger me about giving him a second chance. One year later, I did. Today, we are married and a complete family.

Yup

Just before our wedding, God completely healed me of my post-abortion emotions. He also has used to me to reach other women with His message of complete forgiveness and mercy and, of course, grace. I have had the chance to counsel women dealing with their post-abortion emotions. In most cases (excluding some rape victims), these women all wish they could have the chance to make the decision over again. The pain and shame of abortion changes a woman like nothing else could. It makes her weak and it makes her hate herself in the end. Time does not heal the wounds of an abortion. It makes them worse. The only healing that I have found true for such despair is God. He too, lost his Son and understands the loss that these women feel once they have time to reflect upon what they have done and the price they paid for temporary freedom. Abortion creates an emotional prison for those that have experienced it, firsthand.

Without God, I shudder to think of where I might be today. He has made me whole again. I no longer feel shame or guilt but I do still feel remorse. If I could go back and do it all over again, I would have had my child, the first time. If I could go out everyday and counsel women who were about to make the same mistake that I made, I would tell them of not only the physical pain that they will truly endure, but also the emotionally pain, for it lasts much longer. I feel deep empathy for the women who have chosen abortion and live with the horrifying emotions that go hand in hand with that decision, who never find their loving Father in Heaven. I've lived with the regret and the shame. I've lived each day figuring the age of my dead children and imagining their faces, bodies, hair color, eye color and their personalities. It's only been the grace of God that's allowed me to live free of such things.

I was a Christian, raised in a Christian home by good, loving parents. I was a straight A student. I was a well adjusted teenage who was responsible and very rarely lied especially to my parents. I was a leader among my friends and to my sisters. I was someone who did not do drugs or ever drink in excess. I was a good person who always followed the rules until I had an abortion."

AFFIDAVIT

THE STATE OF TEXAS

COUNTY OF DENTON

Before me, the undersigned authority, on this day personally appeared Tracy Reynolds, who, being by me duly sworn, upon oath, stated the following facts:

My name is Tracy Reynolds. [REDACTED]

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I had my abortion in February 1981 at a doctor's office in Palo Alto California.

I was told very little about the consequences of abortion, only that there might be some bleeding and cramping afterwards. I was definitely not told of any emotional or psychological effects and this was ironic for the abortionist was not only an MD by also a psychiatrist.

I was never told of any link between abortion and breast cancer, and until recently did not know of such a link. I have been fortunate not to have had breast cancer, though I do have unusually lumpy breasts and often have to endure repeated mammograms.

I received a lot of subtle pressure to have an abortion and a lot of comments about it being a simple procedure, just tissue not a baby, etc. The strongest pressure to have an abortion came from the child's father who begged me not to have the baby, even though I was not asking him for any support or involvement in any way.

For years after my abortion, I had nightmares reliving the sounds and the feelings during my abortion. I could also hear my baby crying out to me. I was often depressed, ashamed, had very low self esteem which before the abortion was high, and shied away from intimate relationships. I was careful about friendships, and talked a lot about them, but revealed little about myself, and definitely did not talk about the abortion.

Others were affected by my abortion in that they could tell that I closed off a part of myself to them. I felt rejected easily, and often would become distant from friends if I felt that I was or was going to be rejected.

I would tell a woman that from my experience, my abortion was the biggest mistake and regret of my life. I would encourage her to really consider that she is choosing to give up her child and she will experience the loss of that child and it will hurt her for the rest of her life. I would ask her to visualize that child not as tissue but as a living, active baby with personality, a face and a soul and to imagine that child growing up into an incredible adult. I would also provide her avenues to get counseling and other help to facilitate the pregnancy and birth of the child.

When the esteemed members of the Supreme Court voted to legalize abortion I believe they had no idea the long term destructive effects abortion had and would have on women. I believe that abortion is directly responsible for the pain suffering, drug and alcohol addictions, and trauma of many women in America today. Unfortunately, it has also been used by some women as a form of birth control thereby seriously damaging their bodies and their psyches. This is a grief that can never really be completely healed for women and it goes against two things that are at the core of America and Americans, God and motherhood. Abortion is clearly wrong in the eyes of God; and it also goes against a mother's natural instincts to have and protect her children.

Testimony

I had my abortion in February of 1981, and it is only now over twenty years later, that I have begun to process and deal with it. When I first discovered that I was pregnant I had two distinctly different reactions. First, I was joyous and filled with wonder because I was carrying my child. I was also guilty and ashamed for the pregnancy was the result of a brief affair with a married colleague. I felt that God was punishing me, and yet I really wanted to have the child. My mistake was in not following my heart and convictions and turning to others. None of my friends at the time spoke out strongly in favor of having the child. In fact, they talked about it ruining my life, my career, etc. But the biggest influence was the father of the child who begged me not to have it saying that it would ruin his life. I never asked him, nor did I expect him to be a part of my life or the child's life, but still he reacted strongly.

I went to have the abortion initially and at the last minute I walked out, deciding against it. I then allowed myself to be influenced to go back a few days later. I still remember the sounds, the pain, the feeling of having that child ripped from me, and the terrible emptiness. I had dreams about the child for years, still do, some were nightmares, and later they were of the child being alive and talking.

Since the moment I had my abortion, I regretted it and for years tried to push it from my conscious mind. It seriously affected my relationships. I stayed away from involvement with men and have remained single with no serious relationships. I also found myself withdrawing from the church and from family and friends. I escaped into my work, throwing all my energy and my identity into my jobs, and strictly avoided thinking about the past. The abortion was that hidden shameful secret that few people knew about, and that I wasn't about to talk about or face until recently.

Now thanks to God, and to an incredible friend and sister who is also post-abortive, I have been able to face what I did, and begin to heal. I have also decided to dedicate myself to helping others who have gone through abortions, and influencing those who are considering abortion to really consider what they are doing. I wish that someone had been there for me to remind me of the sanctity of life and motherhood at the time I was going through my decision process, and I am grateful that finally women are now speaking out for the truth and for those unborn children who cannot speak for themselves.

I had eating disorders, sexual problems, guilt, shame, sadness, emotional shut down, distrust in men, depression, sense of loss, self hatred, uncontrolled weeping, dreams/flashbacks, low self-esteem, anger, rage, self destructive behavior, overwhelming desire for another child, I think about the baby I killed constantly and I miss him/her so bad! Regret, fear of being punished, mad that the option was even there, everyone acted like it was no big deal, I didn't know it would hurt so bad physically & emotionally. I remember it vividly and it was 10 years ago. It was horrible, I'm so angry that doctor killed my babies and didn't even care! Bottom line it was me who got on the table but I had no idea what I was doing, I was stupid!

BEFORE ME, the undersigned authority, on this day personally appeared Debera Stein, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. My abortion occurred February 22, 1984 at a private OB/Gyn office in Houston, Texas.
2. I do not feel that I was adequately informed of the nature of the abortion. I was only told that the cervix would be dilated and the abortion performed by vacuum extraction. There were no other alternatives discussed such as adoption. In addition, there was no counseling concerning the life that was growing inside me. I was told that I was ten weeks pregnant. Even though I was a college graduate, I had no idea that the fetus already had a heart beat and fingers and toes. It wasn't until I was pregnant with my oldest daughter and had a sonogram at seven weeks and saw her beating heart, that I knew what I had done to my first child. Then there was the tiny feet pins that were out in the Christian bookstores showing the feet of a ten week old fetus that it really became evident that the life I terminated was that of a tiny person, not just a blob of tissue.
3. I was not informed of any consequences of the abortion. I was not told of the emotional or physical consequences. While I was still under the effects of the sedation, but after the procedure was completed, I began loud, uncontrollable sobbing. I remember coming out from under the anesthetic hearing the nurse telling my mother that I had been crying uncontrollably. I don't know when I started sobbing, but I can say that even though my body had been numbed to the pain, my mind had not. I can honestly say this was and is the lowest day of my life.
4. I was not informed of any link between abortion and breast cancer and did not hear of such a link until about three years ago. I have not had breast cancer.
5. No one pressured me into the abortion, but no one discouraged me either. Neither my friends nor my own mother ever discouraged me or discussed other options.
6. My abortion has affected me in so many ways. I could fill a book on the subject but will state only the large affects. First, after the abortion I became very depressed, though I did not know it at the time. I slept all the time and I lost a large amount of weight. I have lived most of my life since the abortion, trying to punish myself. I knew that God had forgiven me, but I refused to forgive myself. I felt so undeserving to ever have children, I married a man who had had a vasectomy. After eight years of marriage and my continued longing for a child, my husband had reversal surgery and we now have two beautiful daughters, one four years old and one five months.

7. Others have been affected by my self-punishing behaviors, but my grief and my longing to have children have affected mostly my husband.
8. Based on my experience, I would highly discourage a woman who was considering an abortion. The first thing I would have her consider is the innocent human being whose life was being taken. I would then tell her the emotional pain and suffering that will be with her every day of her life. There has not been one day since that horrible day that I have not thought about what my child would be like, was it a boy or girl, how my life would have been with this child. Every February 22, I grieve just like I would the passing of another family member. Every September 22, I grieve the lost birthday party for my child, as this was the due date.
9. Based on my experience, I would tell a court that abortion should not be legal. Had it been illegal, I would not have sought an illegal abortion. I would have given life to my child. Those of us who have this experience but are too ashamed to come forward must stop the lies in the media and by the feminists. If abortion is nothing but a choice, not the killing of an unborn human being, then why do most women keep this a secret? I'm tired of living in the quiet shadows of my "choice". I want a court to know that I know that I allowed an innocent life to be taken because of my wrong choices. Yes, it was legal, but for who? For the business of abortion? About a year after my first daughter was born, I was still grieving the loss of my first pregnancy. I have received professional counseling to help me deal with the pain. Just before I started counseling, I wrote this poem.

THE CRY OF MY WOMB

My heart was wounded,
 trying as hard as I could to be loved.
 Working hard to gain acceptance from man and the world, I would not be moved.
 The fear of rejection by others and not trying to please You Lord,
 led me down the road of many wrong choices.
 Though I knew Your grace,
 I did not reach out my hand and walk with You.
 Instead I walked with worldly thoughts and actions trying as hard as I might,
 to fulfill those needs You placed deep in my heart.
 Insanity was it not, trying to become whole in the sins of my flesh.
 Then, because of my own fleshly choices,
 my life was never to be the same.
 The words are too painful to say, let alone to write,
 the cry of my womb I still hear night after night.
 I always thought this choice was one others would make,
 I knew it was not right, and it would never be one I would take.
 Though I was 23 years of age, I feared rejection by those I loved,
 I chose to close my mind and heart to the life inside of my womb.
 It was all very simple, no one told me it was wrong, or about the heartbeat I was about to
 stop, instead they told me MasterCard and visa were accepted.

I was as surprised as the doctor and nurses by my uncontrolled weeping even though I was sedated,
my crying just continued on and on, until it was time to go.
A day never goes by that I don't think about what would have been and could have been.
Dear Lord, I know Your grace is sufficient for me,
but somehow I cannot stop condemning myself still these 14 years later,
little did I know that there was a little cry in my womb that day,
that will forever be the cry of my heart.

4) Did anyone pressure you into having an abortion? If so, who? No

5) How has your abortion affected you? Where do I begin! I had an illegal abortion because I had no one to turn to. Right after the abortion, I was sick with an infection and very scared. But, then I was well (I thought), and relieved it was done. Then, as the years went by, I began to realize what I had done and really regret what I did. If I had only had someone who could have counseled me, I was only 20 years old. Today I am 53 without any children of my own (that's another story). I have forgiven myself, but I think of my child everyday.

6) How has your abortion affected others in your life? N/A

7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it!!! There is a better way. Go to someone and talk. There is help for you at crisis pregnancy centers. There is always open adoption. But, most importantly, the fetus inside of you is a real, live human being. Don't kill it.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Walk in my shoes and feel what I feel everyday of my life. Abortion is murder.

BEFORE ME, the undersigned authority, on this day personally appeared Caroline Wienecke, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. Tell when and where your abortion occurred: It occurred in Dr. Franklin J. Stoke's office on July 13, 1989.
2. How has your abortion affected you? Directly afterwards I became severely depressed and suicidal. I abused alcohol/drank alcoholically. I ended up going to Alcoholics Anonymous. I stopped drinking eventually but I still think about the abortion. I now am married and have 2 children but I still think about the other one. I remember especially the anniversary of the abortion and every March I think that the other child would have been a certain age.
3. How has abortion affected other people in your life? I think that it hurts my husband when he thinks about it. He did not know me at the time but he knows how much I regret doing that and he has even suggested that I go to abortion recovery group at our church.
4. Were you adequately informed regarding the consequences of abortion? I knew that the ultimate consequence of the procedure was removal of the "product of conception." My doctor made me wait 3 weeks before having the abortion so there would be more tissue to ensure that the procedure was successful. I had to remain pregnant for 3 weeks so the baby would be large enough to kill. I was 7 weeks pregnant at time of examination and had to wait until I was 10 weeks pregnant to have the abortion. I did not anticipate, nor was I warned, about the extreme depression that I suffered. I was not offered any psychological counseling prior to the procedure nor afterwards.
5. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was really not told anything about abortion – not even how the procedure was going to be done. I simply expressed my unhappiness about being pregnant and the doctor told me that he could "terminate" the pregnancy in his office if I wished. The abortion was referred

to as a "termination," not an abortion. Ending the pregnancy was how the procedure was described.

6. Based on your own experiences, what would you tell a woman thinking about having an abortion? I would warn them about the things that no one told me: that you will grieve, that you will feel guilt, that you will never forget the actual procedure which is painful both physically and emotionally, that you will always wonder what that child would have been like, that you will feel worthless and hatred towards yourself at times, that you will probably see the aftermath of the abortion which is collected in a clear glass jar, that you will have disturbing dreams for years afterwards, that you will cry about it for years afterwards, that it is not like having a wart removed which is the way that the medical staff will present it to you.
7. Based on your own experience, what would you tell a court that believes abortion should be legal? I believe that abortion is one of the most evil institutions that has ever been invented by man. Not only does a child lose it's life during the procedure, the mother loses something that she can never replace also. That child is dead and a part of the mother dies too. It is murder, pure and simple, and can cause horrible physical and emotional harm to the mother. I would have felt terrible about having the child and giving it up for adoption, but I would not have to feel responsible for terminating a life for the rest of my life. I wish that I would have known how I would feel afterwards.
8. Did anyone pressure you into having an abortion? If so, who? No one pressured me but everyone supported my decision – told me it was the smart thing to do. I even asked someone I worked with if they thought that a woman who chose to have a child out of wedlock would experience less career opportunities. I had just begun federal service right out of college. That person told me "probably."
9. Were you informed of any link between abortion and breast cancer? No.
Have you had breast cancer? No.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of _____ Texas _____

County of _____ Travis _____

BEFORE ME, the undersigned authority, on this day personally appeared MALARTHA BOSIER, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts in this affidavit, and I do solemnly swear, or affirm, that the following facts are true."

1) Tell approximately when and where your abortion occurred:

1972 Kaiser Permanente Hospital/Wilshire Boulevard, Los Angeles, California

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

A woman in the hospital clinic told me that it would be like a D&C, a dilation and curettage procedure that was a "dusting and cleaning" of the uterus. She said many women had it when they had a positive pregnancy test in order to clean out any tissue lodged there.

3) Were you informed of any link between abortion and breast cancer?

No. Have you had breast cancer? No

4) Did anyone pressure you into having an abortion? If so, who?

Yes. A male with whom I was having unprotected sex.

5) How has your abortion affected you?

The realization that my resolve to take the lives of three of my children and that I had asked "so called" doctors and nurses to help me destroy them, fueled many years of depression, self-destructive behaviors and distrust of doctors and medical professionals.

My selfishness, irresponsibility, and desire for comfort and convenience in having sexual intercourse, caused me to continue using abortion as a means of birth control.

My first pregnancy at fifteen was the result of repeated sexual assaults by my mother's husband. He continued using me to gratify his perverted lust for many years. I was told that what was happening to me was my fault. I felt overwhelming guilt and blamed myself. My condition was beyond my ability to control and outside my mother's will and capacity to intervene. When her husband unexpectedly impregnated me, to protect himself from discovery, he attempted murdering my son and me. The perpetrator used knitting needles, pressure from a corset, drugs, and finally a fist to my stomach, trying to abort my son.

Thankfully, all these attempts failed and my son was born at John Wesley County Hospital in Los Angeles on December 12, 1964. I was forced by the perpetrator, to put a fictitious name, as the father, on my son's birth certificate. This "parent" threatened the use of a weapon to force me into sexual relations with him, even after the birth of my son. For our safety, I escaped with my son, raising him alone for years and then later, with the help of my mother.

Miraculously, my son currently lives in California, is an accomplished writer and kind person.

At the time of my second pregnancy, I felt that I had no right to my body and consequently, did not value myself. I used sexuality as a means to attract men. My use of a defective contraceptive device called a "dalkon shield", inserted and later removed by staff at Kaiser Permanente Hospital, damaged my reproductive organs. As I continued in promiscuity, subsequent pregnancies were ended by abortion procedures. My fifth and last pregnancy resulted in a miscarriage.

6) How has your abortion affected others in your life?

My family witnessed my struggles in obtaining an education, maintaining stable employment and becoming a loving parent. My relationships with people in general were often strained and unhealthy, because of my anger and loss of self-respect.

My son was raised without a father because I did not trust men to protect and care for him or me.

After twenty-one years of marriage, my husband still suffers because of my occasional estrangement, not fully trusting him to care for me, and our not having children together.

7) Based on your own experiences, what would you tell a woman considering an abortion?

View an ultrasound, if possible, and witness the heartbeat. It will help you to understand the developing human being in your body. Even if you've had a prior abortion or given birth, viewing an ultrasound and perhaps a chart showing growth stages of an unborn child. This will surely soften your heart and convince you not to choose death for your child.

Become aware that abortion is taking the life of another human being. Whatever your ideas of morality, understand that you do not have the right to murder another human being, or to ask someone else to murder your child.

Keep asking for help in locating people, churches and community resources to provide a safe place for you to give birth to your child. Many institutions are established specifically to counsel you regarding alternatives to abortion and will help care for you and the child.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

Ladies and gentlemen, with all due respect, I believe that terminating the life of a developing human being is detrimental to the health of the mother and society. Asking a physician or medical personnel to terminate the life of a developing human being is destructive to a civil society.

If abortion is always terminating the life of another, then in no circumstance is it ever justified. I believe certain situations warrant killing in self-defense, but that no circumstance justifies murdering the helpless and innocent.

According to laws in 1964 on family rape, it would have been legal to abort my son, and most likely, I would have been encouraged to do so, had I told of the assaults.

Since there was no one acting on our behalf, the perpetrator escaped imprisonment, but thankfully my son did not lose his life.

In spite of my experience, I believe that the woman who is married, or unmarried, and pregnant, should not have the right to involve society and medical professionals in her murder for convenience, or other personal, non-medical, reasons.

If murder is defined as the crime of unlawfully killing a person, especially with malice aforethought and killing brutally, then legalized abortion allows men, women and the medical community to become a party to legalized murder.

When I asked abortionists to kill my babies I became a party to murder. This was and is a devastating reality for me to acknowledge.

Only by the help and kindness of healthy family members and friends was I able to survive and raise my son. The birth of my son elevated my life, whereas, the abortions degraded it beyond measure.

My overall health was diminished because of past sexual behaviors and abortions. Today I continue struggling to regain my health and become a loving wife to my husband.

Dear sirs and madames, legalizing actions which are claimed to be murder in one setting but considered benevolent in another is confusing and disturbs the peace and safety of all people.

The legalization of abortion did not relieve me of my personal responsibility for the deaths of my unborn children. Instead it freed me to continue engaging in an immoral, unhealthy and destructive lifestyle, producing more of what some call "atonement" pregnancies and more abortions.

In my opinion, when the courts legalized the murder of our unborn children, our society became more uncivilized, oppressive and inhumane. Each day we witness our debasement as we read of the growing abortion industry, along with attempts to recycle, or manufacture, human flesh.

I am grateful that you are reviewing this decision.

Thank you for allowing me to address you.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared Yvonne Florczak-Seeman, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: At the age of 16 years old in Albany Women's Clinic in Chicago, Ill.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No! And that is why I am filling this form out. If I had had all the information about the entire process, I would not have done what I did. I was 16 years old when I received my first abortion and at 16 making a decision like this was very frightening and I wasn't ever asked if I truly understood the process.
- 3) Were you adequately informed of the consequences of abortion? No! I was never given any information about counseling, scar tissue, guilt, shame, and how it would destroy my self-esteem and keep me from becoming more in life.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Never was this mentioned over the 4 years of my 5 abortions.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes! My mother made the decision for me. My opinion was never asked, I was told that I didn't have a choice. She told me I was not going to support any babies.
- 6) How has your abortion affected you? I truly feel that because of the lack and negligence of the medical industry on informing the minor women about post-abortion trauma, I lived in a state of depression, guilt for 15 years not allowing me to further my education and better my lifestyle.
- 7) How has your abortion affected others in your life? Because I was never told about abortion leaves scar tissue, I was told that I could not have any children by two doctors. However, my faith in God told me different. I have two children now and the truth of the matter is that I have two failed marriages because of all the anger and unforgiveness that I've held over the abortions. I didn't realize until my life almost fell apart that I needed extensive counseling in my life regarding the abortions.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Be prepared to face a lifetime of guilt, shame, disappointment, anger and the possibility of never being able to have children again because of the scar tissue that an abortion leaves behind.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would like for them to explain to me how is it possible that the remains of a "fetus" look like human body limbs. And when they are thrown into a trash can that is located behind an abortion clinic we refer to them as an abortion. But when we see human body limbs of an adult and or child thrown in a trash can in an alley of New York city we call that murder! Other than their size, what is the difference? Then I would like to show them some pictures of these abortion procedures and educate them on what is really going on in this nation. Then, I would like to ask them if it would sit right with them to know that one of those "fetuses" that were behind the clinic came from their youngest daughter, and that that daughter could never had children again because no one was required by law to give her the truths about what an abortion truly does to your life.

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was sexually assaulted by my father as a young child. The second year that I attended Hillsdale College in Michigan my parents telephoned me to advise me that due to abusive + sexual problems, they were seeking to divorce. My world in 1978 imploded. I did not like college - my mom advised me that she could no longer afford to send me. I couldn't face going home to the Hell that my family was going through - so a sub-conscious effort was made on my part to reciprocate the affections of a senior at Hillsdale. Within weeks I became pregnant and the facts of my situation beared me. I had no one to call and therefore looked up "Planned Parenthood" (an oxymoron if there ever was) for help + advice.

I spoke to a counsellor who - when I couldn't put my fears into words - added them in for me. She spoke to me about my "no win" situation and pointed out for me the faultily in providing for a child. She told me that she would take care of everything for me - her determination, strength was comforting. She made an appointment for me and told me that it was my body and my choice to come to the clinic and those thoughts were reinforced by the books + magazines I had read. I was a "woman of the 70's" and told the biological father that the sole decision was mine.

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

I drove to P.P. and still had not made up my mind. Once there - it was a factory. Over 30 young women - mostly black and younger than I - were there. We were filling out forms and given a pill to "relax" us. The most hideous fact - the "Dr." an Indian gentleman had about 16 rooms of young women to run through. He dashed into my room - complimented me on

my dark tan and then told me I had a choice to make. He could either extend my pain by doing the procedure slowly and gradually or make it more painful but quicker - I chose quick. I almost passed out and I wrenched the arm of the "nurse" as beads of sweat immediately fell from my forehead. I drove home (to college) and wanted to die. They told me not to take a bath for 3 days. I immediately took 3 steaming baths and thought of taking my life as well. My C-grade took a dive and I got mono nucleousis and almost developed a Rumatic heart. I went home to total turmoil. This is my first tragic story.

I have read the above and foregoing statement and the same is true and correct.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1977 - late fall - early 1978 - spring while attending Hillsdale College. I went to Detroit Michigan - Planned Parenthood.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO. A group of girls 4-6 taken into room to sign papers. Given a pill to calm nerves. Told to relax + wait for doctor. Then were taken to individual rooms.
- 3) Were you adequately informed of the consequences of abortion? No. Just given papers to read and sign - remember a bright green paper saying that I could die from procedure.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? Myself. I knew I couldn't add to my parents' problems. I felt shame.
- 6) How has your abortion affected you? Pre-Christ I "imploded" into a black hole of depression + self hurt. Post Christ - He counselled me through issues - repentance + forgiveness like no psychiatrist + physician ever could. Now I am a warrior for His Truth + love, forgiveness on many fronts. I also intercede.
- 7) How has your abortion affected others in your life? I don't know. My 15 year old son knows + wishes I hadn't gone through it - he also thanks God that I birthed him.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? "Don't buy the lie." That no matter what term is associated with the baby that after abortion a woman knows that she murdered a child that God's forgiveness + grace thru Jesus is her only antidote for depression.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would boldly stand + say that they condone murder for the sake of expediency and profit - enabling a once great nation to sink in a quagmire of Godlessness. Claiming ignorance of harm doesn't absolve them of institutionalizing licentiousness.

In the early 80's I dove into the world fully. I learned to numb myself - to my parents divorce and to my infertility. I kept hearing that everyone was sleeping with everyone else - all my friends certainly seemed to be. I believe in my heart that I was looking for love. And knowing that I only would be with a man once and bang. Then the reality hit and I heard echoes of my past condemning me and my ability to take care of a child. I did plead with this child's father to help me. He wouldn't except to say that if I chose to give birth - I would be totally on my own. I couldn't do that. I caved in yet again. I paid my fee and signed the papers and killed another child. I was lost and filthy and saw no where else to turn.

I divorced my husband two years after my son was born. I bought a mobile home and opened a Travel Agency. We lived that way and I was totally celibate for ~~2~~ a year. I didn't go out at all. One night I was invited into downtown Cleveland by business friends. I met a British helicopter pilot - got drunk and again became pregnant. He came back to the US. ^(in the Navy) wanted to marry me and have me re-locate to England with Brett. I refused and had an abortion. I lived in a dreamworld - like it had never happened. In 1989 a man who said he loved me and my son wanted to marry me. I had terror in my soul. In 1990 on Aug. 16th (my grandma's Birthday) he came to my home and told me about Jesus - His love for me and the power of His Blood. Each time he spoke Jesus' name I felt almost a physical slap. I couldn't get him out of my home soon enough. As I slammed the door after he left, I looked up and prayed out loud in frustration. I told God that if this stuff was true and He knew all my pains and how I would never trust any human - then HE would have to show me about this Jesus. I left it at that. It was 8:00pm.

That night at 2:00 am I awoke in a cold sweat and had a terrifying experience (a spiritual one) which caused me to look Heavenward and yell: "Jesus... If you're up there... I need a savior right Now!"

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I didn't even want to listen if they did. I had made a commitment to God after my 1st child's birth to never abort a baby again. I was wrong.
- 3) Were you adequately informed of the consequences of abortion? Again - I did not want to listen - I was a pro at disassociation.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I don't remember hearing that.
- 5) Did anyone pressure you into having an abortion? If so, who? Again - just myself. I did not go to my mother.
- 6) How has your abortion affected you? I was never able to have children again. My uterus is damaged and I have severe cramping each period. I got my thorn in my side.
- 7) How has your abortion affected others in your life? My husband of 11 years had wanted a child in addition to Brett - we can't.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Think before you kill.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That the culture that they acquired do has irreparably (or) harmed millions of individuals in this country. Only Jesus can cleanse all of our hands.

Praise Him... He took me at my word... weeks later Craig + I were married and God through infinite love and wisdom has led me to health + healing. We were baptized (all 3 of us!) in 1992 and 3 short weeks later God moved us to Utah! Where I have been living and loving and serving Him ever since. I need to share these stories with the American people - I have been, but with project outcry's help we can end this atrocity.

I have read the above and foregoing statement and the same is true and correct.

I pray with my whole heart and spirit that you reading this see with the Lord's eyes, heart and wisdom. That you see my gradual descent into the abyss. My parents in Pepper Pike, Ohio fought daily over their divorce. I learned a skill working as a Travel Agent and moved as quickly as I could to Boston, Massachusetts to be with "enlightened" friends.

I met a man who would eventually become my first husband. I went to bed with ^{him} ~~her~~ ONE TIME. I was pregnant 2 weeks later. He tried to dissuade me, but I had been indoctrinated by society. I was an independent (malleable) female and everywhere I turned abortion as a decision was reinforced. Secretely I was afraid and totally alone. The pain of abortion closes a woman off to everyone - Only Jesus - years later would save and cleanse me. Praise Him!!! My future husband felt more terrible than I did. I was becoming totally insulated by Pain/Satan. I was becoming fragmented within myself. It was scary.

I have read the above and foregoing statement and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared Cynthia Lauren Minarky (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Sometime in 1980-1981 in Cleveland, Ohio the clinic's name was Omni.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. This was like the clinic in Detroit, Michigan. A simple cold clinical mill.
- 3) Were you adequately informed of the consequences of abortion? No. I just signed the now familiar papers and went through the procedures.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No. Praise God.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. This time I was descending into a new low. I fell in love with a musician who had a wife and 3 children. I felt that my pregnancy would cause him to leave them.
- 6) How has your abortion affected you? I began to drink drugs and drink often. I sought counseling from psychologists. I could wrap my brain around my little finger. I began to enjoy my private world of pain.
- 7) How has your abortion affected others in your life? The father of this child could have cared less. He was the only one who knew.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion?
"Don't buy the lie" I was a confused willing victim of a society gone to hell in the name of rebellion against God.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? By making abortion legal the courts decided to legislate immorality and condone it to its populace. The young women... many without the benefit of a Godly father. Listen to authority - that authority is wrong.

I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I became pregnant again by the musician, again. I was traumatized. I approached my mother - falling to my knees and sobbing into her lap. She said she would help me take care of my problem. I thought with her help I could mother this child - dad or not. She took me to her ob/gyn and he told me how scarred my neck of my uterus was - he also told me that my spine was crooked. He had obviously spoken to my mother previously - because he spoke to me ^{with} disgust. He slapped a prescription for birth control pills in my hand and the following week I was admitted into the Cleveland clinic as an outpatient and given a D+C under anesthetic ^(sp) this time. No one spoke to me about a thing - I was simply eased through the process and Blue Cross Blue Shield paid for it. We never discussed it again till 1985. When I was married and became pregnant again. I was

so happy to be "legitimate!" and I drove to my mother's home and gave her the good news. She was in the kitchen and didn't even look at me. She told me that we couldn't afford a baby and do have an abortion.

ed was thunderstruck and angry. I ran crying from the kitchen. My 80+ year old quiet Christian grandma slipped upstairs - she motioned me to be quiet and to listen. She rocked me in her arms and whispered these exact words: "God takes care of babies." That gave me peace and as a consequence ed have a handsome, intelligent (straight A's) (saved by Jesus at 4 years of age (3)) spirit-filled 15 year old son who God gave me (and who blesses his grandma) and is a dynamite 3rd baseman. His name is Brett and ed gave birth to him Sept 11, 1985, 5 years before ed came to Christ. My son was the doorway to Jesus opening my heart to love and healing.

BEFORE ME, the undersigned authority, on this day personally appeared Cynthia Lauren Minarick (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: A clinic outside of Boston, Massachusetts 1980-81.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. Not really. No mention of other options were discussed. We saw a movie - about 8 women got counselled together, she told us that we had made a mistake. We couldn't be blamed for and expressed disdain for using abortion as a birth control method. It got ashamed + totally condemned.
- 3) Were you adequately informed of the consequences of abortion? No. Not EVER. They used cold professionalism.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No. I would have been scared of that.
- 5) Did anyone pressure you into having an abortion? If so, who? No. By this time, I was totally indoctrinated in the culture of death and self mutilation.
- 6) How has your abortion affected you? I felt the beginnings of repressed anger. I felt like a victim and a survivor, as well. I felt like I was living exactly what I had been taught. Strangely justified.
- 7) How has your abortion affected others in your life? I didn't even consider it. My mom told me at 13 years of age that she would still love me if I ever had one. By 21 years of age I was totally self centered. It was my life.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Again - "Don't Buy the Lie!" - abortion has 2 victims - you do have a choice - Honor yourself - Honor your life!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? exactly that.

BEFORE ME, the undersigned authority, on this day personally appeared Ann Rene' Richmond (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1980 in a doctors office in Cedar Falls, Iowa
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO. There was no specific information regarding the abortion. I was told I would hear a suction noise, similar to that in a dentist office and then I would no longer be pregnant. There would be some bleeding and cramping afterward.
3) Were you adequately informed of the consequences of abortion? NO. NO consequences or potential risks were discussed or explained. The stage of development of my baby was never discussed. I bought into the lie that "it's just a blob of tissue"
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO. I do not, yet, have breast cancer.
5) Did anyone pressure you into having an abortion? If so, who? NO. It was a fear based decision. No one checked to make sure I understood the realities of my decision or that there were other options.
6) How has your abortion affected you? I became emotionally dead. Because of my inability to form intimate attachments I was married and divorced 3 times. When I gave birth to my son I suffered severe depression and an inability to bond with my son.
7) How has your abortion affected others in your life? Very definitely yes - each of the men I had married and divorced and my sons formative years were influenced by my inability to fully love him and my struggle with depression.
8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not a solution. It only creates other problems. Problems that are farther reaching and longer lasting than an unexpected baby. Abortion creates a hidden wound you carry with you for the rest of your life.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? Laws are supposed to be created to protect people - even from ourselves. Abortion has a minimum of 3 victims, an innocent baby, a mother and a father. Murder is already against the law. Abortion is nothing short of murder. A developing baby is exactly that, a developing baby with a heartbeat, brain function, all of his or hers organs, just still tiny and desperately needing our protection.
I have read the above and foregoing statement and the same is true and correct.
