- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: after being put under, they said it was over 3 mos and another procedure would be used. I never expected the agony of labor for my dead baby

- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No ^{but I do have a lump they're watching}
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? no one told me not to ^{on back}
- 7) How has abortion affected you? Most days I believe I had a son and think about his possible love + help as a single parent to my 3 other children other grandchildren, I was 17 or barely 18, scared, poor, I wish if only someone said "Your half way through this it" very well made a difference. I have PTSD from abuses in childhood, needed counseling. Also I was in immense depression after, drank heavily a couple wks. They were marketing abortions by my 1st child they recommended, but I had a choice.
- 8) How has your abortion affected others in your life? after having my other 3 children, I raised them by self. my soul found my grandmother passed I don't know how long - 2 yrs later
- 9) Based upon your experience, what would you tell a woman considering abortion? lets murder! But it would cost, be compassionate about her fear and tell her the decision will affect her whole life. Being assisted - my unborn son could have helped me now
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? We spend up to 2000 dollars on premature babies wanted, now there's lying about size on sonograms, child abuse happening and from first hand experience with doctors are liars, unethical - against what a physician stands for (real one)

my second pregnancy the doctor said I was too young to have a baby - it would ruin my life - Thank God that 2 yrs later this time - probably - Right to life called and said they'd like me to come in to see another doctor. She said there was no physical reason I couldn't have my daughters Andrea whom I have 2 wonderful grandchildren who bring JOY! to my life. And one is disabled actually said she wouldn't live more than 7mo - 1 yr. She's now 9 yrs beautiful affectionate, walking, good ^{eye} contact. She's not talking making sounds. She's brought so much joy to my family. She's fun. Before my DJD and I walked for my DJD and other back problems we walked together. My daughter had to take classes to care for her when release from children's mercy. That was devastating to my mother when Doctors SAID she wouldn't live! She did. My mother wouldn't hold her for quite a while scared she would die in her arms.

If there is anyway ^{ever} can influence a man, woman, son-daughter, to not abort their baby. I will + would.

I believe all births have a

Dod given right to not be destroyed. Our country was born by pilgrims to worship the God of the Holy Bible. Now is built on ethics opposed to Freedom, (Life) Love + the pursuit of Happiness.

Abortion, illegalization is absolutely the first step.

DECLARATION HOW MY ABORTION AFFECTED ME

The State of KY
County of Jefferson

1st abortion
14 years old.
I'm 41 now,

"My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following: March of

1) When and where did your abortion occur, including city and state? Louisville, KY 1981

2) How many weeks pregnant were you? 8 WKS What type of abortion was performed? I don't know.

3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: They never told me it was a baby. "Fetus" made it sound like it was no big deal. I was put under anesthesia. Was "out" during procedure.

4) Were you adequately informed of the consequences of abortion? No. They just mainly explained how to use birth control pills. No one even mentioned mental & emotional pain.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? boyfriend

7) How has abortion affected you? I was 14 years old. Because abortion was existent & accessible and I had no inkling of the emotional/mental ramifications, I think it was just assumed that abortion was the answer - no other option. So it wasn't a choice. Accessibility of abortion took away my "choice." I'm 41, deal with depression, a past of drug abuse, promiscuity, trouble with intimacy & trust with men. I've spent (w/ my insurance co.'s) \$1000's on therapy! Still haunting me.

8) How has your abortion affected others in your life? Strained relations w/ Mother. Divorce - couldn't get past my unworthiness & drug use. Never having healthy relations with men.

9) Based upon your experience, what would you tell a woman considering abortion? I would tell them to be prepared for a lifetime of shame, guilt, depression even with therapy. That it robs you of dignity & self-respect.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? Give women a true "choice". Stripping a woman's body of a child within is totally biologically & physiologically unnatural. ~~God does~~ Give women the right to be educated. Present & fund all options - adoption, abstinence, You may attach additional pages of testimony, if needed. Keep the child, etc.

- 4) Were you adequately informed of the consequences of abortion? No. Only that I should abstain from sex for a while & wear pads until the bleeding ceased.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? boyfriend, Tim Hagan
- 7) How has abortion affected you? Had I not entered into therapy (my first post-abortion group) 7 years ago, & not got into a drug-recovery program, I'm sure I would have committed suicide or been institutionalized. I had this abortion almost 20 years ago & not a day goes by that I don't think about my children. I JUST DIDN'T KNOW. Didn't know that I could have gone against my boyfriend's wish to abort my child. I didn't want →
- 8) How has your abortion affected others in your life? Fear of dating - don't trust males. Strained relationships w/ parents
- 9) Based upon your experience, what would you tell a woman considering abortion? Prepare yourself for a life-time of misery, depression. The shame, guilt, remorse & regret never really go away.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Legalized abortion is NOT A CHOICE!!! Availability & access - the path of least resistance in the beginning removes choice. It alienates all other options to teen pregnancy.

to have an abortion & told my (older) boyfriend I didn't want to. But I was 19 & "in love". I thought I could "keep" him by doing what he wanted. I JUST DIDN'T KNOW ENOUGH about standing up for myself & my unborn child. I was naive. And this was the 2nd abortion. First one @ 14; the 2nd @ 19 years old. The trauma still feels so real & close. I've blocked out so much, probably just in order to survive, but much of the abortion & feelings associated with it are still fresh & "raw". Since, around 1995, I've seen at least nine or 10 psychologists & psychiatrists, experienced migraines for a period of about 10 years, abused drugs until 6 or 7 years ago after entering recovery in Narcotics Anonymous & still take meds for depression.

- 1) When and where did your abortion occur, including city and state? Louisville, Ky in Fall of 1997
- 2) How many weeks pregnant were you? 9 1/2 What type of abortion was performed? no idea (I was put out)
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No one told me that the baby could "feel" pain. No one told me that 13 yrs. later I would experience such depths of depression
- 4) Were you adequately informed of the consequences of abortion? No one tells you that later in life you will experience psychological and spiritual suffering
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? I cannot articulate the absolute mourning that occurred. The depths of depression likened to post-traumatic stress syndrome are actually post-abortion syndrome. My physical being gained 100lbs., had trouble "mothering" my living child. I became a gross caricature of myself. How would you feel to know that you shed innocent blood. It will lead to self abuse and neglect in the woman. It did in me.
- 8) How has your abortion affected others in your life? My daughter never again knew her mother as "happy". I am right now going for counseling
- 9) Based upon your experience, what would you tell a woman considering abortion? Please - Please - Please Don't! Not only for your babies sake but for your own. Consider adoption - talk with a Christian for counseling first. Please!
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? The right and sanctity of the babies life should be first. Be merciful to that one without a voice. The Lord loves them and calls himself truth and life. Would you kill him? Of course not - be reasonable.

4) Were you adequately informed of the consequences of abortion? NO. I WAS ONLY INFORMED OF THE MEDICAL CONSEQUENCES, NOT THE EMOTIONAL OR SPIRITUAL CONSEQUENCES.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? I HAD FRIENDS ENCOURAGE ME TO DO IT.

7) How has abortion affected you? IT HAS BEEN 10 YEARS SINCE MY ABORTION AND MY EMOTIONAL SCARS ARE AS FRESH AS THE DAY I DID WHAT I DID. I HAVE GUILT & RESENTMENT FOR THE CHOICE I MADE AND FORGIVING MYSELF IS AN ONGOING PROCESS. NO PERSON TOLD ME THE EMOTIONAL BAGGAGE YOU CARRY AFTER HAVING AN ABORTION. IT IS NOT AN ANSWER TO A QUICK FIX. THIS CHOICE LASTS FOR YOUR ENTIRE LIFE. IT NEVER GOES AWAY. YOU ARE SUPPOSED TO BURY IT AND TELL YOURSELF THAT IT WAS THE BEST DECISION FOR THAT TIME BUT IT STILL REMAINS FOREVER. MY EXPERIENCE WAS A PAINFUL ONE AND IS STILL PAINFUL AFTER 10 YEARS. IT NEVER GOES AWAY AND HAUNTS YOU EVERYTIME YOU HEAR THE WORD ABOR

8) How has your abortion affected others in your life? PEOPLE IN MY LIFE UNDERSTAND AND HAVE COMPASSION FOR ME. THEY TRY TO HELP ME LET GO OF MY PAST.

9) Based upon your experience, what would you tell a woman considering abortion? THIS CHOICE THAT YOU ARE ABOUT TO MAKE WILL LAST FOREVER. DON'T THINK JUST IN THIS MOMENT BUT THINK IF YOU CAN LIVE WITH THIS FOR THE REST OF YOUR LIFE. THIS NEVER GOES AWAY JUST BECAUSE YOU TERMINATE. PRAY & THINK LONG & HARD BEFORE MAKING A LIFE DECISION AS THIS.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? COURTS AND ACTIVISTS THINK THAT JUST BECAUSE YOU TERMINATE A FETUS, IT GOES AWAY. YOU WILL ALWAYS HAVE THE MEMORY, GUILT, BURDEN AND CONSEQUENCE OF KILLING AN UNBORN CHILD, ESPECIALLY IF YOU EVER HAVE A CHILD YOU DECIDE TO KEEP. IT IS IMMORAL AND EVIL TO THINK THAT A FETUS IS NOT A CHILD. WE WERE ALL A FETUS AT ONE POINT ABORTION IS MURDER.

- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was 21 but didn't understand that abortion actually killed my baby although I sought it out as an escape from unwanted pregnancy.
- 4) Were you adequately informed of the consequences of abortion? No

- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No (not hormone induced)
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? but was greatly encouraged & aided by nurse neighbor.
- 7) How has abortion affected you?

After marriage & birth of two precious children I was able to justify my abortion with, "I would never have had this opportunity if I had had the baby." It was not until later after dissolution of my marriage & later still receiving Jesus gracious salvation that my lord revealed the depth of my sin as murder. The tears & grief came from deep within and have taken years to work through. My lord removed my guilt & has restored me but I still live with the "what if?"

- 8) How has your abortion affected others in your life? Do not know but because of my sin am sure it has. My 2 beautiful children will.
- 9) Based upon your experience, what would you tell a woman considering abortion? not know their brother or sister on this earth. Do not do it. This is God's created life within your womb. Give this baby an opportunity to live & fulfill God's purpose. You will live with this decision for a lifetime.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Every created being has a right to life. It is a gift from God. Abolish all laws that come against this. Abortion is wrong and an abomination in God's eyes & heart.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Louisiana
Parish Jefferson
County of Jefferson

BEFORE ME, the undersigned authority, on this day personally appeared Roberta N. Jones (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: July 7, 1972, Milwaukee Wisconsin
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was only informed that some women have psychological problems after having an abortion.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____

6) How has your abortion affected you? Physically I bled for eleven days and eventually had to have my cervix cauterized. Psychologically I suffered for many years from deep feelings of regret, remorse, and depression. On the beginning I would cry, sob, and think about the act over and over, night and day. My self-esteem plummeted to escape the nagging feelings of worthlessness and depression I entered into some personally harmful activities. At one point I wanted my life to end. For 18 years I experienced anniversary memory recurrences of the abortion which were the guilt, regret and depression were the heaviest. The depression deepened with each passing year.

7) How has your abortion affected others in your life? The mood swings and depression affected my marriage. But with the blessing of the Holy Spirit our marriage survived and I am now healed.

8) Based on your own experiences, what would you tell a woman considering an abortion? Not at all. I often tell women considering abortion that this choice is not really a choice at all. It kills the unborn and leaves women with the experience of being mothers of dead babies.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion kills the lives of babies that are currently being labeled as non persons just because of their age. This should never have been made legal, any more than the killing of the Jews in World War II.

"I have read the above and foregoing statement and the same is true and correct." for any other genocide act.

Please use my : full name.
 initials only.

When I turned forty years old I was
begging the Lord for death.

I had great difficulty being around
babies and being involved in activities
dealing with babies. Besides all this I
had a nagging fear of being childless.
This did happen. I killed my only
conceived child.

- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? my boyfriend - the father
- 7) How has abortion affected you? It's left an emptiness and in the past 12 yrs since I've become "born again" a feeling of extreme guilt at first. I have never had other children so I also have mixed feelings about that. I now regret that I never had the opportunity to be a mother. It's also been a secret that I've kept from some of my relatives all this time & that disturbs me sometimes.
- 8) How has your abortion affected others in your life? I don't believe it has.

9) Based upon your experience, what would you tell a woman considering abortion? Go through the shame, humiliation & hurt, but go through with the pregnancy. The guilt of taking your child's life never really leaves you. The rest of it is temporary.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? I know now that we have no right to take a life - that is solely the right of our Creator, no matter the pine of the being. When we go against God's ways, we just end up hurting ourselves and others.

DECLARATION HOW MY ABORTION AFFECTED ME

The State of Louisiana
County of St. Landry

"My name is Ava Petermann Bertrand I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? October 1973 Houston, TX
- 2) How many weeks pregnant were you? 7-8 wks What type of abortion was performed? suction I think
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I just knew it would end the pregnancy. I did not know what it would do to the baby or the possible injury to me.
- 4) Were you adequately informed of the consequences of abortion? no, as stated above.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who?

7) How has abortion affected you? I kept everything buried for ten years and then the realization of the act hit me. It took another ten years for me to forgive myself, to accept that God forgave me, and to allow healing to fully take place. The loss of that child is still painful. My husband and my children are supportive and wish that we had that child in our family. We believe we will meet him when we get to heaven with Jesus.

8) How has your abortion affected others in your life? My husband shares my hurt as if that child were his and my children would want to know him.

9) Based upon your experience, what would you tell a woman considering abortion? Abortion is a selfish act to preserve our reputations and life styles. There are other alternatives that give life. One day you will come face to face with the fact that you murdered

10) Based on your own experience, what would you tell a court that believes abortion should be legal? A woman in a crisis does not always make the correct decision or fully comprehend the consequences. We should be more concerned with the mental and emotional health of women. Life begins at conception - there is no "tissue". A 6wk fetus is and looks human. And has the ability to feel pain.

4) Were you adequately informed of the consequences of abortion? no, they did not tell me how depressed, self-destructive, and completely empty & hopeless I would become.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? my family and friends

7) How has abortion affected you? Aborting completely changed me. Almost immediately, I became depressed, lonely, and self-destructive. I lost my self-worth and felt horrible for what I had done. My relationships changed dramatically and I became numb to everything. I started doing drugs and drinking and felt like I did not deserve happiness. I didn't feel like I would ever get married or have children because of what I had done. This lasted for years and devastated my life.

8) How has your abortion affected others in your life? My friends & family have all come to me with sorrow and regret for influencing my decision.

9) Based upon your experience, what would you tell a woman considering abortion? DON'T DO IT!
The temporary relief you might feel will not justify the horrible feelings, actions, and detriment that will follow!

10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is a lie. allowing a mother to kill her child for ANY reason is not only wrong, it is awful and devastating to the mother and father and anyone else involved. It came to a point where I prayed to God to take me. All I wanted to do was die and be with my babies. I wish I would have never told my mom; she forced me to get the abortion.

8) How has your abortion affected others in your life? It's making them miserable because I'm so sad all the time.

The State of Massachusetts
County of Essex

"My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? Hospital in Warrington, PA
- 2) How many weeks pregnant were you? I believe that it was 9 weeks. What type of abortion was performed? I do not know "what type". As far as I know, it was a regular abortion performed in hospital. I was given general anesthesia and was not conscious during the abortion.
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I don't remember being told much of anything about the actual abortion. I was just told about birth control for the future. I don't recall that anyone explained anything about the abortion to me. No one explained that it was a baby or what exactly was going to happen, just that I was going to have it. I felt like it was like getting a tooth pulled.
- 4) Were you adequately informed of the consequences of abortion? No. Hardly anything was said to me the day I went in to the hospital to have it. I did not find out or realize what my abortion was all about until years afterward when I heard Christian teachers explain it.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? My boyfriend.
- 7) How has abortion affected you? Partly, as a result of the heartache, I become a born-again Christian. A few years after the abortion, I experienced strong dreams. Partly because of the abortion, I went into depression for about three years. I tried to block out the pain through prescription drug overdoses. I tried to take my life and was hospitalized. Through my recovery, my baby was given the name of Melissa. From the teaching of the church, I gradually learned about what abortion really was and that I had killed my baby. I held a memorial service for Melissa and commissioned an artist to draw a picture of her and Jesus. The message the picture represents, that I share with everyone through the picture, is that Melissa is happy and safe with Jesus and that Jesus has forgiven me for the worst thing that I ever could have done. I received God's forgiveness for my sin and now live a forgiven, victorious life, and I greatly look forward to seeing my daughter in heaven.
- 8) How has your abortion affected others in your life? I told my mother and my sister. I never married. My mom knows that Melissa would've been her only grandchild.
- 9) Based upon your experience, what would you tell a woman considering abortion? I would tell her my story and that if there's anything in my life that I would do differently, I would've kept Melissa. I would share my heart to spare her the same mistake. How it is a great loss for everyone, not just her and the baby. That having an abortion does not solve the crisis, it only exacerbates and compounds it and that it will be regretted for the rest of her life.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Just like suicide, society hospitalizes and prevents a person from killing themselves to help them in their time of need and crisis and because it is wrong for the person to take their life. Society should do the same and prevent a person from killing their baby's life for the same reasons.

AFFIDAVIT

To be completed by women who have had abortions

The State of Maryland
County of Montgomery

BEFORE ME, the undersigned authority, on this day appeared Susan S. Jamison, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

1) When and where did your abortion occur? I had two abortions, both in Washington, D.C. one when I was 19 and one when I was 20. I am 51 years old now, a lawyer, married, and the mother of five living children.

2) How many weeks pregnant were you? First trimester. Maybe 8 or 9 weeks What type of abortion was performed? Suction I believe.

3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain:

I am an intelligent person, but I received no counseling which would have helped me to fact my conflicts over this and choose life. Everyone was very pro-abortion and in a hurry. I received no information to help me to understand and accept that this was not a bunch of cells but a baby EXCEPT that the doctor doing the second abortion did the abortion and then looked up at me and indicated that the baby was further along than he thought. This horrified me but it was too late to stop what had already occurred. The doctor seemed a little disgusted but he was the only medical person who did, and his disgust was shown too late to help me. Everyone else was matter of fact pro-abortion. I must say that I deep down knew better but I was very weak at that time and needed support to do the right thing. All I could think of was "well it can't be murder because it is legal. If its legal it must be OK." I did have one friend who was pro-life but I needed real help and guidance not just disapproval. I was in college and could not figure out how I could support a baby. I felt like I had no right to bring a baby into the world whom I could not support. I was afraid of being poor and of disappointing my mother. I was ashamed at the circumstances. These fears seemed so overwhelming at the time but they were so trivial in comparison.

4) Were you adequately informed of the consequences of abortion? No one told me that you never get over an abortion. Even living in God's mercy, you never get over the sorrow and loss of losing your own children to your own hand.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? The second time, I was much more conflicted as I knew that it had been wrong. But I had a very good friend who spent hours talking me into the abortion and then going with me to get it. I don't know why she did this but she didn't know better herself. If a good friend has spent such time helping me to choose life, I am positive I would not have had the abortion. The decision was not written in stone from the beginning. I really didn't want it.

7) How has abortion affected you? It is very difficult to live with the fact that you have had two abortions. I pray that my children are with God and that they forgive me. I have sought and obtained the forgiveness of God and the help of the Blessed Virgin to lead a happy and moral life but, of course, one never forgets. One isn't supposed to forget. God's mercy is all-inclusive, and he can bring good out of evil and make all things new but these are moral truths which are consoling but still as yet not culminated in a different reality that I am living from one day to the next. I think pro-choice feminists are the dumbest people who ever lived. Anyone who wanted to really help a woman, would teach her chastity and help her to have the children she conceives, not kill them. It certainly has hurt my own self-esteem to know that I have done this. At first I became suicidal but after time I opened myself to God's healing and help. Thank God that God is so ready to forgive those who seek His forgiveness. I shudder to think what may have happened.

8) Based upon your experience, what would you tell a woman considering abortion? Don't do it no matter what you have to suffer to have that baby. That child is yours and is alive today and you are already a mother. You are going to be a great mother, just give yourself and the baby a chance. Ask God to help and get all the help you can from pro-life groups who are doing God's work. Don't choose abortion under any circumstances. It is murder.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal. Laws should protect our unborn citizens. They are people too. Laws should also protect women by being a moral guide in their lives.

"I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT

To be completed by women who have had abortions

The State of Maine
County of Cumberland

BEFORE ME, the undersigned authority, on this day appeared Michael Hamilton, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? May 2007, Portland ME
- 2) How many weeks pregnant were you? 10-11 What type of abortion was performed? surgical
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: _____

4) Were you adequately informed of the consequences of abortion? No, the emotional consequences were never discussed

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____

7) How has abortion affected you? My life hasn't been the same since. Especially, I am reminded as my abortion came time I see a baby and I regret it. I even hear a child cry. I regret my decision entirely and I wish there was someone to tell me about the emotional, physical, extreme emotions that occur after the time I am reminded of that day. I feel extreme guilt, shame, cries, regret, sadness, extreme anxiety as if I will never let another that day on. My life will be affected from this. I know till the day I die. I know I am not the only woman who feels the same. I could never wish these emotions on anyone no matter what.

8) How has your abortion affected others in your life? My boy friend constantly fears for me. He feels guilt for being part of the decision. He wants his old life back.

9) Based upon your experience, what would you tell a woman considering abortion? It's not worth it. You will never regret looking into your child's eyes. You will never regret at least giving your child the gift of life. No woman with even a little heart could ever want to experience their unborn being physically sucked out.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? Do their research. Find out all the aspects it has on women. You can actually experience it. The decision does not have to be determined based on religion. It could have nothing to do with it. Let these women work it out on their own. Let these women live happy lives being with their children or letting someone else live their child.

"I have read the above and foregoing statement and the same is true and correct."

My name is Jackie I am a 42 year old woman, wife and mother of two beautiful adult children.

I am writing because I am supposed to be a mother of 4 beautiful adult children. You see my story starts many years ago - I was a victim of sexual abuse as a child which caused me to be a very angry and sexually promiscuous young lady at the age of fourteen years old.

I thought I was in love and became pregnant, at 14 I still wanted to try to keep my baby but I was forced by my parents to abort the baby - they payed for the abortion. I remember asking many questions and feeling very afraid and I was informed that as long as you had the abortion by 12 weeks, the fetus could feel nothing and was only a blob of tissue. I remember the address of the abortion clinic and feeling like I wanted to run. I was scared out of my mind and the nurses & doctor even seemed cold. I cried myself to sleep quite often and became depressed after this abortion. I also began to drink heavier & do more drugs... harder drugs and began having self-

destructive behaviors and fits of rage - the rebellion in my life seemed to increase, and I even thought often about suicide, which became a pattern in my life. The second abortion was after I was married, I had two children, and my husband and I were in a very rocky relationship and had very little money - we both drank and we fought often. When I found out I was pregnant he threatened to leave me if I decided to keep the baby. I was angry, hurt, and confused so again I went to the abortion clinic convincing myself that it was only a blob - after all none called it a baby, they called it a fetus. I became more suicidal after this abortion and thought about death more. I also became more angry. I have been a Christian for years now, and much healing has taken place in my life - but yes I still weep for my babies who never had a chance to live, to dream, to marry, or to feel my love. I will always regret my decision to abort my baby as an adult and my parents decision when I was 14. I believe I will see my babies in heaven when I get there. I want

to say clearly that helps a woman chooses to abort her baby she is not thinking correctly.

We are created with maternal instincts and I believe any pregnant woman or teen would choose life if they knew the truth about what they were really doing. Most if not all are under immense stress and scared, some are being pressured by parents, boyfriends husbands ect...

We say they have a right to choose because its their body but they are not thinking correctly!

And what about the little life on the inside of them that never gets to choose.

What about liberty & justice for all?

The baby can not speak for itself and is America or is it not a country who protects the innocent?

DECLARATION HOW MY ABORTION AFFECTED ME

The State of Michigan

"My name is Laura Rodriguez. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? Detroit Michigan
- 2) How many weeks pregnant were you? 8 What type of abortion was performed? Suction
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: after a pregnancy test verified I was pregnant, I was asked "You don't need counseling, do you?" when I hesitantly said "no", I was handed a list of clinics that performed abortions
- 4) Were you adequately informed of the consequences of abortion? absolutely not - Planned Parenthood did my pregnancy test, and other than abortion providers, no other information was given to me.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? It was devastating, especially after my husband and I had subsequent children. I have always openly explained to my children what I had gone through, but I still was very angry at the whole uncaring system, how we were treated like cattle. I had a lot of pain and anger to work through that was only healed through working with other women at a crisis pregnancy center. I also had to come to the acknowledgement that with the approval of my government, I had murdered my own baby. Much healing and forgiveness had to take place mentally, emotionally, & spiritual
- 8) How has your abortion affected others in your life? It affected my entire family - we all have been emotionally hurt by abortion, that we all participated in something so horrible.
- 9) Based upon your experience, what would you tell a woman considering abortion? I would tell her that it is murder, and that there is always help and hope for other choices instead of one that kills an innocent child, and wreaks such devastation on a woman's soul. You never completely
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? That the blood of all these innocent children will be on their hands, and the evil belief that it does no harm to the people involved in such an act is a lie from the pit of hell. That we as a nation should provide support and help and shelter, not death to these babies, and pain to the people involved.

DECLARATION HOW MY ABORTION AFFECTED ME

The State of Minnesota
County of Olmsted

"My name is Karen Choma. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? July 1977, Dallas, Texas
- 2) How many weeks pregnant were you? 8 What type of abortion was performed? suction
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Not informed of potential emotional trauma. I was told that the fetus was not alive, it was just tissue. At 23, I believed it.
- 4) Were you adequately informed of the consequences of abortion? no.

- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who?

7) How has abortion affected you? The first few months post abortion I abused alcohol significantly. I sought counseling thru numerous areas for poor self esteem + guilt. It was helpful but not significantly. The more profound healing was through a personal touch by God. I have 3 grown children now - but during each pregnancy I struggled with more guilt + fear of losing these children as "punishment!" (They were all born healthy + are healthy today.) The stigma of being "one who had an abortion" has been problematic in many relationships - including my husband.

8) How has your abortion affected others in your life? It has caused my husband to doubt my integrity + character at times - and caused subsequent marital difficulties.

9) Based upon your experience, what would you tell a woman considering abortion? I would share my story. At the time of my abortion, I didn't believe it was killing. When the baby was aborted, I instantly + instinctively knew I had ended a life. I will live with that forever. I would try to discourage her!!!

10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is simply "the killing of an unborn child." Our constitution is built on values that say all life - all humans have inalienable rights. If abortion is for a woman to "have rights" we are legalizing the right to be selfish. The question is not whether abortions should be legal - they should be legal. The question is what do we do with unwanted pregnancies - that is still constitutional.

You may attach additional pages of testimony, if needed. NOT. The question is what do we do with unwanted pregnancies - that is still constitutional.

9) Based upon your experience, what would you tell a woman considering abortion? That pregnancy is only temporary. If she doesn't want or cannot care for the child there are others who are desperate to do so.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion not only kills a human being but hurts women some times permanently.

8) I also did not realize how angry I became. I also became promiscuous and, had the Lord not saved me at age 19, I would have become deeply involved in the drug + alcohol that I had begun to lightly be involved in between/since my abortion until I became a Christian.

Also, after the abortion, I lost any self-esteem, did not care about myself, made no plans for the future, lost interest in things I used to be passionate about (eg school, college, grades, talents, skills, life). I did graduate from HS, started college + dropped out, ~~started~~ started hanging out with the wrong people.

9) ... be the same. No one can kill their born or unborn child ^{or pay someone to do it} + ever be the same. Abortion makes you broken, damaged. Trust God to help you with your baby. I wish I had trusted Him. There is nothing too big or too hard for God. Choose life. Choose the mindset of life.

10) every abortion is a scar upon the face of America. Abortion is the thief of our nation's future. Any court allowing abortion is ~~stealing~~ a court enacting a death sentence against the survival of the nation.

I desire a family of my own, but realize that may never occur due to the fears and difficulties that come with me. Despite 11 yrs of therapy and retreats through Parkland Hospital. - 9) Based upon your experience, what would you tell a woman considering abortion? Consider other options, my option is far better than the choice of terminating a pregnancy.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? abortion is the killing of a human being at the moment of conception. It is morally wrong. By legalizing abortions at any stage of a woman's pregnancy, the woman's well-being and life is not being considered. Abortions affects the mother well after the act, in all areas of her life.

Touching Hearts
Changing Lives
Restoring Justice

OPERATION OUTCRY

The Justice Foundation's project to restore justice by ending legal abortion.

Touching hearts by "crying out" the truth that abortion hurts women, men, families, and the culture.

Changing lives by offering hope and healing as women and men share their personal stories of tragic grief and pain of abortion.

Restoring justice through legal and legislative efforts. The U.S. Supreme Court cited to the written testimony of the women of Operation Outcry in upholding the federal ban on partial-birth abortion. But the Court said it did not know the size of the problem, so help us collect one million declarations to show the Court how many are hurt by abortion!

My Story

"Bless me father for I have sinned, my last confession was almost 10 years ago—I don't know how to say this, I had an abortion and have been afraid to come back..."

Those were my words to a my parish priest in November of 2000, six months after my husband Jeff, at the age of 38, was diagnosed with ALS—Lou Gehrig's disease--our girls were 7 and 5 years old and our newborn son was just 2 months old. After months of caring for my husband, children and working full time as an attorney, I found myself physically, mentally, spiritually and emotionally exhausted.

Then, out of nowhere, I began to experience flashbacks and nightmares of the abortion I had years earlier. I thought I had buried it years ago, but it had come back to haunt me. I finally broke down and realized the truth—I had taken the life of my own child. In my heart and soul, I thought that my husband's illness was God's punishment against me for the abortion.

But, to my surprise, I did not feel better. I did not realize that confessing the abortion was just the beginning and that I was now in need of counsel to help cope with my abortion decision and to grieve the loss of my child.

I then began to suffer severe depression and thoughts of suicide thinking I had already killed once—so what if I took one more life, my own.

After months of agony, I found help through a local agency dedicated to post abortion healing. I began counseling and eventually came to terms with my abortion decision and accepted God's forgiveness as well as my own.

Reaching Out to Those Wounded by Abortion

"This presentation was a brave and authentic testimony to the sacredness of life from a faith-filled woman, who witnesses the grace and mercy of Jesus Christ ..."

*-Msgr. Ted Wojcicki
President-Rector,
Kenrick-Glennon Seminary*

Did you know that 1 out of every 4 women have experienced an abortion?

Since the legalization of abortion in 1973, there have been over 45 million abortions performed in the United States--1 in 4 women have had an abortion. Did you know abortion crosses all economic, racial and religious classes?

But statistics are nothing next to experience.

For me, the numbers are personal... because I'm one of those women.

“Abortion affects every life it touches, and for many women and men

---It hurts long after the choice is made”

Millions of women have chosen abortion as a “solution” to an unplanned pregnancy. Long after the abortion is over, the emotional, psychological, and spiritual struggles linger. It is natural to try to forget negative experiences. Many have tried to deny or ignore these feelings for a long time... and yet the feelings seem to intrude your thoughts at the most inopportune times.

You are not alone.

A time of relief and denial is normal. Feelings of sadness, depression, guilt, and unforgiveness of self or others are typical for most post-abortive women and men.

Every woman's situation may be different. Abortion is a traumatic event in women's lives because often they feel pressured or trapped into an abortion decision. You may need help to address: denial, guilt, anger, forgiveness of others and self, and reconciliation with God

Symptoms may not appear for years after an abortion. Researchers and health care professionals are now classifying these symptoms as Post-Abortion Stress.

Post Abortion Stress Syndrome

Women and men who suffer from post-abortion stress exhibit a variety of symptoms. If you have experienced any of the following symptoms, you may be experiencing Post- Abortion Syndrome:

- 1) Anxiety
- 2) Anger or irritability
- 3) Difficulty concentrating
- 4) Nightmares or sleeping disorders
- 5) Bouts of crying
- 6) Recurrent or intrusive thoughts about the abortion or the aborted child
- 7) Feeling of intense grief
- 8) Inability to maintain loving or trusting relationships
- 9) Drug/alcohol abuse; suicidal thoughts; and other self-destructive tendencies

Help Is Available

These feelings will not “just go away.” Sooner or later you may need to deal with them.

If you are ready to deal with your abortion(s), a qualified professional or a trained support counselor can help lead you through the steps of restoration:

1. Breaking through denial
2. Working through guilt and experiencing God's forgiveness
3. Releasing anger and forgiveness toward yourself or anyone else who was involved in the abortion.
4. Grieving the loss of your aborted child or children.

The Gospel of Life A Message from Pope John Paul II to the Women of Abortion

I would now like to say a special word to women who have had an abortion. The Church is aware of the many factors which may have influenced your decision, and she does not doubt that in many cases it was a painful and even shattering decision. The wound in your heart may not yet have healed. Certainly what happened was and remains terribly wrong. But do not give in to discouragement and do not lose hope. Try rather to understand what happened and face it honestly. If you have not already done so, give yourselves over with humility and trust to repentance. The Father of mercy is ready to give you his forgiveness and his peace in the Sacrament of Reconciliation. You will come to understand that nothing is definitively lost and you will also be able to ask forgiveness from your child, who is now living in the Lord. With the friendly and expert help and advice of other people, and as a result of your own painful experience, you can be among the most eloquent defenders of everyone's right to life. Through your commitment to life, whether by accepting the birth of other children or by welcoming and caring for those most in need of someone to be close to them, you will become promoters of a new way of looking at human life.

BEFORE ME, the undersigned authority, on this day appeared Paula Talley, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

1) When and where did your abortion occur? Memphis, Tennessee

2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: _____

3) Were you adequately informed of the consequences of abortion? _____

4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

5) Did anyone pressure you into having an abortion? Yes No If yes, who? Friends and My Boss

6) How has abortion affected you?

After my abortion I began to drink and became very promiscuous. My anger was unbelievable. I didn't care about others and much less about myself. My self-esteem had hit rock-bottom. I felt as though I was an empty shell and I put on a facade. The only two people I cared about were my two daughters and they had to endure the hell I put them through because of my bitterness and anger over what had happened.

7) How has your abortion affected others in your life?

They paid for my mistakes by dealing with my anger.

8) Based upon your experience, what would you tell a woman considering abortion?

Please consider the cost before you have an abortion. You will live with the regret for a lifetime and there are other options.

9) Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalizing abortion only made it much easier for me to have an abortion. Had Roe vs Wade not been in place, I would have thought twice and more than likely, chosen adoption.

"I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT

To be completed by women who have had abortions

The State of MO
County of St Louis

BEFORE ME, the undersigned authority, on this day appeared Lisa Thornburg, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

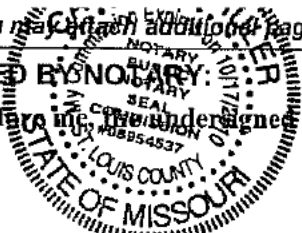

- 1) When and where did your abortion occur? April 1986 - St. Louis Planned Parenthood Abortion Clinic
- 2) How many weeks pregnant were you? As far as I could be + still receive a abortion together What type of abortion was performed? The kind w/ the machine that sucks the baby out w/ the tube
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: The planned parenthood in Jefferson, MO + Columbia, MO just stated it had to be done immediately. The St. Louis clinic had some paper that I couldn't see them. They showed some short video clips - which I did not understand.
- 4) Were you adequately informed of the consequences of abortion? No; I had no idea of the nightmares, depression, + inner turmoil that would follow for years to come. They did not even tell me of any consequences.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? The informed parenthood wouldn't let me even think about it a few days
- 7) How has abortion affected you? It has affected me in many different ways. I lost so much blood from the abortion in the first 48 to 72 hrs that I had to have a DNC. It caused a lot of stress w/ my parents. The shame + guilt went everywhere w/ me (especially the first twenty years afterwards), I started drinking alcohol + doing drugs to make the memories go away. I couldn't cope w/ the fact that I had killed a human being. My parents wanted it to never be spoke of again in our family. The depression after the abortion for years to come weighed me down everytime the church spoke about abortion - I would break down emotionally + couldn't cope w/ life. I constantly think about was it a girl or boy, + how old my child would be now.
- 8) How has your abortion affected others in your life? It impacted my parents + siblings. It impacted my best friend + her boyfriend. It impacted the people who intervened to stop me from taking my life. It impacted my life. Your life will fall apart afterwards. I beg you to talk w/ several people who have had a abortion + listen to their story + how it greatly affected their life.
- 9) Based upon your experience, what would you tell a woman considering abortion? Please do not do it - it will ruin your church + life.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? It should not because a court can't possibly understand what a abortion will cost in the future. It will cost communities a lot of money for the women afterwards - in counseling services, alcohol + drug rehabs, pharmacy (for depression, medication, + more because the women can't deal w/ the effects) + it will impact future children w/ that environment. The pain of them taking a suction machine + pulling your insides out should not be legal.

SUBSCRIBED AND SWORN TO before me, the undersigned authority, this the 23 day of July, 2008.
Clay R. Miller
NOTARY PUBLIC

At 19 years old, I made a poor choice to have an abortion. It would be a decision that would impact me for the rest of my life. I was drinking alcohol and doing drugs a lot of the time. I was having sex with many different people. I hated myself and my body. ~~I ended up~~ ~~pregnant~~ ~~after~~ ~~putting~~ ~~myself~~ ~~into~~ ~~unsafe~~ ~~situations~~ ~~because~~ ~~of~~ ~~my~~ ~~alcohol~~ ~~and~~ ~~drug~~ ~~abuse~~. There were multiple times I was so out of it that I couldn't stop anyone from having their way w/ my body. The guy who I thought was the father was much older than me. He was a ~~drugs~~ ^{drug} addict himself + I had broke it off w/ him.

When I went to the Planned Parenthood in Jett City, Missouri + they told me I was pregnant + that they were sending me to Columbia, MO Planned Parenthood. Columbia Planned Parenthood told me that the abortion would have to be done immediately because ~~because~~ I was so far along. My friends helped me with the cost of the abortion. There was no time to talk to anyone or think about how the abortion would affect me in the future.

The day of the abortion I was so scared. I couldn't cope w/ the decision I had made so I chose to get high + drunk before the abortion. I promised my best friend I wouldn't do drugs or drink that day + I had to break this promise. My friend + I went to the St. Louis Planned Parenthood clinic to perform the abortion. We arrived at the clinic + were one of the first ones to arrive. I was so terrified + felt really alone. There were teenage girls in there who didn't want to have a abortion + their parents were forcing them too. I felt so bad for them because I had a choice, they didn't.

The clinic called me back, took my money, + made me sign a form promising that I would not sue the clinic. They showed a short video which I did not understand. They called me into another room to do an ultrasound to find the exact location of the baby. They could not find a baby, so they made me go into a waiting room + drink lots of water, so much I felt like I was going to bust. They still could not find the baby, + decided to do the abortion anyway. They brought me into the procedure room. I was crying, scared, + just wanting the nurse to assure me that it was okay. But she was really cold + kind of rude. It was like she was angry at me, but she never tried to help me not do it. The machine sounded like a awful vacuum. It felt like something

was pulling my whole insides out. I was crying + screaming by this point. The nurse or assistant kept yelling at me to be quiet.

Afterwards they placed me into a recovery room. Other women came + went. I was the last one still there + I could hear the workers talking about me. They were saying, "we can't left her go, she is bleeding too bad." But it was closing time, so they sent me home anyway. I was bleeding so bad that we had to stop at a McDonald's + get paper sacks to put on the car seats. I had bled through the pad, my clothes, + ~~into~~ onto the car seats. Within 48 to 72 hours, I collapsed - due to the blood loss. I had to be transported by ambulance to the emergency room. They did a DNC surgery on me.

From this point on, the shame + guilt ate me up. The not knowing whether I was even pregnant or not, since they couldn't find a baby in the stilborns case. My drinking + drug usage progressed for the worse. The abortion had took place in April 1986 + by October 1986, I was drunk + high all the time. I got a DWI, ~~and~~ started going to a outpatient rehab - which turned into inpatient. On multiple occasions, I tried to commit suicide. One rehab after another + I just kept getting worse.

Everytime I heard the word abortion on TV, or in churches, I freaked out. I ran out of church everytime the pastor even spoke of abortion. I couldn't tell anyone what was going on inside because I didn't understand that the abortion memories were killing me inside + on the outside. I felt so bad about myself inside that I wanted to die. I felt that I should be punished for what I had done. The mental anguish I put myself through because of the abortion was more than I could cope with.

About 15 years after the abortion, I went to a Open Arms pregnancy center + tried to tell a lady from our church about it. I felt like the only way to end the pain was to kill myself (at the time). I only went a few times + tried to work in a workbook for abortions, but couldn't take it + quit. Now 22 years after the abortion, I have begun talking about it openly + sharing the details of what has happened to me. I watched a program on Angel tv. about women sharing their stories, + that is why I wanted to

tell my story. Everytime I have shared about my abortion, God has given me even more healing, as well as it has helped others talk about their abortion. It has also helped men understand the pain that goes with that choice.

November 20, 2008

I will share with you my personal experience with abortion. What I am to share with you is not unique to me or to my experience with abortion. One of my desires in sharing this is to counter the lies that I was told, so long ago with the truth. These are namely the lies, that out of desperation, I believed as a 19 year old contemplating abortion as a solution to what I saw, at the time, as a crisis in my life. In the "counseling" that I received via Planned Parenthood, I was told each of them and each of them I believed. I believed these lies not because I saw truth in them but because I had nothing else to believe in, nothing else to depend upon. Each of these lies has had devastating repercussions for my life and the life of my unborn child.

The first lie that was told to me was in regards to my child. I was told this was not a child but rather a phase in development that would result in a child at a later time in development. To have an abortion was merely a choice that would affect me alone. It was during a follow up exam some months after my abortion that I saw what my child looked like at 9 weeks. My child was perfectly formed. Every feature was distinct. Every finger and every toe and every nuance of my child's face was clearly evident. There was no denying that this was a baby and that a life was lost.

The next lie that I desperately wanted to believe was that in having an abortion now, I would be free to live the kind of life that I wanted to live. The truth was that abortion imprisoned me like no man made prison ever could. This realization settled on me as an oppressive burden. It was immediate. In the recovery room, my boyfriend was laughing and making jokes. I was just beginning to face the horror of an unalterable act. When asked to fill out a questionnaire about my abortion experience, I left blank the line that asked how I felt about myself after having had an abortion. The person that I was no longer existed.

I was told that I could have children later when I was in a more stable relationship and better prepared to care for them. I did go on to finish college and to make a new life for myself. But it was a life filled with intense fear and self destructive behavior. My first marriage ended in divorce. My second marriage was at risk for the same outcome. When our first child was born, I found it very difficult to bond with him and when our second child was born 18 months later they were both at risk for abuse and neglect at my hand. In an outburst of anger where my son was nearly injured, I realized how ill I was. How could I truly love my two children when I had my first child's life taken?

Lastly, I was told that I could make this choice today and I would not have to think about this again. My child would be 24 years old. There has never been a day where in some way I have not thought about my child, never a time when I

did not know how old my child would be. There has never been a moment when I do not forever regret the decision I made to end the life of my child. How could abortion ever be good? What could possibly make what is horribly wrong, right? How could abortion ever be merely a choice?

Each time an abortion is performed two lives are lost. One because a child's physical life is taken, the other because the hope, that is the foundation for that life, is destroyed. After 25 years of silence I must speak about the truth.

7) There is not a portion of my life that has NOT been affected by my abortion. From the very minute I walked out of that abortion clinic I was different. The shame, guilt, and overwhelming confusion over what I had done began to take a toll on my emotions and well-being. The uninformed decision I made due to a lack of real information regarding the abortion and what was really going to take place was not explained to me. The 5 minutes I spent in the "counseling room" was only "counseling" on how this "procedure would take care of my "little" problem. Plain and simple. They would remove the "blob of tissue" and I would be good to go. Problem solved. They LIED!!! Since I was uninformed of fetal development at the time and was in complete fear and shame over being 16 and pregnant my fear was used against me by the abortion provider to sell me a product, a service, ABORTION. As I grew and matured into a young woman and began to understand the scientific facts of the baby's development in the womb. That the child they were in my womb at 16 years old had tiny, little, beautiful hands, fingers, feet, toes, eyes, ears, mouth and a nose, this is when my personal horror began. How could I have done this to someone so innocent and small? How come the "counselor" was not required to explain in truth what the procedure was and what it would do to the little child inside of me? Why wasn't I told the truth? Why wasn't I required to have my parent's permission to have SURGERY that would forever change my life? How on earth at the age of 16 could I be mature enough to make this kind of life altering "choice" Answer: Because it was about selling me an abortion! And yes, I am angry. Because of what happened to me and my child I am willing to stand up and tell the truth about abortion. What it is and what it does to the growing baby inside. Just tell the truth and then let the women decide what to do. Now that's a real choice.

8) My abortion has affected other people in my life in many ways. First, I had to hide and lie to my parents about what I had done. If abortion was not a horrible, awful, thing I would not have been so ashamed and fearful. I could have told them about the pain and suffering I was going through at the time. My eating disorder, bulimia, drug use and alcohol abuse would have been made more severe and I could have received help for the reasons I was hurting. My abortion affected my husband. He married a girl who was suffering from the effects of an abortion and he didn't know it. I was so ashamed of my abortion that I hid the fact that I had had one for eight years of our marriage. In fact, because I felt so strongly that I needed to make up for the life that I had taken I "got" pregnant on purpose with our first child in order to somehow redeem myself for what I had done earlier in life. I betrayed my husband. I hid this awful secret to this day from the people closest to me. Parents, siblings, and my own children. I stole from them their grandchild, niece or nephew. Brother or sister, from myself, my child.

9) What I would tell other women considering an abortion is to get all the FACTS. Know exactly how far along you are. Have an ultrasound at one of the many pregnancy clinics that will do them for free. Realize that 9 months of fear and shame of pregnancy and even adoption if parenthood is not the best thing for them at the time is a wonderful choice. 9 Months compared to a lifetime of regret is a great choice. Several times a year I count up the years and think about how old my son or daughter would be if I had made a different "choice" Abortion never goes away. It never fixes anything, in my experience it only made things worse.

10) What I would tell the court that believes abortion should be legal is this: Stop abortion now! There are millions of women and men in this country alone that are suffering in silence because of "choice" And then all the millions of babies being slaughtered in the most dangerous place in the world, the womb. Make abortion education, fetal development, ultrasound and parental consent mandatory. If abortion is so wonderful, the abortion doctors should have no problem with this. It is just the facts.

DECLARATION HOW MY ABORTION HURT ME

The State of Montana

"My name is Lisa. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? 1985 and 1986 Atlanta, Georgia
- 2) How many weeks pregnant were you? Maybe 10 and 11 What type of abortion was performed? thru suction
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was told that it wouldn't feel anything. I didn't know then what a fetus or embryo was, but I was told that I shouldn't wait and that I should have the abortion before 12 wks. I was led to believe that it hadn't formed into a baby yet.
- 4) Were you adequately informed of the consequences of abortion? I was never told it could cause cancer, or prevent me from having children later, or of the emotional effects. I was told it could cause my death (worse case) and or complications.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? the 1st time no. The second time yes. My boss, baby's father, athon's
- 7) How has abortion affected you? I thought it would be an avenue for me to make a fresh start, go to college, have a successful life. I tried to forget it and cover it up with relationships, drinking and other unhealthy things. Just made it worse. I couldn't stay focused in college and quit before the end of my first year. Got pregnant again and because of using unhealthy substance I was scared the baby would be deformed and was persuaded to have another abortion. It was easier the second time because I had already been convinced that as long as I did it before 12 weeks, it was safer and the fetus had developed. I felt empty afterwards, angry at everyone. I hated myself and at times had suicidal tendencies. I've been deceived, and robbed of children that should be a part of my family. My family's been robbed of family.
- 8) How has your abortion affected others in your life? it stole my moms grandchildren and my childrens siblings, and caused them to struggle with fear of possible rejection because I rejected their siblings
- 9) Based upon your experience, what would you tell a woman considering abortion? It's a decision that will affect her for the rest of her life. I would say, "make sure you have all the facts about pregnancy and abortion, consider the outcomes of all of them. Terminating a pregnancy is in no ways an easy out, and the abortion ~~is~~ not assure future life success
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion says that we have the right to do what we want to with our body, even at the expense of another's body (the baby inside). How is that different from a rapist exercising their right to do whatever they want to with their body at the expense of their

victims body?, or a person who drinks and drives and kills an innocent kid in the road who just happened to be in the way of one who did what they wanted to with their body? Maybe their intent wasn't to kill, but only do what they felt they needed to for themselves at the time. How does abortion differ from either of these that we label as crimes? If you legalize the taking of another's life (murder thru abortion - a heinous crime) which devalues human life in the name of comfort and convenience, it sends a message to murderers, rapist and other violent offenders either directly or indirectly that the value of human life is limited to the circumstances surrounding it. Legalizing abortion says that the value of human life is limited to whether or not that life benefits the one taking it. It also sends the message that human life and its value is subject to popular opinion (a vote). If you're a politician, this may appear to be a harmless and acceptable democratic way of approaching an issue, until it hits home and you find yourself suffering from a law you endorsed. This is about more than another issue. It's about lives. It's our moral duty to fight to promote and to preserve life. What about the preamble which begins, "We the people of the United States..."? We all were people in our parents' wombs. Did we not exist? Were we not human until we got a birth certificate or social security card? I have a niece who was born at 4 1/2 months, one at 5 and one at 6 months. They are healthy citizens of our nation, and so they were in their mothers' wombs, healthy, living, growing. You can reason this down to a matter of conscience, and even consider it a luxury, but to eliminate conscience is to invite chaos, and without conscience, that's all we've made space for. When we override conscience to make legal things that should not be so, it belittles the value of conscience concerning that thing made legal in our society and only contributes to the breaking down of the moral fiber of our country.

The message that all people are receiving isn't, "Even though this is legal, potentially harmful, even fatal consequences are likely to follow," or "legal, but lethal." What the public hears is, "It's legal so I can do it."

When a law is passed, those who've opposed have often considered consequences of making such legal. Those in favor of it often see little or no consequences. Consequences follow choice. That much is proven. And in the case of life

resulting in death, the most tragic consequences cannot just be undone. Our laws will not raise the dead whose blood is on our hands, restore broken lives and homes or reverse the holocaust that resulted because it was left to a vote. Adolf Hitler made laws, and those who made up the majority in his eyes thought he was right and supported his decisions. The holocaust was legal, law under Hitler's reign. It is worth remembering when you justify legalizing abortion that an estimated 11 million people, 6 million of which were Jews, whose lives were of no value or significance to that society, did not get to vote. Hows that for democracy? I can't help but wonder how differently things would have turned out had their voice been counted.

AFFIDAVIT

To be completed by women who have had abortions

The State of NC
County of Harris

BEFORE ME, the undersigned authority, on this day appeared Christina E. Camp, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? February 1996, Charlotte, NC
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I do not recall being told of any psychological effects or physical effects.
- 3) Were you adequately informed of the consequences of abortion? no

4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____

6) How has abortion affected you? In many ways, I was numb to what I had done for a couple of years. Then depression set in, along with feelings of unworthiness, shame, guilt, I had anxiety. I felt very unworthy to God. I became very promiscuous, trying to fill that void in my heart with anything. It was an effort to keep it a secret, I was afraid of the response from friends & family if they knew. But I needed to talk about it, I kept it bottled inside for many years.

7) How has your abortion affected others in your life? When my family found out, they were upset, but we've overcome all those obstacles now.

8) Based upon your experience, what would you tell a woman considering abortion? I would tell her it would be something she'd never forget. That God has a plan for her and her baby, if she would accept it and that this baby has life @ conception

9) Based on your own experience, what would you tell a court that believes abortion should be legal? That abortion does end the life of a defenseless, precious child which God gave life to. That women, and men too, are affected psychologically & physically. That life is sacred and that God gives life and He's the only one who can take it away.

"I have read the above and foregoing statement and the same is true and correct."

I even married that guy after I tried to get rid of him. He was going to use it & tell my parents, if I didn't marry him.
- 8) How has your abortion affected others in your life? It has left my parents with sorrow because I was afraid to go to them.

- 2) How many weeks pregnant were you? Ca. 10 What type of abortion was performed? Auction, I think
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: It was done in the 70s, in a military hospital, by a doctor who treated me like dirt & didn't get everything. Had to have a D+C a few weeks later - same treatment
- 4) Were you adequately informed of the consequences of abortion? No. no one told me anything at all
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? A Catholic priest I went to for advice.
- 7) How has abortion affected you? I lived with guilt for 3 years that I murdered a human being. I cried a lot & went into depression. I was treated like dirt & felt like it. A priest told me I had no option since the baby's father didn't intend to marry me & I couldn't raise a baby by myself, being in the military. I was confused, hurt, alone & the only relief I found was once I became a Christian & found forgiveness in Christ. Most women I've met who've had abortions suffer similar feelings.
- 8) How has your abortion affected others in your life? The baby's father & I split up because of this & I know I hurt him very much by bumping him.
- 9) Based upon your experience, what would you tell a woman considering abortion? That it really is a human life they are trying to end & they will feel the pain afterwards sometimes physically as well as mentally. It torments a woman for a long time after.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Only one who's been through it knows what it's really like, so they should listen to more of the testimonies of those who are actually suffering from it & because of it. They know more about it than those who are just promoting their ideals.

You may attach additional pages of testimony, if needed.

A NEW DAY IN THE BATTLE AGAINST *ROE v. WADE*

Do you want to see the end of *Roe v. Wade*? You can help by becoming a Declaration Ambassador for **Operation Outcry** (www.operationoutcry.org). **Operation Outcry** is a project of The Justice Foundation (TJF) to reverse *Roe v. Wade*. **Operation Outcry** has already proven its effectiveness at the U.S. Supreme Court.

The Supreme Court is listening! Thirty-five years after the Supreme Court legalized abortion-on-demand, the tide has turned. It's the beginning of the end of *Roe v. Wade*.

Upholding the federal ban on "partial-birth abortion," the Court cited TJF's Friend of the Court Brief in its ruling. The brief was filed on behalf of Sandra Cano, who was "Mary Doe" of *Doe v. Bolton* (the companion case to *Roe v. Wade*), and 180 women hurt by abortion.

Citing sworn testimony presented by TJF from women who had abortions, and acknowledging that ***abortion hurts women***, the Court concluded that "some women come to regret" their abortions. "Whether to have an abortion requires a difficult and painful moral decision," it is "fraught with emotional consequence." **The Court also noted that "severe depression and loss of esteem can follow" an abortion.**

HOW CAN YOU BE INVOLVED?

As an **Operation Outcry** Declaration Ambassador (DA), you can help us mobilize one million voices to express the harm that abortion causes men, women and children. You can copy and give a Declaration form (*see reverse side*) to women who have had abortions so they can tell the Supreme Court how abortion hurt them. *Men's Declarations are available at www.operationoutcry.org.*

The Supreme Court said that abortion can cause "severe depression and loss of self-esteem," **but the Court also said there is no reliable data on the size of the problem.** That's why we need to collect one million Declarations! We must collect and present the truth!

WHY WE COLLECT DECLARATIONS

- To save others from being hurt by abortion.
- The power of testimony touched the Supreme Court.
- Written testimony is the most confidential, private, simplest, long-lasting, and effective form of being a witness.
- The Court's ruling is an invitation to provide further evidence of the harm of abortion.
- We need to be ready.
- We need to show the Court the magnitude of the harm of abortion.
- States need evidence to regulate or ban abortion.

OPERATION OUTCRY is the nationwide project of The Justice Foundation, a non-profit legal foundation, to expose the truth about the devastating impact of abortion on women, men, families, and the culture. For more information, visit www.operationoutcry.org. **Operation Outcry** has been endorsed by Julie Parton, Ph.D.; Allan E. Sears, Esq.; D. James Kennedy, Ph.D.; Richard Land, Ph.D., Southern Baptist Ethics & Religious Liberty Commission; J. C. Wilke, M.D., Life Issues Institute, Inc.; Theresa Burke, Ph.D., Rachel's Vineyard; Fr. Frank Pavone, Priests for Life Foundation; David C. Reardon, Ph.D., Elliot Institute; Sam Casey, Esq., Executive Director and CEO, Christian Legal Society; Donald and Tim Wildmon, American Family Association; Carol Everett, The Heidi Group; and many other national leaders.

TO THE WOMAN OR MAN WHO HAS HAD AN ABORTION

We understand the pressures on you to have an abortion. We understand the pain you suffered as a result. We offer hope and healing in the name of Jesus Christ to those who have had abortions. We need your truth of what abortion did to you to show the Supreme Court the harm that abortion causes women and men. It is time to be silent no more. There are free Biblically-based, Christ-centered abortion recovery programs in your area. Call the toll-free number 1-866-482-LIFE, the National Helpline for Abortion Recovery. Caring women who have had abortions are available 24-hours a day, 7 days a week to help you. The Helpline can refer you to help in your area.

In the meantime, complete this declaration form so that the Supreme Court and legislators will know the truth of what abortion did to you. **You must sign your full name for the form to be legally admissible, but we will always protect your personal contact information** from disclosure, even to the courts, and you can indicate on the form whether we should use your full name, first name only or initials. You may also indicate whether we may contact you in the future, or if you wish to never be contacted again. Your identity can be kept private and confidential, but your truth can be taken to the Supreme Court and legislatures around the world.

We need to mobilize a million voices of those who have been hurt by abortion to show the size of the problem.

If the truth about abortion is not collected, the lie that abortion is good for women will win. How do we overcome Satan, by the "Blood of the lamb and the word of their testimony..." Rev 12:11 Fill out the Declaration or share it with a friend!

AFFIDAVIT

To be completed by women who have had abortions

The State of NC
County of UNION

BEFORE ME, the undersigned authority, on this day appeared P. V.J.; who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Sept. 20, 1989 Blaufort, SC
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: It wasn't explained or emphasized to me that it was a baby, my baby and the torment I would experience for not protecting my baby & trusting Dr.
- 3) Were you adequately informed of the consequences of abortion? Only rudimentary details of the procedure & to a certain degree for me - not for my baby.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? the father of my baby
- 6) How has abortion affected you? It gave me extreme grief, loss, regret, guilt, shame, sadness, confusion, fear, stress in my soul and body, isolation, separation and divorce, lack of trust in myself and others. It has touched every area of my existence in a very destructive way and it has taken me a very long time to recover. Now I have no children and no husband and few close friends and no job - nothing seems to last... I couldn't find comfort for something I caused and can never correct and I can't talk about it or couldn't because of my reaction to others.
- 7) How has your abortion affected others in your life? They have had to see me suffer and not be who I am and not know why entirely.
- 8) Based upon your experience, what would you tell a woman considering abortion? Do not do it! Keep your baby and trust in Jesus for your sins and god and His Holy Spirit to help you to have the baby and provide for His well being.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It should not be legal because it is murder and murder is not legal. It is taking a life, it also takes the life for a season - a long season - of the mother's life and the father's - neither they are aware of it or not - in effect making this decision killed the baby.

- 1) When and where did your abortion occur, including city and state? Feb. 1980 - Planned Parenthood, Charlotte, N.C.
- 2) How many weeks pregnant were you? 8 WKS. What type of abortion was performed? _____
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was ^{only} told it would solve my problem which was the pregnancy according to Planned Parenthood. They gave me no information concerning risk, the procedure or possible complications.
- 4) Were you adequately informed of the consequences of abortion? None-- were given to me.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? Boyfriend

7) How has abortion affected you? I suffered emotional consequences for 10 yrs. Guilt, shame, drinking and being promiscuous were some of the results. My first marriage ended in divorce. (I married the father of the baby). There was hurt, rejection and anger in our relationship due to the abortion so we could never succeed together. When I remarried and had our 1st child I was extremely fearful that he would die. I spiritually felt separated from God & things did not get better until my life in Christ became my focus & then

8) How has your abortion affected others in your life? yes - those near me, suffered my pain indirectly because of the consequences abortion brought into my life. (hearing came)

9) Based upon your experience, what would you tell a woman considering abortion? That abortion last forever and it is a decision that will change your life and bring consequences that you can not imagine. That this time of crisis (pregnancy) doesn't last forever.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? That abortion not only takes the life of a viable human being but that abortion destroys women. That we can never prosper as a nation or individuals if we have to take the life of an innocent child to do that. There are better choices & difficult circumstances. That abortion makes the woman the 2nd victim.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of **NC** County of **Lincoln**

"My name is Teresa. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? When I was sixteen 1978 & seventeen 1979. FallsChurch Virginia.
- 2) How many weeks pregnant were you? 1st once 6wks, 2nd one dont remember the 2nd was late term What type of abortion: suction on the first and don't remember on the second the second was more traumatic I think I have blocked this out of my memory
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Adequately explain? How do you adequately explain taking the life of an unborn child, no that is not why they were there, they were there to destroy your child and take your money period. There was no time to adequately explain, they wanted to rush you in a room like cattle, remove your child and go on to the next one the way I figure they had three girls in rooms at the same time, the abortionist would come in do one and go to the next so in 1 hour at least three were done back then \$1200 per hour is a hefty chunk of money for an abortionist to make \$9,600 per day. It was all about the money, plain and simple greed. Then they put you on the lowest dose birth control pill possible knowing a sixteen yr old would forget to take them, make you think you were "protected" and of course get you pregnant again so they could have you back and get more of your money while they destroy your life and the life of an unborn child.
- 4) Were you adequately informed of the consequences of abortion? No I was only lied to by the seemingly well meaning staff, lied to, lied to, lied to. It's just a blob of cells, its not even remotely a child, I allowed someone to convince me to kill two children, they should be in jail..
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No but I did have fibrocystic breast disease
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? The people at the planned parent abortion clinic pressured me into having an abortion telling me that it is just "a blob of cells" and to this Day I remember distinctly those awful lying words.
- 7) How has abortion affected you? I don't believe there are any words in the human language to describe how abortion affects a woman. The deceit, the greed, the evil behind the practice of talking an immature sixteen year old into slaughtering innocent babies is sinister and unconscienable. Men need to think about this also - how do you think you would feel if you went up to an infant stuck a gun to his head and pulled the trigger - that is essentially what millions of women do everyday. It's wrong, it's immoral, its murder - do the effects of having murdered anyone ever go away ?
- 8) How has your abortion affected others in your life? How can we truly know the long term effects, we have damage our own social security system because we have killed our work force.
- 9) Based upon your experience, what would you tell a woman considering abortion: DON'T LISTEN TO THE LIES - it is not a glob of cells, get an ultrasound see a picture of the unborn CHILD living in your womb. Taking a precious life will destroy your own life, you will regret it the rest of your entire life and you will never be able to undo the wrong that was done. There are over one million childless couples in this nation alone, consider adoption, there is NO unwanted child. The muslims don't kill their children - we are killing our heritage and the shape of our nation will be forever changed because of it.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? The truth is Abortion should not be legal. The truth is young men and women are not animals who can not control their own sexual behavior, they need to be taught how to behave, by their parents, by their grand parents by their teachers. By their pastors and Sunday school teachers. Abstinence needs to be taught, the dangers of sex need to be taught. Indeed Sex does have a price tag and it is a very huge one, not just pregnancy. The Sexually transmitted disease in this nation and others is reaching phenomenal rates. See the compelling excerpt From Pam Stensels' Video that I watched years ago – after seeing this I didn't stay stupid and I want to share the information, I just wish I had seen this when I was fourteen or fifteen.....then I would not have to be writing to you on the horrors of abortion.

- Sexually active people are four times more likely to contract a sexually transmitted disease (STD) than to become pregnant.
- Three million teenagers contract STDs annually.
- 25 million Americans are infected with the herpes virus.
- More than 40 percent of sexually active singles are infected with human papillomavirus (HPV), commonly called genital warts.
- One in every 250 Americans has the AIDS virus.
- An estimated one in five Americans is infected with a viral STD, a figure that doesn't include bacterial diseases like chlamydia, syphilis and gonorrhea.

Girls would come to my office and say: "Pam, if I had known this was going to happen to me, I would have made a different choice. But no one told me." I began to ask these girls: "What could we have told you? What could someone have shared with you, before you made your choice?" After all those years I realized there are a lot of students making decisions about sex who have no idea what the consequences of their decisions will be. I am writing this so that none of you will ever again be able to say to a physician, a counselor, or to your future husband or wife: "Nobody told me. I didn't know."

Girls Hope They're Off The Hook

Most teens who are having sex are afraid of getting pregnant. Girls come into my office for pregnancy testing, and when I tell a girl her test is negative, she gets a look of relief over her face, as though to say: "I'm off the hook. I'm not pregnant. Let me out of your office." Wait a minute! Have you been tested for syphilis, gonorrhea, herpes, chlamydia, trichinoma, vulvadema, urethritis, hepatitis B, HPV or HIV? **You have a four times greater chance of contracting a sexually-transmitted disease than you do of becoming pregnant**

Abortion, Anorexia, Bulimia, Suicide

There is no easy way out of pregnancy. Abortion is painful, destructive, and devastating. More than 80 percent of the women in our country who've had an abortion say that if they could go back, they would have chosen something different. Abortion isn't like going to the dentist and having a tooth pulled. I have counseled with hundreds of women -- five, ten, fifteen years after they had an abortion, who are still hurting physically, psychologically, and above all, spiritually. I've counseled teenagers with anorexia, bulimia, and depression -- including many who have attempted suicide because they had an abortion.

Parenting a child isn't an easy choice either. Eight out of ten single teenage girls who choose to parent their children will live below the poverty level for at least ten years. Most stay there the rest of their lives. Nine out of ten will never attend college. These are girls who had goals, plans, things they might have liked to do with their lives after high school that they didn't get the chance to do because of their rash choice to have sex.

Venereal Disease Epidemic

Today, in the next 24 hours, 12,000 teenagers will contract a sexually transmitted disease (STD). And that's just teenagers. Looking at the entire population, there are about **50,000 people each day** in our country who contract a sexually transmitted disease. Yesterday, 12,000 of them were teenagers who got up in the morning like some of you reading this, and said: "It's not going to happen to me. That happens in big cities, but not where I live." Wrong!

Chlamydia Sterilizes

In the 1950s there were only five sexually transmitted diseases that were known and treated. Today there are more than fifty types of STDs. Chlamydia is the number one STD among teens today. There are about 4,000 teenagers every day who contract chlamydia. This is a bacteria, not a virus.

Unlike some venereal diseases, it can be cured. But more than 80 percent of the students who contract this disease do not realize they have it. If you contract chlamydia once in your life, you have a 25 percent chance of being sterile the rest of you life. If you get this disease more than once, the chances are much greater that you will never be able to have children.

Pro-Life America

The above teaching video is what our nation should have in every class room in every grade from 4th grade to 12th every year for every student. I ask you does anyone care what is happening to our young people any one at all ? Does anyone care what is happening to the generation that will inherit this great nation? Or are we so self centered and focused on ourselves that we just really don't care? Does anyone care that they have been brain washed to disregard, degrade and devalue each other and human life? We need to care and we need to do something about it, it is up to us to educate them and tell them the truth. Planned Parenthood will only tell them lies, who will tell them the truth? I beseech you earnestly it has to be you and me, we must tell them the truth while there is still hope for our nation, before it is to late and we have passed the point of no return, before we have gone down the road of total destruction. I believe in a power greater than the lies, I believe in a God who can change the hearts and minds of men and women and I believe in a court who can reverse a very bad decision and literally save a nation. I write because I believe. I am ashamed, I am humbled, I am repentant, but I am bold for the truth. I pray Gods hand upon anyone who reads this, that he would break your hearts for this generation and leave you different, that he would lead you into all truth and you would be proponents of everlasting truth. You have the opportunity to change a nation, don't let that opportunity go by having done nothing.

Sincere and Kind Regards,

Teresa Rice

Declaration

How my abortion affected me
The State of Nebraska
County of Webster

My name is Ina Glen, I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

1. My abortion occurred in the state of New Mexico, the city of Albuquerque.
2. I was approx. 12 wks pregnant. I am not sure which type of abortion was done.
3. I believe I was adequately informed of what an abortion does but I had no idea of the long term effects it would have on me.
4. I don't know if I was told all the consequences of abortion. I certainly never thought it would have such long range effect on me.
5. I have never had breast cancer and only heard of a connection with it and abortion in recent years.

6.) no one pressured me into an abortion but on the other hand, no one offered me any help to make another choice either.

7. The abortion affected me the most when I became pregnant after I was married. I began to see what I had given up! And what an awful loss that was! I had given up willingly, a life! a person who was a part of me, just like the baby I was carrying I felt as if I had killed part of me. → And I had! What a great sin. Murder! I am so thankful God: forgave me of that. But what guilt the women still carry who dont realize that God can forgive them! and even though I am forgiven, I constantly suffer! I have to just as constantly remind myself that God has forgiven me. I see children who would have been the age of my child and think, "if only" I hadn't made that choice! "If only" someone had stepped forward to help me financially through the

the pregnancy and offered emotional support,
 that child would be alive! A life who
 God had plans for! Never to be
 lived! Never to fulfill the plan God
 had for it! All because I made a choice
 when I was an immature 18 yr. old
 who didn't think of the long lasting effects
 Didn't think of what they might be!
 Didn't think that the girl I always wanted
 was the one I gave permission to be destroyed.
 What an awful burden I carry! and if
 not for God and knowing He's there
 to help and comfort me, I would have
 destroyed my own life by suicide. I
 can barely live with the pain now, how
 could I have carried it without God?
 I have two grown, wonderful boys but when
 I see them I imagine an older sister
 or even a brother. If I hadn't had the
 abortion, they could have connected with

him or her and formed a bond. I could
have seen the child I allowed to live
and seen the life I could have saved.
I would have had a chance to reconcile
But! not now. That life is in heaven
and never had the chance to live. When
will I ever feel at peace? Not till I see
that child face to face in Heaven. What
a long wait I have and all those "could
have" and "if onlys" to haunt me until then.
When I see there is added health risks
because of abortion I know I brought this
on myself. If only abortion wasnt legalized!
I know I would have a live child
today. I would have been so happy.
to see them and know I gave them
a chance. If I never got a chance
to see them then, at least I would
have had a peace that I did the right
thing. Now, maybe I will die before I should

- 3 -

have because of the consequences of the abortion. My family will suffer without me. There will be grandchildren I will never know and cannot influence for the good. I may not be here to do what God planned for me later in life.

8). I have talked about how the abortion affected me and also how its effects could have been for my two sons. I told my husband about it before we married but I wonder what he thinks of me, knowing what I have done. Sometimes I think I should tell my sons about what I did. But I have not. Maybe they would think less of me. I am afraid. I am ashamed. And more than all these, what does my child who never got to live think of me? Mom, why did you let them murder me? No! They never told me anything about

What that is like to face! NO! I
dont remember anyone saying anything
like that.

9. What I would tell a woman who is
considering abortion is what I have already
written and anything else I could think of.
I would want to say all I could to
inform her of what her life would
be once she makes a decision to have
an abortion. And I hope that I would
succeed in changing her mind.

10) Based on my experience I would tell a parent
to allow the baby to Speak for itself.
It has the right to live! It has rights!
Why do you think that it doesnt? It will
shame and inconvenience the girl or woman
for a mos. but nothing like the shame and
painful memories and life that I lead. Let
her give the baby to someone who can
care for it. That is the right thing to do!

Summary

In short, women can be at increased risk for breast cancer when they are exposed to higher levels of estrogen. This may occur through increased number of menstrual cycles or particular patterns of estrogen metabolism which allow for elevated levels or more potent estrogens to be formed. Higher estrogen exposure may also be induced artificially, with birth control pills, injections and patches, or hormone replacement therapy. Surgical removal of a woman's ovaries before menopause lowers her exposure to estrogen and decreases her risk.

5 Breast Maturity & Breast Cancer Risk

Another aspect of breast development affecting breast cancer risk is the maturation of breast lobules, which make up the milk glands (lobules), from Type 1 lobules to Type 4 lobules. Breasts are composed of milk glands (lobules), which make milk, and are surrounded by supportive tissue made of fat and stromal (connective) tissue.

Schematic of breast lobules

At birth, you have primitive Type 1 lobules, which are very immature and are also known as TDLUs (terminal ductal lobular units), where cancers are known to arise. Some Type 1 breast lobules develop into Type 2 lobules at puberty, which are still primitive and susceptible to carcinogens. During the 3rd trimester of pregnancy (after 32 weeks), the breast lobules mature into Type 3 lobules. Type 4 lobules are formed after childbirth and produce milk. Both Type 3 and Type 4 lobules are resistant to carcinogens. (See diagram at left).

Not only do these lobules look different anatomically, but they grow differently. For example, Type 1 and 2 lobules copy their DNA faster than

Type 3 lobules. The faster DNA is copied, the higher the risk of mutations or cancer cells forming.

Actual photomicrographs of human breast lobules:

The principle of breast cancer risk relating to lobule maturity can explain other well-documented breast cancer risks as well.

If a woman does not have a full-term pregnancy (meaning she is childless or nulliparous), she has **increased risk** for breast cancer, since she never develops Type 3 and 4 lobules. If she has children later in life (after age 30), she has **increased risk**, because, for most of her menstrual life, her estrogen has been stimulating immature Type 1 and 2 breast lobules. If she has children as a teenager, she has **decreased** risk of breast cancer, since her breast tissue matures very early in her menstrual life to Type 3 and 4 lobules.

If a woman breast-feeds, she often has anovulatory cycles (in which estrogen is low) or misses menstrual cycles altogether. She has **decreased risk** due to two factors: less exposure to estrogen and breast tissue maturity to Type 4 lobules. Risk decreases in proportion to duration of breastfeeding.

The risk factors of estrogen exposure and breast immaturity can also act in concert with one another, causing greater risk. For example, if a teenager, who has not had a full-term pregnancy (she is nulliparous), takes birth control pills, her risk of breast cancer is much higher than it is for a woman who has had several children and then takes birth control pills. A woman who gets pregnant increases her estrogen level 2,000 percent by the end of the first trimester. If her pregnancy goes to full term, she will have lower breast cancer risk by developing full breast maturity. If it ends before 32 weeks, by very premature birth or induced abortion, she will have increased risk as she will not get the benefit of full breast maturation, but instead be left with more places for breast cancer to start. Spontaneous abortions (miscarriages) in the first trimester do not increase breast cancer risk because they are associated with low estrogen levels.

Cigarette smoking before a full-term pregnancy can **increase** a teenager's breast cancer risk substantially, because her breast lobules are immature and rapidly growing.

- 1) When and where did your abortion occur, including city and state? October 1989, Presbyterian Hospital,
- 2) How many weeks pregnant were you? I think 8 What type of abortion was performed? I don't know
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: "Tissue"
I don't think I was given a clear picture of what I was about to do. I wish it were reinforced that this was a baby, a child, a human being that had the right
- 4) Were you adequately informed of the consequences of abortion? no - consequences were ~~not~~ to be here
never brought up. I'd have blood loss, cramping, take these pain relievers. "it'll be
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No gone & over a few days.
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? boyfriend said it was my choice but didn't say he wanted child.
- 7) How has abortion affected you? I have been terribly lonely, emotionally empty, drained, no zeal for life. I can see a big disconnect between reality & what I have been living. Like being an outsider; ~~but~~ not participating in my own life. Marriage problems for 18 years. Being very needy, but not letting anyone know that I am. Putting on a mask of confidence & knowledge, but having neither. I have an ache a heaviness, a need/desire to do all things right, but have very little energy.
- 8) How has your abortion affected others in your life? My relationships all seem very distant. I am overprotective as a parent; love my children but there is an emotional disconnect.
- 9) Based upon your experience, what would you tell a woman considering ^{deciding} abortion? Please don't do it. It takes on the illusion that your "problem" / secret will just go away but in reality, the "problem" is just beginning. It'll bring you so low you won't be experiencing life like you used to know.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? You are bringing and encouraging death upon this country. We will all be walking dead people. There will be no life inside. We will all be walking around, "white washed tombs" looking good on the outside, but being completely dead on the inside.

- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? My boyfriend
- 7) How has abortion affected you? I kept my abortion a "secret" for many years, not even telling my boys until they were teens. The repression of this has allowed me to also repress various emotions and memories. I have dealt with anger and depression for years. I never acknowledged (until recently) this violation of human life has created a HUGE wedge between myself and God as well as my husband (then my boyfriend). I have lost so much over the years that I can never get back.
- 8) How has your abortion affected others in your life? I have been angry at my husband for years because I had to face the ordeal on my own.

- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? No matter what a man or woman says - abortion is murder. God knew who all of us were before we are conceived. Who are we as individuals to play the role of our (God) and say a soul isn't worth birthing simply because it's inconvenient.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who?

7) How has abortion affected you? It has devastated me! If I knew then what I know now I would never have had an abortion. I have been able to forgive myself for all my past mistakes, but I can never forgive myself for my abortion. I know deep inside me that what I did was murder of an innocent baby. I killed my baby! How do you live with that? Believe me - you can't.

8) How has your abortion affected others in your life? I don't tell anyone.

9) Based upon your experience, what would you tell a woman considering abortion? Don't do it! You will suffer for the rest of your life. Your baby deserves a chance at life just like you did. Consider adoption.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? When is murder of an innocent baby legal? Just because the baby is inside the mother's body (if not outside) does not mean it doesn't deserve all chances to live. Abortion is murder. Only someone who has never had one can say it isn't murder.

AFFIDAVIT

To be completed by women who have had abortions

The State Nevada
County of Washoe

BEFORE ME, the undersigned authority, on this day appeared Marjorie Gwyn, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Redondo Beach, CA - A doctor's office. May 1979.
- 2) How many weeks pregnant were you? About 8 weeks. What type of abortion was performed? Suction.
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I recieved absolutely no information from anyone. They had me sign a waiver releasing the doctor from any responsibility should things go wrong I suppose. They also wanted the money paid in advance and I did that and was told to undress, sit up on the table and wait for the doctor, whom I had never met.
- 4) Were you adequately informed of the consequences of abortion? No, not one word was ever uttered to me about any consequences. The nurse that was present was extremely cold and actually rude to me when I started crying, saying that I really did not want to do this. She told me that at the clinic where she worked a lot of teenagers came in for their 2nd and 3rd abortion and they never cried, so why would I cry, after all I was older, (I was 31 years old at the time. The procedure was extremely painful and when it was finally over this doctor told me to use birth control from now on and left the room.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? At first I was relieved, but that only lasted about a week. The guilt I felt was overwhelming. I had nightmares for years and depression. I could not be in the same room with a baby, much less ever hold one. I had to leave the room if abortion was mentioned on the television or discussed by anyone for fear that they would know by the look on my face that I had killed my own child. I became pregnant again within a year to make-up for killing what would have been my first born child. I married the father and had another child and still suffered with the pain, trapped in my own prison of unrelenting, excruciatingly painful guilt, believing that I would have to pay for what I had done, believing that I was unworthy of God's love and that there was nothing I could do to make up for it. I had no one to share any of these feelings with because if I did share what I had done I ran the risk of their judgment and the loss of a friend if they knew what I had done. So I stuffed it down and remained silent for years.
- 8) How has your abortion affected others in your life? I believe that my relationship with my first husband was damaged by the guilt and shame I felt. My present husband states that he has felt hurt and pain while I was going through the post-abortion healing class a few years ago.
- 9) Based upon your experience, what would you tell a woman considering abortion? I would tell her that she needs to listen to that still quiet voice inside her that is telling her that this is WRONG. This is a human being you are about to destroy and the clinic that wants you to believe that it is a simple procedure with no after affects is LYING to you. The "fetus" is just that, a little one or baby, no matter what the gestation age, it is a human being that is "wanted" by someone out there. Give LIFE not DEATH. Don't believe the propaganda that "abortion is just like having a tooth pulled", you will have to live with this for the rest of your life. You may feel instant relief, but it will not be "over" for you, it will only be "over" for your baby. Someday the unresolved grief and guilt will surface; Abortion produces two victims a baby and the mother of that baby-YOU.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion Hurts Women. Abortion victimizes women. Abortion produces two victims, a baby and the mother. Millions of our pre-born citizens have been allowed to be slaughtered under the guise of "helping" women. The Fourteenth Amendment was intended to assure that no class of human beings would ever again be denied freedom or rights by any state government. Unfortunately human rights have again been stripped away from a class of "people", the unborn. I will work to implement equal protection for the right to life of each born and preborn human person. The killing must stop, the damage to women must stop!!

"I have read the above and foregoing statement and the same is true and correct."

struggle with low self-esteem & self-hatred - the lies pro-abortion ~~un~~uninformed, uncaring, quota minded murderers tell that prey on young, scared women for money or "women's lib" agendas should be stopped. Knowing my tax dollars funded these programs sickens me.

I have participated in several pro-life ministries in high schools ^(HS) encouraging young women that make poor choices & get pregnant that there are more solutions that are less life robbing than the "ultimate" solution spewing out of the abortion clinics that pour the life blood of our children on our land.

At the Jill Austin's "The Potter" is ministering I realized that the men are effected by the sin of abortion also, and I was able to forgive & soften my heart to release my hatred of men that bound me & kept me from being able to sustain a marriage, further damaging my ability to be a functioning adult. I had suffered from an inability to hold a job or stay in relationships w/ mates or family for years causing destruction of the family structure so vital for health & productivity. Emotional damage caused by a hateful act of desparation has caused years of waste & pain - even causing physical pain - stress & depression. The wasted years of hate is lifetime of self condemnation & defeat.

- 7) How has abortion affected you? This abortion was an appealing solution to an unplanned pregnancy with my husband of 10+ years. It was quiet, affordable, legal, socially acceptable, and confidential. Yet the secret that my husband and I dared not mention again for 18 years remained an inflamed wound. Of guilt, shame and personal condemnation. The wound was symptomatic at random times over the years - struggles with genuine intimacy, frequent moves in search of something better, vague dissatisfaction, fearfulness. When we were anticipating the birth of our next child, it was like a cancer, going undetected for years. Before a positive diagnosis. →

Yet an abortion's ultimate cost far exceeds any perceived benefits. Is justice to protect and preserve life, or to destroy it?

perspective was not reviewed.

The career of my abortion was diagnosed and treated when I participated in a PACE (Post Abortion Counseling Education) class. My post-abortion progression ultimately infected all of my relationships. How could it not? I felt ashamed, unworthy and unforgiven. Through a study called, "Forgiven and set free", I fully understood what was sacrificed in what we thought was our "appealing abortion solution"... certainly the precious life of a child, but also a part of me. The ultimate cost of my affordable abortion has incurred cumulative debts against so many other people as well: years of guilt-ridden intimacy with my husband, a self-imposed distance from the Giver of life, and guarded affection with my other children. Had I known the true cost of an abortion years ago, I would have ~~considered~~ been impressed to consider the option of life.

You can help by becoming a Declaration Ambassador for **Operation Outcry** (www.operationoutcry.org). **Operation Outcry** is a project of The Justice Foundation (TJF) to reverse *Roe v. Wade*. **Operation Outcry** has already proven its effectiveness at the U.S. Supreme Court.

The Supreme Court is listening! Thirty-five years after the Supreme Court legalized abortion-on-demand, the tide has turned. It's the beginning of the end of *Roe v. Wade*.

Upholding the federal ban on "partial-birth abortion," the Court cited TJF's Friend of the Court Brief in its ruling. The brief was filed on behalf of Sandra Cano, who was "Mary Doe" of *Doe v. Bolton* (the companion case to *Roe v. Wade*), and 180 women hurt by abortion.

Citing sworn testimony presented by TJF from women who had abortions, and acknowledging that **abortion hurts women**, the Court concluded that "some women come to regret" their abortions. "Whether to have an abortion requires a difficult and painful moral decision," it is "fraught with emotional consequence." **The Court also noted that "severe depression and loss of esteem can follow" an abortion.**

HOW CAN YOU BE INVOLVED?

As an **Operation Outcry** Declaration Ambassador (DA), you can help us mobilize one million voices to express the harm that abortion causes men, women and children. You can copy and give a Declaration form (*see reverse side*) to women who have had abortions so they can tell the Supreme Court how abortion hurt them. *Men's Declarations are available at www.operationoutcry.org.*

The Supreme Court said that abortion can cause "severe depression and loss of self-esteem," **but the Court also said there is no reliable data on the size of the problem.** That's why we need to collect one million Declarations! We must collect and present the truth!

WHY WE COLLECT DECLARATIONS

- To save others from being hurt by abortion.
- The power of testimony touched the Supreme Court.
- Written testimony is the most confidential, private, simplest, long-lasting, and effective form of being a witness.
- The Court's ruling is an invitation to provide further evidence of the harm of abortion.
- We need to be ready.
- We need to show the Court the magnitude of the harm of abortion.
- States need evidence to regulate or ban abortion.

TO THE WOMAN OR MAN WHO HAS HAD AN ABORTION

We understand the pressures on you to have an abortion. We understand the pain you suffered as a result. We offer hope and healing in the name of Jesus Christ to those who have had abortions. We need your truth of what abortion did to you to show the Supreme Court the harm that abortion causes women and men. It is time to be silent no more. There are free Biblically-based, Christ-centered abortion recovery programs in your area. Call the toll-free number 1-866-482-LIFE, the National Helpline for Abortion Recovery. Caring women who have had abortions are available 24-hours a day, 7 days a week to help you. The Helpline can refer you to help in your area.

In the meantime, complete this declaration form so that the Supreme Court and legislators will know the truth of what abortion did to you. **You must sign your full name for the form to be legally admissible, but we will always protect your personal contact information** from disclosure, even to the courts, and you can indicate on the form whether we should use your full name, first name only or initials. You may also indicate whether we may contact you in the future, or if you wish to never be contacted again. Your identity can be kept private and confidential, but your truth can be taken to the Supreme Court and legislatures around the world.

We need to mobilize a million voices of those who have been hurt by abortion to show the size of the problem.

If the truth about abortion is not collected, the lie that abortion is good for women will win. How do we overcome Satan, by the "Blood of the lamb and the word of their testimony..." Rev 12:11 Fill out the Declaration or share it with a friend!

OPERATION OUTCRY is the nationwide project of **The Justice Foundation**, a non-profit legal foundation, to expose the truth about the devastating impact of abortion on women, men, families, and the culture. **For more information, visit www.operationoutcry.org.** **Operation Outcry** has been endorsed by **Julie Parton, Ph.D.**; **Allan E. Sears, Esq.**; **D. James Kennedy, Ph.D.**; **Richard Land, Ph.D.**, Southern Baptist Ethics & Religious Liberty Commission; **J. C. March 30, 2008

My father was in the U.S.M.C., fought
in Three wars and Marched
in Washington against, Abortion.
This Country made changes in
our laws making it an option
to terminate "kill" living humans
in the earliest time of existence.
Before legalizing abortion women
could and did get punished by
law for "illegally terminating"
babies. With child, means
just that. This is the definition
of being pregnant.

I was born on a
military base in 1962. My
birth certificate documented
live births, my birth, and
any (fetus born dead!)
a fetus is a Human Baby.
They are citizens, to

Our Government implimented
an outrageous law that
caused the opportunity for
millions of american souls
to be tortured, killed and
disposed of (where, we know, is
not!!! The dump!!!)
If these "souls", babies weren't
human, why do they issue →

a death certificate? Why?
People saw terrible injustice
done in and during wars
my father fought in, and
now do the officials
repay his fidelity to "our"
country? By letting and
in some cases encouraging
the slaughter of American
Children!!! God forgive
America... How can we
dismiss the testimony and
pleading of Millions of
people who cry out for
justice. Stop Abortions!
We are no better than,

Any nation who kills
it's citizens... "Ponder"
the repercussions!, Now!
"listen" to those who
wish to speak-out against
these atrocities. It is
a violation of our civil
rights, to dismiss hearing
our case against this
issue. Who do we think
we're kidding? The blood of
these innocent children
cry-out... How many more
will die? We all are
going to be held responsible.
Please listen to reason.
Please Put the Laws back

that protect all people
There are other options...
we are selfish, blind and
barbaric. Our DR's have
become murderers! Our
people have become hungry
for things not what is
right. Wake up. Our nation
is blind to its own
Sins. I love our country
but am ashamed of
it!

daughter of Lorraine
Sgt. James F Welch Welch
U.S.M.C. Freedom
doesn't mean we
can kill.

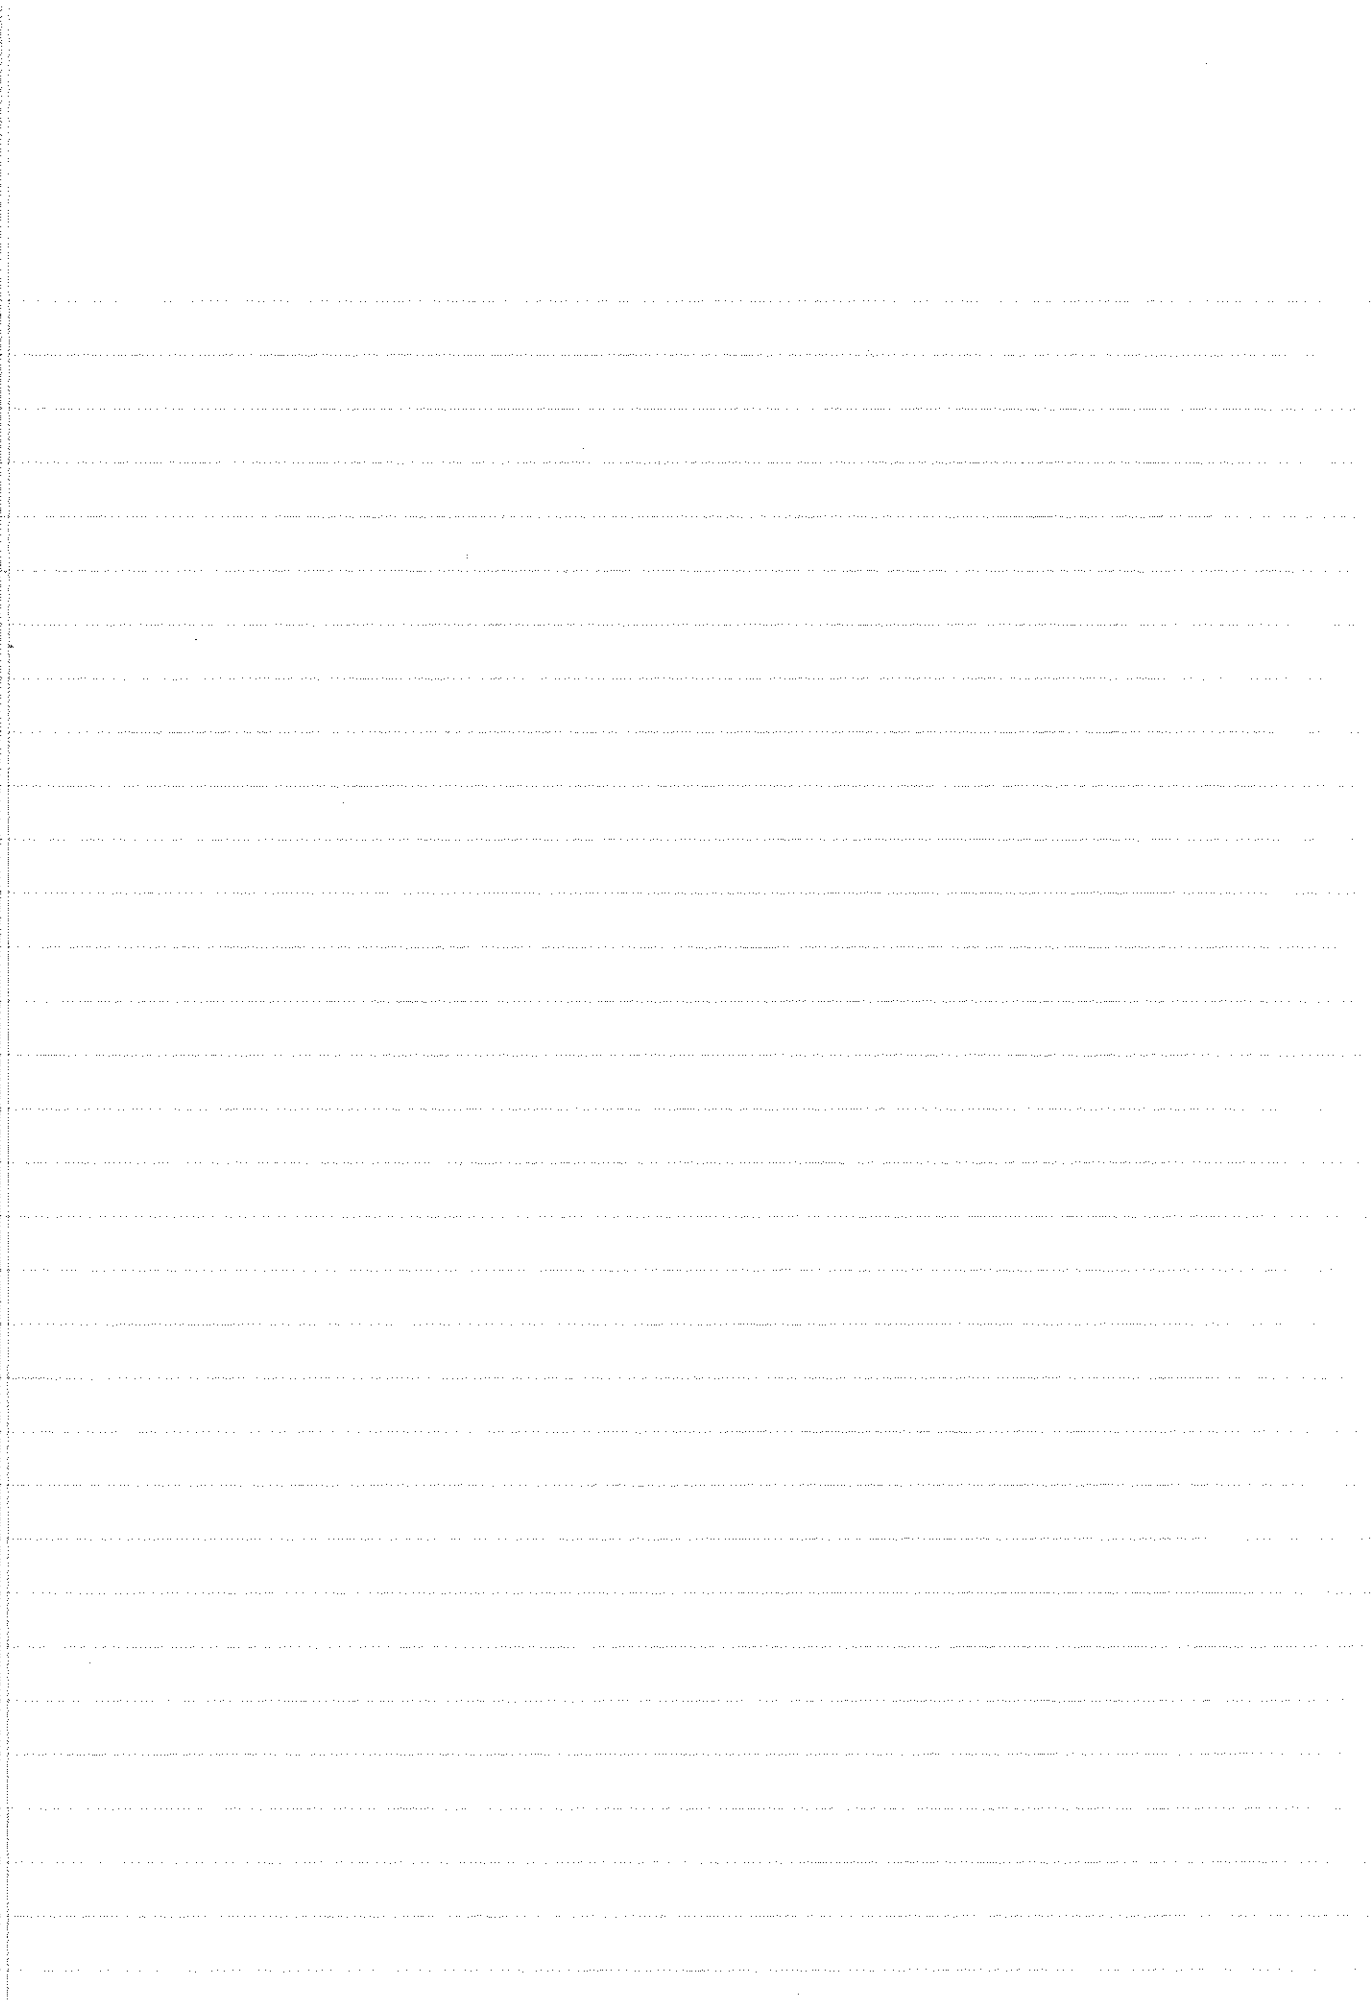

My name is Douains Welch.
I let it be known that
I will stand in any court
to testify against abortion
in any stage of pregnancy
I believe and will
back this belief that
abortions should, must and
have to be banned in our
nation - coast to coast!

No citizen seen or unseen
is, or can be dealt with
as if they don't matter.
We all matter. We all deserve
protection under our laws,

- Did anyone pressure you into having an abortion? Yes No If yes, who? The baby's father Roy C. Dillon [ripped out]
- How has abortion affected you? I believe what those people did to me was illegal. I was unmarried at that time, under age with no parental authority ever advised. I married the baby (Daniel)'s Dad later once I was of age. However, he became abusive, an alcoholic and drug user. He beat me so badly I lost my hearing; to this day I have to wear hearing aids in each ear. The police told me I could pressure attempted murder charges on him because he had strangled me until I was unconscious; then spent three months in a hospital. The mental anguish I've been through has been hell for 30 years. I've repented, asked God + my children to forgive me.

That in God's Court in Heaven those children will have the right to judge their parents as to whether or not they get into heaven. Repent NOW!!! Like Abel's voice of his blood cried out to God from the ground so does the. Holy caust of the innocent children of abortion cry out to God for justice!!! God will judge

My child would be 13 this year and there isn't a day that passes in which I can't see his face.

27 years ago I had an abortion. I was 27years old and in the middle of a divorce. I had 2 children and I didn't know how I could support another child. I hated the thoughts of having an abortion but I didn't know what else I could do . I lived in Kentucky at the time but I came to Columbus to have the abortion so know one would know. I was 10 weeks pregnant. The abortion mill told me it was a blob of tissue. I did not know at that time that was a lie. My baby was fully developed. They did an interview over the phone with me and I walked into the mill not knowing what to expect. My world fell apart. I was very nervous so they gave me a valium. No one talked to me. The nerve pill did not work. I can't remember to much about being in the waiting room. Other people was there but I don't remember them talking. Women were scared and I can't remember seeing their faces. When it came time to go back a nurse called my name and I followed her to a very cold room. I took my clothes off and climbed on a very cold bed. No one would speak to me except to tell me what to do. I was so scared. No one was there to comfort me. They told me it was just a little pain and that it wouldn't hurt much at all. They were so very wrong. The doctor came into the room. I do not remember him speaking to me. He sat at my feet and turned on a very loud suction machine. I can only remember the pain and hearing the suction.. My heart sank. The whole thing took about 15 minutes but little did I know I was given a life sentence. I was taken to a recovery room where women were crying laying in chairs and on the floors. The gave us a cookie and a cup of juice and sent us on our way. As I left the mill I can hardly remember anything. I was in shock over what I had done. I had so much going on in my life at that time so I stuffed it all down inside of myself. I was a walking dead person. A couple of months later my husband committed suicide. Now I was left with raising my 2 sons by myself. I had 2 deaths and no time to mourn. For years I walked around numb. To deal with the pain I became very destructive. I was so bitter and angry that I didn't care who I hurt. I had severe depression, nightmares and was involved with a destructive life style. I wanted to self-destruct. I remarried 2 years later. After 4 years of marriage I had received 34 severe beatings. I felt I deserved these beatings for the punishment of killing my baby. I finally

decided I had enough of this marriage. I decided it was time to remove myself and my children from this person. I started running again. Started living a destructive live style again. No matter how far I ran I could not forget my abortion. I tried to medicate myself but that did not work. I just wanted to die but I knew I could not do this to my 2 sons. A few years later I met the man I am married to now. I didn't think I could have anymore children because of my abortion but I got pregnant on my honeymoon with my little girl. I was still struggling with my abortion. I made my husbands life hell. I was still going through depression and was angry all the time. For years I would not admit what was causing me to feel this way. Finally I had enough and knew I needed help . I still deal with issues now but because of my faith in God I can go on. I never got to hold my child or kiss his face. I never got to watch him grow up to become a wonderful man. I know because of what I did he never had a chance. There is help and hope for women that are hurting from abortion. I will make a stand for Joshua and all the ones that never had a chance.

"My name is Manetta Holtam. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

1) When and where did your abortion occur, including city and state? Norman, Oklahoma

2) How many weeks pregnant were you? 9 What type of abortion was performed? D&C (I think)

3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: All I remember the doctor telling me and my mother was that he would make a hole the size of a pin head. I did not understand that my baby would be torn apart and feel the pain.

4) Were you adequately informed of the consequences of abortion? Some of the possible immediate physical consequences such as possible hemorrhaging, "yes". But not of the more prevalent long-term emotional and psychological consequences.

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____

7) How has abortion affected you? I murdered my own baby 33 years ago at the age of 15 out of the terror of facing an unplanned pregnancy and raising my child alone. I chose the "quick" fix thinking it would solve the "problem" and it did for a few years. However, I have never been able to become pregnant again after I married a wonderful, Christian man. I also must live with the knowledge every day that my I murdered the precious, innocent child that God once gave me to carry in my womb. I think about how old he/she would have been now if only I had chosen to give him/her life and place him/her for adoption with a loving, Christian family so he/she would have had a wonderful life even though I couldn't provide that at the time. It is tragically ironic that I am now childless and we have not been able to adopt a child even though our hearts ache now to be loving parents. I attended a biblical, post-abortion group about 12 years ago which helped me BEGIN to work through accepting God's forgiveness and asking my child to forgive me for killing him/her. But it is still a long, ugly journey living each day with regret and sorrow for what I did so long ago. I pray that any other person considering abortion will learn from my experience and choose life for their unborn child. God will help you provide for your child whether you parent your child yourself or place your child for adoption.

8) How has your abortion affected others in your life? _____

9) Based upon your experience, what would you tell a woman considering abortion? CHOOSE LIFE!

10) Based on your own experience, what would you tell a court that believes abortion should be legal? ABORTION = MURDER. Abortion is a DESPERATE act, like an animal gnawing off its own leg to escape from a trap. It is not an emotionally healthy or rational "choice".

AFFIDAVIT

To be completed by women who have had abortions

The State of Pennsylvania
County of LANCASTER

BEFORE ME, the undersigned authority, on this day appeared Stephanie Dickinson, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 2) How many weeks pregnant were you? approx. 3mo. What type of abortion was performed? #1 - under general anesthesia. #2 - some kind
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I'm numb - I do not remember anything of what was told to me. I recall the name of the doctor in Puerto Rico - DR. PARMER - but I do not recall conversations with doctor
- 4) Were you adequately informed of the consequences of abortion? NO. NEVER. NOTHING RECALLED. SUCH TRAUMATIC LIFE EVENTS YET NO RECOLLECTION WHATSOEVER OF PRE-ABORTION DISCUSSIONS.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? I came from a Christian home. My parents were happily married. After my abortion I went on to have 3 failed marriages. Imagine! Three!! I married like one would eat a sandwich: with NO THOUGHT WHATSOEVER. I didn't even truly love the men. I wanted no children. I wanted NOTHING TO DO with Christianity. The father of my first aborted child was Jewish and he broke up with me shortly after the abortion. He was forced to by his parents. He was the love of my life. Today, I am 58 years old and seem unable to have a true, loving relationship with a man. I end up having 3 daughters biologically who are in their 20's →
- 8) How has your abortion affected others in your life? I've been called unstable because of my divorce. I remained married to husband #4 for 18 unhappy married years. Am now divorced.
- 9) Based upon your experience, what would you tell a woman considering abortion? FRANKLY, I WOULD BE ANTI-ABORTION AND ANTI-ADOPTION; that is, should you become pregnant, keep that baby and love her/him with all the love in the world.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? DO NOT VOTE TO LEGALIZE ABORTION UNLESS YOU HAVE HAD ONE AND CAN SAY IT WAS A NO-BIG-DEAL-EXPERIENCE. IF YOUR LIFE HAS NOT BEEN ADVERSELY EFFECTED BY ABORTION, THEN DO NOT VOTE TO LEGALIZE THAT WHICH YOU KNOW NOTHING ABOUT.

August 26, 2007

My dearest Millie and Dale,

It is through (still) tear-filled eyes that I write this letter to you both. A mere 4 days ago, at 3:30 in the morning ... unable to sleep, I decided to take a brief glimpse through the "Healing After Abortion" booklet you mailed to me. Well, what began as a "speed read" ended up being life changing information for me. Following almost 4 decades of confusing, dysfunctional behaviors and suffering, I truly feel set free from the terrible bondage ... bondage created from my having had an abortion.

When I had finished reading "Healing" I wept uncontrollably for it was as though the material was written about me. Yet when I was finished reading, I just had to look toward heaven and chuckle ... I called to God and said, "Only You, my Lord, could have orchestrated the events in my life to bring me 'full circle' to where I now find myself: on the path of knowledge and healing; truth and ministry. In fact, yesterday I called a nearby college to schedule an admissions interview for an associates degree in a program called, "Human Resource" which could, conceivably, prepare me for counseling in this field

It is now my desire - I daresay even my duty - to pursue a course of direction in order to help others who, like myself, suffer in baffled silence from this deadly, legalized form of emotional suicide: ABORTION!

It, too, is my fervent prayer that the \$5.00 spent to have the Abortion Affidavit notarized will serve as "seed money" to launch (or to join) a ministry where I can share my grueling testimony of how agonizingly abortion destroys - not only the life of a precious, unborn child but also the life of the mother's ... hers will never be the same. Likewise, the life of the father who experiences abortion may bear debilitating consequences as well.

This "good girl" who was raised by a quality family and who traveled onward to become "the black sheep", finally understands the origin of my bizarre choices and thought patterns.

I shall forever hail gratitude to you both for the personal care you've taken to speak with

Me, pray with me, share with me, and even celebrate with me the freedom I feel from having been touched by your "Concepts of Truth Center".

Please call upon me to help your cause in absolutely any possible way I humanly can. Working together we may, - indeed, we must, - one abortion victim at a time, strike down Satan's force of oppression, depression, and confusion which destructively results from abortion. Abortion offers freedom to nobody. Abortion imprisons the heart and mind to unfathomable degrees. God's blessings be forever, abundantly upon you and may the precious blood of our Lord Jesus Christ cover and protect your ministry.

You two saved (the rest of) my life!

I AM,

In His Saving Grace,

Stephanie L. Dickinson

P.S

1. please thank Allen Parker for his "breakthrough" prayer on my behalf. I wish for him to keep me in his prayers to win the court case I continue to battle. (please also remind him that he is to call me back with advice on that case!!)
2. Please send me more affidavits!!

P.S. The fathers of my 2 aborted children - Neither man went on to have any children. The father of my second abortion commit suicide last year.

(As I relay this story to you, I cannot believe that all of this dysfunction could be linked to my abortion... the first one. I simply thought I was emotionally unstable)

#7 (continued)

and I seem to want to keep them children. They've been slow to mature. When I married their father, I didn't honestly love him, either, but he was my high school sweetheart and I thought I'd give me children. I didn't really want children but saw the "biological clock" ticking away. So I rationalized that "I'd better have some children before it's too late." And fell in love with motherhood I had 3 in 5 years. After my 3rd was born, the OB/GYN gave me a tubal ligation while I was under anesthesia and certainly without my desire or rational consent (he had me sign papers on the operating table!)

Consequently,
so one
could say
that
abortion
even
adversely
affected
my
birthed
children.

In years following my last birth, I went on to adopt 5 children yet honestly did not feel "called" to adopt. I just wanted more and more and more kids!

I came to love these adopted children but it took a

long time. Today I am in the midst of a nightmare court battle because of very false allegations made by a mentally unstable neighbor who did not know me. My 5 adopted children have been taken from me and placed in foster care. Children & Youth told my

2 teenage sons about my abortion (remember! Nobody but this affidavit knows of my second abortion) without my consent.

I AM MORTIFIED AND SUFFERING.

(never)
THE END.

If someone you know has had an abortion, encourage them to complete this form.

7) How has abortion affected you? For the past 4 years, my husband and I have been trying to have a baby. Not a day goes by that I do not think about what I have done and regret it. I wish I could go back in time and change what I did. It is so weird, I never thought I would feel this way about it but I feel as if God is punishing me now for what I did. I have such a feeling of loss, it is unbelievable. My children would be 10 and 8 right now. I never met them but I miss them so much.

8) How has your abortion affected others in your life? I really do not know. I have pretty much kept this a secret.

9) Based upon your experience, what would you tell a woman considering abortion? I would tell her how I feel now and talk to her about my experiences & situation. I would try to change her mind and try to get her to understand how this changes you for the rest of your life.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? Yes and no, I do not think a woman should be forced by the government to carry a child under certain circumstances. I feel that more should be done by way of educating women about abortion and its affects on your life. Prior to it happening to me I never even knew anyone who went through something like this.

"My name is Diane. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

1) When and where did your abortion occur, including city and state? January 1996 Harrisburg, Pennsylvania

2) How many weeks pregnant were you? 10 wks What type of abortion was performed? Surgical

3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: There was no counseling, I was told repeatedly it wasn't a baby but just a "glob" of tissue that could easily be removed for \$350.

4) Were you adequately informed of the consequences of abortion? I wasn't aware of any consequences because there was no one who sat and talked to me. If they would have, they would know I was in no condition to

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____

7) How has abortion affected you? In 1996 my husband of 23 years and I were divorced. During the ordeal I became pregnant. Panic & confusion was unbearable. I didn't tell anyone but in secrecy I had my abortion. It was a closed chapter of my life. Then in 1998 I got re-married and my husband desperately wanted a child. We tried and over the next 2 1/2 years I proceeded to have 6 miscarriages. The doctors couldn't explain other than at 5-8 wks my body would shut down and progesterone levels would drop. In March 2000 at 8 wks pregnant I began to miscarry yet another child. I finally confessed my abortion to my husband, a thing I swore I would never breath to another living soul. I had murdered someone online one knew! Upon reporting, my hidden emotional state was healed and today we have a beautiful daughter.

8) How has your abortion affected others in your life? My 6 innocent unborn children (miscarriages) and my innocent husband who had to grieve through each miscarriage.

9) Based upon your experience, what would you tell a woman considering abortion? Talk to other women who have had an abortion. We all need to understand and teach our daughters the long term effects this WILL have on our lives.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? When we legalize abortion I truly believe we think we are helping women take control of their lives but the reality is we are sentencing them to a cruel, internal, often hidden prison where they will die a thousand deaths and not even know they are dying.

DECLARATION HOW MY ABORTION AFFECTED ME

The State of Pennsylvania
County of Bucks

"My name is Kristine M. Meyer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? Abortion clinic in/near Libertyville, IL, in November 1979
- 2) How many weeks pregnant were you? 17 What type of abortion was performed? Scraping the uterus wall
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was never told that the fetus was in fact a very real but teeny-tiny baby. I thought I was aborting "tissue" ... a "lifeless fetus" that did not feel anything.
- 4) Were you adequately informed of the consequences of abortion? Absolutely not! Over 30 years later the trauma of the physical abortion itself and the psychological affect of realizing I murdered my child still haunts me!
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? The emotional trauma of having had an abortion almost 30 years ago affects me still today. I still weep when I remember the ^{horror} of the spoon-like device scraping the wall of the inside of my uterus, the cramping it caused, and the lazy-faire attitude of the doctor performing the procedure. The emotions of the day were overwhelming, magnified greatly when years later I came to the realization that I had willfully murdered my only child for the sake of convenience ... a simple, "quick-fix" for a "problem" I felt unprepared for and afraid to face. I am horrified at the reality and deeply regret and still mourn the choice I made.
- 8) How has your abortion affected others in your life? My boyfriend at the time was deeply upset at my choice. I don't know the long-term affect on his life. No one ~~was~~ in my family, knew till many years later.
- 9) Based upon your experience, what would you tell a woman considering abortion? Don't do it! There is life inside of you and there are resources around you to help you through this difficult time. You will deeply regret ending the life of your child, as it really is murder. You are not alone. God will help you. Choose life!
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? The trauma of the procedure and the horror of the realization that you willingly chose to kill your child are deep and enduring. The choice cannot be reversed! It is ending a life! Please end abortion and make laws that encourage and enable inexpensive options for pregnancy support and adoptions.

We were 37 + going through a difficult time in our marriages. We were very naive & self-centered when I became pregnant. Because we were aware that abortion was legal in N.Y. we were tempted to go that route.

However, ten years after the abortion we gradually became sensitized to the seriousness & the reality of what we had done. When we desired another child I was not able to conceive.

Becoming a Christian enabled me to release the guilt & find inner peace. But my husband & I have truly regretted that "choice" for the passed 38 years.

When I was a very insecure 25 year old I had a deep relationship with a 42 yr. old man. I wished I had understood the dangers of premarital sex. When a pregnancy occurred it was a shock to both of us. I did not comprehend that I was truly carrying a human being. Because I trusted this very loving man I agreed to an abortion.

I have no idea how I would have handled other options but I DO KNOW now that taking the life of this unborn child was a terribly wrong thing to do, + an offense against my Creator.

One of the requirements of counseling was to go thru a 12 week post abortion bible study. September 11, 2008

This questionnaire I filled out does not give adequate space, makes it seem impersonal sterile and it cannot be that at all. It's been too devastating for that, both for my baby and myself. Not even typing this is appropriate because it must be realized that Abortion effects living people with names & faces. I believe that every woman, NOT matter her age, knows that abortion is wrong.

I was 17 years old in 1973, living in a very difficult situation with both step parents. My father divorced my mother when I was young. She was sick with a brain tumor and unable to care for us. He remarried and died 5 years later at the age of 36. My step mother remarried my step father was like a dirty old man. I was constantly told that when I graduated and left home I could not come back. I was full of fear of being unable to make it on my own and yet I couldn't wait to leave and did when I turned 18 yrs. old still in my senior year of high school. What should have been one of my happiest years, it was one of depression, survival

I was ending my junior year of high school, I had a boyfriend, on the basketball team. I was young and naive. The first time we had sex, I asked him to use a condom which he said he was, I was so naive. We had already broken up when I realized months later I was pregnant. I tried to approach him many times to tell him but I could tell each time, I felt it was better not to.

When I look back I am sorry that he never knew and didn't have any say. One of my friends mother was a nurse and she took me up to Washington D.C. (about 30 miles from where I lived) and signed for me. The whole thing is such a blur, I believe we block it all out of our minds, it's too painful to remember. It is very hard to fill out this questionnaire and to write this and revisit that place. I am sure for some, a questionnaire with short answers is all they can take.

I have had much counseling and inner healing sessions over the years. Part of the healing process was to name my baby. I don't know this for a fact, but I sense it was a boy and I've named him Adam. I know I'll see him when I go to my heavenly home, I know he will know me.

I recently visited the Holocaust Museum in Washington D.C. I know what we are doing to babies in their mother's womb is no different. Regrettably,

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of South Dakota

County of Pennington

BEFORE ME, the undersigned authority, on this day personally appeared B C (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1982 Rapid City, South Dakota
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No there was no information given; especially about the consequences of abortion. The main concern was that they received \$300/cash to pay for the abortion.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who? My husband and I in our ignorance agreed to have the abortion.
- 5) How has your abortion affected you? I have gone through every stage of grief, I've experienced anxiety, depression, anger, bitterness, resentment, unforgiveness. It's a loss like I've never felt before. My heart aches into the deepest core of my being. It is an overwhelming hurt that can still drop me to my knees. It has taken many years for me to be able to forgive myself. There is a void in my life that will never be filled because of the choice I made.
- 6) How has your abortion affected others in your life? My husband chooses not to talk about it - it is so painful for him, my 3 children were very angry; they will never know the brother or sister they could of had; they choose not to talk about it also
- 7) Based on your own experiences, what would you tell a woman considering an abortion? be informed, get all the facts, do not make this decision on impulse. Know that you are taking the life of your child, there will be emotional, physical + spiritual pain. Step back and completely think this through. There are other options.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? every woman has the right to be completely informed about emotional, physical + spiritual risks of abortion. To sit here and think that abortion does not affect these three areas is to be sitting here in complete ignorance. How can taking the life of a child make things right?

The State of _____
County of _____

Republic of Slovenia
City of Ljubljana
Embassy of the United States of America

BEFORE ME, the undersigned authority, on this day appeared Yvonne Carol Brewer ^{YCB}, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Missoula Montana
- 2) How many weeks pregnant were you? 7 What type of abortion was performed? suction (I assume; I was never told.)
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was simply told I was pregnant and that, if I didn't want to be, I could have an abortion. I was told it would be best to do it as soon as possible. That was all.
- 4) Were you adequately informed of the consequences of abortion? No

5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____

7) How has abortion affected you? I started to have nightmares of children. My lifestyle changed as I began to drink recklessly. However, after 3 years I also became more fearful. I was so fearful that I quit my job as a flight attendant. This was a direct result of the abortion. The nightmares had caused me to fear I would be suctioned out of the airplane.

8) How has your abortion affected others in your life? Later, when I married and had a step-daughter, I viewed her as my "punishment". This attitude did not lend itself to healthy parenting. I was also overprotective of later children

9) Based upon your experience, what would you tell a woman considering abortion? Learn all the facts. Understand that this is human life. Breaking the law of life has terrible consequences. There are many people willing to help you and give your child a good home.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? I would never have had an abortion if it were illegal. I thought, "It must be OK if it is legal." I trusted the government to make good laws and decisions. I suffered terribly for that trust. My child paid the ultimate sacrifice.

I guess I would ask them if they had ever lost a child from illness, an accident, war or even a miscarriage? Only then could they begin to understand the emptiness of never holding this baby in your arms. Because there is an emotional bond from conception. The pain of not being able to watch this child grow and not knowing what they would look like. Then the guilt of realizing, years later, that you took the life of your own baby. When I think about it, the hurt is almost unbearable and had I known then what I know now about abortion I would not have done it. It is my opinion that if the courts don't change this law that they have the weight of all these unborn babies on their shoulders and I hope they can live with it.

DECLARATION HOW MY ABORTION AFFECTED ME

**The State of Tennessee
County of Sullivan**

“My name is Teresa Dawn Sybert Tipton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? October 1983; Bristol, Tennessee
- 2) How many weeks pregnant were you? Approximately 9 weeks. What type of abortion was performed? D&C type of procedure; I can't remember the actual medical term for it. Seems like the work Vacuum was in the name.
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No one explained the procedure to me. I knew a girl who had an abortion a couple of months before mine and what little I knew about it was from talking to her. I did not know until many years later just how formed the baby was at 9 weeks.
- 4) Were you adequately informed of the consequences of abortion? No one talked to me about what to expect physically, mentally, or emotionally.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? I was 18 at the time of the abortion. My family was and still is a very active and predominant family in the church denomination in which I was raised. I didn't want to "sully" their name by having an illegitimate child. A couple of years later I married another man and our only pregnancy ended in a miscarriage. It was devastating. We later divorced and I remarried and we had 3 pregnancies. The first two ended in miscarriage. Of those two, genetic analysis was done on the first child. It was a girl and she had severe chromosomal defects. We went through years of infertility treatments and spent thousands of dollars trying to have a child. I finally had a very healthy little boy when I was 40. He was conceived several months after all infertility treatments had stopped (we never used in vitro fertilization as we have moral issues with that procedure as well). He was born 19 years and 11 months after my abortion. Doctors could never figure out exactly why I was infertile for so many years. Mother's Day and the anniversary of what would have the due date of my first child were devastating emotionally. I will always feel guilty for what I did. When I was pregnant with my son – approximately 16 or 17 weeks pregnant, we chose to have amniocentesis done as some of the initial screenings indicated he could have Downs Syndrome. Ultrasound was used to aid my OB/GYN in where to place the needle to draw the fluid so that she would not harm the baby. When the needle was inserted, he balled himself up in the farthest region of my uterus in order to protect himself. It was an amazing thing to see. I have wondered since then if my first child also tried to protect himself/herself when the abortion was done.
- 8) How has your abortion affected others in your life? The father of the aborted baby wanted to keep me to keep the baby. It was very hard for him too. My parents actually took me to the doctor's office where the abortion was performed and paid for it as I did not have the money to do so. We have never spoken of it since that time. I have often wondered what my child could have accomplished if allowed to live. He/she would have been 24 years old in May, 2008.
- 9) Based upon your experience, what would you tell a woman considering abortion? Please do not have an abortion. There are so many good families who are desperate to have a child and that would be good parents to your child. It would be better to have your child live and be raised in an adoptive environment than for you to live for the rest of your life knowing your murdered your child.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? We will never know what accomplishments would have been made by the aborted babies. We will never be able to truly measure the mental and emotional torment that many women and men experience as a result of the decision to have an abortion. If abortion is going to continue to be made legal, then it should be required by law that every woman prior to having the procedure done must receive information about exactly what to expect. Also, ultrasound should be used so that the woman can see for herself that it is not a mass of tissue being remove from her baby, that it is a living human being who is going to die as a result.

I'm Cassandra a 19 Year old female from Lubbock, TX.
my abortion was Jan 8, 2009 has change my life in a serious
way causing anxiety and depression from time to time!

Tonight is like almost every other
Night when I think of my life and how
I had my abortion and how could I have
done such a thing. Almost each night it
plays in my head the moment I was deceived.
What a Lier the devil the ENMIE of this
world has convinced me to believe!

I'm hurt & upset I can't stop crying the crying
never seems to go away; I don't know where
to begin about where this abortion has affect
my life b/c it affects EVERY area of my life!

What I'd tell another woman considering abortion
or to a court is: on a couple days before my
abortion appointment I cried out to God. (I was
so immature not know the changes of my body were
okay b/c I was pregnant) I prayed: Lord please God
if this abortion is wrong please intervene
and make it impossible for this to happen
give me a sign... I felt as if someone
had come and wiped my tears away
telling me I was going to be okay and a great
mother even if it was alone! Times get tough
but that's life → if only I had known!

after that prayer I decided I Keep my baby and rely on the Ultimate provider and step out in faith! Even though my parents did not think I was ready they agreed because we could not afford the abortion cost! Then later a few days a unexpected check had come to my parents. They told me it was enough to cover the cost I thought it was a sign from my god that it was okay to have the abortion... Now Today 10 months after my abortion I realize the ~~god~~ ENMIE IS A LIER and was only out to destroy me he heard my prayer and got me down & out thinkin little of myself and b/c I was not familiar with the word of God I did not realize this till after wards!

I went through with the procedure that will forever be changing life in which I live in constant Regret! The ENMIE Hates You & me and our Buppies and will DO ANYTHING TO KILL, steal, and Destory! I know Im forgivin by the lord but it's hard forgiving myself and seeing other mOmmies... Please consider my Cry out

7) How has abortion affected you? For a long time it didn't but then when I had kids I realized what I am missing. I could have 2 more kids just as precious as them. Now I live with "murder" on my ~~conscience~~ conscience.

8) How has your abortion affected others in your life? Unknown

9) Based upon your experience, what would you tell a woman considering abortion? Consider other options. Abortion is permanent and there's many women who aren't able to have children that would gladly adopt.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? If you're gonna legalize abortion, you might as well legalize the real thing - MURDER! We don't have the right to play "God!"

BEFORE ME, the undersigned authority, on this day personally appeared
Sue Beth Hunger Geller (Print Name),
who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:
March, 1978, San Antonio, TEXAS

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
My abortion was over 29 years ago and I am sure I was told consequences but I really do not remember what I was told.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?
No I do not remember any information about breast cancer and No I have not had breast cancer.

4) Did anyone pressure you into having an abortion? If so, who?
No one pressured me. The father of our child (now my husband) was not for me having an abortion, but let me make the decision.

5) How has your abortion affected you?
I have an empty spot in my life because I missed out on raising my daughter. My abortion has been a secret that I have hid for over 29 years; abortion was something that I always cringed when the subject was talked about. I was too scared to share what I had done. I carried a lot of guilt with my decision to have an abortion, as time passed, I became more educated of what I had done, I became a Christian. I got married and became a mother the way God would have planned. I learned that God had forgiven me when I asked for His forgiveness, but I did not forgive myself and still carried the guilt. This past year God has had me deal with my secret of having an abortion, which was no secret to Him. Through the Forgiven & Set Free Post-Abortion Bible Study I was able to forgive myself only because God has forgiven me. I have told my parents, my husband's parents and our sons of the Granddaughter and sister that they never knew about. Now I am ready to speak publicly of what God would have me say.

6) How has your abortion affected others in your life?
I have keep a secret and lied to my family about a granddaughter, sister, & niece that they never knew about. Only God knows all the effects of one missing from our family and what they could have added.

7) Based on your own experiences, what would you tell a woman considering an abortion?
Not to have an abortion! To seek Gods word (the bible) for guidance. That she is not alone that God is with her & he will never forsake her, Hebrews 13:5. To read Psalms 139:13 that says, " God made all the delicate inner parts of my body and knit me together in my mother's womb." Verse 15 & 16 "My frame was not hidden from you

when I was made in the secret place When I was woven together in the depths of the earth (16) your eyes saw my unformed body. All the days ordained for me were written in your book before one of them came to be". That God has a plan for her and for her child, Jeremiah 29:11 "For I know the plans I have for you," declares the Lord, Plans to prosper you and not to harm you, plans to give you hope and a future".

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I have done wrong by having an abortion! My country has done wrong by making abortion legal. Gods law said, "Thou shall not murder", Deuteronomy 5:17. I believe that I would not have had an abortion if it was not legal and not carried years of guilt. Father's of aborted children have no say in the life of their children and that is wrong. Our United State of America was born precisely to guarantee citizens the freedom to worship God without fear, but we are taking God out of everything that our Founding Fathers believed and build this country upon.

"I have read the above and foregoing statement and the same is true and correct."

To say that abortion completely screwed me up emotionally and psychologically, is an understatement. Thankfully, I have experienced GOD's love and forgiveness and I have been through counseling. - 7) Based on your own experiences, what would you tell a woman considering an abortion? Choose life! Seek the Lord and he will help you no matter what circumstances you are in. He will make a way for you. He loves you and your child and he wants to care for you. If you choose abortion your child will suffer a gruesome painful death. - 1) Tell when and where your abortion occurred: December 1977
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was never counseled or told about other options. Very little was said to me about the abortion procedure. This office was a OB GYN Clinic too. It seemed they were just there to perform a service.
- 3) Were you adequately informed of the consequences of abortion? no There was no mention of any consequences that might occur in my life after the abortion.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? No If so, who? Although I was not pressured by my boyfriend, he didn't offer any other solutions to the unexpected pregnancy.
- 6) How has your abortion affected you? Trying to numb the pain caused me to turn to drugs & alcohol. I have struggled with bonding with my other children. I've always felt a void in my life, which I believe is the loss of this child.
- 7) How has your abortion affected others in your life? I married the man that was the father of my aborted baby. We struggled for many years with so many different issues. The behaviors of the siblings I believe are associated with my abortion.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I had my first child at age 16, at age 19 I had the abortion. I have never regretted giving life to my oldest child but I have always regretted my abortion. I would tell her to choose life, she'll never regret that decision.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion being legal has & will continue to affect my life. I see no positive results from my choice of abortion. Women deserve more than the crippling affects of abortion. ASK us!

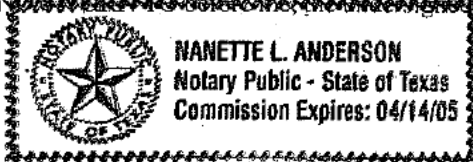

"I have read the above and foregoing statement and the same is true and correct."

It caused me to divorce my husband who pressured me into it. It changed me - for good. I could no longer have any children. There was a deep rage in me that took many years to recognize and to get out. It affected all future relationships with men in my life but I think the most profound effect was on my body and mind. The depression lasted for a very long time & I am not sure it is gone now 30 plus years later.

9. How has abortion affected you?

My abortion destroyed my spirit, my soul, my emotions, my self-esteem and it separated me from my unborn baby Elizabeth for the rest of my life. I thank Jesus Christ for healing, restoration and for redeeming my life.

10. How has your abortion affected others in your life?

My abortion has affected the intimacy in my marriage and it has affected my marriage to my husband, and my relationship to our three children. I am just now learning to be confident in my parenting with our three children

11. Based upon your experience, what would you tell a woman considering abortion?

Please talk to a close friend or family member before making the worst decision of your life to abort your baby. The consequences of abortion will scar you for life. Please pray with a family member or find

a friend to pray with you regarding your baby. The Lord Jesus will lead you to a safe harbor.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion had not been legal I would not have considered it. My abortion scarred me spiritually, emotionally, relationally and physically in ways that were detrimental to my health. I felt like I was dead emotionally and that there was a huge void in my heart that only the blood of my Lord and Savior Jesus has been able to heal. It has taken twenty six years for my soul, spirit, emotions and relationships to be healed. Jesus has redeemed my soul and my life. There are no words to describe the horror of abortion and how it completely depleted my spirit of life.

Here is the synopsis of my book. If you would like a copy I could send one, or you can order it from PublishAmerica.com. On the cover is a picture of a heart broken in two. One side of the heart is a girl on an exam table looking fearful and scared to death. The other half of the heart is a young girl who has joy in her smile. They designed it just like I wanted; *JUST AS IT WAS & IS NOW.*

"Now that I Know" is a love story that leads to tragedy to the point of suicide. It is about a girl who suffers great pain from making a life altering destructive decision to have an abortion and the downward spiral that follows. . . She aches and spends many days stuck in thought and anxiety wishing she could undo what she had done, because she " Now Knows". She tries many ways to compensate for the despair but this only leads to more sorrow to the point she believes life is not worth living. IN her darkest moment with the intention method and suicidal plan all was lost and dying would be the only way to ease the pain.. IN that instant someone loved her enough to reach out ; pull her out of the depths of hell and give peace, new meaning and purpose to her life.

Believe me, it WAS difficult to get it published. I believe because of the abortion industry is exposed & the gospel is stained. I had to rewrite it, change the names, & write under a pen name. Publish America for the time agreed to publish it. They did it for free. In His love. Pattie Lemm H.T. (M.H.)

I wrote my testimony - so that I may be able to help other women - Gina Richards

SECRETS IN THE PEW

It was a beautiful sunny day, birds singing, Fall was in the air and my sons were at school. The movers were scheduled to be here any minute to pack up all our earthly possessions from our beautiful home. The home where our 3 sons should have grown up, and move us to yet another city. I did what I could do before they arrived, but I had another job to perform. **I had no choice** – I had to go through with it – in order to keep my sanity. I was determined to have an abortion!

I was so terrified and alone. I drove to the clinic in downtown Memphis by myself, out of desperation, leaving all my jewelry at home, in case I never returned. At the clinic I had to sign in, take a pregnancy test to make sure I was pregnant, and then had to wait my turn. It was full of young girls, and there I was, a mother of three and a Minister's wife! We were all terrified and looking at each other – nobody saying a word – it was horrible. They put me in a white gown and left me alone in a darkened room. All I could hear were the sounds of other girls or ladies crying. I was so frightened and there was no one there to comfort me. I was never shown pictures of fetuses, didn't have an ultra sound and was only told that it was "just a blob of tissue."

What was I, a Minister's wife and daughter of a Minister, doing in such a place?

During my 13-1/2 yrs of marriage to a Minister, I was in constant emotional pain and turmoil. My husband was flirtatious, needing attention from other women, and had numerous affairs with the young girls in the church during my other pregnancies. I couldn't handle him doing this again to me! I was devastated and all alone with no one to turn to.

This is a story of how God restored a broken life, and how He turns a wounded soul into a ministering healer.

As I reflect on the path my life has taken – as I look at where I came from to where I am today – I realize that God has given me much more than I could ever ask for. Some days I feel like it's more than I ever imagined it could be. Yet I wouldn't trade a minute of my real-life adventure for any fairy tale. For I am a battered and broken woman who discovered that God really does make beauty from ashes. **And He can do the same for you!**

This is how it happened for me.....

II Corinthians 1:3-4 – "Blessed be the God and Father of our Lord Jesus Christ, the Father of mercies and God of all comfort, who comforts us in all our tribulation, that we may be able to comfort those who are in any trouble, with the comforts with which we ourselves are comforted by God."

“Heavenly Father,” I prayed, “please help me to reveal the wounds of my past to others today, so that you may use my life as a source of hope and healing.”

It is never pleasant to relive the past, but I want to do it, because God uses it to help encourage others. A hurting woman knows I understand her pain & suffering when she hears that I have been down the same road. And when she receives healing from God, she will extend that same comfort to yet others, so that the circle of wounded healers widens.

It’s difficult to trust people who haven’t experienced some measure of suffering. And yet I have a feeling that most of you have been through adversity of some kind. You’ve known some deep pain and heartache -- making choices – bad choices, get us into trouble, but “God choices” get us out.

1973 – Roe vs. Wade decision – it was legal in some states to have an Abortion. I had no one to talk to – the Head Pastor of the Church just gave us 24 hrs. to move out of town (this was a repeated situation each time my husband was caught in his adultery), and all of our friends were Ministers and/or Missionaries, and with my own Father being a minister. **I had to make the decision myself.** I checked the Yellow Pages – Abortion – I knew the procedure existed. Yet I was completely ignorant about what an Abortion really was. And I didn’t get the straight facts at the Abortion Clinic. “It’s just a little bit of tissue that needs to be cleaned up, and then you can go on with the rest of your life,” the counselor told me. That was good news: a solution to my situations. I could get rid of the problem, then I could go ahead with my life – leave my adulterous husband, and live happily ever after.

“The five-minute procedure is safer than a full-term pregnancy & delivery,” the counselor also told me. I remember that so vividly. “Only 5 minutes – Safer than having a baby!”

At the clinic I recall noticing all the other girls awaiting the abortion procedure and thinking that they must have had some horrible tragedy in their lives to be going through this. I was feeling sorry for them, without even thinking about myself or what I was about to do.

Soon it was my turn to be wheeled off. I lay down on the cold table, put my feet in the stirrups, and had the life sucked out of me. Deep denial started setting in, causing me to blot out most of the details of that abortion, but my little “problem” was gone in 5 minutes.

I drove back to the house, the movers had emptied everything out except my pillow and blanket. I laid down on the floor in the Master bedroom and cried my heart out, curled in a fetal position. What have I done?? How am I going to face my children? How am I going to live with this? At that time, my husband walked by the door and looked at me with disdain.

When the boys returned from school, we said goodbye to our beautiful home in Memphis, got in the car and drove to California to stay with some close friends. During the next few days we enrolled the boys in their new school and tried our best to settle in our temporary housing. After a few weeks had past, I was still bleeding from the abortion and when I called the clinic, they told me I would have to go back to Memphis to have it done all over again. They hadn't cleaned me out properly! I was numb – scared to death to have to go through that all over again. My hatred toward my husband was growing. I was so overwhelmed.

We then had an offer to move to Cincinnati where we could try to put our family back together again. My husband was offered the Minister of Music position. We tried to block out what all transpired in Memphis. Little did I know that Satan would begin an all out attack against me this time. “What kind of Minister’s wife would do such a terrible thing?” “What kind of mother are you – you don’t deserve those children……” I was ashamed to face my children – their Mother was a murderer. Dave & I were drifting farther and farther apart. My resentment of him was mounting daily!

We built a new home and unpacked only the boxes we needed to survive. The boys were getting settled once again in a new school. But my heart wasn't there. I asked Dave to take some time off from the ministry in order for our family to have a time to heal, but he refused. After one year I was ready to split. I wanted out – I resented Dave for forcing me into this situation. I didn't want to be married to him any longer and felt unbearable guilt for what I did. One day I just packed up the car and drove to Chicago to be with my folks.

Once I finally comprehended what I had done, I was devastated! I didn't know where to turn for help in coming to terms with the abortion spiritually. Most people in our Christian circles wouldn't know how to deal with that – wouldn't want to deal with it. So many people sitting in church pews are hurting deep inside, with no one to talk to about their pain. If you can't talk about it, you can't find healing!

I realized that the so-called “blob of tissue” was in truth “my child”! -- and I killed it! Oh, I hadn't done it by myself. Others helped me and encouraged me. Someone else actually did the killing, and it was all legal! But the bottom line was the same – MY CHILD was gone! And I was responsible! It was MY choice to take it's life! What tormenting thoughts!

I ended up having an emotional breakdown – cried all day and night, couldn't take care of myself, let alone my children. Having no one to talk to, I learned to stuff it all!

From then on my life went out of control. I found a Divorce Lawyer, told the court that I wanted my husband to have custody of the children because I wasn't able to care for them, and in truth didn't feel I deserved them, fought with my parents and ran away to

California – I had to get away where no one knew who I was and then I wouldn't have to talk about what happened.

I hung around with the wrong crowd, dated men who were complete opposites of my husband, in and out of bad relationships, began drinking to mask the hurts, trying to escape the pain that haunted me. I finally moved to Phoenix where my parents now lived, and tried once again to get my life back to normal. There I met a former Minister and after 2-1/2 yrs. of dating, we were married. A marriage that only lasted 7-1/2 years. My life was still a mess! I really didn't know what marriage was supposed to be like.

It's interesting how God uses certain people in your life, how some individuals seem to be woven into the fabric of your existence like threads running through a tapestry. I was attending Phoenix First Assembly of God church and in the Sunday Bulletin, there was a small article about Pathway to Peace – a Recovery program for those who have experienced an Abortion. I quickly tore it out and carried it in my purse for over a month, wanting to call, but thought maybe it was better to leave the past behind me.

Then finally one day I got the courage to make that call, introduced myself and wanted to know about the program. One of the Founders of Pathway to Peace, spoke with me and invited me to meet with her in order to learn about the program. It was a 10-week Post-Abortive Bible Study Group for women who want healing and forgiveness from God. It is for women who regretted their choice of an abortion, for those who want to turn from their own ways and learn God's way of love and forgiveness.

Forgive others who wronged you. "You must make a conscious choice to forgive that person so you can go on with your life." If you don't forgive, you're the one who will continue to hurt." I had to be reminded how much God loved me, what God had to say to the woman who has had an abortion. He was there to comfort me and restore me as I brought my own personal experiences with abortion out of the dark past and into His holy light. I called out to God and He answered me! He delivered me from all my fears. As I read my Bible, He was faithful to mend my open wounds with the healing touch of His promises. He promised to turn my wailing into dancing **and He has!** He promised that if my weeping endured for the night, joy would come in the morning, **and it has!**

Tears streamed down my face as I silently made that conscious decision to obey God and forgive my ex-husband even though I didn't "feel" like it. I knew it would be one of the hardest things I ever had to do, but I also knew it was absolutely necessary for my own survival. I had to also forgive those who unconsciously took part in the abortion, my parents and inlaws who loved me but didn't know what I was going through, the Ministers involved in all the churches that gave us 24 hrs to move out of town to another church so that the Church would not be affected, the General Council for hiding Dave's transgressions instead of helping him, and the doctor and nurses at the clinic who performed this awful procedure.

My wrong choices had caused me untold heartaches and misery – separated from my loving children, divorces, separation from dearly loved friends. Physically removed from the insanity of my partying pals, I knew I needed to get my act together. So it was a very introspective period for me, one that was accompanied by a great emotional and spiritual struggle.

It has been a slow but rewarding progress to once again become all that God had wanted me to be. Our God of grace and mercy uses the broken, shattered pieces that others would throw away. He took my brokenness and fashioned it into something whole, something truly beautiful. I am a different person, much more caring for those who are struggling with the pains of abortion. I **know** that I will one day be reunited again with my child in Heaven! I am slowly building up my relationships with my three sons again – who also went through great pain and the agony of years being separated from their Mother, not knowing why I had to leave.

The joy is that I am able to share not just the pain and brokenness, but the fact that God had loved me back to wholeness. “God can only heal what you are willing to reveal.” All of this is far beyond anything I could ever have imagined. At times it’s been a painful journey, but I found out that dreams really do come true. Mine did, and now God is using my life to help other hurting women, and that’s more than I could ever ask.

Jesus has healed all of my brokenness and given me a new heart. I have forgiven those in my past who hurt me, and I have never felt such freedom! The Holy Spirit guides me and teaches me to live and walk in a true relationship with Christ. God has restored, renewed, and rebuilt everything the enemy has stolen and tried to destroy. God has made me a woman of integrity, a woman of virtue and a woman who leads many into the presence of the Most High.

AFFIDAVIT

To be completed by women who have had abortions

The State of Texas
County of Houston

BEFORE ME, the undersigned authority, on this day appeared 6-1-07, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? ALL 3 IN HOUSTON
- 2) How many weeks pregnant were you? 3-6 What type of abortion was performed? suction (?) proper term
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was only informed of the procedure (vaguely) and waited in a room. I then lay on a table + covered with a sheet.
- 4) Were you adequately informed of the consequences of abortion? No. In 1978 - I was "quietly" sent home - My involved was satisfied of not having to deal with me being pregnant.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? My dad. Then myself.
- 7) How has abortion affected you? The consequences of abortion are so many and so deeply hidden it may not only be years before the injuries surface but will hurt God. The injuries only never heal. Abortion desensitizes people, concerning the "value" of life. It sends the message that getting out of your situations is more important than working them out. Abortion begins a down hill spiral of self-esteem, mother relationship, community at large, 4) future generations.
- 8) How has your abortion affected others in your life? My Lord, it took 3 lives and if we could ask him,
- 9) Based upon your experience, what would you tell a woman considering abortion? Let's talk a little while. I would share my experience. I would inform myself first on all available options for her and I would show her a sonogram.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? As soon as a woman allow a baby to be sucked out + ripped apart from a mother's womb - she SUCK out + rip apart the very woman herself. I am guilty (but forgiven!) of murder and so is our nation for allowing it to happen. - How can we sentence men + women +

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Baby's father and baby's grandfather

9. How has abortion affected you?

Shame,guilt,fear of rejection,promiscuity,remorse, grief- stricken,unworthy of love & trust,wrecked my self esteem,estranged from my God,unable to forgive myself. Silent for 38 yrs.Hypocrite,liar."Replacement Baby Syndrome". Incompetent cervix caused 6 week premature delivery of my twin sons.One twin died & felt God may have taken him as due punishment for abortion. Had to have cervical cerclage on third pregnancy to avoid premature delivery of next child.It changed who I am and who my child was to be. Thoughts of suicide. Left a hollowness in my soul. Believed I was a bad person. Crying episodes. Anger invaded me when I least expected it. Anger affected how I disciplined my sons while at the same time I was over-protective. Bitterness. Loneliness in crowd.

10. How has your abortion affected others in your life?

The abortion affected my relationship with my husband. We divorced and have remarried each other. He never knew of my abortion prior to ever meeting him. After I told him and read part of the book I am writing he had two comments. "I never knew you had this turmoil in you. It explains a lot." I feel the

anger episodes caused me to take things out on our sons to an undeserved degree, not always, but at times. After being disowned by my dad I preferred to avoid him and felt hurt that he could enjoy and become so animated around my nieces, yet ignore me, his own daughter. I needed him. Avoidance and non-committal to relationships with my friends and my two sisters.

11. Based upon your experience, what would you tell a woman considering abortion?

It was the worst thing I ever did in my life. How it haunts me still and has changed me forever. At conception God planted a soul in your child. She is already a mother. Adrian Rogers once told an abortion-minded young woman, "Young woman, you will have your baby. You will either have a live baby or a dead baby, but you will have your baby." Her womb should be a safe place not a tomb. Children are a blessing, a gift from God. We get things out of order as a consequence of our sins, but this child is not a mistake. No matter how this child was conceived; whether rape, incest, drugged or permissiveness this child has as much of a right to its life as they have. If parenting is not for her then adoption is a gift of life to both her child and adoptive parents who would love to love this child. I also stress that this child is not now and never was a blob of tissue. It is premeditated murder to take a life. This life is a human life with a soul and rights. It can't speak for itself yet, but if it could this son or daughter would ask, "What have I done that was so awful that you want to kill me?"

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them of the scars on my soul and of the vacancy in my heart and life till this very day. The ache and regrets never fade. Abortion is believing a lie straight out of hell. At least on the battlefields our countrymen have died upon they were given weapons to defend themselves with before they fell. What weapon does this child have? Too young to vote so he has no weapon, no voice and no defense. You never get over having had an abortion. Abortion lowers the value of human life. Spreads corruption in the hearts of those who choose death for their child. Although you "get away with murder" as far as society views it, your heart died along with your child. Their memory of what they have done is its own prison. God made mothers to be nurturers not murderers. I was speaking to a woman inmate in prison once and I told her my group and I were there to help women like me who have had an abortion(s) and to find healing from this heinous crime we have committed against our children and our sin against God. She told me she was in for forgery. She reasoned, "So I'm in here because I passed some hot checks, yet you murdered a baby and you are free!" She was 100% right and just in her opinion. I ask you...whose crime was worse? Her forgery or my act of murder? Who had done more harm?

Jesus came to teach us how to love the unbeautiful

Well, heck. I wrote this article and a computer glitch caused it to neither save nor to be submitted. Must be something the devil does not want us to hear! Its never as good the second time around composing a story, but probably a lot less emotional! This is a plea to the church to be involved in ending bloodshed, by being part of the solution. Anti-abortionists have sadly become known by those who want to bomb clinics or taunt young mothers on their way into the clinic. But if we are to be part of the solution, if we are to bring Jesus to this dark place in the world, we must get beyond our anger, hatred and contempt, to be able to make the bent over woman stand tall, to free the woman at the well, to heal the woman who believes that just one touch of the cloak could heal her.

This was greatly demonstrated in a conference I watched on God TV one night. I believe the speakers name was Ken Gott and the location was Toronto. But the story will be forever etched in my mind as testimony of the power of bringing the light of Jesus into a dark place. The story is heartbreaking, but the ending will bring you to your knees in awe of Gods mercy.

There was a little girl who had been systematically and regularly raped and abused by a family member. Eventually, she was able to escape out a window and found her way to an abortion clinic. While she was waiting, she had a vision. She saw a field of little lambs jumping and playing. Except one of the little lambs had broken legs. A shepherd was there, and he said, this lamb is you. One day, your legs will be healed and you will run and play with the others. She left the clinic. She found her way to a church. There, the pastors wife took her in and counseled her. She accepted Christ as the Lord of her life. But she did not want to keep this baby, which was a living reminder of the betrayal of trust and the failure to care for her and to nurture her she experienced during those years of shattering abuses.

Little did this girl realize, that five years prior a young couple in the church had prophesied over them that God would drop a baby in their lap. And here, now was this baby. They named the baby Louise, and raised her in the church. Louise went on to have ten children who were all serving the Lord. Ten precious lambs playing and leaping in the fields of the Lord. All because one pastors wife opened the door that day, opened her arms, and shared the light of Jesus in the dark world this broken lamb was struggling through. And I thought to myself: What if the church had said sorry, we cant help you? Then it occurred to me. I know what would happen. And then I remembered a vision I had once, of a lamb with broken legs. In a dark, empty and barren place. Suddenly I found Gods purpose in my life.

Let me share some background with you. I grew up in a religious home, where I did not see Christ. As a result, I became an atheist who thought Christians were deceived by a cruel and controlling church. I would hear people talking about praying and suggest they seek counseling to really be able to deal with their issues. (Boy, if those people could hear me speak in tongues and see me lay hands now, huh??) I became a christian in 1988. In February of 1989, I was baptized. I quickly became involved in Campus Crusade for Christ and hung out with Chi Alpha and InterVarsity christian fellowship groups. I was on-fire and being fed! Then I moved away.

In my new, rural town, I just could not seem to meet Christians who wanted to help me deal with my own issues stemming from a life of neglect and victimization. But I found my unsaved friends could accept me with my faults and would lend a kind ear and some advice. So I began to play church with the church and spilled my guts to the drunks and meanwhile kept praying, God, I just want someone I can connect to! Eventually, when I was 33, I began to doubt that God existed. I decided that if he had given me such a burning desire to have a family and children but wasn't apparently going to let me have it, that I would just marry the man everyone else liked. Big mistake.

Within a year, we moved 8 hours away from anything and anyone I knew. We were excited to try to have a family and decided to try right away. I had been treated for Cervical cancer just prior, and the damage to my cervix as well as my age made pregnancy a big question. When we conceived in the first month, I was hesitant when I should have been excited. For already, the facade I had been presented was crumbling. Over the next months I quit my job in the local nursing home to decrease stress and risk of physical injury from confused and combative patients. By the fourth month, this man had spent all my savings, run me forty thousand into credit card debt and was still accruing debt from anyone he could get cash from. His status as a business owner was entirely fabricated. As we began the process of filing bankruptcy, for which I risked losing my professional licensure, he began threatening me. He is a second degree blackbelt.

For a time, separated from my friends, estranged from my family, broke and approaching fifteen weeks pregnant, I kept him at bay with threats of a restraining order while I tried to find help. The lawyers could not help me. I couldn't get help from victim advocates because he hadn't hit me yet. The pregnancy resources weren't available to me because the baby had not been born yet. The churches could not help because they don't "do that sort of thing". Then one day, he informed me that he had contacted the sheriff's office and was told they would not do anything until AFTER he hurt me and, in his words, "so I can do anything I want to and you can't stop me".

I was terrified, unable to work, broke, ill from the pregnancy with no where to go in a town where I knew no one. This man offered to pay for an abortion (legal

until sixteen weeks) or a promise to fight me for custody. Scared for my life, faced with the prospect of a life of subjecting myself and/ or my daughter, Raelynn, to a life of financial ruin and physical danger, with an open door at the abortion clinic, warm and understanding smiles, open arms and the stinging ring of the church saying "I guess you'll use birth control next time" still in my ears, I chose to spare Raelynn's life in hopes that I may continue to have one. Before that moment, I was pro life and couldn't understand how women get to that place in life.

I then found myself floating in a river. I considered simply floating down the river into the rapids below in hopes of drowning. How does a thirty four year old upper middle class professional woman, married to the man everyone loves, end up nearly bankrupt, alone, and in fear for her life? How could a God who was real allow this to happen? I decided my only two choices were to give God a chance to be real and to let Him pull me up out of this place, or to just die. My flesh screamed out to just find the darkness of death and end this horror. But something deep within me cried out to put God to the test. And that was when my life began.

What few friends I had made in the area, Raelynn's father had contacted to let them know I had an abortion, knowing that in their self righteousness would turn on me. I ended up calling an atheist woman I barely knew from work. She took me in, let me stay at her house for a few days, and made me tea. Over the next couple days, I made the most difficult call of my life to my estranged family, whom this man had attempted to call knowing the abortion would permanently sever ties with. But God protected me, and caused him not to get through.

My parents offered me a spot in one of their rental properties, utilities and taxes only for three months. I hired a couple temps and we got what we could from my house, me still bleeding from the procedure in 100+ degree heat. I arranged to give away each of my four horses (who represented the accomplishment of a lifetime of striving and dreaming and working toward the goal of competing nationally in dressage competitions) and all my most prized possessions, my horse tack and such, found a home for my birds and left with what I could carry. With my heart pounding in my ears from fear, I never imagined my family would help me out or that a near stranger would offer me a couch to sleep on. Already, God was turning this bad thing for good. (Though I didn't see it then)

For a year I slept terrorized in a windowless room with a nightlight on. It was months before I could work again. Raelynn's dad continued to stalk the barn where I used to ride and the dance classes I used to take. Eventually, he found me, unlisted, in my parents town, ten hours away from him. At that time, the victim advocate in that town helped me to get a restraining order. It was then I saw the vision of myself as the broken lamb in a barren land.

Eventually, I moved to Denver where I found release during intercessory prayer with Arthur Blessitt and Mark Leonard. I remember a man whose name I still don't know, tattooed in every visible spot, noticed me holding back my tears and obeyed God's call to step over to take my hand. I sobbed silently until God gave me the strength to release Raelynn to Him and to let her go. The man then said, sorry about that, and stepped back over to where he was and out of my life. Under the guidance of powerful leaders in a powerful church, I learned to begin to trust God, to find joy and to unleash the spiritual gifts He chose for me. Then He put on my heart to move to rural Texas, where I now live.

Three years to the date after Raelynn was sent to heaven to pray and to wait for me to come and to raise her, to pray that the church will see the light, God restored my finances. I never had to claim bankruptcy. Deep down I always knew God would restore me. When in March of 2007 I won a saddle (and let me tell you I have never won a thing ever in my life other than that saddle!), I knew that my time had come. My obedience in tithing and in learning through devotions, reading books on spiritual growth, faithful church attendance and prayer journaling become fruit in the form of all I desired and more than I could imagine.

God gave me the finances to buy back the most prized of the horses I had to give away during that time. I bought this great house which I still can't believe was in my price range. And, finances are not all He has restored! He has done a great work in the relationships in my life. My family still does not know this story, but God has changed their hearts and they call just to see how I'm doing and they come to visit me in my home. I have a discipling, healing and deliverance ministry, primarily with broken women. I am still believing God will provide me the family I desire; but, I have learned to be happy edifying myself before the Lord, to draw closer to Him and to be more moldable to His teachings.

Church! Did you hear a theme? When the church and the churched turn their backs, the world welcomes with open, though broken arms. I beg with you to ask God how you can be part of the solution. Church! If we want to end abortion, we cannot be part of the problem. I hope you see in my testimony, in Raelynn's purpose, that abortion is a symptom. The problem is so much deeper. Church! Will you be a light into the dark places? Will you hire a pregnant woman? Will you give her comfort when she is afraid? Will you open your doors to her when she needs a place to rest her head? Will you throw stones at her? Do not let Raelynn have died in vain. See abortion through God's eyes. See the whole picture.

God's mercy is so incredible. The darkest places can receive light and be turned for good. **If you are a broken lamb**, please give the shepherd a chance to see you frolic and to play in his pastures. Keep your eyes stayed on him. Even when your

upbringing has taught you to trust only yourself and those you are turning to do not seem to be there for you, **God has your back. Don't let terror influence you, ask Him now say, Jesus, I have nowhere else to turn. Im terrified. I feel alone. Give me a way out. Show me the wings of the angels you have sent to carry me. Forgive me of my wrongs and anything that may keep me from knowing your will for my life. I need you to direct my life, to light my path. Give me your strength to let go and let you take care of me. Give me the power to trust you to care for me and to show me your path of prosperity, peace and joy. Take this from me!**

NEXT STEP: Keep calling until you find a church or prayer line who says, I know what you need, let me show you the light Jesus can shine to light up your dark path. Get into the Bible. It is your word from God and will keep you on the right path!

He loves you. He does not want you to go through these things ^{alone!} I chose to walk outside His plan for me and it nearly destroyed me. It doesnt have to destroy you. Come home!

Church! Give her a home and a family. BE A PART OF THE SOLUTION!

5) How has your abortion affected you?

My abortion has left a life-long emotional and mental impact, and need for anti-depressant medication. It crippled me emotionally, as I isolated myself and withdrew from others. Left me very angry as I was not told of the repercussions that continue to haunt long after the procedure abortion completed & life is taken

8) Based on your own experience, what would you tell a court that believes abortion should be

DECLARATION HOW MY ABORTION AFFECTED ME

The State of Texas
County of Tarrant

"My name is Ana I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? Ft. Worth and Dallas TX
- 2) How many weeks pregnant were you? 4-6 wks What type of abortion was performed? _____?
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Yes I was advised about the procedure but not about the ~~other~~ emotional effects afterwards.
- 4) Were you adequately informed of the consequences of abortion? I am not sure you can be adequately informed of the foreverness of the regret and sorrow that remains.
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 7) How has abortion affected you? Even now I have tears streaming down my face & that is that I have had counseling and have dealt with my grief. The hardest thing was forgiving myself. Which I have, even so I have much regret. Much sorrow. For years afterward it was very hard for me to sit through baby dedications at my church. My tears were uncontrollable. I remember the feeling of complete emptiness afterwards. Prior to the abortion, my breast had been tender & I didn't know it at the time of how much life I could feel, until afterwards, when it was like death in my body, a complete emptiness. All I could do was sob for days.
- 8) How has your abortion affected others in your life? Well I'm sure I wasn't much of a mother to my son, during that time. His mother was living through a depression, not to mention the self destructive behavior that followed for years to come.
- 9) Based upon your experience, what would you tell a woman considering abortion? IT IS A BABY. Don't believe it if people tell you it is just a piece of tissue, a little of nothing. It is life living in you. Life. And no matter how much you think you can not handle or deal with being pregnant, the consequences that you will suffer are so much more devastating than anything else or any other mistake you will make in your life.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? I don't think that people get that it is a human life that is being decided on. I would say from someone who has had a life living inside and decided to end my pregnancy, trust me when I say it is NOT just a piece of tissue, it IS a living human life, it is. I didn't just end my pregnancy; I ended my baby's life. Please know that what you are deciding on is a life.

If you have never had
an abortion then you would never
understand the damage it does.
If society didn't make it so easy
to have one then more women
wouldn't make the lasting scarring
mistake.

Because its legal people think
its OK. Well, I found out the hard
way. I figured since its legal
lets get it done quickly before
its a "baby". Well, it was easy &
fast. It was the biggest mistake
I ever made, taking my daughter
to have an abortion. Now I have
mentally scarred myself & my
daughter. We now realize it
was a baby the day of conception
and what we did was legal murder.
How can you live with
yourself after you've murdered
a little defenseless baby?
It's not easy.

8) How has your abortion affected others in your life? Both my daughter and I and my husband has had a hard time dealing with the loss.

9) Based upon your experience, what would you tell a woman considering abortion? Absolutely not- the mental damage is horrible. Its hard to live with yourself after you murder someone so innocent.

I suppose it seems silly to start at the very beginning but it here it is. I was born in a small town of about 3,000 people in the middle of Wisconsin. I had parents that farmed and an older sister and brother. I was painfully shy but was coming out of my shell and beginning to fit it socially by the 7 and 8 grade.

My father hated the hard outdoor work of farming in the fridge cold of Wisconsin. The summer between 8th and 9 grade he moved us to south Florida, Ft Lauderdale. Sounds like a dream come true and it was for everyone but me. The hip *with it* surfers of south fl would have nothing to do with the weird shy kid from Wisconsin. I withdrew into myself. Finally some kids befriended me. The problem was they did some drugs which I started then too.

That really wasn't me. I was a good kid just very unhappy. The summer I turned 16 I got a job as a cashier at a local restaurant. I fit in well with my co-workers. They became my friends and family. My own family was having problems. Money was tight, Mom worked outside of the house. My dad had a heart attack and couldn't work for awhile. My sister and brother were independent and gone a lot. I felt lonely except when I was at work. One day the most beautiful boy started to work at the restaurant. He said he was 20. He showered me with attention. He cared about me. I was in heaven.

A couple of months later I was 16 and pregnant. He was 25 years old and gone. I had to tell my family. Of course I expected fireworks. I was a good catholic girl from Wisconsin. This kind of thing did not happen to our family. I greatly underestimated the anger. The news was met with a cold hatred. My mother said this dog will never see the light of day. Although abortion was illegal my older sister was given the task to try to find one for me. I had no voice. For the next month I was shunned. If there was conversation when I walked in to a room it stopped. No one was allowed to talk to me. I wanted to die. No abortion could be found but a doctor gave my sister a handful of pills to give me with the hopes of causing a miscarriage. It did. I lost my baby.

Life went back to normal for everyone else. Not for me. I was hurt and angry that a parent's love for a child couldn't rise above a bad situation. It was further proof that I was not worth anything to my family. I resolved in my mind to get out as soon as possible.

Orphaned
Spirited

I started dating a young man named Mike. We had sex and I got pregnant again. This time I was 18 and had just graduated from high school. We married. I went into the marriage with two goals. First get out of my house. Second, have my baby.

I loved my little boy. He was wonderful, beautiful and so accepting of me as his mom. My husband was becoming more and more into his drugs and motorcycles. We had no money. He didn't care. I was responsible for it all. Again, except for my Cody I was alone again.

The marriage was becoming unbearable. I worried that the cops would come, find drugs and take Cody away from me. I had a brief affair. I got pregnant. I didn't know who the father was. My life was out of control. I needed to get it stabilized before I lost my son.

-signed Colleen D. Staunig

I went to a Planned Parenthood for counseling. I was so torn. On one hand if I had the baby, stayed in the marriage I had not made any good changes or solved any problems. And what if the baby came out obviously not my husbands! I was screwed. But how could I have an abortion. I lost one baby I loved. I couldn't bear to abort this one. If I had the baby, I was doomed to stay in the marriage for a few more years. The lady at PP was business like. She just wanted to know if she should write the referral. If I expressed any doubt she said she wouldn't give it to me. The abortion was like a piece of candy on the table. She would slide it towards me then pull it back to make me want it more. Lost & alone I came to the conclusion that to save my son and myself I needed to have the abortion.

It was a rainy day to match my mood. I didn't tell anyone except my husband. He drove me and dropped me off. Later he picked me up and we went home. A hole had opened in me and even though I pretended to be ok it never went away. There was a sense of relief.

The marriage ended. I took my little boy and set out to make a better life for us. Eventually the abortion disappeared from my thoughts.

I would like to interject here that God Always loved me. I didn't know that. I had never felt loved and I didn't know how to love anyone but my son. God had a plan for me. He was going to take my life and rescue me.

I was working for an airline – really had come up in life- when one day a man came to my counter. He had missed his plane because of rain. I smiled and helped him make other arrangements. I loved helping people.

I didn't know this then but he was a great guy. He sent me a thank you and we started to correspond. Eventually I flew up and we met again and 9 months later we were married. He had introduced me to the Lord and I became a believer. Life was good. I had my little boy and we both had Peter to love us and take care of us.

I got pregnant again and we were all thrilled. I was so thankful to God for my situation. He began to whisper to me about the past abortion. All of that had left my mind completely. As I was pregnant I started to look for ways to help women that were alone and needed help with their pregnancy. I knew what that was like. I joined a group and in training I had to watch an abortion video. That was the first time I came face to face with what I had done to my babies. It broke my heart.

I kept a good face on my life. No one knew how much I was hurting. I cried and cried. I was not even sure why I couldn't stop. A deep sadness just overtook me. I couldn't even pray. The few people I mentioned the abortion to said to let it go. But I couldn't. What did they know about the pain? I killed my baby no one else but me. I could have refused the pills the first time. Why didn't I put up more of a fight? If I had tried harder could I have made it thought without the second abortion? I wished I could push back the clock and try again.

Signed *Colleen Staunton*

You can not stop God from loving you. I was filled with self disgust and hate but He still loved me. He found ways to keep reminding me until I came to the full realization. My sins are as far from me as the east is from the west. I am the much beloved child of God. I am so grateful. I will love and serve Him all my days.

~~I hope this is helpful. I am happy to expand on anything that would help you ask me questions. I will watch the cds you sent and see if this is what you were looking for. I felt compelled just to write this as is. I am more than willing to fine tune it.~~

Have a blessed day.

6) Did anyone pressure you into having an abortion? Yes No If yes, who? my mom said I needed to have it

7) How has abortion affected you? It caused me to use substances (drugs) and alcohol and to cover up things in my life. It caused me numb myself in any way possible and to be secretive about my life

8) How has your abortion affected others in your life? The baby's father was so affected, he got out of the army and went back home.

9) Based upon your experience, what would you tell a woman considering abortion? To talk with someone who is serious and has experienced abortion. That it is murder of a human being, and whatever the reason, she can find ~~other~~ help so needs. She's carrying a real baby inside her.

10) Based on your own experience, what would you tell a court that believes abortion should be legal? If given the right counseling many people wouldn't have abortions. Some people just need to know that they will have the help needed to care for a child. Some people just need to be talked to alone and be able to stay the whole time through. Not all people do not want an abortion.

Questions? Please call toll-free 1-866-4-OUTCRY (468-8279) Need Help? 1-866-482-LIFE (5433)

I am a 60 year old woman who had an abortion in 1970. I got pregnant with my first child when I was 21 by a man whom I dearly loved and who loved me. We planned to get married but the shame and guilt of conceiving a child outside of marriage tore at the fabric of my soul.

I could not imagine how I would ever live with the pain of knowing that my child was conceived outside of marriage. I didn't know how I would look my child in the face and know for the rest of my life that I had been irresponsible and sinful in my actions and that he or she would be a product of those actions.

I had very little sexual experience when I met this man. He was 13 years my senior and so I trusted him. My job at the time gave me access to information about abortions. So I knew of a way that one could be obtained under special circumstances. I was so confused and felt so alone. My immediate family could not be consulted. They had already ostracized me from the family because they did not accept my fiancé. He was of a different race and that made him unacceptable to them. I am Hispanic. He was black.

Alone and confused, I don't think I even thought of my pregnancy as a child, (as horrible as that is) I just thought of it as a situation that had to be fixed. I couldn't bear to think of it in any other way. My fiancé had been a medical corpsman in the Korean War and unbeknownst to me, he had experience in using a wire coat hanger to abort a baby, a procedure he described to me in detail to my horror. I instantly knew that he had done this before and my heart that was already broken, began to die....and looking back, I know my relationship with him died in that conversation.

I knew that I was completely alone now with my pregnancy. I adjusted to the situation in a desperate effort to find a solution. I believe that my desperation did not let me think about this pregnancy as a child. It was obvious that my fiancé had no regard whatsoever for me or my child. So I began to look elsewhere for my solution.

There is absolutely NO DOUBT in my mind that if I had had someone to talk to back then, I would NEVER have aborted my child.

Back then there were no national open abortions available, but the move in that direction had started. The state of California, where I lived, had a limited law allowing abortion for "therapeutic" reasons. Only "Therapeutic Abortions" were allowed. As I write these words for the first time in my life, I am sickened by the deception of the term.

I was so depressed and more desperate than ever that I began to try to figure out a way to obtain one of these "therapeutic abortions" and thus not be faced with the horrific option of a coat hanger abortion or the prospects of raising a child alone without family support.

I made all the appointments necessary to get to a doctor at the local indigent care hospital with the hope of getting approved for this category of limited abortions. To increase my chances of getting approved, I lied to the doctor and told him that I was in a special

category of emotional trauma since I was living with my fiancé and that the baby was not his! This was a lie, but I thought it would help me qualify.

When I told this to the doctor, he began to berate me and shake a finger at me telling me that I could not cheat on my fiancé and that it was horrible behavior on my part. I'm sure that he was more disgusted with my supposed infidelity than the idea of killing my child through abortion. He approved the "therapeutic abortion".

I had a "D and C" after only about 8 weeks of pregnancy. I remember the same doctor telling me that there was a "minimal amount of tissue" that he removed. I suppose that was intended to comfort me. It didn't.

My fiancé was present at the hospital where this was performed, but I never recovered the relationship that we had. I fell into the deepest depression of my life and I didn't understand it at all. I was so alone with my pain. I did not dare to talk to any one about it since it was my secret. But the most debilitating part was not making the connection with what I had just done!!

It is impossible to explain how deeply heart sick I became. To this day, almost 40 years later, I still cannot write this to you without crying. My abortion was and still is the most heinous crime against humanity that I perpetrated in my life. It still stands out as the one thing I look back on with the overwhelming pain and regret. I murdered my own child. I will never be able to erase that. I have asked God to forgive me and I know that He does, but the pain of loss is so great that I cannot begin to express it.

I've never told this story in detail. It has just been too painful, but I'm writing it now because I know that it might help someone else. Mostly, I really want to finally honor my dead child. You see I've never done that.

I have rarely referred to this abortion. Even my medical records don't reflect it. After months of lying on the couch with uncontrollable crying sessions lasting hours, I left my fiancé. I moved across the country to start a new life and put this behind me. I never saw him again.

I had used recreational drugs before, but now I felt justified in becoming a habitual user. I smoked pot even at work. I used the Dalton Shield as a birth control method because I needed to be absolutely sure that I would not get pregnant again. Somehow choosing this method of birth control seemed appropriate since it invaded the very place where the murder had happened. In my damaged psychological condition, I reasoned that once my womb had been turned into a chamber of death by medical instruments, then introducing another medical instrument to guard against future possibility of life, made sense. It was a form of self-mutilation.

Decades later when it was discovered that the shield caused miscarriages, I was still too grief stricken to apply for the class action settlement moneys that were offered. I could not imagine getting money for something that I used to prevent another pregnancy.

Although I suffered greatly from the Dalkon Shield. And I got physically sick each time I read the newspaper ads asking women to come forth who had used it. I just could not bear to have to relate my past reproductive history and certainly not for money. I felt like I would be selling my story for money and I could never do that to the memory of my dead child.

As the years went by I had great difficulty in relationships especially with men. Eventually, I did find a wonderful, kind man who loved me greatly and we married. I felt honor bound to tell him about my past abortion and then we never spoke of it again.

When we tried to have a family, I miscarried repeatedly. I really have never been convinced that the abortion had nothing to do with it or that the desperate use of the Dalkon shield as a result of my abortion had not compromised my ability to have children.

I miscarried a total of 3 times. The second pregnancy resulted in my son who was born developmentally delayed. He is 24 now and a delightful person. My husband died 9 years ago and so we are on our own now.

My abortion grief now turns to grandchildren that I now know I might have had from my aborted child. It's possible that I aborted my only normal child who could have been a wonderful sibling for my special needs child. With my husband gone my son now has no immediate family that could care for him when I'm gone. I'm not sure what will happen to him, but I trust God will be with him always. It's all I can do now.

Please hear my cry. Don't let this horrible experience ruin the life of one more person. My child is gone. I can never ever bring him or her back. I can never give my son the brother or sister he deserves and I can never have the grandchildren that I so want today.

Please, please, please overturn Roe vs. Wade and stop one more future grandchild from being eliminated and one more woman from the life time pain of abortion.

Added later:

After writing this I made my first ever phone call for help to a post abortion recovery program. Telling my story on these pages for the first time in my life and after 38 years made me realize that I have NEVER healed from this experience and that virtually everything in my life has been affected by this one horrific event so long ago. I wrote this early in the morning and ended up skipping work that day.

Nobody grieves this long from a D and C. Only murder and death causes this kind of grief. Abortion is NOT a medical choice. It is murder and it injures the murderer as well as the murdered.

If someone you know has had an abortion, encourage them to complete this form.

DECLARATION HOW MY ABORTION AFFECTED ME

The State of Virginia
County of Montgomery

"My name is S B. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

- 1) When and where did your abortion occur, including city and state? April 21, 1993, Roanoke, VA
- 2) How many weeks pregnant were you? 7 What type of abortion was performed? ? Vacuum ?
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Maybe—much of that day is a blur to me. I was fighting back tears the entire time.
- 4) Were you adequately informed of the consequences of abortion? Only physical "recovery" instructions were given to me, so no. I wasn't adequately informed of the consequences
- 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 6) Did anyone pressure you into having an abortion? Yes No If yes, who? It was my boyfriend's idea.
- 7) How has abortion affected you? I was a 17 year-old who let her 18 year-old boyfriend talk her into some very bad decisions. decisions I knew were wrong at the time but went along with anyway. I'm not trying to pass all the blame onto him; ultimately, I did the things I did. At the same time, I would have never gotten myself into such a mess of my own doing. Following the abortion, I felt like a shell of my former self. I went to college the following fall. I still managed to be an honor student but my self confidence was shattered. I made very few friends. It's hard to put into words. I had been very involved in high school but the "new me" was too scared/shy/something to become part of college life. For years afterward I felt like a shadow of my former self. (continued on next page)
- 8) How has your abortion affected others in your life? We—especially me—have tried to keep this a secret so there are few people who know about it to affect. My husband tells me he thinks about it often, though he doesn't mention it to me, and feels bad about what he put me through.
- 9) Based upon your experience, what would you tell a woman considering abortion? Not to go through with it. It would be a decision that would haunt her every day for the rest of her life.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion causes irreparable harm to women. It's not a quick-fix or any type of solution. Rather it inflicts long-lasting psychological damage. I know I did something very wrong. That wrong was to take a life, and our country should uphold the right to life as first enumerated in the Declaration of Independence.

7. I was consumed with guilt over what I had done. What a hypocrite I was! I was a Christian who had sinned and sinned and sinned. I had made so many mistakes in such a short time. And I felt like damaged goods.

I married the boyfriend. We're still married, happily. But the baggage from what we did remained, and continues to do so. For years, I feared I'd thrown away my only chance to have a baby. I was paranoid my punishment would be that I'd never have children. As part of my paranoia, I suggested we have a baby probably sooner than we would have or perhaps ought to have. I say that because I gave up the chance to go to law school or graduate school because I needed a baby then. My husband had not yet finished his military commitment so he had not even started college. I say all this because the horrible choice we made as teenagers (who did know better) has had repercussions on our life today. We have a good life, don't get me wrong. But we had the potential to make it better than it is, and we squandered that.

We had that baby I so longed for. But the guilt was still there. During labor, when everything was going so wrong, I wondered aloud if this was part of God's punishment. That notion persisted as I underwent an emergency C-section. Perhaps one had nothing to do with the other; but because of what I had done, the thought continues to cross my mind. After the birth of our second child, I was finally broken down with grief and guilt, and, at my husband's insistence, sought counseling with a pastor. I had to learn how to finally begin to forgive myself, an ongoing process still.

We've been blessed with 3 children in our house. They have no idea exactly how much I mean it when they hear me thank God for blessing their dad and me with them. It still tears me up inside when I think there should be another one of them. There has not been a day since that terrible day in April when the thought of what I've done doesn't cross my mind. I'm still so ashamed of what I've done. I'm scared at the thought of having to face our first child in heaven some day. How can I face him? Or her? I felt my blood pressure rise when asked at the ER how many times I've been pregnant. Could he tell I was lying when I said 3? It's never going to go away.

3. Were you adequately informed of the nature of abortion, what it is, what it does?

I went to my Dr. who was a Christian and he told me he would not do an abortion, but, that if I wanted one he would give me the name of a Dr. who would. I went to that Dr. and he only told me that he could only perform abortions up to 3 and a half months, so that is what he would state I was in the chart. He then told me he could only do a D'nC as I was 22 weeks, so I would have to be put out. This is all I was told.

7. How has abortion affected you?

I was 19 years old when I had the abortion.

When I had the abortion I went home immediately after the abortion, I severely bled for a month after the abortion. I was afraid to see the Dr. about it, because, I didn't want him to know I had, had it (stupid I know). I have since had two sons and had severe bleeding after having the 1st one, then after the second I nearly died due to hemorrhaging, I was told then that this most likely was due to the abortion, the only reason the Dr. knew about the abortion was because of those cute questions, "How many pregnancies, blank, how many live births, blank". I was honest because I knew they needed to know and I didn't have to say it. I was told to never have any more children because it would kill me. I have since had a hysterectomy due to the same issue hemorrhaging for 8 years that the Dr's said might have come about because of having the abortion.

Emotionally: My boyfriend left me after I had the abortion, even though he had told me we would get married if I would have the abortion, and when he said he was leaving I tried committing suicide, by taking lots of downers, he stayed with me until he knew I was ok (this was three days of him not being sure I was alive because he could barely find any vital signs, he wouldn't get a Dr. not even his dad which was a Dr. because the pills I had taken were illegal and he was afraid of going to jail), he then left. I stayed suicidal and ended up calling the emergency hot line. I was put into contact with the Chaplin at Good Samaritan Hospital who saw me one time, but, I just couldn't see him any more because I felt such shame. I never told after that, except one counselor (of which I have had many) and my husband now. I just buried it very deep, on Mother's day I would weep, because I so badly wanted that baby to forgive me, to love me. I told the one counselor at the same time as I told about the abuse. I found them both just as devastating to talk about. So I just talked about the effects of each in my life the depression the fear the shame. Although telling the counselors came about after 19 years of silence. I couldn't tell anyone else because at that time if you had an abortion you were ostracized. So I had to keep quiet if I wanted to have friends and keep going. I so badly wanted to talk about it, I wanted to be able to be like mothers who had, had miscarriages, and everyone was there to support them. But, an abortion you didn't deserve sympathy, or support, you only deserved to be pushed away and forgotten, so I tried to forget. But I couldn't, all I could do was think about the child that I could remember feeling moving in my belly and wondering was it a girl or a boy? It was 38 years ago this November, but it has been only in the last 19 years that I have been able to talk about it somewhat and I know that there is still areas that I need healing in. Very few people know about it, yet. Even though I stood up publicly at the Virginia's Anniversary prayer rally on Virginia Beach, I realize that I still feel shame, over the abortion! so much so that it has taken me this long (from April of last year till now August) to search out this web site and fill this out, even though I knew I was to do it that day in April! There never is any closure, you

have no where to go to say good bye. You're for ever a murderer. Even though I became a Christian shortly after I had the abortion I found that I know that Jesus forgives me even of murder, but, what I know and what I feel inside are two different things. For so long both in the Christian world and the non-Christian world there was no place to get help for all the pain that you were going through due to the abortion. Even now yes there are a few places to go but you have to break past the shame factor to go to get help. I would say this is equal to being sexually abused (which I was as a child). You ask yourself: "Will people believe me?", or "Do I dare risk having people know that I have had an abortion?"

8. How has your abortion affected others in your life?

Most of my family never knew, only my grandmother and mother. My grandmother was devastated, my mom didn't care in fact was sort of glad as she didn't like Jim. The depression and suicidal tendencies affected my marriages. Causing to a degree my divorce from my first husband although he never knew why I was depressed. My second husband has known somewhat but I truly don't believe he knows totally as I have not fully dealt with the pain and so still have a hard time talking about it. My boys know and hurt because they would have liked to have had an older sister.

9. Based upon your experience, what would you tell a woman considering abortion?

Please DON'T, you can't even imagine the pain that you are going to go through afterwards. This little baby, yes, baby is inside you and no matter what you are going through if you have it there WILL be some way to handle the circumstances. Either by adoption or some how getting help to keep the baby, there are so many resources now!

10. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please, study what you are legally allowing. Look at the babies that have been aborted. Look at an ultra sound of a live baby in the womb at the different stages, see them moving and playing. Recognize this is not just some cells but a life, a baby, that has a right to live, just like you did! Please reconsider, there are many lives at stake, not just the baby, but the mother and her future husband, or husband, children, family etc. Choose life!

If someone you know has had an abortion, encourage them to complete this form.

DECLARATION HOW MY ABORTION HURT ME

"My name is J G I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

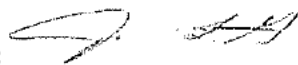

- 1) When and where did your abortion occur, including city and state? Roanoke, VA
- 2) How many weeks pregnant were you? 12 weeks What type of abortion was performed? Suction
- 3) Were you adequately informed of the nature of abortion, what it is, what it does? No, I asked to talk to someone at the reception desk. They told me someone would talk to me once I went to the back. Once I was back there, I asked to talk to somebody, I was told I could talk to the doctor once he came in. I was given a valium. I had never had a GYN exam. I was 19 y/o. I am now 51. I told the nurse or tech at my right side that I had changed my mind. She said everyone feels that way, they are just scared and she said to squeeze her hand if it hurt. Well, it hurt and I did squeeze her hand hard. I started crying from the moment I felt like something was ripped from me. I felt like it was my soul, I now know it was the soul of my baby—life left my body.
- 4) Were you adequately informed of the consequences of abortion? NO
- 5) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 6) Did anyone pressure you into having an abortion? Yes If yes, who? The father of the baby and his mom.
- 7) How has abortion affected you? There is not enough space on this paper to describe how negatively the abortion affected me. My life spun out of control and most, if not all, of the decisions I made were related to how badly I felt about myself. I hated what I had done; I hated everyone that had anything to do with it; I hated myself.
- 8) How has your abortion affected others in your life? I miscarried the next pregnancy. When my precious daughter was born, I had no motherly love. It took 2 years before I had feelings for her. I just went through the motions.
- 9) Based upon your experience, what would you tell a woman considering abortion? I have told many women over the years not to have an abortion. I tell them if they do, when they need to talk, I will be there for them. I told them it was the murder of an innocent child.
- 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal. It is murder. It takes lives and it destroys lives.

 - 4) Were you adequately informed of the consequences of abortion?
Absolutely Not.
 - 5) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
 - 6) Did anyone pressure you into having an abortion? Yes No If yes, who?
 - 7) How has abortion affected you? It was not until 18 years later that I looked back and could see the destructive influence the abortion had on my life. I lived with an underlying anger at myself, which I took out on others. Most specifically my husband and the two children that came along later. This anger turned me into an uncooperative wife and an abusive Mom.
 - 8) How has your abortion affected others in your life? See above. Also, when my parents + family found out I had had an abortion they were deeply hurt by the loss.
 - 9) Based upon your experience, what would you tell a woman considering abortion? An abortion will cause your own self-destruction. Your life will be happier if you choose a different course of action. There are many other possibilities for you + your baby. Let me help!
 - 10) Based on your own experience, what would you tell a court that believes abortion should be legal? Please think as though your daughter or granddaughter just gave birth to a baby. Now think backwards. At what point would you declare this new born child a "Non-Child?" Medical science has proven that life begins at conception.

Question #10 continued

Obstetricians, especially, know that without conception one can not have a child.

How can we presume we can decide the point at which a life can be "dismissed" because it doesn't have enough cells or body functions yet? Are we God that we can say "You're gone! You're done! No more life for you!!"

It seems to me that those few cells that came together at conception have ALL the instructions on production and development of "A Child." And it is "OK" for us to destroy this beautifully creative process???

OPERATION OUTCRY

The Justice Foundation's project to restore justice by ending legal abortion.

Touching hearts by "crying out" the truth that abortion hurts women, men, families, and the culture.

Changing lives by offering hope and healing as women and men share their personal stories of tragic grief and pain of abortion.

Restoring justice through legal and legislative efforts. The U.S. Supreme Court cited to the written testimony of the women of Operation Outcry in upholding the federal ban on partial-birth abortion. But the Court said it did not know the size of the problem, so help us collect one million declarations to show the Court how many are hurt by abortion!
