

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Australia

My name is K M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Midland WA

//1992

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

No idea

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that all that was inside me was a blob of cells smaller than the fingernail on my pinky finger.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the risks to my physical health, mental health, or that I was ending the life of my child and once done, there was no way to go back and change this...I must live with this forever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The Dr, the boyfriend and the person I house share

9. How has abortion affected you?

I have now had 4 children with 4 fathers. I have been a sole parent most of my life...2 failed marriages and do not trust men. I suffer anxiety, phobias and get terrible anxiety that my children will die...I worry all the time that something terrible will happen to them. I have also suffered 4 miscarriages after the abortion. I believe this was due to the abortion. I was lucky to have my other children and did suffer bleeding and complications with them. I also had 4 sons - always wanted to have a daughter too...and often wonder if i aborted my only daughter. I cried after the abortion...and threw up...in the recovery room...I suddenly realised that I had just let someone kill my baby.

10. How has your abortion affected others in your life?

I don't know

11. Based upon your experience, what would you tell a woman considering abortion?

I am PRO LIFE and I am hoping that abortions will become illegal. I tell women that abortion hurts

women, abortion stops a beating heart and that there are places they can go for support.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion hurts women. It impacts the lives of everyone involved...the mother, her partner, her future children. Abortion is not over when you leave the clinic...abortion lasts FOREVER in your heart, mind, soul. Abortion is murder...we know this because of the technology. Abortion is ENDING a life, therefore it is MURDER.

HOW MY ABORTION AFFECTED ME

The State of WA

County of Pierce

My name is Vashti I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

09//1999

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C, i think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I think i was given vague information about what was going to happen procedural wise.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not once was there a mention of the consequences physically or emotionally. They informed me from a procedural stand point of what was going to happen.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father of the baby

9. How has abortion affected you?

My life has been an emotional mess. After my abortion I made several poor decisions and never really understood why until I began to truly deal with my abortion. It was the biggest mistake of my life.

10. How has your abortion affected others in your life?

I had an emotional wall of protection built around me and wouldn't let anyone in so needless to say that it affected relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider the cost. There are many other options than taking an innocent life and for a moment you may think your solving a difficult situation but in reality what your doing is opening a can of worms and a life of hurt, distrust.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Why is it that people push free choice?? What about the choice of the unborn baby, when do they get heard. Would you still be pro choice if your mother decided to abort you? Someone gave you a chance at life so who are we to say that an unborn child doesn't get the same chance that was given to you. When did God give us the reigns to determine who lives and who dies. It's so much more than just ending a pregnancy, it's killing a life. There's justice for toddlers, babies that are murdered but what about the murders that occur everyday with the taking of a life. These babies have a heart beat just like me and just like you we shouldn't be able to play God.w

HOW MY ABORTION AFFECTED ME

The State of WA

County of USA

My name is Roxanne . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

01/05/1979

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

some machine was used - it was a long time ago and i'd tried to forget it

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

not how it would affect me mentally later on when i realized it was killing my child - i was told it wasn't a child but as the years have gone by & more is known about the development of a fetus - it was a child not just a blob of cells

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

alot of guilt - i had a premature baby Michelle in the hospital fighting for her life when i found out i was pregnant & got an abortion. our premature baby Michelle died later that month. It was an extremely selfish decision. I believed all the lies that were told about abortion - not a baby, women would be hurting themselves to get an illegal abortion. If abortion wasn't available fewer women would make that selfish choice.

10. How has your abortion affected others in your life?

even though my husband supported me i know that he did not agree with my decision to have the abortion. we don't really talk about it & it was especially painful after losing our child Michelle

11. Based upon your experience, what would you tell a woman considering abortion?

This is a baby not just a clump of cells. You think that you are making a choice that will be better for you but what about that baby? You must realize that you are in fact killing your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is killing your child so it should not be legal. If it would not have been legal at the time I had mine and all the lies about abortion would not have been told, I would have never gotten an abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Kitsap

My name is Veronica Maruda. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

04//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

saline &/or suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Didn't realized the immediate depression I experienced, perhaps because of the sudden hormone changes. 8 weeks of pregnancy...maybe 8 minutes to become unpregnant, must do a significant chemical imbalance.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

friend who had 9 abortions as her 'birth control'

9. How has abortion affected you?

I REGRET IT! I HAVE YET TO TELL MY OTHER 3 CHILDREN. IT IS ALWAYS ON MY MIND, IN MY HEART. I AM SORRY I TOOK A PERMANENT SOLUTION TO ADDRESS A TEMPORARY SITUATON THAT RESULTED IN THE DEATH OF WHO I NOW UNDERSTAND SCIENTIFICALLY WAS A SEPARATE INDIVIDUAL & NOT "MY" BODY!!!

10. How has your abortion affected others in your life?

I manifested my regret through anger at others. Until I finally realized through technology what I had done, and took post-abortion healing measures, I was irrational and self-destructive resulting in alcohol abuse and promiscuous behaviors (which perpetuate the low esteem cycle).

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE consider that of the 1.5 million abortions each year, there are about 1.6 million adoptive hopeful families who are still waiting to adopt. PLEASE consider LIFE for your child, that if you can't

raise him/her, there are adoption options. Abortion is uncivilized torturous murder and in the 21st century we should opt for peaceful solutions.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do not break the Law. I respect the Law. I expected that those who make the Laws, study and seek the BEST for ALL before doing so. I trusted the makers of the Roe vs.Wade Law and assumed the Legislators knew what they were doing. They failed me: it is not a glob of cells, but a separate human being requiring my body as the host BECAUSE of a choice I made to have intercourse which is the only way to become pregnant. Murder is not a choice a woman gets to make. Otherwise, why not make Homocide a 'choice'? It is the same difference. If Abortion were not legal, I would not have killed my offspring 22 years ago. Homocide is illegal, yet there are still people who 'choose' to commit it:they are dealt with accordingly. Abortion should be no different. If a woman 'chooses' to commit abortion even if it were illegal, then she should reap the consequences of that 'choice'...NOT the innocent, vulnerable human being she carries temporarily. Period.

The State of WA

County of Thurston

My name is Lynnlee I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lakewood WA

07/16/1981

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was only a mass of tissue, and just a simple surgical procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told of possible minor physical complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I struggled with self-loathing, alcohol abuse, depression, regret, sexual dysfunction, feelings of inferiority.

10. How has your abortion affected others in your life?

My two living children were deeply saddened to know of their missing sibling. My husband has suffered through my emotional and sexual dysfunction, from a decision that he had nothing to do with.

11. Based upon your experience, what would you tell a woman considering abortion?

That an abortion is the destruction of two lives. That she should research what is really taking place in her womb, and take time to really consider what she is doing. That abortion is not a "quick fix" to a crisis situation, and that a crisis will pass.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I lead a bible study-recovery group for post-abortive women. I have seen the debilitating destruction in women from teens to seventies. It's effects are long lasting and far reaching, invading all aspects of a

woman's life. Yes, women have a choice, BEFORE they engage in sexual behavior. Sex causes babies, it is a fact of life, and we are not animals driven by uncontrollable urges.

That while an unwanted pregnancy is difficult, at least let the baby live and give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

God says "Do not murder." Abortion is murder of defenseless humans, so why is it legal to kill a defenseless, unborn human and illegal to kill someone who has been born?

My name is M P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

//1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

don't know what it's called - something to do with saline into the naval cord, I think.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My mother actually set the procedure up because I was young and very naive, had already had one baby, and my mother was the primary caretaker. She had just lost her husband (my father) and now she would have had 2 babies to take care of while I was out running around, being stupid. At the time, I didn't have a problem with it, but years later, I discovered I had other emotional problems that weren't related to anything I could put my finger on. There was a piece of me gone that I just couldn't find! A couple of women from my church set up an abortion related seminar where I discovered that the symptoms I was having were caused by the abortion and the loss of my child! Oh, what an eye opener! I was able to put a name to my problem and finally ask for forgiveness. I will never forget the feeling of regret I felt at that time. I have asked (and received!) forgiveness from my Heavenly Father, but I will never forget what I have done to my beautiful child.

5. Were you adequately informed of the consequences of abortion?

9. How has abortion affected you?

CONSTANT feeling of shame that I could kill my own child!

10. How has your abortion affected others in your life?

Not too many people know about it, but I'm sure my attitude, at times, causes people to wonder what in the world is the matter with me.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth it. There are other alternatives. Don't risk the consequences based on convenience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PLEASE don't put women's lives at risk solely for the sake of convenience. What other reason is there for abortion?

HOW MY ABORTION AFFECTED ME

The State of WA

County of Chelan

My name is Nancy Roa. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Reno NV

09//1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction aspiration/Vacuum Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The Planned Parenthood counselors lied and told me that the fetus was just a blob of tissue, not a baby. They didn't talk about the stage of development, a heartbeat, just that it was tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one talked about the depression, insomnia, anxiety attacks, the guilt and anger, or the likelihood of future miscarriages. No one discussed the possibility of injury or death, except in a broad statement, just to get my signature on the release form.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the father of our child.

9. How has abortion affected you?

For many years I lived in denial and tried to forget it ever happened, but it changes you forever. I suffered from insomnia, depression, guilt, anxiety for many years, not realizing what the root cause was, until I became a Christian in 1985. I knew that what I had done was wrong and even though I knew the Lord had forgiven me, it was many more years before I was able to forgive myself. I married a man who didn't want children and when we later divorced, I was devastated--the feelings of worthlessness were overwhelming, at least in part, because I knew I would never bear a child and the only children I would ever have, I aborted--murdered. I regret my decision to abort my babies, there is so much sadness that never goes away. Only after I received total healing from the Lord, have I been able to enjoy friends babies and truly connect emotionally.

10. How has your abortion affected others in your life?

When my step-daughter and daughter-in-law were pregnant, I was unable to share the normal things a mother shares with them--I felt I'd let them down and it was heartbreaking. My friends probably don't know why I seemed distant around their babies, but they surely felt it. Some of my family relationships are strained. I have hope that those relationships will be healed by the Lord, but I wonder what my life would have been like if things had been different. One of my sisters tried to talk me out of the abortion--she was the only one who fought hard for life--I know it hurt her that I didn't listen and she would have been a good Aunt, as she is to our other nieces and nephews. Someone is missing at the table--that's the sad realization that we come to and it will never be healed until we get to heaven and are reunited.

11. Based upon your experience, what would you tell a woman considering abortion?

I regret my abortion--there is so much sadness that never goes away. The reality of your loss increases with time, not decreases. You'll wonder what you're child would look like, be like. If you are ever fortunate enough later in life to have grandchildren, you'll wonder what your other grandchildren would be like. One life touches another, every life matters. There is always a way to do what we think we can't do and you are not alone. There is loving, compassionate help for you and your baby. You CAN do it, your really can have a baby and it will be alright. With God, all things are possible.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal abortion hurts women, it hurt me--emotionally, physically, and spiritually. It torments, and sometimes maimes and kills women. To deny a child life because it's inconvenient for the mother, or because of the circumstances of conception, or disability of the child, is wrong because it lacks true compassion for either the mother or the baby. My abortion may have been legal, but it caused me great harm and killed my child who had a right to live. There are two lives to be considered, not just one. That is the heart of the matter--why do we think we have the right to murder a human life? Abortion should not only be illegal, it should be unthinkable.

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

06/26/1971

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All they told me was that I would have some heavy bleeding, heavier than my normal period.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was nothing said about consequences only that I'd be relieved.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotional scarring. Knowing that abortion is murder brought guilt, loathing of self, and an overly insecure personsonality. I wasn't like that before. When other children were born there were increased fears of something happening to them. I experienced tauma when anything about child abuse was mentioned and every year of it's anniversary brought a lot of mental anguish.

10. How has your abortion affected others in your life?

It plagued my marriage for many years in regards to how I viewed my husband...there was a lot of mistrust and so much loss of relationship between the two of us.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there is a "better way". There are many services available to you and I will personally "walk" with you to save your life and the life of this child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In any society murder has never been nor should it ever be "legal". Abortion is murder. This is a "holocaust" like no other. It is the duty of our government to protect the rights of "life, liberty and the pursuit of happiness", stated in the Declaration of Independence. Please, choose life!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Skagit

My name is Eileen Robinson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Burlington WA

//1977

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know that the abortion would pull the baby apart in pieces. I did not know that the heart was beating. I did not know that once the laminaria was placed in my cervix that I could still stop the abortion. I did not know it would be physically painful to have an abortion. I did not know that I would feel loss and grief. Nobody bothered to tell me these things.

5. Were you adequately informed of the consequences of abortion?

Yes No

In all fairness at this late date I can't say exactly what was taught to me prior to the procedure. I can't say whether or not I was informed, or I was just so distraught at the time that I wasn't able to listen and fully understand what they were telling me. However, I was very surprised by what I found out after the abortion. I had no idea that it would hurt, and that there was a possibility that I would have pain after the procedure. I definitely didn't know that I would be severely depressed and guilt ridden. Nobody approached the subject of how I would feel about it. Nobody told me that I would have problems bonding with my other children, and that I would have problems trusting my mothering abilities. Nobody told me that I would have problems with relationships in general after that, or that I would seek to replace the "lost" child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused me to be insecure in my decision making, especially where relationships with people I care about are concerned. I spent many years being promiscuous and using drugs and alcohol trying to hide from the pain.

10. How has your abortion affected others in your life?

I had trouble bonding with my daughter who was born the next year, and eventually she ended up being raised by my parents for the most part. Once I married I tried to repair the relationship, but it was too late. I've caused others in my life the same pain of abortion by being afraid to tell my "secret". Subsequently my step-daughter experienced a horrible abortion where she screamed through the whole procedure (she was un-medicated) and cried for her Daddy! It destroyed her relationship with her Dad and her own self esteem. She also sought to replace the "lost" child, and became pregnant and married at a very early age after this. I felt like I was not worthy of love, and therefore it took my husband years and years of patiently loving and caring for me to convince me that he really did love me and that I was loveable. It caused a lot of stress in our marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

I have told them the truth about what abortion really does physically to them and the child. I make sure they know that the child's heart is most likely already beating and that the nervous system is developing. I've told them how abortion affects so many aspects of their lives especially their relationships with others, and most importantly their relationships subsequent children. I've told them that adoption is a great alternative and that I wish I had opted for that instead of abortion. Although I didn't think I could do it at the time, I've since been witness to several adoptions and see it as such a beautiful gift to all concerned. I also tell them of the resources offered at Crisis Pregnancy Centers to help them along while they are deciding what to do. I also tell them that they are there to help them learn to parent through parenting classes, and help provide them with needed supplies and resources for their new child if they should decide to parent.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First of all I would tell them all of what I have previously stated. Then I would tell them that instead of legalized abortion providing a safe way for women to end their unwanted pregnancies, they have in fact contributed to far more deaths, inadvertent sterilizations, and abortion caused mutilations that ever would have happened if abortion would have been kept illegal, simply because of the increased numbers due to the greater social acceptance. Abortion has most likely increased the numbers of women who are heavy drug and alcohol users, promiscuous, depressed and even mentally ill. Post Abortion Syndrome, very closely related to PTSD, is a newer more prevalent mental disorder caused by abortion. Abortion has also devalued human life to the extent that people don't see their children as valuable as they did in the past. Subsequent children of post abortive Mothers have an increased risk of abuse, because PAS women don't bond well with later children, they doubt themselves as parents and ultimately don't discipline in healthy ways. Legalized abortion lead me make the biggest mistake I've ever made in my life.

HOW MY ABORTION AFFECTED ME

The State of WA

County of Snohomish

My name is Patricia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Grand Rapids MI

01/07/1985

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They asked me if I understood what was going to happen and I told them yes.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one mentioned any side effects besides infection or bleeding. No one talked about emotional effects afterwards, but did ask if I had someone to talk to.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

my parents reaction to my first pregnancy

9. How has abortion affected you?

After the abortion I left my hometown and continued to seek relationships with men who did not care for me... I placed a second child for adoption 1 1/2 years after the abortion. I have had difficulty bonding with my daughter and am divorced. I cannot seem to loose weight and have spent long periods clinically depressed. I only recently stopped smoking.

10. How has your abortion affected others in your life?

My boyfriend of the time tried to commit suicide after the abortion, and he went from being a very nice "boy scout" type of young man to a man who just might start sleeping around without concern for his partners. I haven't heard from him since 1985. The daughter I placed for adoption asked me why I had chosen adoption for her, and was sticken by guilt when she heard of the second child's demise... We have not been able to establish a comfortable relationship because it just hangs in the air between us....

11. Based upon your experience, what would you tell a woman considering abortion?

No matter how difficult the pregnancy will be, the shame, the trials, you can live with yourself so much easier if the child is at least alive! there are people willing to help, and your parents will forgive you...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal. It makes it too easy to do something that curdles the rest of your life.... some things cannot be smoothed over.... When I look at the beautiful child I have, and the ones I placed, and all the children I help birth as part of my work... each one is so very individual, so very special and so very necessary for this world to be the best it can be. Killing someone does not make you a better person. It is very, very hard to live with yourself afterwards...

HOW MY ABORTION AFFECTED ME

The State of WA

County of Grant

My name is Wendi I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oakland CA

02//1978

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was called a TAB, theraputic abortion, in those days. It was positioned as a simple proeedure that removed some tissue. I really didn't understand nor was told what choice I was really making.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not expect the physical, emotional or spiritual consequences that followed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband strongly encouraged me to terminate

9. How has abortion affected you?

I physically hemorrhaged, emotionally collapsed, and later was tramitized by the fact that I voluntarily killed my first child. I did it for completely selfish reasons which makes it all that much worse.

10. How has your abortion affected others in your life?

First of all it took the life of my baby. It was the worst for my baby. My first husband and I ended up in a divorce after the abortion. I don't know how directly connected those events were but a major connection was lost with the death of our first child due to abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Please slow down and study the facts of abortion. Consider all of your options. Pregnancy is not terminal but taking the life of your baby can haunt you for a life time. It is not the quick fix that is promised. Visit a crisis pregnancy resource center and get some support.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

No, I believe that it is murder and it is offered as a quick fix. It harms babies and women. The results of post abortion syndrome are awful and the physical and spiritual effects are just as devastating. Stop encouraging, allowing and paying for abortions!

The State of WA

My name is Carol Schuette. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

spokane WA

//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

d and c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 19. My college room mate got the information and drove me to the place. I can't remember being told much of anything, and certainly not any pictures of a developing baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was early after the passing of Roe vs. Wade. I was not informed of all the changes that would take place in my body, of the intense guilt and depression that followed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents didn't know .

9. How has abortion affected you?

I still fight feelings of shame and mostly regret. I know now my parents would have been disappointed, but they would have helped. Like so many things I wish I could go back in time. I know an ultrasound, support and counseling would have helped me through. I still have only told one doctor I had an abortion and I've seen many. That is how the shame hangs on even when you believe God has forgiven you.

10. How has your abortion affected others in your life?

I am married to the father of all my children including the child I aborted. For him, it was a bad decision that happened when we were very young, but it brought a great deal of friction into our marriage for many years. I felt if he had been more involved we might have been stronger together. We both were so afraid and afraid of disappointing our parents.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to have an ultrasound and find a supportive team to help her through a live birth and to consider adoption if she cannot be a parent. I would tell her there are no unwanted children, only unwanting parents, and whether it is fear, or inconvenience, or a host of other 'good' reasons she will never regret giving a 9 month give of life. I believe as well that there is a connection to abortion and breast cancer for those that are predisposed, not everyone who smokes dies of lung cancer and not everyone who has an abortion will get breast cancer, but there is a link.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No abortion should not be legal. Women should be well informed including ultra sounds which, incidently, I would rather have my taxpayer dollars going to than aborting a beautiful child that someone would delight in raising. Mother Teresa at the National Prayer Breakfast under President Clintons term offered to take all the children we aborted, and although illogical to us, we must realize what a self - driven nation we are to not consider all the options that would support life.

I had no idea of the emotional pain I would go through after having that abortion. I went through counseling about a year later. I am now healed from it thank you to my Jesus and I know I will one day see my babies:)

boyfriend

9. How has abortion affected you?

After it was all said and done I had to go to counseling. I wouldn't believe what I had done and was blinded to the fact that it was a human being inside of me and not just a small mass at the beginning. I will never forget what I did and will never get to see my babies grow up, but I know I will be with them in heaven one day. We have a forgiving Jesus, thank you Jesus!

10. How has your abortion affected others in your life?

After counseling I was able to tell my parents and they were deeply hurt and grieved that grandbaby that they never got to meet:(My siblings were sad too that I had to have gone through all that.

11. Based upon your experience, what would you tell a woman considering abortion?

If anyone is considering abortion please please don't do it. The pain is so hard to go through and this life is LIFE from the point of conception. If its too hard for you to be able to support this child there is so many people that aren't even able to have a child of their own, and just think you could bless them and

change their lives forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First I would start crying and tell them to take a look at all the photos of this little life starting at an ultrasound at 5 weeks or earlier. I would bring my ultrasounds in from my twins that were almost weekly and ask them how they could possible take this little life. God has a plan and a purpose for this child and had it long before this child was conceived. These little ones can't speak, so we better do it for them and save their lives.

9. How has abortion affected you?

I have lived for almost 30 years with this dirty secret, and now I live as the murderer of my unborn child. God has forgiven me, I trust in His strength to help me carry my burden of shameful murder.

10. How has your abortion affected others in your life?

I keep it tucked away from them. How can I explain what I have done?

11. Based upon your experience, what would you tell a woman considering abortion?

Do not have an abortion! This is an innocent life. Don't become a murderer. It tears an important piece of your life out, that you'll never get back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are sanctioning murder, and may well be accomplices in the murder of every child should they legalize abortion.

Scott Vogel, ex-boyfriend

9. How has abortion affected you?

I have had a total of 3 abortions. After the first one, I felt that my eternal life was damned. The second one I figured that I was going to hell anyway, so why even try. The third one I really wanted to keep the baby, but the father insisted I abort or he would leave. He left anyway less than a year later. In those days my life centered around looks, drugs and alcohol. I was so one dimensional. Outside beauty was my only identity. For the outside beauty was ALL I had. Inside I felt ugly and ruined. When I was pregnant with my first child, I was convinced that God was going to use the opportunity to punish me. It was the hardest and most frightening experience. When my child was born, he was perfect. I knew then the power of forgiveness God has for each one of us.

10. How has your abortion affected others in your life?

My mother was so disappointed and saddened.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that just like any other major sin, it is their choice. But the consequences are lasting

and disguised. We know not WHY we are convinced of that we are the scourge of society, we do not understand that we feel completely lost because of the inner turmoil going on inside us. The pain is so deep that many of us don't realize that our choice to kill our baby is the source. Without God in the aftermath-we are and will always be completely lost.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, the baby is a being, not a bunch of cells. The baby is a separate individual from the moment of conception. Abortion is the cause for many other problematic situations of Society. Abortion erases HOPE. Without HOPE, we have no reason to live a life with morals and values.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Dand C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No options or information was given. The gal just told me when to come back for the abortion. It was a very quick meeting she just took the urine test and told me how far along I was.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was horrible. I was not told anything. I was not given any pain meds and it was so painful. The doctor didn't talk to me at all and the nurse held me down as I cried and screamed. I was not told anything about the affects of the abortion to me or the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend was not supportive.

9. How has abortion affected you?

I died along with my child. I became caulous and thought men only cared about my body. I distanced myself from my parents and family because of the guilt. I tried to kill myself several times in the car. I got pregnant again and had another abortion, but changed my mind but the nurse held me down and gave me the general in my hand as I fought.

10. How has your abortion affected others in your life?

My relationship with my husband has been harder because I am so guarded. I was very angry with my first four children when they were growing up. I struggle with my relationship with my daughter and doubt my ability to mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Nothing is worse. You will always remember your child and it will not get rid of the problem but begin a living hell. Adoption is the loving thing for yourself and the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the most unregulated medical industry. I cannot believe our tax money goes to Planned Parenthood so they can make billions off innocent women. It is destroying our families. Men suffer too. Our youth are preyed upon right across from their schools. The truth is denied young women about breast cancer and depression.

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I didn't ask

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I really didn't pay much attention. I was very scared and just wanted it over.

5. Were you adequately informed of the consequences of abortion?

Yes No

Noone told me about the mental issues and the moral ones I was to face the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think about the baby every day. I wish I would have made a different choice. The guilt and the horror of what I did is very hard to deal with. I am fortunate that I now have a great relationship with God and I know He forgives me, since I have begged for that. I am waiting for me to forgive me.

10. How has your abortion affected others in your life?

It is hard to talk about and the people I have told have been understanding. But, again, forgiving myself for the choice I made so long ago is quite another thing. Guilt and deep remorse follow me around always.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT!!!! You will regret it at some point in your life and the regret will NEVER go away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Only in those cases of rape or incest, where the sex was forced. That was not the case for me. I was

lied to by the man; told he could not have children, so I didn't take precautions. It was a very costly lesson and one I have never and will never forget. Then, when he found out I was pregnant, he ran out and left me. As far as I know, he never looked back. I pray that he never did that to anyone else.

QUESTIONS

1. Where and when did your abortion occur?

Missoula MT

//1983

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

Hysterotomy

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the breast cancer link. And that was my last conception. I was never able to conceive again after the abortion - I am unsure if that was related, but I suspect it was.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortion was a true, 'life of the mother' abortion. My baby was anencephalic (which is fatal to the baby after delivery and produces extra amniotic fluid during the pregnancy). Since I had previously had one baby by c-section and I lived a long way from a hospital they were concerned that the old scar would rupture and I would die before I could reach a hospital. Even though my baby was going to die no matter what I chose, the act of choosing to end my baby's life prematurely was heart rending. I second guessed the decision for years, and to this day (25 years later) I wish I could do things differently. I would choose to carry the baby longer, to the point that had he been normal he could have survived outside the womb, yet still take him early enough to save my life. Taking your own child's life is heart rending. No matter what the circumstances, it is a pain that always lingers.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't have tests you don't NEED to have. Unless your health makes testing necessary just let nature take it's course. If you choose to end your baby's life you will NEVER forget it. It will be a pain that will

never go away. It will influence the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are true 'life of the mother' situations, but they are not emotional - abortion will only add to the painful emotions going on. An abortion will not heal the hurt of a pregnancy caused by rape or incest, it will only add to the emotional trauma. Abortions are not for convenience - the trauma of abortion will be far more inconvenient than what you are trying to avoid. Abortion kills a human baby and injures the mother.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Norfolk

My name is Linda Wallace. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norfolk VA

08/15/1977

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction Dilation and Curettage.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember if I was adequately informed of the nature of abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember if I was adequately informed of the consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The abortion affected my life in so many ways. I lived almost thirty years not wanting anyone to know what I had done. The enemy wanted me to keep silent, because I was afraid of what people would think of me. I believe the abortion was one of the reasons that prevented me from having children. I do know that what the enemy thought was for evil, God made good. I no longer hide behind the guilt and shame of having an abortion. God restored my life in a mighty way and now I want to do all I can to defend the lives of the unborn, because they can not speak for themselves. Also, I want to share how God set me free from the guilt and condemnation of the abortion.

10. How has your abortion affected others in your life?

My abortion prevented my family from being able to know my son Caleb.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman that she was a mother from the moment of conception and that God knew her child before he/or she was formed in her womb. I would tell her that abortion is not the answer and that there are other alternatives, if she was not ready to be a mother.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion is murder and it should not be legalized. There has already been enough innocent blood shed in this nation.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Pierce

My name is Tina Wilson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Martinez CA

03/05/1996

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I believe it was a D/C procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I distinctly remember after confirming my pregnancy, being given a list of doctors who performed abortions rather than being counseled regarding alternatives and options! I don't remember anyone giving me any verbal counsel. I looked up what D/C meant in a medical dictionary!

5. Were you adequately informed of the consequences of abortion?

Yes No

I may have been given some pamphlet; but again, I was given no counsel.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

emotionally, physically, spiritually and mentally; it was a cause of depression, shame and isolation (it was an unwanted sexual advance); I have endometriosis and likely will have no children; it was a stumbling block to my faith and values; I left the church for a time; it was a cause of repressed memories which contributed to my depression and denial of the incident.

10. How has your abortion affected others in your life?

My parents and siblings will not be able to enjoy grandchildren or nieces and nephews (two of my brothers died last year, leaving two girls and one boy remaining); it is uncertain that my remaining

siblings will have children.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T EVEN THINK ABOUT IT! If you feel you are not ready to raise a child, there are alternatives, especially adoption. Seek counsel! if you don't feel you can go to your family, go to a crisis pregnancy center, pastor or trusted friend. If your child has been the result of a rape/unsolicited encounter, remember he/she is still a child of God and a gift. You MUST get sound help for yourself. I chose a christian based post-abortion Christian education program 8 years after my abortion (in addition to earlier employment and MFT follow up). It enabled me to be restored.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion should be legalized, then why not be honest and open about this "right" women are supposed to have? Let's see what the reasons are for our government funding Planned Parenthood? It certainly isn't as a deterrent for safe sex! Let's see an abortion procedure on primetime news and let the people decide whether abortion should be legal! My experience is evidence that those who are having abortions are not being educated regarding healthy alternatives and making life valuing choices. Freedom of choice is having options to choose from, not being pigeon-holed into one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WV

County of Pocahontas

My name is Nina Elliott. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

07/22/1985

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was shown a short movie, that showed the baby looking like a fish of sorts. I remember signing a paper giving up \$400.00 and having the abortion done. When the Dr.? walked pass me he had in his hand a stainless steel tray with a napkin draped over it, and that's when it hit me, my baby was dead, and I was a murderer.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall anyone talking to me at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boss, and my RN girlfriend. Who had 2-abortion

9. How has abortion affected you?

I have been able to give it all over to Christ Jesus, but before Him, I was carrying it around like a ton of bricks, I felt worthless, I wanted the pain of guilt to stop, and I choose to be with many men just to be loved and wanted.

10. How has your abortion affected others in your life?

I'm not sure, certainly my sister, and mother both told me they would have helped raise the child. I

think my Daddy died not knowing, and I'm not sure the man I got pregnant by knew, although I told his sister.

11. Based upon your experience, what would you tell a woman considering abortion?

That the lie of it making everything alright, is only the beginning of everything going all wrong. You will suffer, in some capacity. Life is for living, not for giving over to death. Please re-think your decision, seek help. Get the truth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion should be legal, so should the killing of anyone, for any reason, and we all know where we would be if that became legal. Your not just taking a life that has no opportunity to live, your taking two lives and robbing them both of life.

HOW MY ABORTION AFFECTED ME

The State of WI

County of Outagamie

My name is Theresa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We never discussed that this was a baby I was told by Planned Parenthood it was just tissue I had no idea what the procedure was or how painful it would be.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not. As a result I had 2 bouts with cervical cancer the two years following it. At that time they also put me on the birth control pill, knowing my mother had breast cancer and never explaining that this was an aborta-facia.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The boy who date raped me

9. How has abortion affected you?

It took me years to forgive my self and return to the Catholic Church. Once I found out all the things it effected I have been dealing with the pain and guilt for yrs. Not to mention the cervical cancer and the trouble I had becoming pregnant later on once I was married.

10. How has your abortion affected others in your life?

Well for one it cost me my fist mariage, among the other things I was mentally, verbally and physically abused for he blamed me for not being able to become pregnant and for those eight years I could not.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't consider it.....there are 2 victims, the baby and the mother. It is truly a life, don't let anyone tell you differently. There are so many couples in the US willing to adopt and you can by pass all the red

tape if you find a good lawyer who can do the paperwork for you.....the mental pain not to mention the health risks later on will haunt you your entire life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Unless the Mother's life is in danger the mental anguish and physical medical problems it increase do not make it a viable, healthy option. It is especially dangerous for these teenagers who have no idea how it will effect their bodies later on, some damage is irreparable.....it is the ending of life pure and simple. We exclaim Life, Liberty and the Pursuit of Happiness in this country, but without LIFE nothing else matters. We need to protect the smallest and most vulnerable among our citizens.....

10. How has your abortion affected others in your life?

The pain and memory has remained with me. My husband and family have experienced loss over a child they will never know.

11. Based upon your experience, what would you tell a woman considering abortion?

You need to speak with someone who does not profit from your abortion, an outside party who cares about your physical and emotional well being. The best person would be someone who has experienced abortion. So many women have said that no one ever told them all of the facts.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

So many women have been hurt by abortion. Look at all of the healing programs around the United States and the hundreds of women who seek help every year for emotional pain directly related to an abortion. Abortion hurts women and the babies who have never had a voice, it is time to listen to the stories.

I knew physically what was supposed to happen, but I had no clue about depression, feelings of guilt, shame and drug / alcohol abuse tendencies. My body became incapable of carrying a pregnancy to full term.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I was clinically depressed for several years, not knowing why. When I finally realized my guilt, I was able to seek forgiveness through Jesus Christ, but even with God's grace and forgiveness, I still struggle with many ramifications from my decision. I have used alcohol and drugs for almost the entire period since then and still have not conquered alcohol even though I am a committed Christian and very involved with my church and the family of believers. Since the abortion prevented me from being able to carry a pregnancy to term, I had 5? miscarriages during my married years and so have no children now. Each Mother's Day is a vivid reminder of the whole thing.

10. How has your abortion affected others in your life?

I have never told my parents, being unsure if it would be the right thing to do. Bottom line is they won't ever know the grandchild I had killed, nor the subsequent siblings who died in the womb. Same for my siblings and their children...

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE DON'T!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is one of the most striking kinds of human atrocity and abuse I can imagine. (not to mention the many couples who long to adopt babies)

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Racine

My name is Sanon Harrell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

//1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I'm not sure but I know I saw a full size baby on the ultrasound and they suctioned it out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

In fairness, they sent me in a room to talk to a lady that wanted to inform me of my options - I told her I knew what I was doing and I'd be fine. She said, if that's how you feel - sign here that I told you.

5. Were you adequately informed of the consequences of abortion?

Yes No

same as above - I never gave her a chance. I knew what ever she had to say would make me feel guilty about what I was doing and I didn't want to know.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had no idea at the time, but I went through a phase of life where I dated a guy that was super controlling and jealous - he eventually hit me. I became a clutz, constantly hurting myself. Started listening to country music and went through a depression I did not relate to the decision I made to selfishly end a life. (I was scared of what I would lose/give up if I had a child at a young age and on my own) Then when I eventually got married I went 5.5 yrs not getting pregnant. Fought about it often - thought I was being punished for messing up the chance I had. Finally got divorced. Then I got saved and eventually married again. Again wanting children. I heard a radio advertisement for CPC wanting volunteers. I called and they told me to be a counselor I had to go through their postabortion biblestudy first. A month after I completed the study I got pregnant.

10. How has your abortion affected others in your life?

I learned through that bible study that the clutziness was me unconsciously hurting myself, that the

sudden interest in country music was my depression finding an outlet etc. My poor choices in boyfriends there after and some drug use etc. I had never known the source was my pain from my decision. I also remember seeing picketers and being so mad at them. (I would be fine if they didn't rub it in my face - I could pretend it had never happened and go on w/my life if they wouldn't put bumper stickers on their cars and carry signs - why would they want to hurt me like that?) Now I am a counselor for LifeChoices and teach parenting classes to the girls that choose to keep their children.

11. Based upon your experience, what would you tell a woman considering abortion?

Just because it is legal to have an abortion, does not mean it should be. If you would take a few minutes to read about the stages of development you would be amazed how much is already going on in your body and with that baby. If you end that life, the guilt and shame can be overwhelming. Please don't allow yourself to make a decision out of panic and fear. God does not make mistakes.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

please if you do nothing else - watch the videos on the silentscream.com You will not be able to tell yourself anymore that it is just a blob of tissue.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Waukesha

My name is T J I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

11//1992

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I asked if the baby would be in any pain when it happened. I was told that the baby just had the beginning of it's brain stem and would feel little to no pain. I found out many years later that this answer was a lie.

5. Were you adequately informed of the consequences of abortion?

Yes No

All the person asked was if I had any questions. I asked the question as noted above. I was not given any additional information beyond what I asked.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had three miscarriages before having my son, and doctors don't know why. I get depressed when I think about what I did. I feel like crying whenever I pass an abortion clinic, because I know that someone inside the clinic is being lied to and I know the pain they will eventually feel as a result of their decision to have an abortion.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

#1: DO NOT TALK TO PLANNED PARENTHOOD! They will lie to you and will not offer you any resources regarding the option of adoption. #2. Consider adoption, because it's easier to look yourself in the mirror and say you chose life over the easy road of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When I was pregnant with my son, I found it odd that he wasn't considered a person, with a right to live, until he was separate from my body. He was just as much of a person to me before birth, as after. That's when I understood the tragedy that is abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Washington

My name is Mary Kidney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

03//1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not counseled on the developmental stage of the baby and what was being done to the baby to end it's life - or given counsel as to an adoption alternative. I was not warned about the physical or emotional consequences of this procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that abortion carried the risk for the success of further pregnancies. I had a pregnancy complication with a subsequent pregnancy that was directly related to my former abortion. I was also not told of the possible emotional aftermath.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I became emotionally numb and suffered depression for many years after the abortion. I resented my then boyfriend, now husband, for not standing up for me and my baby - which effected our marriage. I have grieved and regretted my decision when I finally was ready to come to terms with what I did to my first child.

10. How has your abortion affected others in your life?

I have resented my husband for not standing up for me and for his baby.

11. Based upon your experience, what would you tell a woman considering abortion?

In the crisis state you are in, abortion seems like a quick fix - like it will make all your problems go

away. But you will have to live with the fact that you killed your own baby and you're not even thinking of that now. That baby is yours and is a blessing no matter how impossible things seem in your current vulnerable state of mind. You need support to do the right thing. Look for that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it is a choice between the life of the mother and the life of the baby, of course abortion should be legal. But the harm of a mother ending the life of her own child has physical and emotional repercussions to the mother that outweigh everything. Support for the mother, not for the abortion is what should be offered instead of murdering a human being in the very place it should be safest - in the womb of his or her own mother.

QUESTIONS

1. Where and when did your abortion occur?

Eugene OR

11/16/1997

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 16. It was treated as a "medical procedure", very clinical. I was given no brochures, saw no videos, had no adult with me.,

5. Were you adequately informed of the consequences of abortion?

Yes No

See above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a miscarriage that may or may not have been an affect of the abortion. I also had problems with pre cancerous cells that I have sense read are more prominent after an abortion. Emotionally it took me six years to seek counseling and accept what I did. I will never completely forgive myself for my decision.

10. How has your abortion affected others in your life?

My husband now feels a loss as well. We have three adopted children and he would have gladly accepted my baby as his own and adopted her as well.

11. Based upon your experience, what would you tell a woman considering abortion?

There is a sense of "my life will be over" if they don't abort but the truth is that their life will never be the same no matter what decision they make. If they abort, they will attach that decision to every relationship they have both with men and with their future children. If they don't abort they have can take control of the situation and give that baby a life that they will always look back on and feel strong about.

Adoption would give them the ability to continue the path they wanted their life to take while fulfilling the dream of two parents who will love and cherish the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The ramifications of legal abortion affect our society in countless ways. It removes the sanctity of life...I don't even know where I would begin.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Dodge

My name is Paula Langhoff. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

01/08/1981

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

so-called therapeutic, dilatation and currettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was "counseled" which consisted of a lady telling my boyfriend that the baby I had was a blob of tissue that wasn't alive and had no feelings. I wasn't even given a pamphlet. The woman pointed to a plastic model of a uterus. The session lasted all of 3 minutes with a comment of "any questions?" It was overwhelming. I was only 19. By the way the day of the procedure, I BEGGED the nurse and the doctor NOT to perform the process, to remove the "seaweed" tampon thing that was dilating my cervix and let me go. They refused, I was yelled at by the doctor and told I was "wasting" everyone in the clinic's "time" and that I would "lose the baby anyway" if he did that...so I should just "be quiet" and submit to the procedure. After it was over I was kicked out of the room because a nurse said I had to leave because they had other girls and they "needed the room". I passed out on the elevator and my boyfriend had to physically carry me to the car. I lost my job for an abortion I didn't even want or expect. I lost my life for 30 years afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion other than "some discomfort" but that was minimized by telling me I would receive "an anesthetic". No discussion of risks, not even death, it was underscored how the baby was not alive, because if "it" was born right then it wouldn't survive. That was their justification for the fetus not being alive. I was told it didn't even have fingers or toes at 11 weeks which I later found out to my horror was completely untrue.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor actually, on the day of the procedure

9. How has abortion affected you?

It took me 30 years before I could begin to forgive myself, I still struggle with this. The process ripped apart my relationship with the man I loved at the time, which was devastating. I carried a huge hole of pain, grief, loss, shame, self-hatred, and depression because of this. I would give anything to replay the events and make a different choice. There was absolutely no one supporting me, not even the "planned" parenthood which was a code name for killing children for those who didn't plan on being parents. The day of the procedure I begged the doctor not to make me go through with it and he yelled at me for wasting his time and pressured me into having it anyway even when I didn't want it.

10. How has your abortion affected others in your life?

My family was devastated, my parents and I never had a relationship after that; my boyfriend and I separated although we were engaged, and both married people we did not love out of guilt, which has ended in divorce and torn apart our families, and affected our subsequent children. We both struggle with forgiveness issues. This haunts us daily. This is a horrible, life-altering mistake on every level, especially on a soul level. There is no taking it back. It is the worst thing you can do to yourself and to others. When I finally had children, they meant so much but the one I lost haunts me still. What does one say, I have 2 children? 3? There is no way to make this right, and abortions should be outlawed. These "doctors" are murdering not only unborn children, but the futures of the victimized women.

11. Based upon your experience, what would you tell a woman considering abortion?

For God's sake don't do it, you will regret it for the rest of your life. All life is sacred, all life has meaning, and I now drive past Planned parenthood places in this state and feel nauseous and sad.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the most ruinous event that will ever effect a woman, her family, her future, and society....because it creates GHOSTS; people who are walking the earth alive, but in a constant state of depression, shame, pain, anxiety, hopelessness, and God-lessness. It teaches a culture of death, destroys the spirit of the would-be parents, and embraces the destruction of family, societies, and generations of people. It is infanticide, even if that child is not old enough to survive the process of being born. The gift of parenthood is sacred, and all life should be honored and protected at all cost. Otherwise there is no point being here. LIFE SHOULD BE DEFENDED, AND NOT DISMISSED.

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

06//1993

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I am not sure what kind of abortion, I did not know there were certain kinds.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no mention of emotional consequences, only physical

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortion did not affect me until I had started having children. I realized my role as a mother, which was to protect my children. I now feel remorse for my selfish actions. I feel ashamed for not protecting those babies the way I would protect my living children. I feel the need to ask for forgiveness from those children that I aborted for not being the mother that they deserved.

10. How has your abortion affected others in your life?

My mother had a hard time with my decision. It was something that she was against, and had a brick in a remembrance wall made for the baby I aborted when I was in high school.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that it may seem easy and quick. It may be something that you are okay with after

the abortion. But eventually you will feel the consequences of your actions, and you will regret the decision to take the life of your own child. That is what you are doing. You can try to hide it buy saying that you are just "taking care of it". Instead of being honest and saying what it truly is, which is, killing your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Everything that I said above.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told I could have children later in life and that my life would be as if this had never happened. No one would ever need to know and your life will be just as it was before the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about depression, low-self esteem, rage and anger and lack of care for my life that followed

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went deep into drinking and sex. I stayed away from my family, because of the deep shame!

10. How has your abortion affected others in your life?

My husband and children were victims of my anger and drinking bouts as life went on 18 years after the 1st abortion. I had 2 more in a 4 year span after the 1st one.

11. Based upon your experience, what would you tell a woman considering abortion?

Never go through with it!!!! It will haunt you the rest of your life! The relief you will feel is very short-lived!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are complex creatures and killing our off spring is inately going to make you do things you don't realize you are doing. There are so many ways it will effect women. We can be in denial for years and

have no clue why we are so sad inside or have compulsivities that stem from the abortion. Overeating is something that I still am working on after 20 some years after my 1st abortion. Repeat abortions also can happen due to seeking a better outcome(reenactment). Depression is still there on anniversary dates! Was it worth all that???? Heck NO!!!! I wish I had given them up to a great couple!!!

The State of WI

County of St. Croix

My name is T M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

12//1980

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the "tissue" would be removed through suction. I was told about the discomfort I could expect. There were a group of us in the room who were all having abortions and they asked us each why we were choosing to have the procedure done. Details were not shared. When the abortion was performed, I saw the doctor lift the bag up and was squeezing it to examine it closely. I asked what he was doing and he said he wanted to make sure he got everything. I wondered how you could "know" you got all the tissue. It struck me that he was looking for the body parts of my baby. It was 30 years ago and I still remember it vividly. When I realized the surgical nature of what just occurred the emotional pain started for me.

5. Were you adequately informed of the consequences of abortion?

Yes No

The aspect of regret and emotional pain were not discussed (nor can I remember any discussion of physical consequences.. but I did not experience any of those besides severe cramping for a week). After realizing that the doctor had looked for body parts, every time I saw a baby I had emotional pain. That lasted intensely for 7 years. I have experienced a level of healing but tears fall every now and then over having killed my own child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The fathers mother.

9. How has abortion affected you?

Shame and emotional pain for many years. It also caused me to feel like people really didn't know me because there was a hidden part of my life. Others who chose to have their babies were able to live openly and I envied them.

10. How has your abortion affected others in your life?

I have tried (with God's help) to live a good life and to raise good kids. I had to tell them at one point that they would have had a half-sibling but that I had taken that child's life. That was a painful thing to admit to my kids, but I try to live as transparent a life as possible.

11. Based upon your experience, what would you tell a woman considering abortion?

The choice to have an abortion "seems" like a way to fix a previous bad choice or circumstance, but it does not, it adds on to it. The best way to recover is to face your reality and find a positive solution.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should never be legal. It is a false doctor. It does not fix problems, it transforms them into something uglier.

04/24/2004

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction aspiration, I believe

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was explained not in detail. Just that the baby would be taken out. There was no explanation as to long term effects including emotional and physical (in ability or difficulty conceiving in the future). Also options were not explained.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation as to long term effects including emotional and physical (in ability or difficulty conceiving in the future). Also options were not explained, such as adoption, how to raise it yourself, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

I didn't believe nor want to have the abortion. My mother did everything to convince me, which failed. Therefore, she resorted to threatening me with committing suicide if I didn't have the abortion. It affects me everyday of my life. I regret what happened. I am angry with Planned Parenthood for not explaining more or asking if I was pressured or threatened. It's also EXTREMELY important that it is known when I was taken back to the room, prepared, and when the machine turned on I told the dr. don't, stop, and he jammed the tube up me and said too late.

10. How has your abortion affected others in your life?

It's affected my husband by having difficulty conceiving and starting testing for fertility issues. It has affected my pregnancy when I did become pregnant. It has caused me emotional trauma which ultimately affects my husband and children.

11. Based upon your experience, what would you tell a woman considering abortion?

There is so much I would say. I would for sure make sure she knew what the procedure is in detail, the development of the baby, the effects emotionally and physically of having an abortion, ensuring she is doing it of her free will free from fear of harm or threats. I would advise my situation what happened being raped and still wanting to have the child, my mother threatening to kill herself, and ultimately the heartache and pain it's caused me since the abortion. I regret the abortion everyday of my life to the extent I cry almost everyday over it and think even 10 years later about the child I should have had and how she would have been apart of my family, what my son's would think of her, and on and on.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think that some women should be allowed to have an abortion if the pregnancy occurred due to rape or incest and the mother's life is in danger. With that said, I was raped, and yet I wanted this baby. My mother forced me to do it but threatening to kill herself if I didn't do it. If an abortion is going to occur based on the criteria I indicated or any for that matter, more than one prior visit of a few mins. needs to occur. It should be a decision made over the course of a least a week with the mother being advised in depth about the procedure, long term emotional and physical effects, ensuring it's of her free will free from threats or force, being advised of other alternatives and their outcomes, and speaking with both a psychologist and a mother who aborted her baby and those consequences.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Green

My name is Erin Menzel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

10/03/2000

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I wasn't informed of the emotional consequences. I was not told of the overwhelming grief, guilt and depression that occurs. It took me over three years to get out of the depression that occurred because of the abortion, through therapy, faith and love I finally came out of it. I still think about that little baby I could have had, I still think about what a huge, terrible mistake I made. I have two children now and I am not sure what I will tell them, or if I will. All I know is that it was the worst thing I have ever done in my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father and his girlfriend

9. How has abortion affected you?

Well it has affected me in many ways that have altered my life. I had severe depression for over three years, I finally came through it by placing my faith in God, that God forgave me. If I hadn't of done that I would be dead right now, I was very close to suicide. I for a long time could not look at a baby without looking away with guilt and pain. When my husband and I decided to have kids I didn't think I would be able to because I thought it would be my punishment for killing my first baby. But I do have to beautiful daughters now, so I know that I'm forgiven. But somedays I still can't forgive myself. I still feel like if

anyone knew that I had an abortion they would look down on me and think I am a terrible person. In a lot of ways it stole my self-esteem and my sense of worth. I'm slowly recovering, but now that I think about it I'm still struggling.

10. How has your abortion affected others in your life?

Well, I married the father of the baby I aborted because of guilt. So that has affected him, as he still harbors bitterness towards me because of it. My Mom lost a grandchild, lost me in a way because I'm not the same person I was before and I lost a bit of myself. I don't trust friends enough to tell them about the abortion, so I don't truly trust people. I didn't talk to my father or his now wife for over 5 years because of the abortion. I was so angry at them for convincing me it was the right thing to do, so angry at myself for letting them convince me I would be a terrible mother. It definitely ruined my relationship with my father.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them do not get an abortion no matter what. I would tell them the emotional consequences to getting one, that it doesn't make anything better. I would tell them that there are so many good people out there that would love to adopt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can killing a baby be legal? The court system charges a person that murders a pregnant woman with 2 murders, why is it okay to abort a baby? Please save these babies lives and save the souls of the mothers, there is no good reason to abort!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Dane

My name is Mary Olson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

07/19/1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction ?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was just tissue at that stage.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling. I called a number on a billboard and it was planned parenthood. They made all the arrangements for it. I went, had it done and was sent on my way. I started bleeding and the cramping was so bad after I left that I thought I would die. I had left town right after the procedure so I called them and they said to lay down and keep my legs elevated. The bleeding finally subsided later that day but it was very frightening.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It was my decision.

9. How has abortion affected you?

It is something you never forget. If it wasn't for knowing the Lord and having asked for his forgiveness and grace I know I wouldn't be able to live with myself. Even though I have been forgiven, I still struggle with being able to forgive myself. My first (wanted) pregnancy ended with a miscarriage and I thought I was being punished. I have been blessed with two wonderful Son's and one Stepson. I am 54 years old now and like I said above, my past is really always present even to this day. YOU NEVER FORGET.

10. How has your abortion affected others in your life?

This election year is when I told my family because of how important it was to vote for a prolife president. That was extremely hard but they all understood. My Stepson and his wife one year ago had

an abortion because she has CML(leukemia) and had been on a very strong drug so she wasn't suppose to even get pregnant. She did and the Dr's told her that she had to have an abortion immediately because of the deformities that the baby would have. I tried talking to them first of all for the fact that it is wrong and that they shouldn't only want a perfect baby. I later did some research on it and the deformities that were possible were fixable. I read about women on the same medication who went through the pregnancy and the babies all had minor problems. I informed them of that but my Stepson said that she already had her mind made up and that was that. I felt so inadaquate for not being able to talk them out of it. This was our grandchild and I wasn't able to do anything about it. She was given a pill(s)and it took a couple of days for it to occur. During the hardest time when my stepson should have been there for her, went to a bar, got drunk and drove off a country road totalling his car and getting hurt himself. They are separated at this time and he is on depression medication. She is having a hard time also. No matter what the reason's for the abortion it effects those involved forever.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion changes your life forever. People don't realize that the so called problem of being pregnant doesn't just stop with an abortion. It remains with you for the rest of your life. You always wonder if the baby (not blob of tissue) would have been a boy or girl, what would they have looked like, what they would have done with their lives and how they would have contributed to this world. I have read so many times about the lives of women that choose to have a baby that wasn't going to be perfect and they were so blessed in so many ways that one couldn't imagine. People are so afraid of imperfection or of having a baby interfere with their lives. If a pregnancy happens let the Lord make that decision, then all the burden is off of you otherwise you will live with unrest for all of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is morally wrong and no matter what your beliefs are, it has consequences that no one can imagine that effects you for the rest of your life. You may be able to tuck it away and not think about it for awhile but it really is always there. ONE DIES AND ONE SUFFERS.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Milwaukee

My name is Michelle Piotter. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only discussion I recall was at the teen center that referred me to the abortion clinic. At that teen center my baby was referred to as "tissue" or as a "problem" that could be fixed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I guess there was some talk about risks of the procedure to my body, but never discussed risks to my emotional wellbeing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had two abortions. I was unconscious for the first. I was awake for the second, and I have clear memories of the emotional horror I experienced as I heard the sounds and saw the sights of abortion. It was then that I began to consider what I truly was doing. In the years immediately following the abortions, I (subconsciously) turned to alcohol and drugs for treatment of shame and depression. In the midst of this new lifestyle I became pregnant a third time and chose life for this baby because of the experience of the second abortion. My pregnancy and the birth of that baby caused me to realize even more so what I had done. I lived under a cloud of depression until I went through spiritual and emotional recovery over 15 years later. I no longer hate myself, and I hope to allow my pain to be turned into help for other women who are considering abortion or recovering the wounds of post-abortion.

10. How has your abortion affected others in your life?

My parents experienced devastation upon learning the truth. PAIN!

11. Based upon your experience, what would you tell a woman considering abortion?

I would try to help her understand that she is carrying a life. I would tell her that I ended my first two pregnancies through abortion because I thought an early term pregnancy was not a life yet. I would encourage her to see life as the only option AND the best for her AND her baby. I would want her to know that abortion does not solve the "problem", but in fact it only brings on a LIFETIME of problems (including shame and regret) which are more difficult and enduring problems than carrying the child to term would ever bring on!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Too often people, especially young people, use our legal system as their moral guide. If the law says it is legal, they assume it is also moral. Women NEED to KNOW what is in their womb (education and ultrasound perhaps). Abortion IS murder! It is the taking of LIFE...so where do we then draw the line to say murder is wrong? When abortion is illegal...some women will still proceed with the illegal abortion and therefore some of those will be hurt or even die. I deserved to die when I was in the process of committing murder. Why should we protect murderers. ALSO, MORE LIFE IS LOST when abortion is legal because it is easy...so, more women are having more abortions! I KNOW that if abortion were illegal when I had either of the two, it would have been a GREAT deterrent causing me to pause and consider other options.

It affects every aspect of your future. When you realize that you murdered your own child, it is devastating. Don't listen when someone tells you that your life would be better not having to deal with raising a child. You will never forget that you have ended the life of someone who might have done something great and that you are a murderer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is NOT a woman's right to do whatever she wants with her body...that baby is a separate individual

NOT a "blob of tissue" as Planned Parenthood would say...if we take a baby from its mother's body, it's MURDER...plain and simple. Murder has always been against the law; this is NO different

My older sons (18 & 17) are aware of what I've done. They know some of what I've experienced. They now are BOTH taking a stand against abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I'd share my experience; that the price is too great. I'd tell her the truth - that she's carrying a living being that's a part of her and once that's gone she'll experience a loss that's she's never felt before. A part of her will be missing. She doesn't have to be ruled by fear. I'd tell her about other options and that there are people who will stand with her and support her through it all.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Anyone who has had a child sees the future in them. A child brings hope and joy. We are destroying not only our future by killing our babies, but we are also devastating the lives of those who have had an abortion! Lives are being destroyed not just through the abortion procedure itself, but also from the effects of it on those who experienced it! You can't just take a life and not have consequences. And we are talking about a "life".

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Jefferson

My name is Dawn Truelsen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Little Rock AR

01//1981

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a 'blob of cells'. I was also told it would not hurt the baby or 'cells' at all, and that I could go on with my life as if I had never been pregnant. They were wrong on all counts. My life was never the same after that.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the guilt and agony I would experience afterward. I went through years and years and years of depression and self-hating behavior afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby's father

9. How has abortion affected you?

I had been called a murderer by people picketing the abortion clinic at the time, and those voices rang in my head day and night, dreaming and awake. 2 years later, I had another abortion. When I first saw and heard my living daughter's heartbeat on the monitor, I started crying. 3 years later, I had a son. I vacillated between being loving and hateful to my children. My guilt ate at me day and night. Then, in 2005, I spoke with a crisis counselor who told me about a bible study for post-abortion women. That bible study and those women saved my life, my sanity, and also that of both my children. I had no where to turn, no one who understood. Everyone said I should just get on with my life and let it go. But I

couldn't. They were my children, too. Those women understood. They had been there. Our stories were different, but our pain was the same. The longer we had gone without being able to talk about it openly, the deeper the pain went into who we were. Naming our children, and openly grieving them at the memorial service, changed my life. The first 3 months of every year are still very hard for me (my 2nd abortion was on 3/2/83). My daughter bought for me a CD by 3 women who had abortions titled "Unseen Hands". I could NEVER have another abortion, under any circumstances. Not rape, not for my own health, not if they would only be a vegetable. They have life at conception, and it is not my place to take it from them.

10. How has your abortion affected others in your life?

My ex-husband is haunted by our dead child. He was afraid to love our living children for fear of retribution. My daughter prays for her siblings every day. My son will not discuss it at all. But they have both expressed a wonder if I would have killed them.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! Go through the pregnancy and give it up for adoption if you cannot raise the child on your own. But if you kill it, you will be haunted every moment of the rest of your life. Do not take your child's life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I cannot tell you what choices to make for yourself. All I can do is tell you what my "choices" have done to me. It is not worth it. Please do not make it easy for women and girls to set themselves up for a life of guilt and depression, or to be harassed into killing their own child in order that the birth father can avoid having to support the result of their fun. That 'blob of cells' will become a child. It will not become a banana or an orangutan. It will be born as a human child. Do not take the chance of depriving our world of another Mozart or Michaelangelo. Abortion is not a choice, it is physical murder for the child, and emotional murder for the woman.

The State of WI

My name is M T . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pleasanton CA

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They explained the procedure, but did not inform me of what was going on with the baby, that it had a heart beat, brain activity, movement...

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not explain the emotional trauma that can come from making this life altering decision, that it can haunt you for the rest of your life. They made it very clinical and did not provide me with information to give me all the other options before making this decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

mom

9. How has abortion affected you?

I have had numerous dreams about the procedure and what I did as if I relive it over and over again. I carry guilt that cannot be relieved. I still think about my baby and how old he/she would be, what they would be like. I regret me decision greatly.

10. How has your abortion affected others in your life?

It has blocked my emotional connection with my husband since I have become more emotionally numb and I fail to connect with him on an intimate way. I protect myself from gettign hurt by building walls to

keep people out.

11. Based upon your experience, what would you tell a woman considering abortion?

I wouldn't wish it on my worst enemy. There are too many other options to consider. We don't know the future, what God has planned for our lives. God can provide, God has a plan and this really isn't a choice. It will hold you captive for the rest of your life and you are making a decision for someone that you have been charged to care for. Don't be so selfish that you fail to consider the true consequences of your actions. You will be held accountable for this.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is harmful to the baby, to the parents and to those closest to us. It is life altering and we are not capable of considering all the consequences of our actions. WE do not know what the future holds, so by allowing people to make this decision we are allowing them to make uninformed choices that will negatively impact them and those around them for years to come. Who are we to make the decision to end another persons life at our own whim. This is the same as terminating the life of an invalid because of our own selfishness. People know in their own hearts that this is wrong. Unfortunately most are too self serving to consider their actions and then they are stuck with the consequences. It is truly tragic. Stop playing GOD.

husband - not so much pressure but suggestion

9. How has abortion affected you?

I have dealt with depression for the past 30 years, as well as anxiety; I have trouble sleeping, have many fears; I'm borderline hypertensive and diabetic. I've been on and off of all kinds of medication. Was divorced 20 years ago. My life is very emotionally unsettled, unstable, I've had all kinds of counseling, but no one ever helps with the abortion issue...no counselor knows how to deal with it.

10. How has your abortion affected others in your life?

It hasn't because no one knows about it. I've kept it quiet except for a few rare exceptions...a few friends, and counselors.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. You'll regret it for the rest of your life. And your life will be miserable. You'll suffer emotionally as well as physically.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can murder ever be legal? There are two victims in an abortion...the baby who is killed, and the mother who has to live with the title "killer" or "murderer," haunted forever by a selfish act, living a life that is scarred by depression, anxiety, guilt and stress which result in health issues such as hypertension, diabetes and digestive disorders.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

all i knew, was that i didn't have to "give up my life" to take care of a baby.

5. Were you adequately informed of the consequences of abortion?

9. How has abortion affected you?

I have dealt with such guilt for 19 years. i am saddened to finally realize that i "murdered". i took a life.

10. How has your abortion affected others in your life?

friends who know have been so encouraging. the hardest thing was to tell my husband, before i married him, that i had an abortion and i didn't know if we would be able to have children together.

11. Based upon your experience, what would you tell a woman considering abortion?

I have decided to glorify God through my experience and help educate teens as to how their decision WILL affect them for the rest of their lives. That the CHILD they are carrying is ALIVE, does FEEL, does BREATH, does have a BEATING HEARTBEAT, and most importantly is a child of God. The child and quote on quote responsibilities will "go away" with this procedure, but the heartache of knowing you were RESPONSIBLE for taking a precious little life and ending it...will haunt you FOREVER!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In this country we declare one is alive or dead by the activity in their brain or the beating of ones heart. 18 days from conception that little heart starts beating. 5 weeks from conception the brain is active. Their is LIFE in the womb. People who have committed haneous crimes, are given food, water and comforts in this life until it is their time to pay for the crime they comitted. What have these unborn LIVING babies done to deserve a death sentence? According to the medical community...if your heart is beating and your brain is active - YOU ARE ALIVE.

The State of WI

County of Walworth

My name is Annette I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

03/25/1989

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

uncertain, suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember being told that it was a baby, just tissue, non viable tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember anyone telling me how much it would hurt and haunt me forever afterward. It is the most agonizing pain in the soul that nothing can numb. You cannot erase a human life. You cannot press 'undo' and have it 'undone'. God creates life, and it is the most painful regret of my life that i destroyed a life that God created.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has haunted me ever since...knowing that i have taken a life that God made and left a hole in this world that this child was meant to fulfill, a child for whom God had plans for good and not for evil, to give that child a future and a hope. There has been a hole in my heart and in my life ever since.

10. How has your abortion affected others in your life?

My daughter is an only child - and knows of what i did - and that there should have been a brother or sister to fill the lonely void in her life too. My parents and family also suffered because they knew what i did and my sin stained their lives too. Only through the forgiveness of Jesus Christ, who paid for my wretched sin on the cross, who washed away the stain of my sin and made me a new creation in Christ, forgiven, with a new heart, am i able to go forward, but still knowing that i have destroyed a life God created, but thanks to Jesus, my precious LORD and Savior, i am forgiven. All can be saved the

same way, no matter who they are or what they have done, Jesus will forgive and heal those who come to Him, who turn from their sins and ask Him to be their LORD and Savior.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Please don't. You will regret it forever, and you cannot undo it. Please give your child up for adoption if you cannot keep it. So many loving families want children, please give your child a chance for a happy life. Please choose life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. There is no other way to say it. It is killing a life that God created for a purpose. We do not have that right. It is not a matter of privacy. Even in cases of rape and incest, that child is still alive and innocent and though it is so hard i do have compassion,love and understand, but please, consider this little life - that does feel pain- terrible pain - and let this little child live. Give them up for adoption. So many cannot have children and will love that child - no matter what disabilities it has - for who it is - a child of God - created in His image and likeness and for His great and loving purpose. Abortion is staining our nation with the blood of innocents. God is loving, but He is also righteous and He is the ultimate Judge to Whom we must all give account - whether people believe or not, He exists. This sin of murder is staining our nation and God will have to judge this sin, as He did in the days of Lot, and Noah, and Jonah (see in the Bible in Genesis 5-9, 18-19, and the book of Jonah). God judges nations for their sin. He can send famines, disaster, war, disease and economic woes. We as a nation must turn from this sin and stop labeling murder as 'choice'. Jesus Christ is the Savior of the World- He is the bridge between our sin and God's holiness. He laid down His life for us on the cross so that we could be forgiven and be restored to a loving and obedient relationship with our Heavenly Father, Who created the world.

3. What type of abortion was performed?

Do not know

Yes No

It was after it became legal. I called a number I found in the ads in the newspaper and they referred me to this clinic. I made an appointment and that was it.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I wasn't pressured, but my boyfriend suggested it.

9. How has abortion affected you?

I think about it all the time, especially when the topic is brought up. It was the worst thing I ever did in my life. Had I been better informed, I would like to believe I would not have done it.

10. How has your abortion affected others in your life?

Nobody really knows. My husband was my boyfriend at the time and I know he has thought about it too. My youngest son also knows.

11. Based upon your experience, what would you tell a woman considering abortion?

I guess I would tell her not to do it. That it took me a long time to realize that God forgave me and that I needed to forgive myself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That this procedure took away my only daughter (for I believe that the baby was a girl). I never got the chance to know her. I was only 18 at the time and was scared and this seemed like a way out. Little did I know, it would haunt me for the rest of my life.

The State of WI

County of Milwaukee

My name is Linda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

01//1975

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

Surgical-suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received more information regarding the procedure than what I was actually doing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only briefly told it was not to be taken lightly, but I was not given specific consequential information.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I did become depressed over the years to come which I finally have dealt with by trusting in my Lord, Jesus Christ and knowing I am forgiven. He blessed me with a daughter 7 years after the abortion.

10. How has your abortion affected others in your life?

I'm sure it has affected my husband who was at the time my boyfriend and financee. We've not really discussed it since and I feel it's had an inward affect on him.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that any reason she is having for wanting to end the life of this child will not be justified when she considers her life is changed with negative consequences involving her own health and life and then the life which will not happen for this newest of creation and she will regret it. This will never have a peaceful ending without the grace of almighty God.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell a court who believes they are helping a woman, that they are not. They are not because they are allowing her to harm herself in many ways and kill a human being. It may be a woman's own body but she is separate from the child growing inside her - they are two people. One person should never have the legal right to take the life of another person unless in self defense. The child is not threatening the physical life of the mother in most all cases but should it ever be the case, then and only then, a doctor would make the obvious but hard decision. Therefore, our legal system should not encourage women to kill for no reason and put themselves in a very harmful place. Laws are made for people's good and not their demise.

10. How has your abortion affected others in your life?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is taking a life. An innocent life. Have the women have an ultra Sound. Have the procedure explained to them. Tell the women organizations that will help them. Abortion should not be legal it hurts women and all those involved. (Please note: You may contact me via US mail or e-mail)

9. How has abortion affected you?

My life was turned into a downward spiral of disaster. I was a walking time bomb full of anger, for three years, I kept my secret inside. I finally realized one day, what I done, but that was the start of years of torment. I struggled with alcohol, drugs, criminal charges, and numerous relationships trying to mend my brokenness.

10. How has your abortion affected others in your life?

My family never had a chance to know my child.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not the answer. Please think of your child, it is a child, not just tissue. Your child has a plan and a purpose for his/her life and you do as well. Consider all options and do not make a rash decision out of fear. Also, I would tell in details how abortions are performed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It is not the solution to women's unplanned pregnancy. This country was founded upon Christianity, therefore, abortion is wrong and immoral.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has left an emptiness and a sense of guilt and self loathing. I wish there had been more help to make me realize that no matter how things looked, it would be alright to have the baby.

10. How has your abortion affected others in your life?

besides the fact that it ended the life of my unborn child, I robbed everyone in my life of the relationship with that unborn child

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she doesn't have to go through her pregnancy feeling alone. There are people willing to help and to help her understand that although the abortion procedure lasts just a short time, the repercussions last a lifetime. A part of herself dies with that child. I would help her understand the value of the life that is inside her and the potential in her and her unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Had abortion not be legalized, I would have searched for other alternatives-life giving alternatives-and

carried this child to full term. I was young and made a rash decision based on the lack of maturity I had at the time. It was an irresponsible act born of another irresponsible act. An Unborn child should not have to pay the ultimate price for it's parent irresponsibility.

That it should not be legal because it is murder and as a woman that has had an abortion it is not in the best interest for women. Women only end up ashamed and regretting what they did. Abortion should not even be an option. Give the innocent babies the option if they want to live or die.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one said anything much. After leaving the main waiting room, the woman led me to a smaller waiting room. I asked, "Is it a baby?" The nurse said, "No, it's just a blob of tissue."

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told about any negative consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At first, I didn't think about it. I felt relief that the "problem" was gone. It wasn't until about 5 years later, when I was married and had my first child, that I realized I had murdered my first-born.

10. How has your abortion affected others in your life?

?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is murder and that the best decision would be to deal with the situation. We only make things worse when we try to avoid consequences. The baby dies a horrendous death and we are never the same again. Ever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a person is a person at conception, as all medical books state...They have everything needed to be

who they will be, they just need time to grow, as with newborns, toddlers, teens...and it is illegal and wrong to kill a child in the protection of their own home, wrapped up in their own blankets in their own bed (though acquired by parents)....then, how in the world is it alright to kill that same child in their specially prepared womb, when they are the SAME child, just in different places. Yet, both places are maintained by their parent.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WV

County of Ohio

My name is Roe I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

//1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I am not sure, only that later I had to also have a D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given an explanation of the nature of abortion, only told that it would take care of an unwanted pregnancy; there was no counseling involved at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

If by consequences, you mean was I told that it would stop the pregnancy from coming to term, yes I was told that. I was not informed, however of the possibility of infection, or other complications, including emotional ones.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Although it has been thirty years since my abortion, I have never forgotten the child that was lost by my decision to have an abortion. He would have been my second son, and I am haunted by the question of who he would have become if he had been allowed to live;that murder is something I have had to live with all my life.

10. How has your abortion affected others in your life?

The backlash of abortion affects your entire family in so many ways; for example, my mother was devastated when she found out, and blamed me for the loss of a precious grandchild;I still remember the accusing letter she wrote, I cried about it for days.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell any woman facing an unwanted or unexpected pregnancy to find another option, because

the abortion option carries such heavy costs it is not really a reasonable decision. Killing another person because of your own careless behavior or mischance will not improve your life, it may destroy it. Sometimes the consequences are not visible for years, and the aftermath can be seriously unpleasant. I would ask her if she is really willing to pay the price for the rest of her life. I would ask her if she knows the loss of a child is a grieving that never ends, especially when that loss is by your own hand.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that the act of murder is illegal, even if it is done 'in utero', and the murder of innocents carries with it consequences are far-reaching, even to the extinguishing of our so-called humanity. I would say that it is time people were held accountable for their actions; and if they are going to have sex, they might get pregnant, and that dealing with a child is part of that. Society does not benefit when the courts remove accountability, and in the process, legalize infanticide.

Abortion will have life long consequences on you and wound you deeply. It will ruin your life with your spouse, and it will harm any other children that you have.

Abortion takes away the consequence of sexual relations and thus takes away life and life purpose. It increases suicide rates, domestic violence and indulgences in pornography.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew at the time is that an appt. was made, the money was paid and then you had the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. Nobody told me that this would affect the rest of my life in a negative way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My signifigant other at the time.

9. How has abortion affected you?

For along time I couldn't be around babies and did not want to look at the pictures of embryo's. I have felt guilty and used alcohol in the past to numb me.I have been too ashamed to tell anyone what I did, and still nobody knows.I have not dealt with what I did. I have tried to hide it away and it has affected me mentally, spiritually and emotionally.

10. How has your abortion affected others in your life?

I feel I have become joyless, with little emotion except for pain, guilt and shame. I am not the person I was before the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. Find someone to take your baby. There are thousands of couples who want children and can't have them. It is only nine months out of your life. Don't end uplike me, forever feeling like you will never be forgiven or going through life not feeling anything only shame and guilt. Believe me you think you will forget it but you don't.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

it's murder anyway you look at it. I don't think you realize the long term consequences of womwn who choose to do this. It is the same as Hitler did to the jews. Tried to " get rid of them" the same way women try " to get rid of thier babies". Millions of babies have died at the hand of abortionist physicians. Our country was founded On God, and unless we stop this senseless killing of babies, everyone will reap the consequences.

QUESTIONS

1. Where and when did your abortion occur?

Rapid City SD

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't given any information at all. I was told I was pregnant and how much an abortion would cost and when to show up for it. (At night, in the dr.'s office) Other than that, I have no recollection of being informed of anything else. Nothing was said about fetal development. I did not think of it as killing a child in any sense at the time. I did not know that a baby had started to form already and was developing. I had 2 abortions in 1976, 3 mos. apart, & a 3rd one in 1992. I was unable to take birth control pills due to juvenile diabetes, and was not informed of alternate birth control methods, until after the 2nd abortion when an IUD was suggested which I got until I could no longer have one for medical safety reasons.

5. Were you adequately informed of the consequences of abortion?

Yes No

I have no recollection of being told that there could be any possibility of consequences, medical or psychological or any other. I believed it was safe, since it was legal, and I knew someone else who had one. (Although she never talked about it)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My sister, kind of.

9. How has abortion affected you?

I had a serious alcohol problem. I had bulimia and when that ended, still a long-term addiction to sugar, and no self worth at all. I had several very abusive (physically, emotionally, & sexually) relationships with men. I have had serious, clinical depression and have been very suicidal at times. I have been on & off (mostly on) anti-depressants, (large doses) for 24 years.

10. How has your abortion affected others in your life?

I began to withdraw from family and became very secretive. I allowed abusive treatment from men, my sisters, friends (?), acquaintances, co-workers and bosses. I felt beneath everyone and like I deserved nothing in life. I am 58 yrs. old and have never been legally married. I have always felt undeserving of a kind, supportive, loving husband. I was too ashamed to attend church for years, & when I occasionally did, I sat in the back & didn't feel worthy of receiving communion or interacting with any church members. It has interfered with all my relationships with men, family, friends. I have feared rejection from all of them if they knew, especially because I had more than one.

11. Based upon your experience, what would you tell a woman considering abortion?

You will regret this for the rest of your life. It will become a wound in your heart & soul that will never, ever heal completely. I know this from experience. Having a child will never, ever be more difficult than living with the consequences to yourself of having an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion is not harmful, why is there such a huge movement in the "Abortion Recovery" field? Why is it necessary to have "Abortion Recovery" classes, bible studies, and retreats? Why are thousands of women getting 'abortion healing' help? Why won't women admit to it, even to their doctors? Why is there such a huge stigma and shame for post-abortive women? Why have the numbers of women who take antidepressants surged to the millions since abortion became legal? Why do millions of women have breast cancer despite their healthy living & lifestyle? Abortion violates the strongest natural instinct women have. Why do pro-abortion people exhibit such hostility? They know it's unnatural and against women's own moral values to destroy their own young. They know a woman's strongest natural instinct is to protect her young.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court needs to understand that this is breaking a commandment. It is murder!! No matter how you try to look at it. It is taking an innocent life!!! There is other alternatives. Adoption and family members!

HOW MY ABORTION AFFECTED ME

The State of WY

County of Fremont

My name is Robynn Gabel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

08/13/1982

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Vacumn

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the depression or the guilt that would follow.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I should have known when they gave me the Valium right before the procedure it was to calm my reaction to what was about to happen. Immediately afterwards they took me to a room where other women lay on couches and not one of us was not crying. For over 10 years I suffered bouts of depression and guilt for what I had done. It took counseling from both my pastor and therapist to finally accept I had killed my own child all for a moment of thinking it would be an inconvenience. I still struggle at times in April, the babies due date, with wondering what that child would have looked like, or been like.

10. How has your abortion affected others in your life?

I had two previous children. When they became teenagers and faced decisions of their own I shared my story in an attempt to cleanse my soul. They were shocked, angry they had been denied a sister or brother. Eventually they came to accept it and forgive me. My second husband told me he would have still loved me even if I had been pregnant and he would have raised that child also. He felt deeply saddened at my choice and not including him in it.

11. Based upon your experience, what would you tell a woman considering abortion?

It is going to affect you. Sometime, somewhere you are going to wonder. What would the child have looked like? What would they have done with their lives? You can have dreams, depression and not even know that it is because of what you have done. It is an un-natural act, it is murder and eventually no matter what you tell yourself like it is just a lump of cells, or it isn't really a child, or it's my body, it still haunts you in some way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just because this human being isn't fully developed, it is still a human being that has rights. We don't euthanize Granny because she has become senile and doesn't remember anyone and she is a burden on society. Why? Because she has rights. But so does that fetus. It affects everyone around you, like a pebble in the pool and is a burden eventually on society because of the health issues and mental health issues it creates. Like smoking, there are bad side effects to both mind, soul, and body.

My name is Lana Horton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield MO

07/27/1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

The only standard abortion that was offered at that time.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have had 2. The other one was in 1981 in COlorado Springs, Colorado. I do not recall being given any information as to the fact that the child was any more than a blob of tissue. Or that abortion would devistate every area of my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

My parents

9. How has abortion affected you?

This is rather a lengthy story but the short of it is that it effected every emotion I felt and every decision I made. I was a self destructive drug addict for almost 25 years, which is a testimony in itself. I was filled with hate and anger and did every thing I could to cover up my pain including several suicide attempts. I never felt I was diserving of anything good. I felt worthy of nothing but punishment.

10. How has your abortion affected others in your life?

I know now that it effected my parents almost as much as it did me as well as every person who tried to care about me. I would let no one really care for me. I would purposely drive people away. I lashed out at everyone. And more.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, Please reconsider. Not only are you taking a live but the decision to abort your child will have repercussions that you could never imagine. Not mention the fact that it does damage to your body.

Your emotions, your mind and every other area of your life will be negatively effect every area of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not only does life begin at conception but the effects that abortion has on the woman can be devistating. There are serious depression issues, suicide attempst, substance abuse, the inability to bond with other children. Which is in fact with the assumption that a woman is even able to concieve a child after an abortion and then if she does concieve if she is able to carry a child to term because of the damage that can accure to the uturis.

Los Angeles CA

//1974

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was very sick and very scared and I just went to a doctors office and the arrangements were made.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, everyone was very "supportive" and did not tell me any of the consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I live with the regret every day.

10. How has your abortion affected others in your life?

I have not had the courage to tell many people. I did go through a post abortion counseling program. That was very helpful.

11. Based upon your experience, what would you tell a woman considering abortion?

Never

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You may think that allowing women to kill thier babies is a good thing, but until you have killed someone yourself, you will never know the consequences. We were not created to kill other human beings. And it does not matter if the doctor is actually doing the killing or if I did with my own two hands, killing is killing, no matter how you look at it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WY

County of Fremont

My name is Kelly Murray. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Billings MT

06//1999

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Although I have answered yes here, I still believe there is need for explanation. When a young girl who is scared to death about everything that's going on around her is explained medical terms, it doesn't sink in right away. Plus, I was told that not many women feel bad after an abortion--WRONG! I don't personally know any women who've had one, but from reading these declarations, I see that the majority of women suffer greatly for years.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that ten years after the abortion I would still feel guilty. That I'd have problems in my marriage to a man whom I didn't even know at the time of the abortion. That I'd feel like wrapping barbed wire around my neck or jumping into the creek by my house in sub-zero temperatures. Or that when I look into my baby's eyes and ache for those eyes I never saw.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother suggested it.

9. How has abortion affected you?

I've had marital problems, suicidal thoughts, depression, guilty feelings. Today I'm crying about it as though it were the day it happened. I don't recall much from my childhood or even recent events as a result of blocking my memory to protect myself from that horrible memory that I made that day. I still see my little baby on the green and black ultrasound image, sucking her thumb. Part of me died with her that day.

10. How has your abortion affected others in your life?

There are family members who don't know, maybe never will. My depression has made me somewhat psychotic, putting a strain on my loving husband who is having a hard time trying to understand where I'm coming from. I still haven't forgiven myself for going through with it, or my mother for suggesting it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her absolutely do NOT do it. Put the baby up for adoption or raise the baby yourself. I would show her the 3-D ultrasound images of fetal development that I got the second time I became pregnant. I would tell her how I saw my daughter's heartbeat on ultrasound when I was only 5 weeks pregnant. I would tell her that even though it may be hard to go through with the pregnancy now, an abortion will haunt her for the rest of her life, but she will never regret giving life. Being pregnant made me feel like such a woman and giving life made me feel like God's creation more than I have ever felt like I was made for a reason. If I could go back to that abortion clinic on that day, instead of thinking "no, stop! Don't do this, this isn't what I want!" I would SAY it-no, I would SCREAM it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Something that makes a person torture themselves this way should not be legal. I have been depressed, psychotic, suicidal, and have cried more over this one isolated incident than I have ever cried over anything in my life. I would hope that if I were captured by an enemy and they were putting me through this torture that my government would step in, rescue me and put my captors on trial. But, in this case, my captors have been given free reign to continue doing this type of torture to millions of other women legally. It's an atrocity what our government is letting the enemy get away with these days.
