United States House Committee on the Judiciary
Honorable Robert Goodlatte, Chairman
Honorable John Conyers, Ranking Member

RE: IIUSA Statement in Advance of House Judiciary Committee Hearing about EB-5 Program

Dear Chairman Goodlatte and Ranking Member Conyers:

Invest In the USA (IIUSA) is pleased to provide the Committee this statement that articulates the economic impact of the EB-5 Regional Center Program (the "Program"). IIUSA believes in the Program as an example of 21st century economic development policy that uses globalization to solve real policy objectives. The Program benefits a broad range of industries in diverse regions across the country and has broad, bipartisan support in Congress. IIUSA is the national not-for-profit industry trade association that represents over 290 federally designated Regional Centers whose members are responsible for 95% of all capital raised through the Program, and as such we wish to offer our support and assistance for the Program's reauthorization before September 30th, 2016.

The Program has produced a dramatic increase in much-needed foreign direct investment in the US, growing from a few hundred million dollars per year in 2008 to over a billion dollars per quarter in 2015. Exponential growth over 1,200 percent over the past eight years brings both opportunities and challenges. A comprehensive peer-reviewed economic impact study found that from 2010-2013 alone, the Program has contributed \$9.62 billion to U.S. gross domestic product ("GDP") and over \$2.08 billion to federal/state/local taxes revenues while supporting an average of over 29,300 jobs per year (over 42,800 and 41,200 in 2012 and 2013 each respectively). As of January 2016, over 730 Regional Centers have been designed to promote economic development in the United States, a 2,800% growth since fiscal year 2008. These organizations, designated and regulated by U.S. Citizenship and Immigration Services (USCIS), facilitate investment in job-creating economic development projects by pooling capital raised under the Program.

However, by the end of fiscal year 2015, over \$8.68 billion EB-5 investment is still waiting to be injected into the EB-5 projects that promote regional economic development. IIUSA supports reform efforts to address those challenges and to provide increased stability, program integrity, and economic impact.

In fact, when comparing the immigrant visa usages by EB-5 with the other immigration programs in U.S., you will find that the Program annually accounts for less than 3% of total immigrant visa issued by the country;

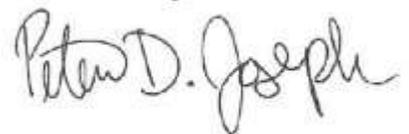

while it generates almost \$4.5 billion in FDI for U.S. economy, contributes for billions of dollars in U.S. GDP, and supports tens of thousands of U.S. jobs as well as billions of dollars in federal/state/local tax revenue – all at no cost to the taxpayer.

All data points referenced above, including those derived from IIUSA’s peer-reviewed economic impact studies, are conducted with the cooperation of the USCIS Freedom of Information Act (“FOIA”) division. It is imperative that government data is released in a timely manner in order to conduct quantitative studies on the EB-5 Program that benefit the public good.

Lastly, a list of 347 EB-5 projects located in 36 states is also attached, with data collected from publically available information. This sample of projects reflects the diversity of EB-5 investment throughout the country both geographically and by industry. This list of projects span coast to coast and include projects both urban and rural in industries ranging from infrastructure, hotels, education, healthcare, real estate development/redevelopment and more. In fact, more than 170 different types of development projects are included, showing how EB-5 investment reinvigorates the communities and surrounding areas in which they are built.

IIUSA thanks the Committee for the opportunity to provide the enclosed information. We welcome any further questions or comments and look forward to offering our support as well as assistance to ensure permanently reauthorization of the EB-5 Regional Center Program. It creates jobs for Americans at no cost to the taxpayer – a true 21st century tool of regional economic development.

Sincerely,

A handwritten signature in black ink that reads "Peter D. Joseph". The signature is written in a cursive style with a large, prominent "P" and "J".

Peter D. Joseph

Executive Director
