
About Us

ConocoPhillips is the world's largest independent E&P company based on production and proved reserves.

Across our 17 countries of operations, 10,400 people work in a truly integrated way to find and produce oil and natural gas.

Our technical capabilities, asset quality and scale, and financial strength are unmatched among independent exploration and production companies and uniquely position us to compete around the world.

ConocoPhillips is committed to the efficient and effective exploration and production of oil and natural gas. Producing oil and natural gas and getting them to market takes ingenuity, technology and investment. Our innovative, collaborative efforts yield products that improve quality of life globally while producing economic benefits with far-reaching influence.

Who We Are

We are challenged with an important job to safely find and deliver energy to the world.

Our History

We have a long and proud history of finding and producing oil and gas. Through that history we have become a technical company committed to innovation and the responsible development of energy.

[LEARN MORE](#)

What We Do

We explore for, produce, transport and market crude oil, natural gas, natural gas liquids, liquefied natural gas and bitumen on a worldwide basis - energy that plays a foundational role in enabling global economic development and human progress.
