Dear Chairman Nadler, Ranking Member Jordan, Chairman Cicilline and Ranking Member Buck:

We write to thank you for your bipartisan exploration into competition in digital markets over the last two years that has resulted in today's markup of H.R. 3816: The American Innovation and Choice Online Act. Gatekeeper platforms' anticompetitive practices have gone unchecked for too long, stifling competition and threatening innovation. The American Innovation and Choice Online Act is an important step in addressing anticompetitive conduct in the App Store ecosystem, and a clear sign that momentum has shifted as the world is waking up to the need to demand fair competition in the App economy. Spotify commends this bipartisan effort to ensure true consumer choice and a level playing field for all developers.

Thank you again for your attention to this very important topic that is critical to a vibrant, innovative and thriving marketplace.

Best Regards,
